# Summary Prospectus March 1, 2021

## Class/Ticker A GMXAX C GMCCX R GMXRX R6 GMXIX Institutional Service Class NWXQX

Before you invest, you may want to review the Fund's Prospectus, which contains information about the Fund and its risks. The Fund's Prospectus and Statement of Additional Information, each dated March 1, 2021 (as may be supplemented or revised), are incorporated by reference into this Summary Prospectus. For free paper or electronic copies of the Fund's Prospectus and other information about the Fund, go to nationwide.com/mutualfundprospectuses, email a request to web\_help@nationwide.com or call 800-848-0920, or ask any financial advisor, bank, or broker-dealer who offers shares of the Fund.

# **Objective**

The Nationwide Mid Cap Market Index Fund seeks to match the performance of the Standard & Poor's MidCap 400® Index ("S&P MidCap 400 Index") as closely as possible before the deduction of Fund expenses.

## Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial professional and in "Investing with Nationwide Funds" commencing on page 41 of the Prospectus and in "Additional Information on Purchases and Sales" commencing on page 96 of the Statement of Additional Information. In addition, if you purchase shares through a specific intermediary, you may be subject to different sales charges including reductions in or waivers of such charges. More information about these intermediary-specific sales charge variations is available in Appendix A to the Fund's Prospectus.

#### **Shareholder Fees** (fees paid directly from your investment)

		Class C Shares	_	Class R6 Shares	Institutional Service Class Shares
Maximum Sales Charge (Load) imposed on purchases (as a percentage of offering price)	5.75%	None	None	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of offering or sale price, whichever is less)	None	1.00%	None	None	None

#### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Class R	Class R6	Institutional Service
	Shares	Shares	Shares	Shares	Class Shares
Management Fees	0.20%	0.20%	0.20%	0.20%	0.20%
Distribution and/or Service (12b-1) Fee	0.25%	1.00%	0.50%	None	None
Other Expenses	0.24%	0.17%	0.30%	0.08%	0.23%
Total Annual Fund Operating Expenses	0.69%	1.37%	1.00%	0.28%	0.43%
Amount of Fee Waiver/Expense Reimbursement <sup>(1)</sup>	(0.01)%	(0.01)%	(0.01)%	(0.01)%	(0.01)%
Total Annual Fund Operating Expenses	0.68%	1.36%	0.99%	0.27%	0.42%
After Fee Waiver/Expense Reimbursement					

<sup>(1)</sup> Nationwide Mutual Funds (the "Trust") and Nationwide Fund Advisors (the "Adviser") have entered into a written contract waiving 0.01% of the management fee to which the Adviser would otherwise be entitled until February 28, 2022. Pursuant to the terms of the written contract, the Adviser is

not entitled to recoup any fees it has waived. The written contract may be changed or eliminated only with consent of the Board of Trustees of the Trust.

# **Example**

This Example is intended to help you to compare the cost of investing in the Fund with the cost of investing in other mutual funds.

SP-MCX (3/21)

**Summary Prospectus** March 1, 2021

1

Nationwide Mid Cap Market Index Fund

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then sell all of your shares at the end of those time periods. It assumes a 5% return each year and no change in expenses, and any expense limitation or fee waivers that may apply for the periods indicated above under "Fees and Expenses." Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A Shares	\$640	\$782	\$936	\$1,383
Class C Shares	238	433	749	1,645
Class R Shares	101	317	551	1,224
Class R6 Shares	28	89	156	355
Institutional Service Class Shares	43	137	240	541

You would pay the following expenses on the same investment if you did not sell your shares:

	1 Year	3 Years	5 Years	10 Years
Class C Shares	\$138	\$433	\$749	\$1,645

#### **Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 18.95% of the average value of its portfolio.

## **Principal Investment Strategies**

The Fund employs a "passive" management, or indexing, approach, which seeks to match approximately the performance of the S&P MidCap 400® Index before the deduction of Fund expenses. The S&P MidCap 400® Index includes approximately 400 stocks of mid-cap U.S. companies in a wide range of businesses. Under normal circumstances, the Fund invests at least 80% of its net assets in equity securities of companies included in the S&P MidCap 400® Index. The Fund does not necessarily invest in all of the securities included in the S&P MidCap 400® Index or in the same weightings.

## **Principal Risks**

The Fund cannot guarantee that it will achieve its investment objective.

As with any fund, the value of the Fund's investments—and therefore, the value of Fund shares—may fluctuate. These changes may occur because of:

**Equity securities** *risk***–** stock markets are volatile. The price of an equity security fluctuates based on changes in a company's financial condition and overall market and economic conditions.

