#### ARCHER FUNDS

#### MANAGERS COMMENTARY

AUGUST 31, 2020 (UNAUDITED)

To Our Shareholders,

# **Archer Balanced Fund (ARCHX)**

The Archer Balanced fund had a total return of 5.79% for the Year ended August 31, 2020 and 4.87% since inception (September 27, 2005) compared to a total return of 10.48% and 7.41% for the Dow Jones Moderate U.S. Portfolio Index, over the same periods.

## **Performance Review**

We have been pleased with the performance of the Archer Balanced Fund for the past year. The Fund maintained a balance of approximately 65% equities and 35% fixed income throughout the year. The Fund's investment style has remained consistent within both equities and fixed income by maintaining a tilt towards large-cap value in equities and short- to intermediate-term investment grade companies in fixed income. The managers continue to believe the conservative positioning of the Fund is prudent for the style and will reward shareholders over the long term.

## **Equity Portfolio**

We continue to focus our efforts on holding companies with sound balance sheets, steady revenue sources, strong cash flow, and reasonable valuations. We have also leaned towards companies with stable dividend policies as those returns to shareholders are a positive contributor to long-term performance. During the year, especially since the start of the pandemic, a relatively small number of "growth" stocks accounted for much of the positive performance of popular indices, including the equity component of our benchmark index. Technology companies have benefitted from a tremendous amount of investor optimism stretching the valuation of many companies to levels not seen since the late 1990s. The performance and valuation differentials between growth and value continue to sit near all-time highs. We believe that these differentials will narrow and that the market will begin to recognize the value present in several beaten down sectors and companies. We continue to adjust our equity portfolio to changing market conditions and look to reduce risk in the overall portfolio by managing sector and position weightings as market conditions and valuations warrant. The fund maintains significant weighting in certain segments of the Financial, Healthcare, and Technology sectors.

# **Fixed-Income Portfolio**

The fund has maintained a relatively short-term, high quality position. Although it is becoming quite clear that the general level of interest rates may stay low for several years, the managers believe that the risk added to the portfolio by lengthening duration and/or reducing credit quality does not offer material compensation. We continue to focus on value, sustainability, and patience and we believe it is prudent to avoid strategies that risk the destruction of principal in order to capture short-term income. A more active Federal Reserve has added to volatility in the fixed income markets. Many companies have weakened their balance sheets by issuing debt over the past several years to fund more stockholder friendly actions. We feel it is prudent to maintain a more defensive posture by overweighting short- to intermediate-term maturities and keeping a close eye on the credit quality of issuers. This position may cause periods of short-term relative underperformance but reduces volatility and allows the managers to take advantage of opportunities when the market presents them.

#### ARCHER FUNDS

## MANAGERS COMMENTARY (CONTINUED)

AUGUST 31, 2020 (UNAUDITED)

#### **Current Strategy**

We will continue to monitor the performance of each security on a case by case basis relative to our estimate of fair value. When we feel the market value of a specific security is beyond a reasonable valuation for the company, we will discontinue holding that security or significantly reduce the size of the position. There may be companies that have positive outlooks, but we feel the valuation becomes too high to justify staying in at those levels. If we feel the valuation returns to a "buying" level, then we may re-enter into stocks we have once sold.

While investing in the markets, it is important to focus on buying companies with long-term horizons, using a strict fundamental valuation of an individual company and not buying sectors or stocks because they are currently hot. All shareholders are encouraged to invest in the Fund over a long-term horizon.

The fund managers of the Archer Balanced Fund will continue to invest their own dollars in the Fund's we manage to better align our interests with those we serve. Our investment strategy does not change and remains focused on uncovering value over the long term. We believe this portfolio is well positioned and we are confident that our disciplined process will reward our shareholders going forward. As always, we welcome any comments or questions from shareholders at any time.

The views expressed are those of the investment advisor as of August 31, 2020 and are not intended as a forecast or investment recommendation.

# Archer Stock Fund (ARSKX)

The Archer Stock Fund posted a return of 24.99% for the year ended August 31, 2020 and 8.95% since inception of March 11, 2011. This compared to a gain of 21.94% for the S&P 500 Index and 13.30% since inception.

