Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the fund's shareholder reports like this one will no longer be sent by mail, unless you specifically request paper copies of the reports from the fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the fund or your financial intermediary electronically by calling or sending an email request to your appropriate contacts as listed on the back cover of this report.

You may elect to receive all future reports in paper free of charge. You can inform the fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by calling or sending an email request to your appropriate contacts as listed on the back cover of this report. Your election to receive reports in paper will apply to all funds held with the fund complex/your financial intermediary.

## President's Letter

#### **Jonathan Thomas**

#### Dear Investor:

Thank you for reviewing this annual report for the period ended October 31, 2020. Annual reports help convey important information about fund returns, including market factors that affected performance. For additional investment insights, please visit americancentury.com.

#### Pandemic Disrupted Economic, Market Courses

Market sentiment began the period relatively upbeat. A dovish Federal Reserve (Fed), modest inflation, improving economic and earnings data, and progress on U.S.-China trade policy helped boost global growth outlooks. Against this backdrop, riskier assets generally remained in favor.

However, beginning in late February, the COVID-19 outbreak rapidly spread worldwide, halting most U.S. and global economic activity and triggering a deep worldwide recession. Global stocks and credit-sensitive assets sold off sharply, while U.S. Treasury yields plunged to record lows amid soaring demand. Quick and aggressive action from the Fed and other central banks and federal governments helped stabilize and restore confidence in the financial markets. By summer, declining coronavirus infection and death rates in many regions and the reopening of economies were positive influences. By the end of the reporting period, most data suggested an economic recovery was underway. But, at the same time, COVID-19 infection rates were rising in the U.S. and Europe, prompting new lockdown measures in some European countries.

Overall, the broad U.S. stock market overcame the effects of the early 2020 sell-off to deliver a solid gain for the 12-month period. Growth stocks rallied and significantly outperformed value stocks, which generally declined. Global bond returns were broadly positive, as yields declined.

#### Science Helps Steer the Return to Normal

The return to pre-pandemic life will take time and patience, but we are confident we will get there. The first COVID-19 vaccine is on track for approval by year-end, and medical professionals continue to fine-tune virus treatment protocols. In the meantime, investors likely will face periods of outbreak-related disruptions, economic and political uncertainty, and heightened market volatility. These influences can be unsettling, but they tend to be temporary.

We appreciate your confidence in us during these extraordinary times. Our firm has a long history of helping clients weather unpredictable markets, and we're confident we will continue to meet today's challenges.

Sincerely,

Jonathan Thomas

President and Chief Executive Officer

American Century Investments

Manatus Many

## Performance

Total Returns as of October 31, 2020

			Average Annual Returns			
	Ticker Symbol	1 year	5 years	Since Inception	Inception Date	
Investor Class	ALNNX	-12.68%	-0.18%	-0.64%	7/31/15

Although the fund commenced operations on May 29, 2015, the performance inception date (for all classes except Y Class) reflects the date the fund began investing in accordance with its investment strategy. Fund returns would have been lower if a portion of the fees had not been waived.

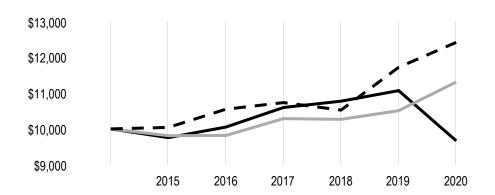

Sales charges include initial sales charges and contingent deferred sales charges (CDSCs), as applicable. A Class shares have a 5.75% maximum initial sales charge and may be subject to a maximum CDSC of 1.00%. C Class shares redeemed within 12 months of purchase are subject to a maximum CDSC of 1.00%. The SEC requires that mutual funds provide performance information net of maximum sales charges in all cases where charges could be applied.

Data presented reflect past performance. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance shown. Total returns for periods less than one year are not annualized. Investment return and principal value will fluctuate, and redemption value may be more or less than original cost. Data assumes reinvestment of dividends and capital gains, and none of the charts reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. To obtain performance data current to the most recent month end, please call 1-800-345-2021 or visit americancentury.com. For additional information about the fund, please consult the prospectus.

#### Growth of \$10,000 Over Life of Class

#### \$10,000 investment made July 31, 2015

Performance for other share classes will vary due to differences in fee structure.

Value on October 31, 2020

Investor Class — \$9,668

—— HFRX Fixed Income - Credit Index — \$11,312

---- Bloomberg Barclays U.S. Universal Bond Index — \$12,421

Ending value of Investor Class would have been lower if a portion of the fees had not been waived.

#### **Total Annual Fund Operating Expenses**

<b>Investor Class</b>	I Class	Y Class	A Class	C Class	R Class	R6 Class
1.83%	1.63%	1.48%	2.08%	2.83%	2.33%	1.48%

The total annual fund operating expenses shown is as stated in the fund's prospectus current as of the date of this report. The prospectus may vary from the expense ratio shown elsewhere in this report because it is based on a different time period, includes acquired fund fees and expenses, and, if applicable, does not include fee waivers or expense reimbursements.

Data presented reflect past performance. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance shown. Total returns for periods less than one year are not annualized. Investment return and principal value will fluctuate, and redemption value may be more or less than original cost. Data assumes reinvestment of dividends and capital gains, and none of the charts reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. To obtain performance data current to the most recent month end, please call 1-800-345-2021 or visit americancentury.com. For additional information about the fund, please consult the prospectus.

## Portfolio Commentary

Advisor: American Century Investment Management, Inc. Portfolio Managers: Cleo Chang and Hitesh Patel

Subadvisor: Perella Weinberg Partners Capital Management LP

Portfolio Managers: Kent Muckel and Darren Myers

The fund's Board of Directors has approved plans to liquidate AC Alternatives Income on February 26, 2021. Prior to the liquidation, the fund will close to all investments after the close of business on January 15, 2021.

#### **Performance Summary**

For the fiscal year ended October 31, 2020, the AC Alternatives Income Fund returned -12.68%.\* The loss was largely due to performance in March, when markets declined sharply in response to the COVID-19 pandemic and resulting economic shutdowns. In comparison, the HFRX Fixed Income - Credit Index returned 7.62% for the 12-month period. The Bloomberg Barclays U.S. Universal Bond Index returned 5.96% for the fiscal year, as declining interest rates offset rising credit spreads. Fund returns reflect operating expenses, while index returns do not.

#### Performance Review

The 12 months ended October 31, 2020, represented an extraordinary period for capital markets, global economies and the fund. U.S. equities began the fiscal year on relatively strong terms, as the S&P 500 Index rallied to a peak on February 19, 2020. However, once the gravity of the emerging pandemic took hold, the equity market collapsed in a historic fashion, losing nearly 34% in a mere 23 trading days. This was the quickest descent into bear market territory in the index's history. Credit markets followed a similar pattern of early strength before experiencing the secondworst calendar quarter in the history of the high-yield bond market. The Bloomberg Barclays U.S. Corporate High-Yield Bond Index declined almost 13% during the first three months of 2020, and credit spreads briefly touched 1,100 basis points.

In response to collapsing economic activity and financial markets, U.S. policymakers reacted swiftly with fiscal and monetary programs. The Federal Reserve (Fed) expanded its balance sheet by trillions of dollars and cut short-term interest rates to near 0%. The Fed also provided unlimited liquidity to the banking sector and set up several programs to backstop stressed portions of the financial markets. Congress delivered a fiscal aid package equaling more than 10% of gross domestic product (GDP). These efforts eventually helped promote a robust rebound in financial markets. For example, the S&P 500 Index ended the fiscal year with a return of 9.71%, and the Bloomberg Barclays U.S. Corporate High-Yield Bond Index gained 3.49% for the period.

Against this challenging backdrop, the fund's performance suffered, especially during the trying month of March and the rebounding month of April. We had macro hedges in place during the initial downdraft, but those benefits gave way to losses as markets quickly rebounded. Furthermore, we maintained a cautious risk positioning due to expectations for another sell-off in risk assets following the initial bounceback. But this did not materialize until late in the fiscal year.

