Safe, secure and ready when you are,
sign up for eDelivery today.

Visit [PrincipalFunds.com](https://www.principalfunds.com) >

Note: If your shares are not held directly with Principal Funds but through a brokerage firm, please contact your broker for electronic delivery options available.

Beginning on March 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the report from the Fund or your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive such reports electronically, you will not be affected by this change and you do not need to take any action. If you have not previously elected electronic delivery, you may elect to receive reports and other communications from the Fund electronically by visiting our website at www.principalfunds.com/edelivery for instructions on enrolling in eDelivery or calling 800-222-5852. If you own these shares through a financial intermediary, you may contact your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you wish to continue receiving paper copies of your reports, you can inform the Fund by calling 800-222-5852. If you own these shares through a financial intermediary, you may contact your financial intermediary or follow instructions included with this disclosure to elect to continue to receive paper copies of reports. Your election to receive reports in paper will apply to all funds with the Fund complex or to the shares you own through your financial intermediary.

Economic & Financial Market Review

The mindboggling rebound from the wreckage of the COVID-19 lockdown arrived in the third quarter. In the Eurozone, real gross domestic product (GDP) grew at a skyrocketing 61.1% annualized pace from the second quarter. United States GDP leapt by a nearly as astonishing 33.1% annualized, even with no inventory gain and a three-percentage-point deduct from net exports. The U.S. economic revival continued. China's resurgence remained vigorous as the first country to show an annual gain in GDP.

Rising risks induced the European Central Bank to signal more easing action in December to keep financial conditions favorable. In similar action, the United Kingdom support programs have already been extended. Households still had the wherewithal to spend as U.K. and Eurozone retail sales were already well above pre-pandemic levels. As Asia gets back to normal, Europe could benefit from robust foreign demand.

The outlook may have brightened somewhat for Japan. Most of the remaining restrictions on activity were eased in September. Retail sales recovered almost all the ground lost during April and May. Industrial production jumped 4.0% in September, the fourth consecutive gain, and manufacturers expect a sustained recovery. Exports gained momentum given the strong rebound in China and other parts of Asia. Surveys of purchasing managers improved a bit in October but showed only limited healing.

China's amazing resurgence continued as the economy returned to normal. Retail sales had been the slowest sector to come back but September sales were 3.3% above the prior year. Households had restrained their activity for some months over possible new outbreaks, but the strong showing in retail reflects a broader consumer recovery. Exports have been vigorous for months, but solid imports in September pointed to strengthening domestic demand. Credit expansion was sizeable in the latest data with total social financing rising 13.5% over the prior year.

Renewed restrictions on U.S. economic activity from rising daily COVID-19 cases were limited. Absent a stronger second wave of infections, the U.S. economic rebound appeared to have compelling momentum to carry into 2021. Capital spending was brisk; shipments of nondefense capital goods ex aircraft was nicely above year-ago levels. Housing activity was booming, with homebuilder confidence at record levels the last two months.

Surveys of manufacturing businesses by regional Federal Reserve banks were uniformly robust. The national business surveys by MNI Markit News International were also healthy; the October composite index tied the best level since July 2018. The service sector was hit the hardest by the pandemic, yet even the index level for services companies is the highest since June 2018. The Conference Board's index of job availability is the same as November 2016 when the jobless rate was less than 5%.

Important Fund Information

The following information applies to all funds shown in the annual report:

Securities described in the fund commentary may no longer be held in the fund.

Investment results shown represent historical performance and do not guarantee future results. Your investment's returns and principal values will fluctuate with changes in interest rates and other market conditions so the value, when redeemed, may be worth more or less than original costs. Current performance may be lower or higher than the performance shown. For more information, including the most recent month-end performance, visit principalfunds.com, call your financial professional, or call 800-222-5852.

A sales charge may apply as follows: Class A shares: maximum up-front sales charges on sales based on declining rates which begin at 1.50% for LargeCap S&P 500 Index Fund, 2.25% for Core Fixed Income Fund, Government & High Quality Bond Fund, and Short-Term Income Fund, 3.75% for California Municipal Fund, Core Plus Bond Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, High Income Fund, High Yield Fund, Inflation Protection Fund, and Tax-Exempt Bond Fund, and 5.50% for Diversified International Fund, Equity Income Fund, Global Real Estate Securities Fund, International Emerging Markets Fund, International Fund I, LargeCap Growth Fund I, MidCap Fund, MidCap Value Fund I, Principal Capital Appreciation Fund, Real Estate Securities Fund, SmallCap Fund, and SmallCap Value Fund II; Class C shares: contingent deferred sales charge of 1% on redemptions made during the first 12 months. See the prospectus for details. Performance listed with sales charge reflects the maximum sales charge.

* Performance assumes reinvestment of all dividends and capital gains. Extended performance is calculated based on the historical performance of the Fund's oldest share class, adjusted for the fees and expenses of the share class shown. Performance does not reflect the impact of federal, state, or municipal taxes. If it did, performance would be lower.

** Net asset value is not adjusted for sales charge.

*** Performance shown for the benchmark assumes reinvestment of all dividends and distributions. Indices are unmanaged, and individuals cannot invest directly in an index.

California Municipal Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date

	Including Sales Charge	0.61%	2.81%	3.58%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide as high a level of current income that is exempt from federal and state personal income tax as is consistent with prudent investment management and preservation of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in California municipal obligations (securities issued by or on behalf of state or local governments and other public authorities) at the time of purchase. Generally, these municipal obligations pay interest that is exempt from state personal income tax and federal income tax. The investment seeks to provide as high a level of current income that is exempt from federal and state personal income tax as is consistent with prudent investment management and preservation of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in California municipal obligations (securities issued by or on behalf of state or local governments and other public authorities) at the time of purchase. Generally, these municipal obligations pay interest that is exempt from state personal income tax and federal income tax.

Allocation to CHF Davis I LLC-Student Housing (BAM), San Diego County Desalination Project, and Kaiser Permanente Hospital contributed.

Allocation to United Airlines, California St. (Construction), and LAX Integrated Express detracted.

Core Fixed Income Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	6.32%	4.41%	4.03%	12/15/75
	Including Sales Charge	3.87%	3.93%	3.80%	
Class C Shares	Excluding Sales Charge	5.42%	3.58%	3.20%	3/1/02
	Including Sales Charge	4.42%	3.58%	3.20%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide a high level of current income consistent with preservation of capital. The fund invests primarily in a diversified pool of investment-grade fixed-income securities, including corporate securities, U.S. government securities, asset-backed securities and mortgage-backed securities. It maintains an average portfolio duration that is within from 75% to 125% of the duration of the Bloomberg Barclays US Aggregate Bond Index.

Overweight to corporates contributed. Security selection in technology contributed. Overweight to banking contributed.

Overweight to asset-backed securities detracted. Security selection in energy and transportation detracted.

Core Plus Bond Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	6.98%	4.15%	3.65%	6/28/05
	Including Sales Charge	3.01%	3.36%	3.26%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide current income and, as a secondary objective, capital appreciation. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in bonds or other debt securities at the time of purchase. Under normal circumstances, the fund maintains an average portfolio duration that is within from 75% to 125% of the duration of the Bloomberg Barclays U.S. Aggregate Bond Index.

For the last twelve months, the portfolio outperformed the Bloomberg Barclays U.S. Aggregate Bond Index, driven by positive sector allocation and duration positioning.

Out-of-index allocation to below investment-grade corporate bonds contributed. Overweight allocation to investment-grade corporate bonds contributed. Long duration positioning contributed.

Security selection within commercial mortgage-backed securities (CMBS) detracted. Curve positioning detracted. Overweight allocation to CMBS detracted.

Diversified International Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	3.59%	4.39%	4.48%	6/28/05
	Including Sales Charge	-2.12%	3.22%	3.90%	
Class C Shares	Excluding Sales Charge	2.79%	3.63%	3.75%	1/16/07
	Including Sales Charge	1.79%	3.63%	3.75%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund invests primarily in foreign equity securities. It has no limitation on the percentage of assets that are invested in any one country or denominated in any one currency, but the fund typically invests in foreign securities of at least 20 countries. The fund invests in equity securities regardless of market capitalization size (small, medium or large) and style (growth or value).

Strong stock selection was witnessed in Japan and the information technology and energy sectors.

Logitech, a leading designer and manufacturer of personal peripherals for the PC and other digital platforms, reported sales improved +15% year-over-year, as work from home categories led growth for the company. Neste, the European refiner, reported strong renewables business performance during the period, while Softbank, the Japanese mobile telecom company, sees benefit as its investments in the online space experience growth as a result of the COVID-19 stay-at-home environment.

On the other hand, negative attribution was seen in China and the financials and consumer discretionary sectors.

Credicorp, owner of Peru's largest bank, experienced a challenging macro environment during the period, leading to underperformance. Taylor Wimpey, the third largest UK homebuilder by volume, experiences an ongoing headwind due to Brexit uncertainties; however, any form of resolution to Brexit, whether Hard or not, should help to unlock the rerating in this cyclical-value opportunity. Not holding Meituan, a Chinese retailing company operating in food delivery service and hotel/travel service, led to underperformance as the food delivery business has seen higher adoption rates and faster-than-expected recovery post COVID-19.

Equity Income Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	-3.49%	8.49%	9.91%	5/31/39
	Including Sales Charge	-8.81%	7.27%	9.29%	
Class C Shares	Excluding Sales Charge	-4.23%	7.68%	9.10%	3/1/02
	Including Sales Charge	-5.15%	7.68%	9.10%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide current income and long-term growth of income and capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in dividend-paying equity securities at the time of purchase. It usually invests in equity securities of companies with large and medium market capitalizations. The fund invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

Apple Inc. (AAPL) outperformed as the company continues to top expectations and diversify their revenue streams. Taiwan Semiconductor Manufacturing Co., Ltd. Sponsored ADR (TSM) outperformed as the company beat expectations and raised their full year guidance. Deere & Company (DE) outperformed on the success of the company's innovative agriculture product lines as agriculture markets recover.

Marathon Petroleum Corporation (MPC) detracted from relative results as sentiment for energy companies worsened. Delta Air Lines, Inc. (DAL) detracted as the airline industry faced a steep reduction in demand due to the COVID-19 pandemic. Fidelity National Financial, Inc. - FNF Group (FNF) a title insurance company, has seen strong refinance strength within residential, but shares have trailed the broader markets as investors have reacted negatively to the acquisition announcement of FGL Holdings.

Finisterre Unconstrained Emerging Markets Bond Fund

Investment Advisor: Principal Global Investors, LLC
Sub-Advisor: Finisterre Capital LLP

Value of a \$10,000 Investment* July 11, 2016 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	Since Inception	Inception Date
Class A Shares	Excluding Sales Charge	2.56%	5.64%	7/11/16
	Including Sales Charge	-1.30%	4.70%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to generate total returns from current income and capital appreciation. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in bonds and other fixed-income securities that are tied economically to an emerging market country, and in derivatives on such investments. It uses derivatives to enhance return and to hedge and manage investment risks. The fund is non-diversified.

Over the period, our strongest contributor was our positioning in Sri Lanka sovereign credit. With bond yields having retraced from 20+% when we initiated the position to 10% in September, we have flattened out the risk in the strategy as we wait to see how events unfold later in the year. Our lingering positioning in Indonesian local sovereign was also a strong contributor. Finally, our investment in Israel Sovereign Credit new issue in early April 2020 also contributed positively to the performance.

On the other hand, our biggest detractor came from our largest positions held during the crisis as in Mexico financial debt and a large quasi sovereign oil company. Our exposure to Ghana sovereign credit, as an oil producer country, has also been a key detractor to the performance. Finally we saw losses coming from our exposure to Ukraine Sovereign credit.

Global Diversified Income Fund

Investment Advisor: Principal Global Investors, LLC

Sub-Advisor: DDJ Capital Management, LLC; Finisterre Capital LLP; MetLife Investment Management, LLC; Post Advisory Group, LLC; Principal Real Estate Investors, LLC; Spectrum Asset Management, Inc.; W.H. Reaves & Co., Inc.

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	-4.01%	3.37%	4.76%	12/15/08
	Including Sales Charge	-7.58%	2.58%	4.36%	
Class C Shares	Excluding Sales Charge	-4.71%	2.58%	3.98%	12/15/08
	Including Sales Charge	-5.63%	2.58%	3.98%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks income. The fund generally invests a majority of its assets in fixed income securities, such as high yield bonds (also known as "junk" bonds), preferred securities, commercial mortgage-backed securities, and emerging market debt securities, in an effort to provide incremental yields over a portfolio of government securities. It also invests in equity securities in an effort to provide incremental dividend yields and diversify fixed-income related risks.

Style selection within equities contributed as infrastructure stocks outperformed broader world value stocks. Manager performance within high yield contributed as both Post and DDJ outperformed their individual high yield benchmark. Manager performance within REITs contributed as Principal-REI had very strong security selection which led them to outperform their individual index.

Manager performance and style selection from commercial mortgage-backed securities (CMBS) detracted as the asset class performance succumbed to deleveraging and technical pressures and significantly underperformed the broader global aggregate index. Style selection within emerging markets debt detracted as the sensitivity of the asset class and our portfolio to a shrinking global economy and energy prices caused the asset class to underperform the broader global aggregate index. Style selection from high yield detracted as the asset class underperformed the broader aggregate index.

Global Real Estate Securities Fund

Investment Advisor: Principal Global Investors, LLC
Sub-Advisor: Principal Real Estate Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	-17.41%	2.40%	5.83%	10/1/07
	Including Sales Charge	-21.96%	1.25%	5.23%	
Class C Shares	Excluding Sales Charge	-18.08%	1.61%	5.02%	10/1/07
	Including Sales Charge	-18.87%	1.61%	5.02%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to generate a total return. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of U.S. and non-U.S. companies principally engaged in the real estate industry at the time of purchase. For the fund's investment policies, a real estate company has at least 50% of its assets, income or profits derived from products or services related to the real estate industry.

