Class R6	DFZRX

July 29, 2020

Beginning on or about June 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of your Fund's shareholder reports will no longer be sent to you by mail, unless you specifically request them from the Fund or from your financial intermediary, such as a broker/dealer, bank, or insurance company. Instead, you will be notified by mail each time a report is posted on the website and provided with a link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you do not need to take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by signing up at delawarefunds.com/edelivery. If you own these shares through a financial intermediary, you may contact your financial intermediary.

You may elect to receive paper copies of all future shareholder reports free of charge. You can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by contacting us at 800 523-1918. If you own these shares through a financial intermediary, you may contact your financial intermediary to elect to continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held with the Delaware Funds® by Macquarie or your financial intermediary.

The US Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

Get shareholder reports and prospectuses online instead of in the mail.

Delaware Funds® by Macquarie

Supplement to the current Statutory Prospectus for each Delaware Fund (each, a “Fund” and together, the “Funds”)

The following amends and restates certain sections of the statutory prospectus entitled, “Broker-defined sales charge waiver policies”:

Ameriprise Financial:

Class A Shares Front-End Sales Charge Waivers Available at Ameriprise Financial:

The following information applies to Class A shares purchases if you have an account with or otherwise purchase Fund shares through Ameriprise Financial:

Shareholders purchasing Fund shares through an Ameriprise Financial retail brokerage account are eligible for the following front-end sales charge waivers, which may differ from those disclosed elsewhere in this Prospectus or the SAI:

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same Fund (but not any other fund within Delaware Funds).
- Shares exchanged from Class C shares of the same Fund in the month of or following the 7-year anniversary of the purchase date. To the extent that this Prospectus elsewhere provides for a waiver with respect to exchanges of Class C shares or conversion of Class C shares following such shorter period, that waiver will apply.
- Employees and registered representatives of Ameriprise Financial or its affiliates and their immediate family members.
- Shares purchased by or through qualified accounts (including IRAs, Coverdell Education Savings Accounts, 401(k)s, 403(b) TSCAs subject to ERISA and defined benefit plans) that are held by a covered family member, defined as an Ameriprise financial advisor and/or the advisor's spouse, advisor's lineal ascendant (mother, father, grandmother, grandfather, great grandmother, great grandfather), advisor's lineal descendant (son, step-son, daughter, step-daughter, grandson, granddaughter, great grandson, great granddaughter) or any spouse of a covered family member who is a lineal descendant.
- Shares purchased from the proceeds of redemptions within Delaware Funds, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (that is, Rights of Reinstatement).

Edward D. Jones & Co., L.P. (“Edward Jones”):

Policies Regarding Transactions Through Edward Jones

The following information has been provided by Edward Jones:

The following information supersedes prior information with respect to transactions and positions held in fund shares through an Edward Jones system. Shareholders purchasing fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge discounts (also

referred to as “breakpoints”) and waivers, which can differ from discounts and waivers described elsewhere in this Prospectus or the SAI or through another broker-dealer. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of the Delaware Funds, or other facts qualifying the purchaser for discounts or waivers. Edward Jones can ask for documentation of such circumstance. Shareholders should contact Edward Jones if they have questions regarding their eligibility for these discounts and waivers.

Breakpoints

- Breakpoint pricing, otherwise known as volume pricing, at dollar thresholds as described in this Prospectus.

Rights of Accumulation (“ROA”)

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except certain money market funds and any assets held in group retirement plans) of Delaware Funds held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations (“pricing groups”). If grouping assets as a shareholder, this includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible Delaware Funds assets in the ROA calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Money market funds are included only if such shares were sold with a sales charge at the time of purchase or acquired in exchange for shares purchased with a sales charge.
- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.
- ROA is determined by calculating the higher of cost minus redemptions or market value (current shares x NAV).

Letter of Intent (“LOI”)

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible Delaware Funds assets in the LOI calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not adjusted under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.
- If the employer maintaining a SEP IRA plan and/or SIMPLE IRA plan has elected to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping, LOIs will also be at the plan-level and may only be established by the employer.

Sales Charge Waivers:

Sales charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and their family members who are in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing and remains in good standing pursuant to Edward Jones' policies and procedures.

- Shares purchased in an Edward Jones fee-based program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
- Shares purchased from the proceeds of redeemed shares of the same Delaware Funds so long as the following conditions are met: 1) the proceeds are from the sale of shares within 60 days of the purchase, and 2) the sale and purchase are made in the same share class and the same account or the purchase is made in an individual retirement account with proceeds from liquidations in a non-retirement account.
- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in this Prospectus.
- Exchanges from Class C shares to Class A shares of the same fund, generally, in the 84th month following the anniversary of the purchase date or earlier at the discretion of Edward Jones.

Contingent Deferred Sales Charge (“CDSC”) Waivers:

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder is responsible to pay the CDSC except in the following conditions:

- The death or disability of the shareholder.
- Systematic withdrawals with up to 10% per year of the account value.
- Return of excess contributions from an Individual Retirement Account (IRA).
- Shares sold as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares sold to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones.
- Shares exchanged in an Edward Jones fee-based program.
- Shares acquired through NAV reinstatement.
- Shares redeemed at the discretion of Edward Jones for Minimums Balances, as described below.

Other Important Information Regarding Transactions Through Edward Jones

Minimum Purchase Amounts

- Initial purchase minimum: \$250
- Subsequent purchase minimum: none

Minimum Balances

Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:

- A fee-based account held on an Edward Jones platform
- A 529 account held on an Edward Jones platform
- An account with an active systematic investment plan or LOI

Exchanging Share Classes

- At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder's holdings in a fund to Class A shares of the same fund.

Because everyone's tax situation is unique, you should consult your tax professional about federal, state, local, or foreign tax consequences before making an investment in a Fund.

Delaware Management Company (Manager) is an indirect wholly owned subsidiary of Macquarie Group Limited (MGL). Other than Macquarie Bank Limited (MBL), a subsidiary of MGL and an affiliate of the Manager, none of the entities noted are authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities, unless noted otherwise. The Funds are governed by US laws and regulations.

Please keep this Supplement for future reference.

This Supplement is dated March 2, 2021.

Delaware Funds® by Macquarie

Supplement to the current Statutory Prospectus (the “Prospectus”) and Statement of Additional Information (the “SAI”) for each Delaware Fund (each, a “Fund” and together, the “Funds”)

On November 18, 2020, the Board of Trustees approved a proposal to accelerate the automatic conversion of eligible Class C shares to Class A shares at net asset value from 10 years after purchase to 8 years after purchase. Related to this proposal, Class C share accounts with no broker-dealer will be converted to Class A shares at net asset value.

Effective January 19, 2021, the following replaces the first five bullet points in the section of the Prospectus entitled “About your account – Choosing a share class – Class C” in each Fund’s Prospectus:

- Class C shares have no upfront sales charge, so the full amount of your purchase is invested in the Fund. However, you will pay a CDSC of 1.00% if you redeem your shares within 12 months after you buy them.
- In determining whether the CDSC applies to a redemption of Class C shares, it will be assumed that shares held for more than 12 months are redeemed first, followed by shares acquired through the reinvestment of dividends or distributions, and finally by shares held for 12 months or less. For further information on how the CDSC is determined, please see “Calculation of contingent deferred sales charges—Class C” below.
- Under certain circumstances, the CDSC may be waived; please see “Waivers of contingent deferred sales charges” below for further information.
- For approximately eight years after you buy your Class C shares, they are subject to an annual 12b-1 fee no greater than 1.00% of average daily net assets (of which 0.25% is a service fee) paid to the Distributor, dealers, or others for providing services and maintaining shareholder accounts.
- Class C shares are eligible to automatically convert to Class A shares with a 12b-1 fee of no more than 0.25% approximately eight years after you buy Class C shares. Conversion may occur as late as one month after the eighth anniversary of purchase, during which time Class C's higher 12b-1 fee applies. Please refer to the Fund’s SAI for more details on this automatic conversion feature.

Effective January 19, 2021, the following bullet point is added to the section of the Prospectus entitled “About your account – Choosing a share class – Class C” in each Fund’s Prospectus:

- Class C shares with no financial intermediary will be converted to Class A shares at NAV within a certain time frame after a financial intermediary resigns, as determined by the Manager. Additionally, investors may only open an account to purchase Class C shares if they have appointed a financial intermediary.

Effective January 19, 2021, the following replaces the applicable footnote to the chart or charts on Class C shares in the section of the Prospectus entitled “About your account – Dealer compensation” in each Fund’s Prospectus:

² On sales of Class C shares, the Distributor may pay your securities dealer an upfront commission of 1.00%. The upfront commission includes an advance of the first year’s 12b-1 service fee of up to 0.25%. During the first 12 months, the Distributor retains the full 1.00% 12b-1 fee to partially offset the upfront commission and the prepaid 0.25% service fee advanced at the time of purchase. Starting in the 13th month, your securities dealer may be eligible to receive the full 1.00% 12b-1 fee applicable to Class C shares. Alternatively, certain intermediaries may not be eligible to receive the upfront commission of

1.00%, but may receive the 12b-1 fee for sales of Class C shares from the date of purchase. After approximately eight years, Class C shares are eligible to automatically convert to Class A shares and dealers may then be eligible to receive the 12b-1 fee applicable to Class A shares.

Effective January 19, 2021, the following bullet point is added to the section of the Prospectus entitled "About your account – Buying Class A shares at net asset value" in each Fund's Prospectus:

- investments made into an account with no financial intermediary or no longer associated with a financial intermediary may invest in Class A shares without a sales charge.

Effective January 19, 2021, the following replaces the final sentence of the first paragraph in the section of the SAI entitled "Purchasing Shares – Comparison of Share Classes" in each Fund's SAI:

Class C shares that automatically convert to Class A shares at the end of approximately 8 years after purchase will be subject to Class A shares' annual Rule 12b-1 Plan expenses.

Effective January 19, 2021, the following replaces the section of the SAI entitled "Purchasing Shares – Contingent Deferred Sales Charge – Class C shares" in each Fund's SAI:

Contingent Deferred Sales Charge—Class C shares

Class C shares are purchased without a front-end sales charge. Class C shares redeemed within 12 months of purchase may be subject to a CDSC of 1.00%. CDSCs are charged as a percentage of the dollar amount subject to the CDSC. The charge will be assessed on an amount equal to the lesser of the NAV at the time of purchase of the shares being redeemed or the NAV of those shares at the time of redemption. No CDSC will be imposed on increases in NAV above the initial purchase price, nor will a CDSC be assessed on redemptions of shares acquired through reinvestment of dividends or capital gains distributions. For purposes of this formula, the "net asset value at the time of purchase" will be the NAV at purchase of Class C shares, even if those shares are later exchanged for shares of another Delaware Fund. In the event of an exchange of the shares, the "net asset value of such shares at the time of redemption" will be the NAV of the shares that were acquired in the exchange. See the Prospectuses for a list of the instances in which the CDSC is waived.

Approximately 8 years after purchase, the investor's Class C shares will be eligible to automatically convert to Class A shares of the same Fund. See "Automatic Conversion of Class C Shares" below. Such conversion will constitute a tax-free exchange for federal income tax purposes. Investors are reminded that the Class A shares to which Class C shares will convert are subject to Class A shares' ongoing annual Rule 12b-1 Plan expenses.

In determining whether a CDSC applies to a redemption of Class C shares, it will be assumed that shares held for more than 12 months are redeemed first followed by shares acquired through the reinvestment of dividends or distributions, and finally by shares held for 12 months or less.

Effective January 19, 2021, the following replaces the section of the SAI entitled "Purchasing Shares – Automatic Conversion of Class C shares" in each Fund's SAI:

Automatic Conversion of Class C shares

Class C shares held for eight years after purchase are eligible for automatic conversion into Class A shares of the same Fund. Conversions of Class C shares into Class A shares will generally occur monthly during the calendar year, on the 18th day or next business day of each month (each, a "Conversion Date"). If the eighth anniversary after a purchase of Class C shares falls on a Conversion Date, an investor's Class C shares will be converted on that date. If the eighth anniversary occurs between Conversion Dates, an investor's Class C shares will be converted on the next Conversion Date after such anniversary.

The automatic conversion of Class C to Class A shares will be on the basis of the NAV per share, without the imposition of any sales load, fee or other charge. Class C shares of a Fund acquired through a reinvestment of dividends will convert to Class A shares of the Fund pro rata with Class C shares of that Fund not acquired through dividend reinvestment. All such automatic conversions of Class C shares will constitute tax-free exchanges for federal income tax purposes.

For shareholders investing in Class C shares through retirement plans, omnibus accounts, and in certain other instances, the Fund and its agents may not have transparency into how long a shareholder has held Class C Shares for purposes of determining whether such Class C shares are eligible for automatic conversion into Class A shares. In these circumstances, the Fund will not be able to automatically convert Class C shares into Class A shares as described above. In order to determine eligibility for conversion in these circumstances, it is the responsibility of the shareholder or their financial intermediary to notify the Fund that the shareholder is eligible for the conversion of Class C shares to Class A shares, and the shareholder or their financial intermediary may be required to maintain and provide the Fund with records that substantiate the holding period of Class C shares.

In addition, a financial intermediary may sponsor and/or control accounts, programs or platforms that impose a different conversion schedule or eligibility requirements in regards to the conversion of Class C shares into Class A shares. In these cases, certain Class C shareholders may not be eligible to convert to Class A shares as described above. However, these Class C shareholders may be permitted to exchange their Class C shares for Class A shares pursuant to the terms of the financial intermediary's conversion policy. Financial intermediaries will be responsible for making such exchanges in those circumstances. Please consult with your financial intermediary if you have any questions regarding the conversion of Class C shares to Class A shares.

Effective January 19, 2021, the following replaces the section of the SAI entitled "Distributions and Taxes – Conversion of shares into shares of the same Fund" in each Fund's SAI:

Conversion of shares into shares of the same Fund. The conversion or exchange of shares of one class into another class of the same Fund is not taxable for federal income tax purposes. Thus, the following transactions generally will be tax-free for federal income tax purposes:

- the automatic conversion of Class C shares into Class A shares of the same Fund approximately eight years after purchase,
- the exchange of Class A shares for Institutional Class shares of the same Fund by certain Programs,
- the exchange of Class C shares for Class A shares or Institutional Class shares of the same Fund by certain Programs, and
- the exchange of Institutional Class shares for Class A shares or Class C shares of the same Fund by certain shareholders of Institutional Class shares who cease participation in a Program.

However, shareholders should consult their tax advisors regarding the state and local tax consequences of a conversion or exchange of shares.

Because everyone's tax situation is unique, you should consult your tax professional about federal, state, local, or foreign tax consequences before making an investment in a Fund.

Delaware Management Company (Manager) is an indirect wholly owned subsidiary of Macquarie Group Limited (MGL). Other than Macquarie Bank Limited (MBL), a subsidiary of MGL and an affiliate of the Manager, none of the entities noted are authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities, unless noted otherwise. The Funds are governed by US laws and regulations.

Supplement to each Statutory Prospectus (the “Prospectus”) and Statement of Additional Information (the “SAI”)

1. *Effective immediately for Delaware Emerging Markets Fund and Delaware International Small Cap Fund only, the following replaces the section of the Prospectus entitled “How we manage the Funds – The securities in which the Funds typically invest – Foreign securities – How the Funds use them”:*

How the Funds use them: Each Fund may invest in foreign securities directly or indirectly through ADRs, EDRs, and GDRs. Each Fund may also invest in China A shares. Delaware Emerging Markets Fund may invest in N Shares. Delaware International Small Cap Fund may also invest in China Interbank bonds through Bond Connect. Determinations to purchase depositary receipts will be based on relevant factor(s) in the portfolio managers’ sole discretion.

2. *Effective immediately for all Funds, the following is added to the section of the Prospectus entitled “How we Manage the Fund — The risks of investing in the Fund”, replacing the existing LIBOR risk disclosure, to the extent applicable:*

IBOR risk

The risk that potential changes related to the use of the London Interbank Offered Rate (LIBOR) or similar interbank offered rates (“IBORs,” such as the Euro Overnight Index Average (EONIA)) could have adverse impacts on financial instruments that reference such rates. While some instruments may contemplate a scenario where LIBOR or a similar rate is no longer available by providing for an alternative rate setting methodology, not all instruments have such fallback provisions and the effectiveness of replacement rates is uncertain. The potential abandonment of LIBOR and similar rates could affect the value and liquidity of instruments that reference such rates, especially those that

do not have fallback provisions. The use of alternative reference rate products may impact investment strategy performance.

How the Fund strives to manage it: Due to uncertainty regarding the future use of LIBOR or similar rates (such as the Euro Overnight Index Average (EONIA)), the potential impact of the abandonment of such rates on the Fund or the financial instruments in which the Fund invests cannot yet be determined. However, the Fund tries to address such risk by monitoring the economic, political, and regulatory climate in jurisdictions relevant to the Fund and the financial instruments in which the Fund invests in order to minimize any potential impact on the Fund. In addition, the Fund typically invests in a number of different securities in a variety of sectors in order to minimize the impact to the Fund of any legislative or regulatory development affecting particular countries, issuers, or market sectors.

3. *Effective immediately for all Series, the following is added to the section of the Prospectus entitled “How we Manage the Series — The risks of investing in the Series”, replacing the existing LIBOR risk disclosure, to the extent applicable:*

IBOR risk

The risk that potential changes related to the use of the London Interbank Offered Rate (LIBOR) or similar interbank offered rates (“IBORs,” such as the Euro Overnight Index Average (EONIA)) could have adverse impacts on financial instruments that reference such rates. While some instruments may contemplate a scenario where LIBOR or a similar rate is no longer available by providing for an alternative rate setting methodology, not all instruments have such fallback provisions and the effectiveness of replacement rates is uncertain. The potential abandonment of LIBOR and similar rates could affect the value and liquidity of instruments that reference such rates, especially those that do not have fallback provisions. The use of alternative reference rate products may impact investment strategy performance.

