The Fund's Prospectus and Statement of Additional Information ("SAI"), both dated October 30, 2020, as may be amended or supplemented, are incorporated by reference into this Summary Prospectus. PRO-0101-SUE-1020

Beginning January 1, 2021, as permitted by new regulations adopted by the Securities and Exchange Commission, the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website address to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically at any time by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by calling the Fund at (800) 221-5672.

You may elect to receive all future reports in paper form free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports; if you invest directly with the Fund, you can call the Fund at (800) 221-5672. Your election to receive reports in paper form will apply to all funds held in your account with your financial intermediary or, if you invest directly, to all AB Mutual Funds you hold.

## INVESTMENT OBJECTIVE

The Fund's investment objective is long-term growth of capital.

## FEES AND EXPENSES OF THE FUND

More information about these and other discounts is available from your financial intermediary and in Investing in the Funds—Sales Charge Reduction Programs for Class A Shares on page 65 of the Fund's Prospectus, in Appendix B—Financial Intermediary Waivers of the Fund's Prospectus and in Purchase of Shares—Sales Charge Reduction Programs for Class A Shares on page 127 of the Fund's SAI.

(a) Purchases of Class A shares in amounts of \$1,000,000 or more, or by certain group retirement plans, may be subject to a 1%, 1-year contingent deferred sales charge, or CDSC, which may be subject to waiver in certain circumstances.

(b) For Class C shares, the CDSC is 0% after the first year. Class C shares automatically convert to Class A shares after ten years.

(c) Amount is less than .005%.

(d) In connection with the Fund's investments in AB Government Money Market Portfolio (the "Money Market Portfolio") (except for the investment of any cash collateral from securities lending), the Adviser has contractually agreed to waive its management fee from the Fund and/or reimburse other expenses of the Fund in an amount equal to the Fund's pro rata share of the Money Market Portfolio's effective management fee, as included in "Acquired Fund Fees and Expenses". The agreement may only be terminated or changed with the consent of the Fund's Board of Directors.

(e) The Adviser has contractually agreed to waive its management fees and/or to bear certain expenses of the Fund. The fee waiver and/or expense reimbursement agreement will remain in effect until October 31, 2021 and may only be terminated or changed with the consent of the Fund's Board of Directors. In addition, the agreement will be automatically extended for one-year terms unless the Adviser provides notice of termination to the Fund at least 60 days prior to the end of the period.

## Examples

The Examples are intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Examples assume that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Examples also assume that your investment has a 5% return each year, that the Fund's operating expenses stay the same and that any fee waiver remains in effect for only the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Class A	Class C	Advisor Class	Class R	Class K	Class I
After 1 Year	\$ 574	\$ 330*	\$ 129	\$ 183	\$ 158	\$ 128
After 3 Years	\$ 888	\$ 711	\$ 403	\$ 579	\$ 521	\$ 402
After 5 Years	\$1,224	\$1,219	\$ 697	\$1,000	\$ 909	\$ 696
After 10 Years	\$2,171	\$2,615	\$1,534	\$2,175	\$1,996	\$1,533

\* If you did not redeem your shares at the end of the period, your expenses would be decreased by approximately \$100.

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys or sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These transaction costs, which are not reflected in the Annual Fund Operating Expenses or in the Examples, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 183% of the average value of its portfolio.

## PRINCIPAL STRATEGIES

Under normal circumstances, the Fund invests at least 80% of its net assets in equity securities of U.S. companies. For purposes of this policy, equity securities include common stock, preferred stock and derivatives related to common and preferred stocks.

The Adviser selects investments for the Fund through an intensive "bottom-up" approach that places an emphasis on companies that are engaged in business activities with solid long-term growth potential and operating in industries with high barriers to entry, that have strong cash flows and other financial metrics, and that have transparent financial statements and business models. The Adviser also evaluates the quality of company management based on a series of criteria, including: (1) management's focus on shareholder returns, such as through a demonstrated commitment to dividends and dividend growth, share buybacks or other

shareholder-friendly corporate actions; (2) management's employment of conservative accounting methodologies; (3) management incentives, such as direct equity ownership; and (4) management accessibility. The Adviser seeks to identify companies where events or catalysts may drive the company's share price higher, such as earnings and/or revenue growth above consensus forecasts, potential market recognition of undervaluation or overstated market-risk discount, or the institution of shareholder-focused changes discussed in the preceding sentence. In light of this catalyst-focused approach, the Adviser expects to engage in active and frequent trading for the Fund.

