

Wells Fargo International Value Fund

Class/Ticker: Class A - WFFAX - Class C - WFCVX

[Link to Prospectus](#)[Link to SAI](#)

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, reports to shareholders and other information about the Fund online at wellsfargofunds.com/reports. You can also get information at no cost by calling 1-800-222-8222, or by sending an email request to fundliterature@wellsfargo.com. The current prospectus ("Prospectus") and statement of additional information ("SAI"), dated October 1, 2020, as supplemented from time to time, are incorporated by reference into this summary prospectus. The Fund's SAI may be obtained, free of charge, in the same manner as the Prospectus.

Beginning on January 1, 2021, as permitted by new regulations adopted by the Securities and Exchange Commission, paper copies of the Wells Fargo Funds' annual and semi-annual shareholder reports issued after this date will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Funds' website, and you will be notified by mail each time a report is posted and provided with a website address to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically at any time by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by calling 1-800-222-8222 or by enrolling at wellsfargo.com/advantagedelivery.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports; if you invest directly with the Fund, you can call 1-800-222-8222. Your election to receive reports in paper will apply to all Wells Fargo Funds held in your account with your financial intermediary or, if you are a direct investor, to all Wells Fargo Funds that you hold.

Investment Objective

The Fund seeks long-term capital appreciation.

Fees and Expenses

These tables are intended to help you understand the various costs and expenses you will pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the aggregate in specified classes of certain Wells Fargo Funds. More information about these and other discounts is available from your financial professional and in "Share Class Features" and "Reductions and Waivers of Sales Charges" on pages 14 and 15 of the Prospectus and "Additional Purchase and Redemption Information" on page 87 of the Statement of Additional Information. Investors who purchase through certain intermediaries may be subject to different sales charge discounts than those outlined shares in these sections. Please see Appendix A on page 28 for further information.

Shareholder Fees (fees paid directly from your investment)

	Class A	Class C
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75%	None
Maximum deferred sales charge (load) (as a percentage of offering price)	None ¹	1.00%

1. Investments of \$1 million or more are not subject to a front-end sales charge but generally will be subject to a deferred sales charge of 1.00% if redeemed within 18 months from the date of purchase.

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)¹

	Class A	Class C
Management Fees ²	0.82%	0.82%
Distribution (12b-1) Fees	0.00%	0.75%
Other Expenses	0.55%	0.55%
Total Annual Fund Operating Expenses³	1.37%	2.12%
Fee Waivers	(0.13)%	(0.13)%
Total Annual Fund Operating Expenses After Fee Waivers⁴	1.24%	1.99%

1. Expenses have been adjusted as necessary from amounts incurred during the Fund's most recent fiscal year to reflect current fees and

- expenses.
2. Includes the fees charged by the Manager for providing advisory services to the master portfolio in which the Fund invests substantially all of its assets.
 3. Includes other expenses allocated from the master portfolio in which the Fund invests.
 4. The Manager has contractually committed through September 30, 2021, to waive fees and/or reimburse expenses to the extent necessary to cap Total Annual Fund Operating Expenses After Fee Waivers at 1.24% for Class A and 1.99% for Class C. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any) from funds in which the underlying affiliated master portfolios and funds invest and from money market funds, and extraordinary expenses are excluded from the expense cap. All other acquired fund fees and expenses from the affiliated master portfolios and funds are included in the expense cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees.

Example of Expenses

The example below is intended to help you compare the costs of investing in the Fund with the costs of investing in other funds. The example assumes a \$10,000 initial investment, 5% annual total return, and that fees and expenses remain the same as in the tables above. To the extent that the Manager is waiving fees or reimbursing expenses, the example assumes that such waiver or reimbursement will only be in place through the date noted above. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	Assuming Redemption at End of Period		Assuming No Redemption
After:	Class A	Class C	Class C
1 Year	\$694	\$302	\$202
3 Years	\$972	\$651	\$651
5 Years	\$1,270	\$1,127	\$1,127
10 Years	\$2,116	\$2,442	\$2,442

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 20% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, we invest:

- at least 80% of the Fund’s total assets in equity securities of foreign issuers of any market capitalization; and
- up to 20% of the Fund’s total assets in emerging market equity securities.

The Fund is a feeder fund that invests substantially all of its assets in the International Value Portfolio, a master portfolio with a substantially identical investment objective and substantially similar investment strategies. We may invest in additional master portfolios, in other Wells Fargo Funds, or directly in a portfolio of securities.