Marathon Asset Management's high-yield bond and loan strategy, which was the largest fund allocation, underperformed the high-yield market during the fiscal year, posting double-digit negative returns. The fund's income-oriented real estate investment trust (REIT) strategy managed by American Century Investment Management also underperformed its REIT benchmark.\*\*

\*All fund returns referenced in this commentary are for Investor Class shares. Fund returns would have been lower if a portion of the fees had not been waived. Performance for other share classes will vary due to differences in fee structure; when Investor Class performance exceeds that of the fund's benchmark, other share classes may not. See page 3 for returns for all share classes.

\*\*From November 1, 2019, through February 29, 2020, Timbercreek Investment Management managed the portfolio's income-oriented REIT strategy. Effective March 1, 2020, Timbercreek Investment Management was no longer an underlying subadvisor to the fund.

Furthermore, the structured credit strategy managed by Good Hill Partners also posted double-digit losses during the fiscal year, as positions in commercial mortgage-backed securities and collateralized loan obligations proved troublesome.

As of October 31, 2020, the portfolio's capital allocation was as follows: 32% Marathon Asset Management, LP; 20% ArrowMark Colorado Holdings LLC; and 18% Good Hill Partners LP. Allocations to cash and specific sleeves managed by Perella Weinberg Partners Capital Management and/or American Century Investment Management accounted for the remaining balances.

#### Outlook

Our portfolio positioning remains cautiously constructive. While the equity and credit markets have rebounded and economic data have surprised to the upside, 2020 will still be the single-worst year for global growth in decades, which argues for some caution in positioning. Despite an unprecedented level of fiscal and monetary stimulus to counteract COVID-19's economic disruption, current consensus forecast for full-year 2020 GDP is -4%. This contraction would be significantly worse than the GDP decline in 2008's Great Recession. The trend of COVID-19 infections, which appears to be worsening in parts of Europe and the U.S., likely will have an impact on asset values. Additional lockdowns to suppress current infection rates are looming, but we believe they will be less onerous on economic activity than those implemented earlier in 2020.

The more constructive elements of positioning rely on continued easy monetary policy from the Fed. Currently, money supply is growing at an astounding 23%, providing ample liquidity to the marketplace. Additionally, the government's fiscal response, which currently amounts to more than 12% of GDP, has helped stabilize the economy. We expect additional fiscal aid regardless of the political environment, although the size and timing remain uncertain. We are also encouraged by the continued progress in vaccine development, given the strong results in several trials.

We believe current yields on U.S. Treasuries and investment-grade corporates are uninspiring, which is forcing yield-seeking investors into other areas of the credit markets. This backdrop also makes income-oriented equities, such as high dividend-paying stocks, REITs and master limited partnerships, potentially attractive long-term sources of additional income. We therefore believe a multiasset class approach to generating income, combined with overlay hedges to dampen market volatility, remains an attractive option for income-seeking investors.

# Fund Characteristics

### **OCTOBER 31, 2020**

Types of Investments in Portfolio	% of net assets
Corporate Bonds	31.2%
Asset-Backed Securities	20.3%
Common Stocks	10.9%

Preferred Stocks	0.5%
Exchange-Traded Funds Sold Short	(3.1)%
Corporate Bonds Sold Short	(2.0)%
Common Stocks Sold Short	(0.4)%
Temporary Cash Investments	14.4%
Other Assets and Liabilities	3.7%

## Shareholder Fee Example

Fund shareholders may incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments and redemption/exchange fees; and (2) ongoing costs, including management fees; distribution and service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in your fund and to compare these costs with the ongoing cost of investing in other mutual funds.

The example is based on an investment of \$1,000 made at the beginning of the period and held for the entire period from May 1, 2020 to October 31, 2020.

#### **Actual Expenses**

The table provides information about actual account values and actual expenses for each class. You may use the information, together with the amount you invested, to estimate the expenses that you paid over the period. First, identify the share class you own. Then simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

If you hold Investor Class shares of any American Century Investments fund, or I Class shares of the American Century Diversified Bond Fund, in an American Century Investments account (i.e., not through a financial intermediary or employer-sponsored retirement plan account), American Century Investments may charge you a \$25.00 annual account maintenance fee if the value of those shares is less than \$10,000. We will redeem shares automatically in one of your accounts to pay the \$25.00 fee. In determining your total eligible investment amount, we will include your investments in all personal accounts (including American Century Investments brokerage accounts) registered under your Social Security number. Personal accounts include individual accounts, joint accounts, UGMA/UTMA accounts, personal trusts, Coverdell Education Savings Accounts and IRAs (including traditional, Roth, Rollover, SEP-, SARSEP- and SIMPLE-IRAs), and certain other retirement accounts. If you have only business, business retirement, employer-sponsored or American Century Investments brokerage accounts, you are currently not subject to this fee. If you are subject to the account maintenance fee, your account value could be reduced by the fee amount.

#### **Hypothetical Example for Comparison Purposes**

The table also provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio of each class of your fund and an assumed rate of return of 5% per year before expenses, which is not the actual return of a fund's share class. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) or redemption/exchange fees. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value 5/1/20	Ending Account Value 10/31/20	Expenses Paid During Period <sup>(1)</sup> 5/1/20 - 10/31/20	Annualized Expense Ratio <sup>(1)</sup>
Actual				
Investor Class	\$1,000	\$1,074.80	\$9.96	1.91%
I Class	\$1,000	\$1,076.00	\$8.92	1.71%
Y Class	\$1,000	\$1,076.80	\$8.14	1.56%
A Class	\$1,000	\$1,074.80	\$11.27	2.16%
C Class	\$1,000	\$1,069.50	\$15.14	2.91%
R Class	\$1,000	\$1,073.40	\$12.56	2.41%
R6 Class	\$1,000	\$1,076.80	\$8.14	1.56%
Hypothetical				
Investor Class	\$1,000	\$1,015.53	\$9.68	1.91%
I Class	\$1,000	\$1,016.54	\$8.67	1.71%
Y Class	\$1,000	\$1,017.29	\$7.91	1.56%
A Class	\$1,000	\$1,014.28	\$10.94	2.16%
C Class	\$1,000	\$1,010.51	\$14.71	2.91%
R Class	\$1,000	\$1,013.02	\$12.19	2.41%
R6 Class	\$1,000	\$1,017.29	\$7.91	1.56%

<sup>(1)</sup> Expenses are equal to the class's annualized expense ratio listed in the table above, multiplied by the average account value over the period, multiplied by 184, the number of days in the most recent fiscal half-year, divided by 366, to reflect the one-half year period. Annualized expense ratio reflects actual expenses, including any applicable fee waivers or expense reimbursements and excluding any acquired fund fees and expenses.

					\$ (157,450)	\$ (72,823)	\$ (230,273)

‡The maximum potential amount the fund could be required to deliver as a seller of credit protection if a credit event occurs as defined under the terms of the agreement is the notional amount. The maximum potential amount may be partially offset by any recovery values of the reference entities and upfront payments received upon entering into the agreement.

<sup>^</sup>The value for credit default swap agreements serves as an indicator of the current status of the payment/ performance risk and represent the likelihood of an expected liability or profit at the period end. Increasing values in absolute terms when compared to the notional amount of the credit default swap agreement represent a deterioration of the referenced entity's credit soundness and an increased likelihood or risk of a credit event occurring as defined in the agreement.

#### NOTES TO SCHEDULE OF INVESTMENTS

CDX - Credit Derivatives Indexes

EUR - Euro

EURIBOR - Euro Interbank Offered Rate

GBP - British Pound

GNMA - Government National Mortgage Association

IO - Interest Only

LIBOR - London Interbank Offered Rate

MTN - Medium Term Note

PIK - Payment in Kind. Security may pay a cash rate and/or an in kind rate.

SEQ - Sequential Payer
USD - United States Dollar

VRN

- Variable Rate Note. The rate adjusts periodically based upon the terms set forth in the security's offering documents. The rate shown is effective at the period end and the reference rate and spread, if any, is indicated. The security's effective maturity date may be shorter than

the final maturity date shown.

† Category is less than 0.05% of total net assets.

