NORTHERN EQUITY INDEX FUNDS

ANNUAL REPORT

MARCH 31, 2021

MANAGED BY T NORTHERN TRUST

Global equities delivered very strong returns during the 12-month period ended March 31, 2021. At the start of the period, stocks were just days beyond the lows established in the coronavirusdriven downturn that occurred in the first quarter of 2020. The early stages of the market's recovery derived mainly from the swift and aggressive monetary and fiscal stimulus provided by global governments and central banks. The U.S. Federal Reserve (the "Fed") cut short-term rates to near zero, and Congress passed a \$2 trillion stimulus package. Investors, seeing a path to when the economic effects of COVID-19 could dissipate, began to bargain hunt in a market that was well off its prior peak. The ensuing rally gained momentum through the summer of 2020, propelling major large-cap equity indices above their pre-pandemic highs by late August 2020.

Stock prices paused in early autumn due in part to a resurgence in COVID-19 cases and uncertainty surrounding the U.S. election. However, markets resumed their advance in November 2020 following the eventual conclusion of the U.S. election and announcements that two coronavirus vaccines had been approved by U.S. regulatory agencies. Investors were further encouraged by the passage of a new round of U.S. fiscal stimulus in early 2021, as well as by expectations that a significant infrastructure package might also emerge from Congress. The rally continued through the end of the 12-month period ended March 31, 2021, as the prospect of improving economic growth, rising

corporate earnings and ongoing Fed accommodation provided a firm foundation for investor risk appetite.

The approval of the first COVID-19 vaccine not only boosted the equity market as a whole, but also led to an important change in market leadership. From the March 2020 low through early November 2020, gains for the leading U.S. and global indices had been driven largely by growth stocks, as well as by a small number of mega-cap technology companies. With so much uncertainty surrounding the path of the virus and the trajectory of global growth, investors gravitated to the relative safety of companies that they believed could maintain steady earnings in any economic environment. Once the vaccines were approved, investors began to look around for improved relative performance from economically-sensitive segments that had previously lagged, including value stocks and smaller companies.

In combination, these developments helped major equity indices to deliver remarkable 12-month returns. For example, the large-cap Russell 1000 Index and the small-cap Russell 2000 Index posted dramatically strong one-year returns of 60.59% and 94.85%, respectively, as of March 31, 2021. Based on the MSCI EAFE Index and the MSCI Emerging Markets Index, developed- and emerging-market international stocks, though they lagged U.S. indices, nonetheless delivered robust gains of 44.57% and 58.39%, respectively. It is highly unlikely that these returns can be replicated in the next 12-month period. Still, with COVID-19 cases and

hospitalizations beginning to decline, the vaccine rollout underway, additional fiscal stimulus apparently on the way later in the year, and broadening market leadership, the investment backdrop remained supportive for stocks at period end.

In closing, we would like to recognize the planning and dedication of those who have helped Northern Trust Asset Management navigate the unprecedented challenges of the past 12 months. Our commitment to our clients remains unwavering as the business environment continues to evolve in the months ahead.

Sincerely,

Darek Wojnar, CFA Head of Funds and Managed Accounts Group, Northern Trust Asset Management*

EMERGING MARKETS EQUITY INDEX FUND

PORTFOLIO MANAGEMENT COMMENTARY

The Emerging Markets Equity Index Fund returned 58.51% during the 12-month reporting period ended March 31, 2021, compared with the 58.39% return of the MSCI Emerging Markets Index. During the period, emerging market stocks outperformed their developed market counterparts as measured by the 54.03% return of the MSCI World Index.

Global equity markets rebounded significantly during the reporting period following a challenging first quarter of 2020. Unprecedented levels of fiscal and monetary stimulus paved the way for a recovery in equity markets following the sharp COVID-19-related sell-off in early 2020. A host of economic indicators including employment, consumer spending, manufacturing and housing data reached very low levels early in the period, then steadily recovered. Continued fiscal and monetary support, along with declining rates of COVID-19 infection, bolstered investor confidence. Credit spreads tightened as oil prices, interest rates and inflation expectations moved higher. Following positive news surrounding COVID-19 vaccine development and distribution, investors returned to more value- and cyclically-oriented segments of the market, as well as to those best positioned to benefit from economic recovery.

For the 12-month reporting period, information technology and materials were the top-performing sectors in the benchmark index with returns of 110.72% and 102.77%, respectively. Real estate and utilities were the bottom performers in the index, returning 33.23% and 35.02%, respectively. South Korea and Taiwan were the top performers at the country level in the index, with returns of 101.81% and 96.04%, respectively, while Egypt and Turkey lagged with returns of 4.21% and 6.35%, respectively.

⁽¹⁾ The Northern Trust Company reimbursed the Fund approximately \$151,000. The reimbursements represent less than \$0.01 per share. Without these reimbursements, the total return would have been 58.44%. See Note 6.

⁽²⁾ Distributions to shareholders from net investment income include amounts related to foreign currency transactions, which are treated as ordinary income for federal income tax purposes.

(3) Assumes investment at net asset value at the beginning of the year, reinvestment of all dividends and distributions, and a complete redemption of the investment at net asset value at the end of the year.

(4) The net expenses and net investment income ratios include additional reimbursements of management fees incurred in connection with the investment of uninvested cash in affiliated money market funds of approximately \$21,000, \$26,000, \$31,000, \$34,000 and \$32,000, which represent less than 0.01 percent of average net assets for the fiscal years ended March 31, 2021, 2020, 2019, 2018 and 2017, respectively. Absent the additional reimbursements, net investment income and reimbursements would have been decreased and net expenses would have been increased by a corresponding amount.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). The Fund adjusted the price of certain foreign equity securities held in its portfolio on March 31, 2021 using adjustment factors designed to reflect more accurately the fair value of the securities. See Note 2 for a discussion of this procedure. The fair valuation of these securities resulted in their categorization as Level 2 investments. Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

GLOBAL REAL ESTATE INDEX FUND continued

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). The Fund adjusted the price of certain foreign equity securities held in its portfolio on March 31, 2021 using adjustment factors designed to reflect more accurately the fair value of the securities. See Note 2 for a discussion of this procedure. The fair valuation of these securities resulted in their categorization as Level 2 investments. Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). The Fund adjusted the price of certain foreign equity securities held in its portfolio on March 31, 2021 using adjustment factors designed to reflect more accurately the fair value of the securities. See Note 2 for a discussion of this procedure. The fair valuation of these securities resulted in their categorization as Level 2 investments. Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). The Fund adjusted the price of certain foreign equity securities held in its portfolio on March 31, 2021 using adjustment factors designed to reflect more accurately the fair value of the securities. See Note 2 for a discussion of this procedure. The fair valuation of these securities resulted in their categorization as Level 2 investments. Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

EXPLANATION OF ABBREVIATIONS AND ACRONYMS USED THROUGHOUT THE SCHEDULE OF INVESTMENTS:

PLC - Public Limited Company

REIT - Real Estate Investment Trust

See Notes to the Financial Statements.

S&P - Standard & Poor's

Percentages shown are based on Net Assets.