We invest principally in the equity securities of foreign issuers of any market capitalization which we believe are undervalued in the marketplace at the time of purchase and show recent positive signals, such as an appreciation in prices and increase in earnings. We consider equity securities of foreign issuers (or foreign securities) to be equity securities: (1) issued by companies with their principal place of business or principal office, or both, as determined in our reasonable discretion, in a country other than the U.S.; or (2) issued by companies for which the principal securities trading market is a country other than the U.S. We invest in the securities of companies located in at least three countries, not including the U.S. The types of securities in which we normally invest include common stock, preferred stock, rights, warrants and American Depositary Receipts (ADRs). We may use futures or options to manage risk or to enhance return. Factors we consider in determining undervaluation include dividend yield, earnings relative to price, cash flow relative to price and book value relative to market value. We believe that these securities have the potential to produce future returns if their future growth exceeds the market’s low expectations. We use a quantitative investment model to make investment decisions for the Fund. The investment model is designed to take advantage of judgmental biases that influence the decisions of many investors, such as the tendency to develop a “mindset” about a company or to wrongly equate a good company with a good investment irrespective of price. The investment model ranks securities based on fundamental measures of value (such as the dividend yield) and indicators of near-term recovery (such as recent price appreciation). This investment strategy seeks to manage overall portfolio risk while attempting to increase the expected return.

A stock is typically sold if the model indicates a decline in its ranking or if a stock’s relative portfolio weight has appreciated significantly (relative to the benchmark).

Principal Investment Risks

Because the Fund invests substantially all of its assets in a master portfolio with a substantially identical investment objective and substantially similar investment strategies, the following principal risks include those risks that result from the Fund's investment in the master portfolio. In this section, references to the Fund should be read to include the Fund and the master portfolio, as appropriate.

The Fund's performance will not correlate perfectly with that of the master portfolio due to the impact of the Fund's fees and expenses and to the timing and magnitude of cash flows into and out of the Fund, which will create cash balances that cause the Fund's performance to deviate from the performance of the master portfolio.

An investment in the Fund may lose money, is not a deposit of Wells Fargo Bank, N.A. or its affiliates, is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, and is primarily subject to the risks briefly summarized below.

Market Risk. The values of, and/or the income generated by, securities held by the Fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments.

Equity Securities Risk. The values of equity securities may experience periods of substantial price volatility and may decline significantly over short time periods. In general, the values of equity securities are more volatile than those of debt securities. Equity securities fluctuate in value and price in response to factors specific to the issuer of the security, such as management performance, financial condition, and market demand for the issuer's products or services, as well as factors unrelated to the fundamental condition of the issuer, including general market, economic and political conditions. Different parts of a market, industry and sector may react differently to adverse issuer, market, regulatory, political, and economic developments.

Foreign Investment Risk. Foreign investments may be subject to lower liquidity, greater price volatility and risks related to adverse political, regulatory, market or economic developments. Foreign investments may involve exposure to changes in foreign currency exchange rates and may be subject to higher withholding and other taxes.

Derivatives Risk. The use of derivatives, such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than mitigate risk. Certain derivative instruments may be difficult to sell when the portfolio manager believes it would be appropriate to do so, or the other party to a derivative contract may be unwilling or unable to fulfill its contractual obligations.

Emerging Markets Risk. Emerging market securities typically present even greater exposure to the risks described under "Foreign Investment Risk" and may be particularly sensitive to global economic conditions. Emerging market securities are also typically less liquid than securities of developed countries and could be difficult to sell, particularly during a market downturn.

Futures Contracts Risk. A Fund that uses futures contracts, which are a type of derivative, is subject to the risk of loss caused by unanticipated market movements. In addition, there may at times be an imperfect correlation between the movement in the prices of futures contracts and the value of their underlying instruments or indexes, and there may at times not be a liquid secondary market for certain futures contracts.

Growth/Value Investing Risk. Securities that exhibit growth or value characteristics tend to perform differently and shift into and out of favor with investors depending on changes in market and economic sentiment and conditions.

Management Risk. Investment decisions, techniques, analyses or models implemented by a Fund's manager or sub-adviser in seeking to achieve the Fund's investment objective may not produce expected returns, may cause the Fund's shares to lose value or may cause the Fund to underperform other funds with similar investment objectives.

Options Risk. A Fund that purchases options, which are a type of derivative, is subject to the risk of a loss of premiums without offsetting gains. A Fund that writes options receives a premium that may be small relative to the loss realized in the event of adverse changes in the value of the underlying instruments.