- (1) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may be sold in transactions exempt from registration, normally to qualified institutional investors. The aggregate value of these securities at the period end was \$47,918,682, which represented 53.9% of total net assets. Of these securities, 0.2% of total net assets were deemed illiquid under policies approved by the Board of Directors.
- (2) Security, or a portion thereof, has been pledged at the custodian bank or with a broker for collateral requirements on written options contracts, forward foreign currency exchange contracts, futures contracts, securities sold short and/or swap agreements. At the period end, the aggregate value of securities pledged was \$9,401,731.
- (3) When-issued security. The issue price and yield are fixed on the date of the commitment, but payment and delivery are scheduled for a future date.
- (4) Security is in default.
- Non-income producing.
- (6) Restricted security that may not be offered for public sale without being registered with the Securities and Exchange Commission and/or may be subject to resale, redemption or transferability restrictions. The aggregate value of these securities at the period end was \$293,628, which represented 0.3% of total net assets.
- (7) The security's rate was paid in cash at the last payment date.

## Notes to Financial Statements

#### **OCTOBER 31, 2020**

#### 1. Organization

American Century Capital Portfolios, Inc. (the corporation) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company and is organized as a Maryland corporation. AC Alternatives Income Fund (the fund) is one fund in a series issued by the corporation. The fund's investment objective is to seek to provide diverse sources of income.

The fund offers the Investor Class, I Class, Y Class, A Class, C Class, R Class and R6 Class. The A Class may incur an initial sales charge. The A Class and C Class may be subject to a contingent deferred sales charge.

#### 2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the fund in preparation of its financial statements. The fund is an investment company and follows accounting and reporting guidance in accordance with accounting principles generally accepted in the United States of America. This may require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from these estimates. Management evaluated the impact of events or transactions occurring through the date the financial statements were issued that would merit recognition or disclosure.

Investment Valuations — The fund determines the fair value of its investments and computes its net asset value per share at the close of regular trading (usually 4 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open. The Board of Directors has adopted valuation policies and procedures to guide the investment advisor in the fund's investment valuation process and to provide methodologies for the oversight of the fund's pricing function.

Fixed income securities are valued at the evaluated mean as provided by independent pricing services or at the mean of the most recent bid and asked prices as provided by investment dealers. Corporate bonds, U.S. Treasury and Government Agency securities, convertible bonds and bank loan obligations are valued using market models that consider trade data, quotations from dealers and active market makers, relevant yield curve and spread data, creditworthiness, trade data or market information on comparable securities, and other relevant security specific information. Mortgage-related and asset-backed securities are valued based on models that consider trade data, prepayment and default projections, benchmark yield and spread data and estimated cash flows of each tranche of the issuer. Collateralized loan obligations are valued based on discounted cash flow models that consider trade and economic data, prepayment assumptions and default projections. Fixed income securities initially expressed in local currencies are translated into U.S. dollars at the mean of the appropriate currency exchange rate at the close of the NYSE as provided by an independent pricing service.

Equity securities that are listed or traded on a domestic securities exchange are valued at the last reported sales price or at the official closing price as provided by the exchange. Equity securities traded on foreign securities exchanges are generally valued at the closing price of such securities on the exchange where primarily traded or at the close of the NYSE, if that is earlier. If no last sales price is reported, or if local convention or regulation so provides, the mean of the latest bid and asked prices may be used. Securities traded over-the-counter are valued at the mean of the latest bid and asked prices, the last sales price, or the official closing price. Equity securities initially expressed in local currencies are translated into U.S. dollars at the mean of the appropriate currency exchange rate at the close of the NYSE as provided by an independent pricing service.

Hybrid securities are valued at the evaluated mean as provided by independent pricing services or at the mean of the most recent bid and asked prices as provided by investment dealers. Preferred stocks and convertible preferred stocks with perpetual maturities are valued using market models that consider trade data, quotations from dealers and active market makers, relevant yield curve and spread data, creditworthiness, trade data or market information on comparable securities, and other relevant security specific information.

Open-end management investment companies are valued at the reported net asset value per share. Exchange-traded futures contracts are valued at the settlement price as provided by the appropriate exchange. Exchange-traded options contracts are valued at a mean as provided by independent pricing services. Swap agreements are valued at an evaluated mean as provided by independent pricing services or independent brokers. Forward foreign currency exchange contracts are valued at the mean of the appropriate forward exchange rate at the close of the NYSE as provided by an independent pricing service. Investments initially expressed in local currencies are translated into U.S. dollars at the mean of the appropriate currency exchange rate at the close of the NYSE as provided by an independent pricing service.

If the fund determines that the market price for an investment is not readily available or the valuation methods mentioned above do not reflect an investment's fair value, such investment is valued as determined in good faith by the Board of Directors or its delegate, in accordance with policies and procedures adopted by the Board of Directors. In its determination of fair value, the fund may review several factors including, but not limited to, market information regarding the specific investment or comparable investments and correlation with other investment types, futures indices or general market indicators. Circumstances that may cause the fund to use these procedures to value an investment include, but are not limited to: an investment has been declared in default or is distressed; trading in a security has been suspended during the trading day or a security is not actively trading on its principal exchange; prices received from a regular pricing source are deemed unreliable; or there is a foreign market holiday and no trading occurred.

The fund monitors for significant events occurring after the close of an investment's primary exchange but before the fund's net asset value per share is determined. Significant events may include, but are not limited to: corporate announcements and transactions; governmental action and political unrest that could impact a specific investment or an investment sector; or armed conflicts, natural disasters and similar events that could affect investments in a specific country or region. The fund also monitors for significant fluctuations between domestic and foreign markets, as evidenced by the U.S. market or such other indicators that the Board of Directors, or its delegate, deems appropriate. The fund may apply a model-derived factor to the closing price of equity securities traded on foreign securities exchanges. The factor is based on observable market data as provided by an independent pricing service.

**Security Transactions** — Security transactions are accounted for as of the trade date. Net realized gains and losses are determined on the identified cost basis, which is also used for federal income tax purposes.

Investment Income — Interest income is recorded on the accrual basis and includes paydown gain (loss) and accretion of discounts and amortization of premiums. Dividend income less foreign taxes withheld, if any, is recorded as of the ex-dividend date. Distributions received on securities that represent a return of capital or long-term capital gain are recorded as a reduction of cost of investments and/or as a realized gain. The fund may estimate the components of distributions received that may be considered nontaxable distributions or long-term capital gain distributions for income tax purposes.

Securities Sold Short — The fund enters into short sales, which is selling securities it does not own, as part of its normal investment activities. Upon selling a security short, the fund will segregate cash, cash equivalents or other appropriate liquid securities in at least an amount equal to the current market value of the securities sold short until the fund replaces the borrowed security. Interest earned on segregated cash for securities sold short, if any, is reflected as interest income. The fund is required to pay any dividends or interest due on securities sold short. Such dividends and interest are recorded as an expense. The fund may pay fees or charges on the assets borrowed for securities sold short. These fees are calculated daily based upon the value of each security sold short and a rate that is dependent on the availability of such security. If the market price of a security increases after the fund borrows the security, the fund may suffer a loss when it replaces the borrowed security at the higher price. Any loss will be increased by the amount of compensation, interest or dividends, and transaction costs the fund must pay to the lender of the borrowed security. Liabilities for securities sold short are valued daily and changes in value are recorded as change in net unrealized appreciation (depreciation) on securities sold short. The fund records realized gain (loss) on a security sold short when it is terminated by the fund and includes as a component of net realized gain (loss) on securities sold short transactions.

Foreign Currency Translations — All assets and liabilities initially expressed in foreign currencies are translated into U.S. dollars at prevailing exchange rates at period end. The fund may enter into spot foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of investment securities, dividend and interest income, spot foreign currency exchange contracts, and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions. Net realized and unrealized foreign currency exchange gains or losses related to investment securities are a component of net realized gain (loss) on investment transactions and change in net unrealized appreciation (depreciation) on investments, respectively. Net realized and unrealized foreign currency exchange gains or losses related to securities sold short are a component of net realized gain (loss) on securities sold short transactions and change in net unrealized appreciation (depreciation) on securities sold short, respectively.