How the Series strives to manage it: Due to uncertainty regarding the future use of LIBOR or similar rates (such as the Euro Overnight Index Average (EONIA)), the potential impact of the abandonment of such rates on the Series or the financial instruments in which the Series invests cannot yet be determined. However, the Series tries to address such risk by monitoring the economic, political, and regulatory climate in jurisdictions relevant to the Series and the financial instruments in which the Series invests in order to minimize any potential impact on the Series. In addition, the Series typically invests in a number of different securities in a variety of sectors in order to minimize the impact to the Series of any legislative or regulatory development affecting particular countries, issuers, or market sectors.

4. *Effective immediately for all Portfolios, the following is added to the section of the Prospectus entitled “Risk Factors”, replacing the existing LIBOR risk disclosure, to the extent applicable:*

Risks	How the Portfolios strive to manage them
IBOR risk: The risk that potential changes related to the use of the London Interbank Offered Rate (LIBOR) or similar interbank offered rates (“IBORs,” such as the Euro Overnight Index Average (EONIA)) could have adverse impacts on financial instruments that reference such rates. ---	--

5. *Effective upon the liquidation of Delaware Government Cash Management Fund for all Funds, the section of the Prospectus entitled “About your account — Investor services — Exchanges for money market funds” is hereby deleted to the extent applicable.*
6. *Effective immediately for all Funds, except for Delaware Investments Ultrashort Fund, Delaware Healthcare Fund, Delaware Small Cap Growth Fund, Delaware Smid Cap Growth Fund, and Delaware Strategic Allocation Fund, the following replaces the third paragraph of the section of the SAI entitled “Redemption and Exchange — Contingent Deferred Sales Charges for Certain Redemptions of Class A shares Purchased at Net Asset Value”:*

Redemptions of such Class A shares held for more than the holding period, as set forth in the Prospectuses, will not be subject to the Limited CDSC and an exchange of such Class A shares into another Delaware Fund will not trigger the imposition of the Limited CDSC at the time of such exchange. The period a shareholder owns shares into which Class A shares are exchanged will count toward satisfying the holding period. The Limited CDSC is assessed if such holding period is not satisfied irrespective of whether the redemption triggering its payment is of Class A shares of the Funds or Class A shares acquired in the exchange.

7. *Effective immediately for Delaware Tax-Exempt Income Fund, Delaware Tax-Exempt Opportunities Fund, Delaware Tax-Free California II Fund, Delaware Tax-Free New York II Fund, Delaware Tax-Free New Jersey Fund, and Delaware Tax-Free Oregon Fund only, the first and second bullet points are removed from the section of the Prospectus entitled “About your account — Choosing a share class — Institutional Class — Institutional Class shares are available for purchase only by the following.”*
8. *Effective immediately for Delaware Tax-Exempt Income Fund, Delaware Tax-Exempt Opportunities Fund, Delaware Tax-Free California II Fund, Delaware Tax-Free New York II Fund, Delaware Tax-Free New Jersey Fund, and Delaware Tax-Free Oregon Fund only, the fourth bullet point is removed from the section of the Prospectus entitled “About your account — Choosing a share class — Class R6.”*
9. *Effective immediately for Delaware Tax-Free Arizona Fund, Delaware Tax-Free California Fund, Delaware Tax-Free Colorado Fund, Delaware Tax-Free Idaho Fund, Delaware Tax-Free New York Fund, Delaware Tax-Free Pennsylvania Fund, Delaware Tax-Free Minnesota Fund, Delaware Minnesota High-Yield Municipal Bond Fund, Delaware Tax-Free Minnesota Intermediate Fund, Delaware Tax-Exempt Income Fund, Delaware Tax-Exempt Opportunities Fund, Delaware Tax-Free California II Fund, Delaware Tax-Free New York II Fund, Delaware Tax-Free New Jersey Fund, and Delaware Tax-Free Oregon Fund only, the following replaces the first paragraph of the section of the Prospectus entitled “About your account — How to buy shares — Through Delaware Funds by Macquarie Service Center — By mail”:*

Complete an investment slip and mail it with your check, made payable to the fund and class of shares you wish to purchase, to Delaware Funds® by Macquarie at P.O. Box 9876, Providence, RI 02940-8076 for investments by regular mail or Delaware Funds by Macquarie Service Center at 4400 Computer Drive, Westborough, MA 01581-1722 for investments by overnight courier service. If you are making an initial purchase by mail, you must include a completed investment application with your check. Purchase orders will not be accepted at any other address.

10. *Effective immediately for Delaware Tax-Exempt Income Fund, Delaware Tax-Exempt Opportunities Fund, Delaware Tax-Free California II Fund, Delaware Tax-Free New York II Fund, Delaware Tax-Free New Jersey Fund, and Delaware Tax-Free Oregon Fund only, the following replaces the first paragraph of the section of the Prospectus entitled “About your account — Low balance accounts”:*

For Class A shares, if you redeem shares and your account balance falls below the required account minimum of \$1,000 for three or more consecutive months, you will have until the end of the current calendar quarter to raise the balance to the minimum.

11. *Effective immediately for Delaware Tax-Exempt Income Fund, Delaware Tax-Exempt Opportunities Fund, Delaware Tax-Free California II Fund, Delaware Tax-Free New York II Fund, Delaware Tax-Free New Jersey Fund, Delaware Tax-Free Oregon Fund, Delaware Covered Call Strategy Fund, Delaware Equity Income Fund, Delaware Global Equity Fund, Delaware Growth and Income Fund, Delaware Hedged U.S. Equity Opportunities Fund, Delaware International Fund, Delaware Opportunity Fund, Delaware Premium Income Fund, Delaware Growth Equity Fund, Delaware Special Situations Fund, Delaware Total Return Fund, Delaware Floating Rate II Fund, Delaware Fund for Income, Delaware Government Cash Management Fund, Delaware International Opportunities Bond Fund, Delaware Investment Grade Fund, Delaware Limited Duration Bond Fund, and Delaware Strategic Income II Fund only, the section of the Prospectus entitled “About your account — Investor services — Exchange of shares” is hereby replaced with the following:*

You may generally exchange all or part of your shares for shares of the same class of another Delaware Fund without paying a front-end sales charge or a CDSC at the time of the exchange. However, if you exchange shares from a fund that does not have a sales charge, you will pay any applicable sales charge on your new shares. The holding period for the CDSC will also remain the same, with the amount of time you held your original shares being credited toward the holding period of your new shares. In certain other circumstances, you may also be permitted to exchange your shares for shares of a different class of a Fund, but such exchange may be subject to a sales charge for the new shares. (Please refer to the SAI for more details.) You do not pay sales charges on shares that you acquired through the reinvestment of dividends. You may have to pay taxes on your exchange. When you exchange shares, you are purchasing shares in another fund, so you should be sure to get a copy of the fund's prospectus and read it carefully before buying shares through an exchange. We may refuse the purchase side of any exchange request if, in the Manager's judgment, a fund would be unable to invest effectively in accordance with its investment objective and policies or would otherwise potentially be adversely affected.

12. *Effective immediately for Delaware Tax-Exempt Income Fund, Delaware Tax-Exempt Opportunities Fund, Delaware Tax-Free California II Fund, Delaware Tax-Free New York II Fund, Delaware Tax-Free New Jersey Fund, Delaware Tax-Free Oregon Fund, Delaware Covered Call Strategy Fund, Delaware Equity Income Fund, Delaware Global Equity Fund, Delaware Growth and Income Fund, Delaware Hedged U.S. Equity Opportunities Fund, Delaware International Fund, Delaware Opportunity Fund, Delaware Premium Income Fund, Delaware Growth Equity Fund, Delaware Special Situations Fund, Delaware Total Return Fund, Delaware Floating Rate II Fund, Delaware Fund for Income, Delaware Government Cash Management Fund,*

Delaware International Opportunities Bond Fund, Delaware Investment Grade Fund, Delaware Limited Duration Bond Fund, and Delaware Strategic Income II Fund only, the following is added after the section of the Prospectus entitled "About your account — Investor services — Exchange of shares":

On demand service

The on demand service allows you or your financial advisor to transfer money between your Fund account and your predesignated bank account by telephone request. There is a minimum transfer of \$25 and a maximum transfer of \$100,000. Macquarie Investment Management does not charge a fee for this service; however, your bank may assess one.

13. Effective immediately for all Funds, Series, and Portfolios, the following is added to the section of the SAls entitled "Investment Strategies and Risks", replacing the existing LIBOR Transition Risk disclosure to the extent applicable:

IBOR Transition Risk

The London Interbank Offered Rate ("LIBOR") is the average offered rate for various maturities of short-term loans between major international banks who are members of the British Bankers Association ("BBA"). LIBOR is the most common benchmark interest rate index used to make adjustments to variable-rate loans. LIBOR is used throughout global banking and financial industries to determine interest rates for a variety of borrowing arrangements and financial instruments (such as debt instruments and derivatives). Regulators in the United States and the United Kingdom alleged that certain banks engaged in manipulative acts in connection with their submissions to the BBA. LIBOR manipulation would raise the risk of a fund of being adversely impacted if a fund received a payment based upon LIBOR and such manipulation of LIBOR resulted in lower resets than would have occurred had there been no manipulation. In 2017, the head of the United Kingdom's Financial Conduct Authority announced a desire to phase out the use of LIBOR by the end of 2021.

In addition to LIBOR, a fund may have investments linked to other interbank offered rates (IBORs). Other IBORs, such as the Euro Overnight Index Average (EONIA), are also the subject of regulatory reform or discontinuation. Various regulators and industry bodies are working globally on transitioning to alternative rates.

Planning for that transition by various financial industry groups has begun, but there are obstacles to converting certain longer-term securities and transactions to a new benchmark. While some instruments tied to LIBOR or a similar rate may include a replacement rate in the event these rates are discontinued, not all instruments have such fallback provisions and the effectiveness of such replacement rates remains uncertain. The potential cessation of LIBOR or similar rates could affect the value and liquidity of investments tied to these rates, especially those that do not include fallback provisions. The effect of a transition away from the IBORs may also result in a reduction in the effectiveness of certain hedging transactions and increased volatility in markets that currently rely on an IBOR to determine interest rates. The use of alternative reference rate products may also impact investment strategy performance. Due to the uncertainty regarding the future utilization of LIBOR and similar rates and the nature of any replacement rate, the potential effect of a transition away from these rates on a fund or the financial instruments in which the fund invests cannot yet be determined.

Because everyone's tax situation is unique, you should consult your tax professional about federal, state, local, or foreign tax consequences before making an investment in a Fund/Series/Portfolio.

Delaware Management Company (Manager) is an indirect wholly owned subsidiary of Macquarie Group Limited (MGL). Other than Macquarie Bank Limited (MBL), a subsidiary of MGL and an affiliate of the Manager, none of the entities noted are authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities, unless noted otherwise. The Funds/Series/Portfolios are governed by US laws and regulations.

Please keep this Supplement for future reference.

Fund summary

Delaware Smid Cap Growth Fund

What is the Fund's investment objective?

Delaware Smid Cap Growth Fund seeks long-term capital appreciation.

What are the Fund's fees and expenses?

The table below describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales-charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in Delaware Funds® by Macquarie. More information about these and other discounts is available from your financial intermediary, in the Fund's Prospectus under the section entitled "About your account," and in the Fund's statement of additional information (SAI) under the section entitled "Purchasing Shares."

Shareholder fees (fees paid directly from your investment)

Class	A	C	R	Inst.	R6
Maximum sales charge (load) imposed on purchases as a percentage of offering price	5.75%	none	none	none	none
Maximum contingent deferred sales charge (load) as a percentage of original purchase price or redemption price, whichever is lower	none	1.00% ¹	none	none	none

Annual fund operating expenses (expenses that you pay each year as a percentage of the value of your investment)

Class	A	C	R	Inst.	R6
Management fees	0.69%	0.69%	0.69%	0.69%	0.69%
Distribution and service (12b-1) fees	0.25% ²	1.00%	0.50%	none	none
Other expenses	0.16%	0.16%	0.16%	0.16%	0.08% ³
Total annual fund operating expenses	1.10%	1.85%	1.35%	0.85%	0.77%

¹ Class C shares redeemed within one year of purchase are subject to a 1.00% contingent deferred sales charge (CDSC).

² The Fund's Class A shares are subject to a blended 12b-1 fee of 0.10% on all shares acquired prior to June 1, 1992 and 0.25% on all shares acquired on or after June 1, 1992. This method of calculating Class A 12b-1 fees may be discontinued at the sole discretion of the Fund's Board of Trustees.

³ "Other expenses" account for Class R6 shares not being subject to certain expenses as described further in the section of the Prospectus entitled "Choosing a share class."

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. In addition, the example shows expenses for Class C shares, assuming those shares were not redeemed at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Class	A	(if not redeemed) C	C	R	Inst.	R6
1 year	\$681	\$188	\$288	\$137	\$87	\$79
3 years	\$905	\$582	\$582	\$428	\$271	\$246
5 years	\$1,146	\$1,001	\$1,001	\$739	\$471	\$428
10 years	\$1,838	\$2,169	\$2,169	\$1,624	\$1,049	\$954

Portfolio turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 113% of the average value of its portfolio.

Fund summary

What are the Fund's principal investment strategies?

The Fund invests primarily in common stocks of growth-oriented companies that its investment manager, Delaware Management Company (Manager), believes have long-term capital appreciation potential and expect to grow faster than the US economy. Under normal circumstances, the Fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities of small- and mid-capitalization companies (80% policy). For purposes of this Fund, small- and mid-market capitalization companies are those companies whose market capitalization is similar to the market capitalization of companies in the Russell 2500™ Growth Index. The index listed above is used for purposes of determining range and not for targeting portfolio management. As of June 30, 2020, the Russell 2500 Growth Index had a market capitalization range between \$3.4 million and \$13.9 billion. The market capitalization range for the Russell 2500 Growth Index will change on a periodic basis. A company's market capitalization is determined based on its current market capitalization. Frank Russell Company is the source and owner of the trademarks, service marks, and copyrights related to the Russell Indexes. Russell® is a trademark of Frank Russell Company. The Fund may invest in a limited number of stocks.

Using a top-down thematic overlay combined with bottom-up, fundamental research, the Manager seeks to identify early stage major demand trends and invest in securities of competitively advantaged companies that the Manager believes should benefit from these trends. The Manager focuses on earnings growth as the Manager believes earnings growth drives stock prices and the companies with the strongest gains in profitability have the potential to enjoy share performance that exceeds the broad market averages, provided that the earnings are of high quality and likely to continue.

The Manager may permit its affiliates, Macquarie Funds Management Hong Kong Limited (MFMHKL) and Macquarie Investment Management Global Limited (MIMGL), to execute Fund security trades on behalf of the Manager. The Manager may also seek quantitative support from MIMGL.

The Fund's 80% policy is nonfundamental and may be changed without shareholder approval. Fund shareholders would be given at least 60 days' notice prior to any such change.

What are the principal risks of investing in the Fund?

Investing in any mutual fund involves the risk that you may lose part or all of the money you invest. Over time, the value of your investment in the Fund will increase and decrease according to changes in the value of the securities in the Fund's portfolio. An investment in the Fund may not be appropriate for all investors. The Fund's principal risks include:

Market risk — The risk that all or a majority of the securities in a certain market — such as the stock or bond market — will decline in value because of factors such as adverse political or economic conditions, future expectations, investor confidence, or heavy institutional selling.

Company size risk — The risk that investments in small- and/or medium-sized companies may be more volatile than those of larger companies because of limited financial resources or dependence on narrow product lines.

Limited number of securities risk — The possibility that a single security's increase or decrease in value may have a greater impact on a fund's value and total return because the fund may hold larger positions in fewer securities than other funds. In addition, a fund that holds a limited number of securities may be more volatile than those funds that hold a greater number of securities.

Liquidity risk — The possibility that investments cannot be readily sold within seven calendar days at approximately the price at which a fund has valued them.

LIBOR risk — The risk that potential changes related to the use of the London Interbank Offered Rate (LIBOR) could have adverse impacts on financial instruments which reference LIBOR. While some instruments may contemplate a scenario where LIBOR is no longer available by providing for an alternative rate setting methodology, not all instruments have such fallback provisions and the effectiveness of replacement rates is uncertain. The potential abandonment of LIBOR could affect the value and liquidity of instruments which reference LIBOR, especially those that do not have fallback provisions.

Active management and selection risk — The risk that the securities selected by a fund's management will underperform the markets, the relevant indices, or the securities selected by other funds with similar investment objectives and investment strategies. The securities and sectors selected may vary from the securities and sectors included in the relevant index.

The Manager is an indirect wholly owned subsidiary of Macquarie Group Limited (MGL). Other than Macquarie Bank Limited (MBL), a subsidiary of MGL and an affiliate of the Manager, none of the entities noted are authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities, unless noted otherwise. The Fund is governed by US laws and regulations.

How has Delaware Smid Cap Growth Fund performed?

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual total returns for the 1-, 5-, and 10-year or lifetime periods compare with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how it will perform in the future. The returns reflect any expense caps in effect during these periods. The returns would be lower without the expense caps. You may obtain the Fund's most recently available month-end performance by calling 800 523-1918 or by visiting our website at delawarefunds.com/performance.

Effective Jan. 21, 2010, the Fund transitioned to invest primarily in common stocks of small- to medium-sized, growth-oriented companies, as described above. Prior to this time, the Fund invested primarily in stocks of medium-sized companies whose total market capitalization at the time of investment was within the range of the Russell Midcap Growth Index. The returns reflected in the bar chart may not be indicative of future performance.