At March 31, 2021, the Fund had open futures contracts as follows:

ТҮРЕ	NUMBER OF CONTRACTS	NOTIONAL AMOUNT (0005)	CONTRACT POSITION	CONTRACT EXP.	VALUE AND UNREALIZED APPRECIATION (DEPRECIATION) (0005) ⁽¹⁾
E-Mini S&P MidCap 400	114	\$29,700	Long	6/21	\$(26)

(1) Includes cumulative appreciation/depreciation on futures contracts. Only the current day's variation margin is reported within the Statements of Assets and Liabilities.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

EXPLANATION OF ABBREVIATIONS AND ACRONYMS USED THROUGHOUT THE SCHEDULE OF INVESTMENTS:

N.V. - Naamloze Vennootschap (Dutch: Limited Liability Company)

PLC - Public Limited Company

REIT - Real Estate Investment Trust

S.A. - Société Anonyme (French: Public Limited Company)

Percentages shown are based on Net Assets.

See Notes to the Financial Statements.

MARCH 31, 2021

At March 31, 2021, the Fund had open futures contracts as follows:

ТҮРЕ	NUMBER OF CONTRACTS	NOTIONAL AMOUNT (000S)	CONTRACT POSITION	CONTRACT EXP.	VALUE AND UNREALIZED APPRECIATION (DEPRECIATION) (0005) ⁽¹⁾
E-Mini Russell 2000 Index	299	\$33,226	Long	6/21	\$(960)

(1) Includes cumulative appreciation/depreciation on futures contracts. Only the current day's variation margin is reported within the Statements of Assets and Liabilities.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of March 31, 2021:

NOTES TO THE FINANCIAL STATEMENTS

1. ORGANIZATION

Northern Funds (the "Trust") is a Delaware statutory trust and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust offers 42 funds as of March 31, 2021, each with its own investment objective (e.g., long-term capital appreciation, total return or income consistent with preservation of capital). The Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index, International Equity Index, Mid Cap Index, Small Cap Index, and Stock Index Funds (each a "Fund" and collectively, the "Funds") are separate, diversified investment portfolios of the Trust.

Each of the Funds is presented herein. Except for the Global Sustainability Index Fund, each Fund is authorized to issue one class of shares designated as the "Shares" class. Effective July 31, 2020, the Global Sustainability Index Fund is authorized to issue two classes of shares designated as Class K shares and Class I shares, which replaced the Fund's Shares class. At March 31, 2021, the Emerging Markets Equity Index, Global Real Estate Index, International Equity Index, Mid Cap Index, Small Cap Index, and Stock Index Funds had Shares outstanding; and the Global Sustainability Index Fund had Class K and Class I shares outstanding.

Northern Trust Investments, Inc. ("NTI"), a subsidiary of The Northern Trust Company ("Northern Trust"), serves as the investment adviser and administrator for each of the Funds. Northern Trust serves as the custodian, transfer agent and sub-administrator for the Trust. Northern Funds Distributors, LLC, not an affiliate of NTI, is the Trust's distributor.

2. SIGNIFICANT ACCOUNTING POLICIES

The Trust, which is an investment company, follows accounting and reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, *Financial Services-Investment Companies*.

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

The net asset value ("NAV") of each Fund is determined daily as of the close of regular trading on the New York Stock Exchange ("NYSE"), generally 3:00 P.M. Central Time, on each day the NYSE is open for trading.

A) VALUATION OF SECURITIES AND DERIVATIVE CONTRACTS

Securities are valued at their fair value. Securities traded on United States ("U.S.") securities exchanges or in the NASDAQ National Market System are principally valued at the regular trading session closing price (generally, 3:00 P.M. Central Time) on the exchange or market in which such securities are principally traded. If any such security is not traded on a valuation date, it is valued at the most recent quoted bid price. Over-the-counter securities not reported in the NASDAQ National Market System are also generally valued at the most recent quoted bid price. Fixed income securities, however, may be valued on the basis of evaluated prices provided by the Funds' approved independent third-party pricing services when such prices are believed to reflect the fair value of such securities or broker provided prices. Such prices may be determined by taking into account other similar securities' prices, yields, maturities, call features, ratings, institutional size trading in similar groups of securities and developments related to specific securities.

The values of securities of foreign issuers are generally based upon market quotations, which depending upon local convention or regulation, may be the last sale price, the last bid price or the mean between the last bid and asked price as of, in each case, the close of the appropriate exchange or other designated time. Foreign fixed income securities, however, may, like domestic fixed income securities, be valued based on evaluated prices provided by independent pricing services when such prices are believed to reflect the fair value of such securities.

Shares of open-end investment companies, other than exchange-traded funds, are valued at their NAV. Spot and forward foreign currency exchange contracts are generally valued using an independent pricing service. Exchange-traded financial futures and options are valued at the settlement price as established by the exchange on which they are traded. The foregoing prices may be obtained from one or more independent pricing services or, as needed or applicable, independent broker-dealers. Short-term investments with a maturity of 60 days or less are valued at their amortized cost, which NTI, as authorized by the Trust's Board of Trustees (the "Board"), has determined approximates fair value.

Any securities for which market quotations are not readily available or are believed to be incorrect are valued at fair value as determined in good faith by NTI under the supervision of the Board. The Trust, in its discretion, may make adjustments to the prices of securities held by a Fund if an event occurs after the publication of fair values normally used by the Fund but before the time as of which the Fund calculates its NAV, depending on the nature and significance of the event, consistent with applicable regulatory guidance and U.S. GAAP. This may occur particularly with respect to certain foreign securities held by a Fund, in which case the Trust may use adjustment factors obtained from an independent evaluation service that are intended to reflect more accurately the fair value of those securities as of the time the Fund's NAV is calculated. The use of fair valuation involves the risk that the values used by the Funds to price their investments may be higher or lower than the values used by other unaffiliated investment companies and investors to price the same investments.

B) FUTURES CONTRACTS Certain Funds invest in long or short exchange-traded futures contracts for hedging purposes, to increase total return (i.e., for speculative purposes) or to maintain liquidity to meet potential shareholder redemptions, to invest cash balances or dividends or to minimize trading costs. When used as a hedge, a Fund may sell a futures contract in order to offset a decrease in the fair value of its portfolio securities that might otherwise result from a market decline. A Fund may do so either to hedge the value of its portfolio securities as a whole, or to protect against declines occurring prior to sales of securities in the value of the securities to be sold. Conversely, a Fund may purchase a futures contract as a hedge in anticipation of purchases of securities. In addition, a Fund may utilize futures contracts in anticipation of changes in the composition of its portfolio holdings. A Fund bears the market risk arising from changes in the value of these financial instruments. At the time a Fund enters into a futures contract, it is generally required to make a margin deposit with the custodian of a specified amount of liquid assets. Futures are marked-to-market each day with the change in value reflected in the unrealized gains or losses. Risk may arise as a result of the potential inability of the counterparties to meet the terms of their contracts. Credit risk is mitigated to the extent that the exchange on which a particular futures contract is traded assumes the risk of a counterparty defaulting on its obligations under the contract. The Statements of Operations include any realized gains or losses on closed futures contracts in Net realized gains (losses) on futures contracts, and any unrealized gains or losses on open futures contracts in Net change in unrealized appreciation (depreciation) on futures contracts.