An overweight position to Goodman Group contributed. COVID-19 has driven an acceleration in demand for logistics space as retailers rush to position for increased online retail sales. We believe the company is well-positioned to benefit from continued cap rate compression in the industrial/logistics space. An overweight to Vonovia SE contributed. German housing has been almost unaffected by the COVID-19 pandemic, as the sector has resilient rent collections and occupancy and appetite for this defensive asset class has increased over time. The stock also benefitted from announcing an expansion into the Netherlands and continued efficiency gains. An overweight position to SEGRO plc contributed. Segro's pan-European industrial and warehouse portfolio and large development pipeline (with significant pre-letting) concentrated around key transport hubs and the edges of major urban conurbations benefits from these tailwinds.

Not holding Deutsche Wohnen SE detracted. The company was supported by rising confidence that the Berlin rent restrictions which have hamstrung growth this year will be overturned, which would be a positive impact on this Berlin-heavy portfolio. An underweight to Public Storage detracted. The defensive nature of the sector and the company's extremely low leverage supported the company's outperformance in the first half of the year. In the third quarter of 2020, storage companies provided better than expected commentary regarding occupancy and street rates, which led to broad outperformance for the sector. An overweight to Japan Hotel REIT Investment Corporation was a detractor. The stock suffered from COVID-19 stay at home mandates and travel restrictions that impacted all hospitality stocks. As a result, the region was also impacted by the cancellation of the Tokyo Olympics.

Government & High Quality Bond Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	2.82%	2.26%	2.40%	5/4/84
	Including Sales Charge	0.53%	1.80%	2.17%	
Class C Shares	Excluding Sales Charge	1.97%	1.43%	1.56%	3/1/02
	Including Sales Charge	0.97%	1.43%	1.56%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks a high level of current income consistent with safety and liquidity. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in debt securities issued by the U.S. government, its agencies or instrumentalities or debt securities that are rated, at the time of purchase, AAA by S&P Global or Aaa by Moody's, including but not limited to mortgage securities such as agency and non-agency collateralized mortgage obligations, and other obligations that are secured by mortgages or mortgage-backed securities.

As a result of the COVID crisis in early 2020 Treasury rates rallied and the Fed embarked upon its QE4 purchase programs. With this support, Treasury rates remained low over the course of the year with the primary 30yr mortgage rate moving from ~ 3.8% in October 2019 to ~2.8% in October 2020. This decline resulted in high prepayment speeds within the MBS market and increased demand for specified pools. Further, the specified pools held by the fund experienced prepayment rates that were lower than generic collateral resulting in additional carry for the fund. As the specified pools comprise the majority of pools held by the fund this was a primary contributor to performance. The fund's underweight to 30-year GNMA MBS also contributed to performance. Out-of-index allocation to non-agency commercial mortgage-backed securities (CMBS) was the largest detractor to performance. Out-of-index allocations to agency commercial mortgage-backed securities (ACMBS) and agency collateralized mortgage obligations (agency CMO) also detracted.

High Income Fund

Investment Advisor: Principal Global Investors, LLC
Sub-Advisors: DDJ Capital Management LLC; Mellon Investments Corporation; Post Advisory Group, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date	Extended Performance Inception Date*
Class A Shares	Excluding Sales Charge	2.28%	4.16%	4.63%	3/1/13	12/29/04
	Including Sales Charge	-1.53%	3.36%	4.24%		

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks high current income. Under normal circumstances, the fund invests primarily in below investment grade bonds and bank loans which are rated, at the time of purchase, Ba1 or lower by Moody's Investors Service, Inc. ("Moody's") and BB+ or lower by S&P Global Ratings ("S&P Global") (if the bond or bank loan has been rated by only one of those agencies, that rating will determine whether it is below investment grade; if the bond or bank loan has not been rated by either of those agencies, those selecting such investments will determine whether it is of a quality comparable to those rated below investment grade).

Selection in the capital goods and energy sub-sectors contributed to returns for the year. The consumer non-cyclical sub-sector also contributed to performance especially selection within health care. An underweight to the transportation sub-sector also enhanced returns.

Selection in the basic industry and communication sub-sectors detracted from performance for the year. An overweight to cash dragged on returns. An underweight to the technology and communications sub-sectors hurt returns.

* Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

High Yield Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	3.39%	5.24%	5.59%	4/8/98
	Including Sales Charge	-0.50%	4.43%	5.19%	
Class C Shares	Excluding Sales Charge	2.74%	4.48%	4.83%	3/1/02
	Including Sales Charge	1.76%	4.48%	4.83%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide a high level of current income. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in below investment grade bonds and bank loans (sometimes called "high yield" or "junk") which are rated, at the time of purchase, Ba1 or lower by Moody's and BB+ or lower by S&P Global. It also invests in investment grade bank loans (also known as senior floating rate interests) and securities of foreign issuers, including those located in developing or emerging markets.

Security selection positively impacted returns due to the outperformance from overweights to Southwestern Energy, underweights to Chesapeake Energy, Hertz Global Holdings and Valaris, and our positioning within the capital structures of Intelsat, and Southwestern Energy.

This was somewhat offset by the underperformance from overweights to EP Energy, Oasis Petroleum, and Shell Drilling Holdings, underweights to Occidental Petroleum, and Western Midstream. Sector allocation underperformed due to underweights to energy and consumer con-cyclicals. However, this was somewhat offset due to an underweight to REITs, and an overweight to banking.

Inflation Protection Fund

Investment Advisor: Principal Global Investors, LLC
Sub-Advisor: BlackRock Financial Management, Inc.; Blackrock International Limited

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	8.26%	3.50%	2.36%	6/28/05
	Including Sales Charge	4.20%	2.72%	1.97%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide current income and real (after inflation) total returns. The fund invests primarily in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and U.S. and non-U.S. corporations. It normally maintains an average portfolio duration that is within from 80% to 120% of the duration of the Bloomberg Barclays U.S. Treasury Inflation Protected Securities (TIPS) Index. The fund also invests in foreign securities, U.S. Treasuries and agency securities.

The portfolio's relative value position between Spanish (overweight) vs. German (underweight) 10-year nominal rates contributed to performance, as spreads compressed significantly due to the supportive monetary and fiscal policy backdrop that boosted the market's confidence in Spain's ability to recover. Similarly, the portfolio's long Italian front-end nominal rates and relative value positioning between Italian vs. German 10-year nominal rates further augmented performance. Our relative value positions between New Zealand vs. US long-end nominal rates aided performance, as the rally of New Zealand 30-year nominal rates outpaced that of the US. The portfolio's tactical allocation to Emerging Market Sovereigns was additive to performance as spread levels compressed.

The portfolio's German nominal curve steepener (overweight 2-year vs. underweight 10-year) also benefitted returns. The team added to the steepener in January after the belly remained elevated, and we expected the spread to widen against the front end of the curve. The 10-year nominal rate sell-off significantly outpaced 2-year nominal rates in mid-March, in part due to the announcement of accommodative monetary policy actions by the European Central Bank (ECB), most notably the €750 bn Pandemic Emergency Purchase Program (PEPP). The Italian long-end nominal rates flattener slightly contributed to performance when 10-year nominals' sell-off outpaced 30-year nominals by as much as 72 bps from late January until mid-March. The widening of the spread was partly driven by the escalating severity of the outbreak in Italy. The team added to its overweight in US real rates in March, which augmented performance after the Fed's purchase program supported the treasury inflation-protected securities (TIPS) market in late March and into the summer months.

The tailwind from the breakthrough in Brexit negotiations and UK Prime Minister Boris Johnson's election victory in Q4 2019 helped the portfolio's structural short in UK breakevens. The resiliency of UK breakevens during the pandemic slightly pared the positive performance of both the portfolio's relative value positions in the US/EU (long) vs. the UK (short) inflation expectations and the outright short position in UK breakevens.

Inflation Protection Fund

As the moves lower in nominal yields outpaced that of the moves lower in real yields amid escalating fears around the outbreak, inflation expectations (breakevens) narrowed precipitously. This hurt the performance of the portfolio's long breakeven expressions in the EU, Japan, and the US. Nevertheless, the rebound of global risk assets over Q2 and Q3 pared some of the underperformance in breakevens. Amongst them, inflation expectations in the US recovered the most seeing 10-year US breakevens briefly surge past the pre-pandemic peak in late August.

The portfolio was broadly positioned for a risk-on, reflationary environment entering 2020. The historic rally in global rates resulted from the COVID-19 outbreak thus generally hurt performance. The sustained rally in US rates that began in late January negatively impacted the portfolio's structural bias to being underweight US nominal rates. The US market began pricing in a potential democratic sweep scenario in the US election in late Q3 and October. This sparked a sharp sell-off in 10-year US nominal rates by ~20 bps in October and helped pare some of the underperformance. Further detracting from the performance was the portfolio's exposure in Canadian (overweight) vs. US (underweight) nominal rates and FX relative value positioning between those countries. The impact was especially notable after the emergence of the oil shock in February. Further detracting from performance was our tactical allocation around selling interest rate volatility. Our subsequent tactical volatility trades helped regain some of the underperformance.

The team sees derivatives as an effective and efficient tool to manage duration, yield curve, and volatility risk in the Portfolio. During the period, the Portfolio utilized forward currency contracts to hedge the currency exposure associated with some or all of the Portfolio's securities and shift investment exposure from one currency to another. We utilized futures contracts to manage duration and yield exposure of the Portfolio in an efficient manner. We used options to create various exposures for the Portfolio, isolate perceived mispricing, and create asymmetric risk profiles. We also used written options to increase the Portfolio's carry. We used interest rate swaps to express our breakeven strategies or enhance yields of already existing positions. We used inflation swaps to hedge underlying inflation-linked positions, and caps and floors that provide protection against adverse moves in the inflation market.

For the trailing 1-year period ending on October 31st, 2020, the Portfolio's aggregate currency positioning strategy modestly contributed. Our overall U.S. duration positioning detracted from performance but is partly offset by some positive contribution from overall yield curve positioning.

International Emerging Markets Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

	Including Sales Charge	4.73%	5.24%	1.03%	
Class C Shares	Excluding Sales Charge	9.74%	5.35%	0.60%	1/16/07
	Including Sales Charge	8.74%	5.35%	0.60%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of emerging market companies at the time of purchase. "Emerging market " means any market which is considered to be an emerging market by the international financial community (including the MSCI Emerging Markets Index or Bloomberg Barclays Emerging Markets USD Aggregate Bond Index). It invests in equity securities regardless of market capitalization (small, medium or large) and style (growth or value).

Both the Asia and EMEA regions outperformed during the period. China and Taiwan were the best performing markets in Asia while South Africa was the best performer in EMEA. Notable contributors were JD.com, up 161.7%, Meituan, up 211.0%, Tencent, up 86.7%, and Taiwan Semiconductor, up 57.8%. Outperformance in South Africa was primarily driven by our underweight and no exposure to the financials sector, which declined 40.0%. From a sector standpoint consumer discretionary was the best performing sector, driven by our retailing exposure. In addition to the aforementioned China holdings, we also benefitted from our holding in MercadoLibre, up 131.8%. The pandemic accelerated consumer trends for e-commerce and that was the notable theme for why we outperformed in the sector. The next best performing sectors were energy and communication services, primarily driven by our stock selection in both sectors. Argentina was the top performing market in the Latin America region where our holding, MercadoLibre, drove relative gains. Negative stock selection in South Korea, India, and Brazil were the main sources of weakness during the period. The financials sector was the worst relative performer during the period, largely driven by our holding in IRB Brasil. The company came under pressure during the period following a short report published by Squadra (Rio-based hedge fund) which questioned their accounting methods. We were also hurt by our Latin American holdings, Credicorp, down 42.9%, Petrobras Distribuidora, down 51.0%, and Banco do Brasil, down 55.3%. Within China, we had 2 notable detractors during the period. We owned PICC Property & Casualty, which fell 43.0% and we were hurt by no exposure to NIO Inc., which surged 2,009.0% over the last year.

International Fund I

Investment Advisor: Principal Global Investors, LLC
Sub-Advisor: Origin Asset Management LLP

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date	Extended Performance Inception Date*
Class A Shares	Excluding Sales Charge	3.66%	4.59%	4.83%	6/3/14	12/29/03
	Including Sales Charge	-2.02%	3.41%	4.24%		

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund invests primarily in foreign equity securities, including emerging market securities. It typically invests in foreign securities of at least ten countries. The fund invests in equity securities of small, medium, and large market capitalization companies. It invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

The twelve month review period saw the Fund generate modest single digit returns, but substantially outperform its benchmark with most geographic regions and industrial sectors contributing to this very strong relative performance. Regional highlights included positive stock selection in Emerging Markets, particularly Taiwan and China and also very good stock selection in Europe. The only negative point of note at the country level was Canada where a couple of particularly weak individual holdings pared overall gains fractionally.

Looking at Industrial sectors, again contributions were seen from most areas with particular stand-out contributions coming from Information Technology and Materials sectors, where we were overweight benchmark, and from Energy, where our low weightings relative to benchmark boosted relative returns as that sector lagged. Our modest bias away from the very largest companies in the world did not help relative returns but the marginal cost of this bias was more than offset by strong stock selection in all size buckets, from the largest to the smallest.

* Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

LargeCap Growth Fund I

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date	Extended Performance Inception Date*
Class A Shares	Excluding Sales Charge	27.86%	17.09%	15.64%	3/1/13	12/6/00
	Including Sales Charge	20.81%	15.78%	14.99%		

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations at the time of purchase. It invests in growth equity securities, an investment strategy that emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.

The health care sector was the biggest contributor to performance driven by strong stock selection. Stock selection in the communication services and real estate sectors also enhanced performance. An underweight in the financials sector benefited the portfolio.

Stock selection in the information technology sector hindered performance. An overweight to industrials and utilities was not beneficial to returns. An underweight to information technology was a drag on performance.

* Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

LargeCap S&P 500 Index Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date

	Including Sales Charge	7.27%	10.26%	11.55%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies that compose the S&P 500 Index at the time of purchase. The index is designed to represent U.S. equities with risk/return characteristics of the large cap universe.

During the 12-month period ending in October 2020, the Principal LargeCap S&P 500 Index Fund was in line with the S&P 500 Index. It uses an indexing strategy and does not attempt to manage market volatility, use defensive strategies or reduce the effect of any long-term periods of negative stock market performance. Seven of the eleven economic sectors in the index posted positive returns during the period with the information technology and consumer discretionary sectors providing the best return. NVIDIA, PayPal Holdings, and Apple contributed to fund performance for the 12-month period ending October.

The energy and financial sectors recorded the worst returns during the period. Occidental Petroleum, Boeing, and Wells Fargo detracted from fund performance for the 12-month period ending in October.

MidCap Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	4.83%	12.42%	14.17%	6/28/05
	Including Sales Charge	-0.92%	11.16%	13.52%	
Class C Shares	Excluding Sales Charge	4.02%	11.60%	13.33%	1/16/07
	Including Sales Charge	3.03%	11.60%	13.33%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with medium market capitalizations at the time of purchase. For this fund, companies with medium market capitalizations are those with market capitalizations within the range of companies comprising the Russell Midcap® Index. The fund also invests in foreign securities.

Over its fiscal year, MidCap Fund's performance was helped by positive company selection, especially in the Real Estate, Industrial, and Financial sectors. The largest contributor to MidCap Fund's performance was Wix.com, a founder-led software company that offers easy-to-use website building tools. Wix.com enables the creation of a sophisticated digital presence at an attractive price, which has become even more important over the last year. MidCap Fund's next largest contributor was Autodesk, the leader in computer-aided design software that is essential for architects and manufacturers. Another important contributor to the fund was Copart, which provides auction and remarketing services for salvaged vehicles. Copart has been led by owner-operators Willis Johnson and Jay Adair for decades.

On the other hand, sector allocation mostly detracted from MidCap Fund's relative performance, as the fund had less weight than the index in the market's two best performing sectors, Health Care and Information Technology. The largest detractor from MidCap Fund's performance was Brookfield Asset Management, an owner and operator of real asset-based businesses around the world. Brookfield is led by Bruce Flatt, who along with other key insiders owns more than 18% of the company as of October 31, 2020. The next largest detractor was Markel, a specialty-insurance company with decades of experience successfully underwriting non-standard and hard to place risks. Another detractor from the fund's performance was Howard Hughes Corporation, a real estate developer with attractive projects in growing U.S. markets such as Houston and Las Vegas.

	Including Sales Charge	-11.47%	3.72%	7.82%		

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with medium market capitalizations at the time of purchase. It invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued. The fund also invests in real estate investment trusts.

Strong stock selection in the consumer staples and real estate sectors enhanced performance. An overweight to the information technology and consumer staples sectors benefited the portfolio. An underweight to energy and real estate also drove performance.

Poor stock selection in the industrials and communication services sectors hurt performance for the year. An overweight to financials detracted from performance. An underweight to the communication services and health care sectors dragged on returns.

* Extended performance is calculated based on the historical performance of the Fund's Institutional class, adjusted for the fees and expense of the share class.

Principal Capital Appreciation Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	10.04%	11.52%	12.45%	11/24/86
	Including Sales Charge	3.99%	10.27%	11.81%	
Class C Shares	Excluding Sales Charge	9.10%	10.59%	11.50%	3/1/02
	Including Sales Charge	8.13%	10.59%	11.50%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide long-term growth of capital. The fund invests primarily in equity securities of companies with any market capitalization, but it has a greater exposure to large market capitalization companies than small or medium market capitalization companies. The managers seek to invest in securities of businesses that they believe are trading at a discount to their private market value (i.e., the value of the business if it was sold), have a competitive advantage, and/or that have barriers to entry in their respective industries.

Deckers Outdoor Corporation (DECK) the footwear, apparel and accessories retailer, best known for their UGG, HOKA and Teva brands reported EPS above estimates and HOKA sales remained strong through the pandemic. Lululemon Athletica Inc (LULU) delivered strong full-year earnings growth and contributed to performance. Taiwan Semiconductor Manufacturing Co., Ltd. Sponsored ADR (TSM) outperformed as the company beat expectations and raised their full year guidance.

Aaron's, Inc. (AAN) detracted as investors reacted negatively to a settlement with the FTC and also became concerned about the effect of COVID-19 on its business. Fidelity National Financial, Inc. - FNF Group (FNF) a title insurance company, has seen strong refinance strength within residential, but shares have trailed the broader markets as investors have reacted negatively to the acquisition announcement of FGL Holdings. Not owning Tesla Inc (TSLA) detracted from relative results.

Real Estate Securities Fund

Investment Advisor: Principal Global Investors, LLC

Sub-Advisor: Principal Real Estate Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2020

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	-15.56%	4.50%	8.48%	6/28/05
	Including Sales Charge	-20.21%	3.32%	7.87%	
Class C Shares	Excluding Sales Charge	-16.21%	3.69%	7.62%	1/16/07
	Including Sales Charge	-17.03%	3.69%	7.62%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to generate a total return. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies principally engaged in the real estate industry at the time of purchase. It invests in value equity securities, an investment strategy that emphasizes buying securities that appear to be undervalued. The fund concentrates its investments (invest more than 25% of its net assets) in securities in the real estate industry. It is non-diversified.

An overweight to Equinix, Inc. contributed. The data center space is one of the few REIT sectors that has seen relatively minimal negative operational impact from COVID-19, while also seeing positive leasing momentum driven by healthy demand. The company is executing well and its (higher margin) interconnection business has particularly benefited in the current environment. An underweight to Simon Property Group, Inc. contributed. Retail has been pressured by COVID-19, as e-commerce penetration accelerated and stay-at-home mandates forced store closures. An overweight to Prologis Incorporated contributed. COVID-19 has accelerated demand for logistics space as retailers rush to position for increased online retail sales. The sector's low vacancy and the acceleration in ecommerce sales are the major drivers of its favorable outlook. An overweight to Avalon Bay Communities, Inc. detracted. The stock suffered from slow leasing activities and poor pricing in coastal gateway markets due to the work-from-home trend from COVID-19. Regulatory uncertainties, especially in the California markets, also pressured the stock. Various local governments requiring flat renewal rates and/or the prevention of eviction of COVID-19 impacted tenants, leading to low rent collection/bad debt. An overweight to EPR Properties detracted. Large exposure to experiential tenants, especially movie theaters, caused underperformance due to COVID-19. An underweight to Public Storage detracted. The defensive nature of the sector and the company's extremely low leverage supported outperformance in the first half of the year. In Q3 2020, storage companies provided better than expected commentary regarding occupancy and street rates, which led to broad outperformance for the sector.

Short-Term Income Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date
Class A Shares	Excluding Sales Charge	3.47%	2.47%	2.08%	11/1/93
	Including Sales Charge	1.17%	2.00%	1.85%

	Including Sales Charge	1.55%	1.57%	1.20%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks as high a level of current income as is consistent with prudent investment management and stability of principal. The fund invests primarily in high quality short-term bonds and other fixed-income securities that, at the time of purchase, are rated BBB- or higher by S&P Global or Baa3 or higher by Moody's. It maintains an effective maturity of five years or less and an average portfolio duration that is within 15% of the duration of the Bloomberg Barclays Credit 1-3 Year Index.

Issue selection in Government Owned No Guarantee contributed. Issue selection in Technology contributed. Underweight to Energy contributed.

Out-of-index allocation to Agency Commercial Mortgage-backed securities detracted. Overweight to Government Owned No Guarantee detracted. Underweight to Banking detracted.

SmallCap Fund

Investment Advisor: Principal Global Investors, LLC

Value of a \$10,000 Investment* October 31, 2010 - October 31, 2020

Performance of other share classes will differ.

Average Annual Total Returns* as of **October 31, 2020**

		1-Year	5-Year	10-Year	Inception Date

	Including Sales Charge	-2.00%	5.88%	9.93%	
Class C Shares	Excluding Sales Charge	2.85%	6.21%	9.67%	1/16/07
	Including Sales Charge	1.88%	6.21%	9.67%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with small market capitalizations at the time of purchase. The managers seek to invest in securities of companies that they believe have improving and sustainable business fundamentals, rising investor expectations, and attractive relative valuations.

Teladoc, a leading provider of telehealth solutions, contributed as it reported better-than-expected operating results and significant demand for its services amid the COVID-19 pandemic. SiTime, a provider of semiconductors that manage clocks and timing in electronic devices, contributed amid increased quarterly guidance partly related to a new smartphone design win. Horizon Therapeutics, a specialty pharmaceutical company now focused on developing therapies for rare and orphan diseases, outperformed following better-than-expected results from faster than anticipated uptake of its newly launched drug, Tepezza. Darling Ingredients, which refines edible and inedible bio-nutrients, reported better-than-expected operating results and highlighted plans to expand biodiesel production. Carvana, an e-commerce platform for buying and selling used cars, reported better-than-expected operating results and a more favorable outlook driven by strong demand and favorable used car prices. Pebblebrook Hotel Trust, a lodging real estate investment trust focused on upscale full-service hotel and resort properties, detracted as hotel occupancy rates were dramatically reduced amid the COVID-19 pandemic. Brink's, a provider of secure logistics and security solutions, reported disappointing earnings and withdrew full year guidance due to COVID-19 uncertainties but has also been impacted by the shift toward paperless transactions. Brandywine Realty Trust, an equity REIT that derives most of its operating income through the ownership and management of office properties located in the mid-Atlantic region, detracted as the outlook for office properties came into question amid the COVID-19 pandemic as many companies shifted their employees to working remotely. Ladder Capital, a commercial mortgage REIT declined due to liquidity and credit concerns related to its commercial loan portfolio that arose amid the COVID-19 containment efforts. Caleres, a retailer and wholesaler of footwear, sold off sharply amid COVID-19 containment efforts.

SmallCap Value Fund II

	Including Sales Charge	0.05%	2.66%	3.23%	

What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide a high level of income that is exempt from federal income tax while protecting investors' capital. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in tax-exempt bonds (securities issued by or on behalf of state or local governments and other public authorities) at the time of purchase. It also invests in inverse floating rate obligations (variable rate debt instruments that pay interest at rates that move in the opposite direction of prevailing interest rates), which are generally more volatile than other types of municipal obligations and may involve leverage.

Allocation to Delta Airlines, TX St. Muni Gas Acquisition & Supply, and North Tarrant Express Managed Lanes contributed.

Allocation to Buckeye Ohio Tobacco, Georgia Proton Center, and Illinois State detracted.

1. Organization

Principal Funds, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company and operates as a series fund in the mutual fund industry. The financial statements for California Municipal Fund, Core Fixed Income Fund, Core Plus Bond Fund, Diversified International Fund, Equity Income Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, Global Real Estate Securities Fund, Government & High Quality Bond Fund, High Income Fund, High Yield Fund, Inflation Protection Fund, International Emerging Markets Fund, International Fund I, LargeCap Growth Fund I, LargeCap S&P 500 Index Fund, MidCap Fund, MidCap Value Fund I, Money Market Fund, Principal Capital Appreciation Fund, Real Estate Securities Fund, Short-Term Income Fund, SmallCap Fund, SmallCap Value Fund II and Tax-Exempt Bond Fund (known as the "Funds") are presented herein. The Funds may offer up to ten classes of shares: Class A, Class C, Class J, Institutional, R-1, R-2, R-3, R-4, R-5, and R-6. Information presented in these financial statements pertains to Class A and Class C shares. Certain detailed financial information for Class J, Institutional, R-1, R-2, R-3, R-4, R-5, and R-6 classes of shares is provided separately.

Each of the Funds is an investment company and applies specialized accounting and reporting under Accounting Standards Codification ("ASC") Topic 946, *Financial Services - Investment Companies*. The Funds have not provided financial support and are not contractually required to provide financial support to any investee.

Effective January 11, 2019, Class C shares discontinued and converted into Class A shares for Core Plus Bond Fund, Inflation Protection Fund, and LargeCap Growth Fund.

Effective March 1, 2019, the initial purchase of \$10,000 of R-6 shares of Diversified International Fund was made by Principal Global Investors (the "Manager").

Effective April 2, 2019, the initial purchases of \$10,000 of Class A and R-6 shares of MidCap Value Fund I were made by the Manager.