## **Performance Review**

The Archer Stock Fund seeks to maximize capital appreciation by investing in the most attractive equity investment opportunities regardless of company size, sector, industry, or country domicile. Although managers closely monitor macro-economic conditions, positions in the fund are normally selected on their own merits using company fundamentals and valuation as a guide. There will be times when this method of selecting securities may lead to the relative over- or underweighting of particular sectors. The fund currently maintains relatively large weightings in healthcare, technology, and consumer cyclical companies. A number of our technology, communication, and telemedicine holdings had exceptionally strong performance during the year as businesses and individuals began to adjust to the pandemic. Recently, our several infrastructure and financial holdings have been rewarded as other investors have recognized their steeply discounted valuations. As of August 31, 2020, the Fund held 48 equity positions and a roughly 1% cash position. Although there may be times when the Fund holds greater or fewer positions, the managers will strive to limit the holdings of the Fund to 50 holdings. This results in a relatively concentrated portfolio which can lead to periods of relative underperformance but will reduce turnover of the portfolio in an attempt to create long-term shareholder value. We continue to seek out companies with strong balance sheets and the opportunity to improve sales and earnings over the long term.

#### ARCHER FUNDS

## MANAGERS COMMENTARY (CONTINUED)

AUGUST 31, 2020 (UNAUDITED)

#### **Archer Income Fund (ARINX)**

The Archer Income Fund returned 2.93% for the year ended August 31, 2020 and 3.02% from the date of inception on March 11, 2011 compared to a gain of 6.47% and 3.92% for the year ended and since inception for the Barclay's Capital US Aggregate Bond Index and 6.39% and 4.12% for the year ended and since inception for the Barclay's Intermediate Credit Index.

#### **Performance Review**

The Fund opened in March of 2011 and has turned in positive returns during what we would characterize as a volatile market for bond investors since the date of inception. The bond market continues to present investors with many challenges. Rates, which were expected to continue to rise as inflation concerns built and monetary policy became more restrictive, quickly reversed to the downside as trade related concerns grew throughout the year forcing the Federal Reserve to ease policy. This trend accelerated as the pandemic took hold and policy makers were forced to provide fiscal stimulus while the Federal Reserve has promised to keep rates at, or near, zero percent for the foreseeable future.

We believe one advantage we have over many of our counterpart funds is we plan to hold our positions until they mature. We have not seen the level outflow of many other bond mutual funds as reported in the news. In fact, we continue to have inflows into all our funds which has given us a distinct advantage of not having to liquidate positions at a gain or loss. As rates have declined, longer-term bonds have increased in value materially. The managers believe it is prudent to continue to position the portfolio to protect against interest-rate, default and currency risks. Our "barbell" approach has allowed us to take advantage of several opportunities presented when others have been forced to sell at attractive discounts, while maintaining liquidity and an effective duration lower than that of our benchmark indices.

## **Archer Dividend Growth Fund (ARDGX)**

The Archer Dividend Growth Fund returned -7.87% for the year ended August 31, 2020 and 1.71% from the date of inception on September 1, 2016 compared to a gain of 1.26% and 7.14% for the year ended and since inception for the Dow Jones US Large-Cap Value Total Stock Market Index and -8.62% and 0.80% for the year ended and since inception for the Morningstar Dividend Yield Focus Index.

The Archer Dividend Growth Fund invests primarily in large and medium sized companies which we believe will provide long-term dividend payment growth for shareholders. Holdings are weighted towards companies with strong balance sheets and consistently increasing payouts to shareholders selling at an attractive discount to our estimate of fair value. This relatively deep value strategy has underperformed the broader market in recent years as the performance of many popular indices has been driven by an increasingly small number of high growth companies. The performance differential widened significantly during much of the year as high growth technology and biotechnology companies attracted investor dollars away from the more stable, dividend paying, value segments of the market. Recently, the spread has begun to narrow as investors have begun to recognize the value of stable cash flows and predictable business models.