The contract position and investment strategy utilized during the fiscal year ended March 31, 2021, was as follows:

	CONTRACT POSITION	INVESTMENT STRATEGY
Emerging Markets Equity Index	Long	Liquidity
Global Real Estate Index	Long	Liquidity
Global Sustainability Index	Long	Liquidity
International Equity Index	Long	Liquidity
Mid Cap Index	Long	Liquidity
Small Cap Index	Long	Liquidity
Stock Index	Long	Liquidity

At March 31, 2021, the aggregate fair value of securities pledged to cover margin requirements for open positions for the Mid Cap Index, Small Cap Index and Stock Index Funds was approximately \$5,565,000, \$4,260,000 and \$21,959,000, respectively. At March 31, 2021, the aggregate fair value of cash and foreign currencies to cover margin requirements for open positions for the Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index and International Equity Index Funds was approximately \$3,258,000, \$1,085,000, \$1,212,000, and \$5,394,000, respectively. Further information on the impact of these positions on the Funds' financial statements can be found in Note 10.

C) FOREIGN CURRENCY TRANSLATION Values of investments denominated in foreign currencies are converted into U.S. dollars using the spot rates on the NYSE, generally at 3:00 P.M. Central Time. The cost of purchases and proceeds from sales of investments, interest and dividend income are translated into U.S. dollars using the spot rates on the NYSE, generally at 3:00 P.M. Central Time. The gains or losses, if any, on investments from original purchase date to subsequent sales trade date resulting from changes in foreign exchange rates are included in the Statements of Operations in Net realized gains (losses) on investments and Net change in unrealized appreciation (depreciation) on investments. The gains or losses, if any, on translation of other assets and liabilities denominated in foreign currencies and between the trade and settlement dates on investment transactions are included in Net realized gains (losses) on foreign currency transactions and Net change in unrealized appreciation (depreciation) on foreign currency translations in the Statements of Operations.

D) FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS

Certain Funds are authorized to enter into forward foreign currency exchange contracts, or forward currency exchange contracts, for the purchase or sale of a specific foreign currency at a specified exchange rate on a future date as a hedge against either specific transactions or portfolio positions, or as a cross-hedge transaction or for speculative purposes. The objective of a Fund's foreign currency hedging transactions is to reduce the risk that the U.S. dollar value of a Fund's foreign currency denominated securities will decline in value due to changes in foreign currency exchange rates. All forward foreign currency exchange contracts are "marked-to-market" daily at the applicable exchange rates. Any resulting unrealized gains or losses are recorded in Net change in unrealized appreciation (depreciation) on forward foreign currency exchange contracts in the Statements of Operations. Gains or losses are recorded for financial statement purposes as unrealized until the settlement date. Realized gains or losses, if any, are included in Net realized gains (losses) on forward foreign currency exchange contracts in the Statements of Operations.

Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The contractual amounts of forward foreign currency exchange contracts do not necessarily represent the amounts potentially subject to risk. The Funds bear the market risk from changes in forward foreign currency exchange rates and the credit risk if the counterparty to the contract fails to perform. The institutions that deal in forward

NOTES TO THE FINANCIAL STATEMENTS continued

foreign currency exchange contracts are not required to continue to make markets in the currencies they trade and these markets can experience periods of illiquidity. Further information on the impact of these positions on the Funds' financial statements can be found in Note 10.

E) INVESTMENT TRANSACTIONS AND INCOME Investment transactions are recorded as of the trade date. The Funds determine the gain or loss realized from investment transactions by using an identified cost basis method. Interest income is recognized on an accrual basis and includes amortization of premiums and accretion of discounts using the effective yield method. The interest rates reflected in the Schedules of Investments represent either the stated coupon rate, annualized yield on the date of purchase for discount notes, the current reset rate for floating rate securities, the 7-day yield for money market funds or, for interest-only or principal-only securities, the current effective yield. Cost of investments includes amortization of premiums and accretion of discounts, if any. Dividend income, if any, is recognized on the ex-dividend date. Dividends from foreign securities are recorded on the ex-dividend date, or as soon as the information is available. Distributions received from a Fund's investments in real estate investment trusts ("REITs") are comprised of return of capital, capital gains and income. The actual character of the amounts received during the year is not known until the fiscal year-end. A Fund records the character of distributions received from the REITs during the year based on estimates available. A Fund's characterization may be subsequently revised based on information received from the REITs after their tax reporting periods conclude.

The Funds allocate all income and realized and unrealized gains or losses on a daily basis to each class of shares based upon the relative proportion of the value of shares outstanding of each class, if applicable.

F) EXPENSES Each Fund is charged for those expenses that are directly attributable to that Fund. Expenses arising in connection with a specific class of shares are charged to that class of shares. Expenses incurred which do not specifically relate to an individual fund generally are allocated among all funds in the Trust in proportion to each Fund's relative net assets. Expenses are recognized on an accrual basis.

G) REDEMPTION FEES The Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index, and International Equity Index Funds charge a 2 percent redemption fee on the redemption of shares (including by exchange) held for 30 days or less. For the purpose of applying the fee, the Funds use a first-in, first-out ("FIFO") method so that shares held longest are treated as being redeemed first and shares held shortest are treated as being redeemed last. The redemption fee is paid to the Fund from which the redemption is made and is intended to offset the trading, market impact and other costs associated with short-term money movements in and out of the Funds. The redemption fee may be collected by deduction from the redemption proceeds or, if assessed after the redemption transaction, through a separate billing. The Funds are authorized to waive the redemption fee for certain types of redemptions as described in the Funds' prospectus.

Redemption fees for the fiscal year ended March 31, 2021, were approximately \$19,000, \$3,000, \$8,000 and less than \$1,000 for the Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index and International Equity Index Funds, respectively. Redemption fees were approximately \$12,000, \$3,000, \$5,000 and \$1,000 for the fiscal year ended March 31, 2020, for the Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index and International Equity Index Funds, respectively. These amounts are included in Payments for Shares Redeemed in Note 8—Capital Share Transactions. The impact from redemption fees paid to each Fund was less than \$0.001 per share for both fiscal years.

H) DISTRIBUTIONS TO SHAREHOLDERS Distributions of dividends from net investment income, if any, are declared and paid as follows:

	DECLARATION AND PAYMENT FREQUENCY
Emerging Markets Equity Index	Annually
Global Real Estate Index	Quarterly
Global Sustainability Index	Annually
International Equity Index	Annually
Mid Cap Index	Annually
Small Cap Index	Annually
Stock Index	Quarterly

Distributions of net realized capital gains, if any, are declared and paid at least annually. Distributions to shareholders are recorded on the ex-dividend date.

