

J.P. MORGAN U.S. EQUITY FUNDS

JPMorgan Intrepid Growth Fund (a series of JPMorgan Trust I)

(All Share Classes)

Supplement dated November 19, 2020 to the Summary Prospectuses, Prospectuses and Statement of Additional Information dated November 1, 2020, as supplemented

IMPORTANT NOTICE REGARDING CHANGES IN NAME AND INVESTMENT POLICY

At its November 2020 meeting, the Board of Trustees (“Board”) approved changes to the name and investment policy of the JPMorgan Intrepid Growth Fund (the “Fund”). The Fund currently expects that these changes will become effective on or about February 1, 2021 (the “Effective Date”).

The following is a brief summary of some of the changes that are anticipated to take effect on or after the Effective Date.

Name Change

The Fund’s new name will be: JPMorgan U.S. GARP Equity Fund.

New 80% Policy

The new 80% policy (“New 80% Policy”) will be: Under normal circumstances, the Fund invests at least 80% of its Assets in equity investments of large and mid capitalization companies located in the U.S. An issuer of a security will be deemed to be located in the U.S. if: (i) the principal trading market for the security is in the United States, (ii) the issuer is organized under the laws of the United States, or (iii) the issuer derives at least 50% of its revenues or profits from the United States or has at least 50% of its total assets situated in the U.S.

The existing 80% policy (the “Existing 80% Policy”) is: Under normal circumstances, the Fund invests at least 80% of its Assets in equity investments of large and mid capitalization companies. The Existing 80% Policy does not contain the “U.S.” component of the New 80% Policy, although the Fund has historically invested at least 80% of its Assets in U.S. companies.

For purposes of both the Existing 80% Policy and the New 80% Policy, the term “Assets” means net assets, plus the amount of borrowings for investment purposes. In addition, for purposes of both policies, the Fund generally defines large capitalization companies as those with a market capitalization over \$10 billion at the time of purchase, and mid capitalization companies as those with a market capitalization between \$1 billion and \$10 billion, at the time of purchase.

Changes to Summary Prospectuses, Prospectuses and Statements of Additional Information

In connection with the foregoing, on the Effective Date, the following changes will be made to the Fund’s Summary Prospectuses, Prospectuses and Statement of Additional Information:

All references to the name “JPMorgan Intrepid Growth Fund” will be replaced with “JPMorgan U.S. GARP Equity Fund.”

All references to the Fund’s Existing 80% Policy will be replaced with references to the New 80% Policy.

The “Risk/Return Summary – What are the Fund’s main investment strategies?” section of the Summary Prospectuses and Prospectuses and the “More About the Funds – Additional Information About the Funds’ Investment Strategies – Intrepid Growth Fund” section of the Prospectuses, as it relates to the Fund, will be deleted in their entirety and replaced with the following:

Under normal circumstances, the Fund invests at least 80% of its Assets in equity investments of large and mid capitalization companies located in the U.S. “Assets” means net assets, plus the amount of borrowings for investment purposes. The Fund generally defines large capitalization companies as those with a market capitalization over \$10 billion at the time of purchase, and mid capitalization companies as those with a market capitalization between \$1 billion and \$10 billion, at the time of purchase. An issuer of a security will be

deemed to be located in the U.S. if: (i) the principal trading market for the security is in the United States, (ii) the issuer is organized under the laws of the United States, or (iii) the issuer derives at least 50% of its revenues or profits from the United States or has at least 50% of its total assets situated in the U.S.

In implementing its main strategies, the Fund invests primarily in a broad portfolio of equity securities that the adviser believes have characteristics such as attractive valuations, high quality and/or strong momentum that should lead to relative outperformance. Generally these will be equity securities of companies within the Russell 1000 Growth Index. In implementing this strategy, the Fund invests primarily in common stock and real estate investment trusts (REITs).

Derivatives, which are instruments that have a value based on another instrument, exchange rate or index, may be used as substitutes for securities in which the Fund can invest. The Fund may use futures contracts to gain or reduce exposure to its index, maintain liquidity and minimize transaction costs. In managing cash flows, the Fund buys futures contracts to invest incoming cash in the market or sells futures contracts in response to cash outflows, thereby gaining market exposure to the index while maintaining a cash balance for liquidity.