Segregated Assets — In accordance with the 1940 Act, the fund segregates assets on its books and records to cover certain types of investment securities and other financial instruments. American Century Investment Management, Inc. (ACIM) (the investment advisor) monitors, on a daily basis, the securities segregated to ensure the fund designates a sufficient amount of liquid assets, marked-to-market daily. The fund may also receive assets or be required to pledge assets at the custodian bank or with a broker for collateral requirements.

Income Tax Status — It is the fund's policy to distribute substantially all net investment income and net realized gains to shareholders and to otherwise qualify as a regulated investment company under provisions of the Internal Revenue Code. Accordingly, no provision has been made for income taxes. The fund files U.S. federal, state, local and non-U.S. tax returns as applicable. The fund's tax returns are subject to examination by the relevant taxing authority until expiration of the applicable statute of limitations, which is generally three years from the date of filing but can be longer in certain jurisdictions. At this time, management believes there are no uncertain tax positions which, based on their technical merit, would not be sustained upon examination and for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

**Multiple Class** — All shares of the fund represent an equal pro rata interest in the net assets of the class to which such shares belong, and have identical voting, dividend, liquidation and other rights and the same terms and conditions, except for class specific expenses and exclusive rights to vote on matters affecting only individual classes. Income, non-class specific expenses, and realized and unrealized capital gains and losses of the fund are allocated to each class of shares based on their relative net assets.

**Distributions to Shareholders** — Distributions from net investment income, if any, are generally declared and paid quarterly. Distributions from net realized gains, if any, are generally declared and paid annually.

Indemnifications — Under the corporation's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the fund. In addition, in the normal course of business, the fund enters into contracts that provide general indemnifications. The maximum exposure under these arrangements is unknown as this would involve future claims that may be made against a fund. The risk of material loss from such claims is considered by management to be remote.

#### 3. Fees and Transactions with Related Parties

Certain officers and directors of the corporation are also officers and/or directors of American Century Companies, Inc. (ACC). The corporation's investment advisor, ACIM, the corporation's distributor, American Century Investment Services, Inc. (ACIS), and the corporation's transfer agent, American Century Services, LLC, are wholly owned, directly or indirectly, by ACC. ACIM has engaged Perella Weinberg Partners Capital Management LP (PWP) as a subadvisor for the fund. PWP assists the investment advisor in making recommendations with respect to hiring, terminating, or replacing the fund's underlying subadvisors. The fund's underlying subadvisors at the period end were ArrowMark Colorado Holdings LLC, Good Hill Partners LP and Marathon Asset Management, LP. Effective March 1, 2020, Timbercreek Investment Management (U.S.) LLC no longer serves as an underlying subadvisor to the fund. PWP determines the percentage of the fund's portfolio allocated to each subadvisor, including PWP, in order to seek to achieve the fund's investment objective. ACIM directly manages a portion of the fund's portfolio and is responsible for entering into subadvisory agreements and overseeing the activities of each of the subadvisors including monitoring compliance with fund objectives, strategies and restrictions. ACIM pays all costs associated with retaining the subadvisors of the fund.

Management Fees — The corporation has entered into a management agreement with ACIM, under which ACIM provides the fund with investment advisory and management services in exchange for a single, unified management fee (the fee) per class. The agreement provides that ACIM will pay all expenses of managing and operating the fund, except expenses on securities sold short, brokerage expenses, taxes, interest, fees and expenses of the independent directors (including legal counsel fees), extraordinary expenses, and expenses incurred in connection with the provision of shareholder services and distribution services under a plan adopted pursuant to Rule 12b-1 under the 1940 Act. The fee is computed and accrued daily based on each class's daily net assets and paid monthly in arrears. The difference in the fee among the classes is a result of their separate arrangements for non-Rule 12b-1 shareholder services. It is not the result of any difference in advisory or custodial fees or other expenses related to the management of the fund's assets, which do not vary by class. From November 1, 2019 through February 29, 2020, the investment advisor agreed to waive 0.11% of the fund's management fee. Effective March 1, 2020, the investment advisor agreed to waive 0.14% of the fund's management fee. The investment advisor expects this waiver to continue until February 28, 2021 and cannot terminate it prior to such date without the approval of the Board of Directors.

The annual management fee and the effective annual management fee after waiver for each class for the period ended October 31, 2020 are as follows:

		Effective Annual Management Fee After
	Annual Management Fee	Waiver
Investor Class	1.70%	1.58%
I Class	1.50%	1.38%
Y Class	1.35%	1.23%
A Class	1.70%	1.58%
C Class	1.70%	1.58%
R Class	1.70%	1.58%
R6 Class	1.35%	1.23%

**Distribution and Service Fees** — The Board of Directors has adopted a separate Master Distribution and Individual Shareholder Services Plan for each of the A Class, C Class and R Class (collectively the plans), pursuant to Rule 12b-1 of the 1940 Act. The plans provide that the A Class will pay ACIS an annual distribution and service fee of 0.25%. The plans provide that the C Class will pay ACIS an annual distribution and service fee of 1.00%, of which 0.25% is paid for individual shareholder services and 0.75% is paid for distribution services. The plans provide that the R Class will pay ACIS an annual distribution and service fee of 0.50%. The fees are computed and accrued daily based on each class's daily net assets and paid monthly in arrears. The fees are used to pay financial intermediaries for distribution and individual shareholder services. Fees incurred under the plans during the period ended October 31, 2020 are detailed in the Statement of Operations.

**Directors' Fees and Expenses** — The Board of Directors is responsible for overseeing the investment advisor's management and operations of the fund. The directors receive detailed information about the fund and its investment advisor regularly throughout the year, and meet at least quarterly with management of the investment advisor to review reports about fund operations. The fund's officers do not receive compensation from the fund.

#### 4. Investment Transactions

Purchases of investment securities and securities sold short, excluding short-term investments, for the period ended October 31, 2020 totaled \$248,611,458, of which \$1,006,445 represented U.S. Treasury and Government Agency obligations.

Sales of investment securities and securities sold short, excluding short-term investments, for the period ended October 31, 2020 totaled \$389,855,847, of which \$7,919,543 represented U.S. Treasury and Government Agency obligations.

### **5. Capital Share Transactions**

Transactions in shares of the fund were as follows:

#### 6. Fair Value Measurements

The fund's investments valuation process is based on several considerations and may use multiple inputs to determine the fair value of the investments held by the fund. In conformity with accounting principles generally accepted in the United States of America, the inputs used to determine a valuation are classified into three broad levels.

- · Level 1 valuation inputs consist of unadjusted quoted prices in an active market for identical investments.
- Level 2 valuation inputs consist of direct or indirect observable market data (including quoted prices for comparable investments, evaluations of subsequent market events, interest rates, prepayment speeds, credit risk, etc.). These inputs also consist of quoted prices for identical investments initially expressed in local currencies that are adjusted through translation into U.S. dollars.
- Level 3 valuation inputs consist of unobservable data (including a fund's own assumptions).

The level classification is based on the lowest level input that is significant to the fair valuation measurement. The valuation inputs are not necessarily an indication of the risks associated with investing in these securities or other financial instruments.

The following is a summary of the level classifications as of period end. The Schedule of Investments provides additional information on the fund's portfolio holdings.

#### 7. Derivative Instruments

Credit Risk — The fund is subject to credit risk in the normal course of pursuing its investment objectives. The value of a bond generally declines as the credit quality of its issuer declines. Credit default swap agreements enable a fund to buy/sell protection against a credit event of a specific issuer or index. A fund may attempt to enhance returns by selling protection or attempt to mitigate credit risk by buying protection. The buyer/seller of credit protection against a security or basket of securities may pay/receive an up-front or periodic payment to compensate for/against potential default events. Changes in value, including the periodic amounts of interest to be paid or received on swap agreements, are recorded as unrealized appreciation (depreciation) on swap agreements. Upon entering into a centrally cleared swap, a fund is required to deposit cash or securities (initial margin) with a financial intermediary in an amount equal to a certain percentage of the notional amount. Subsequent payments (variation margin) are made or received daily, in cash, by a fund. The variation margin is equal to the daily change in the value and is a component of unrealized gains and losses. Realized gain or loss is recorded upon receipt or payment of a periodic settlement or termination of swap agreements. Net realized and unrealized gains or losses occurring during the holding period of swap agreements are a component of net realized gain (loss) on swap agreement transactions and change in net unrealized appreciation (depreciation) on swap agreements, respectively. The risks of entering into swap agreements include the possible lack of liquidity, failure of the counterparty to meet its obligations, and that there may be unfavorable changes in the underlying investments or instruments. The fund's average notional amount held during the period was \$18,784,583.