Income dividends and capital gains distributions are determined in accordance with federal income tax regulations. Such amounts may differ from income and capital gains recorded in accordance with U.S. GAAP. Accordingly, the Funds may periodically make reclassifications among certain of their capital accounts to reflect differences between financial reporting and federal income tax basis distributions. These reclassifications are reported in order to reflect the tax treatment for certain permanent differences that exist between income tax regulations and U.S. GAAP. These reclassifications may relate to net operating losses, Section 988 currency gains and losses, Passive Foreign Investment Companies ("PFICs") gains and losses, recharacterization of dividends received from investments in REITs, expired capital loss carryforwards, and gains or losses on in-kind transactions. These reclassifications have no impact on the total net assets or the NAVs per share of the Funds. At March 31, 2021, the following reclassifications were recorded:

Amounts in thousands	UNDISTRIBUTED NET INVESTMENT INCOME (LOSS)	ACCUMULATED UNDISTRIBUTED NET REALIZED GAINS (LOSSES)	CAPITAL STOCK
Emerging Markets Equity Index	\$ 7,767	\$ (7,767)	\$ -
Global Real Estate Index	45,018	(9,481)	(35,537)

I) FEDERAL INCOME TAXES No provision for federal income taxes has been made since each Fund's policy is to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies and to distribute, each year, substantially all of its taxable income and capital gains to its shareholders. The Funds may be subject to taxes imposed by countries in which they invest. Such taxes are generally based on income and/or capital gains earned. Taxes are accrued based on net investment income, net realized gains and net unrealized appreciation as such income and/or gains are recorded. Taxes accrued on unrealized gains are reflected as a liability on the Statements of Assets and Liabilities under the caption Deferred foreign capital gains tax payable and as a reduction in Net change in unrealized appreciation (depreciation) on investments on the Statements of Operations. When assets subject to capital gains tax are sold, accrued taxes are relieved, and the actual amount of the taxes paid is reflected on the Statements of Operations as a reduction in Net realized gains (losses) on Investments. The Funds seek to recover a portion of foreign withholding taxes applied to income earned in jurisdictions where favorable treaty rates for US investors are available. The portion of such taxes believed to be recoverable is reflected as an asset on the Statements of Assets and Liabilities under the caption Receivable for foreign tax reclaims.

During the fiscal year ended March 31, 2021, the Emerging Markets Equity Index Fund utilized approximately \$120,700,000 in capital loss carryforwards.

Capital losses incurred that will be carried forward indefinitely are as follows:

	SHORT-TERM CAPITAL LOSS	LONG-TERM CAPITAL LOSS
Amounts in thousands	CARRYFORWARD	CARRYFOWARD
Emerging Markets Equity Index	\$23,060	\$290,491
International Equity Index*	5,370	620,563

* Amounts include acquired capital loss carryovers which may be limited under current tax laws.

At November 30, 2020, the Global Real Estate Index Fund's most recent tax year end, the non-expiring short-term and long-term capital losses were approximately \$6,743,000 and \$133,029,000, respectively. The Fund may offset future capital gains with these capital losses.

At March 31, 2021, the tax components of undistributed net investment income, undistributed realized gains and unrealized gains (losses) were as follows:

	UNDI	STRIBUTED	
Amounts in thousands	ORDINARY INCOME*	LONG-TERM CAPITAL GAINS	UNREALIZED GAINS (LOSSES)
Emerging Markets Equity Index	\$ 17,852	\$ -	\$ 860,990

The Global Real Estate Index Fund has a tax year end of November 30th. Therefore, the tax character of distributions paid for the period December 1, 2020 through March 31, 2021 will be determined at the end of its tax year.

As of March 31, 2021, no Fund had uncertain tax positions that would require financial statement recognition or disclosure. The Funds' federal tax returns remain subject to examination by the Internal Revenue Service for three years after they are filed. Interest or penalties incurred, if any, on future unknown, uncertain tax positions taken by the Funds will be recorded as Interest expense and Other expenses, respectively, on the Statements of Operations.

J) OTHER RISKS Certain Funds may invest in emerging market securities. Additional risks are involved when a Fund invests its assets in countries with emerging economies or securities markets. These countries generally are located in the Asia and Pacific regions, the Middle East, Eastern Europe, Central America, South America and Africa. Political and economic structures in many of these countries may lack the social, political and economic stability characteristics of more developed countries. In general, the securities markets of these countries are less liquid, subject to greater price volatility and have smaller market capitalizations. As a result, the risks presented by investments in these countries are heightened.

3. SERVICE PLAN

The Trust has adopted a Service Plan pursuant to which the Trust may enter into agreements with Northern Trust, its affiliates or other institutions (together "Service Organizations") under which the Service Organizations agree to provide certain administrative support services and, in some cases, personal and account maintenance services for their customers, who are beneficial owners of shares of the Funds. As compensation for services provided pursuant to the Service Plan, the Service Organizations receive a fee at an annual rate of up to 0.15 percent of the average daily net assets of the Shares class of the Funds beneficially owned by their customers.

Effective July 31, 2020, Service Organizations may receive fees from Class I shares of the Global Sustainability Index Fund at an annual rate of up to 0.15% of the average daily NAV of Class I shares of the Fund beneficially owned by such clients. NTI has contractually agreed to limit payments of service fees from Class I shares of the Global Sustainability Index Fund to an annual rate of 0.05% of the average NAV of the Class I shares of the Fund. There is no service fee payable by Class K shares of the Global Sustainability Index Fund.

There were no shareholder servicing fees paid by the Funds to Northern Trust or its affiliates during the fiscal year ended March 31, 2021.

Service Plan expenses, if any, are included in the Statements of Operations under Shareholder servicing fees for the fiscal year ended March 31, 2021.

4. BANK BORROWINGS

The Trust and Northern Institutional Funds, a registered investment company also advised by NTI, jointly entered into a \$250,000,000 senior unsecured revolving credit facility on November 18, 2019, which expired on November 16, 2020 and was administered by Citibank, N.A., for liquidity and other purposes (the "Credit Facility"). The interest rate charged under the Credit Facility was equal to the sum of (i) the Federal Funds Rate plus (ii) if the one month London Interbank Offered Rate ("LIBOR") on the date of borrowing exceeded such Federal Funds Rate, the amount by which it so exceeded, plus (iii) 1.00 percent. In addition, there was an annual commitment fee of 0.15 percent on the unused portion of the credit line under the Credit Facility, payable quarterly in arrears, which is included in Other expenses on the Statements of Operations.

At a meeting held on August 19-20, 2020, the Board approved an agreement to replace the Credit Facility (as replaced, the "New Credit Facility"). The New Credit Facility is also in the amount of

\$250,000,000 and is also administered by Citibank, N.A. The interest rate charged under the New Credit Facility is equal to the sum of (i) the Federal Funds Rate plus (ii) if the one month LIBOR on the date of borrowing exceeded such Federal Funds Rate, the amount by which it so exceeded, plus (iii) 1.25 percent. In addition, there is an annual commitment fee of 0.15 percent on the unused portion of the credit line under the New Credit Facility, payable quarterly in arrears. The New Credit Facility went into effect on November 16, 2020 and will expire on November 15, 2021, unless renewed.

During the fiscal year ended March 31, 2021, the following Funds had borrowings with the average loan amounts and weighted average interest rates as disclosed below:

Amounts in thousands	DOLLAR AMOUNT RATE	E
Emerging Markets Equity Index	\$ 4,217 1.52%	%
Global Real Estate Index	3,600 1.17	
Global Sustainability Index	3,043 1.33	
International Equity Index	15,000 1.39	
Stock Index	3,200 1.18	

No other Funds had any borrowings or incurred any interest expense during the fiscal year ended March 31, 2021. There were no outstanding loan amounts at March 31, 2021.

5. MANAGEMENT AND OTHER AGREEMENTS

As compensation for advisory and administration services and the assumption of related expenses, NTI is entitled to a management fee, computed daily and payable monthly, at the annual rates set forth in the table below (expressed as a percentage of each Fund's respective average daily net assets).