Effective April 12, 2019, MidCap Value Fund I, as the accounting legal survivor, acquired all the assets and assumed all the liabilities of MidCap Value Fund III pursuant to a plan of reorganization approved by shareholders on April 5, 2019. The purpose of the acquisition was to combine two accounts managed by the Manager with similar investment objectives, principal policies, and risks. The acquisition was accomplished by a tax-free exchange of 57,375,000 shares from MidCap Value Fund III for 73,317,000 shares valued at \$1,014,959,000 of MidCap Value Fund I at an approximate exchange rate of 1.27, 1.21, 1.28, 1.27, 1.26, 1.22, 1.20, 1.21, and 1.29 for Class A, Class J, Institutional, R-1, R-2, R-3, R-4, R-5, and R-6 classes of shares, respectively. The investment securities of MidCap Value Fund III, with a fair value of approximately \$978,380,000 and a cost of \$943,248,000 and \$35,891,000 cash were the primary assets acquired by MidCap Value Fund I on April 12, 2019. For financial reporting purposes, assets received and shares issued by MidCap Value Fund I were recorded at fair value; however, the cost basis of the investments received from MidCap Value Fund III were maintained through the reorganization. The net assets of MidCap Value Fund III and MidCap Value Fund I immediately prior to the acquisition in accordance with U.S. GAAP were approximately \$1,015,084,000 (\$6,857,000 of accumulated realized loss) and \$951,721,000, respectively. The net assets of MidCap Value Fund I immediately following the acquisition were \$1,966,805,000. In accordance with Sections 381-384 of the Internal Revenue Code, a portion of accumulated realized losses may be subject to limitation.

Assuming the acquisition had been completed on November 1, 2018, the beginning of the fiscal year for MidCap Value Fund I, MidCap Value Fund I's pro forma results of operations for the year ended October 31, 2019, would have been \$28,811,000 of net investment income, \$177,351,000 of net realized and unrealized gain on investments, and \$206,162,000 of net increase in net assets resulting from operations. Because the combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of MidCap Value Fund III that have been included in MidCap Value Fund I's statement of operations since April 12, 2019.

Effective July 1, 2019, High Yield Fund I changed its name to High Income Fund.

Effective October 11, 2019, LargeCap Growth Fund I, as the accounting legal survivor, acquired all the assets and assumed all the liabilities of LargeCap Growth Fund, pursuant to a plan of reorganization approved by shareholders on October 4, 2019. The purpose of the acquisition was to combine two accounts managed by the Manager with similar investment objectives, principal policies, and risks. The acquisition was accomplished by a tax-free exchange of 105,049,000 shares from LargeCap Growth Fund for 34,956,000 shares valued at \$519,500,000 of LargeCap Growth Fund I at an approximate exchange rate of .33, .33, .36, .32, .35, .41, .40, and .38 for Class A, Class J, Institutional, R-1, R-2, R-3, R-4, and R-5 classes of shares, respectively. The investment securities of LargeCap Growth Fund, with a fair value of approximately \$503,006,000 and a cost of \$471,973,000 and \$16,841,000 cash were the primary assets acquired by LargeCap Growth Fund I on October 11, 2019. For financial reporting purposes, assets received and shares issued by LargeCap Growth Fund I were recorded at fair value; however, the cost basis of the investments received from LargeCap Growth Fund were maintained through the reorganization.

1. Organization (continued)

The net assets of LargeCap Growth Fund and LargeCap Growth Fund I immediately prior to the acquisition in accordance with U.S. GAAP were approximately \$519,691,000 (\$3,739,000 of accumulated realized gain) and \$8,814,012,000, respectively. The net assets of LargeCap Growth Fund I immediately following the acquisition were \$9,333,703,000. In accordance with Sections 381-384 of the Internal Revenue Code, a portion of accumulated realized losses may be subject to limitation.

Assuming the acquisition had been completed on November 1, 2018, the beginning of the fiscal year for LargeCap Growth Fund I, LargeCap Growth Fund I's pro forma results of operations for the year ended October 31, 2019, would have been \$14,855,000 of net investment income, \$1,450,175,000 of net realized and unrealized gain on investments, and \$1,465,030,000 of net increase in net assets resulting from operations. Because the combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of LargeCap Growth Fund that have been included in LargeCap Growth Fund I's statement of operations since October 11, 2019.

Effective December 20, 2019, Diversified International Fund, as the accounting legal survivor, acquired all the assets and assumed all the liabilities of Global Opportunities Fund, a series of the Fund, pursuant to a plan of reorganization approved by shareholders on December 18, 2019. The purpose of the acquisition was to combine two accounts managed by the Manager with similar investment objectives, principal policies, and risks. The acquisition was accomplished by a tax-free exchange of 4,597,000 shares from Global Opportunities Fund for 1,150,000 shares valued at \$14,798,000 of Diversified International Fund at an approximate exchange rate of .27 and .29 for Class A and Institutional classes of shares, respectively. The investment securities of Global Opportunities Fund, with a fair value of approximately \$12,835,000 and a cost of \$12,014,000 and \$3,574,000 cash were the primary assets acquired by Diversified International Fund on December 20, 2019. For financial reporting purposes, assets received and shares issued by Diversified International Fund were recorded at fair value; however, the cost basis of the investments received from Global Opportunities Fund were maintained through the reorganization. The net assets of Global Opportunities Fund and Diversified International Fund immediately prior to the acquisition in accordance with U.S. GAAP were approximately \$16,894,000 (\$953,000 of accumulated realized gain) and \$12,519,093,000, respectively. The net assets of Diversified International Fund immediately following the acquisition were \$12,535,987,000. In accordance with Sections 381-384 of the Internal Revenue Code, a portion of accumulated realized losses may be subject to limitation.

Assuming the acquisition had been completed on November 1, 2019, the beginning of the fiscal year for Diversified International Fund, Diversified International Fund's pro forma results of operations for the period ended October 31, 2020, would have been \$163,840,000 of net investment income, \$388,990,000 of net realized and unrealized loss on investments, and \$552,830,000 of net increase in net assets resulting from operations. Because the combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of Global Opportunities Fund that have been included in Diversified International Fund's statement of operations since December 20, 2019.

Effective December 30, 2019, Income Fund changed its name to Core Fixed Income Fund.

Effective June 26, 2020, Diversified International Fund, as the accounting legal survivor, acquired all the assets and assumed all the liabilities of SystematEx International Fund, a series of the Fund, pursuant to a plan of reorganization approved by shareholders on June 23, 2020. The purpose of the acquisition was to combine two accounts managed by the Manager with similar investment objectives, principal policies, and risks. The acquisition was accomplished by a tax-free exchange of 6,678,000 shares from SystematEx International Fund for 5,048,000 shares valued at \$59,045,000 of Diversified International Fund at an approximate exchange rate of .75 and .76 for Institutional and Class R-6 classes of shares, respectively. The investment securities of SystematEx International Fund, with a fair value of approximately \$51,982,000 and a cost of \$53,094,000 and \$6,572,000 cash were the primary assets acquired by Diversified International Fund on December 20, 2019. For financial reporting purposes, assets received and shares issued by Diversified International Fund were recorded at fair value; however, the cost basis of the investments received from SystematEx International Fund were maintained through the reorganization. The net assets of SystematEx International Fund and Diversified International Fund immediately prior to the acquisition in accordance with U.S. GAAP were approximately \$59,045,000 (\$811,000 of accumulated realized gain) and \$12,179,242,000, respectively. The net assets of Diversified International Fund immediately following the acquisition were \$12,238,287,000. In accordance with Sections 381-384 of the Internal Revenue Code, a portion of accumulated realized losses may be subject to limitation.

Assuming the acquisition had been completed on November 1, 2019, the beginning of the fiscal year for Diversified International Fund, Diversified International Fund's pro forma results of operations for the period ended October 31, 2020, would have been \$163,200,000 of net investment income, \$389,491,000 of net realized and unrealized loss on investments, and \$552,691,000 of net increase in net assets resulting from operations. Because the combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of SystematEx International Fund that have been included in Diversified International Fund's statement of operations since June 26, 2020.

1. Organization (continued)

All classes of shares for each of the Funds represent interests in the same portfolio of investments and will vote together as a single class except where otherwise required by law or as determined by the Fund's Board of Directors. In addition, the Board of Directors declares separate dividends on each class of shares.

2. Significant Accounting Policies

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The following summarizes the significant accounting policies of the Funds:

Security Valuation. The Funds may invest in other series of the Fund and other publicly traded investment funds. The shares of the other series of Principal Funds, Inc. are referred to as the "Affiliated Underlying Funds" and collectively, with other publicly traded investment funds, are referred to as the "Underlying Funds". Investments in the Underlying Funds are valued at the respective fund's closing net asset value per share on the day of valuation.

The Funds (with the exception of Money Market Fund) value securities for which market quotations are readily available at fair value, which is determined using the last reported sale price. If no sales are reported, as is regularly the case for some securities traded over-the-counter, securities are valued using the last reported bid price or an evaluated bid price provided by a pricing service. Pricing services use modeling techniques that incorporate security characteristics such as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, other yield and risk factors, and other market conditions to determine an evaluated bid price or, in the case of certain credit default swaps, a mean price provided by a pricing service. When reliable market quotations are not considered to be readily available, which may be the case, for example, with respect to restricted securities, certain debt securities, preferred stocks, and foreign securities, the investments are valued at their fair value as determined in good faith by the Manager under procedures established and periodically reviewed by the Fund's Board of Directors.

The value of foreign securities used in computing the net asset value per share is generally determined as of the close of the foreign exchange where the security is principally traded. Events that occur after the close of the applicable foreign market or exchange but prior to the calculation of the Funds' net asset values are reflected in the Funds' net asset values and these securities are valued at fair value. Many factors, provided by independent pricing services, are reviewed in the course of making a good faith determination of a security's fair value, including, but not limited to, price movements in American depository receipts ("ADRs"), futures contracts, industry indices, general indices, and foreign currencies.

To the extent the Funds invest in foreign securities listed on foreign exchanges which trade on days on which the Funds do not determine net asset values, for example, weekends and other customary national U.S. holidays, the Funds' net asset values could be significantly affected on days when shareholders cannot purchase or redeem shares.

Certain securities issued by companies in emerging market countries may have more than one quoted valuation at any given point in time, sometimes referred to as a "local" price and a "premium" price. The premium price is often a negotiated price, which may not consistently represent a price at which a specific transaction can be effected. It is the policy of the Fund to value such securities at prices at which it is expected those shares may be sold, and the Manager or any sub-advisor, is authorized to make such determinations subject to such oversight by the Fund's Board of Directors, as may occasionally be necessary.

Money Market Fund qualifies as a retail money market fund. This fund values securities, other than holdings of other publicly traded investment funds, at amortized cost as permitted under Rule 2a-7 of the Investment Company Act of 1940. Under the amortized cost method, a security is valued by applying a constant yield to maturity of the difference between the principal amount due at maturity and the cost of the security to the Funds.

Currency Translation. Foreign holdings are translated to U.S. dollars using the exchange rate at the daily close of the New York Stock Exchange. The identified cost of the Funds' holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when received or paid, with daily accruals of such amounts reported at approximate rates prevailing at the date of valuation. Since the carrying amount of the foreign securities is determined based on the exchange rate and market values at the close of the period, it is not practicable to isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the period.

2. Significant Accounting Policies (continued)

Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between trade and settlement dates on security transactions, and the difference between the amount of dividends, interest income, interest expense, and foreign withholding taxes recorded on the books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies arise from changes in the exchange rate relating to assets and liabilities, other than investments in securities, purchased and held in non-U.S. denominated currencies.

The following Funds held securities denominated in foreign currencies that exceeded 5% of net assets of the respective fund as of October 31, 2020:

Diversified International Fund

Euro	20.7%
Japanese Yen	16.0
Hong Kong Dollar	9.0
British Pound Sterling	8.2
Canadian Dollar	7.2
Swiss Franc	6.8

Finisterre Unconstrained Emerging Markets Bond Fund

Chinese Renminbi	7.9%
Euro	7.4

Global Real Estate Securities Fund

Japanese Yen	10.7%
Euro	8.9
Hong Kong Dollar	6.5
British Pound Sterling	6.3
Australian Dollar	5.1

International Emerging Markets Fund

Hong Kong Dollar	32.3%
Indian Rupee	12.9
New Taiwan Dollar	12.2
South Korean Won	11.8

International Fund I

Euro	18.5%
Japanese Yen	10.1
Hong Kong Dollar	8.8
New Taiwan Dollar	8.5
British Pound Sterling	8.4
Canadian Dollar	8.3
Swedish Krona	7.0
Australian Dollar	6.1
Swiss Franc	5.9

Income and Investment Transactions. The Funds record investment transactions on a trade date basis. Trade date for senior floating rate interests purchased in the primary market is considered the date on which the loan allocations are determined. Trade date for senior floating rate interests purchased in the secondary market is the date on which the transaction is entered into. The identified cost basis has been used in determining the net realized gain or loss from investment transactions and unrealized appreciation or depreciation of investments. The Funds record dividend income on the ex-dividend date, except dividend income from foreign securities whereby the ex-dividend date has passed; such dividends are recorded as soon as the Funds are informed of the ex-dividend date. Interest income is recognized on an accrual basis. Discounts and premiums on securities are accreted/amortized, respectively, on the level yield method over the expected lives of the respective securities. Callable debt securities purchased at a premium are amortized to the earliest call date and to the callable amount, if other than par. The Funds allocate all income and realized and unrealized gains or losses on a daily basis to each class of shares based upon the relative proportion of the value of shares outstanding (number of settled shares outstanding for Money Market Fund) of each class.

Distributions from Real Estate Investment Trusts ("REITs") may be characterized as ordinary income, capital gain, or a return of capital to the Funds. The proper characterization of REIT distributions is generally not known until after the end of each calendar year. As such, estimates are used in reporting the character of income and distributions for financial statement purposes. Global Real Estate Securities Fund and Real Estate Securities Fund receive substantial distributions from holdings in REITs.

Expenses. Expenses directly attributed to a particular fund are charged to that fund. Other expenses not directly attributed to a particular fund are apportioned among the registered investment companies managed by the Manager.