**Equity Price Risk** — The fund is subject to equity price risk in the normal course of pursuing its investment objectives. A fund may enter into futures contracts or option contracts based on an equity index or specific security in order to manage its exposure to changes in market conditions. The risks of entering into equity price risk derivative instruments include the possible lack of liquidity, failure of the counterparty to meet its obligations, and that there may be unfavorable changes in the underlying investments or instruments.

A fund may purchase or write an option contract to protect against declines in market value on the underlying index or security. A purchased option contract provides the fund a right, but not an obligation, to buy (call) or sell (put) an equity-related asset at a specified exercise price within a certain period or on a specific date. A written option contract holds the corresponding obligation to sell (call writing) or buy (put writing) the underlying equity-related asset if the purchaser exercises the option contract. The buyer pays the seller an initial purchase price (premium) for this right. Option contracts purchased by a fund are accounted for in the same manner as marketable portfolio securities. The premium received by a fund for option contracts written is recorded as a liability and valued daily. The proceeds from securities sold through the exercise of option contracts are decreased by the premium paid to purchase the option contracts. A fund may recognize a realized gain or loss when the option contract is closed, exercised or expires. Net realized and unrealized gains or losses occurring during the holding period of purchased options contracts are a component of net realized gain (loss) on investment transactions and change in net unrealized appreciation (depreciation) on investments, respectively. Net realized and unrealized gains or losses occurring during the holding period of written options contracts are a component of net realized gain (loss) on written options contract transactions and change in net unrealized appreciation (depreciation) on written options contracts, respectively. The fund's average exposure to these equity price risk derivative instruments held during the period was 126 written options contracts.

A fund may purchase futures contracts to gain exposure to increases in market value or sell futures contracts to protect against a decline in market value. Upon entering into a futures contract, a fund is required to deposit either cash or securities in an amount equal to a certain percentage of the contract value (initial margin). Subsequent payments (variation margin) are made or received daily, in cash, by a fund. The variation margin is equal to the daily change in the contract value and is recorded as unrealized gains and losses. A fund recognizes a realized gain or loss when the contract is closed or expires. Net realized and unrealized gains or losses occurring during the holding period of futures contracts are a component of net realized gain (loss) on futures contract transactions and change in net unrealized appreciation (depreciation) on futures contracts, respectively. One of the risks of entering into futures contracts is the possibility that the change in value of the contract may not correlate with the changes in value of the underlying securities. The fund's average notional exposure to these equity price risk derivative instruments held during the period was \$5,310,554 futures contracts purchased and \$10,215,695 futures contracts sold.

Foreign Currency Risk — The fund is subject to foreign currency exchange rate risk in the normal course of pursuing its investment objectives. The value of foreign investments held by a fund may be significantly affected by changes in foreign currency exchange rates. The dollar value of a foreign security generally decreases when the value of the dollar rises against the foreign currency in which the security is denominated and tends to increase when the value of the dollar declines against such foreign currency. A fund may enter into forward foreign currency exchange contracts to reduce a fund's exposure to foreign currency exchange rate fluctuations or to gain exposure to the fluctuations in the value of foreign currencies.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by a fund and the resulting unrealized appreciation or depreciation are determined daily. Realized gain or loss is recorded upon settlement of the contract. Net realized and unrealized gains or losses occurring during the holding period of forward foreign currency exchange contracts are a component of net realized gain (loss) on forward foreign currency exchange contract transactions and change in net unrealized appreciation (depreciation) on forward foreign currency exchange contracts, respectively. A fund bears the risk of an unfavorable change in the foreign currency exchange rate underlying the forward contract. Additionally, losses, up to the fair value, may arise if the counterparties do not perform under the contract terms. The fund's average U.S. dollar exposure to foreign currency risk derivative instruments held during the period was \$6,599,620.

Interest Rate Risk — The fund is subject to interest rate risk in the normal course of pursuing its investment objectives. The value of bonds generally declines as interest rates rise. A fund may enter into futures contracts based on a bond index or a specific underlying security. A fund may purchase futures contracts to gain exposure to increases in market value or sell futures contracts to protect against a decline in market value. Upon entering into a futures contract, a fund will segregate cash, cash equivalents or other appropriate liquid securities on its records in amounts sufficient to meet requirements. Subsequent payments (variation margin) are made or received daily, in cash, by a fund. The variation margin is equal to the daily change in the contract value and is recorded as unrealized gains and losses. A fund recognizes a realized gain or loss when the futures contract is closed or expires. Net realized and unrealized gains or losses occurring during the holding period of futures contracts are a component of net realized gain (loss) on futures contract transactions and change in net unrealized appreciation (depreciation) on futures contracts, respectively. One of the risks of entering into futures contracts is the possibility that the change in value of the contract may not correlate with the changes in value of the underlying securities. The fund's average notional exposure to interest rate risk derivative instruments held during the period was \$16,803,875 futures contracts purchased and \$9,207,606 futures contracts sold.

#### 8. Risk Factors

The value of the fund's shares will go up and down, sometimes rapidly or unpredictably, based on the performance of the companies whose securities it owns in its long portfolio, or in which the fund has taken a short position as well as other factors generally affecting the securities market. Market risks, including political, regulatory, economic and social developments, can affect the value of the fund's investments. Natural disasters, public health emergencies, terrorism and other unforeseeable events may lead to increased market volatility and may have adverse long-term effects on world economies and markets generally.

ACIM utilizes multiple subadvisors to manage the fund's assets, each employing its own particular investment strategy. Multi-manager strategies can increase the fund's portfolio turnover rate, which could result in higher levels of realized capital gains or losses, higher brokerage commissions and other transaction costs.

The fund's investments in secured and unsecured participations in bank loan obligations and assignments of such loans may create substantial risk. The market for bank loans may not be highly liquid and the fund may have difficulty selling them. The fund's bank loan investments typically will result in the fund having a contractual relationship only with the lender, not with the borrower. In connection with purchasing loan participations, the fund generally will have no right to enforce compliance by borrowers with loan terms nor any set off rights, and the fund may not benefit directly from any posted collateral. As a result, the fund may be subject to the credit risk of both the borrower and the lender selling the participation.

The fund may invest in collateralized debt obligations, collateralized loan obligations and other related instruments. Collateralized debt obligations are subject to credit, interest rate, valuation, and prepayment and extension risks. These securities also are subject to risk of default on the underlying asset, particularly during periods of economic downturn.

The fund's investment process may result in high portfolio turnover, which could mean high transaction costs, affecting both performance and capital gains tax liabilities to investors.

There are certain risks involved in investing in foreign securities. These risks include those resulting from political events (such as civil unrest, national elections and imposition of exchange controls), social and economic events (such as labor strikes and rising inflation), and natural disasters. Securities of foreign issuers may be less liquid and more volatile. Investing in emerging markets or a significant portion of assets in one country or region may accentuate these risks.

Issuers of high-yield securities (also known as "junk bonds") are more vulnerable to real or perceived economic changes (such as an economic downturn or a prolonged period of rising interest rates), political changes or adverse developments specific to an issuer. These factors may be more likely to cause an issuer of low quality bonds to default on its obligations.

The fund may also be subject to liquidity risk. During periods of market turbulence or unusually low trading activity, in order to meet redemptions it may be necessary for the fund to sell securities at prices that could have an adverse effect on the fund's share price.

Mortgage-related and other asset-backed securities are subject to additional risks including prepayment and extension risk. Mortgage-backed securities offered by non-governmental issuers are subject to specific risks, such as the failure of private insurers to meet their obligations and unexpectedly high rates of default on the mortgages backing the securities. Other asset-backed securities are subject to risks similar to those associated with mortgage-backed securities, as well as risks associated with the nature and servicing of the assets underlying the securities. Asset-backed securities may not have the benefit of a security interest in collateral comparable to that of mortgage assets, resulting in additional credit risk.