Investment Process: The Fund has an actively managed strategy. In managing the Fund, the adviser employs a bottom-up approach to stock selection, focusing on growth companies that have strong fundamentals and are trading at what the adviser determines to be reasonable valuations. The adviser's determinations of valuation are based on price multiples based on fundamental data, such as information about earnings and cash flow. Because the adviser's approach to managing the Fund seeks to identify growth companies with reasonable valuations, it is generally characterized as GARP (Growth at a Reasonable Price).

In choosing securities to purchase, the adviser evaluates and internally ranks companies on a number valuation, momentum and quality characteristics which the adviser considers in evaluating investment opportunities. The adviser defines value, quality and momentum characteristics as follows:

- Value – attractive valuations to identify underappreciated stocks
- Quality – companies with conservative management teams and high quality earnings
- Momentum – companies which have improving business fundamentals and which the market views positively

As a part of its investment process, the adviser seeks to assess the impact of environmental, social and governance factors (including accounting and tax policies and shareholder rights and remuneration policies) on the companies in which it may invest to identify issuers that the adviser believes will be impacted by such factors relative to other issuers. These determinations may not be conclusive and securities of such issuers may be purchased, retained or sold by the Fund.

The Fund will sell a stock if the adviser determines that the issuer no longer meets the Fund's investment criteria or if the adviser believes that more attractive opportunities are available.

JPMorgan Intrepid Growth Fund

Class/Ticker: A/JIGAX C/JCICX I/JPGSX

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. You can find the Fund's Prospectus and other information about the Fund, including the Statement of Additional Information, online at www.jpmorganfunds.com/funddocuments. You can also get this information at no cost by calling 1-800-480-4111 or by sending an e-mail request to Funds.Website.Support@jpmorganfunds.com or by asking any financial intermediary that offers shares of the Fund. The Fund's Prospectus and Statement of Additional Information, both dated November 1, 2020, as may be supplemented from time to time are incorporated by reference into this Summary Prospectus.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website www.jpmorganfunds.com and you will be notified by mail each time a report is posted and provided with a website to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action.

You may elect to receive shareholder reports and other communications from the Fund electronically anytime by contacting your financial intermediary (such as a broker dealer, bank, or retirement plan) or, if you are a direct investor, by going to www.jpmorganfunds.com/edelivery.

You may elect to receive paper copies of all future reports free of charge. Contact your financial intermediary or, if you invest directly with the Fund, email us at funds.website.support@jpmorganfunds.com or call 1-800-480-4111. Your election to receive paper reports will apply to all funds held within your account(s).

What is the goal of the Fund?

The Fund seeks to provide long-term capital growth.

Fees and Expenses of the Fund

The following tables describe the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may qualify for sales charge discounts on purchases of Class A Shares if you and your family invest, or agree to invest in the future, at least \$50,000 in the J.P. Morgan Funds. *More information about these and other discounts is available from your financial intermediary and in “Investing with J.P. Morgan Funds – SALES CHARGES AND FINANCIAL INTERMEDIARY COMPENSATION” on page 118 and in “Financial Intermediary-Specific Sales Charge Waivers” in Appendix A of the prospectus and in “PURCHASES, REDEMPTIONS AND EXCHANGES” in Appendix A to Part II of the Statement of Additional Information.* You may be required to pay a commission to your Financial Intermediary for purchases of Class I Shares. Such commissions are not reflected in the tables or the example below.

SHAREHOLDER FEES (Fees paid directly from your investment)			
	Class A	Class C	Class I
Maximum Sales Charge (Load) Imposed on Purchases, as % of the Offering Price	5.25%	NONE	NONE
Maximum Deferred Sales Charge (Load), as % of Original Cost of the Shares	NONE (under \$1 million)	1.00%	NONE

ANNUAL FUND OPERATING EXPENSES (Expenses that you pay each year as a percentage of the value of your investment)			
	Class A	Class C	Class I
Management Fees¹	0.30%	0.30%	0.30%
Distribution (Rule 12b-1) Fees	0.25	0.75	NONE
Other Expenses	0.37	0.35	0.35
Service Fees	0.25	0.25	0.25
Remainder of Other Expenses²	<u>0.12</u>	<u>0.10</u>	<u>0.10</u>
Total Annual Fund Operating Expenses	0.92	1.40	0.65
Fee Waivers and/or Expense Reimbursements³	<u>(0.08)</u>	<u>(0.06)</u>	<u>(0.06)</u>
Total Annual Fund Operating Expenses after Fee Waivers and/or Expense Reimbursements³	0.84	1.34	0.59

1 "Management Fees" has been restated to reflect current fees.