NTI has contractually agreed to reimburse a portion of the operating expenses of each Fund (other than certain excepted expenses, i.e., acquired fund fees and expenses, service fees for the Global Sustainability Index Fund (effective July 31, 2020), the compensation paid to each independent Trustee of the Trust, expenses of third-party consultants engaged by the Board, membership dues paid to the Investment Company Institute and Mutual Fund Directors Forum, expenses in connection with the negotiation and renewal of the revolving credit facility, extraordinary expenses and interest) as shown on the accompanying Statements of Operations, to the extent the total annual fund operating expenses of the Funds exceed the expense limitations set forth below. The total annual fund operating expenses after expense reimbursement for each Fund may be higher than the contractual limitation as a result of certain excepted expenses that are not reimbursed. The amount of the reimbursement is included in Less expenses reimbursed by investment adviser as a reduction to Total Expenses in the Statements of Operations.

At March 31, 2021, the annual management fees and contractual expense limitations for the Funds were based on the following annual rates as set forth in the table below.

	CONTRACTUAL			
	ANNUAL EXPER MANAGEMENT FEES LIMITAT			
Emerging Markets Equity Index	0.21%	0.30%		
Global Real Estate Index	0.40% 0.5			
International Equity Index	0.18% 0.2

Stock Index	0.08% 0.10			
	CONTRACTUAL			
	ANNUAL EXPEN MANAGEMENT FEES LIMITATI			
Global Sustainability Index ⁽¹⁾	0.18%	0.25%		

⁽¹⁾ Prior to July 31, 2020, the Global Sustainability Index Fund's contractual expense limitation for the Shares class was based on an annual rate of 0.30%.

The contractual reimbursement arrangement is expected to continue until at least July 31, 2021. The contractual reimbursement arrangement will continue automatically thereafter for periods of one year (each such one-year period, a "Renewal Year"). The arrangement may be terminated, as to any succeeding Renewal Year, by NTI or a Fund upon 60 days' written notice prior to the end of the current Renewal Year. The Board may terminate the contractual arrangements at any time with respect to a Fund if it determines that it is in the best interest of the Fund and its shareholders.

In addition, during the fiscal year ended March 31, 2021, NTI reimbursed certain additional expenses that may be excepted expenses.

As compensation for services rendered as transfer agent, including the assumption by Northern Trust of the expenses related thereto, Northern Trust receives a fee, computed daily and payable monthly, at an annual rate of 0.0385 percent of the average daily net assets of each Fund.

NTI has entered into a sub-administration agreement with Northern Trust, pursuant to which Northern Trust performs certain administrative services for the Funds. NTI pays Northern Trust for its sub-administration services out of NTI's management fees.

For compensation as custodian, Northern Trust receives an amount based on a pre-determined schedule of charges approved by the Board. The Funds have entered into an expense offset arrangement with the custodian whereby credits realized as a

NOTES TO THE FINANCIAL STATEMENTS continued

result of uninvested cash balances are used to reduce a portion of the Funds' custodian expenses, unless such uninvested cash balances receive a separate type of return.

Northern Funds Distributors, LLC, the distributor for the Funds, received no compensation from the Funds under its distribution agreement. However, it received compensation from NTI for its services as distributor pursuant to a separate letter agreement between it and NTI.

Certain officers of the Trust are also officers of Northern Trust and NTI. All officers serve without compensation from the Funds. The Trust provided a deferred compensation plan for its Trustees who are not officers of Northern Trust or NTI. Prior to August 22, 2013, under the deferred compensation plan, Trustees may have elected to defer all or a portion of their compensation. Effective August 22, 2013, the Trustees may no longer defer their compensation. Any amounts deferred and invested under the plan shall remain invested pursuant to the terms of the plan. Each Trustee's account shall be deemed to be invested in shares of the U.S. Government Portfolio of Northern Institutional Funds and/or the Global Tactical Asset Allocation Fund of the Trust and/or, at the discretion of the Trust, another money market fund selected by the Trust that complies with the provisions of Rule 2a-7 under the 1940 Act or one or more short-term fixed-income instruments selected by the Trust that are "eligible securities" as defined by that rule. The net investment income, gains and losses achieved by such deemed investment shall be credited to the Trustee's account as provided in the plan.

6. RELATED PARTY TRANSACTIONS

Each Fund may invest its uninvested cash in a money market fund advised by NTI or its affiliates. Accordingly, each Fund bears indirectly a proportionate share of that money market fund's operating expenses. These operating expenses include the management, transfer agent and custody fees that the money market fund pays to NTI and/or its affiliates. At March 31, 2021, the uninvested cash of the Funds is invested in the Northern Institutional Funds U.S. Government Portfolio (the "Portfolio"). The total annual portfolio operating expenses after expense reimbursement (other than certain excepted expenses as described in the fees and expenses table of the Portfolio's prospectus) on any assets invested in the Portfolio is 0.25%. For the fiscal year ended March 31, 2021, NTI reimbursed each Fund for a portion of the management fees attributable to and payable by the Funds for advisory services on any assets invested in an affiliated money market fund. This reimbursement is included in Less expenses reimbursed by the investment adviser as a reduction to Total Expenses in the Statements of Operations. This reimbursement's impact on each Fund's net expense and net investment income ratios is included in each Fund's Financial Highlights.

The Funds are permitted to purchase and sell securities from or to certain affiliated funds or portfolios under specific conditions outlined in Rule 17a-7 Procedures adopted by the Board. The

procedures have been designed to ensure that any purchase or sale of securities by a Fund from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under these procedures, each transaction is effected at the current market price as defined in the Rule 17a-7 Procedures. For the fiscal year ended March 31, 2021, the Funds did not engage in any purchases and/or sales of securities from an affiliated entity.

During the fiscal year ended March 31, 2020, International Equity Index Fund received reimbursements from The Northern Trust Company of approximately \$69,000 in connection with an error. This reimbursement is included in Net investment income in the Statements of Changes in Net Assets and in Net investment income in the Financial Highlights. The cash contribution represents less than \$0.01 per share and had no effect on the Fund's total return.

During the fiscal year ended March 31, 2021, the Emerging Markets Equity Index Fund received reimbursements from The Northern Trust Company of approximately \$151,000 in connection with an error. This reimbursement is included in Net investment income in the Statements of Operations and Statements of Changes in Net Assets and in Net investment income in the Financial Highlights. The cash contribution represents less than \$0.01 per share.

7. INVESTMENT TRANSACTIONS

For the fiscal year ended March 31, 2021, the aggregate costs of purchases and proceeds from sales of securities (excluding short-term investments) for the Funds were as follows:

The difference between book basis and tax basis net unrealized appreciation (depreciation) is attributable primarily to the tax deferral of losses on wash sales, the realization for tax purposes of unrealized gains on certain foreign currency contracts, the

deferral of post-October currency and capital losses for tax purposes and the timing of income recognition on investments in REITs and PFICs.

At March 31, 2021, for federal income tax purposes, gross unrealized appreciation, gross unrealized depreciation, net unrealized appreciation (depreciation) on investments (including the effects of foreign currency translation and derivative instruments, if any) and the cost basis of investments (including derivative instruments, if any) were as follows:

The Funds may enter into transactions subject to enforceable netting agreements or other similar arrangements ("netting agreements"). Generally, netting agreements allow the Funds to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, the Funds manage their cash collateral and securities collateral on a counterparty basis. In the event of default where the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the defaulting party, realization of collateral by the Funds may be delayed or limited. In addition, the netting agreements provide the right for the non-defaulting party to liquidate the collateral and calculate the net exposure to the defaulting party or request additional collateral.