The fund may invest in instruments that have variable or floating coupon rates based on the London Interbank Offered Rate (LIBOR). LIBOR is a benchmark interest rate intended to be representative of the rate at which certain major international banks lend to one another over short-terms. LIBOR will be phased out by the end of 2021. Uncertainty remains regarding a replacement rate or rates for LIBOR. The transition process may lead to increased volatility or illiquidity in markets for instruments that rely on LIBOR. This could result in a change to the value of such instruments.

#### 9. Federal Tax Information

The tax character of distributions paid during the years ended October 31, 2020 and October 31, 2019 were as follows:

	2020	2019
Distributions Paid From		
Ordinary income	\$ 8,623,927 \$	10,321,632
Long-term capital gains	_	_

The book-basis character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for federal income tax purposes. These differences reflect the differing character of certain income items and net realized gains and losses for financial statement and tax purposes, and may result in reclassification among certain capital accounts on the financial statements.

As of period end, the federal tax cost of investments and the components of distributable earnings on a taxbasis were as follows:

Federal tax cost of investments	\$ 96,744,971
Gross tax appreciation of investments	\$ 1,575,791
Gross tax depreciation of investments	(7,847,365)
Net tax appreciation (depreciation) of investments	(6,271,574)
Gross tax appreciation on securities sold short	51,995
Gross tax depreciation on securities sold short	(797,648)
Net tax appreciation (depreciation) on derivatives and translation of assets and liabilities in foreign currencies	17,830
Net tax appreciation (depreciation)	\$ (6,999,397)
Undistributed ordinary income	\$ 765,183
Accumulated short-term capital losses	\$ (21,822,957)
Accumulated long-term capital losses	\$ (16,852,233)

The difference between book-basis and tax-basis unrealized appreciation (depreciation) is attributable primarily to the tax deferral of losses on wash sales.

Accumulated capital losses represent net capital loss carryovers that may be used to offset future realized capital gains for federal income tax purposes. The capital loss carryovers may be carried forward for an unlimited period. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

#### 10. Subsequent Event

On December 2, 2020, the Board of Directors approved a plan of liquidation for the fund. The liquidation date is expected to be February 26, 2021.

### **Notes to Financial Highlights**

- (1) Computed using average shares outstanding throughout the period.
- (2) Total returns are calculated based on the net asset value of the last business day and do not reflect applicable sales charges, if any. Total returns for periods less than one year are not annualized.
- (3) Per-share amount was less than \$0.005.
- (4) April 10, 2017 (commencement of sale) through October 31, 2017.
- (5) Annualized.
- (6) Portfolio turnover is calculated at the fund level. Percentage indicated was calculated for the year ended October 31, 2017.

See Notes to Financial Statements.

### Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of American Century Capital Portfolios, Inc.:

### Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of AC Alternatives Income Fund (the "Fund"), one of the funds constituting the American Century Capital Portfolios, Inc., as of October 31, 2020, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of AC Alternatives Income Fund of the American Century Capital Portfolios, Inc. as of October 31, 2020, and the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of October 31, 2020, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

### **DELOITTE & TOUCHE LLP**

Kansas City, Missouri December 16, 2020

We have served as the auditor of one or more American Century investment companies since 1997.

### Management

### The Board of Directors

The individuals listed below serve as directors of the funds. Each director will continue to serve in this capacity until death, retirement, resignation or removal from office. The board has adopted a mandatory retirement age for directors who are not "interested persons," as that term is defined in the Investment Company Act (independent directors). Independent directors shall retire by December 31 of the year in which they reach their 75<sup>th</sup> birthday.

Mr. Thomas is an "interested person" because he currently serves as President and Chief Executive Officer of American Century Companies, Inc. (ACC), the parent company of American Century Investment Management, Inc. (ACIM or the advisor). The other directors (more than three-fourths of the total number) are independent. They are not employees, directors or officers of, and have no financial interest in, ACC or any of its wholly owned, direct or indirect, subsidiaries, including ACIM, American Century Investment Services, Inc. (ACIS) and American Century Services, LLC (ACS), and they do not have any other affiliations, positions or relationships that would cause them to be considered "interested persons" under the Investment Company Act. The directors serve in this capacity for seven (in the case of Jonathan S. Thomas, 16; and Stephen E. Yates, 8) registered investment companies in the American Century Investments family of funds.

The following table presents additional information about the directors. The mailing address for each director is 4500 Main Street, Kansas City, Missouri 64111.

Name (Year of Birth)	Position(s) Held with Funds	Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of American Century Portfolios Overseen by Director	Other Directorships Held During Past 5 Years
Independent Di	irectors				
Thomas W. Bunn (1953)	Director	Since 2017	Retired	62	SquareTwo Financial; Barings (formerly Babson Capital Funds Trust) (2013 to 2016)
Chris H. Cheesman (1962)	Director	Since 2019	Retired. Senior Vice President & Chief Audit Executive, AllianceBernstein (1999 to 2018)	62	None
Barry Fink (1955)	Director	Since 2012 (independent since 2016)	Retired	62	None
Rajesh K. Gupta (1960)	Director	Since 2019	Partner Emeritus, SeaCrest Investment Management and SeaCrest Wealth Management (2019 to present); Chief Executive Officer and Chief Investment Officer, SeaCrest Investment Management (2006 to 2019); Chief Executive Officer and Chief Investment Officer, SeaCrest Wealth Management (2008 to 2019)	62	None

Name (Year of Birth)	Position(s) Held with Funds	Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of American Century Portfolios Overseen by Director	Other Directorships Held During Past 5 Years

Jan M. Lewis (1957)	Director	Since 2011	Retired	62	None	
John R. Whitten (1946)	Director	Since 2008	Retired	62	Onto Innovation Inc. (2019 to 2020); Rudolph Technologies, Inc. (2006 to 2019)	
Stephen E. Yates (1948)	Director and Chairman of the Board	Since 2012 (Chairman since 2018)	Retired	87	None	
Interested Director						
Jonathan S. Thomas (1963)	Director	Since 2007	President and Chief Executive Officer, ACC (2007 to present). Also serves as Chief Executive Officer, ACS; Executive Vice President, ACIM; Director, ACC, ACIM and other ACC subsidiaries	125	None	

The Statement of Additional Information has additional information about the fund's directors and is available without charge, upon request, by calling 1-800-345-2021.

### Officers

The following table presents certain information about the executive officers of the funds. Each officer serves as an officer for each of the 16 (in the case of Robert J. Leach, 15) investment companies in the American Century family of funds. No officer is compensated for his or her service as an officer of the funds. The listed officers are interested persons of the funds and are appointed or re-appointed on an annual basis. The mailing address for each officer listed below is 4500 Main Street, Kansas City, Missouri 64111.

Name	000	
(Year of Birth)	Offices with the Funds	Principal Occupation(s) During the Past Five Years
Patrick Bannigan (1965)	President since 2019	Executive Vice President and Director, ACC (2012 to present); Chief Financial Officer, Chief Accounting Officer and Treasurer, ACC (2015 to present). Also serves as President, ACS; Vice President, ACIM; Chief Financial Officer, Chief Accounting Officer and/or Director, ACIM, ACS and other ACC subsidiaries
R. Wes Campbell (1974)	Chief Financial Officer and Treasurer since 2018	Vice President, ACS, (2020 to present); Investment Operations and Investment Accounting, ACS (2000 to present)
Amy D. Shelton (1964)	Chief Compliance Officer and Vice President since 2014	Chief Compliance Officer, American Century funds, (2014 to present); Chief Compliance Officer, ACIM (2014 to present); Chief Compliance Officer, ACIS (2009 to present). Also serves as Vice President, ACIS
Charles A. Etherington (1957)	General Counsel since 2007 and Senior Vice President since 2006	Attorney, ACC (1994 to present); Vice President, ACC (2005 to present); General Counsel, ACC (2007 to present). Also serves as General Counsel, ACIM, ACS, ACIS and other ACC subsidiaries; and Senior Vice President, ACIM and ACS
C. Jean Wade (1964)	Vice President since 2012	Senior Vice President, ACS (2017 to present); Vice President, ACS (2000 to 2017)
Robert J. Leach (1966)	Vice President since 2006	Vice President, ACS (2000 to present)
David H. Reinmiller (1963)	Vice President since 2000	Attorney, ACC (1994 to present). Also serves as Vice President, ACIM and ACS
Ward D. Stauffer (1960)	Secretary since 2005	Attorney, ACC (2003 to present)

## Approval of Management and Subadvisory Agreements

At a meeting held on June 24, 2020, the Fund's Board of Directors (the "Board") unanimously approved the renewal of the management agreement pursuant to which American Century Investment Management, Inc. (the "Advisor") acts as the investment advisor for the Fund. The Board also unanimously approved the renewal of the subadvisory agreements between the Advisor and each of the Fund's underlying subadvisors (collectively, the "Subadvisory Agreements"). The underlying subadvisors approved by the Board were Perella Weinberg Partners Capital Management LP, ArrowMark Colorado Holdings, LLC; Good Hill Partners LP; and Marathon Asset Management, L.P. (each a "Subadvisor," and collectively, the "Subadvisors). Under Section 15(c) of the Investment Company Act, contracts for investment advisory services (including subadvisory services) are required to be reviewed, evaluated, and approved by a majority of a fund's directors (the "Directors"), including a majority of the independent Directors, each year.