2. Significant Accounting Policies (continued)

Management fees are allocated daily to each class of shares based upon the relative proportion of the value of shares outstanding (number of settled shares outstanding for Money Market Fund) of each class. Expenses specifically attributable to a particular class are charged directly to such class and are included separately in the statements of operations.

In addition to the expenses the Funds bear directly, each of the Funds may indirectly bear a pro rata share of the fees and expenses of the Underlying Funds in which they invest. Because the Underlying Funds have varied expense levels and each of the Funds may own different proportions of the Underlying Funds at different times, the amount of expense incurred indirectly by each Fund will vary. Expenses included in the statements of operations of the Funds do not include any expenses associated with the Underlying Funds.

Dividends and Distributions to Shareholders. With respect to Money Market Fund, all net investment income and any realized gains from investment transactions are declared as dividends daily to settled shares of record as of that day. With respect to California Municipal Fund, Core Fixed Income Fund, Core Plus Bond Fund, Government & High Quality Bond Fund, High Yield Fund, Short-Term Income Fund and Tax-Exempt Bond Fund, net investment income is declared as dividends daily to settled shares of record as of that day, and all distributions of realized gains from investment transactions are recorded on the ex-dividend date. Dividends and distributions to shareholders of the other Funds are recorded on the ex-dividend date. Dividends and distributions to shareholders from net investment income and net realized gain from investments and foreign currency transactions are determined in accordance with federal tax regulations, which may differ from U.S. GAAP. These differences are primarily due to differing treatments for amortization of premiums and discounts, net operating losses, foreign currency transactions, inverse floating rate securities ("Inverse Floaters"), options and futures contracts, certain defaulted securities, sales of passive foreign investment companies, losses deferred due to wash sales, tax straddles, mortgage-backed securities, certain preferred securities, swap agreements, short sales, partnership investments, REITs, utilization of earnings and profits distributed to shareholders on redemption of shares, and limitations imposed by Sections 381-384 of the Internal Revenue Code. Permanent book and tax basis differences are reclassified within the capital accounts based on federal tax-basis treatment; temporary differences do not require reclassification. To the extent dividends and distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as return of capital distributions.

Federal Income Taxes. No provision for federal income taxes is considered necessary because each of the Funds intends to qualify as a "regulated investment company" under the Internal Revenue Code and intends to distribute each year substantially all of its net investment income and realized capital gains to shareholders.

Management evaluates tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it is "more likely than not" that each tax position would be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the "more likely than not" threshold would be recorded as a tax benefit or expense in the current year. During the year ended October 31, 2020, the Funds did not record any such tax benefit or expense in the accompanying financial statements. The statute of limitations remains open for the last three fiscal years, once a return is filed. No examinations are in progress at this time.

Foreign Taxes. Certain of the Funds are subject to foreign income taxes imposed by certain countries in which they invest. Foreign income taxes are accrued by the Funds as a reduction of income. These amounts are shown as withholding tax on the statements of operations. In consideration of recent decisions rendered by European courts, certain of the Funds have filed additional tax reclaims for taxes withheld in prior years. Due to the uncertainty regarding collectability and timing of these reclaims, among other factors, a corresponding receivable will only be recognized when the tax position meets the "more likely than not" threshold.

Gains realized upon the disposition of certain foreign securities held by certain of the Funds may be subject to capital gains tax, payable prior to repatriation of sale proceeds. The tax is computed on certain net realized gains and, if any, is shown on the statements of operations. In certain countries, realized losses in excess of gains may be carried forward to offset future gains. In addition, the Funds accrue an estimated deferred tax liability for future gains on certain foreign securities. Any accrued tax liability is shown on the statements of assets and liabilities. At October 31, 2020, International Emerging Markets Fund had a foreign tax refund receivable of \$16,000 relating to foreign securities.

Recent Accounting Pronouncements. In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04 *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*, which provides optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform. The guidance is applicable to contracts referencing London Interbank Offered Rate ("LIBOR") or another reference rate that is expected to be discontinued due to reference rate reform. The ASU is effective as of March 12, 2020 and generally can be applied through December 31, 2022. Management is evaluating the underlying securities referencing LIBOR or another reference rate that is expected to be discontinued as a reference rate over the period of time the ASU is effective.

2. Significant Accounting Policies (continued)

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which amends and eliminates certain disclosure requirements for fair value as part of its framework project. The ASU is effective for annual and interim periods beginning after December 15, 2019. The early adoption of the removal or modification of disclosures and delay of adoption of the additional disclosures is permitted. As of October 31, 2020, the Funds have adopted the ASU.

In March 2017, the FASB issued ASU No. 2017-08 *Premium Amortization on Purchased Callable Debt Securities*, which amends the accounting standards to shorten the amortization period of certain purchased callable debt securities to the earliest call date. The ASU is effective for annual and interim periods beginning after December 15, 2018. The Funds have adopted the new amendment as of November 1, 2019. The adoption of the ASU resulted in a cumulative effect adjustment to components within total distributable earnings (accumulated loss) on the statements of assets and liabilities as of the beginning of the fiscal year. This cumulative effect adjustment did not have a material impact on the financial statements and did not impact net assets of the Funds.

3. Operating Policies

Borrowings. Pursuant to an exemptive order issued by the Securities and Exchange Commission (the “SEC”), the Funds and other registered investment companies managed by the Manager may participate in an interfund lending facility (“Facility”). The Facility allows the Funds to borrow money from or loan money to the other participants. Loans under the Facility are made to handle unusual and/or unanticipated short-term cash requirements. Interest paid and received on borrowings is the average of the current repurchase agreement rate and the bank loan rate (the higher of (i) the Federal Funds Rate or (ii) the One Month London Interbank Offered Rate (“LIBOR”) rate plus 1.00%). As of October 31, 2020, International Fund I, MidCap Fund and Real Estate Securities Fund had outstanding borrowings of \$270,000, \$15,800,000, and \$1,150,000, respectively. The interest income received is included in interest income on the statements of operations. The interest expense associated with these borrowings is included in other expenses on the statements of operations.

During the year ended October 31, 2020, Funds lending to the Facility were as follows (amounts in thousands):

	<u>Average Daily</u> <u>Amount Loaned</u>	<u>Weighted Average</u> <u>Annual Interest</u> <u>Rate</u>
Core Fixed Income Fund	\$ 2,533	2.17%
Core Plus Bond Fund	89	1.39
Diversified International Fund	5,255	1.30
Equity Income Fund	1,338	1.89
Finisterre Unconstrained Emerging Markets Bond Fund	37	0.63
Global Diversified Income Fund	900	1.59
Global Real Estate Securities Fund	181	0.93
Government & High Quality Bond Fund	327	1.30
High Income Fund	424	0.64
High Yield Fund	215	0.91
International Emerging Markets Fund	6	1.50
International Fund I	2	1.15
LargeCap Growth Fund I	948	0.92
LargeCap S&P 500 Index Fund	538	1.73
MidCap Fund	8	1.01
MidCap Value Fund I	30	0.78
Principal Capital Appreciation Fund	86	0.77
Real Estate Securities Fund	139	1.82
Short-Term Income Fund	1,137	0.76
SmallCap Fund	38	0.72
SmallCap Value Fund II	29	0.92

During the year ended October 31, 2020, Funds borrowing from the Facility were as follows (amounts in thousands):

	<u>Average Daily</u> <u>Outstanding</u> <u>Balance</u>	<u>Weighted Average</u> <u>Annual Interest</u> <u>Rate</u>
California Municipal Fund	\$ 55	1.15%
Core Plus Bond Fund	26	2.17

3. Operating Policies (continued)

	<u>Average Daily Outstanding Balance</u>	<u>Weighted Average Annual Interest Rate</u>

Real Estate Securities Fund	40	0.66
Short-Term Income Fund	9	0.62
SmallCap Fund	—	0.61
SmallCap Value Fund II	103	1.45

In addition, the Funds (with the exception of High Income Fund) participate with other registered investment companies managed by the Manager in an unsecured joint line of credit with a bank which allows the participants to borrow up to \$100 million, collectively. Borrowings are made solely to facilitate the handling of unusual and/or unanticipated short-term cash requirements. Interest is charged to each participant, based on its borrowings, at a rate equal to the higher of the Federal Funds Rate or the LIBOR rate (or such successor if no longer available) plus 1.25% (effective June 19, 2020 and thereafter). From November 1, 2019 through June 18, 2020, interest was at a rate equal to the higher of the Federal Funds Rate or the LIBOR rate (or such successor if no longer available) plus 1%. Additionally, a commitment fee is charged at an annual rate of .20% (effective June 19, 2020 and thereafter) on the amount of the line of credit which is allocated to each participating fund based on average net assets. From November 1, 2019 through June 18, 2020, the commitment fee was charged at an annual rate of .15%. The interest expense associated with these borrowings is included in other expenses on the statements of operations. The interest expense associated with these borrowings is included in other expenses on the statements of operations. There were no outstanding borrowings against the line of credit as of October 31, 2020.

During the year ended October 31, 2020, Funds borrowing against the line of credit were as follows (amounts in thousands):

	<u>Average Daily Outstanding Balance</u>	<u>Weighted Average Annual Interest Rate</u>
Global Diversified Income Fund	\$ 44	2.77%
Tax-Exempt Bond Fund	232	2.06

Credit Linked Notes. Global Diversified Income Fund invests in structured notes whose market values are primarily derived from changes in the value of various credit indices and other factors. Valuations on these securities may be volatile as the payment features on certain notes may contain attributes that multiply the effects of changes in the values of the underlying indices. Structured notes may entail a greater degree of market risk than other types of debt securities. Structured notes may also be more volatile, less liquid, and more difficult to accurately price than less complex securities or more traditional debt securities. Fluctuations in the fair value of the structured notes are recorded as unrealized gains and losses in the accompanying financial statements. Interest income is accrued daily. These notes are subject to prepayment, credit, and interest rate risks. At maturity, or when a note is sold, the fund records a realized gain or loss.

Contingent Convertible Securities. Contingent convertible securities (“CoCos”), are hybrid debt securities that may convert into equity or have their principal written down upon the occurrence of certain “triggers.” Although a contingent convertible security’s equity conversion and principal write-down features are tailored to the particular issuing banking institution and its regulatory requirements, triggers are generally linked to regulatory capital thresholds or regulatory actions calling into question such institution’s continued viability as a going-concern. CoCos may have no stated maturity and fully discretionary coupons, which means coupon payments can be canceled at the issuing banking institution’s discretion or at the request of the relevant regulatory authority without causing a default. To provide the appropriate regulatory capital treatment, CoCos are usually issued in the form of subordinated debt instruments that rank junior to the claims of holders of more senior obligations in the event of the issuer’s liquidation. If CoCos are converted into equity securities due to a trigger event, holders will be further subordinated. The future value of CoCos is unpredictable and is influenced by many factors including, without limitation: the creditworthiness of the issuer and/or fluctuations in such issuer’s applicable capital ratios; supply and demand for CoCos; general market conditions and available liquidity; and economic, financial and political events that affect the issuer, its particular market or the financial markets in general. Due to these features, CoCos may have substantially greater risk than other securities in times of financial stress. Because

3. Operating Policies (continued)

of the uncertainty regarding whether a conversion event will occur, it may be difficult to predict when, if at all, a contingent convertible security will be converted to equity, and a fund may suffer losses as a result. If the trigger level is breached, the issuer's decision to write down, write off or convert a contingent convertible security may result in the fund's complete loss on an investment in CoCos with no chance of recovery even if the issuer remains in existence.

Counterparties. The Funds may be exposed to counterparty risk, or the risk that another party with which the Funds have unsettled or open transactions will fail to perform on their commitment. To the extent that unpaid amounts owed to the Funds exceed a predetermined threshold agreed to with the counterparty, as stated in the counterparties' master netting agreements ("Master Netting Agreements"), such counterparty shall advance collateral to the Funds in the form of cash or cash equivalents equal in value to the unpaid amount owed to the Funds. If the unpaid amount owed to the Funds subsequently decreases, the Funds would be required to return all or a portion of the collateral.

Master Netting Agreements may also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under the Master Netting Agreements, collateral is routinely transferred if the total net exposure to certain transactions governed under the relevant master netting agreement with a counterparty exceeds a specified threshold.

Core Plus Bond Fund, Finissterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund and Inflation Protection Fund have financial instruments that are subject to Master Netting Agreements or similar agreements.

As of October 31, 2020, financial assets and liabilities subject to Master Netting Agreements or similar agreements were as follows (amounts in thousands):

* Represents amount of offsetting derivative assets or liabilities that are subject to an enforceable master netting agreement or similar agreement that are not netted against the gross derivative assets or liabilities for presentation on the statement of assets and liabilities.

** Collateral pledged or received may be in excess of recognized assets or liabilities, see the Schedule of Investments.

The financial instruments that are subject to Master Netting Agreements or similar agreements may include right of setoff provisions. Derivative instruments include provisions to setoff positions covered under the agreements with the same counterparties and provisions to setoff positions outside of the agreements with the same counterparties in the event of default by one of the parties. Derivative instruments are shown net on the statements of assets and liabilities. Derivative instruments also include collateral provisions. Collateral received and pledged are generally settled daily with each counterparty.

Cross Trades. The Funds may engage in cross trades. A cross trade is a purchase or sale transaction between affiliated portfolios executed directly or through an intermediary. Mutual funds and other managed portfolios may be considered affiliated if they have a common investment advisor, so a fund may be considered affiliated with any portfolio for which the fund's sub-advisor acts as an investment advisor. Such transactions are permissible provided that the conditions of Rule 17a-7 under the Investment Company Act of 1940 are satisfied. For the year ended October 31, 2020, none of the Funds had material cross trades.