The Adviser may reduce or eliminate the Fund's holdings in a company's securities for a number of reasons, including if its evaluation of the above factors changes adversely, if the anticipated events or catalysts do not occur or do not affect the price of the securities as expected, or if the anticipated events or catalysts do occur and cause the securities to be, in the Adviser's view, overvalued or fully valued. At any given time the Fund may emphasize growth stocks over value stocks, or vice versa.

The Fund's investments will be focused on securities of companies with large and medium market capitalizations, but it may also invest in securities of small-capitalization companies. The Fund may invest in non-U.S. companies, but will limit its investments in such companies to no more than 10% of its net assets. The Fund may purchase securities in initial public offerings ("IPOs") and expects to do so on a regular basis.

## PRINCIPAL RISKS

- **Market Risk:** The value of the Fund's assets will fluctuate as the stock, bond or currency markets fluctuate. The value of the Fund's investments may decline, sometimes rapidly and unpredictably, simply because of economic changes or other events, including public health crises (including the occurrence of a contagious disease or illness), that affect large portions of the market. It includes the risk that a particular style of investing may underperform the market generally.
- **Sector Risk:** The Fund may have more risk because it may invest to a significant extent in one or more particular market sectors, such as the information technology or financial services sector. To the extent it does so, market or economic factors affecting the relevant sector(s) could have a major effect on the value of the Fund's investments.
- **Capitalization Risk:** Investments in small- and mid-capitalization companies may be more volatile than investments in large-capitalization companies. Investments in these companies may have additional risks because these companies may have limited product lines, markets or financial resources.
- **Active Trading Risk:** The Fund expects to engage in active and frequent trading of its portfolio securities and its portfolio turnover rate may greatly exceed 100%. A higher rate of portfolio turnover increases transaction costs, which may negatively affect the Fund's return. In addition, a high rate of portfolio turnover may result in substantial short-term gains, which may have adverse tax consequences for Fund shareholders.
- **IPO Risk:** Securities purchased in an IPO may be subject to substantial price volatility due to one or more factors such as unseasoned trading in the securities, the lack of investor knowledge of the issuer, the lack of an operating history of the issuer, and the dependence of the issuer on key personnel, suppliers or a limited number of customers.
- **Management Risk:** The Fund is subject to management risk because it is an actively-managed investment fund. The Adviser will apply its investment techniques and risk analyses in making investment decisions for the Fund, but there is no guarantee that its techniques will produce the intended results. Some of these techniques may incorporate, or rely upon, quantitative models, but there is no guarantee that these models will generate accurate forecasts, reduce risk or otherwise perform as expected.

As with all investments, you may lose money by investing in the Fund.

## BAR CHART AND PERFORMANCE INFORMATION

The bar chart and performance information provide an indication of the historical risk of an investment in the Fund by showing:

- how the Fund's performance changed from year to year over the life of the Fund; and
- how the Fund's average annual returns for one year, five years and since inception compare to those of a broad-based securities market index.

You may obtain updated performance information on the Fund's website at [www.abfunds.com](http://www.abfunds.com) (click on "Investments—Mutual Funds").

The Fund's past performance before and after taxes, of course, does not necessarily indicate how it will perform in the future.

## Bar Chart

The annual returns in the bar chart are for the Fund's Class A shares and do not reflect sales loads. If sales loads were reflected, returns would be less than those shown. Through September 30, 2020, the year-to-date unannualized return for Class A shares was 3.27%.

During the period shown in the bar chart, the Fund's:

**Best Quarter was up 11.62%, 1st quarter, 2012; and Worst Quarter was down -13.70%, 4th quarter, 2018.**

### TAX INFORMATION

The Fund may pay income dividends or make capital gains distributions, which may be subject to federal income taxes and taxable as ordinary income or capital gains, and may also be subject to state and local taxes.

### PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank or a group retirement plan), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