As of June 30, 2020, the Fund's Class A shares had a calendar year-to-date return of 28.01%. During the periods illustrated in this bar chart, Class A's highest quarterly return was 24.54% for the quarter ended March 31, 2019, and its lowest quarterly return was -24.92% for the quarter ended Dec. 31, 2018. The maximum Class A sales charge of 5.75%, which is normally deducted when you purchase shares, is not reflected in the highest/lowest quarterly returns or in the bar chart. If this fee were included, the returns would be less than those shown. The average annual total returns in the table below do include the sales charge.

Average annual total returns for periods ended December 31, 2019*

	1 year	5 years	10 years or lifetime
Class A return before taxes	27.54%	12.07%	15.20%
Class A return after taxes on distributions	26.24%	8.54%	12.54%
Class A return after taxes on distributions and sale of Fund shares	17.19%	8.59%	11.94%
Class C return before taxes	33.36%	12.54%	15.03%
Class R return before taxes	34.97%	13.11%	15.60%
Institutional Class return before taxes	35.66%	13.68%	16.19%
Class R6 return before taxes (lifetime: 5/2/16 – 12/31/19)	35.76%	—	16.37%
Russell 2500™ Growth Index (reflects no deduction for fees, expenses, or taxes)	32.65%	10.84%	14.01%

After-tax performance is presented only for Class A shares of the Fund. The after-tax returns for other Fund classes may vary. Actual after-tax returns depend on the investor's individual tax situation and may differ from the returns shown. After-tax returns are not relevant for shares held in tax-advantaged investment vehicles such as employer-sponsored 401(k) plans and individual retirement accounts (IRAs). The after-tax returns shown are calculated using the highest individual federal marginal income tax rates in effect during the periods presented and do not reflect the impact of state and local taxes.

* Prior to June 30, 2016, the Fund was sub-advised by Jackson Square Partners, LLC. Since June 30, 2016, the Fund has been managed by a portfolio manager within Delaware Management Company. The average annual total returns for the 5 and 10 year periods prior to June 30, 2016 do not reflect this change to the Fund's portfolio management.

Fund summary

Who manages the Fund?

Investment manager

Macquarie Investment Management Global Limited

Purchase and redemption of Fund shares

You may purchase or redeem shares of the Fund on any day that the New York Stock Exchange (NYSE) is open for business (Business Day). Shares may be purchased or redeemed: through your financial intermediary; through the Fund's website at delawarefunds.com/individual-investors/account-information/account-access; by calling 800 523-1918; by regular mail (c/o Delaware Funds by Macquarie, P.O. Box 9876, Providence, RI 02940-8076); by overnight courier service (c/o Delaware Funds® by Macquarie Service Center, 4400 Computer Drive, Westborough, MA 01581-1722); or by wire.

For Class A and Class C shares, the minimum initial investment is generally \$1,000 and subsequent investments can be made for as little as \$100. The minimum initial investment for IRAs, Uniform Gifts/Transfers to Minors Act accounts, direct deposit purchase plans, and automatic investment plans is \$250 and through Coverdell Education Savings Accounts is \$500, and subsequent investments in these accounts can be made for as little as \$25. For Class R, Institutional Class, and Class R6 shares (except those shares purchased through an automatic investment plan), there is no minimum initial purchase requirement, but certain eligibility requirements must be met. The eligibility requirements are described in this Prospectus under "Choosing a share class" and on the Fund's website. We may reduce or waive the minimums or eligibility requirements in certain cases.

Tax information

The Fund's distributions generally are taxable to you as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA, in which case your distributions may be taxed as ordinary income when withdrawn from the tax-advantaged account.

Payments to broker/dealers and other financial intermediaries

If you purchase shares of the Fund through a broker/dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker/dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

How we manage the Fund

The Manager takes a disciplined approach to investing, combining investment strategies and risk-management techniques that it believes can help shareholders meet their goals.

Our principal investment strategies

The Manager researches individual companies and analyzes economic and market conditions, seeking to identify the securities or market sectors that it believes are the best investments for the Fund. The following are descriptions of how the Manager pursues the Fund's investment objective.

Delaware Smid Cap Growth Fund seeks long-term capital appreciation. The Fund invests primarily in common stocks and generally focuses on small- to mid-sized companies that address large market opportunities.

The Manager believes, over the long run, earnings growth determines stock price movements and companies with the strongest gains in profitability should enjoy share performance that exceeds the broad market averages, provided that the earnings are of high quality and likely to continue. To locate these high-growth investment opportunities, the Manager utilizes a top-down thematic overlay combined with bottom-up, fundamental research.

From a top-down perspective, the Manager seeks to identify, at an early stage, major demand trends that are believed to be creating investment opportunities. Once the trends have been identified, the Manager creates investment themes as a means for organizing research efforts. The Manager studies the industries that fit within its themes to assess the competitive landscape and begins to analyze specific companies.

From a bottom-up perspective, the Manager conducts extensive fundamental analysis of the businesses that appear to have a competitively advantaged position within these fast growing industries. At this stage, it is critical for the Manager to understand the nature of competition and develop a model for the type of company that will succeed in the given industry. The Manager seeks companies that have current earnings growth rates that are significantly higher than the overall market. The Fund may invest in a limited number of stocks.

The Manager may permit its affiliates, MFMHKL and MIMGL, to execute Fund security trades on behalf of the Manager. The Manager may also seek quantitative support from MIMGL.

The Fund's investment objective is nonfundamental. This means that the Fund's Board of Trustees (Board) may change the objective without obtaining shareholder approval. If the objective were changed, the Fund would notify shareholders at least 60 days before the change became effective.

The securities in which the Fund typically invests

Common or ordinary stocks

Common or ordinary stocks are securities that represent shares of ownership in a corporation. Stockholders may participate in a corporation's profits through its distributions of dividends to stockholders, proportionate to the number of shares they own.

How the Fund uses them: The Fund invests primarily in common stocks and generally focuses on small- to mid-sized companies that address large market opportunities.

Foreign securities and American depositary receipts (ADRs)

Foreign securities are securities of issuers which are classified by index providers, or by the investment manager applying internally consistent guidelines, as being assigned to countries outside the United States. ADRs are typically issued by a US bank and represent the bank's holdings of a stated number of shares of a foreign corporation. An ADR entitles the holder to all dividends and capital gains earned by the underlying foreign shares. ADRs are typically bought and sold on US securities exchanges in the same way as other US securities. Sponsored ADRs are issued jointly by the issuer of the underlying security and the depositary, and unsponsored ADRs are issued by the depositary without the participation of the issuer of the underlying security.

How the Fund uses them: Although the Fund may invest up to 20% of its net assets in securities of foreign issuers, investing in securities of foreign issuers is not a principal strategy of the Fund. Such foreign securities may be traded on a foreign exchange, or they may be in the form of ADRs. Determinations to purchase depositary receipts will be based on relevant factor(s) in the Manager's sole discretion.

Forward foreign currency contracts

A fund may invest in securities of foreign issuers and may hold foreign currency. In addition, a fund may enter into contracts to purchase or sell foreign currencies at a future date (a "forward foreign currency" contract or "forward" contract). A forward contract involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract, agreed upon by the parties, at a price set at the time of the contract.

How we manage the Fund

How the Fund uses them: Although the Manager values the Fund's assets daily in US dollars, it does not intend to convert the Fund's holdings of foreign currencies into US dollars on a daily basis. The Fund is permitted to, however, from time to time, purchase or sell foreign currencies and/or engage in forward foreign currency contracts. The Manager may conduct the Fund's foreign currency transactions on a cash basis at the rate prevailing in the foreign currency exchange market or through a forward foreign currency contract.

The Manager may use forward contracts for defensive hedging purposes to attempt to protect the value of the Fund's current security or currency holdings or to facilitate transactions in foreign securities. The Manager may also use forward contracts for the Fund if it has agreed to sell a security and wants to "lock in" the price of that security, in terms of US dollars. The Manager will not use forward contracts for speculative purposes. Despite the ability to utilize foreign currency transactions as described above, the Manager does not currently intend to use such transactions often and may determine not to use foreign currency transactions at all.

Repurchase agreements

A repurchase agreement is an agreement between a buyer of securities, such as a fund, and a seller of securities, in which the seller agrees to buy the securities back within a specified time at the same price the buyer paid for them, plus an amount equal to an agreed-upon interest rate. Repurchase agreements are often viewed as equivalent to cash.

How the Fund uses them: Typically, the Fund uses repurchase agreements as short-term investments for its cash position. In order to enter into these repurchase agreements, the Fund must have collateral of at least 102% of the repurchase price. The Fund will only enter into repurchase agreements in which the collateral is composed of US government securities. At the Manager's discretion, the Fund may invest overnight cash balances in short-term discount notes issued or guaranteed by the US government, its agencies or instrumentalities, or government-sponsored corporations.

Restricted securities

Restricted securities are privately placed securities whose resale is restricted under US securities laws.

How the Fund uses them: The Fund may invest in privately placed securities, including those that are eligible for resale only among certain institutional buyers without registration, which are commonly known as "Rule 144A Securities." Restricted securities that are determined to be illiquid may not exceed the Fund's limit on investments in illiquid investments.

Illiquid investments

Illiquid investments are any investment that a fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment.

How the Fund uses them: The Fund may invest up to 15% of its net assets in illiquid investments.

Futures and options

Futures contracts are agreements for the purchase or sale of a security or a group of securities at a specified price, on a specified date. Unlike purchasing an option, a futures contract must be executed unless it is sold before the settlement date.

Options represent a right to buy or sell a swap agreement, a futures contract, or a security or a group of securities at an agreed-upon price at a future date. The purchaser of an option may or may not choose to go through with the transaction. The seller of an option, however, must go through with the transaction if the purchaser exercises the option.

Certain options and futures may be considered illiquid.

How the Fund uses them: If the Fund has stocks that have unrealized gains because of past appreciation, the Manager may want to protect those gains when it anticipates adverse conditions. The Manager might use options or futures to seek to neutralize the effect of any price declines, without selling the security. The Manager might also use options or futures to gain exposure to a particular market segment without purchasing individual securities in that segment. The Manager might use this approach if the Fund had excess cash that the Manager wanted to invest quickly.

The Manager might use call options if it believes that doing so would help the Fund to meet its investment objective. To the extent that the Fund sells or "writes" put and call options, or enters into futures contracts, the Fund will designate assets sufficient to "cover" these obligations and mark them to market daily.

Use of these strategies can increase the operating costs of the Fund and can lead to loss of principal.

To the extent that the Fund invests in certain options and futures that may be considered illiquid, such investments will be subject to the Fund's 15% limit on investments in illiquid investments.

Real estate investment trusts (REITs)

REITs are pooled investment vehicles that invest primarily in income-producing real estate or real estate-related loans or interests. REITs are generally classified as equity REITs, mortgage REITs, or a combination of equity and mortgage REITs. Equity REITs invest the majority of their assets directly in real property and derive income primarily from the collection of rents. Equity REITs can also realize capital gains by selling properties that have appreciated in value. Mortgage REITs invest the majority of their assets in real estate mortgages and derive income from the collection of interest payments.

How the Fund uses them: The Fund may invest in REITs.

Other investment strategies

Borrowing from banks

The Fund may borrow money from banks as a temporary measure for extraordinary or emergency purposes or to facilitate redemptions. The Fund will be required to pay interest to the lending banks on the amount borrowed. As a result, borrowing money could result in the Fund being unable to meet its investment objective. The Fund will not borrow money in excess of one-third of the value of its total assets.

Lending securities

The Fund may lend up to 25% of its assets to qualified broker/dealers or institutional investors for their use in securities transactions. Borrowers of the Fund's securities must provide collateral to the Fund and adjust the amount of collateral each day to reflect changes in the value of the loaned securities. These transactions, if any, may generate additional income for the Fund.

Initial public offerings (IPOs)

Under certain market conditions, the Fund may invest in companies at the times of their IPOs. Companies involved in IPOs generally have limited operating histories, and prospects for future profitability are uncertain. Prices of IPOs may also be unstable because of the absence of a prior public market, the small number of shares available for trading, and limited investor information. IPOs may be sold within 12 months of purchase. This may result in increased short-term capital gains, which will be taxable to shareholders as ordinary income.

Temporary defensive positions

In response to unfavorable market conditions, the Fund may make temporary investments in cash or cash equivalents or other high-quality, short-term instruments. These investments may not be consistent with the Fund's investment objective. To the extent that the Fund holds such instruments, it may be unable to achieve its investment objective.

The risks of investing in the Fund

Investing in any mutual fund involves risk, including the risk that you may receive little or no return on your investment, and the risk that you may lose part or all of the money you invest. Before you invest in the Fund, you should carefully evaluate the risks. Because of the nature of the Fund, you should consider your investment to be a long-term investment that typically provides the best results when held for a number of years. The information below describes the principal risks you assume when investing in the Fund. Please see the SAI for a further discussion of these risks and other risks not discussed here.

Market risk

Market risk is the risk that all or a majority of the securities in a certain market — such as the stock or bond market — will decline in value because of factors such as adverse political or economic conditions, future expectations, investor confidence, or heavy institutional selling.

How the Fund strives to manage it: The Fund maintains a long-term investment approach and focuses on securities that the Manager believes can appreciate over an extended period of time regardless of interim market fluctuations. Generally, the Manager does not try to predict overall market movements. Although the Fund may hold securities for any amount of time, it generally does not trade for short-term purposes.

Industry and security risks

Industry risk is the risk that the value of securities in a particular industry (such as financial services or manufacturing) will decline because of changing expectations for the performance of that industry.

Security risk is the risk that the value of an individual stock or bond will decline because of changing expectations for the performance of the individual company issuing the stock or bond (due to situations that could range from decreased sales to events such as a pending merger or actual or threatened bankruptcy).

How we manage the Fund

How the Fund strives to manage them: The Manager limits the amount of the Fund's assets invested in any one industry and in any individual security. The Manager also follows a rigorous selection process when choosing securities.

Company size risk

Company size risk is the risk that investments in small- and/or medium-sized companies typically exhibit higher volatility than investments in larger, more established companies. Company size risk also comes from lower liquidity typically associated with small company stocks, which means the price may be affected by poorly executed trades, even if the underlying business of the company is unchanged.

How the Fund strives to manage it: The Fund may invest in small- and medium-sized companies. The Manager believes medium-sized companies, in general, are more stable than smaller companies and involve less risk due to their larger size, greater experience, and more extensive financial resources. Nonetheless, medium-sized companies have many of the same risks as small companies and are considered to be riskier, in general, than large-sized companies. To address this risk, the Manager seeks a well-diversified portfolio, selects stocks carefully, and monitors them frequently.

Limited number of stocks risk

Limited number of stocks risk is the possibility that a single security's increase or decrease in value may have a greater impact on the fund's value and total return because the fund may hold larger positions in fewer securities than other funds.

How the Fund strives to manage it: The Fund maintains a diversified portfolio representing a number of different industries, which helps to minimize the impact that any one security or industry could have on the Fund if it were to experience a period of slow or declining growth.

Foreign risk

Foreign risk is the risk that foreign securities (particularly in emerging markets) may be adversely affected by political instability, changes in currency exchange rates, inefficient markets and higher transaction costs, foreign economic or government conditions, the imposition of economic and/or trade sanctions, inadequate or different regulatory and accounting standards, and the possibility that significant events in foreign markets, including broad market moves, may affect the value of fund shares.

How the Fund strives to manage it: The Manager typically invests only a small portion of the Fund's portfolio in foreign corporations indirectly through ADRs. When the Manager does purchase ADRs, they are generally denominated in US dollars and traded on a US exchange.

Emerging markets risk

Emerging markets risk is the possibility that the risks associated with international investing will be greater in emerging markets than in more developed foreign markets because, among other things, emerging markets may have less stable political and economic environments. In addition, in many emerging markets there is substantially less publicly available information about issuers and the information that is available tends to be of a lesser quality. Economic markets and structures tend to be less mature and diverse and the securities markets, which are subject to less government regulation or supervision, may also be smaller, less liquid, and subject to greater price volatility.

How the Fund strives to manage it: Under normal circumstances, the Fund may invest up to 10% of its net assets in emerging market securities. The Manager carefully screens securities within emerging markets and considers material risks associated with an individual company or bond issuer.

Political risk

Political risk is the risk that countries or an entire region may experience political instability. This may cause greater fluctuation in the value and liquidity of investments due to changes in currency exchange rates, governmental seizures, or nationalization of assets.

How the Fund strives to manage it: The Manager evaluates the political situations in the countries where the Fund invests and takes into account any potential risks before it selects securities for the Fund. However, there is no way to eliminate political risk when investing internationally. In emerging markets, political risk is typically more likely to affect the economy and share prices than in developed markets.

Currency risk

Currency risk is the risk that the value of a fund's investments may be negatively affected by changes in foreign currency exchange rates. Adverse changes in exchange rates may reduce or eliminate any gains produced by investments that are denominated in foreign currencies and may increase any losses.

How the Fund strives to manage it: The Manager may try to hedge the Fund's currency risk by purchasing forward foreign currency contracts. If the Manager agrees to purchase or sell foreign securities at a preset price on a future date, it may attempt to protect the value of a security the Fund owns from future changes in currency exchange rates. If the Manager has agreed to purchase or sell a security for the Fund, it may also use forward foreign currency contracts to "lock in" the security's price in terms of US dollars or another applicable currency. The Fund may use forward foreign currency contracts only for

defensive or protective measures, not to enhance portfolio returns. However, there is no assurance that such strategies will be successful or that the Fund will necessarily utilize such strategies. Hedging may be less practical in emerging markets.

Information risk

Information risk is the risk that foreign companies may be subject to different accounting, auditing, and financial reporting standards than US companies. There may be less information available about foreign issuers than domestic issuers. Furthermore, regulatory oversight of foreign issuers may be less stringent or less consistently applied than in the United States.

How the Fund strives to manage it: The Manager conducts fundamental research on the companies in which the Fund invests rather than relying solely on information available through financial reporting. As part of its worldwide research process, the Manager emphasizes company visits. The Manager believes this will help to better uncover any potential weaknesses in individual companies.