#### ARCHER FUNDS

## MANAGERS COMMENTARY (CONTINUED)

AUGUST 31, 2020 (UNAUDITED)

Ultimately, we believe value will be recognized in our holdings and offer attractive appreciation in addition to the growing dividend income stream. We believe the Archer Dividend Growth Fund offers an attractive alternative to investors seeking monthly income who are concerned about inflation and the erosion of real income.

## Archer Focus Fund (AFOCX) and Archer Multi Cap Fund (ALSMX)

The Archer Focus Fund and the Archer Multi Cap Fund were both launched on December 31, 2019 and have not yet recorded a full year of investment performance. Since Inception, the Focus Fund has returned 3.96% compared to 1.57% for the Dow Jones Industrial Average and 10.07% for the Standard and Poor's 500 Index over the same period of time. The Multi cap Fund has returned 3.55% since inception relative to 10.07% for the Standard and Poor's 500 Index, -10.80% for the S&P 600 Small Cap Index, and -5.43% for the S&P 400 Mid Cap Index over the same period of time.

The Archer Focus Fund seeks long-term growth of capital by investing in financially sound, large and medium-sized companies with dominant franchises. Under normal conditions, the Fund holds a relatively concentrated portfolio of 50 or fewer US common stocks. Potential investments are carefully screened for balance sheet strength, sustainable earnings and free cash flow, and durable market position.

The Archer Multi Cap Fund seeks long-term growth of capital by investing in up to 75 equity positions split evenly between the top 25 small, medium, and large publicly traded US companies at the beginning of each calendar year based on market capitalization. Position sizes are adjusted throughout the year driven by our proprietary quantitative and technical models and rebalanced annually.

### NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2020

### NOTE 1. ORGANIZATION

The Archer Investment Series Trust, an Ohio business trust (the "Trust"), is an open-end, diversified, investment management company established under the laws of Ohio by an Agreement and Declaration of Trust dated October 7, 2009 (the "Trust Agreement"). The Trust Agreement permits the Board of Trustees (the "Board") to issue an unlimited number of shares of beneficial interest of separate series. The Trust currently consists of six funds: The Archer Balanced Fund (the "Balanced Fund"), the Archer Income Fund (the "Income Fund"), the Archer Stock Fund (the "Stock Fund"), the Archer Dividend Growth Fund (the "Dividend Growth Fund"), the Archer Focus Fund (the "Focus Fund), and the Archer Multi Cap Fund (the "Multi Cap Fund) (collectively referred to as the "Funds").

The Balanced Fund commenced operations on September 27, 2005. The investment objective of the Balanced Fund is total return. Total return is comprised of both income and capital appreciation. The Income Fund and the Stock Fund each commenced investment operations on March 11, 2011. The investment objective of the Income Fund is income while secondarily striving for capital appreciation. The investment objective of the Stock Fund is capital appreciation. The Archer Dividend Growth Fund commenced operations on September 1, 2016. The investment objective of the Dividend Growth Fund is to provide income and, as a secondary focus, long-term capital appreciation. The Focus Fund and Multi Cap Fund each commenced operations on December 30, 2019. The investment objective of the Focus Fund is long-term growth of capital. The investment objective of the Multi Cap Fund is long-term growth of capital. The investment advisor to the Funds is Archer Investment Corporation, Inc. (the "Advisor"). See Note 5 for additional information regarding the Advisor.

### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed by the Funds in the preparation of their financial statements. The Funds are investment companies that follow the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to investment companies.

Securities Valuation – All investments in securities are recorded at their estimated fair value as described in Note 3.

Federal Income Taxes- The Funds make no provision for federal income or excise tax. The Funds intend to qualify each year as "regulated investment companies" ("RIC") under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of their taxable income. The Funds also intend to distribute sufficient net investment income and net capital gains, if any, so that they will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Funds could incur a tax expense. Therefore, no federal income tax or excise provision is required.

#### ARCHER FUNDS

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

AUGUST 31, 2020

The Funds recognize the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by tax authorities. Management has analyzed the Funds' tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2017-2019) or expected to be taken in the Funds' 2020 tax returns. The Funds identify their major tax jurisdiction as U.S. Federal, however the Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year/period ended August 31, 2020, the Funds did not incur any interest or penalties.

