Russell 2000 Growth Index	30.58%	-3.06%	3.48%	7.86%	6.86%	12.92%	14.03%
Russell 2000 Index	25.42%	-12.98%	-6.63%	2.01%	4.29%	10.50%	12.07%

The performance data quoted represents past performance. Past performance does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Call 1-866-290-2688 or visit [www.aqrfunds.com](http://www.aqrfunds.com) for current month-end performance. Indexes are unmanaged and one cannot invest in an index. Performance shown for Class N shares prior to December 17, 2012 reflect the historical performance of the Fund's Class I shares, calculated using the fees and expenses of the Class N Shares. Performance shown prior to a share class's inception date reflects the historical performance of the Fund's Class I shares, calculated using the fees and expenses of the Class N or Class R6 shares, respectively.

\*\*The Adviser has contractually agreed to reimburse operating expenses of the Fund at least through January 28, 2021.

## About the Fund

### Investment Objective:

Seeks long-term capital appreciation.

### Reasons to Invest:

Systematic exposure to stocks with positive momentum (see page 2 for more information). Momentum offers the potential to outperform broad markets and growth style benchmarks.

Historically, momentum has been negatively correlated with value, and thus could provide diversification benefits when combined with value.[1]

### Potential Advantages:

#### Academic Research Foundation

Investment approach to momentum investing grounded in academic research dating back to the late 1980s.

#### Experienced Management Team

AQR has been implementing and trading momentum based portfolios since the firm's inception in 1998.

#### Trading Infrastructure

Customized liquidity-providing algorithms seeking to minimize transaction costs.

#### Low Expense Ratio

The Fund's expense ratio is much lower than that of the average actively managed Growth Fund.

#### Cutting Edge Research

AQR is a thought leader on momentum investing with an ongoing commitment to research and development.

## Investment Approach

- The Fund uses a systematic approach to momentum investing. A stock has positive momentum if it has performed well in the past relative to other stocks in the same investment universe.
- The investment universe for the Fund is comprised of small capitalization U.S. stocks, which are defined as those in the bottom 10% of market capitalization or that are smaller than the 1000th largest company, whichever is larger. The companies must also be among the top 3000 companies by market capitalization, and meet certain liquidity and other criteria.
- The Fund's portfolio is generally based on the following systematic approach:
  - Rank all the stocks in the Investment Universe by the total return over the prior 12 months excluding the most recent one.
  - Select the top 33% stocks with the highest rank.
  - Weight the selected stocks by float-adjusted market capitalization with a tilt towards higher momentum signal stocks.
- The Fund does not follow this approach mechanically. Rather, the Fund maintains flexibility to trade opportunistically in order to strike a balance between maintaining the desired exposure to positive momentum, while attempting to minimize transaction costs.
- The Fund utilizes a proprietary optimization process and a number of sophisticated trading techniques to manage transaction costs.

## Definitions:

A stock is deemed to have positive momentum if it has performed well in the past relative to other stocks in the same investment universe.

**Russell 2000 Index:** Measures the performance of the 2,000 smallest companies in the Russell 3000 Index.

**Russell 2000 Growth Index:** Measures the performance of those Russell 2000 companies with higher price-to-book ratios and higher forecasted growth values.

**P/B (Price to Book Ratio):** A valuation ratio of a company's current share price compared to its book value.

**P/E (Price to Earnings Ratio):** A valuation ratio of a company's current share price compared to its per-share earnings.

**Price Momentum:** Total return over the prior twelve months excluding the last month.

**EPS Growth (5 Year):** The growth of the earning per share over the last five years.

## PRINCIPAL RISKS:

*The Fund is not suitable for all investors. An investment in the Fund is subject to risks, including the possibility that the value of the Fund's portfolio holdings may fluctuate in response to events specific to the companies in which the Fund invests, as well as economic, political or social events in the United States or abroad. Securities with positive Momentum generally will be more volatile than a broad cross-section of securities. In addition, there may be periods when the Momentum style is out of favor, and during which the investment performance of a Fund using a Momentum strategy generally will suffer.*

*An investor considering the funds should be able to tolerate potentially wide price fluctuations. The Fund is subject to high portfolio turnover risk as a result of frequent trading, and thus, will incur a higher level of brokerage fees and commissions, and cause a higher level of tax liability to shareholders in the Fund. Since the Fund may also attempt to increase its income or total return through the use of securities lending, it may be subject to the possibility of additional loss as a result of this investment technique.*

There are risks involved with investing including the possible loss of principal. Past performance does not guarantee future results. Diversification does not eliminate the risk of experiencing investment losses. This document is intended exclusively for the use of the person to whom it has been delivered by AQR and it is not to be reproduced or redistributed to any other person without AQR's written consent.

**Please refer to the prospectus or summary prospectus for complete information regarding all risks associated with the fund. An investor should consider the investment objectives, risks, charges and expenses of the fund carefully before investing. To obtain a prospectus or summary prospectus containing this and other information, please call 1-866-290-2688 or download the file from [www.aqrfunds.com](http://www.aqrfunds.com). Read the prospectus carefully before you invest. There is no assurance the stated objectives will be met.**