Inefficient market risk

Inefficient market risk is the risk that foreign markets may be less liquid and have greater price volatility, less regulation, and higher transaction costs than US markets.

How the Fund strives to manage it: The Manager will attempt to reduce this risk by investing in a number of different countries, noting trends in the economy, industries, and financial markets.

Transaction costs risk

Transaction costs risk is the risk that the costs of buying, selling, and holding foreign securities, including brokerage, tax, and custody costs, may be higher than those involved in domestic transactions.

How the Fund strives to manage it: The Manager strives to monitor transaction costs and to choose an efficient trading strategy for the Fund.

Derivatives risk

Derivatives risk is the possibility that a fund may experience a significant loss if it employs a derivatives strategy (including a strategy involving equity-linked securities, futures, options, forward foreign currency contracts, or swaps such as interest rate swaps, index swaps, or credit default swaps) related to a security, index, reference rate, or other asset or market factor (collectively, a “reference instrument”) and that reference instrument moves in the opposite direction from what the portfolio manager had anticipated. If a market or markets, or prices of particular classes of investments, move in an unexpected manner, a fund may not achieve the anticipated benefits of the transaction and it may realize losses. Derivatives also involve additional expenses, which could reduce any benefit or increase any loss to a fund from using the strategy. In addition, changes in government regulation of derivatives could affect the character, timing, and amount of a fund’s taxable income or gains. A fund’s transactions in derivatives may be subject to one or more special tax rules. These rules may: (i) affect whether gains and losses recognized by a fund are treated as ordinary or capital or as short-term or long-term, (ii) accelerate the recognition of income or gains to the fund, (iii) defer losses to the fund, and (iv) cause adjustments in the holding periods of the fund’s securities. A fund’s use of derivatives may be limited by the requirements for taxation of the fund as a regulated investment company.

Investing in derivatives may subject a fund to counterparty risk. Please refer to “Counterparty risk” for more information. Other risks include illiquidity, mispricing or improper valuation of the derivatives contract, and imperfect correlation between the value of the derivatives instrument and the underlying reference instrument so that a fund may not realize the intended benefits. In addition, since there can be no assurance that a liquid secondary market will exist for any derivatives instrument purchased or sold, a fund may be required to hold a derivatives instrument to maturity and take or make delivery of an underlying reference instrument that the Manager would have otherwise attempted to avoid, which could result in losses. When used for hedging, the change in value of the derivatives instrument may also not correlate specifically with the currency, rate, or other risk being hedged, in which case a fund may not realize the intended benefits.

How the Fund strives to manage it: The Fund will use derivatives for defensive purposes, such as to protect gains or hedge against potential losses in the portfolio without actually selling a security, to neutralize the impact of interest rate changes, to effect diversification, or to earn additional income.

The Trust has claimed an exclusion from the definition of the term “commodity pool operator” with respect to the Fund under the Commodity Exchange Act (CEA) and, therefore, is not subject to registration or regulation as a commodity pool operator under the CEA.

How we manage the Fund

Counterparty risk

Counterparty risk is the risk that if a fund enters into a derivatives contract (such as a futures, options, or swap contract) or a repurchase agreement, the counterparty to such a contract or agreement may fail to perform its obligations under the contract or agreement due to, among other reasons, financial difficulties (such as a bankruptcy or reorganization). As a result, the fund may experience significant delays in obtaining any recovery, may obtain only a limited recovery, or may obtain no recovery at all.

How the Fund strives to manage it: The Manager seeks to minimize this risk by considering the creditworthiness of all counterparties before the Fund enters into transactions with them. The Fund will hold collateral from counterparties consistent with applicable regulations.

Leveraging risk

Leveraging risk is the risk that certain fund transactions, such as reverse repurchase agreements, short sales, loans of portfolio securities, and the use of when-issued, delayed delivery or forward commitment transactions, or derivatives instruments, may give rise to leverage, causing a fund to be more volatile than if it had not been leveraged. While it is anticipated that leverage may increase profitability, it may also accentuate the consequences of adverse price movements, resulting in increased losses.

How the Fund strives to manage it: The Fund will, consistent with industry practice, designate and mark-to-market daily cash or other liquid assets having an aggregate market value at least equal to the exposure created by these transactions.

Liquidity risk

Liquidity risk is the possibility that investments cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Illiquid investments may trade at a discount from comparable, more liquid investments, and may be subject to wide fluctuations in market value. A fund also may not be able to dispose of illiquid investments at a favorable time or price during periods of infrequent trading of an illiquid investment.

There is generally no established retail secondary market for high yield securities. As a result, the secondary market for high yield securities is more limited and less liquid than other secondary securities markets. The high yield secondary market is particularly susceptible to liquidity problems when institutional investors, such as mutual funds, and certain other financial institutions, temporarily stop buying bonds for regulatory, financial, or other reasons.

Adverse publicity and investor perceptions may also disrupt the secondary market for high yield securities.

How the Fund strives to manage it: The Fund limits its exposure to illiquid investments to no more than 15% of its net assets.

Government and regulatory risks

Governments or regulatory authorities may take actions that could adversely affect various sectors of the securities markets and affect fund performance. Government involvement in the private sector may, in some cases, include government investment in, or ownership of, companies in certain commercial business sectors; wage and price controls; or imposition of trade barriers and other protectionist measures. For example, an economic or political crisis may lead to price controls, forced mergers of companies, expropriation, the creation of government monopolies, foreign exchange controls, the introduction of new currencies (and the redenomination of financial obligations into those currencies), or other measures that could be detrimental to the investments of a fund.

How the Fund strives to manage them: The Manager evaluates the economic and political climate in the relevant jurisdictions before selecting securities for the Fund. The Manager typically diversifies the Fund's assets among a number of different securities in a variety of sectors in order to minimize the impact to the Fund of any legislative or regulatory development affecting particular countries, issuers, or market sectors.

Real estate industry risk

Real estate industry risk includes, among others: possible declines in the value of real estate; risks related to general and local economic conditions; possible lack of availability of mortgage funds; overbuilding; extended vacancies of properties; increases in competition, property taxes, and operating expenses; changes in zoning laws; costs resulting from the cleanup of, and liability to third parties resulting from, environmental problems; casualty for condemnation losses; uninsured damages from floods, earthquakes, or other natural disasters; limitations on and variations in rents; and changes in interest rates. REITs are subject to substantial cash flow dependency, defaults by borrowers, self-liquidation, and the risk of failing to qualify for tax-free pass-through of income under the Internal Revenue Code of 1986, as amended (Internal Revenue Code), or other similar statutes in non-US countries and/or to maintain exemptions from the Investment Company Act of 1940, as amended.

How the Fund strives to manage it: The Manager selects REITs based on the Manager's assessment of the quality of the REITs' management and the REITs' ability to generate substantial cash flow, which the Manager believes can help to shield the Fund from some of the risks involved with real estate investing.

LIBOR risk

The risk that potential changes related to the use of the London Interbank Offered Rate (LIBOR) could have adverse impacts on financial instruments which reference LIBOR. While some instruments may contemplate a scenario where LIBOR is no longer available by providing for an alternative rate setting methodology, not all instruments have such fallback provisions and the effectiveness of replacement rates is uncertain. The potential abandonment of LIBOR could affect the value and liquidity of instruments which reference LIBOR, especially those that do not have fallback provisions.

How the Fund strives to manage it: Due to uncertainty regarding the future use of LIBOR, the potential impact of the abandonment of LIBOR on the Fund or the financial instruments in which the Fund invests cannot yet be determined. However, the Fund tries to address such risk by monitoring the economic, political and regulatory climate in jurisdictions relevant to the Fund and the financial instruments in which the Fund invests in order to minimize any potential impact on the Fund. In addition, the Fund typically invests in a number of different securities in a variety of sectors in order to minimize the impact to the Fund of any legislative or regulatory development affecting particular countries, issuers, or market sectors.

Natural disaster and epidemic risk

Natural disaster and epidemic risk is the risk that the value of a fund's investments may be negatively affected by natural disasters, epidemics, or similar events. Natural or environmental disasters, such as earthquakes, fires, floods, hurricanes, tsunamis, and other severe weather-related phenomena generally, and widespread disease, including pandemics and epidemics, have been and can be highly disruptive to economies and markets, adversely impacting individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors affecting the value of a fund's investments. Given the increasing interdependence among global economies and markets, conditions in one country, market, or region are increasingly likely to adversely affect markets, issuers, and/or foreign exchange rates in other countries. These disruptions could prevent a fund from executing advantageous investment decisions in a timely manner and could negatively impact the fund's ability to achieve its investment objective.

How the Fund strives to manage it: The Fund maintains a long-term investment approach and focuses on securities that the portfolio managers believe can appreciate over an extended period of time regardless of interim market fluctuations. Generally, the portfolio managers do not try to predict overall market movements, but the portfolio managers do note trends in the economy, industries, and financial markets. Although the Fund may hold securities for any amount of time, it generally does not trade for short-term purposes.

Disclosure of portfolio holdings information

A description of the Fund's policies and procedures with respect to the disclosure of its portfolio securities is available in the SAI.

Who manages the Fund

Investment manager

The Manager, located at 2005 Market Street, Philadelphia, PA 19103, is the Fund's investment manager. Together, the Manager and the subsidiaries of Macquarie Management Holdings, Inc. (MMHI) manage, as of June 30, 2020, \$168.1 billion in assets, including mutual funds, separate accounts, and other investment vehicles. The Manager and its predecessors have been managing Delaware Funds since 1938. The Manager is a series of Macquarie Investment Management Business Trust (a Delaware statutory trust), which is a subsidiary of MMHI. MMHI is a wholly owned subsidiary of Macquarie Group Limited. The Manager makes investment decisions for the Fund, manages the Fund's business affairs, and provides daily administrative services. For its services to the Fund, the Manager was paid an aggregate fee, net of fee waivers (if applicable), of 0.69% of average daily net assets during the last fiscal year.

A discussion of the basis for the Board's approval of the Fund's investment advisory contract is available in the Fund's semiannual report to shareholders for the period ended Sept. 30, 2019.

Sub-advisors

MFMHKL, located at Level 18, One International Finance Centre, One Harbour View Street, Central, Hong Kong, is an affiliate of the Manager and a part of Macquarie Investment Management (MIM). MIM is the marketing name for certain companies comprising the asset management division of Macquarie Group Limited. As of June 30, 2020, MIM managed more than \$250.0 billion in assets for institutional and individual clients. Although the Manager has principal responsibility for the Manager's portion of the Fund, the Manager may permit MFMHKL to execute Fund security trades on behalf of the Manager.

MIMGL, located at 50 Martin Place, Sydney, Australia, is an affiliate of the Manager and a part of MIM. Although the Manager has principal responsibility for the Manager's portion of the Fund, the Manager may seek investment advice, quantitative support, and recommendations from MIMGL and the Manager may also permit MIMGL to execute Fund security trades on behalf of the Manager and exercise investment discretion for securities in certain markets where the Manager believes it will be beneficial to utilize MIMGL's specialized market knowledge.

Portfolio manager

Alex Ely has primary responsibility for making day-to-day investment decisions for the Fund.

Alex Ely *Managing Director, Chief Investment Officer — US Growth Equity*

Alex Ely joined Macquarie Investment Management (MIM) in February 2016 as part of the firm's acquisition of Bennett Lawrence Management, LLC, a New York-based US growth equity manager. Prior to joining the firm as CIO of US Growth Equity, he was portfolio manager and chief portfolio strategist at Bennett Lawrence. Ely joined Bennett Lawrence in 1997 as a portfolio analyst, and in 2002 he was promoted to portfolio manager. Before joining Bennett Lawrence, he was an equity product manager at Oppenheimer Management. From 1988 to 1989, he was a strategy clerk at the Boston Stock Exchange. Ely earned a bachelor's degree in economics from the University of New Hampshire.

The SAI provides additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager, and the portfolio manager's ownership of Fund shares.

Manager of managers structure

The Fund and the Manager have received an exemptive order from the US Securities and Exchange Commission (SEC) to operate under a manager of managers structure that permits the Manager, with the approval of the Fund's Board, to appoint and replace both affiliated and unaffiliated sub-advisors, and to enter into and make material amendments to the related sub-advisory contracts on behalf of the Fund without shareholder approval (Manager of Managers Structure). Under the Manager of Managers Structure, the Manager has ultimate responsibility, subject to oversight by the Board, for overseeing the Fund's sub-advisors and recommending to the Board their hiring, termination, or replacement.

The Manager of Managers Structure enables the Fund to operate with greater efficiency and without incurring the expense and delays associated with obtaining shareholder approvals for matters relating to sub-advisors or sub-advisory agreements. The Manager of Managers Structure does not permit an increase in the overall management and advisory fees payable by the Fund without shareholder approval. Shareholders will be notified of the hiring of any new sub-advisor within 90 days of the hiring.

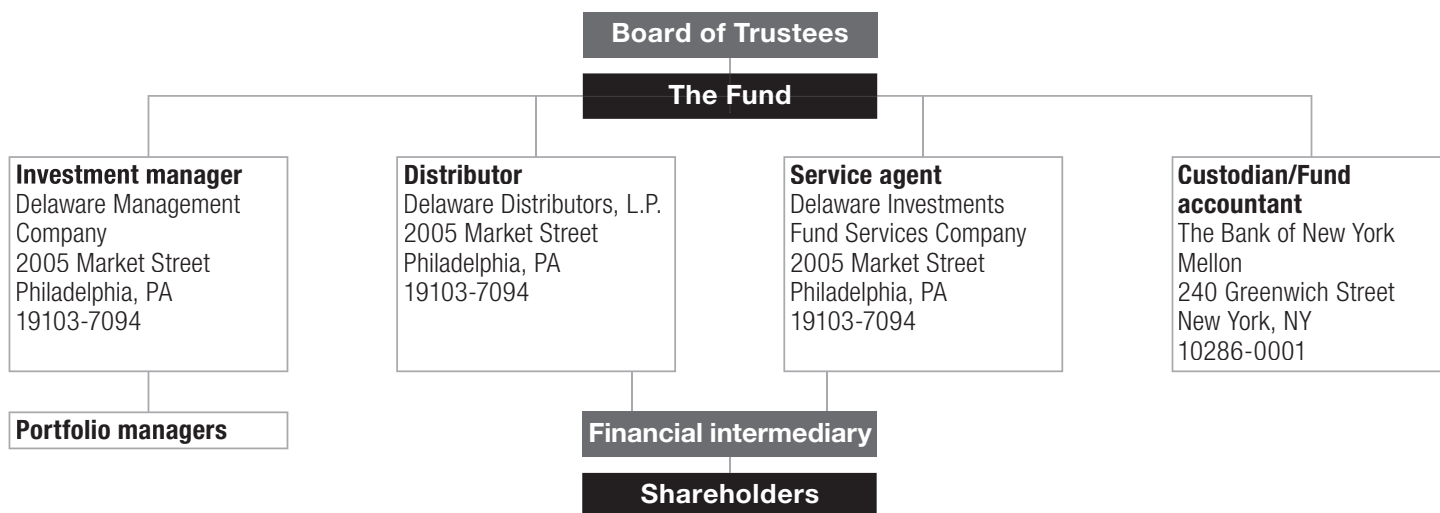

Who's who

Board of trustees: A mutual fund is governed by a board of trustees, which has oversight responsibility for the management of the fund's business affairs. Trustees establish procedures and oversee and review the performance of the fund's service providers.

Investment manager and sub-advisor: An investment manager is a company responsible for selecting portfolio investments consistent with the objective and policies stated in the mutual fund’s prospectus. A sub-advisor is a company generally responsible for certain delegated tasks, such as executing trades or providing quantitative support. The sub-advisor is selected and supervised by the investment manager. A written contract between a mutual fund and its investment manager specifies the services the investment manager performs and the fee the manager is entitled to receive.

Portfolio managers: Portfolio managers make investment decisions for individual portfolios.

This diagram shows the various organizations involved in managing, administering, and servicing Delaware Funds.

Distributor: Most mutual funds continuously offer new shares to the public through distributors that are regulated as broker/dealers and are subject to the Financial Industry Regulatory Authority (FINRA) rules governing mutual fund sales practices.

Service agent: Mutual fund companies employ service agents (sometimes called transfer agents) to maintain records of shareholder accounts, calculate and disburse dividends and capital gains, and prepare and mail shareholder statements and tax information, among other functions. Many service agents also provide administrative services to a fund and oversight of other fund service providers.

Custodian/Fund accountant: Mutual funds are legally required to protect their portfolio securities, and most funds place them with a qualified bank custodian that segregates fund securities from other bank assets. The fund accountant provides services such as calculating a fund’s net asset value (NAV) and providing financial reporting information for the fund.

Financial intermediary: Financial professionals provide advice to their clients. They are associated with securities broker/dealers who have entered into selling and/or service arrangements with the distributor. Selling broker/dealers and financial professionals are compensated for their services generally through sales commissions, and through 12b-1 fees and/or service fees deducted from a fund’s assets.

Shareholders: Mutual fund shareholders have specific voting rights on matters such as material changes in the terms of a fund’s management contract and changes to fundamental investment policies.

About your account

Investing in the Fund

You can choose from a number of share classes for the Fund. **Because each share class has a different combination of sales charges, fees, and other features, you should consult your financial intermediary or your financial professional (hereinafter collectively referred to as the “financial intermediary”) to determine which share class best suits your investment goals and time frame. It is the responsibility of your financial intermediary to assist you in determining the most appropriate share class and to communicate such determination to us.**

Information about existing sales charges and sales charge reductions and waivers is available in this Prospectus below and free of charge on the Delaware Funds website at delawarefunds.com. Additional information on sales charges can be found in the SAI, which is available upon request.