3. Operating Policies (continued)

Deposits with Counterparty. Cash pledged as collateral is reflected as an asset on the statements of assets and liabilities as deposits with counterparty. There are a variety of security types which require varying levels of pledged collateral. Customer account agreements govern cleared derivatives transactions such as futures contracts and certain swap agreements. Such transactions require posting of initial margin as determined by each relevant clearing agency which is segregated in an account at a futures commission merchant ("FCM") registered with the Commodity Futures Trading Commission. International Swaps and Derivatives Association ("ISDA") accounts are maintained in a segregated account at the custodian for over-the-counter ("OTC") derivatives. Master Securities Forward Transaction Agreements ("MSFTA") accounts are also maintained in a segregated account at the custodian for collateral related to forward currency contracts and "to-be-announced" ("TBA") securities. Certain of the Funds may pledge cash to a broker for securities sold short.

As of October 31, 2020, deposits with counterparty were as follows (amounts in thousands):

	<u>FCM (Futures and Cleared Swaps)</u>	<u>ISDA (OTC Derivatives)</u>	<u>Total Deposits with Counterparty</u>
Core Plus Bond Fund	\$ —	\$ 4	\$ 4
Finissterre Unconstrained Emerging Markets Bond Fund	658	13,989	14,647

SmallCap Value Fund II	169	—	169

Deposits from Counterparty. Cash received from a counterparty as collateral is reflected as a liability on the statements of assets and liabilities as deposits from counterparty. There are a variety of security types which require varying levels of pledged collateral. The collateral posted to the Funds by the broker is received in the fund's custodian account.

As of October 31, 2020, deposits from counterparty were as follows (amounts in thousands):

	<u>ISDA (OTC Derivatives)</u>
Inflation Protection Fund	\$ 550

Floating Rate Notes Issued in Conjunction with Securities Held. California Municipal Fund and Tax-Exempt Bond Fund have entered into transactions in which the fund transfers fixed rate bonds to trusts in exchange for cash and residual interests in the trusts' assets and cash flows, which are in the form of Inverse Floaters. The trusts finance the purchases of the fixed rate bonds by issuing floating rate notes to third parties. The fund enters into shortfall and forbearance agreements with the trusts, which commit the fund to pay the trusts, in certain circumstances, the difference between the liquidation value of the fixed rate bonds held by the trusts and the liquidation value of the floating rate notes held by third parties, as well as any shortfalls in interest cash flows. The residual interests held by the fund (Inverse Floaters) include the right of the fund (1) to cause the holders of the floating rate notes to tender their notes at par at the next interest rate reset date, and (2) to transfer the fixed rate bond from the trusts to the fund, thereby collapsing the trusts. The fund accounts for the transfer of bonds to the trusts as secured borrowings, with the securities transferred remaining in the fund's investment assets, and the related floating rate notes reflected as fund liabilities under the caption "floating rate notes issued" in the statements of assets and liabilities. The fund holds the "floating rate notes issued" in which the carrying value, including accrued interest, approximates fair value for financial statement purposes. As of year end, the "floating rate notes issued" payable is categorized as Level 2 within the disclosure hierarchy. The balances of the "floating rate notes issued" as of October 31, 2020 were \$20,146,000 and \$14,591,000 for California Municipal Fund and Tax-Exempt Bond Fund, respectively. The average outstanding balances for the liability during the year ended October 31, 2020 were \$13,341,000 and \$14,342,000 at weighted average annual interest rates of 1.49% and 1.61% for California Municipal Fund and Tax-Exempt Bond Fund, respectively. The notes issued by the trusts have interest rates that reset weekly, and the floating rate note holders have the option to tender their notes to the trusts for redemption at par at each reset date.

Foreign Currency Contracts. Certain of the Funds may be subject to foreign currency exchange rate risk in the normal course of pursuing such Funds' investment objectives. The Funds may use foreign currency contracts to gain exposure to, or hedge against changes in the value of foreign currencies. Certain of the Funds enter into forward contracts to purchase and sell foreign currencies at a specified future date at a fixed exchange rate. Forward foreign currency contracts are valued at the forward rate, and are marked-to-market daily. The change in fair value is recorded by the Funds as an unrealized gain or loss. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

3. Operating Policies (continued)

The use of forward foreign currency contracts does not eliminate the fluctuations in underlying prices of the Funds' portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign currency contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Funds could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the currency changes unfavorably to the U.S. dollar or other respective currency.

Futures Contracts. The Funds are subject to equity price risk, interest rate risk, and foreign currency exchange rate risk in the normal course of pursuing their investment objectives. The Funds (with the exception of Money Market Fund) may enter into futures contracts to hedge against changes in, or to gain exposure to, change in the value of equities, interest rates and foreign currencies. Initial margin deposits are made by cash deposits or segregation of specific securities as may be required by the exchange on which the transaction was conducted. Pursuant to the contracts, typically a fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as "variation margin" and are recorded by the fund as a variation margin receivable or payable on financial derivative instruments. For those contracts where daily variation margin payments are not received from or paid to the broker, the cumulative unrealized gains or losses are included in variation margin receivable or payable on financial derivative instruments. Futures contracts are marked to market daily at the closing settlement price or in the absence of such a price, the most recent quoted bid price. If there are no quotations available, the security is valued at the last available closing settlement price. During the period the futures contracts are open, daily changes in the fair value of the contracts are recognized as unrealized gains or losses. These unrealized gains or losses are included as a component of total distributable earnings (accumulated loss) on the statements of assets and liabilities. When the contracts are closed, the fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the fund's cost basis in the contract. There is minimal counterparty credit risk to the Funds because futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

Long equity futures contracts are used to obtain market exposure for the cash balances that are maintained by certain of the Funds and the notional values of the futures contracts will vary in accordance with changing cash balances. Long and short U.S. Treasury futures contracts are used to obtain interest rate exposure in order to manage duration of Core Plus Bond Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, Government & High Quality Bond Fund, and Inflation Protection Fund. The notional values of the futures contracts will vary in accordance with changing duration of these funds.

Illiquid Securities. Illiquid securities generally cannot be sold or disposed of in the ordinary course of business (within seven calendar days) at approximately the value at which each of the Funds has valued the investments. This may have an adverse effect on each of the Funds' ability to dispose of particular illiquid securities at fair value and may limit each of the Funds' ability to obtain accurate market quotations for purposes of valuing the securities.

Indemnification. Under the Fund's by-laws, present and past officers, directors, and employees are indemnified against certain liabilities arising out of the performance of their duties. In addition, in the normal course of business, the Fund may enter into a variety of contracts that may contain representations and warranties which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund.

Inflation-Indexed Bonds. Certain of the Funds may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed-income securities whose principal value is periodically adjusted to the rate of inflation. The interest rate on these bonds is generally fixed at issuance at a rate lower than typical bonds. Over the life of an inflation-indexed bond, however, interest will be paid based on a principal value, which is adjusted for inflation. Any increase or decrease in the principal amount of an inflation-indexed bond will be included as interest income on the statements of operations, even though the Funds would not receive the principal until maturity.

Liquidity Fees on Redemptions and Redemption Gates. As a retail money market fund, the Money Market Fund has adopted policies and procedures regarding the imposition of liquidity fees on redemptions and/or redemption gates in the event that its level of weekly liquid assets falls below a designated threshold, subject to the actions of the Fund's Board of Directors. The imposition of liquidity fees or redemption gates affects checkwriting and exchanges into the Money Market Fund.

Mortgage Dollar Rolls. Certain of the Funds have entered into mortgage-dollar-roll transactions on "to-be-announced" ("TBA") securities, in which the Funds sell mortgage-backed securities and simultaneously agree to purchase similar securities in the future at a predetermined price. The proceeds of the securities sold in mortgage-dollar-roll transactions are invested in additional securities. The Funds forgo principal and interest paid on the securities and are compensated by interest earned on the proceeds of the initial sale and by a lower price on the securities to be repurchased. The Funds treat mortgage-dollar-roll transactions as purchases and sales; as such, these transactions may

3. Operating Policies (continued)

increase the Funds' portfolio turnover ratio. Amounts to be received or paid in connection with open mortgage-dollar-rolls are included in investment securities sold and investment securities purchased on the statements of assets and liabilities.

Options Contracts. During the year, Global Diversified Income Fund and Inflation Protection Fund wrote call and put options on futures, swaps, securities, indices and currencies they own or in which they may invest and inflation floors for both hedging and non-hedging purposes. Writing put options tends to increase a fund's exposure to the underlying instrument. Writing call options tends to decrease a fund's exposure to the underlying instrument. When a fund writes a call, a put option, or an inflation floor, an amount equal to the premium received is recorded as a liability and subsequently marked to market to reflect the current value of the option written. An inflation floor can give downside protection to investments in inflation-linked products. These liabilities are reflected as options contracts written on the statements of assets and liabilities. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or closed are added to the proceeds or offset against amounts paid on the underlying future, swap, security, index or currency transaction to determine the realized gain or loss. A fund, as a writer of an option, has no control over whether the underlying future, swap, security, index or currency may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the future, swap, security, index or currency underlying the written option. There is the risk a fund may not be able to enter into a closing transaction because of an illiquid market. The maximum potential amount of future payments (undiscounted) that a fund as a writer of put options could be required to make is equal to the notional amount multiplied by the exercise price as shown in the schedule of investments. A fund may also purchase put and call options. Purchasing call options tends to increase a fund's exposure to the underlying instrument. Purchasing put options tends to decrease a fund's exposure to the underlying instrument. A fund pays a premium which is included on the fund's statements of assets and liabilities as an investment and subsequently marked to market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying future, swap, security, index or currency transaction to determine the realized gain or loss. Details of options contracts open at year end are included in the Funds' schedules of investments.

Rebates. Subject to best execution, the Funds may direct certain portfolio transactions to brokerage firms that, in turn, have agreed to rebate a portion of the related brokerage commission to the Funds in cash. Commission rebates are included as a component of realized gain from investment transactions in the statements of operations.

Repurchase Agreements. The Funds may invest in repurchase agreements that are fully collateralized, typically by U.S. government or U.S. government agency securities. It is the Fund's policy that the counterparties' custodian takes possession of the underlying collateral securities. The fair value of the collateral is at all times at least equal to the total amount of the repurchase obligation. In the event of default on the obligation to repurchase, the Funds have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event the seller of a repurchase agreement defaults, the Funds could experience delays in the realization of the collateral.

Restricted Securities. Certain of the Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult.

Securities Lending. To earn additional income, certain of the Funds may lend portfolio securities to approved brokerage firms. The Funds receive collateral, in the form of cash, against the loaned securities. During the period of the loan, the borrower must maintain collateral in an amount not less than 102% of the market value of the domestic and foreign fixed income loaned securities and 105% of the market value of the foreign equity loaned securities. The market value of the loaned securities is determined at the close of business of the Funds and any additional required collateral is delivered to the Funds on the next business day. The cash collateral received is usually invested in a SEC-registered money market mutual fund and the Funds could realize a loss on such investments. Further, the Funds could experience a delay in recovering its securities and possible loss of income or value if the borrower fails to return them. Security lending income, net of related fees, is shown on the statements of operations. As of October 31, 2020, the Funds had securities on loan as follows (amounts in thousands):

	<u>Market Value</u>	<u>Collateral Value</u>
Core Fixed Income Fund	\$ 18,555	\$ 19,139
Core Plus Bond Fund	2,002	2,072
Diversified International Fund	8,866	9,274
Equity Income Fund	129	127
Global Diversified Income Fund	24,808	25,752
Global Real Estate Securities Fund	2	2
High Income Fund	18,965	19,871
High Yield Fund	7,290	7,600
LargeCap Growth Fund I	1,309	1,406
LargeCap S&P 500 Index Fund	1,189	1,206

3. Operating Policies (continued)

	<u>Market Value</u>	<u>Collateral Value</u>
MidCap Value Fund I	\$ 591	\$ 615
Short-Term Income Fund	392	402
SmallCap Fund	12,364	12,789
SmallCap Value Fund II	6,705	7,010

Senior Floating Rate Interests. The Funds may invest in senior floating rate interests (bank loans). Senior floating rate interests typically hold the most senior position in the capital structure of a business entity (the “Borrower”), are secured by specific collateral and have a claim on the assets and/or stock of the Borrower that is senior to that held by subordinated debtholders and stockholders of the Borrower. Senior floating rate interests are typically structured and administered by a financial institution that acts as the agent of the lenders participating in the senior floating rate interest. Borrowers of senior floating rate interests are typically rated below-investment-grade, which means they are more likely to default than investment-grade loans. A default could lead to non-payment of income which would result in a reduction of income to the fund and there can be no assurance that the liquidation of any collateral would satisfy the Borrower’s obligation in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Senior floating rate interests pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or the LIBOR rate.

Senior floating rate interests generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for the Borrower to repay, prepayments of senior floating rate interests may occur. As a result, the actual remaining maturity of senior floating rate interests may be substantially less than stated maturities shown in the schedules of investments.

In connection with the senior floating rate interests, the Funds may also enter into unfunded loan commitments (“commitments”). All or a portion of the commitments may be unfunded. The Funds are obligated to fund these commitments at the Borrower’s discretion. Therefore, the Funds must have funds sufficient to cover its contractual obligation. Commitments are marked to market daily and the unrealized gain or loss is shown as a separate line item called unrealized gain or loss on commitments on the statements of assets and liabilities and included in the net change in unrealized appreciation/(depreciation) of investments on the statements of operations, as applicable. As of year end, the commitments are categorized as Level 2 within the disclosure hierarchy. As of October 31, 2020, the commitments were as follows (amounts in thousands):

	<u>Unfunded Loan Commitment</u>	<u>Unrealized gain/loss</u>
High Yield Fund	\$373	\$(12)

Short Sales. A short sale is a transaction in which a fund sells a security it does not own as a hedge against some of its long positions and/or in anticipation of a decline in the market price of the security. The fund must borrow the security sold short and deliver it to the broker dealer which made the short sale. A security sold in a short sale transaction and the interest or dividend payable on the security if any, is reflected as a liability on the statements of assets and liabilities. The fund is obligated to pay any interest or dividends received on the borrowed securities. Interest accrued and dividends declared on short positions are recorded as an expense and, if any, appear as dividends and interest on shorts on the statements of operations. A fund is obligated to deliver the security at the market price at the time the short position is closed. Possible losses from short sales may be unlimited.