Security Transactions and Related Income - The Funds follow industry practice and record security transactions on the trade date. Realized gains and losses are computed using the specific cost of the security. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized using the straight line method. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and rates. Distributions received from certain investments held by the Funds may be comprised of dividends, realized gains and returns of capital. The amounts may subsequently be reclassified upon receipt of information from the issuer.

Dividends and Distributions - The Funds typically will distribute substantially all of their net investment income in the form of dividends and capital gains to its shareholders. The Balanced Fund will distribute dividends quarterly and capital gains annually, and expects that distributions will consist primarily of ordinary income. The Income and Dividend Growth Fund will distribute dividends monthly and capital gains annually, and expect that distributions will consist primarily of ordinary income. The Stock Fund, Focus Fund, and Multi Cap Fund may distribute dividends quarterly and capital gains annually, and expect that distributions will consist primarily of ordinary income. Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expenses or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Funds.

Redemption Fee - To discourage short-term trades by investors, the Funds will impose a redemption fee. The Funds will each impose a redemption fee of 1.00% of the total redemption amount (calculated at market value) if shares are redeemed within 90 calendar days of purchase. For the year/period ended August 31, 2020, the Balanced

Fund, Income Fund, Stock Fund, Dividend Growth Fund, Focus Fund, and Multi Cap Fund collected \$292, \$1,627, \$403, \$409, \$35, and \$0 in redemption fees, respectively.

Options - The Balanced and Income Funds may sell covered call options as part of their investment programs to obtain market exposure or to manage risk or hedge against adverse market conditions. When a fund writes an option, an amount equal to the premium received by the fund is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Premiums received from writing options that expire unexercised are treated by the fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realized loss.

If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the fund. The fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

Structured Notes – The Balanced Fund and Income Fund invest in structured notes which are subject to a number of fixed income risks including general market risk, interest rate risk, as well as the risk that the issuer on the note may fail to make interest and/ or principal payments when due, or may default on its obligations entirely. In addition, as a result of imbedded derivative features in these securities, structured notes generally are subject to more risk than investing in a simple note or bond issued by the same issuer. See Note 4 for additional information related to Structured Notes.

Expenses – Expenses incurred by the Trust that do not relate to a specific Fund of the Trust are allocated to the individual Funds based on each Fund's relative net assets or other appropriate basis as determined by the Board.

Reclassifications – In accordance with GAAP, the Stock Fund recorded a permanent book/tax difference of \$15,885 from net investment loss to paid in capital. This reclassification has no impact on the net asset value of the Fund and is designed generally to present undistributed income and net realized gains on a tax basis, which is considered to be more informative to shareholders.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

### NOTE 3. SECURITIES VALUATION

#### **Processes and Structure**

The Funds' Board of Trustees has adopted guidelines for valuing securities including in circumstances in which market quotes are not readily available and has delegated to the Adviser the responsibility for determining fair value prices, subject to review by the Board of Trustees.

In accordance with the Trust's good faith pricing guidelines, the Advisor is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable. No single standard exists for determining fair value, because fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Advisor would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. Good faith pricing is permitted if, in the Advisor's opinion, the validity of market quotations appears to be questionable based on factors such as evidence of a thin market in the security based on a small number of quotations, a significant event occurs after the close of a market but before a Funds' NAV calculation that may affect a security's value, or the Advisor is aware of any other data that calls into question the reliability of market quotations. Good faith pricing may also be used in instances when the bonds the Funds invest in may default or otherwise cease to have market quotations readily available.