Please also see the “Broker-defined sales charge waiver policies” section in this Prospectus for information provided to the Fund by certain financial intermediaries on sales charge discounts and waivers that may be available to you through your financial intermediary. Shareholders purchasing Fund shares through a financial intermediary may also be eligible for sales charge discounts or waivers which may differ from those disclosed elsewhere in this Prospectus or SAI. The availability of certain initial or deferred sales charge waivers and discounts may depend on the particular financial intermediary or type of account through which you purchase or hold Fund shares. It is the responsibility of the financial intermediary to implement any of its proprietary sales charge discounts or waivers listed in “Broker-defined sales charge waiver policies” or otherwise. Accordingly, you should consult with your financial intermediary to determine whether you qualify for any sales charge discounts or waivers.

Choosing a share class

Each share class may be eligible for purchase through programs sponsored by financial intermediaries that require the purchase of a specific class of shares.

Class A, Class C, and Class R shares of the Fund have each adopted a separate 12b-1 plan that allows them to pay distribution fees for the sale and distribution of their shares. Because these fees are paid out of the Fund’s assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Class A

- Class A shares have an upfront sales charge of up to 5.75% that you pay when you buy the shares.
- If you invest \$50,000 or more, your front-end sales charge will be reduced.
- You may qualify for other reduced sales charges and, under certain circumstances, the sales charge may be waived, as described in “How to reduce your sales charge” below.
- Class A shares are also subject to an annual 12b-1 fee no greater than 0.25% of average daily net assets. See “Dealer compensation” below for further information. The Board has adopted a formula for calculating 12b-1 plan expenses for the Class A shares of the Fund. The total 12b-1 fee to be paid by Class A shareholders of the Fund will be the sum of 0.10% of the average daily net assets representing the shares that were acquired prior to June 1, 1992 and 0.25% of the average daily net assets representing the shares that were acquired on or after June 1, 1992. All Class A shareholders will bear the Class A 12b-1 fee at the same rate, the blended rate based upon the allocation of the 0.10% and 0.25% described above. See “Dealer compensation” below for further information.
- Class A shares generally are not subject to a CDSC, except in the limited circumstances described in the table below.
- Class A shares generally are not available for purchase by anyone qualified to purchase Class R shares, except as described below.
- Because of the higher 12b-1 fee, Class A shares have higher expenses and any dividends paid on these shares are generally lower than dividends on Institutional Class and Class R6 shares.

Class A sales charges

The table below details your sales charges on purchases of Class A shares. The offering price for Class A shares includes the front-end sales charge. The offering price is determined by dividing the NAV per share by an amount equal to 1 minus the sales charge (expressed in decimals) applicable to the purchase, calculated to two decimal places using standard rounding criteria. The sales charge as a percentage of the net amount invested is the maximum percentage of the amount invested rounded to the nearest hundredth. The actual sales charge that you pay as a percentage of the offering price and as a percentage of the net amount invested will vary depending on the then-current NAV, the percentage rate of the sales charge, and rounding. The number of Fund shares you will be issued will equal the amount invested divided by the applicable offering price for those shares, calculated to three decimal places using standard rounding criteria. Sales charges do not apply to shares purchased through dividend reinvestment.

Amount of purchase	Sales charge as a % of offering price	Sales charge as a % of net amount invested
Less than \$50,000	5.75%	6.54%
\$50,000 but less than \$100,000	4.75%	5.41%

Amount of purchase	Sales charge as a % of offering price	Sales charge as a % of net amount invested
\$100,000 but less than \$250,000	3.75%	4.31%
\$250,000 but less than \$500,000	2.50%	3.00%
\$500,000 but less than \$1 million	2.00%	2.44%
\$1 million or more	none*	none*

* There is no front-end sales charge when you purchase \$1 million or more of Class A shares. However, if Delaware Distributors, L.P. (Distributor) paid your financial intermediary a commission on your purchase of \$1 million or more of Class A shares, for shares purchased prior to July 1, 2020, you will have to pay a Limited CDSC of 1.00% if you redeem these shares within the first year after your purchase and 0.50% if you redeem these shares within the second year; and for shares purchased on or after July 1, 2020, you will have to pay a Limited CDSC of 1.00% if you redeem these shares within the 18 months after your purchase, unless a specific waiver of the Limited CDSC applies. The Limited CDSC will be paid to the Distributor and will be assessed on an amount equal to the lesser of: (1) the NAV at the time the Class A shares being redeemed were purchased; or (2) the NAV of such Class A shares at the time of redemption. For purposes of this formula, the "NAV at the time of purchase" will be the NAV at purchase of the Class A shares even if those shares are later exchanged for shares of another Delaware Fund and, in the event of an exchange of Class A shares, the "NAV of such shares at the time of redemption" will be the NAV of the shares acquired in the exchange. In determining whether a Limited CDSC is payable, it will be assumed that shares not subject to the Limited CDSC are the first redeemed followed by other shares held for the longest period of time. See "Dealer compensation" below for a description of the dealer commission that is paid.

Class C

- Class C shares have no upfront sales charge, so the full amount of your purchase is invested in the Fund. However, you will pay a CDSC of 1.00% if you redeem your shares within 12 months after you buy them.
- In determining whether the CDSC applies to a redemption of Class C shares, it will be assumed that shares held for more than 12 months are redeemed first, followed by shares acquired through the reinvestment of dividends or distributions, and finally by shares held for 12 months or less. For further information on how the CDSC is determined, please see "Calculation of contingent deferred sales charges — Class C" below.
- Under certain circumstances, the CDSC may be waived; please see "Waivers of contingent deferred sales charges" below for further information.
- For approximately ten years after you buy your Class C shares, they are subject to an annual 12b-1 fee no greater than 1.00% of average daily net assets (of which 0.25% is a service fee) paid to the Distributor, dealers, or others for providing services and maintaining shareholder accounts.
- Class C shares are eligible to automatically convert to Class A shares with a 12b-1 fee of no more than 0.25% approximately ten years after you buy Class C shares. Conversion may occur as late as one month after the tenth anniversary of purchase, during which time Class C's higher 12b-1 fee applies. Please refer to the Fund's SAI for more details on this automatic conversion feature.
- You may purchase only up to \$1 million of Class C shares at any one time. Orders that equal or exceed \$1 million will be rejected.
- Because of their higher 12b-1 fee, Class C shares have higher expenses and any dividends paid on these shares are generally lower than dividends on Class A, Class R, Institutional Class, and Class R6 shares.

Calculation of contingent deferred sales charges — Class C

CDSCs are charged as a percentage of the dollar amount subject to the CDSC. The charge will be assessed on an amount equal to the lesser of the NAV at the time the shares being redeemed were purchased or the NAV of those shares at the time of redemption. No CDSC will be imposed on increases in NAV above the initial purchase price, nor will a CDSC be assessed on redemptions of shares acquired through reinvestment of dividends or capital gains distributions. For purposes of this formula, the "NAV at the time of purchase" will be the NAV at purchase of Class C shares of the Fund, even if those shares are later exchanged for shares of another Delaware Fund. In the event of an exchange of the shares, the "NAV of such shares at the time of redemption" will be the NAV of the shares that were acquired in the exchange.

Class R

- Class R shares have no upfront sales charge, so the full amount of your purchase is invested in the Fund. Class R shares are not subject to a CDSC.
- Class R shares are subject to an annual 12b-1 fee no greater than 0.50% of average daily net assets.
- Class R shares generally are available only to: (i) qualified and nonqualified plan shareholders covering multiple employees (including 401(k), 401(a), 457, and noncustodial 403(b) plans, as well as certain other nonqualified deferred compensation plans); and (ii) individual retirement account (IRA) rollovers from legacy Delaware Investments plans that were previously maintained on the Delaware Investments retirement recordkeeping system or the retirement recordkeeping system of Ascensus that are offering Class R shares to participants.
- Except as noted above, no other IRAs are eligible for Class R shares (for example, no traditional IRAs, Roth IRAs, SIMPLE IRAs, SEPs, or SARSEPs). For purposes of determining plan asset levels, affiliated plans may be combined at the request of the plan sponsor.
- Any account holding Class A shares of the Fund as of the date Class R shares were made available for the Fund continues to be eligible to purchase the Fund's Class A shares after that date. Any account holding the Fund's Class R shares is not eligible to purchase its Class A shares.
- Unlike Class C shares, Class R shares do not automatically convert into another class.

About your account

- Because of their higher 12b-1 fee, Class R shares have higher expenses and any dividends paid on these shares are generally lower than dividends on Class A, Institutional Class, and Class R6 shares.

Institutional Class

- Institutional Class shares have no upfront sales charge, so the full amount of your purchase is invested in the Fund.
- Institutional Class shares are not subject to a CDSC.
- Institutional Class shares do not assess a 12b-1 fee.
- Institutional Class shares are available for purchase only by the following:
 - retirement plans or certain other programs that are maintained on platforms sponsored by financial intermediary firms, provided the financial intermediary firms or their trust companies (or entities performing similar trading/clearing functions) have entered into an agreement with the Distributor (or its affiliate) related to such plans or programs;
 - tax-exempt employee benefit plans of the Manager, its affiliates, and securities dealers that have a selling agreement with the Distributor;
 - a bank, trust company, or similar financial institution investing for its own account or for the account of its trust customers for whom the financial institution is exercising investment discretion in purchasing Institutional Class shares, except where the investment is part of a program that requires payment to the financial institution of a Rule 12b-1 Plan fee;
 - registered investment advisors (RIAs) investing on behalf of clients that consist solely of institutions and high net worth individuals whose assets are entrusted to an RIA for investment purposes for accounts requiring Institutional Class shares (use of the Institutional Class shares is restricted to RIAs who are not affiliated or associated with a broker or dealer and who derive compensation for their services exclusively from their advisory clients);
 - programs sponsored by, controlled by, and/or clearing transactions submitted through a financial intermediary where: (1) such programs allow or require the purchase of Institutional Class shares; (2) a financial intermediary has entered into an agreement with the Distributor and/or the transfer agent allowing certain purchases of Institutional Class shares; and (3) a financial intermediary (i) charges clients an ongoing fee for advisory, investment consulting or similar services, or (ii) offers the Institutional Class shares through a no-commission network or platform;
 - through a brokerage program of a financial intermediary that has entered into a written agreement with the Distributor and/or the transfer agent specifically allowing purchases of Institutional Class shares in such programs; or
 - private investment vehicles, including, but not limited to, foundations and endowments.

A shareholder transacting in Institutional Class shares through a broker or other financial intermediary may be required to pay a commission and/or other forms of compensation to the financial intermediary.

Class R6

- Class R6 shares have no upfront sales charge, so the full amount of your purchase is invested in the Fund. Class R6 shares are not subject to a CDSC.
- Class R6 shares do not assess a 12b-1 fee.
- Class R6 shares do not pay any service fees, sub-accounting fees, and/or subtransfer agency fees to any brokers, dealers, or other financial intermediaries.
- Class R6 shares are generally available to certain employer-sponsored retirement plans, such as 401(k) plans, 457 plans, 403(b) plans, profit-sharing plans and money purchase pension plans, defined benefit plans, employer-sponsored benefit plans, and non-qualified deferred compensation plans. In addition, for these employer-sponsored retirement plans, Class R6 shares must be held through plan level or omnibus accounts held on the books of the Fund, and Class R6 shares are only available for purchase through financial intermediaries who have the appropriate agreement with the Distributor (or its affiliates) related to Class R6.
- Class R6 shares are also available for purchase through certain programs, platforms, or accounts that are maintained or sponsored by financial intermediary firms (including but not limited to, brokers, dealers, banks, trust companies, or entities performing trading/clearing functions), provided that the financial intermediary firm has entered into an agreement with the Distributor (or its affiliates) related to Class R6 for such programs, platforms or accounts.
- In addition to the foregoing list of eligible investors, Class R6 shares are generally available to certain institutional investors and high net worth individuals who make a minimum initial investment directly in the Fund's Class R6 shares of \$1,000,000 or more and who have completed an application and been approved by the Fund for such investment. These institutional investors and high net worth individuals must retain Class R6 shares directly in their names and will not be permitted to hold such shares through an omnibus account or other similar arrangements.
- Class R6 shares may not be available through certain financial intermediaries.

Dealer compensation

The financial intermediary who sells you shares of the Fund may be eligible to receive the following amounts as compensation for your investment in the Fund. These amounts are paid by the Distributor to the securities dealer with whom your financial advisor is associated. Institutional Class and Class R6 shares do not have a 12b-1 fee or sales charge so they are not included in the table below.

	Class A ¹	Class C ²	Class R ³
Commission (%)	—	1.00%	—
Investment less than \$50,000	5.00%	—	—
\$50,000 but less than \$100,000	4.00%	—	—
\$100,000 but less than \$250,000	3.00%	—	—
\$250,000 but less than \$500,000	2.00%	—	—
\$500,000 but less than \$1 million	1.60%	—	—
\$1 million but less than \$5 million	1.00%	—	—
\$5 million but less than \$25 million	0.50%	—	—
\$25 million or more	0.25%	—	—
12b-1 fee to dealer	0.25%	1.00%	0.50%

¹ On sales of Class A shares, the Distributor realows to your securities dealer a portion of the front-end sales charge depending upon the amount you invested. Your securities dealer may be eligible to receive a 12b-1 fee of up to 0.25% from the date of purchase. Additionally, the Fund's Class A shares are subject to a blended 12b-1 fee of 0.10% on all shares acquired prior to June 1, 1992, and 0.25% on all shares acquired on or after June 1, 1992. On sales of Class A shares where there is no front-end sales charge, the Distributor may pay your securities dealer an upfront commission of up to 1.00%. The upfront commission includes an advance of the first year's 12b-1 fee of up to 0.25%. During the first 12 months, the Distributor will retain the 12b-1 fee to partially offset the upfront commission advanced at the time of purchase. Starting in the 13th month, your securities dealer may be eligible to receive the full 12b-1 fee applicable to Class A shares.

² On sales of Class C shares, the Distributor may pay your securities dealer an upfront commission of 1.00%. The upfront commission includes an advance of the first year's 12b-1 service fee of up to 0.25%. During the first 12 months, the Distributor retains the full 1.00% 12b-1 fee to partially offset the upfront commission and the prepaid 0.25% service fee advanced at the time of purchase. Starting in the 13th month, your securities dealer may be eligible to receive the full 1.00% 12b-1 fee applicable to Class C shares. Alternatively, certain intermediaries may not be eligible to receive the upfront commission of 1.00%, but may receive the 12b-1 fee for sales of Class C shares from the date of purchase. After approximately ten years, Class C shares are eligible to automatically convert to Class A shares and dealers may then be eligible to receive the 12b-1 fee applicable to Class A shares.

³ On sales of Class R shares, the Distributor does not pay your securities dealer an upfront commission. Your securities dealer may be eligible to receive a 12b-1 fee of up to 0.50% from the date of purchase.

Payments to intermediaries

The Distributor and its affiliates may pay additional compensation at their own expense and not as an expense of the Fund to certain affiliated or unaffiliated brokers, dealers, or other financial intermediaries (Financial Intermediaries) in connection with the sale or retention of Fund shares and/or shareholder servicing, including providing the Fund with "shelf space" or a higher profile with the Financial Intermediaries' consultants, salespersons, and customers (distribution assistance). For example, the Distributor or its affiliates may pay additional compensation to Financial Intermediaries for various purposes, including, but not limited to, promoting the sale of Fund shares, maintaining share balances and/or for subaccounting, administrative, or shareholder processing services, marketing, educational support, data, and ticket charges. Such payments are in addition to any distribution fees, service fees, subaccounting fees, and/or transfer agency fees that may be payable by the Fund. The additional payments may be based on factors, including level of sales (based on gross or net sales or some specified minimum sales or some other similar criteria related to sales of the Fund and/or some or all other Delaware Funds), amount of assets invested by the Financial Intermediary's customers (which could include current or aged assets of the Fund and/or some or all other Delaware Funds), the Fund's advisory fees, some other agreed-upon amount, or other measures as determined from time to time by the Distributor. The level of payments made to a qualifying Financial Intermediary in any given year may vary. To the extent permitted by SEC and FINRA rules and other applicable laws and regulations, the Distributor may pay, or allow its affiliates to pay, other promotional incentives or payments to Financial Intermediaries.

Sub-transfer agent/recordkeeping payments may be made to third parties (including affiliates of the Manager) that provide sub-transfer agent, recordkeeping, and/or shareholder services with respect to certain shareholder accounts (including omnibus accounts), or to the shareholder account directly to offset the costs of these services, in lieu of the transfer agent providing such services. For Class R6 shares, the Distributor and its affiliates will generally not pay additional compensation to Financial Intermediaries in connection with the sale or retention of Fund shares and/or shareholder servicing (including sub-transfer agent/recordkeeping payments).

If a mutual fund sponsor or distributor makes greater payments for distribution assistance to your Financial Intermediary with respect to distribution of shares of that particular mutual fund than sponsors or distributors of other mutual funds make to your Financial Intermediary with respect to the distribution of the shares of their mutual funds, your Financial Intermediary and its salespersons may have a financial incentive to favor sales of shares of the mutual fund making the higher payments over shares of other mutual funds or over other investment options. In addition, depending on the arrangements in place at any particular

About your account

time, a Financial Intermediary may also have a financial incentive for recommending a particular share class over other share classes. You should consult with your Financial Intermediary and review carefully any disclosure provided by such Financial Intermediary as to compensation it receives in connection with investment products it recommends or sells to you. A significant purpose of these payments is to increase sales of the Fund's shares. The Manager or its affiliates may benefit from the Distributor's or its affiliates' payment of compensation to Financial Intermediaries through increased fees resulting from additional assets acquired through the sale of Fund shares through Financial Intermediaries. In certain instances, the payments could be significant and may cause a conflict of interest for your Financial Intermediary. Any such payments will not change the NAV or the price of the Fund's shares.