11. INDEMNIFICATIONS AND WARRANTIES

In the ordinary course of their business, the Funds may enter into contracts or agreements that contain indemnifications or warranties. Future events could occur that lead to the execution of these provisions against the Funds. The maximum exposure to the Funds under these provisions is unknown, as this would involve future claims that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believe the risk of loss to be remote.

12. LEGAL PROCEEDINGS

In 2007, the Stock Index Fund was a shareholder of the Tribune Company ("Tribune"). In December of 2007, as a part of a leveraged buy-out transaction (the "LBO"), Tribune was converted from a public company to a privately-held company. Tribune later filed for bankruptcy.

On December 7, 2010, Northern Funds was named as a defendant and a putative member of the proposed defendant class of shareholders named in an adversary proceeding (the "Committee Action") brought by The Official Committee of Unsecured Creditors of Tribune Company (the "Committee") in the U.S. Bankruptcy Court for the District of Delaware, in connection with Tribune's bankruptcy proceeding. On June 2, 2011, a second suit was initiated by certain creditors of Tribune in the Delaware Superior Court with respect to claims related to the LBO (Niese et al. v. A.G. Edwards, Inc. et al.), in which Northern Funds was named as a defendant. On June 2, 2011 the indenture trustees, on behalf of certain noteholders of Tribune, filed a third suit and named Northern Funds as a defendant in the U.S. District Court for the Northern District of Illinois (Deutsche Bank Trust Co. et al. v. Ohlson Enterprises et al.) and a fourth suit named Northern Funds as a defendant in the U.S. District Count for the Southern District of New York (Deutsche Bank Trust Co. et al. v Sirius

International Insurance Corp. et al.). Each of these cases, along with others brought by the indenture trustees and other individual creditors, has now been consolidated into a Multi-District Litigation proceeding in the Southern District of New York (the "District Court"). The cases attempt to "clawback" the proceeds paid out in connection with the LBO. The Tribune bankruptcy plan was confirmed by the U.S Bankruptcy Court on July 23, 2012, and became effective on December 31, 2012.

The former shareholder defendants filed motions to dismiss, each of which were granted by the District Court. The District Court's order dismissing the actions by the individual creditors was affirmed on appeal by the Second Circuit Court of Appeals (the "Second Circuit Decision"). The Plaintiffs in the individual creditor actions filed a Petition for Writ of Certiorari requesting review of the Second Circuit Decision by the United States Supreme Court; however, the Supreme Court issued a statement indicating a potential lack of a quorum and informing the parties that the Second Circuit or District Court could provide relief based on the Supreme Court decision in Merit Management Group, LP v. FTI Consulting, Inc. The Plaintiffs filed a motion with the Second Circuit to recall the mandate and vacate the Second Circuit decision, and the Second Circuit recalled the mandate on May 15, 2018. On December 19, 2019, the Second Circuit issued an amended decision that affirmed dismissal of the constructive fraudulent transfer claims, holding that the safe harbor of Section 546(e) of the Bankruptcy Code applies. On February 6, 2020, the Second Circuit denied plaintiffs' petition for a rehearing en banc. Plaintiffs filed aWrit of Certiorari with the United States Supreme Court on July 6, 2020 to seek review of the Second Circuit's amended decision. On April 19, 2021, the Supreme Court denied the Plaintiffs' Petition for a Writ of Certiorari.

The motion to dismiss the Committee Action was also granted by the District Court. The Plaintiff in the Committee Action also sought from the District Court leave to amend the complaint with an additional claim for constructive fraudulent transfer based upon the decision in *Merit Management*. The motion for leave to amend was denied on April 23, 2019. On June 13, 2019, the District Court entered a final judgment on the claim dismissed. On July 12, 2019, the Trustee filed a notice of appeal stating that it was appealing the final judgment and the April 23, 2019 decision and related orders to the Second Circuit Court of Appeals. The appeal was fully briefed, and argument on the appeal took place on August 24, 2020. The Second Circuit has not yet issued a decision.

The value of the proceeds received by the Stock Index Fund in the LBO was approximately \$790,000, which includes proceeds of approximately \$372,000 received by the Northern Institutional Funds Equity Index Portfolio, which was acquired by the Stock Index Fund in 2012. The Fund cannot predict the outcome of these proceedings, but an adverse decision could have a material impact on the Fund's NAV. The Fund intends to vigorously defend these actions.

On or about February 14, 2020, Marc S. Kirschner, as Trustee for NWHI Litigation Trust ("Litigation Trustee") and Wilmington Savings Fund Society, FSB, as indenture Trustee ("Indenture Trustee") for several series of notes issued by Nine West Holdings, Inc. ("Nine West"), filed separate complaints (docket nos. 20-cv-01129 and 20-cv-01136, respectively) in the United States District Court for the Northern District of Illinois against a group of defendants that includes three Northern Funds that had invested in The Jones Group Inc. ("Jones Group") including the Small Cap Index Fund. The claim stems from a series of merger transactions ("Transactions") entered into by Jones Group, Nine West and others in 2014 that allegedly rendered Jones Group insolvent. The matters in these proceedings were transferred from the United States District Court for the Northern District of Illinois to the United States District Court for the Southern District of New York to centralize the litigation, and were assigned to the Honorable Jed S. Rakoff for coordinated or consolidated pretrial proceedings. The Fund allegedly received \$683,610 as a result of the Transactions. The Litigation Trustee and Indenture Trustee seek to clawback these proceeds for the benefit of the Trust and the noteholders, respectively, on the basis that they were fraudulent conveyances. On June 29, 2020, the former public shareholder defendants, including the Funds, filed a motion to dismiss on the basis that the payments allegedly made to them in connection with the Transactions were shielded from the fraudulent conveyance claims under Section 546(e) of the Bankruptcy Code. On August 27, 2020, all fraudulent conveyance claims against the former public shareholder defendants were dismissed. Plaintiffs appealed from that decision and the actions are currently on appeal before the U.S. Court of Appeals for the Second Circuit. The Funds intend to continue to vigorously defend themselves against this action.

13. NEW ACCOUNTING PRONOUNCEMENTS

In March 2020, the FASB issued Accounting Standards Update (ASU) 2020-04, Reference Rate Reform (Topic 848) "Facilitation of the Effects of Reference Rate Reform on Financial Reporting" ("ASU 2020-04"), which provides optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021. The new guidance is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022, and the adoption of ASU 2020-04 is elective. Management does not believe this update has a material impact on the Funds' financial statements and disclosures.