### Hierarchy of Fair Value Inputs

The Funds utilize various methods to measure the fair value of most of their investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The three levels of inputs are as follows:

- Level 1. Unadjusted quoted prices in active markets for identical assets or liabilities that the company has the ability to access.
- Level 2. Observable inputs other than quoted prices included in level 1 that are
  observable for the asset or liability either directly or indirectly. These inputs may
  include quoted prices for the identical instrument on an inactive market, prices for
  similar instruments, interest rates, prepayment speeds, credit risk, yield curves,
  default rates, and similar data.
- Level 3. Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the company's own assumptions

#### ARCHER FUNDS

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

AUGUST 31, 2020

about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

### Fair Value Measurements

A description of the valuation techniques applied to each Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows:

Equity securities (common and preferred stock, mutual funds, exchange traded fund/notes, real estate investment trusts). Securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, Exchange Traded Funds, and the movement of the certain indexes of securities based on a statistical analysis of the historical relationship and that are categorized in level 2. Preferred stock and other equities traded on inactive markets or valued by reference to similar instruments are also categorized in level 2.

Fixed income securities (corporate bonds, municipal bonds, preferred bonds and structured notes). The fair value of fixed income securities is estimated using various techniques, which may consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (when observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments. Although most fixed income securities are categorized in level 2 of the fair value hierarchy, in instances when lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they are categorized in level 3.

Investments in open-end mutual funds including money market funds are valued at their closing net asset value each business day and are classified in Level 1 of the fair value hierarchy.

## NOTE 5. FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Advisor, under the terms of the management agreement (the "Agreement"), manages the Funds' investments. As compensation for its management services, each Fund is obligated to pay the Advisor a fee computed and accrued daily and paid monthly at an annual rate of 0.50% of each Fund's average daily net assets. For the year/period ended August 31, 2020, the Advisor accrued fees of \$194,927 for the Balanced Fund, \$57,947 for the Income Fund, \$95,492 for the Stock Fund, \$90,255 for the Dividend Growth Fund, \$5,431 for the Focus Fund, and \$8,221 for the Multi Cap Fund, before the waivers and reimbursements described below. At August 31, 2020, the Balanced Fund owed the Advisor \$6,787, the Advisor waived all fees and owed the Income Fund \$5,154 for reimbursement of expenses, the Stock Fund owed the Advisor \$3,405, the Advisor waived all fees and owed the Focus Fund \$4,558 for reimbursement of expenses, and the Advisor waived all fees and owed the Multi Cap Fund \$2,783 for reimbursement of expenses, in advisory fees.

The Advisor also performs administrative duties for the Funds, in which the Advisor receives administrative fees. Administrative fees are paid according to the following schedule for each of the Funds: 0.50% on average net assets under \$50 million, 0.07% on

assets from \$50 million up to \$100 million, 0.05% on average net assets over \$100 million up to \$150 million, and 0.03% on assets over \$150 million. The minimum monthly fee is \$2,500. During the year/period ended August 31, 2020, the Advisor earned administrative fees of \$194,927 for the Balanced Fund, \$57,948 for the Income Fund, \$95,492 for the Stock Fund, \$90,255 for the Dividend Growth Fund, \$20,249 for the Focus Fund, and \$20,250 for the Multi Cap Fund. At August 31, 2020, the Balanced Fund owed the Advisor \$17,302, the Income Fund owed the Advisor \$4,887, the Stock Fund owed the Advisor \$9,051, the Dividend Growth Fund owed the Advisor \$7,407, the Focus Fund owed the Advisor \$2,583 in administrative fees.

## **Archer Balanced Fund**

The Advisor has contractually agreed to waive its management fee and/or reimburse expenses through December 31, 2023 so that total annual operating expenses, excluding brokerage fees and commissions, 12b-1 fees, borrowing costs (such as interest and dividend expenses on securities sold short), taxes, extraordinary expenses, and any indirect expenses (such as expenses incurred by other investment companies in which the Balanced Fund invests) do not exceed 1.20% of the Balanced Fund's average daily net assets. For the year ended August 31, 2020, the Advisor waived fees of \$63,223. Each waiver or reimbursement by the Advisor is subject to repayment by the Balanced Fund within the three fiscal years following the fiscal year in which the particular waiver or reimbursement occurred, provided that the Balanced Fund is able to make the repayment without exceeding the 1.20% expense limitation. Advisory fees waived and/or reimbursed expenses that may be subject to potential recoupment by the Advisor through August 31, 2023 totaled \$353,230.

