

The North Star Micro Cap Fund

NORTH STAR
Investment Management

The North Star Micro Cap Fund has one of the lowest median market caps of any mutual fund.

FUND STRATEGY

Micro Cap Value

OBJECTIVE

The investment objective of the North Star Micro Cap Fund is capital appreciation. The Fund seeks to achieve its objective of capital appreciation by investing in micro-cap companies, defined as companies with market capitalizations under \$1 billion.

WHY INVEST?

We look for situations that may be undiscovered by most investors due to their lack of size, liquidity, research coverage or intrigue. We focus our research on companies that have the potential to generate a high level of free cash flow and that we believe have strong or improving balance sheets.

RISK AND RETURN—SINCE INCEPTION

GROWTH OF A DOLLAR

Mutual Funds have investment risks including loss of principal. There is no guarantee the fund will meet its objective. In general, the price of a fixed income security falls when interest rates rise. There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. The Fund may invest in high yield securities, also known as “junk bonds.” High yield securities provide greater income and opportunity for gain, but entail greater risk of loss of principal. Foreign common stocks and currency strategies will subject the Fund to currency trading risks that include market risk, credit risk and country risk. Municipal securities are subject to credit risk where a municipal security might not make interest and principal payments as they come due. The Advisor follows an investing style that favors value investments. At times when the value investing style is out of favor, the Fund may underperform other funds that use different investing styles. Investments in lesser-known, small and medium capitalization companies may be more vulnerable than larger, more established organizations. As with any investment, there are risks associated with REITs. Investments in lesser-known, small and medium capitalization companies may be more vulnerable than larger, more established organizations. The Advisor does not attempt to keep the portfolio structure or fund performance consistent with any market index. Increased portfolio turnover may result in higher brokerage commissions, and other transaction costs may result in taxable capital gains.

Investors should carefully consider the investment objectives, risks, charges and expenses of the North Star Funds. No-Load Mutual funds are sold without sales charge; however, they have ongoing expenses, such as management fees. This and other important information about each of the Funds are contained in the prospectus, which can be obtained at www.nsinvestfunds.com or by calling (855) 580-0900. The prospectus should be read carefully before investing. The North Star Funds are distributed by Northern Lights Distributors, LLC member FINRA/SIPC. 5932-NLD-7/10/2020
