

JPMorgan Market Expansion Enhanced Index Fund

Class/Ticker: A/OMEAX C/OMEEX I/PGMIX

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. You can find the Fund's Prospectus and other information about the Fund, including the Statement of Additional Information, online at www.jpmorganfunds.com/funddocuments. You can also get this information at no cost by calling 1-800-480-4111 or by sending an e-mail request to Funds.Website.Support@jpmorganfunds.com or by asking any financial intermediary that offers shares of the Fund. The Fund's Prospectus and Statement of Additional Information, both dated November 1, 2020, as may be supplemented from time to time are incorporated by reference into this Summary Prospectus.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website www.jpmorganfunds.com and you will be notified by mail each time a report is posted and provided with a website to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action.

You may elect to receive shareholder reports and other communications from the Fund electronically anytime by contacting your financial intermediary (such as a broker dealer, bank, or retirement plan) or, if you are a direct investor, by going to www.jpmorganfunds.com/edelivery.

You may elect to receive paper copies of all future reports free of charge. Contact your financial intermediary or, if you invest directly with the Fund, email us at funds.website.support@jpmorganfunds.com or call 1-800-480-4111. Your election to receive paper reports will apply to all funds held within your account(s).

What is the goal of the Fund?

The Fund seeks to provide investment results that correspond to or incrementally exceed the total return performance of an index that tracks the performance of the small- and mid-capitalization equity markets.

Fees and Expenses of the Fund

The following tables describe the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may qualify for sales charge discounts on purchases of Class A Shares if you and your family invest, or agree to invest in the future, at least \$50,000 in the J.P. Morgan Funds. *More information about these and other discounts is available from your financial intermediary and in “Investing with J.P. Morgan Funds – SALES CHARGES AND FINANCIAL INTERMEDIARY COMPENSATION” on page 97 and in “Financial Intermediary-Specific Sales Charge Waivers” in Appendix A of the prospectus and in “PURCHASES, REDEMPTIONS AND EXCHANGES” in Appendix A to Part II of the Statement of Additional Information.* You may be required to pay a commission to your Financial Intermediary for purchases of Class I Shares. Such commissions are not reflected in the tables or the example below.

SHAREHOLDER FEES (Fees paid directly from your investment)			
	<u>Class A</u>	<u>Class C</u>	<u>Class I</u>
Maximum Sales Charge (Load) Imposed on Purchases, as % of the Offering Price	5.25%	NONE	NONE
Maximum Deferred Sales Charge (Load), as % of Original Cost of the Shares	NONE (under \$1 million)	1.00%	NONE

ANNUAL FUND OPERATING EXPENSES (Expenses that you pay each year as a percentage of the value of your investment)			
	<u>Class A</u>	<u>Class C</u>	<u>Class I</u>
Management Fees	0.25%	0.25%	0.25%
Distribution (Rule 12b-1) Fees	0.25	0.75	NONE
Other Expenses	0.38	0.39	0.37
Service Fees	0.25	0.25	0.25
Remainder of Other Expenses	<u>0.13</u>	<u>0.14</u>	<u>0.12</u>
Total Annual Fund Operating Expenses	0.88	1.39	0.62
Fee Waivers and/or Expense Reimbursements¹	<u>(0.28)</u>	<u>(0.29)</u>	<u>(0.27)</u>
Total Annual Fund Operating Expenses after Fee Waivers and/or Expense Reimbursements¹	0.60	1.10	0.35

¹ The Fund's adviser and/or its affiliates have contractually agreed to waive fees and/or reimburse expenses to the extent Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses other than certain money market fund fees as described below, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation, expenses related to trustee elections, and extraordinary expenses) exceed 0.60%, 1.10% and 0.35% of the average daily net assets of Class A, Class C and Class I Shares, respectively. The Fund may invest in one

or more money market funds advised by the adviser or its affiliates (affiliated money market funds). The Fund's adviser, shareholder servicing agent and/or administrator have contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the respective net fees each collects from the affiliated money market funds on the Fund's investment in such money market funds. These waivers are in effect through 10/31/21, at which time it will be determined whether such waivers will be renewed or revised. To the extent that the Fund engages in securities lending, affiliated money market fund fees and expenses resulting from the Fund's investment of cash received from securities lending borrowers are not included in Total Annual Fund Operating Expenses and therefore, the above waivers do not apply to such investments.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses are equal to the total annual fund operating expenses after fee waivers and expense reimbursements shown in the fee table through 10/31/21 and total annual fund operating expenses thereafter. Your actual costs may be higher or lower.

IF YOU SELL YOUR SHARES, YOUR COST WOULD BE:				
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
CLASS A SHARES (\$)	583	764	961	1,528
CLASS C SHARES (\$)	212	412	733	1,643
CLASS I SHARES (\$)	36	171	319	749

IF YOU DO NOT SELL YOUR SHARES, YOUR COST WOULD BE:				
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
CLASS A SHARES (\$)	583	764	961	1,528
CLASS C SHARES (\$)	112	412	733	1,643
CLASS I SHARES (\$)	36	171	319	749

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the Fund's most recent fiscal year, the Fund's portfolio turnover rate was 49% of the average value of its portfolio.