The amounts subject to repayment by the Balanced Fund, pursuant to the aforementioned conditions, at August 31, 2020 were as follows:

Under current tax law, net capital losses realized after October 31<sup>st</sup> and net ordinary losses incurred after December 31<sup>st</sup> may be deferred and treated as occurring on the first day of the following fiscal year. Each Fund's carryforward losses, post-October losses and post December losses are determined only at the end of each fiscal year. The Dividend Growth Fund utilized \$12,407 of its capital loss carryforward during the year ended August 31, 2020.

+ The capital loss carryforward will be used to offset any capital gains realized by the Funds in future years. The Funds will not make distributions from capital gains while a capital loss remains.

As of August 31, 2020 for U.S. Federal income tax purposes, the cost of securities owned, unrealized appreciation (depreciation) of investments for the Funds was as follows:

## NOTE 9. INDEMNIFICATIONS

In the normal course of business, the Funds enter into contracts that contain general indemnification to other parties. The Funds' maximum exposure under these contracts is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. The Funds expect the risk of loss to be remote.

# NOTE 10. MARKET RISK

Overall market risks may also affect the value of the Funds. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the

securities markets. Local, regional or global events such as war, acts of terrorism, the

spread of infectious illness or other public health issue, recessions and depressions, or other events could have a significant impact on the Funds and their investments and could result in increased premiums or discounts to the Funds' net asset values, and may impair market liquidity, thereby increasing liquidity risk. The Funds could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments.

An outbreak of infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now been detected globally. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19, and other infectious illness outbreaks that may arise in the future, could adversely affect the economies of many nations or the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Trustees of

Archer Balanced Fund, Archer Income Fund, Archer Stock Fund, Archer Dividend Growth Fund, Archer Focus Fund and Archer Multi Cap Fund, each a Series of the Archer Investment Series Trust

#### Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of the Archer Balanced Fund, Archer Income Fund, Archer Stock Fund, Archer Dividend Growth Fund, Archer Focus Fund, and Archer Multi Cap Fund, collectively the Funds, each a series of the Archer Investment Series Trust (the "Trust"), including the schedules of investments, as of August 31, 2020, the related statements of operations for the year or period then ended as indicated herein, the statements of changes in net assets for each of the two years or periods in the period then ended as indicated herein, and the related notes (collectively referred to as the "financial statements") and the financial highlights for each of the five years or periods in the period then ended as indicated herein.

In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Funds as of August 31, 2020, the results of their operations for the year or period then ended, the changes in their net assets for each of the two years or periods in the period then ended, and the financial highlights for each of the five years or periods in the period then ended, as noted in the previous paragraph, in conformity with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of August 31, 2020, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion,

## EXPENSE ILLUSTRATION

AUGUST 31, 2020 (UNAUDITED)

## **Expense Example**

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs (such as short-term redemption fees); and (2) ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund(s) and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period – March 1, 2020 through August 31, 2020.

## **Actual Expenses**

The first line of the tables below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

## **Hypothetical Example for Comparison Purposes**

The second line of the tables below provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not such Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Consideration and Renewal of Management Services Agreement with Archer Investment Corporation with respect to the Archer Balanced Fund, the Archer Income Fund, the Archer Stock Fund, the Archer Dividend Growth Fund, the Archer Focus Fund, and the Archer Multi Cap Fund.

As required under the Investment Company Act of 1940, the Board of Trustees (the "Board" or the "Trustee(s)") of the Archer Investment Series Trust (the "Trust"), comprised of a majority of Trustees who are not "interested persons" of the Trust, as that term is defined by Section 2(a)(19) of the Investment Company Act of 1940 (the "Independent Trustees") determines annually whether to renew the Funds' Management Services Agreement ("Agreement") between the Trust and Archer Investment Corporation (the "Adviser" or "AIC") on behalf of the Archer Balanced Fund, the Archer Stock Fund, the Archer Income Fund, the Archer Dividend Growth Fund, the Archer Focus Fund and the Archer Multi Cap Fund (the "Fund(s)"). In considering the renewal of the agreement, the Board, including all the Independent Trustees, met on August 20, 2020 (the "Board Meeting") and approved the renewal of the agreement for an additional year, after concluding that the renewal of the agreement was in the best interests of each Fund and its shareholders. It was noted that the current Management Services Agreement had recently been amended to add the two (2) new Archer Funds, the Archer Focus Fund and Archer Multi Cap Fund, and this amendment was approved by the Board.