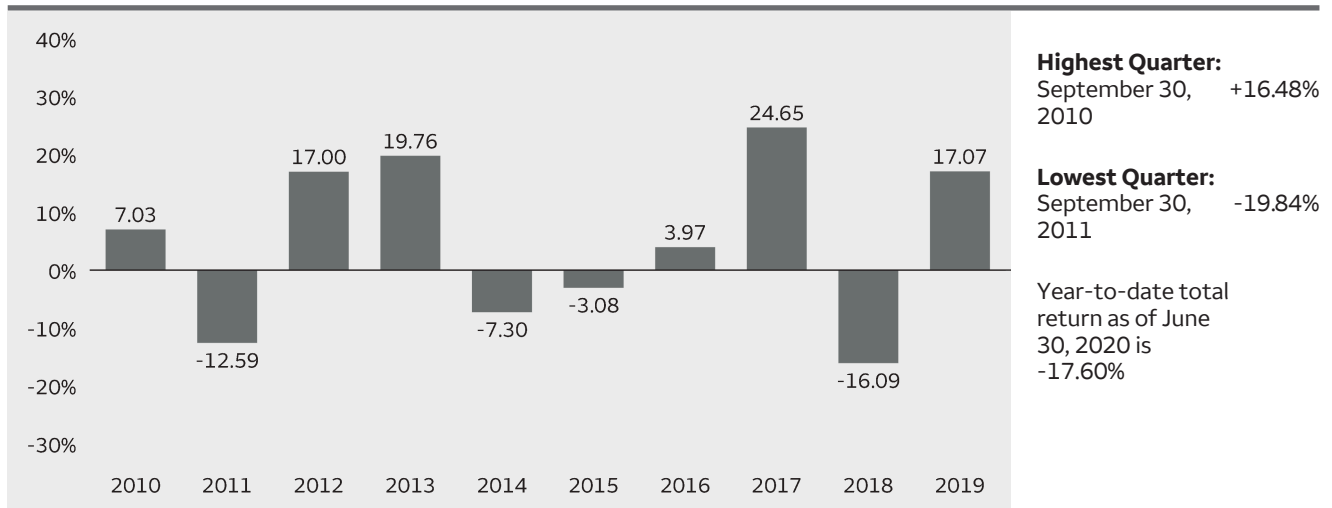

Quantitative Model Risk. Funds that are managed according to a quantitative model can perform differently from the market as a whole based on the factors used in the model, the weight placed on each factor and changes from the factors' historical trends. Due to the significant role technology plays in a quantitative model, use of a quantitative model carries the risk of potential issues with the design, coding, implementation or maintenance of the computer programs, data and/or other technology used in the quantitative model. These issues could negatively impact investment returns.

Smaller Company Securities Risk. Securities of companies with smaller market capitalizations tend to be more volatile and less liquid than those of larger companies.

Performance

The following information provides some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year. The Fund's average annual total returns are compared to the performance of one or more indices. Past performance before and after taxes is no guarantee of future results. Current month-end performance is available on the Fund's website at wfam.com.

Calendar Year Total Returns for Class A as of 12/31 each year (Returns do not reflect sales charges and would be lower if they did)

Average Annual Total Returns for the periods ended 12/31/2019 (returns reflect applicable sales charges)

	Inception Date of Share Class	1 Year	5 Year	10 Year
Class A (before taxes)	10/31/2003	10.34%	3.06%	3.52%
Class A (after taxes on distributions)	10/31/2003	9.88%	2.72%	3.14%
Class A (after taxes on distributions and the sale of Fund Shares)	10/31/2003	6.92%	2.51%	2.86%
Class C (before taxes)	4/8/2005	15.21%	3.51%	3.35%
MSCI EAFE Value Index (Net) (reflects no deduction for fees, expenses, or taxes)		16.09%	3.54%	3.98%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state, local or foreign taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to tax-exempt investors or investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) Plans or Individual Retirement Accounts. After-tax returns are shown for only one class of shares. After-tax returns for any other class will vary.

Fund Management

Manager	Sub-Adviser ¹	Portfolio Manager, Title/Managed Since ¹
Wells Fargo Funds Management, LLC	LSV Asset Management	Josef Lakonishok, Ph.D., Portfolio Manager / 2003 Puneet Mansharamani, CFA, Portfolio Manager / 2006 Menno Vermeulen, CFA, Portfolio Manager / 2003

1. The sub-adviser and portfolio managers listed above are the sub-adviser and portfolio managers of the master portfolio in which the Fund invests substantially all of its assets. The Fund itself does not have a sub-adviser or portfolio managers.

Purchase and Sale of Fund Shares

In general, you can buy or sell shares of the Fund online or by mail, phone or wire on any day the New York Stock Exchange is open for regular trading. You also may buy and sell shares through a financial professional.

Minimum Investments	To Buy or Sell Shares
Minimum Initial Investment Regular Accounts: \$1,000 IRAs, IRA Rollovers, Roth IRAs: \$250 UGMA/UTMA Accounts: \$50 Employer Sponsored Retirement Plans: No Minimum	Mail: Wells Fargo Funds P.O. Box 219967 Kansas City, MO 64121-9967 Online: wfam.com Phone or Wire: 1-800-222-8222
Minimum Additional Investment Regular Accounts, IRAs, IRA Rollovers, Roth IRAs: \$100 UGMA/UTMA Accounts: \$50 Employer Sponsored Retirement Plans: No Minimum	Contact your financial professional.