How to reduce your sales charge

We offer a number of ways to reduce or eliminate the front-end sales charge on Class A shares, which may depend on the ability of your financial intermediary or the Fund's transfer agent to support the various ways. Please refer to the "Broker-defined sales charge waiver policies" in this Prospectus and to the SAI for detailed information and eligibility requirements. You can also get additional information from your financial intermediary. You or your financial intermediary must notify us at the time you purchase shares if you are eligible for any of these programs. You may also need to provide information to your financial intermediary or the Fund in order to qualify for a reduction in sales charges. Such information may include your Delaware Funds holdings in any other accounts, including retirement accounts, held indirectly or through an intermediary, and the names of qualifying family members and their holdings. If you participate in a direct deposit purchase plan or an automatic investment program for an account held directly with the Fund's transfer agent and also hold shares of Delaware Funds other than directly with us, generally those holdings will not be aggregated with the assets held with us for purposes of determining rights of accumulation in connection with direct deposit purchase plans and automatic investment program purchases. We reserve the right to determine whether any purchase is entitled, by virtue of the foregoing, to the reduced sales charge. Class R, Institutional Class and Class R6 shares (if applicable) have no upfront sales charge or CDSC so they are not included in the table below.

Letter of intent and rights of accumulation

Through a letter of intent, you agree to invest a certain amount in Delaware Funds over a 13-month period to qualify for reduced front-end sales charges (as set forth in the SAI). Delaware Funds no longer accept retroactive letters of intent.

Upon your request, you can combine your holdings or purchases of Class A and Class C shares of Delaware Funds (as set forth in the SAI) as well as the holdings and purchases of your spouse — or equivalent, if recognized under local law — and children under the age of 21 to qualify for reduced front-end sales charges. When submitting the letter of intent or requesting rights of accumulation, you must identify which holdings or purchases you are requesting to be combined.

Class A	Class C
Available.	Although the letter of intent does not apply to the purchase of Class C shares, you can combine your purchase of Class C shares with your purchase of Class A shares to fulfill your letter of intent. Although the rights of accumulation do not apply to the purchase of Class C shares, you can combine the value of your Class C shares with the value of your Class A shares to receive a reduced sales charge.

Reinvestment of redeemed shares

Up to 12 months after you redeem shares, you can reinvest the proceeds without paying a sales charge.

Class A	Class C
Available.	Not available.

SIMPLE IRA, SEP, SARSEP, 401(k), SIMPLE 401(k), Profit Sharing, Money Purchase, 403(b)(7), and 457 Retirement Plans

These investment plans may qualify for reduced sales charges by combining the purchases of all members of the group. Members of these groups may also qualify to purchase shares without a front-end sales charge and may qualify for a waiver of any CDSCs on Class A shares.

Class A	Class C
Available.	Although the letter of intent does not apply to the purchase of Class C shares, you can combine your purchase of Class C shares with your purchase of Class A shares to fulfill your letter of intent. Although the rights of accumulation do not apply to the purchase of Class C shares, you can combine the value of your Class C shares with the value of your Class A shares to receive a reduced sales charge.

Buying Class A shares at net asset value

Class A shares of the Fund may be purchased at NAV under the following circumstances, provided that you notify the Fund in advance that the trade qualifies for this privilege. The Fund reserves the right to modify or terminate these arrangements at any time.

- Shares purchased under the Delaware Funds dividend reinvestment plan and, under certain circumstances, the exchange privilege and the 12-month reinvestment privilege.
- Purchases by: (i) current and former officers, Trustees/Directors, and employees of any Delaware Fund, the Manager, any of the Manager's current affiliates and those that may in the future be created, or any predecessor fund to a Delaware Fund, including the funds formerly advised by Foresters Investment Management Company, Inc. or any other fund families acquired or merged into the Delaware Funds; (ii) current employees of legal counsel to Delaware Funds; and (iii) registered representatives, employees, officers, and directors of broker/dealers who have entered into dealer's agreements with the Distributor. At the direction of such persons, their family members (regardless of age), and any employee benefit plan, trust, or other entity directly owned by, controlled by, or established by any of the foregoing may also purchase shares at NAV.
- Purchases by bank employees who provide services in connection with agreements between the bank and unaffiliated brokers or dealers concerning sales of shares of Delaware Funds.
- Purchases by certain officers, trustees, and key employees of institutional clients of the Manager or any of its affiliates.
- Purchases by programs sponsored by, controlled by, and/or clearing transactions submitted through a financial intermediary where: (i) such programs allow or require the purchase of Class A shares; (ii) a financial intermediary has entered into an agreement with the Distributor and/or the transfer agent allowing certain purchases of Class A shares; and (iii) a financial intermediary (1) charges clients an ongoing fee for advisory, investment consulting, or similar services, or (2) offers the Class A shares through a no-commission network or platform. Investors may be charged a fee by their financial intermediary when effecting transactions in Class A shares through a financial intermediary that offers these programs.
- Purchases for the benefit of the clients of brokers, dealers, and other financial intermediaries if such brokers, dealers, or other financial intermediaries have entered into an agreement with the Distributor providing for the purchase of Class A shares at NAV through self-directed brokerage service platforms or programs. Investors may be charged a fee by their financial intermediary when effecting transactions in Class A shares at NAV through a self-directed investment brokerage service platform or program.
- Purchases by financial institutions investing for the accounts of their trust customers if they are not eligible to purchase shares of the Institutional Class, if applicable.
- Purchases by retirement plans or certain other programs that are maintained or sponsored by financial intermediary firms, provided the financial intermediary firms or their trust companies (or entities performing similar trading/clearing functions) have entered into an agreement with the Distributor (or its affiliates) related to such plans or programs.
- Purchases by certain legacy bank-sponsored retirement plans and certain legacy retirement assets that meet requirements set forth in the SAI.
- Investments made by plan level and/or participant retirement accounts that are for the purpose of repaying a loan taken from such accounts.
- Purchases by certain participants in defined contribution plans and members of their households whose plan assets will be rolled over into IRA accounts (IRA Program) where the financial intermediary has entered into an agreement specifically relating to such IRA Program with the Distributor and/or the transfer agent.
- Purchases by certain participants of particular group retirement plans as described in the SAI.
- Additional purchases by existing shareholders whose accounts were eligible for purchasing shares at NAV under a predecessor fund's eligibility requirements set by the predecessor fund's company.

Waivers of contingent deferred sales charges

Certain sales charges may be based on historical cost. Therefore, you should maintain any records that substantiate these costs because the Fund, its transfer agent, and financial intermediaries may not maintain this information. Please note that you or your financial intermediary will have to notify us at the time of redemption that the trade qualifies for such waiver. Class R, Institutional Class and Class R6 shares do not have CDSCs so they are not included in the list below. Please also see the "Shareholder fees" table in the Fund summary and "Choosing a share class" for more information about applicable CDSCs.

CDSCs for Class A and Class C shares may be waived under the following circumstances, except as noted otherwise:

- **Redemptions in accordance with a systematic withdrawal plan:** Redemptions in accordance with a systematic withdrawal plan, provided the annual amount selected to be withdrawn under the plan does not exceed 12% of the value of the account on the date that the systematic withdrawal plan was established or modified.
- **Redemptions that result from the right to liquidate a shareholder's account:** Redemptions that result from the right to liquidate a shareholder's account if the aggregate NAV of the shares held in the account is less than the then-effective minimum account size.

About your account

- **Section 401(a) qualified retirement plan distributions:** Distributions to participants or beneficiaries from a retirement plan trading on a recordkeeping platform qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended (Internal Revenue Code).
- **Section 401(a) qualified retirement plan redemptions:** Redemptions pursuant to the direction of a participant or beneficiary of a retirement plan trading on a recordkeeping platform qualified under Section 401(a) of the Internal Revenue Code with respect to that retirement plan.
- **Periodic distributions or systematic withdrawals from a retirement account or qualified plan:** Periodic distributions or systematic withdrawals from an individual retirement account (traditional IRA, Roth IRA, SIMPLE IRA, SEP, SARSEP, and Coverdell ESA) or a qualified plan¹ (401(k), SIMPLE 401(k), Profit Sharing, Money Purchase, 403(b)(7), and 457 Retirement Plans) not subject to a penalty under Section 72(t)(2)(A) of the Internal Revenue Code or a hardship or unforeseen emergency provision in the qualified plan as described in Treas. Reg. §1.401(k)-1(d)(3) and Section 457(d)(1)(A)(iii) of the Internal Revenue Code.
- **Returns of excess contributions due to any regulatory limit:** Returns of excess contributions due to any regulatory limit from an individual retirement account (traditional IRA, Roth IRA, SIMPLE IRA, SEP, SARSEP, and Coverdell ESA) or a qualified plan¹ (401(k), SIMPLE 401(k), Profit Sharing, Money Purchase, 403(b)(7), and 457 Retirement Plans).
- **Distributions by other employee benefit plans:** Distributions by other employee benefit plans to pay benefits.
- **Distributions from an account of a redemption resulting from death or disability:** Distributions from an account of a redemption resulting from the death or disability (as defined in Section 72(t)(2)(A) of the Internal Revenue Code) of a registered owner or a registered joint owner occurring after the purchase of the shares being redeemed. In the case of accounts established under the Uniform Gifts to Minors Act or Uniform Transfers to Minors Act or trust accounts, the waiver applies upon the death of all beneficial owners.
- **Redemptions by certain legacy retirement assets:** Redemptions by certain legacy retirement assets that meet the requirements set forth in the SAI.
- **Redemptions in connection with a fund liquidation:** Redemptions subsequent to the fund liquidation notice to shareholders.

¹ Qualified plans that are fully redeemed at the direction of the plan's fiduciary may be subject to any applicable CDSC or Limited CDSC, unless the redemption is due to the termination of the plan.

How to buy shares

Through your financial intermediary

Your financial intermediary (if applicable) can handle all the details of purchasing shares, including opening an account. Your financial intermediary may charge you a separate fee for this service.

Through the Delaware Funds by Macquarie Service Center

By mail

Complete an investment slip and mail it with your check, made payable to the fund and class of shares you wish to purchase, to Delaware Funds by Macquarie at P.O. Box 9876, Providence, RI 02940-8076 for investments by regular mail or Delaware Funds by Macquarie Service Center at 4400 Computer Drive, Westborough, MA 01581-1722 for investments by overnight courier service. If you are making an initial purchase by mail, you must include a completed investment application (or an appropriate retirement plan application if you are opening a retirement account) with your check. Purchase orders will not be accepted at any other address.

Please note that purchase orders submitted by mail will not be considered received until such purchase orders arrive at Delaware Funds by Macquarie Service Center at 4400 Computer Drive, Westborough, MA 01581-1722 and are determined to be in good order. For a purchase request to be in "good order," you must provide the name of the Delaware Fund in which you are investing, your account registration/number (if you are an existing shareholder), and the total number of shares or dollar amount of the shares to be purchased, along with meeting any requirements set forth in applicable forms, this Prospectus, or the SAI. The Fund does not consider the US Postal Service or other independent delivery services to be its agent. Therefore, deposits in the mail or with such services or receipt at the Fund's post office box, of purchase orders, do not constitute receipt by the Fund or its agent. Please note that the Fund reserves the right to reject any purchase.

By wire

Ask your bank to wire the amount you want to invest to The Bank of New York Mellon, ABA #011001234, bank account #000073-6910. Include your account number, the name of the fund, registered account name, and class of shares in which you want to invest. If you are making an initial purchase by wire, you must first call the Delaware Funds by Macquarie Service Center at 800 523-1918 so we can assign you an account number.

By exchange

You may exchange all or part of your investment in one or more Delaware Funds for shares of other Delaware Funds. Please keep in mind, however, that under most circumstances you may exchange between like classes of shares only. To open an account by exchange, call the Delaware Funds by Macquarie Service Center at 800 523-1918.

Through automated shareholder services

You may purchase or exchange shares through our automated telephone service (for Class A, Class C, and Class R shares only), or through our website, delawarefunds.com (for Class A and Class C shares only). For more information about how to sign up for these services, call our Delaware Funds by Macquarie Service Center at 800 523-1918.

Calculating share price

The price you pay for shares will depend on when we receive your purchase order. If your order is received by an authorized agent or us before the close of regular trading on the New York Stock Exchange (NYSE) (normally 4:00pm Eastern time), you will pay that day's closing Fund share price, which is based on the Fund's NAV. If the NYSE has an unscheduled early close, we will continue to accept your order until that day's scheduled close of the NYSE and you will pay that day's closing Fund share price. If your order is received after the scheduled close of regular trading on the NYSE, you will pay the next Business Day's closing Fund share price. We reserve the right to reject any purchase order.

We determine the NAV per share for each class of a Delaware Fund at the close of regular trading on the NYSE on each Business Day (normally 4:00pm Eastern time). The Fund does not calculate its NAV on days the NYSE is closed for trading. If the NYSE has an unscheduled early close, the Fund's closing share price would still be determined as of that day's regularly scheduled close of the NYSE. The NAV per share for each class of a fund is calculated by subtracting the liabilities of each class from its total assets and dividing the resulting number by the number of shares outstanding for that class. We generally price securities and other assets for which market quotations are readily available at their market value. The value of foreign securities may change on days when a shareholder will not be able to purchase or redeem fund shares because foreign markets are open at times and on days when US markets are not. We price fixed income securities on the basis of valuations provided to us by an independent pricing service that uses methods approved by the Board. For all other securities, we use methods approved by the Board that are designed to price securities at their fair market values.

Fair valuation

When the Fund uses fair value pricing, it may take into account any factors it deems appropriate. The Fund may determine fair value based upon developments related to a specific security, current valuations of foreign stock indices (as reflected in US futures markets), and/or US sector or broad stock market indices. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security. The prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities. Fair value pricing may involve subjective judgments and it is possible that the fair value determined for a security could be materially different than the value that could be realized upon the sale of that security.

The Fund anticipates using fair value pricing for securities primarily traded on US exchanges only under very limited circumstances, such as the early closing of the exchange on which a security is traded or suspension of trading in the security. The Fund may use fair value pricing more frequently for securities traded primarily in non-US markets because, among other things, most foreign markets close well before the Fund values its securities, normally at 4:00pm Eastern time or the close of the NYSE. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim. To account for this, the Fund may frequently value many foreign equity securities using fair value prices based on third-party vendor modeling tools to the extent available.

The Board has delegated responsibility for valuing the Fund's assets to a Pricing Committee of the Manager, which operates under the policies and procedures approved by the Board and is subject to the Board's oversight.

Retirement plans

In addition to being an appropriate investment for your IRA, Roth IRA, and Coverdell Education Savings Account, the Fund may be suitable for group retirement plans. You may establish your IRA account even if you are already a participant in an employer-sponsored retirement plan. For more information on how the Fund can play an important role in your retirement planning or for details about group plans, please consult your financial intermediary, or call the Delaware Funds by Macquarie Service Center at 800 523-1918.

About your account

Document delivery

To reduce fund expenses, we try to identify related shareholders in a household and send only one copy of a fund's financial reports and prospectus. This process, called "householding," will continue indefinitely unless you instruct us otherwise. If you prefer not to have these documents househanded, please call the Delaware Funds by Macquarie Service Center at 800 523-1918. At any time you may view current prospectuses and financial reports on our website.

Inactive accounts

Please note that your account may be required to transfer to the appropriate state if no activity occurs in the account within the time period specified by state law.

How to redeem shares

Under normal circumstances, the Fund typically meets redemption requests through its holdings of cash or cash equivalents, the sale of portfolio assets, and/or its ability to redeem in kind (when applicable). During stressed market conditions, the Fund may use lines of credit to meet redemption requests.

Availability of these services may be limited by your financial intermediary and by the way your account is registered with Delaware Funds.

When you send us a completed request in good order to redeem or exchange shares and the request is received by an authorized agent or us before the close of regular trading on the NYSE (normally 4:00pm Eastern time), you will receive the NAV next determined after we receive your request. If we receive your request after the close of regular trading on the NYSE, you will receive the NAV next determined on the next Business Day. If the NYSE has an unscheduled early close, we will continue to accept your order until that day's scheduled close of the NYSE and you will receive that day's closing Fund share price. We will deduct any applicable CDSCs. You may also have to pay taxes on the proceeds from your sale of shares. If you purchased your shares by check, those shares are subject to a 15-day hold to ensure your check has cleared. Redemption requests for shares still subject to the hold may be rejected with instructions to resubmit at the conclusion of the holding period.

If you are required to pay a CDSC when you redeem your shares, the amount subject to the fee will be based on the shares' NAV when you purchased them or their NAV when you redeem them, whichever is less. This arrangement ensures that you will not pay a CDSC on any increase in the value of your shares. You also will not pay the charge on any shares acquired by reinvesting dividends or capital gains. If you exchange shares of one fund for shares of another, you do not pay a CDSC at the time of the exchange. If you later redeem those shares, the purchase price for purposes of the CDSC formula will be the price you paid for the original shares, not the exchange price. The redemption price for purposes of this formula will be the NAV of the shares you are actually redeeming.

If you hold your shares in certificates, you must submit the certificates with your request to sell the shares. We recommend that you send your certificates by certified mail.

Redemption proceeds will be distributed promptly, but not later than seven days after receipt of a redemption request (except as noted above). For direct transactions, redemption proceeds are typically paid the next Business Day after receipt of the redemption request. Redemptions submitted by financial intermediaries typically settle between one and three Business Days after receipt, depending on the settlement cycle requested by the financial intermediary. Settlement could be extended as a result of various factors, including but not limited to redemption amount or other market conditions. Please see the SAI for additional information.

Through your financial intermediary

Your financial intermediary (if applicable) can handle all the details of redeeming your shares (selling them back to the Fund). Your financial intermediary may charge you a separate fee for this service.

Through the Delaware Funds by Macquarie Service Center

By mail

You may redeem your shares by mail by writing to: Delaware Funds by Macquarie at P.O. Box 9876, Providence, RI 02940-8076 for redemption requests by regular mail or Delaware Funds by Macquarie Service Center at 4400 Computer Drive, Westborough, MA 01581-1722 for redemption requests by overnight courier service. Redemption requests will not be accepted at any other address. All owners of the account must sign the request. For redemptions of more than \$100,000, you must include a medallion signature guarantee for each owner. Medallion signature guarantees are also required when redemption proceeds are going to an address other than the address of record on the account. Please contact the Delaware Funds by Macquarie Service Center at 800 523-1918 for more information about the medallion signature guarantee requirements.