What are the Fund's main investment strategies?

Under normal circumstances, the Fund will hold at least 80% of its Assets in stocks in the S&P 1000 Index¹. “Assets” means net assets, plus the amount of borrowings for investment purposes. The S&P 1000 Index is an index which includes stocks of small- and mid-capitalization companies. As of September 30, 2020, the market capitalizations of the companies in the S&P 1000

¹ “S&P 1000 Index,” is a registered service marks of Standard & Poor's Corporation, which does not sponsor and is in no way affiliated with the Fund. The S&P 1000 Index is a market capitalization weighted combination of the Standard & Poor's SmallCap 600 and the Standard & Poor's MidCap 400 Indexes.

ranged from \$90 million to \$13.3 billion. These securities trade on national exchanges, as well as over-the-counter as part of the National Market System. Because the Fund uses an enhanced index strategy, not all of the stocks in the S&P 1000 Index are included in the Fund, and the Fund's position in an individual stock may be overweighted or underweighted when compared to the index. In addition, the Fund may modestly overweight or underweight the sectors and industries within the index. The Fund seeks returns that modestly exceed those of the S&P 1000 Index over the long term with a modest divergence to the benchmark. In implementing its main strategies, the Fund invests primarily in common stocks and real estate investment trusts (REITs).

Derivatives, which are instruments that have a value based on another instrument, exchange rate or index, may be used as substitutes for securities in which the Fund can invest. The Fund may use futures contracts to gain or reduce exposure to its index, maintain liquidity and minimize transaction costs. In managing cash flows, the Fund buys futures contracts to invest incoming cash in the market or sells futures contracts in response to cash outflows, thereby gaining market exposure to the index while maintaining a cash balance for liquidity.

Investment Process: The Fund uses an enhanced index strategy that seeks to provide investment results that correspond to or incrementally exceed the total return performance of the S&P 1000 Index. In managing the Fund, the adviser employs a process that ranks S&P 1000 Index stocks based on its proprietary stock ranking system. The rankings are then reviewed and adjusted utilizing fundamental research conducted by the investment team to enhance accuracy and consistency within constraints on sector and industry weights and position sizes. The adjusted rankings are used to place stocks into portfolios. As a part of its investment process, the adviser seeks to assess the impact of environmental, social and governance factors (including accounting and tax policies and shareholder rights and remuneration policies) on the companies in which it may invest to identify issuers that the adviser believes will be impacted by such factors relative to other issuers. These determinations may not be conclusive and securities of such issuers may be purchased, retained or sold by the Fund. In general, stocks are purchased when they are among the top ranked within their sector. Stocks become candidates for sale when their ranking falls, when they appear unattractive or when the company is no longer included in the S&P 1000 Index.

The Fund's Main Investment Risks

An investment in this Fund or any other fund may not provide a complete investment program. The suitability of an investment in the Fund should be considered based on the investment objective, strategies and risks described in this Prospectus, considered in light of all of the other investments in your portfolio, as well as your risk tolerance, financial goals and time horizons. You may want to consult with a financial advisor to determine if this Fund is suitable for you.

The Fund is subject to the main risks noted below, any of which may adversely affect the Fund's performance and ability to meet its investment objective.

Equity Market Risk. The price of equity securities may rise or fall because of changes in the broad market or changes in a company's financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors or industries selected for the Fund's portfolio or the securities market as a whole, such as changes in economic or political conditions. When the value of the Fund's securities goes down, your investment in the Fund decreases in value.

General Market Risk. Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. Securities in the Fund's portfolio may underperform in comparison to securities in general financial markets, a particular financial market or other asset classes due to a number of factors, including inflation (or expectations for inflation), deflation (or expectations for deflation), interest rates, global demand for particular products or resources, market instability, debt crises and downgrades, embargoes, tariffs, sanctions and other trade barriers, regulatory events, other governmental trade or market control programs and related geopolitical events. In addition, the value of the Fund's investments may be negatively affected by the occurrence of global events such as war, terrorism, environmental disasters, natural disasters or events, country instability, and infectious disease epidemics or pandemics.

For example, the outbreak of COVID-19, a novel coronavirus disease, has negatively affected economies, markets and individual companies throughout the world, including those in which the Fund invests. The effects of this pandemic to public health and business and market conditions, including exchange trading suspensions and closures may continue to have a significant negative impact on the performance of the Fund's investments, increase the Fund's volatility, exacerbate pre-existing political, social and economic risks to the Fund, and negatively impact broad segments of businesses and populations. The Fund's operations may be interrupted as a result, which may contribute to the negative impact on investment performance. In addition, governments, their regulatory agencies, or self-regulatory organizations may take actions in response to the pandemic that affect the instruments in which the Fund invests, or the issuers of such instruments, in ways that could have a significant negative impact on the Fund's investment performance. The full impact of the COVID-19 pandemic, or other future epidemics or pandemics, is currently unknown.

