

Azzad Ethical Fund

(Ticker: ADJEX)

Enhanced Index Mutual Fund

March 31, 2021

1st Quarter Fact Sheet

INVESTMENT OBJECTIVE & STRATEGY

The Azzad Ethical Fund seeks total return, which includes income from dividends and capital appreciation of stocks. The Fund invests in mid-cap companies included in the Russell Midcap® Growth Index and screened for compliance with the firm's ethical investment restrictions.

The Fund's sub-advisor employs an enhanced index strategy, which attempts to amplify the returns of the benchmark index by maintaining overweights in stocks that the sub-advisor believes to have the potential to outperform, while still maintaining a portfolio that does not significantly deviate from the benchmark.

AVERAGE ANNUAL TOTAL RETURNS

*Returns are not annualized. The performance quoted represents past performance, which does not guarantee future results. The investment return and principal value of an investment in the Fund will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For current to most recent month-end performance information, call 888.862.9923. The Russell MidCap® Growth Index measures the performance of the mid-cap growth segment of the U.S. equity universe. It includes those Russell MidCap® Index companies with higher price-to-book ratios and higher forecasted growth values. The index is unmanaged, and does not reflect the deduction of expenses, which have been deducted from the Fund's returns. The index's returns assume reinvestment of all distributions and dividends; you cannot invest directly in an index. Russell Investment Group is the source and owner of the Russell Index data contained or reflected in this material and all trademarks and copyrights related thereto. Russell Investment Group is not responsible for the formatting or configuration of this material or for any inaccuracy in Azzad Asset Management's presentation thereof. The Dow Jones Islamic Market U.S. Mid-Cap Growth Index is designed to measure the performance of mid-cap U.S. equity securities that are screened for adherence to Shariah investment guidelines and are classified as "growth" based on a multi-factor analysis. The Fund's inception date was 12/22/2000.

SOCIALLY RESPONSIBLE INVESTMENT PHILOSOPHY

The Fund's socially responsible investment philosophy means it will not invest in companies earning more than 5% revenue in the following lines of business: alcohol, tobacco, gambling, pork, pornography, interest-based banking, and the weapons industries as deemed by the Adviser. A company's environmental, human rights and corporate governance performance may also be considered. Moreover, the investment team avoids investing in companies carrying excessive debt. The team believes that companies operating in a financially responsible manner, offer promising opportunities for sustainable growth in the long term.

Investors should consider the investment objectives, risks, charges, and expenses of the Azzad Ethical Fund carefully before investing. A prospectus with this and other information about the Fund may be obtained by calling **888.350.3369** or by visiting our website, **www.azzadasasset.com**. Read the prospectus carefully before investing or sending money. The Fund is non-diversified and may invest a larger percentage of its assets in fewer companies exposing it to more volatility and/or market risk than diversified funds. The Fund may not achieve its objective and/or could lose money on your investment in the Fund. Stock markets and investments in individual stocks can decline significantly in response to issuer, market, economic, political, regulatory, geographical, and other conditions. Securities of medium sized companies tend to be more volatile and less liquid than those of large companies, may have underperformed the securities of large companies during some periods, and tend to have a shorter history of operations than large companies. Growth securities may underperform other asset types during a given period. The average market capitalization of a fund's equity portfolio gives you a measure of the size of the companies in which the fund invests.