Please note that redemption orders submitted by mail will not be considered received until such redemption orders arrive at Delaware Funds by Macquarie Service Center at 4400 Computer Drive, Westborough, MA 01581-1722 and are determined to be in good order. For a redemption request to be in "good

order,” you must provide the name of the Delaware Fund whose shares you are redeeming, your account number, account registration, and the total number of shares or dollar amount of the transaction. Redemption requests must be signed by the record owner(s) exactly as the shares are registered, along with meeting any requirements set forth in applicable forms, this Prospectus, or the SAI. The Fund does not consider the US Postal Service or other independent delivery services to be its agent. Therefore, redemption requests placed in the mail or with such services or receipt at the Fund’s post office box, of redemption requests, do not constitute receipt by the Fund or the transfer agent.

By telephone

You may redeem up to \$100,000 of your shares by telephone. You may have the proceeds sent to you in the following ways:

- By check — Sent to your address of record, provided there has not been an address change in the last 30 days.
- By wire — Sent directly to your bank by wire, if you redeem at least \$1,000 of shares. If you request a wire transfer, a bank wire fee may be deducted from your proceeds.
- By ACH — Sent via Automated Clearing House (ACH), subject to a \$25 minimum.

Bank information must be on file before you request a wire or ACH redemption. **Your bank may charge a fee for these services.**

Through automated shareholder services

You may redeem shares through our automated telephone service or through our website, delawarefunds.com. For more information about how to sign up for these services, call our Delaware Funds by Macquarie Service Center at 800 523-1918.

Redemptions-in-kind

The Fund has reserved the right to pay for redemptions with portfolio securities under certain conditions. Subsequent sale by an investor receiving a distribution in kind could result in the payment of brokerage commissions and taxable gains (if such investment was held in a taxable account). Investors bear market risks until securities are sold for cash. See the SAI for more information on redemptions-in-kind.

Low balance accounts

For Class A and Class C shares, if you redeem shares and your account balance falls below the required account minimum of \$1,000 (\$250 for IRAs, Roth IRAs, Uniform Gifts to Minors Act and Uniform Transfers to Minors Act accounts, or accounts with automatic investment plans, and \$500 for Coverdell Education Savings Accounts) for three or more consecutive months, you will have until the end of the current calendar quarter to raise the balance to the minimum.

For Class R, Institutional Class, and Class R6 shares, if you redeem shares and your account balance falls below \$500, your shares may be redeemed after 60 days’ written notice to you.

If your account is not at the minimum for low balance purposes by the required time, you may be charged a \$9 fee for that quarter and each quarter after that until your account reaches the minimum balance, or it may be redeemed after 60 days’ written notice to you. Any CDSC that would otherwise be applicable will not apply to such a redemption.

Certain accounts held in omnibus, advisory, or asset-allocation programs or programs offered by certain intermediaries may be opened below the minimum stated account balance and may maintain balances that are below the minimum stated account balance without incurring a service fee or being subject to involuntary redemption.

If the applicable account falls below the minimum due to market fluctuation, the Fund still reserves the right to liquidate the account.

Investor services

To help make investing with us as easy as possible, and to help you build your investments, we offer the investor services described below. Information about the investor services we offer is available free of charge on the Delaware Funds website at delawarefunds.com, including hyperlinks to relevant information in fund offering documents. Availability of these services may be limited by the way your account is registered with Delaware Funds.

About your account

Automatic investment plan

The automatic investment plan allows you to make regular monthly or quarterly investments directly from your bank account.

Direct deposit

With direct deposit, you can make additional investments through payroll deductions, recurring government or private payments such as Social Security, or direct transfers from your bank account.

Electronic delivery

With Delaware Funds eDelivery, you can receive your fund documents electronically instead of via US mail. When you sign up for eDelivery, you can access your account statements, shareholder reports, and other fund materials online, in a secure Internet environment at any time.

Online account access

Online account access is a password-protected area of the Delaware Funds website that gives you access to your account information and allows you to perform transactions in a secure Internet environment.

Systematic exchange option

With the systematic exchange option, you can arrange automatic monthly exchanges between your shares in one or more Delaware Funds. These exchanges are subject to the same rules as regular exchanges (see below) and require a minimum monthly exchange of \$100 per fund.

Dividend reinvestment plan

Through the dividend reinvestment plan, you can have your distributions reinvested in your account or the same share class in another Delaware Fund. The shares that you purchase through the dividend reinvestment plan are not subject to a front-end sales charge or to a CDSC. Under most circumstances, you may reinvest dividends only into like classes of shares.

Exchange of shares

You may generally exchange all or part of your shares for shares of the same class of another Delaware Fund without paying a front-end sales charge or a CDSC at the time of the exchange. However, if you exchange shares from a fund that does not have a sales charge, you will pay any applicable sales charge on your new shares. When exchanging Class C shares of one fund for the same class of shares in other funds, your new shares will be subject to the same CDSC as the shares you originally purchased. The holding period for the CDSC will also remain the same, with the amount of time you held your original shares being credited toward the holding period of your new shares. In certain other circumstances, you may also be permitted to exchange your shares for shares of a different class of the Fund, but such exchange may be subject to a sales charge for the new shares. (Please refer to the SAI for more details.) You do not pay sales charges on shares that you acquired through the reinvestment of dividends. You may have to pay taxes on your exchange. When you exchange shares, you are purchasing shares in another fund, so you should be sure to get a copy of the fund's prospectus and read it carefully before buying shares through an exchange. We may refuse the purchase side of any exchange request if, in the Manager's judgment, a fund would be unable to invest effectively in accordance with its investment objective and policies or would otherwise potentially be adversely affected.

On demand service

The on demand service allows you or your financial advisor to transfer money between your Fund account and your predesignated bank account by telephone request. There is a minimum transfer of \$25 and a maximum transfer of \$100,000. Macquarie Investment Management does not charge a fee for this service; however, your bank may assess one.

Direct deposit service

Through the direct deposit service, you can have \$25 or more in dividends and distributions deposited directly into your bank account. Macquarie Investment Management does not charge a fee for this service; however, your bank may assess one. This service is not available for retirement plans.

Systematic withdrawal plan

You can arrange a regular monthly or quarterly payment from your account made to you or someone you designate. If the value of your account is \$5,000 or more, you can make withdrawals of at least \$25 monthly, or \$75 quarterly. You may also have your withdrawals deposited directly to your bank account through the direct deposit service.

The applicable Limited CDSC for Class A shares and the CDSC for Class C shares redeemed via a systematic withdrawal plan will be waived if the annual amount withdrawn in each year is less than 12% of the account balance on the date that the plan is established. If the annual amount withdrawn in any year

exceeds 12% of the account balance on the date that the systematic withdrawal plan is established, all redemptions under the plan will be subject to the applicable CDSC, including an assessment for previously redeemed amounts under the plan.

Frequent trading of Fund shares (market timing and disruptive trading)

The Fund discourages purchases by market timers and purchase orders (including the purchase side of exchange orders) by shareholders identified as market timers may be rejected. The Board has adopted policies and procedures designed to detect, deter, and prevent trading activity detrimental to the Fund and its shareholders, such as market timing and disruptive trading. The Fund will consider anyone who follows a pattern of market timing in any Delaware Fund or the Optimum Fund Trust to be a market timer and may consider anyone who has followed a similar pattern of market timing at an unaffiliated fund family to be a market timer.

Market timing of a fund occurs when investors make consecutive, rapid, short-term “round trips” — that is, purchases into a fund followed quickly by redemptions out of that fund. A short-term round trip is considered any redemption of fund shares within 20 Business Days of a purchase of that fund's shares. If you make a second such short-term round trip in a fund within 90 rolling calendar days of a previous short-term round trip in that fund, you may be considered a market timer. In determining whether market timing has occurred, the Fund considers short-term round trips to include rapid purchases and sales of Fund shares through the exchange privilege. The Fund reserves the right to consider other trading patterns to be market timing.

Your ability to use the Fund's exchange privilege may be limited if you are identified as a market timer. If you are identified as a market timer, the Fund will execute the redemption side of your exchange order but may refuse the purchase side of your exchange order. The Fund reserves the right to restrict or reject, without prior notice, any purchase order or exchange order for any reason, including any purchase order or exchange order accepted by any shareholder's financial intermediary or in any omnibus-type account. Transactions placed in violation of the Fund's market timing policy are not necessarily deemed accepted by the Fund and may be rejected by the Fund on the next Business Day following receipt by the Fund.

Redemptions will continue to be permitted in accordance with the Fund's then-current prospectus. A redemption of shares under these circumstances could be costly to a shareholder if, for example, the shares have declined in value, the shareholder recently paid a front-end sales charge, the shares are subject to a CDSC, or the sale results in adverse tax consequences. To avoid this risk, a shareholder should carefully monitor the purchases, sales, and exchanges of Fund shares and avoid frequent trading in Fund shares.

The Fund reserves the right to modify this policy at any time without notice, including modifications to the Fund's monitoring procedures and the procedures to close accounts to new purchases. Although the implementation of this policy involves certain judgments that are inherently subjective and may be selectively applied, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders. While the Fund will take actions designed to detect and prevent market timing, there can be no assurance that such trading activity will be completely eliminated. Moreover, the Fund's market timing policy does not require the Fund to take action in response to frequent trading activity. If the Fund elects not to take any action in response to frequent trading, such frequent trading activity could continue.

Risks of market timing

By realizing profits through short-term trading, shareholders who engage in rapid purchases and sales or exchanges of the Fund's shares dilute the value of shares held by long-term shareholders. Volatility resulting from excessive purchases and sales or exchanges of Fund shares, especially involving large dollar amounts, may disrupt efficient portfolio management. In particular, the Fund may have difficulty implementing its long-term investment strategies if it is forced to maintain a higher level of its assets in cash to accommodate significant short-term trading activity. Excessive purchases and sales or exchanges of the Fund's shares may also force the Fund to sell portfolio securities at inopportune times to raise cash to accommodate short-term trading activity. This could adversely affect the Fund's performance, if, for example, the Fund incurs increased brokerage costs and realization of taxable capital gains without attaining any investment advantage.

Any fund may be subject to disruptive trading activity. However, a fund that invests significantly in foreign securities may be particularly susceptible to short-term trading strategies. This is because foreign securities are typically traded on markets that close well before the time a fund calculates its NAV (normally 4:00pm Eastern time or the close of the NYSE). Developments that occur between the closing of the foreign market and a fund's NAV calculation may affect the value of these foreign securities. The time-zone differences among international stock markets can allow a shareholder engaging in a short-term trading strategy to exploit differences in fund share prices that are based on closing prices of foreign securities established some time before a fund calculates its own share price.

Any fund that invests in securities that are thinly traded, traded infrequently, or relatively illiquid has the risk that the securities prices used to calculate the fund's NAV may not accurately reflect current market values. A shareholder may seek to engage in short-term trading to take advantage of these pricing differences. Funds that may be adversely affected by such arbitrage include, in particular, funds that significantly invest in small-cap securities, technology, and other specific industry sector securities, and in certain fixed income securities, such as high yield bonds, asset-backed securities, or municipal bonds.

About your account

Transaction monitoring procedures

The Fund, through its transfer agent, maintains surveillance procedures designed to detect excessive or short-term trading in Fund shares. This monitoring process involves several factors, which include scrutinizing transactions in Fund shares for violations of the Fund's market timing policy or other patterns of short-term or excessive trading. For purposes of these transaction monitoring procedures, the Fund may consider trading activity by multiple accounts under common ownership, control, or influence to be trading by a single entity. Trading activity identified by these factors, or as a result of any other available information, will be evaluated to determine whether such activity might constitute market timing. These procedures may be modified from time to time to help improve the detection of excessive or short-term trading or to address other concerns. Such changes may be necessary or appropriate, for example, to deal with issues specific to certain retirement plans; plan exchange limits; US Department of Labor regulations; certain automated or pre-established exchange, asset-allocation, or dollar-cost-averaging programs; or omnibus account arrangements.

Omnibus account arrangements are common forms of holding shares of the Fund, particularly among certain broker/dealers and other financial intermediaries, including sponsors of retirement plans and variable insurance products. The Fund will attempt to have financial intermediaries apply the Fund's monitoring procedures to these omnibus accounts and to the individual participants in such accounts. However, to the extent that a financial intermediary is not able or willing to monitor or enforce the Fund's frequent trading policy with respect to an omnibus account, the Fund's transfer agent may work with certain intermediaries (such as investment dealers holding shareholder accounts in street name, retirement plan recordkeepers, insurance company separate accounts, and bank trust companies) to apply their own procedures, provided that the Fund's transfer agent believes the intermediary's procedures are reasonably designed to enforce the Fund's frequent trading policies. You should refer to disclosures provided by the intermediaries with which you have an account to determine the specific trading restrictions that apply to you. If the Fund's transfer agent identifies any activity that may constitute frequent trading, it reserves the right to contact the intermediary and request that the intermediary either provide information regarding an account owner's transactions or restrict the account owner's trading. If the Fund's transfer agent is not satisfied that the intermediary has taken appropriate action, the transfer agent may terminate the intermediary's ability to transact in Fund shares.

Limitations on ability to detect and curtail market timing

Shareholders seeking to engage in market timing may employ a variety of strategies to avoid detection and, despite the efforts of the Fund and its agents to detect market timing in Fund shares, there is no guarantee that the Fund will be able to identify these shareholders or curtail their trading practices. In particular, the Fund may not be able to detect market timing attributable to a particular investor who effects purchase, redemption, and/or exchange activity in Fund shares through omnibus accounts. The difficulty of detecting market timing may be further compounded if these entities utilize multiple tiers or omnibus accounts.

Dividends, distributions, and taxes

Dividends and distributions

The Fund intends to qualify each year as a regulated investment company under the Internal Revenue Code. As a regulated investment company, the Fund generally pays no federal income tax on the income and gains it distributes to you. The Fund expects to declare and distribute all of its net investment income, if any, to shareholders as dividends annually. The Fund will distribute net realized capital gains, if any, at least annually, usually in December. The Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund. The amount of any distribution will vary, and there is no guarantee the Fund will pay either an income dividend or a capital gains distribution. We automatically reinvest all dividends and any capital gains, unless you direct us to do otherwise.

Annual statements

Each year, the Fund will send you an annual statement (Form 1099) of your account activity to assist you in completing your federal, state, and local tax returns. Distributions declared in December to shareholders of record in such month, but paid in January, are taxable as if they were paid in December. Prior to issuing your statement, the Fund makes every effort to reduce the number of corrected forms mailed to you. However, if the Fund finds it necessary to reclassify its distributions or adjust the cost basis of any covered shares (defined below) sold or exchanged after you receive your tax statement, the Fund will send you a corrected Form 1099.

Avoid "buying a dividend"

At the time you purchase your Fund shares, the Fund's NAV may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in value of portfolio securities held by the Fund. For taxable investors, a subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. Buying shares in the Fund just before it declares an income dividend or capital gains distribution is sometimes known as "buying a dividend."

Tax considerations

Fund distributions. The Fund expects, based on its investment objective and strategies, that its distributions, if any, will be taxable as ordinary income, capital gains, or some combination of both. This is true whether you reinvest your distributions in additional Fund shares or receive them in cash.

For federal income tax purposes, Fund distributions of short-term capital gains are taxable to you as ordinary income. Fund distributions of long-term capital gains are taxable to you as long-term capital gains no matter how long you have owned your shares. A portion of income dividends reported by the Fund may be qualified dividend income eligible for taxation by individual shareholders at long-term capital gain rates provided certain holding period requirements are met.

The use of derivatives by the Fund may cause the Fund to realize higher amounts of ordinary income or short-term capital gain, distributions from which are taxable to individual shareholders at ordinary income tax rates rather than at the more favorable tax rates for long-term capital gain. Additionally, other rules applicable to derivatives may accelerate the recognition of income or gains to the Fund, defer losses to the Fund, and cause adjustments in the holding periods of the Fund's securities. These rules, therefore, could affect the amount, timing and/or character of distributions to shareholders.

Sale or redemption of Fund shares. A sale or redemption of Fund shares is a taxable event and, accordingly, a capital gain or loss may be recognized. For tax purposes, an exchange of your Fund shares for shares of a different Delaware Fund is the same as a sale. The Fund is required to report to you and the Internal Revenue Service (IRS) annually on Form 1099-B not only the gross proceeds of Fund shares you sell or redeem but also the cost basis of Fund shares you sell or redeem that were purchased or acquired on or after Jan. 1, 2012 ("covered shares"). Cost basis will be calculated using the Fund's default method, unless you instruct the Fund to use a different calculation method. Shareholders should carefully review the cost basis information provided by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns. If your account is held by your investment representative (financial intermediary or other broker), please contact that representative with respect to reporting of cost basis and available elections for your account. Tax-advantaged retirement accounts will not be affected. Additional information and updates regarding cost basis reporting and available shareholder elections will be on the Delaware Funds website at delawarefunds.com as the information becomes available.

Medicare tax. An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of US individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds a threshold amount. This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

Backup withholding. By law, if you do not provide the Fund with your proper taxpayer identification number and certain required certifications, you may be subject to backup withholding on any distributions of income, capital gains, or proceeds from the sale of your shares. The Fund also must withhold if the IRS instructs it to do so. When withholding is required, the amount will be 24% of any distributions or proceeds paid.

State and local taxes. Fund distributions and gains from the sale or exchange of your Fund shares generally are subject to state and local taxes.