2 "Remainder of Other Expenses" has been calculated based on the actual other expenses incurred in the most recent fiscal year.

3 The Fund's adviser and/or its affiliates have contractually agreed to waive fees and/or reimburse expenses to the extent Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses other than certain money market fund fees as described below, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation, expenses related to trustee elections, and extraordinary expenses) exceed 0.84%, 1.34% and 0.59% of the average daily net assets of Class A, Class C and Class I Shares, respectively. The Fund may invest in

one or more money market funds advised by the adviser or its affiliates (affiliated money market funds). The Fund's adviser, shareholder servicing agent and/or administrator have contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the respective net fees each collects from the affiliated money market funds on the Fund's investment in such money market funds. These waivers are in effect through 10/31/21, at which time it will be determined whether such waivers will be renewed or revised. To the extent that the Fund engages in securities lending, affiliated money market fund fees and expenses resulting from the Fund's investment of cash received from securities lending borrowers are not included in Total Annual Fund Operating Expenses and therefore, the above waivers do not apply to such investments.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses are equal to the total annual fund operating expenses after fee waivers and expense reimbursements shown in the fee table through 10/31/21 and total annual fund operating expenses thereafter. Your actual costs may be higher or lower.

IF YOU SELL YOUR SHARES, YOUR COST WOULD BE:				
	1 Year	3 Years	5 Years	10 Years
CLASS A SHARES (\$)	606	795	1,000	1,590
CLASS C SHARES (\$)	236	437	760	1,675
CLASS I SHARES (\$)	60	202	356	805

IF YOU DO NOT SELL YOUR SHARES, YOUR COST WOULD BE:				
	1 Year	3 Years	5 Years	10 Years
CLASS A SHARES (\$)	606	795	1,000	1,590
CLASS C SHARES (\$)	136	437	760	1,675
CLASS I SHARES (\$)	60	202	356	805

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the Fund's most recent fiscal year, the Fund's portfolio turnover rate was 96% of the average value of its portfolio.

What are the Fund's main investment strategies?

Under normal circumstances, the Fund invests at least 80% of its Assets in equity investments of large and mid capitalization companies. "Assets" means net assets, plus the amount of borrowings for investment purposes. The Fund generally defines large capitalization companies as those with a market capitalization over \$10 billion at the time of purchase, and mid capitalization companies as those with market capitalization between \$1 billion and \$10 billion, at the time of purchase.

In implementing its main strategies, the Fund invests primarily in a broad portfolio of equity securities that the adviser believes have characteristics such as attractive valuations, high quality and/or strong momentum that should lead to relative outperformance. Generally these will be equity securities of companies within the Russell 1000 Growth Index. In implementing this strategy, the Fund invests primarily in common stock and real estate investment trusts (REITs).

Derivatives, which are instruments that have a value based on another instrument, exchange rate or index, may be used as substitutes for securities in which the Fund can invest. The Fund may use futures contracts to gain or reduce exposure to its index, maintain liquidity and minimize transaction costs. In managing cash flows, the Fund buys futures contracts to invest incoming cash in the market or sells futures contracts in response to cash outflows, thereby gaining market exposure to the index while maintaining a cash balance for liquidity.