The Fund is a multi-manager fund, which means that the Advisor has retained several subadvisors, each employing its own particular investment strategy, to manage and make investment decisions with respect to the Fund's assets.

Prior to its consideration of the renewal of the management agreement and Subadvisory Agreements, the Directors requested and reviewed extensive data and information compiled by the Advisor and certain independent providers of evaluation data concerning the Fund and the services provided to the Fund by the Advisor and each Subadvisor. This review was in addition to the oversight and evaluation undertaken by the Board and its committees on a continual basis and the information received was supplemental to the extensive information that the Board and its committees receive and consider throughout the year.

In connection with its consideration of the renewal of the management agreement and the Subadvisory Agreements, the Board's review and evaluation of the services provided by the Advisor included, but was not limited to, the following:

- the nature, extent, and quality of investment management, shareholder services, and other services provided and to be provided to the Fund;
- the wide range of other programs and services provided and to be provided to the Fund and its shareholders on a routine and non-routine basis:
- the Fund's investment performance, including data comparing the Fund's performance to appropriate benchmarks and/or a peer group of other mutual funds with similar investment objectives and strategies;
- the cost of owning the Fund compared to the cost of owning similar funds;
- the compliance policies, procedures, and regulatory experience of the Advisor, the Subadvisors and the Fund's service providers;
- · the Advisor's strategic plans;
- the Advisor's business continuity plans and specifically its response to the COVID-19 pandemic;
- financial data showing the cost of services provided to the Fund, the profitability of the Fund to the Advisor, and the overall profitability of the Advisor;
- possible economies of scale associated with the Advisor's management of the Fund and other accounts;
- services provided and charges to the Advisor's other investment management clients;
- acquired fund fees and expenses;
- payments and practices in connection with financial intermediaries holding shares of the Fund and the services provided by intermediaries in connection therewith; and
- possible collateral benefits to the Advisor from the management of the Fund.

The Board held two meetings to consider the renewal. The independent Directors also met in private session three times to review and discuss the information provided in response to their request. The independent Directors held active discussions with the Advisor regarding the renewal

of the management agreement, requesting supplemental information, and reviewing information provided by the Advisor in response thereto. The independent Directors had the benefit of the advice of their independent counsel throughout the process.

#### **Factors Considered**

The Directors considered all of the information provided by the Advisor, the independent data providers, and independent counsel in connection with the approval. They determined that the information was sufficient for them to evaluate the management agreement and the Subadvisory Agreements for the Fund. In connection with their review, the Directors did not identify any single factor as being all-important or controlling, and each Director may have attributed different levels of importance to different factors. In deciding to renew the management agreement and Subadvisory Agreements, the Board based its decision on a number of factors, including without limitation the following:

**Nature, Extent and Quality of Services — Generally.** Under the management agreement, the Advisor is responsible for providing or arranging for all services necessary for the operation of the Fund. The Board noted that the Advisor provides or arranges at its own expense a wide variety of services including without limitation the following:

- constructing and designing the Fund
- portfolio research and security selection
- initial capitalization/funding
- securities trading
- Fund administration
- custody of Fund assets
- daily valuation of the Fund's portfolio
- shareholder servicing and transfer agency, including shareholder confirmations, recordkeeping, and communications
- legal services (except the independent Directors' counsel)
- · regulatory and portfolio compliance
- · financial reporting
- marketing and distribution (except amounts paid by the Fund under Rule 12b-1 plans)

The Board noted that many of these services have expanded over time in terms of both quantity and complexity in response to shareholder demands, competition in the industry, changing distribution channels, and the changing regulatory environment.

Investment Management Services. The nature of the investment management services provided to the Fund is quite complex and allows Fund shareholders access to professional money management, instant diversification of their investments within an asset class, the opportunity to easily diversify among asset classes by investing in or exchanging among various American Century Investments funds, and liquidity. In evaluating investment performance, the Board expects the Advisor and Subadvisors to manage the Fund in accordance with its investment objectives and approved strategies. Further, the Directors recognize that the Advisor has an obligation to monitor trading activities, and in particular to seek the best execution of fund trades, and to evaluate the use of and payment for research. In providing these services, the Advisor and Subadvisors utilize teams of investment professionals (portfolio managers, analysts, research assistants, and securities traders) who require extensive information technology, research, training, compliance, and other systems to conduct their business. The Board, directly and through its Fund Performance Review Committee, provides oversight of the investment performance process. It regularly reviews investment performance information for the Fund, together with comparative information for appropriate benchmarks and/or peer groups of similarly-managed funds, over different time horizons. The Directors also review investment performance information during the management agreement renewal process. If performance concerns are identified, the Fund receives special reviews until performance improves, during which the Board discusses with the Advisor the reasons for such results (e.g., market conditions, security selection) and any efforts being undertaken to improve performance. The Fund's performance was above its benchmark for the

one-, and three-year periods reviewed by the Board. The Board found the investment management services provided by the Advisor to the Fund to be satisfactory and consistent with the management agreement and Subadvisory Agreements.

Shareholder and Other Services. Under the management agreement, the Advisor provides the Fund with a comprehensive package of transfer agency, shareholder, and other services. The Board, directly and through its various committees, regularly reviews reports and evaluations of such services at its regular meetings. These reports include, but are not limited to, information regarding the operational efficiency and accuracy of the shareholder and transfer agency services provided, staffing levels, shareholder satisfaction, technology support (including cyber security), new products and services offered to Fund shareholders, securities trading activities, portfolio valuation services, auditing services, and legal and operational compliance activities. The Board found the services provided by the Advisor to the Fund under the management agreement to be competitive and of high quality.

**COVID-19 Response.** During 2020, much of the world experienced unprecedented change and challenges from the impacts of the rapidly evolving, worldwide spread of the COVID-19 virus. The Board evaluated the Advisor's response to the COVID-19 pandemic and its impact on service to the Fund. The Board found that Fund shareholders have continued to receive the Advisor's investment management and other services without disruption, and Advisor personnel have demonstrated great resiliency in providing those services. The Board, directly and through its Audit Committee, continues to monitor the impact of the pandemic and the response of each of the Fund's service providers.

Costs of Services and Profitability. The Advisor provides detailed information concerning its cost of providing various services to the Fund, its profitability in managing the Fund (pre- and post-distribution), its overall profitability, and its financial condition. The Directors have reviewed with the Advisor the methodology used to prepare this financial information. This information is considered in evaluating the Advisor's financial condition, its ability to continue to provide services under the management agreement, and the reasonableness of the current management fee. The Board concluded that the Advisor's profits were reasonable in light of the services provided to the Fund. The Board did not consider the profitability of the Subadvisors because each Subadvisor is paid from the unified management fee of the Advisor as a result of arms' length negotiations.

**Ethics.** The Board generally considers the Advisor's commitment to providing quality services to shareholders and to conducting its business ethically. They noted that the Advisor's practices generally meet or exceed industry best practices. With respect to each Subadvisor, as part of their oversight responsibilities, the Board approves each Subadvisor's code of ethics and any changes thereto. Further, through the Advisor's compliance group, the Board stays abreast of any violations of a Subadvisor's code.