14. LIBOR TRANSITION

Certain of the Funds' investments, payment obligations and financing terms may be based on floating rates, such as LIBOR, Euro Interbank Offered Rate and other similar types of reference rates (each, a "Reference Rate"). On July 27, 2017, the Chief Executive of the UK Financial Conduct Authority ("FCA"), which regulates LIBOR, announced that the FCA will no longer persuade nor compel banks to submit rates for the calculation of LIBOR and certain other Reference Rates after 2021. The FCA and ICE Benchmark Administrator have since announced that most LIBOR settings will no longer be published after December 31, 2021 and a majority of U.S. dollar LIBOR settings will cease publication after June 30, 2023. The U.S. Federal Reserve, based on the recommendations of the New York Federal Reserve's Alternative Reference Rate Committee (comprised of major derivative market participants and their regulators), has begun publishing SOFR that is intended to replace U.S. dollar LIBOR. Proposals for alternative reference rates for other currencies have also been announced or have already begun publication. Uncertainty related to the liquidity impact of the change in rates, and how to appropriately adjust these rates at the time of transition, poses risks for the Funds. The effect of any changes to, or discontinuation of, LIBOR on the Funds will depend on, among other things, (1) existing fallback or termination provisions in individual contracts and (2) whether, how, and when industry participants develop and adopt new reference rates and fallbacks for both legacy and new instruments and contracts. The expected discontinuation of LIBOR could have a significant impact on the financial markets in general and may also present heightened risk to market participants, including public companies, investment advisers, investment companies, and broker-dealers. The risks associated with this discontinuation and transition will be exacerbated if the work necessary to effect an orderly transition to an alternative reference rate is not completed in a timely manner. Accordingly, it is difficult to predict the full impact of the transition away from LIBOR on the Funds until new reference rates and fallbacks for both legacy and new instruments and contracts are commercially accepted and market practices become settled.

15. CORONAVIRUS (COVID-19) PANDEMIC

An outbreak of respiratory disease caused by a novel coronavirus was first detected in December 2019 and has spread internationally. The outbreak and efforts to contain its spread have resulted in closing borders and guarantines, restricting international and domestic travel, enhanced health screenings, cancelations, disrupted supply chains and customer activity, responses by businesses (including changes to operations and reducing staff), and have produced general concern and uncertainty. The impact of the coronavirus pandemic, and other epidemics and pandemics that may arise in the future could adversely affect national and global economies, individual companies and the market in general in a manner and for a period of time that cannot be foreseen at the present time and may adversely affect the value, volatility and liquidity of dividend and interest paying securities. In the event of a pandemic or an outbreak, there can be no assurance that the Funds and their service providers will be able to maintain normal business operations for an extended period of time or will not lose the services of key personnel on a temporary or long-term basis due to illness or other reasons, and could otherwise disrupt the ability of the Funds' service providers to perform essential services. Certain economic and market conditions arising out of a pandemic or outbreak could result in a Fund's inability to achieve its investment objectives, cause the postponement of reconstitution or rebalance dates for benchmark indices, adversely affect the prices and liquidity of the securities and other instruments in which a Fund invests, negatively impact a Fund's performance, and cause losses on your investment in a Fund. Management is monitoring the development of the pandemic, which was ongoing as of the date of the financial statements, and is evaluating its impact on the financial position and operating results of the Funds.

16. SUBSEQUENT EVENTS

Management has evaluated subsequent events for the Funds through the date the financial statements were issued, and has concluded that there are no recognized or non-recognized subsequent events relevant for financial statement disclosure.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Trustees of Northern Funds:

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statements of assets and liabilities of seven separate portfolios of Northern Funds, comprising the Emerging Markets Equity Index Fund, Global Real Estate Index Fund, Global Sustainability Index Fund, International Equity Index Fund, Mid Cap Index Fund, Small Cap Index Fund, and Stock Index Fund (collectively, the "Funds"), including the schedules of investments, as of March 31, 2021, the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended for Emerging Markets Equity Index Fund, Global Real Estate Index Fund, International Equity Index Fund, Mid Cap Index Fund, Small Cap Index Fund, Global Real Estate Index Fund, International Equity Index Fund, Mid Cap Index Fund, Small Cap Index Fund, Global Real Estate Index Fund, International Equity Index Fund, Mid Cap Index Fund, Small Cap Index Fund, and Stock Index Fund; the related statement of operations for the year ended March 31, 2021, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for the period from July 31, 2020 (commencement of class operations) through March 31, 2021 for Global Sustainability Index Fund, and the related notes.

In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of Emerging Markets Equity Index Fund, Global Real Estate Index Fund, International Equity Index Fund, Mid Cap Index Fund, Small Cap Index Fund, and Stock Index Fund as of March 31, 2021, and the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of Global Sustainability Index Fund as of March 31, 2021, and the results of its operations for the year ended March 31, 2021, the changes in its net assets for each of the two years in the period then period then ended in conformity with accounting for the year ended March 31, 2021, the changes in its net assets for each of the two years in the period from July 31, 2020 (commencement of class operations) through March 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of March 31, 2021, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

LIQUIDITY RISK MANAGEMENT PROGRAM

Each Fund has adopted and implemented a Liquidity Risk Management Program (the "Program") as required by rule 22e-4 under the Investment Company Act of 1940. The Program seeks to assess, manage and review each Fund's Liquidity Risk. "Liquidity Risk" is defined as the risk that a Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors' interest in the Fund.

The Board has appointed Northern Trust Investments, Inc. ("NTI"), the investment adviser to the Funds, as the program administrator for the Program. NTI has delegated oversight of the Program to the Northern Trust Asset Management Credit & Liquidity Risk Committee (the "Committee").

At a meeting held on November 18-19, 2020, the Board received and reviewed the annual written report of the Committee, on behalf of NTI (the "Report"), concerning the operation of the Program for the period from October 1, 2019 to September 30, 2020 (the "Reporting Period"). The Report addressed the operation of the Program and assessed its adequacy and effectiveness of implementation.

The Report summarized the operation of the Program and the information and factors considered by the Committee in reviewing the adequacy and effectiveness of the Program's implementation with respect to each Fund. Such information and factors included, among other things: (i) the liquidity risk framework used to assess, manage, and periodically review each Fund's liquidity risk and the results of the assessment; (ii) the methodology and inputs used to classify the liquidity of each Fund's portfolio investments and the Committee's assessment that each Fund's strategy is appropriate for an open-end mutual fund; (iii) that each Fund held primarily highly liquid assets (investments that the Fund anticipates can be converted to cash within 3 business days or less in current market conditions without significantly changing their market value); (iv) that none of the Funds required the establishment of a highly liquid investment minimum and the methodology for that determination; (v) confirmation that none of the Funds had breached the 15% maximum illiquid security threshold (investments that cannot be sold or disposed of in seven days or less in current market conditions without the sale of the investment significantly changing the market value of the investment) and the procedures for monitoring compliance with the limit; and (vi) historical information regarding redemptions and shareholder concentration in each Fund. The Report also summarized the changes made to the Program over the course of the year.

Based on the review, the Report concluded that the Program was being effectively implemented and that the Program was reasonably designed to assess and manage each Fund's liquidity risk. There can be no assurance that the Program will achieve its objectives under all circumstances in the future. Please refer to your Fund's prospectus for more information regarding the Fund's exposure to liquidity risk and other risks to which it may be subject.

MARCH 31, 2021 (UNAUDITED)

FUND EXPENSES

As a shareholder of the Funds, you incur two types of costs: (1) transaction costs, if any, including redemption fees on certain exchanges and redemptions in the Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index, and International Equity Index Funds; and (2) ongoing costs, including management fees and other fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, October 1, 2020 through March 31, 2021.