Investment Process: The Fund has an actively managed strategy that employs an investment process based on behavioral finance principles. Behavioral finance theorizes that investors behave irrationally in systematic and predictable ways because human psychology affects investment decision-making. This investor behavior results in market inefficiencies that persist over time. The Fund seeks to capitalize on these market anomalies through a disciplined and dispassionate investment process. In identifying high quality securities, the adviser looks for profitable companies with sustainable earnings and disciplined management. In identifying securities that have strong momentum, the adviser looks for securities which have prices and/or earnings that have been increasing and that the adviser believes will continue to increase. As a part of its investment process, the adviser seeks to assess the impact of environmental, social and governance factors (including accounting and tax policies and shareholder rights and remuneration policies) on the companies in which it may invest to identify issuers that the adviser believes will be impacted by such factors relative to other issuers. These determinations may not be conclusive and securities of such issuers may be purchased, retained or sold by the Fund.

The Fund will sell a stock if the adviser determines that the issuer no longer meets the Fund's investment criteria or if the adviser believes that more attractive opportunities are available.

The Fund's Main Investment Risks

The Fund is subject to management risk and may not achieve its objective if the adviser's expectations regarding particular instruments or markets are not met.

An investment in this Fund or any other fund may not provide a complete investment program. The suitability of an investment in the Fund should be considered based on the investment objective, strategies and risks described in this Prospectus, considered in light of all of the other investments in your portfolio, as well as your risk tolerance, financial goals and time horizons. You may want to consult with a financial advisor to determine if this Fund is suitable for you.

The Fund is subject to the main risks noted below, any of which may adversely affect the Fund's performance and ability to meet its investment objective.

Equity Market Risk. The price of equity securities may rise or fall because of changes in the broad market or changes in a company's financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors or industries selected for the Fund's portfolio or the securities market as a whole, such as changes in economic or political conditions. When the value of the Fund's securities goes down, your investment in the Fund decreases in value.

General Market Risk. Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. Securities in the Fund's portfolio may underperform in comparison to securities in general financial markets, a particular financial market or other asset classes due to a number of factors, including inflation (or expectations for inflation), deflation (or expectations for deflation), interest rates, global demand for particular products or resources, market instability, debt crises and downgrades, embargoes, tariffs, sanctions and other trade barriers, regulatory events, other governmental trade or market control programs and related geopolitical events. In addition, the value of the Fund's investments may be negatively affected by the occurrence of global events such as war, terrorism, environmental disasters, natural disasters or events, country instability, and infectious disease epidemics or pandemics.

For example, the outbreak of COVID-19, a novel coronavirus disease, has negatively affected economies, markets and individual companies throughout the world, including those in which the Fund invests. The effects of this pandemic to public health and business and market conditions, including exchange trading suspensions and closures may continue to have a significant negative impact on the performance of the Fund's investments, increase the Fund's volatility, exacerbate pre-existing political, social and economic risks to the Fund, and negatively impact broad segments of businesses and populations. The Fund's operations may be interrupted as a result, which may contribute to the negative impact on investment performance. In addition, governments, their regulatory agencies, or self-regulatory organizations may take actions in response to the pandemic that affect the instruments in which the Fund invests, or the issuers of such instruments, in ways that could have a significant negative impact on the Fund's investment performance. The full impact of the COVID-19 pandemic, or other future epidemics or pandemics, is currently unknown.

Growth Investing Risk. Because growth investing attempts to identify companies that the adviser believes will experience rapid earnings growth relative to value or other types of stocks, growth stocks may trade at higher multiples of current earnings compared to value or other stocks, leading to inflated prices and thus potentially greater declines in value.

Large Cap Company Risk. Because the Fund invests in large cap company securities, it may underperform other funds during periods when the Fund's large cap securities are out of favor.

Mid Cap Company Risk. Investments in mid cap companies may be riskier than investments in larger, more established companies. Mid cap companies may be less liquid, more volatile and more vulnerable to economic, market and industry changes. The securities of smaller companies may trade less frequently and in smaller volumes than securities of larger companies. As a result, share price changes may be more sudden or erratic than the prices of other equity securities, especially over the short term.