**Economies of Scale.** The Board also reviewed information provided by the Advisor regarding the possible existence of economies of scale in connection with the management of the Fund. The Board concluded that economies of scale are difficult to measure and predict with precision, especially on a fund-by-fund basis. The Board concluded that the Advisor is appropriately sharing economies of scale, to the extent they exist, through its competitive fee structure, offering competitive fees from fund inception, and through reinvestment in its business, infrastructure, investment capabilities and initiatives to provide shareholders additional content and services.

Comparison to Other Funds' Fees. The management agreement provides that the Fund pays the Advisor a single, all-inclusive (or unified) management fee for providing all services necessary for the management and operation of the Fund, other than brokerage expenses, expenses attributable to short sales, taxes, interest, extraordinary expenses, fees and expenses of the Fund's independent Directors (including their independent legal counsel), and expenses incurred in connection with the provision of shareholder services and distribution services under a plan adopted pursuant to Rule 12b-1 under the Investment Company Act. The Board specifically noted that the subadvisory fee paid to each Subadvisor under the Subadvisory Agreements, as well as

the terms of the Subadvisory Agreements, were subject to an arms' length negotiation between the Advisor and each Subadvisor and are paid by the Advisor out of its unified management fee.

Under the unified fee structure, the Advisor is responsible for providing all investment advisory. custody, audit, administrative, compliance, recordkeeping, marketing and shareholder services, or arranging and supervising third parties to provide such services. By contrast, most other funds are charged a variety of fees, including an investment advisory fee, a transfer agency fee, an administrative fee, distribution charges, and other expenses. Other than their investment advisory fees and any applicable Rule 12b-1 distribution fees, all other components of the total fees charged by these other funds may be increased without shareholder approval. The Board believes the unified fee structure is a benefit to Fund shareholders because it clearly discloses to shareholders the cost of owning Fund shares, and, since the unified fee cannot be increased without a vote of Fund shareholders, it shifts to the Advisor the risk of increased costs of operating the Fund and provides a direct incentive to minimize administrative inefficiencies. Part of the Board's analysis of fee levels involves reviewing certain evaluative data compiled by an independent provider comparing the Fund's unified fee to the total expense ratios of its peers. The unified fee charged to shareholders of the Fund was above the median of the total expense ratios of the Fund's peer expense universe and was within the range of its peer expense group. The Board and the Advisor agreed to a temporary reduction of the Fund's annual unified management fee of 0.14% (e.g., the Investor Class unified fee will be reduced from 1.70% to 1.56%) for at least one year, beginning August 1, 2020. The Board concluded that the management fee paid by the Fund to the Advisor under the management agreement is reasonable in light of the services provided to the Fund.

Comparison to Fees and Services Provided to Other Clients of the Advisor. The Board also requested and received information from the Advisor concerning the nature of the services, fees, costs, and profitability of its advisory services to advisory clients other than the Fund. They observed that these varying types of client accounts require different services and involve different regulatory and entrepreneurial risks than the management of the Fund. The Board analyzed this information and concluded that the fees charged and services provided to the Fund were reasonable by comparison.

Payments to Intermediaries. The Directors also requested and received a description of payments made to intermediaries by the Fund and the Advisor and services provided in response thereto. These payments include various payments made by the Fund or the Advisor to different types of intermediaries and recordkeepers for distribution and service activities provided for the Fund. The Directors reviewed such information and received representations from the Advisor that all such payments by the Fund were made pursuant to the Fund's Rule 12b-1 Plan and that all such payments by the Advisor were made from the Advisor's resources and reasonable profits. The Board found such payments to be reasonable in scope and purpose.

Collateral or "Fall-Out" Benefits Derived by the Advisor. The Board considered the possible existence of collateral benefits the Advisor may receive as a result of its relationship with the Fund. They concluded that the Advisor's primary business is managing mutual funds and it generally does not use fund or shareholder information to generate profits in other lines of business, and therefore does not derive any significant collateral benefits from them. To the extent there are potential collateral benefits, the board has been advised and has taken this into consideration in its review of the management contract with the Fund. The Board noted that additional assets from other clients may offer the Advisor some benefit from increased leverage with service providers and counterparties. Additionally, the Advisor may receive proprietary research from broker-dealers that execute fund portfolio transactions, which the Board concluded is likely to benefit other clients of the Advisor, as well as Fund shareholders. The Board also determined that the Advisor is able to provide investment management services to certain clients other than the Fund, at least in part, due to its existing infrastructure built to serve the fund complex. The Board concluded that appropriate allocation methodologies had been employed to assign resources and the cost of those resources to these other clients.

Existing Relationship. The Board also considered whether there was any reason for not

continuing the existing arrangement with the Advisor. In this regard, the Board was mindful of the potential disruptions of the Fund's operations and various risks, uncertainties, and other effects that could occur as a result of a decision not to continue such relationship. In particular, the Board recognized that most shareholders have invested in the Fund on the strength of the Advisor's industry standing and reputation and in the expectation that the Advisor will have a continuing role in providing advisory services to the Fund.

**Conclusion of the Directors.** As a result of this process, the Board, including all of the independent Directors, taking into account all of the factors discussed above and the information provided by the Advisor and others in connection with its review and throughout the year, determined that the management fee is fair and reasonable in light of the services provided and that the investment management agreement between the Fund and the Advisor, as well as the Subadvisory Agreements with each Subadvisor, should be renewed.

# Additional Information

#### **Retirement Account Information**

As required by law, distributions you receive from certain retirement accounts are subject to federal income tax withholding, unless you elect not to have withholding apply\*. Tax will be withheld on the total amount withdrawn even though you may be receiving amounts that are not subject to withholding, such as nondeductible contributions. In such case, excess amounts of withholding could occur. You may adjust your withholding election so that a greater or lesser amount will be withheld.

If you don't want us to withhold on this amount, you must notify us to not withhold the federal income tax. You may notify us in writing or in certain situations by telephone or through other electronic means. For systematic withdrawals, your withholding election will remain in effect until revoked or changed by filing a new election. You have the right to revoke your election at any time and change your withholding percentage for future distributions.

Remember, even if you elect not to have income tax withheld, you are liable for paying income tax on the taxable portion of your withdrawal. If you elect not to have income tax withheld or you don't have enough income tax withheld, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient. You can reduce or defer the income tax on a distribution by directly or indirectly rolling such distribution over to another IRA or eligible plan. You should consult your tax advisor for additional information.

State tax will be withheld if, at the time of your distribution, your address is within one of the mandatory withholding states and you have federal income tax withheld (or as otherwise required by state law). State taxes will be withheld from your distribution in accordance with the respective state rules.

\*Some 403(b), 457 and qualified retirement plan distributions may be subject to 20% mandatory withholding, as they are subject to special tax and withholding rules. Your plan administrator or plan sponsor is required to provide you with a special tax notice explaining those rules at the time you request a distribution. If applicable, federal and/or state taxes may be withheld from your distribution amount.

### **Proxy Voting Policies**

A description of the policies that the fund's investment advisor uses in exercising the voting rights associated with the securities purchased and/or held by the fund is available without charge, upon request, by calling 1-800-345-2021. It is also available on American Century Investments' website at americancentury.com/proxy and on the Securities and Exchange Commission's website at sec.gov. Information regarding how the investment advisor voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on americancentury.com/proxy. It is also available at sec.gov.

### **Quarterly Portfolio Disclosure**

The fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The fund's Form N-PORT reports are available on the SEC's website at sec.gov. The fund also makes its complete schedule of portfolio holdings for the most recent quarter of its fiscal year available on its website at americancentury.com and, upon request, by calling 1-800-345-2021.

### Other Tax Information

The following information is provided pursuant to provisions of the Internal Revenue Code.

The fund hereby designates up to the maximum amount allowable as qualified dividend income for the fiscal year ended October 31, 2020.

For corporate taxpayers, the fund hereby designates \$508,124, or up to the maximum amount allowable, of ordinary income distributions paid during the fiscal year ended October 31, 2020 as qualified for the corporate dividends received deduction.