Market risk – market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. This may be due to numerous factors, including interest rates, the outlook for corporate profits, the health of the national and world economies, national and world social and political events, and the fluctuation of other stock markets around the world. The global pandemic outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 has resulted in substantial market volatility and global business disruption, affecting the global economy and the financial health of individual companies in significant and unforeseen ways. The duration and future impact of COVID-19 are currently unknown, which may exacerbate the other risks that apply to the Fund and could negatively affect Fund performance and the value of your investment in the Fund.

*Mid-cap risk* – medium-sized companies are usually less stable in price and less liquid than larger, more established companies. Therefore, they generally involve greater risk.

*Index fund risk* – the Fund does not use defensive strategies or attempt to reduce its exposure to poor performing securities. Further, correlation between the Fund's performance and that of the index may be negatively affected by the Fund's expenses, changes in the composition of the index, and the timing of purchase and redemption of Fund shares.

March 1, 2021

**Summary Prospectus** 

Redemptions risk – the Fund may be an investment option for other mutual funds that are managed as "funds-of-funds." As a result, from time to time, the Fund may experience relatively large redemptions or investments and could be required to sell securities or to invest cash at a time when it is not advantageous to do so. Large or continuous redemptions may increase the Fund's transaction costs and could cause the Fund's operating expenses to be allocated over a smaller asset base, leading to an increase in the Fund's expense ratio. If funds-of-funds or other large shareholders redeem large amounts of shares rapidly or unexpectedly, the Fund may have to sell portfolio securities at times when it would not otherwise do so, which could negatively impact the Fund's net asset value and liquidity.

**Selection risk** – selection risk is the risk that the securities selected by the Fund's subadviser will underperform the markets, the relevant indexes or the securities selected by other funds with similar investment objectives and investment strategies.

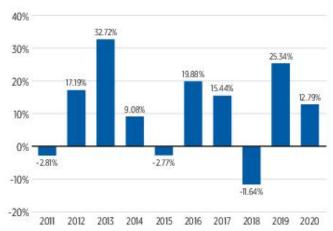

Loss of money is a risk of investing in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

## **Performance**

The following bar chart and table can help you evaluate the Fund's potential risks. The bar chart shows how the Fund's annual total returns have varied from year to year. The table compares the Fund's average annual total returns to the returns of a broad-based securities index. Remember, however, that past performance (before and after taxes) is not necessarily indicative of how the Fund will perform in the future. Updated performance information is available at no cost by visiting nationwide.com/mutualfunds or by calling 800-848-0920.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

Annual Total Returns – Class A Shares (Years Ended December 31,)

Highest Quarter: 24.25% – 4Q 2020 Lowest Quarter: -29.93%– 1Q 2020

After-tax returns are shown for Class A shares only and will vary for other classes. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect state and local taxes. Your actual after-tax return depends on your personal tax situation and may differ from what is shown here. After-tax returns are not relevant to investors in tax-advantaged arrangements, such as individual retirement accounts, 401(k) plans or certain other employer-sponsored retirement plans.

The inception date for Institutional Service Class shares is December 6, 2016. Pre-inception historical performance for Institutional Service Class shares is based on the previous performance of Class R6 shares. Performance for Institutional Service Class shares has been adjusted to reflect that share class's higher expenses than those of the Fund's Class R6 shares.

## Average Annual Total Returns (For the Periods Ended December 31, 2020)

•		. *	
	1 Year	5 Years	10 Years
Class A Shares – Before Taxes	6.29%	10.26%	10.08%
Class A Shares – After Taxes on Distributions	5.41%	7.72%	7.92%
Class A Shares – After Taxes on Distributions and Sales of Shares	4.20%	7.61%	7.73%
Class C Shares – Before Taxes	10.96%	10.81%	10.01%
Class R Shares – Before Taxes	12.45%	11.25%	10.49%
Class R6 Shares – Before Taxes	13.24%	12.04%	11.19%
Institutional Service Class Shares – Before Taxes	13.00%	11.83%	10.94%
S&P MidCap 400® Index (The Index does not pay sales charges, fees, expenses or taxes.)	13.66%	12.35%	11.51%

## **Tax Information**

The Fund's distributions are taxable, and generally will be taxed as ordinary income, capital gains, or some combination of both, unless you are investing through a

tax-advantaged arrangement, such as a 401(k) plan or an individual retirement

account, in which case your distributions may be taxed as ordinary income when withdrawn from the tax-advantaged account.

# Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