Derivatives Risk. Derivatives, including futures, may be riskier than other types of investments and may increase the volatility of the Fund. Derivatives may be sensitive to changes in economic and market conditions and may create leverage, which could result in losses that significantly exceed the Fund's original investment. The Fund may be more volatile than if the Fund had not been leveraged because the leverage tends to exaggerate any effect on the value of the Fund's portfolio securities. Certain derivatives expose the Fund to counterparty risk, which is the risk that the derivative counterparty will not fulfill its contractual obligations (and includes credit risk associated with the counterparty). Certain derivatives are synthetic instruments that attempt to replicate the performance of certain reference assets. With regard to such derivatives, the Fund does not have a claim on the reference assets and is subject to enhanced counterparty risk. Derivatives may not perform as expected, so the Fund may not realize the intended benefits. When used for hedging, the change in value of a derivative may not correlate as expected with the security or other risk being hedged. In addition, given their complexity, derivatives expose the Fund to risks of mispricing or improper valuation.

Real Estate Securities Risk. The Fund's investments in real estate securities, including REITs, are subject to the same risks as direct investments in real estate and mortgages, and their value will depend on the value of the underlying real estate interest. These risks include default, prepayments, changes in value resulting from changes in interest rates and demand for real and rental property, and the management skill and creditworthiness of REIT issuers. The Fund will indirectly bear its proportionate share of expenses, including management fees, paid by each REIT in which it invests in addition to the expenses of the Fund.

Industry and Sector Focus Risk. At times the Fund may increase the relative emphasis of its investments in a particular industry or sector. The prices of securities of issuers in a particular industry or sector may be more susceptible to fluctuations due to changes in economic or business conditions, government regulations, availability of basic resources or supplies, or other events that affect that industry or sector more than securities of issuers in other industries and sectors. To the extent that the Fund increases the relative emphasis of its investments in a particular industry or sector, its shares' values may fluctuate in response to events affecting that industry or sector.

Transactions Risk. The Fund could experience a loss and its liquidity may be negatively impacted when selling securities to meet redemption requests by shareholders. The risk of loss increases if the redemption requests are unusually large or frequent or occur in times of overall market turmoil or declining prices. Similarly, large purchases of Fund shares may adversely

affect the Fund's performance to the extent that the Fund is delayed in investing new cash and is required to maintain a larger cash position than it ordinarily would.

Investments in the Fund are not deposits or obligations of, or guaranteed or endorsed by, any bank and are not insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency.

You could lose money investing in the Fund.

The Fund's Past Performance

This section provides some indication of the risks of investing in the Fund. The bar chart shows how the performance of the Fund's Class I Shares has varied from year to year for the past ten calendar years. The table shows the average annual total returns for the past one year, five years and ten years. The table compares the Fund's performance to the performance of the Russell 1000® Growth Index. Past performance (before and after taxes) is not necessarily an indication of how any class of the Fund will perform in the future. *Updated performance information is available by visiting www.jpmorganfunds.com or by calling 1-800-480-4111.*

Best Quarter 1st quarter, 2019 **15.10%**

Worst Quarter 4th quarter, 2018 **-16.34%**

The Fund's year-to-date total return through 9/30/20 was 15.53%.

AVERAGE ANNUAL TOTAL RETURNS

(For periods ended December 31, 2019)

	<u>Past 1 Year</u>	<u>Past 5 Years</u>	<u>Past 10 Years</u>
CLASS I SHARES			
Return Before Taxes	29.12%	12.15%	14.21%
Return After Taxes on Distributions	25.56	10.87	13.48
Return After Taxes on Distributions and Sale of Fund Shares	19.70	9.59	11.94
CLASS A SHARES			
Return Before Taxes	22.06	10.66	13.32
CLASS C SHARES			
Return Before Taxes	27.18	11.31	13.36
RUSSELL 1000 GROWTH INDEX			
(Reflects No Deduction for Fees, Expenses, or Taxes)	36.39	14.63	15.22

After-tax returns are shown only for the Class I Shares, and after-tax returns for the other classes will vary. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown. The after-tax returns shown are not relevant to investors who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

- Through your Financial Intermediary
- By writing to J.P. Morgan Funds Services, P.O. Box 219143, Kansas City, MO 64121-9143
- After you open an account, by calling J.P. Morgan Funds Services at 1-800-480-4111

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains, except when your investment is in an IRA, 401(k) plan or other tax-advantaged investment plan, in which case you may be subject to federal income tax upon withdrawal from the tax-advantaged investment plan.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the financial intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