AUGUST 31, 2020 (UNAUDITED)

With the assistance and advice of legal counsel, the Trustees had requested and received information from the Advisor, in advance of the meeting, that they deemed relevant or necessary to consider in the engagement process. In addition, each Trustee received a memorandum from counsel discussing, among other things, their fiduciary duties, and responsibilities in reviewing and considering the agreement's renewal. Each Trustee reviewed and discussed the foregoing information during the Board Meeting and in a private session with their counsel. Legal counsel also reviewed with the Trustees the types of information and factors that they should take into consideration in making their decision regarding the continued engagement. In particular, legal counsel discussed the following material factors which the Trustees should consider in order to make an informed decision regarding the approval of the continuation of the Agreement: (i) the nature, extent, and quality of the services provided by AIC; (ii) the investment performance of each Fund; (iii) the costs of the services to be provided and profits to be realized by AIC from the relationship with each Fund; (iv) the extent to which economies of scale are realized if the Funds grow and whether the advisory fee levels reflect those economies of scale for the benefit of the Funds' investors; and (v) AIC's practices regarding possible conflicts of interest. Throughout the process the Trustees had the opportunity to ask questions, and answers to their questions were considered along with the other materials provided.

In assessing these factors and reaching their decision, the Independent Trustees took into consideration information furnished for the Board's review and consideration throughout the year at regular Board meetings, as well as information specifically prepared and presented pursuant to their request in connection with the annual renewal process. The Board requested and was provided information and reports relevant to the annual renewal of the Agreement, including: (i) reports regarding the services and organizational support provided to the Funds and their shareholders by AIC; (ii) quarterly assessments of the investment performance of the Funds by personnel of AIC; (iii) commentary on each Fund's performance; (iv) presentations by the Funds' portfolio manager addressing AIC's investment philosophy, investment strategy, and its personnel and operations; (v) the Funds and AIC compliance and audit reports; (vi) disclosure information contained in the registration statement of the Trust and the Form ADV of AIC; and (vii) a memorandum from the Trust's legal counsel, that summarized the fiduciary duties and responsibilities of the Board in reviewing and approving Fund's Agreement, including the material factors set forth above and the types of information included in each factor. The Board also requested and received various informational materials prepared by AIC ("AIC 15(c) Response"), including, without limitation: (i) documents containing information about AIC and its financial condition; (ii) a description of personnel and the services provided to each Fund; (iii) information on investment advice, performance; (iv) summaries of each Fund's expenses, compliance program, current legal matters, and other general information; (v) comparative expense and performance information with other mutual funds with strategies similar to the Funds; (vi) the effect of each Fund's size on its performance and expenses; (vii) benefits to be realized by AIC from its relationship with the Funds; (viii) the Advisor's practices regarding possible conflicts of interest; and (ix) AIC's efforts to promote and market the Funds. In their deliberations, the Independent Trustee did not identify any single piece of information that was most relevant to its consideration to approve the continuation of the Fund's Management Services

Agreement and each Independent Trustee may have afforded different weight to the various factors that are specifically required to be considered.

Nature, Extent and Quality of the Services Provided by AIC. In considering the nature, extent, and quality of the services provided by AIC, the Trustees reviewed the responsibilities of AIC under each Agreement. The Trustees reviewed the services being provided by AIC to each Archer Fund including, without limitation: the quality of AIC investment advisory services (including research and recommendations with respect to portfolio securities) and assuring compliance with each Fund's investment objectives and limitations, as well as for ensuring compliance with regulatory requirements; its coordination of services for the Funds among the service providers and the Independent Trustees; and its efforts to promote the Funds and grow each Fund's assets. The Trustees noted AIC's continuity of, and commitment to retain and enhance, qualified personnel; and AIC's continued cooperation with the Independent Trustees, the chief compliance officer, and Legal Counsel for the Funds. The Trustees noted that the principal of the AIC is also the Principal Executive Officer and President for the Trust, and he served the Trust without additional compensation. The Trustees noted the continued efforts of AIC in marketing the Funds and its continued desire to expand its reach through advisor representatives and the Archer brand. After reviewing the foregoing information and further information in the materials provided by AIC (including AIC's Form ADV), the Board concluded that the nature, extent, and quality of the services provided by AIC were of high quality, reasonable and consistent with the Board's expectations and those set forth in the current and proposed Management Services Agreement.