The fund is required to pledge cash or securities to the broker as collateral for securities sold short. Collateral requirements are calculated daily based on the current market value of the short positions. Cash deposited with the broker for collateral is included in deposits with counterparty on the statements of assets and liabilities and securities segregated as collateral are footnoted in the schedules of investments. The fund may pay broker’s fees on the borrowed securities and may also pay a financing charge for the difference in the market value of the short position and cash collateral deposited with the broker. These fees would be included as short sale fees on the statements of operations. No funds entered in short sales transactions during the year ended October 31, 2020.

Swap Agreements. Core Plus Bond Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, High Income Fund, High Yield Fund, and Inflation Protection Fund invested in swap agreements during the period. Swap agreements are negotiated agreements between a fund and a counterparty to exchange a series of cash flows at specified intervals based upon, or calculated by reference to, changes in specified prices or rates for a specified amount of an underlying asset. A fund may enter into credit default, currency, interest rate, or total return swap agreements to manage its exposure to credit, currency, interest rate, or market risk. In connection with these agreements, securities may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

3. Operating Policies (continued)

Swap agreements are valued through a pricing service or using procedures established and periodically reviewed by the Fund's Board of Directors. Centrally cleared swaps are valued using the last traded price from the primary trading exchange. OTC swaps are modeled taking into account the counterparties' creditworthiness and using a series of techniques, including simulation models. Changes in value are recorded as unrealized gain or loss which is included as a component of total distributable earnings (accumulated loss) on the statements of assets and liabilities.

Upon termination of swap agreements, the Funds recognize a realized gain or loss. Net periodic payments to be received or paid are accrued daily and are recorded in the statements of operations as realized gains or losses.

Payments received or made at the beginning of the measurement period are reflected as such on the statements of assets and liabilities and represent payments made or received upon entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and prevailing market conditions (credit spreads, interest rates, and other relevant factors). These upfront payments are amortized daily over the term of the swap agreement as realized gains or losses on the statements of operations.

Notional principal amounts are used to express the extent of involvement in these agreements. Risks may exceed amounts shown on the statements of assets and liabilities. These risks include changes in the returns of the underlying instruments, unfavorable interest rate fluctuation, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements, and the possible lack of liquidity with respect to the swap agreements.

The Funds and any counterparty are required to maintain an agreement that requires the Funds and that counterparty to monitor the net fair value of all derivative transactions entered into pursuant to the contract between the Funds and such counterparty. If the net fair value of such derivatives transactions between the Funds and that counterparty exceeds a certain threshold (as defined in the agreement), the Funds or the counterparty are required to post cash and/or securities as collateral. Fair values of derivatives transactions presented in the financial statements are not netted with the fair values of other derivatives transactions or with any collateral amounts posted by the Funds or any counterparty.

Credit default swaps involve commitments to pay a fixed rate at a predetermined frequency in exchange for a lump sum payment if a "credit event", as defined in the agreement, affecting a third party occurs. Credit events may include a failure to pay interest, bankruptcy, restructuring, or other event as defined in the agreement. A "buyer" of credit protection agrees to pay a counterparty to assume the credit risk of an issuer upon the occurrence of a credit event. The "seller" of the protection receives periodic payments and agrees to assume the credit risk of an issuer upon the occurrence of a credit event. As the seller of credit protection, a fund would add leverage to its portfolio because, in addition to its total net assets, a fund would be subject to investment exposure on the notional amount of the swap.

If a fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. If a fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, a fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

Credit default swap agreements on credit indices involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising the credit index. A credit index is a basket of credit instruments or exposures designed to be representative of some part of the credit market as a whole. These indices are made up of reference credits that are judged by a poll of dealers to be the most liquid entities in the credit default swap market based on the sector of the index. Components of the indices may include, but are not limited to, investment grade securities, high yield securities, asset backed securities, emerging markets, and/or various credit ratings within each sector. Credit indices are traded using credit default swaps with standardized terms including a fixed spread and standard maturity dates. An index credit default swap references all the names in the index, and if there is a default, the credit event is settled based on that name's weight in the index. The composition of the indices changes periodically, usually every six months, and for most indices, each name has an equal weight in the index. A fund may use credit default swaps on credit indices to hedge a portfolio of credit default swaps or bonds, which is less expensive than it would be to buy many credit default swaps to achieve a similar effect. Credit-default swaps on indices are benchmarks for protecting investors owning bonds against default, and traders use them to speculate on changes in credit quality.

3. Operating Policies (continued)

Credit default swap agreements on corporate issues or sovereign issues involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default or other credit event. If a credit event occurs and cash settlement is not elected, a variety of other deliverable obligations may be delivered in lieu of the specific referenced obligation. The ability to deliver other obligations may result in a cheapest-to-deliver option (the buyer of protection's right to choose the deliverable obligation with the lowest value following a credit event). The Funds may use credit default swaps on corporate issues or sovereign issues of an emerging country to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where the Funds own or have exposure to the referenced obligation).

For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Wider credit spreads and increasing values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The maximum potential amount of future payments (undiscounted) that a fund as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of October 31, 2020 for which a fund is the seller of protection are disclosed in the footnotes to the schedules of investments. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by a fund for the same referenced entity or entities.

Currency swap agreements involve the commitment to exchange cash flows on a notional amount based on changes in the relative values of the specified currencies.

Interest rate swaps involve the commitment to exchange fixed or floating rate cash flows based on changes in the value of a specific reference rate.

Certain collateral amounts relate to exchange cleared swaps which are not subject to master netting agreements with counterparties.

To Be Announced Securities. The Funds may trade portfolio securities on a TBA or when-issued basis. In a TBA or when-issued transaction, the Funds commit to purchase or sell securities for which all specific information is not known at the time of the trade. Securities purchased on a TBA or when-issued basis are not settled until they are delivered to the Funds, normally 15 to 30 days later. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other portfolio securities.

Underlying Funds. An underlying fund to a fund of funds may experience relatively large redemptions or purchases as the fund of funds periodically reallocates or rebalances its assets. These transactions may accelerate the realization of taxable income if sales of portfolio securities result in gains and could increase transaction costs. In addition, when a fund of funds reallocates or redeems significant assets away from an Underlying Fund, the loss of assets to the Underlying Fund could result in increased expense ratios for that fund.

The Manager is the advisor to the Fund, Principal Variable Contracts Funds, Inc., and each of the Affiliated Underlying Funds. The Manager is committed to minimizing the potential impact of underlying fund risk on Affiliated Underlying Funds to the extent consistent with pursuing the investment objectives of the fund of funds which it manages. Each may face conflicts of interest in fulfilling its responsibilities to all such funds. Shareholder reports for the Affiliated Underlying Funds can be found at www.principalfunds.com.

As of October 31, 2020, series of the Fund and Principal Variable Contracts Funds, Inc. owned the following percentages, in the aggregate, of the outstanding shares of the Funds listed below:

<u>Fund</u>	<u>Total Percentage of Outstanding Shares Owned</u>	<u>Fund</u>	<u>Total Percentage of Outstanding Shares Owned</u>
Core Fixed Income Fund	63.75%	Inflation Protection Fund	44.54%
Diversified International Fund	37.44	LargeCap Growth Fund I	17.12
Equity Income Fund	31.82	LargeCap S&P 500 Index Fund	53.35
Global Diversified Income Fund	1.69	MidCap Fund	2.81
Global Real Estate Securities Fund	16.61	MidCap Value Fund I	34.02
Government & High Quality Bond Fund	53.32	Real Estate Securities Fund	4.93
High Income Fund	29.81	Short-Term Income Fund	31.90
High Yield Fund	9.79	SmallCap Value Fund II	34.54

3. Operating Policies (continued)

U.S. Government Agencies or Government-Sponsored Enterprises. Certain of the Funds may invest in U.S. Government agencies or government-sponsored enterprises. U.S. Government securities are obligations of, and in certain cases, guaranteed by, the U.S. Government or its agencies. The U.S. Government does not guarantee the net asset value of the Funds' shares. Some U.S. Government securities such as treasury bills, notes and bonds, and securities guaranteed by the Government National Mortgage Association ("GNMA") are supported by the full faith and credit of the U.S. Government. Other securities, such as those of the Federal Home Loan Bank, are supported by the right of the issuer to borrow from the U.S. Department of the Treasury. Still other securities, such as those of the Federal National Mortgage Association ("FNMA"), are supported by the discretionary authority of the U.S. Government to purchase the agency's obligations.

Government related guarantors (those not backed by the full faith and credit of the U.S. Government) include the FNMA and the Federal Home Loan Mortgage Corporation ("FHLMC"). The FNMA is a government sponsored corporation, the common stock of which is owned entirely by private stockholders. The FNMA purchases conventional residential mortgages from a list of approved seller/servicers which include state and federally chartered savings and loan associations, mutual savings banks, commercial banks, credit unions, and mortgage bankers. Pass-through securities issued by the FNMA are guaranteed as to the timely payment of principal and interest by the FNMA, but are not backed by the full faith and credit of the U.S. Government. The FHLMC issues participation certificates, which are pass-through securities, each representing an undivided interest in a pool of residential mortgages. The FHLMC guarantees the timely payment of interest and ultimate collection of principal, but participation certificates are not backed by the full faith and credit of the U.S. Government.

Derivatives. The following tables provide information about where in the statements of assets and liabilities and statements of operations information about derivatives can be found (amounts in thousands):

<u>SmallCap Value Fund II</u>		
Equity Contracts	Futures - Long	2,167

4. Fair Valuation

Fair value is defined as the price that the Funds would receive upon selling a security or transferring a liability in a timely transaction to an independent buyer in the principal or most advantageous market of the security at the measurement date. In determining fair value, the Funds may use one or more of the following approaches: market, income and/or cost. A hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Funds. Unobservable inputs are inputs that reflect the fund's own estimates about the estimates market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 – Quoted prices are available in active markets for identical securities as of the reporting date. Investments which are generally included in this category include listed equities and listed derivatives.
- Level 2 – Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.). Investments which are generally included in this category include certain foreign equities, corporate bonds, municipal bonds, OTC derivatives, senior floating rate interests, and U.S. Government and Government Agency Obligations.
- Level 3 – Significant unobservable inputs (including the Funds' assumptions in determining the fair value of investments). Investments which are generally included in this category include certain common stocks, corporate bonds, mortgage backed securities or senior floating rate interests.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the market place, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Funds in determining fair value is greatest for instruments categorized in Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market based measure considered from the perspective of a market participant who holds the asset rather than an entity specific measure. Therefore, even when market assumptions are not readily available, the Funds' own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Funds use prices and inputs that are current as of the measurement date, when available.

Investments which are included in the Level 3 category may be valued using indicative quoted prices from brokers and dealers participating in the market for these investments. These investments are classified as Level 3 investments due to the lack of market transparency and market corroboration to support these quoted prices. Valuation models may be used as the pricing source for other investments classified as Level 3. Valuation models rely on one or more significant unobservable inputs such as: yield to maturity, EBITDA multiples, discount rates or available cash. Significant increases in yield to maturity, EBITDA multiples or available cash would have resulted in significantly higher fair value measurements. Significant increases in discount rates would have resulted in a significantly lower fair value measurements. Benchmark

4. Fair Valuation (continued)

pricing procedures set the base price of a security based on current market data. The base price may be a broker-dealer quote, transaction price, or internal value based on relevant market data.

The fair values of these securities are dependent on economic, political, and other considerations. The values of such securities may be affected by significant changes in the economic conditions, changes in government policies, and other factors (e.g., natural disasters, pandemics, accidents, conflicts, etc.).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those instruments. For example, short-term securities held in Money Market Fund are valued using amortized cost, as permitted under Rule 2a-7 of the Investment Company Act of 1940. Generally, amortized cost approximates the current fair value of these securities, but because the value is not obtained from a quoted price in an active market, such securities are reflected as Level 2.

The following is a summary of the inputs used as of October 31, 2020 in valuing the Funds' securities carried at fair value (amounts in thousands):

Fund	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Totals (Level 1,2,3)

*For additional detail regarding sector classifications, please see the schedules of investments.

**Exchange cleared swaps and futures are presented at the unrealized appreciation/(depreciation) of the instrument.

Certain detailed information is provided for those Funds with significant investments in Level 3 securities. Quantitative information about the significant unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy is as follows (amounts in thousands):

Fund	Asset Type	Fair Value as of October 31, 2020	Valuation Technique	Unobservable Input	Input Valuations (weighted average)*
Global Diversified Income Fund	Bonds	\$ 103,557	Yield Analysis	Yield to Maturity	9.7 – 11.0 (10.6)%
	Common Stocks	39,521	Enterprise Valuation Model	EBITDA Multiples	2.5 – 9.5x (7.6x)
			Discounted Cash Flow	Discount Rate	11.0 – 14.9 (12.4)%
	Common Stocks	191	Liquidation Analysis	Available Cash	\$ 10,200,000
	Common Stocks	4	Indicative Market Quotations	Broker Quote	\$ 0.05
	Senior Floating Rate Interests	35,440	Yield Analysis	Yield to Maturity	9.0%
		\$ 178,713			

*Unobservable inputs were weighted by the relative fair value of the instruments.