Tax Information

Any distributions you receive from the Fund may be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax-advantaged investment plan. However, subsequent withdrawals from such a tax-advantaged investment plan may be subject to federal income tax. You should consult your tax adviser about your specific tax situation.

Payments to Intermediaries

If you purchase a Fund through an intermediary, the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the intermediary and your financial professional to recommend the Fund over another investment. Consult your financial professional or visit your intermediary's website for more information.

**SUPPLEMENT TO THE PROSPECTUSES, SUMMARY PROSPECTUSES AND
STATEMENT OF ADDITIONAL INFORMATION
OF
WELLS FARGO INTERNATIONAL AND GLOBAL EQUITY FUNDS
For the Wells Fargo International Value Fund (the “Fund”)**

Merger and Shareholder Meeting

At a meeting held on November 17, 19-20, 2020, the Board of Trustees of Wells Fargo Funds Trust (the “Trust”) unanimously approved the merger of the Fund listed in the table below (the “Target Fund”) into another Fund of the Trust (the “Acquiring Fund”), which is also listed below (the “Merger”). The Merger was proposed by Wells Fargo Funds Management, LLC, investment manager to the Funds.

Target Fund	Acquiring Fund
Wells Fargo International Value Fund	Wells Fargo International Equity Fund

The Merger is contingent on a number of conditions, including approval by the shareholders of the Target Fund at a special shareholder meeting expected to be held in March 2021. The Merger is also intended to be a tax-free reorganization, and it is anticipated that Target Fund shareholders will not recognize any gain or loss for U.S. federal income tax purposes as a result of the Merger. Additionally, Target Fund shareholders will not incur any sales loads or similar transaction charges as a result of the Merger.

The Merger, if approved by shareholders and if all conditions to closing are satisfied, is expected to occur in March 2021. Prior to the Merger, shareholders of the Target Fund may continue to purchase and redeem shares subject to the limitations described in the Target Fund’s prospectuses.

No shareholder action is necessary at this time. Additional information, including a description of the Merger and information about fees, expenses and risk factors, will be provided to Target Fund shareholders in a prospectus/proxy statement that is expected to be mailed to shareholders in January 2021. The prospectus/proxy statement will provide information regarding the date, time and location of the shareholder meeting where the Merger will be considered. Only shareholders of record as of the close of business on December 18, 2020 will receive a prospectus/proxy statement and will be entitled to vote at the shareholder meeting or any adjournment(s) thereof.

On February 23, 2021, Wells Fargo & Company (“Wells Fargo”) announced that it has entered into a definitive agreement to sell Wells Fargo Asset Management (“WFAM”) to GTCR LLC (“GTCR”) and Reverence Capital Partners, L.P. (“Reverence Capital Partners”). WFAM is the trade name used by the asset management businesses of Wells Fargo and includes Wells Fargo Funds Management, LLC, the investment manager to the Funds, Wells Capital Management Incorporated and Wells Fargo Asset Management (International) Limited, both registered investment advisers providing sub-advisory services to certain Funds, and Wells Fargo Funds Distributor, LLC, the Funds’ principal underwriter. Under the terms of the agreement, the purchase price is \$2.1 billion. As part of the transaction, Wells Fargo will own a 9.9% equity interest and will continue to serve as an important client and distribution partner.

Consummation of the transaction will result in the automatic termination of each Fund’s investment management agreement and sub-advisory agreement(s). The Funds’ Boards of Trustees (the “Boards”) will be asked to approve new investment management arrangements with the new company. If approved by the Boards, and to the extent required by applicable law, the new investment management arrangements with the new company will be presented to the shareholders of each Fund for approval, and, if approved by shareholders, would take effect upon the closing of the transaction. The transaction is expected to close in the second half of 2021, subject to customary closing conditions.

Founded in 1980, GTCR is a leading private equity firm focused on investing in growth companies in the Healthcare, Financial Services & Technology, Technology, Media & Telecommunications, and Growth Business Services Industries. The Chicago-based firm pioneered The Leaders Strategy™ — finding and partnering with management leaders in core domains to identify, acquire, and build market-leading companies through transformational acquisitions and organic growth. Since its inception, GTCR has invested more than \$20 billion in over 250 companies.

Reverence Capital Partners is a private investment firm focused on thematic investing in leading global, middle-market financial services businesses through control and influence-oriented investments in five sectors: (1) Depositories and Finance Companies, (2) Asset and Wealth Management, (3) Insurance, (4) Capital Markets and (5) Financial Technology/ Payments. The firm was founded in 2013 by Milton Berlinski, Peter Aberg, and Alex Chulack, who collectively bring over 90 years of advisory and investing experience across a wide range of financial services sectors.