Investment Performance of the Funds and AIC. In considering the investment performance of each Fund, the Trustees compared the short and long-term performance of each Fund. The Trustees also considered the consistency of AIC's management of the Funds with the investment objectives and policies along with the overall performance of each Archer Fund under the Trust along with the materials which the Board had reviewed at each quarterly Board meeting throughout the fiscal year. With respect to the Archer Focus Fund and Archer Multi Cap Fund, the Board noted the Funds' short operational history considering whether each Fund had operated within its investment objective which each had.

Overall, the Trustees concluded that the performance of each Fund was acceptable, although the Trustees will continue to monitor each Fund's performance against its benchmark and peer group.

Costs of the Services to be provided and Profits to be Realized by AIC. In considering the costs of the services to be provided and profits to be realized by AIC from the relationship with the Funds, the Trustees considered: (1) AIC's financial condition (as reported by the company) and the level of commitment to the Funds by the principals of AIC; (2) the increasing asset levels of the Funds; (3) the overall expenses of the Funds; and (4) the nature and frequency of advisory fee payments. The Trustees also considered potential benefits for AIC in managing the Funds. The Trustees noted that AIC is profitable regarding its relationship with the Funds. The Trustees noted that AIC reduced its fee to 50 basis points for each Fund. AIC's desire to remain competitive is reflected in

its desire and willingness to continue reduce its fees to the shareholders. The Trustees noted AIC's continued efforts to manage the expenses of the Funds. The Trustees concluded that although Fund expenses were higher than peer averages in some cases, such expenses were justified and unavoidable given the complex regulatory requirements, and most importantly, the relatively small levels of assets in each of the Funds. Based on the foregoing, the Board concluded that the fees to be paid to AIC by the Funds and the profits to be realized by AIC, considering all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by AIC.

Economies of Scale. The Trustees, including the Independent Trustees, also considered whether AIC has been able to benefit from any economies of scale with respect to its management of the Archer Funds and whether there is potential for realization of any further economies of scale having multiple funds for which the Advisor manages. In doing so, the Board considered the potential benefits for the Advisor in managing multiple series under the Archer Investment Series Trust, including promotion of the Advisor's name and the ability for the Advisor to place small accounts into one of the Archer Funds. After comparing the fees under the Management Services Agreement with those paid by comparable funds and considering all the foregoing, the Board concluded that the management fees to be paid to the Advisor by each Fund were fair and reasonable in relation to the nature and quality of the services provided by AIC.

Advisor's Practices Regarding Possible Conflicts of Interest and Benefits to the Advisor. In considering AIC's practices regarding conflicts of interest, the Trustees evaluated the potential for conflicts of interest and considered such matters as the experience and ability of the advisory personnel assigned to the Funds; the basis of decisions to buy or sell securities for the Funds and/or AIC's other accounts; and the substance and administration of AIC's code of ethics. The Trustees also noted that AIC may enjoy some enhanced status as an investment Advisor to a larger family of registered mutual funds. Based on the foregoing, the Board determined that AIC's standards and practices relating to the identification and mitigation of possible conflicts of interest were satisfactory.

Conclusion. The Board of Trustees, including Independent Trustees, having requested and received such information from the Advisor as they determined to be reasonably necessary to evaluate the renewal of the Management Services Agreement, and as assisted by the advice of legal counsel, the Board, including the Independent Trustees, concluded that the overall arrangement provided under the terms of the Management Services Agreement are a reasonable business arrangement and that renewal of the Management Services Agreement was in the best interests of the Trust and each Fund's shareholders.