Non-US investors. Non-US investors may be subject to US withholding tax at a 30% or lower treaty rate and US estate tax and are subject to special US tax certification requirements to avoid backup withholding and claim any treaty benefits. Exemptions from US withholding tax are provided for certain capital gain dividends paid by the Fund from net long-term capital gains, if any, interest-related dividends paid by the Fund from its qualified net interest income from US sources and short-term capital gain dividends, if such amounts are reported by the Fund. However, notwithstanding such exemptions from US withholding at the source, any such dividends and distributions of income and capital gains will be subject to backup withholding at a rate of 24% if you fail to properly certify that you are not a US person.

Other reporting and withholding requirements. Under the Foreign Account Tax Compliance Act (FATCA), the Fund will be required to withhold a 30% tax on income dividends made by the Fund to certain foreign entities, referred to as foreign financial institutions or nonfinancial foreign entities, that fail to comply (or be deemed compliant) with extensive reporting and withholding requirements designed to inform the US Department of the Treasury of US-owned foreign investment accounts. After Dec. 31, 2018, FATCA withholding would have applied to certain capital gain distributions, return of capital distributions and the proceeds arising from the sale of Fund shares; however, based on proposed regulations issued by the IRS, which can be relied upon currently, such withholding is no longer required unless final regulations provide otherwise (which is not expected). The Fund may disclose the information that it receives from its shareholders to the IRS, non-US taxing authorities or other parties as necessary to comply with FATCA or similar laws. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

This discussion of "Dividends, distributions, and taxes" is not intended or written to be used as tax advice. Because everyone's tax situation is unique, you should consult your tax professional about federal, state, local, or foreign tax consequences before making an investment in the Fund.

Certain management considerations

Investments by fund of funds and similar investment vehicles

The Fund may accept investments from funds of funds, as well as from similar investment vehicles, such as 529 Plans and asset allocation models. A “529 Plan” is a college savings program that operates under Section 529 of the Internal Revenue Code. Asset allocation models include the Delaware Funds by Macquarie Premier Advisor Platform, which offers asset allocation models using a mix of Delaware Funds. From time to time, the Fund may experience large investments or redemptions due to allocations or rebalancings by these funds of funds and/or similar investment vehicles. While it is impossible to predict the overall impact of these transactions over time, there could be adverse effects on portfolio management. For example, the Fund may be required to sell securities or invest cash at times when it would not otherwise do so. These transactions could also have tax consequences if sales of securities result in gains, and could also increase transaction costs or portfolio turnover.

Financial highlights

Delaware Smid Cap Growth Fund

The financial highlights tables are intended to help you understand the Fund's financial performance for the past five years or, if shorter, the period of a Class's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund (assuming reinvestment of all dividends and distributions). In 2015, the Fund changed its fiscal year end from September to March. The information has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request by calling 800 523-1918.

Class A shares	3/31/20	3/31/19	3/31/18	3/31/17	Year ended 3/31/16

³ Total return is based on the change in net asset value of a share during the period and assumes reinvestment of dividends and distributions at net asset value.

⁴ Portfolio turnover is representative of the Fund for the year ended Mar. 31, 2017.

Financial highlights

How to read the financial highlights

Net investment income (loss)

Net investment income (loss) includes dividend and interest income earned from a fund's investments; it is calculated after expenses have been deducted.

Net realized and unrealized gain (loss) on investments

A realized gain occurs when we sell an investment at a profit, while a realized loss occurs when we sell an investment at a loss. When an investment increases or decreases in value but we do not sell it, we record an unrealized gain or loss. The amount of realized gain per share, if any, that we pay to shareholders would be listed under "Less dividends and distributions from: Net realized gain."

Net asset value (NAV)

This is the value of a mutual fund share, calculated by dividing the net assets by the number of shares outstanding.

Total return

This represents the rate that an investor would have earned or lost on an investment in a fund. In calculating this figure for the financial highlights table, we include applicable fee waivers, exclude front-end sales charges and contingent deferred sales charges, and assume the shareholder has reinvested all dividends and realized gains.

Net assets

Net assets represent the total value of all the assets in a fund's portfolio, less any liabilities, that are attributable to that class of the fund.

Ratio of expenses to average net assets

The expense ratio is the percentage of net assets that a fund pays annually for operating expenses and management fees. These expenses include accounting and administration expenses, services for shareholders, and similar expenses.

Ratio of net investment income (loss) to average net assets

We determine this ratio by dividing net investment income (loss) by average net assets.

Portfolio turnover

This figure tells you the amount of trading activity in a fund's portfolio. A turnover rate of 100% would occur if, for example, a fund bought and sold all of the securities in its portfolio once in the course of a year or frequently traded a single security. A high rate of portfolio turnover in any year may increase brokerage commissions paid and could generate taxes for shareholders on realized investment gains.

Broker-defined sales charge waiver policies

From time to time, shareholders purchasing Fund shares through a brokerage platform or account may be eligible for CDSC sales charge waivers and discounts, which may differ from those disclosed elsewhere in this Prospectus or the SAI.

CDSC waivers on Class C shares

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in this Prospectus
- Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½
- Shares sold to pay certain brokerage fees initiated by the broker
- Shares acquired through a right of reinstatement
- Shares held in retirement accounts, that are exchanged for a lower cost share class due to transfer to certain other types of accounts or platforms where the financial intermediary has entered into an agreement with the Distributor (or its affiliates)

Merrill Lynch:

Shareholders purchasing Fund shares through a Merrill Lynch platform or account will be eligible only for the following sales charge waivers (front-end sales charge waivers and CDSC waivers) and discounts, which may differ from those disclosed elsewhere in this Prospectus or the SAI.

Front-end sales charge waivers for Class A shares available at Merrill Lynch

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
- Shares purchased by a 529 Plan (does not include 529 Plan units or 529-specific share classes or equivalents)
- Shares purchased through a Merrill Lynch affiliated investment advisory program
- Shares exchanged due to the holdings moving from a Merrill Lynch affiliated investment advisory program to a Merrill Lynch brokerage (non-advisory) account pursuant to Merrill Lynch's policies relating to sales load discounts and waivers
- Shares purchased by third party investment advisors on behalf of their advisory clients through Merrill Lynch's platform
- Shares of Delaware Funds purchased through the Merrill Edge Self-Directed platform (if applicable)
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same Fund (but not any other Fund within Delaware Funds)
- Shares exchanged from Class C (that is, level-load) shares of the same Fund pursuant to Merrill Lynch's policies relating to sales load discounts and waivers
- Employees and registered representatives of Merrill Lynch or its affiliates and their family members
- Trustees of the Trust and employees of the Manager or any of its affiliates, as described in this Prospectus
- Eligible shares purchased from the proceeds of redemptions within Delaware Funds, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement). Automated transactions (that is, systematic purchases and withdrawals) and purchase made after shares are automatically sold to pay Merrill Lynch's account maintenance fees are not eligible for reinstatement

CDSC waivers on Class A and C shares available at Merrill Lynch

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's Prospectus
- Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code
- Shares sold to pay Merrill Lynch fees but only if the transaction is initiated by Merrill Lynch
- Shares acquired through a right of reinstatement
- Shares held in retirement brokerage accounts, that are exchanged for a lower cost share class due to transfer to certain fee based accounts or platforms
- Shares received through an exchange due to the holdings moving from a Merrill Lynch affiliated investment advisory program to a Merrill Lynch brokerage (non-advisory) account pursuant to Merrill Lynch's policies relating to sales load discounts and waivers

Front-end sales charge discounts available at Merrill Lynch: Breakpoints, rights of accumulation, and letters of intent

- Breakpoints as described in this Prospectus.

- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts as described in the Fund's prospectus will be automatically calculated based on the aggregated holding of Delaware Fund assets held by accounts (including 529 program holdings, where applicable) within the purchaser's household at Merrill Lynch. Eligible Delaware Fund assets not held at Merrill Lynch may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets
- Letters of Intent (LOI) which allow for breakpoint discounts based on anticipated purchases within Delaware Funds, through Merrill Lynch, over a 13-month period of time (if applicable).

Morgan Stanley Wealth Management:

Shareholders purchasing Fund shares through a Morgan Stanley Wealth Management transactional brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Fund's Prospectus or SAI.

Front-end Sales Charge Waivers on Class A Shares available at Morgan Stanley Wealth Management

- Employer-sponsored retirement plans (e.g. 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same Fund
- Shares purchased through a Morgan Stanley self-directed brokerage account
- Class C (that is, level-load) shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same Fund pursuant to Morgan Stanley Wealth Management's share class conversion program
- Shares purchased from the proceeds of redemptions within Delaware Funds, provided (i) the repurchase occurs within 90 days following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.

Ameriprise Financial:

Class A Shares Front-End Sales Charge Waivers Available at Ameriprise Financial:

Shareholders purchasing Fund shares through an Ameriprise Financial platform or account will be eligible for the following front-end sales charge waivers and discounts with respect to Class A shares, which may differ from those disclosed elsewhere in this Fund's Prospectus or SAI:

- Employer-sponsored retirement plans (including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Shares purchased through an Ameriprise Financial investment advisory program (if an Advisory or similar share class for such investment advisory program is not available).
- Shares purchased by third party investment advisors on behalf of their advisory clients through Ameriprise Financial's platform (if an Advisory or similar share class for such investment advisory program is not available).
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same Fund (but not any other Fund within Delaware Funds).
- Shares exchanged from Class C shares of the same Fund in the month of or following the 10-year anniversary of the purchase date. To the extent that this Prospectus elsewhere provides for a waiver with respect to such shares following a shorter holding period, that waiver will apply to exchanges following such shorter period. To the extent that this Prospectus elsewhere provides for a waiver with respect to exchanges of Class C shares for load waived shares, that waiver will also apply to such exchanges.
- Employees and registered representatives of Ameriprise Financial or its affiliates and their immediate family members.
- Shares purchased by or through qualified accounts (including IRAs, Coverdell Education Savings Accounts, 401(k)s, 403(b) TSCAs subject to ERISA and defined benefit plans) that are held by a covered family member, defined as an Ameriprise financial advisor and/or the advisor's spouse, advisor's lineal ascendant (mother, father, grandmother, grandfather, great grandmother, great grandfather), advisor's lineal descendant (son, step-son, daughter, step-daughter, grandson, granddaughter, great grandson, great granddaughter) or any spouse of a covered family member who is a lineal descendant.
- Shares purchased from the proceeds of redemptions within Delaware Funds, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (that is, Rights of Reinstatement).

Raymond James & Associates, Inc., Raymond James Financial Services & Raymond James Affiliates ("Raymond James"):

Shareholders purchasing Fund shares through a Raymond James platform or account will be eligible only for the following load waivers (front-end sales charge waivers and CDSC waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-end sales load waivers on Class A shares available at Raymond James

- Shares purchased in an investment advisory program.

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same Fund (but not any other Fund within the Delaware Funds).
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within Delaware Funds, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).
- A shareholder in the Fund's Class C shares will have their shares converted at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of Raymond James.

CDSC waivers on Class A and C shares available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the Fund's Prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½ as described in the Fund's Prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-end load discounts available at Raymond James: Breakpoints, and/or rights of accumulation

- Breakpoints as described in this Prospectus.
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Delaware Funds assets held by accounts within the purchaser's household at Raymond James. Eligible Delaware Funds assets not held at Raymond James may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.

Edward D. Jones & Co. ("Edward Jones"):

Sales Waivers and Reductions in Sales Charges

Shareholders purchasing fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from breakpoints and waivers described elsewhere in the mutual fund prospectus or SAI or through another broker-dealer. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of the Delaware Funds or other facts qualifying the purchaser for breakpoints or waivers. Edward Jones can ask for documentation of such circumstance.

Breakpoints

Rights of Accumulation (ROA)

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except any money market funds and retirement plan share classes) of Delaware Funds held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations ("pricing groups"). This includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible Delaware Funds assets in the rights of accumulation calculation is dependent on the shareholder notifying his or her financial advisor of such assets at the time of calculation.
- ROA is determined by calculating the higher of cost or market value (current shares x NAV).

Letter of Intent (LOI)

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible Delaware Funds assets in the LOI calculation is dependent on the shareholder notifying his or her financial advisor of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not covered under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.

Sales Charge Waivers:

Sales charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and their family members who are in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing.
- Shares purchased in an Edward Jones fee-based program.

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
- Shares purchased from the proceeds of redeemed shares of the same Delaware Funds so long as the following conditions are met: 1) the proceeds are from the sale of shares within 60 days of the purchase, and 2) the sale and purchase are made in the same share class and the same account or the purchase is made in an individual retirement account with proceeds from liquidations in a non-retirement account.
- Shares exchanged into class A shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.
- Exchanges from class C shares to class A shares of the same fund, generally, in the 84th month following the anniversary of the purchase date or earlier at the discretion of Edward Jones.

Contingent Deferred Sales Charge (CDSC) Waivers:

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder is responsible to pay the CDSC except in the following conditions:

- The death or disability of the shareholder
- Systematic withdrawals with up to 10% per year of the account value
- Return of excess contributions from an Individual Retirement Account (IRA)
- Shares sold as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations
- Shares sold to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones
- Shares exchanged in an Edward Jones fee-based program
- Shares acquired through NAV reinstatement

Other Important Information

Minimum Purchase Amounts

- \$250 initial purchase minimum
- \$50 subsequent purchase minimum

Minimum Balances

Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:

- A fee-based account held on an Edward Jones platform
- A 529 account held on an Edward Jones platform
- An account with an active systematic investment plan or letter of intent (LOI)

Changing Share Classes

- At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder's holdings in a fund to Class A shares.

Janney Montgomery Scott, LLC ("Janney"):

If you purchase fund shares through a Janney brokerage account, you will be eligible for the following load waivers (front-end sales charge waivers and contingent deferred sales charge ("CDSC"), or back-end sales charge, waivers) and discounts, which may differ from those disclosed elsewhere in this fund's Prospectus or SAI.

Front-end sales charge* waivers on Class A shares available at Janney

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the Delaware Funds).
- Shares purchased by employees and registered representatives of Janney or its affiliates and their family members as designated by Janney.
- Shares purchased from the proceeds of redemptions within the Delaware Funds, provided (1) the repurchase occurs within ninety (90) days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e., right of reinstatement).
- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans.
- Shares acquired through a right of reinstatement.

- Class C shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Janney's policies and procedures.

CDSC waivers on Class A and C shares available at Janney

- Shares sold upon the death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's Prospectus.
- Shares purchased in connection with a return of excess contributions from an IRA account.
- Shares sold as part of a required minimum distribution for IRA and other retirement accounts due to the shareholder reaching age 70½ as described in the fund's Prospectus.
- Shares sold to pay Janney fees but only if the transaction is initiated by Janney.
- Shares acquired through a right of reinstatement.
- Shares exchanged into the same share class of a different fund.

Front-end sales charge* discounts available at Janney: breakpoints, rights of accumulation, and/or letters of intent

- Breakpoints as described in the Fund's Prospectus
- Rights of accumulation ("ROA"), which entitle shareholders to breakpoint discounts, will be automatically calculated based on the aggregated holding of Delaware Funds assets held by accounts within the purchaser's household at Janney. Eligible Delaware Funds assets not held at Janney may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within Delaware Funds, over a 13-month time period. Eligible Delaware Funds assets not held at Janney Montgomery Scott may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor of such assets.

*Also referred to as an "initial sales charge."

Oppenheimer & Co. Inc. ("OPCO")

Shareholders purchasing Fund shares through an OPCO platform or account are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at OPCO

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
- Shares purchased by or through a 529 Plan
- Shares purchased through a OPCO affiliated investment advisory program
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the Delaware Funds)
- Shares purchased from the proceeds of redemptions within the same Delaware Funds, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Restatement).
- A shareholder in the Fund's Class C shares will have their shares converted at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of OPCO
- Employees and registered representatives of OPCO or its affiliates and their family members
- Directors or Trustees of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this prospectus

CDSC Waivers on A, B and C Shares available at OPCO

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus
- Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code as described in the prospectus
- Shares sold to pay OPCO fees but only if the transaction is initiated by OPCO
- Shares acquired through a right of reinstatement

Front-end load Discounts Available at OPCO: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus.

- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Delaware Funds assets held by accounts within the purchaser's household at OPCO. Eligible Delaware Funds assets not held at OPCO may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.

Robert W. Baird & Co. Incorporated ("Baird"):

Shareholders purchasing fund shares through a Baird platform or account will only be eligible for the following sales charge waivers (front-end sales charge waivers and CDSC waivers) and discounts, which may differ from those disclosed elsewhere in this prospectus or the SAI

Front-End Sales Charge Waivers on Class A Shares Available at Baird

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing share of the same fund
- Share purchase by employees and registers representatives of Baird or its affiliate and their family members as designated by Baird
- Shares purchase from the proceeds of redemptions from another Delaware Fund, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same accounts, and (3) redeemed shares were subject to a front-end or deferred sales charge (known as rights of reinstatement)
- A shareholder in the Funds Class C shares will have their share converted at net asset value to Class A shares of the same Fund if the shares are no longer subject to CDSC and the conversion is in line with the policies and procedures of Baird
- Employer-sponsored retirement plans or charitable accounts in a transactional brokerage account at Baird, including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs

CDSC Waivers on Class A and C Shares Available at Baird

- Shares sold due to death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's Prospectus
- Shares bought due to returns of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 72 as described in the Fund's prospectus
- Shares sold to pay Baird fees but only if the transaction is initiated by Baird
- Shares acquired through a right of reinstatement

Front-End Sales Charge Discounts Available at Baird: Breakpoints and/or Rights of Accumulations

- Breakpoints as described in this prospectus
- Rights of accumulations which entitles shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Delaware Funds assets held by accounts within the purchaser's household at Baird. Eligible Delaware Funds assets not held at Baird may be included in the rights of accumulations calculation only if the shareholder notifies his or her financial advisor about such assets
- Letters of Intent (LOI) allow for breakpoint discounts based on anticipated purchases of Delaware Funds through Baird, over a 13-month period of time.