ACTUAL EXPENSES

The first line of the tables below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled Expenses Paid 10/1/2020 - 3/31/2021 to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line in the tables below provides information about hypothetical account values and hypothetical expenses based on the Funds' actual expense ratios and an assumed rate of return of 5 percent per year before expenses, which is not the Funds' actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5 percent hypothetical example with the 5 percent hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads), redemption fees, or exchange fees or other costs such as advisory fees related to affiliated money market fund investments, but shareholders of other funds may incur such costs. For example, the information does not reflect redemption fees (See page 130), if any, in the Emerging Markets Equity Index, Global Real Estate Index, Global Sustainability Index, and International Equity Index Funds. If these fees were included, your costs would have been higher. The information also does not reflect reimbursements of advisory fees incurred in connection with the investment of uninvested cash in affiliated money market funds (See page 134), which may result in different expense ratios in the Financial Highlights. Therefore, the hypothetical information is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds.

Expenses are calculated using the Funds' annualized expense ratios, which represent ongoing expenses as a percentage of net assets for the six months ended March 31, 2021. Expenses are equal to the Funds' annualized expense ratio for the period October 1, 2020 through March 31, 2021, multiplied by the average account value over the period, multiplied by 182/365 (to reflect the one-half year period). Expense ratios for the most recent half year may differ from expense ratios based on one-year data in the Financial Highlights.

INVESTMENT CONSIDERATIONS

EMERGING MARKETS EQUITY INDEX FUND^{2,3,4,6,8,10} GLOBAL REAL ESTATE INDEX FUND^{1,2,3,4,5,6,7,8,10} GLOBAL SUSTAINABILITY INDEX FUND^{1,3,4,5,6,9,10} INTERNATIONAL EQUITY INDEX FUND^{3,4,5,6,8,10} MID CAP INDEX FUND^{3,6,10} SMALL CAP INDEX FUND^{3,8,10} STOCK INDEX FUND^{3,5,10}

¹ **Depositary Receipts Risk:** Foreign securities may trade in the form of depositary receipts. In addition to investment risks associated with the underlying issuer, depositary receipts may expose the Fund to additional risks associated with nonuniform terms that apply to depositary receipt programs, including credit exposure to the depository bank and to the sponsors and other parties with whom the depository bank establishes the programs, currency, political, economic, market and liquidity risks. Depositary receipts are generally subject to the same risks as the foreign securities that they evidence or into which they may be converted. Depository receipts may not track the price of the underlying foreign securities on which they are based, may have limited voting rights, and may have a distribution subject to a fee charged by the depository. As a result, equity shares of the underlying issuer may trade at a discount or premium to the market price of the depository receipts.

² Emerging Markets Risk: Markets of emerging market countries are less developed and less liquid, subject to greater price volatility and generally subject to increased economic, political, regulatory and other uncertainties than more developed markets.

³ Equity Market Risk: The value of equity securities owned by the Fund may decline, at times sharply and unpredictably, including in response to expected, real or perceived economic, political or financial events in the U.S. or global markets. Equity securities may fluctuate in value due to economic changes or other events, including but not limited to local or regional events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions or other events or adverse investor sentiment, that affect individual issuers or large portions of the market.

⁴ **Foreign Securities Risk:** Investing in foreign (non-U.S.) securities may result in the Fund experiencing more rapid and extreme changes in value than a fund that invests exclusively in securities of U.S. companies.

⁵ Large Cap Risk: The stocks of large capitalization companies as a group could fall out of favor with the market, causing the Fund to underperform investments that focus solely on small- or medium-capitalization stocks.

⁶ Mid Cap Risk: The stocks of mid-sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies.

⁷ **REIT/Real Estate Risk:** Investments in real estate companies will make the Fund more susceptible to risks associated with the ownership of real estate and with the real estate industry in general, including lower trading volumes and more abrupt or erratic price movements than the overall securities markets. Investing in REITs involves certain unique risks in addition to those risks associated with investing in the real estate industry in general.

⁸ Small Cap Risk: The stocks of smaller companies may be subject to more abrupt, erratic market movements than stocks of larger, more established companies. Small companies may have limited product lines or financial resources, may be dependent on a small or inexperienced management group, and their securities may trade less frequently and in lower volume than the securities of larger companies, which could lead to higher transaction costs. Generally, the smaller the company size, the greater the risk.

⁹ **Socially Responsible Investment Risk:** The socially responsible investment policies of the Fund's index may restrict the investments available to the Fund. This could cause the Fund to underperform similar funds that do not have a social responsibility objective.

¹⁰ **Tracking Risk:** The Fund's performance may vary substantially from the performance of the benchmark index it tracks as a result of share purchases and redemptions, transaction costs, expenses and other factors. Market disruptions may have an adverse effect on a Fund's ability to adjust its exposure to the required levels in order to track its index. During periods of market disruption, a Fund's benchmark index may postpone periodic rebalancing, causing the index, and in turn the Fund, to deviate from the index stated methodology and experience returns different from those that would have been achieved under a normal rebalancing or reconstitution schedule.

PORTFOLIO HOLDINGS

Northern Funds files its complete schedule of portfolio holdings with the U.S. Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Funds' Forms N-PORT are available on the SEC's web site at sec.gov.

PROXY VOTING

Northern Funds' Proxy Voting Policies and Procedures and each Fund's portfolio securities voting record for the 12-month period ended June 30 are available upon request and without charge by visiting Northern Funds' web site at northerntrust.com/funds or the SEC's web site at sec.gov or by calling the Northern Funds Center at 800-595-9111.

PROTECTING YOUR PRIVACY

Protecting your privacy is important at Northern Funds, which is why we wanted you to know:

- We do not sell non-public personal information about our investors or former investors to any outside company.
- We have policies that limit access to your information to only those people who need it to perform their jobs and provide services to you, and we have physical, electronic and procedural safeguards that comply with federal standards to guard your personal information.
- We collect information about you from applications, forms, conversations and your use of our Web site; third parties with your permission; and your transactions with us, our affiliates and our joint marketing partners.
- We do not disclose the information we collect about our investors or former investors to anyone, except to companies that perform services for us, affiliates with whom we have joint marketing agreements such as Northern Trust, (1) for our everyday purposes, such as to process transactions, maintain accounts, respond to court orders and legal investigations or report to credit bureaus or (2) as permitted by law.
- The information includes account balances and account history. You may limit our use or sharing of information about you with our affiliates and joint marketing partners for marketing purposes by calling 800-595-9111 weekdays from 7:00 a.m. to 5:00 p.m. Central time or by writing to us at Northern Funds, P.O. Box 75986, Chicago, IL 60675-5986.

If our information sharing practices change, we will send you a revised notice. You can also visit our Web site, **northerntrust.com/funds**, for an online version of our current privacy notice.

SHAREHOLDER COMMUNICATIONS

In order to help reduce expenses and reduce the amount of mail that you receive, we generally send a single copy of all materials, including prospectuses, financial reports, proxy statements and information statements to all investors who share the same mailing address, even if more than one person in a household holds shares of a fund.

If you do not want your mailings combined with those of other members of your household, you may opt-out at any time by contacting the Northern Funds Center either by telephone at **800-595-9111**; by mail at Northern Funds, P.O. Box 75986, Chicago, Illinois 60675-5986; or by sending an e-mail to **northern-funds@ntrs.com**.