Index Investing Risk. Because the Fund uses an enhanced index strategy, securities may be purchased, retained and sold by the Fund at times when a more actively managed fund would not do so. If the value of securities that are heavily weighted in the index changes, you can expect a greater risk of loss than would be the case if the Fund were not invested in such securities. There is also the risk that the Fund's performance may not correlate with the performance of the index.

Smaller Company Risk. Investments in smaller companies (mid cap and small cap companies) may be riskier, less liquid, more volatile and more vulnerable to economic, market and industry changes than investment in larger, more established companies. The securities of smaller companies may trade less frequently

and in smaller volumes than securities of larger companies. As a result, the share price changes may be more sudden or erratic than the prices of other securities, especially over the short term.

Real Estate Securities Risk. The Fund's investments in real estate securities, including REITs, are subject to the same risks as direct investments in real estate and mortgages, and their value will depend on the value of the underlying real estate interest. These risks include default, prepayments, changes in value resulting from changes in interest rates and demand for real and rental property, and the management skill and creditworthiness of REIT issuers. The Fund will indirectly bear its proportionate share of expenses, including management fees, paid by each REIT in which it invests in addition to the expenses of the Fund.

Derivatives Risk. Derivatives, including futures, may be riskier than other types of investments and may increase the volatility of the Fund. Derivatives may be sensitive to changes in economic and market conditions and may create leverage, which could result in losses that significantly exceed the Fund's original investment. The Fund may be more volatile than if the Fund had not been leveraged because the leverage tends to exaggerate any effect on the value of the Fund's portfolio securities. Certain derivatives expose the Fund to counterparty risk, which is the risk that the derivative counterparty will not fulfill its contractual obligations (and includes credit risk associated with the counterparty). Certain derivatives are synthetic instruments that attempt to replicate the performance of certain reference assets. With regard to such derivatives, the Fund does not have a claim on the reference assets and is subject to enhanced counterparty risk. Derivatives may not perform as expected, so the Fund may not realize the intended benefits. When used for hedging, the change in value of a derivative may not correlate as expected with the security or other risk being hedged. In addition, given their complexity, derivatives expose the Fund to risks of mispricing or improper valuation.

Industry and Sector Focus Risk. At times the Fund may increase the relative emphasis of its investments in a particular industry or sector. The prices of securities of issuers in a particular industry or sector may be more susceptible to fluctuations due to changes in economic or business conditions, government regulations, availability of basic resources or supplies, or other events that affect that industry or sector more than securities of issuers in other industries and sectors. To the extent that the Fund increases the relative emphasis of its investments in a particular industry or sector, its shares' values may fluctuate in response to events affecting that industry or sector.

Transactions Risk. The Fund could experience a loss and its liquidity may be negatively impacted when selling securities to meet redemption requests by shareholders. The risk of loss increases if the redemption requests are unusually large or frequent or occur in times of overall market turmoil or declining prices. Similarly, large purchases of Fund shares may adversely affect the Fund's performance to the extent that the Fund is delayed in investing new cash and is required to maintain a larger cash position than it ordinarily would.

Investments in the Fund are not deposits or obligations of, or guaranteed or endorsed by, any bank and are not insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency.

You could lose money investing in the Fund.

The Fund's Past Performance

This section provides some indication of the risks of investing in the Fund. The bar chart shows how the performance of the Fund's Class I Shares has varied from year to year for the past ten calendar years. The table shows the average annual total returns for the past one year, five years and ten years. The table compares the Fund's performance to the performance of the S&P 1000 Index. Past performance (before and after taxes) is not necessarily an indication of how any class of the Fund will perform in the future. Updated performance information is available by visiting www.jpmorganfunds.com or by calling 1-800-480-4111.

Best Quarter 4th quarter, 2011 **14.36%**

Worst Quarter 3rd quarter, 2011 **-20.45%**

The Fund's year-to-date total return through 9/30/20 was -13.22%.

AVERAGE ANNUAL TOTAL RETURNS

(For periods ended December 31, 2019)

	<u>Past 1 Year</u>	<u>Past 5 Years</u>	<u>Past 10 Years</u>
CLASS I SHARES			
Return Before Taxes	24.57%	8.34%	12.35%
Return After Taxes on Distributions	22.78	5.35	9.92
Return After Taxes on Distributions and Sale of Fund Shares	15.76	6.10	9.81
CLASS A SHARES			
Return Before Taxes	17.78	6.92	11.47
CLASS C SHARES			
Return Before Taxes	22.67	7.45	11.37
S&P 1000 INDEX			
(Reflects No Deduction for Fees, Expenses, or Taxes)	25.14	9.19	12.92

After-tax returns are shown only for the Class I Shares, and after-tax returns for the other classes will vary. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown. The after-tax returns shown are not relevant to investors who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

In general, you may purchase or redeem shares on any business day:

- Through your Financial Intermediary
- By writing to J.P. Morgan Funds Services, P.O. Box 219143, Kansas City, MO 64121-9143
- After you open an account, by calling J.P. Morgan Funds Services at 1-800-480-4111

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains, except when your investment is in an IRA, 401(k) plan or other tax-advantaged investment plan, in which case you may be subject to federal income tax upon withdrawal from the tax-advantaged investment plan.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the financial intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