4. Fair Valuation (continued)

The changes in investments measured at fair value for which Level 3 inputs have been used to determine fair value are as follows (amounts in thousands):

Fund	Fair Value October 31, 2019	Realized Gain/ (Loss)	Accrued Discounts/ Premiums and Change in Unrealized Gain/ (Loss)	Purchases	Proceeds from Sales	Transfers into Level 3*	Transfers Out of Level 3**	Fair Value October 31, 2020	Net Change in Unrealized Appreciation/ (Depreciation) on Investments Held at October 31, 2020

*Securities are transferred into Level 3 for a variety of reasons including, but not limited to:

1. Securities where trading has been halted
2. Securities that have certain restrictions on trading
3. Instances in which a security is not priced by a pricing service

**Securities are transferred out of Level 3 for a variety of reasons including, but not limited to:

1. Securities where trading resumes
2. Securities where trading restrictions have expired
3. Instances in which a price becomes available from a pricing service

***\$4,400 was transferred from Level 3 to Level 2 due to the initiation of a vendor providing prices that are based on market activity which has been determined to include significant observable inputs.

At the end of the year, there were no other Funds which had a significant Level 3 balance. During the year, there were no significant purchases, sales, or transfers into or out of Level 3, except as noted above.

5. Management Agreement and Transactions with Affiliates

Management Services. The Funds have agreed to pay investment advisory and management fees to the Manager computed at an annual percentage rate of each of the Funds' average daily net assets. A portion of the management fee is paid by the Manager to the sub-advisor of each of the Funds, some of which are affiliates of the Manager. The annual rates used in this calculation for each of the Funds are as follows:

	<u>Net Assets of Fund</u>					<u>Net Assets of Fund</u>	
	<u>First \$500 million</u>	<u>Next \$500 million</u>	<u>Next \$500 million</u>	<u>Over \$1.5 billion</u>		<u>First \$1 billion</u>	<u>Over \$1. billion</u>

In addition to the management fee, R-1, R-2, R-3, R-4, and R-5 classes of shares of the Funds pay the Manager a service fee and an administrative service fee computed at an annual percentage rate of each class's average daily net assets. The annual rates for the service fee are .25%, .25%, .25%, .25%, and .25% and the annual rates for the administrative service fee are .28%, .20%, .07%, .03%, and .01% for R-1, R-2, R-3, R-4, and R-5, respectively. Class A, Class C, and Institutional shares of the Funds pay Principal Shareholder Services, Inc. (the

5. Management Agreement and Transactions with Affiliates (continued)

“Transfer Agent”) (wholly owned by the Manager) for transfer agent services. Class J shares pay the Transfer Agent a fee for the services provided in an amount that includes a profit.

The Manager has contractually agreed to limit the expenses (excluding interest expense, expenses related to fund investments, acquired fund fees and expenses, and other extraordinary expenses) for certain classes of shares of certain of the Funds. The reductions and reimbursements are in amounts that maintain total operating expenses at or below certain limits. The limits are expressed as a percentage of average daily net assets attributable to each class of shares on an annualized basis during the reporting period. The expenses borne by the Manager are subject to reimbursement by the Funds through the fiscal year end, provided no reimbursement will be made if it would result in the Funds exceeding the total operating expense limits. Any amounts outstanding at the end of the year are shown as an expense reimbursement from Manager or expense reimbursement to Manager on the statements of assets and liabilities. The operating expense limits are as follows:

Period from November 1, 2019 through October 31, 2020					
	<u>Class A</u>	<u>Class C</u>	<u>Class J</u>	<u>Institutional</u>	<u>Expiration</u>
California Municipal Fund	N/A	N/A	N/A	.51%	February 28, 2021

Short-Term Income Fund	1.30*	1.18*	.99*	.79	.68*	February 28, 2021

*Contractual expense limit expired February 29, 2020.

In addition, the Manager has contractually agreed to limit R-6 expenses other than management and investment advisory fees and distribution fees and, if necessary, pay expenses normally payable by the Funds, excluding interest expense, expenses related to fund investments, acquired fund fees and expenses, and other extraordinary expenses. The limits are expressed as a percentage of average daily net assets attributable to R-6 shares on an annualized basis during the reporting period. The limits are as follows:

Period from November 1, 2019 through October 31, 2020		
	<u>R-6</u>	<u>Expiration</u>
Core Fixed Income Fund	.01%	February 28, 2021
Diversified International Fund	.04	February 28, 2021

5. Management Agreement and Transactions with Affiliates (continued)

	Period from November 1, 2019 through October 31, 2020
	<u>R-6</u>
Global Diversified Income Fund	.02

Real Estate Securities Fund	.02
SmallCap Fund	.02
SmallCap Value Fund II	.02

In addition, the Manager has contractually agreed to waive certain of the Funds' management and investment advisory fees. The expense waiver will reduce the Funds' management and investment advisory fees. The waivers are expressed as a percentage of average daily net assets on an annualized basis during the reporting period. The waivers are as follows:

	<u>Expiration</u>
Core Plus Bond Fund	.060% February 28, 2021
Diversified International Fund	.100 February 29, 2020
Global Diversified Income Fund	.080 February 28, 2021
High Income Fund	.015 February 28, 2022
International Emerging Markets Fund	.150 February 29, 2020
International Fund I	.150 February 29, 2020

MidCap Value Fund I	.020 February 28, 2021
SmallCap Value Fund II	.020* February 28, 2022

* Prior to July 1, 2020, the contractual expense reduction was .040%.

The Manager has also voluntarily agreed to limit Money Market Fund's expenses for all classes of shares to the extent necessary to maintain a 0% yield. The voluntary expense limit may be terminated at any time.

Distribution Fees. The Class A, Class C, Class J, R-1, R-2, R-3, and R-4 shares of the Funds bear distribution fees, except for Class A shares of Money Market Fund, which are not subject to distribution fees. The fee is computed at an annual rate of the average daily net assets attributable to each class of each of the Funds. Distribution fees are paid to Principal Funds Distributor, Inc. ("the Distributor") (an affiliate of the Manager), the principal distributor of the Funds. A portion of the distribution fees may be paid to other selling dealers for providing certain services. The annual rates are .25%, 1.00%, .15%, .35%, .30%, .25%, and .10% for Class A, Class C, Class J, R-1, R-2, R-3, and R-4 classes of shares, respectively, except the following classes of shares:

Government & High Quality Bond Fund	Class A	.15%
LargeCap S&P 500 Index Fund	Class A	.15
Short-Term Income Fund	Class A	.15

The Distributor has voluntarily agreed to limit the distribution fees (expressed as a percent of average net assets on an annualized basis) attributable to Class J shares (with the exception of Money Market Fund). The limit will maintain the level of distribution fees not to exceed .12% for Class J shares. The voluntary expense limit may be terminated at any time.

The Distributor has contractually agreed to limit Money Market Fund's distribution fees attributable to Class J shares. This waiver will reduce the distribution fees by .15%. The expense limit expires February 28, 2021.

Amounts owed to the Funds under the terms of the expense limitation agreements are reflected in the statements of assets and liabilities as expense reimbursement from Distributor and are settled periodically.

Chief Compliance Officer Expenses. The Funds pay certain expenses associated with the Chief Compliance Officer ("CCO"). This expense is allocated among the registered investment companies managed by the Manager based on the relative net assets of each fund and is shown on the statements of operations.

Sales Charges. The Distributor receives proceeds of any contingent deferred sales charge ("CDSC") on certain Class A, Class C, and Class J share redemptions. The charge for Class A shares is 1.00% (.25% for LargeCap S&P 500 Index Fund) of the lesser of current market value

5. Management Agreement and Transactions with Affiliates (continued)

or the cost of shares redeemed within 12 months of purchase that were originally sold without a sales charge. The charge for Class C shares is 1.00% of the lesser of current market value or the cost of shares redeemed within 12 months of purchase. The charge for Class J shares is 1.00% of the lesser of current market value or the cost of shares redeemed within 18 months of purchase. The Distributor also retains sales charges on sales of Class A shares based on declining rates which begin at 1.50% for LargeCap S&P 500 Index Fund, 2.25% for Core Fixed Income Fund, Government & High Quality Bond Fund, and Short-Term Income Fund, 3.75% for California Municipal Fund, Core Plus Bond Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, High Income Fund, High Yield Fund, Inflation Protection Fund, and Tax-Exempt Bond Fund, and 5.50% for all other Funds (except Money Market Fund which does not carry a sales charge). The aggregate amounts of these charges retained by the Distributor for the year ended October 31, 2020, were as follows (amounts in thousands):

	<u>Class A</u>	<u>Class C</u>	<u>Class J</u>
California Municipal Fund	\$ 182	\$ 15	N/A
Core Fixed Income Fund	106	6	\$ 10
Core Plus Bond Fund	67	N/A	8
Diversified International Fund	84	—	3
Equity Income Fund	319	23	2
Finisterre Unconstrained Emerging Markets Bond Fund	3	N/A	N/A
Global Diversified Income Fund	208	58	N/A
Global Real Estate Securities Fund	27	3	N/A
Government & High Quality Bond Fund	88	4	3
High Income Fund	6	N/A	N/A
High Yield Fund	79	5	N/A

* The Funds designate these distributions as exempt interest per IRC Sec. 852(b)(5).

[^] The Funds designate these distributions as long-term capital gain dividends per IRC Sec. 852(b)(3)(C) in the 20-percent group (which may be taxed at a 20-percent rate, a 15-percent rate or a 0-percent rate, depending on the shareholder's taxable income).

**Unrecaptured Section 1250 gains are gains from the sale of depreciable property that are subject to a maximum tax rate of 25%.

Certain Funds may also utilize earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction.

For U.S. federal income tax purposes, short-term capital gain distributions are considered ordinary income distributions.

Distributable Earnings. As of October 31, 2020, the components of total distributable earnings (accumulated loss) on a federal tax basis were as follows (amounts in thousands):

	<u>Undistributed Ordinary Income</u>	<u>Undistributed Tax-Exempt Income</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Accumulated Losses</u>	<u>Net Unrealized Appreciation (Depreciation)</u>	<u>Other Temporary Differences*</u>	<u>Total Accumulated Earnings (Deficit)</u>

Inflation Protection Fund	—	11,504	11,504
International Emerging Markets Fund	9,467	—	9,467
MidCap Value Fund I	—	11,396	11,396
SmallCap Value Fund II	30,944	37,775	68,719
Tax-Exempt Bond Fund	9,772	1,900	11,672

* In accordance with IRC Sections 381-384, a portion of the losses have been subject to a \$644,000 annual limitation.

All of these capital losses were generated in taxable years beginning after the enactment date of the Regulated Investment Company Modernization Act of 2010 on December 22, 2010, and will be carried forward with no expiration and with the character of the loss retained.

For the year ended October 31, 2020, the Funds utilized capital loss carryforwards as follows (amounts in thousands):

	<u>Utilized</u>
Core Fixed Income Fund	\$ 18,982
Diversified International Fund	60,132
Inflation Protection Fund	34,462
International Fund I	13,433
Short-Term Income Fund	9,551

Late-Year Losses. A regulated investment company may elect to treat any portion of its qualified late-year loss as arising on the first day of the next taxable year. Qualified late-year losses are certain ordinary losses which occur during the portion of the fund's taxable year subsequent to December 31. As of October 31, 2020, the MidCap Fund intends to defer late-year ordinary losses of \$3,434,000.

Reclassification of Capital Accounts. The Funds may record reclassifications in their capital accounts. These reclassifications have no impact on the total net assets of the Funds. The reclassifications are a result of permanent differences between U.S. GAAP and tax accounting. Adjustments are made to reflect the impact these items have on current and future distributions to shareholders. Therefore, the source of the Funds' distributions may be shown in the accompanying statements of changes in net assets as from net investment income and net realized

*The fund holds floating rate securities which are accounted for differently for U.S. GAAP vs. federal income tax purposes. This causes a difference in cost basis and fair market value of investments for tax and U.S. GAAP purposes.

8. Other Matters

As of the date these financial statements were available to be issued, the outbreak of the novel coronavirus (“COVID-19”) in many countries continues to adversely impact global commercial activity and has contributed to significant volatility in financial markets. The global impact of the outbreak has been rapidly evolving and many countries have reacted by instituting quarantines and restriction on travel. Such measures, as well as the general uncertainty surrounding the dangers and impact of COVID-19, are creating significant disruption in supply chains

8. Other Matters (continued)

and economic activity. As COVID-19 continues to spread, the potential impacts, including a global, regional or other economic recession, are increasingly difficult to assess. These events, or fear of such an event, present material uncertainty and risk with respect to the Funds' performance and financial results.

9. Subsequent Events

Management has evaluated events and transactions that have occurred through the date the financial statements were issued that would merit recognition or disclosure in the financial statements. On September 15, 2020, the Fund's Board of Directors approved the conversion of Class R-2 shares into Class R-3 shares. Following the close of business on March 1, 2021, Class R-2 shares will automatically convert into Class R-3 shares of the same fund on the basis of the share classes' relative net asset values on such date without the imposition of a sales charge or any other charge. The Fund expects these share class conversions will not constitute taxable sales or exchanges to shareholders. On December 15, 2020, the Fund's Board of Directors approved the liquidation of Class A shares for High Income Fund, Inflation Protection Fund, International Fund I, and SmallCap Value Fund II. Following the close of business on February 23, 2021, outstanding Class A shares of the funds will be redeemed at net asset value on such date and proceeds will be sent to shareholders of record. The Fund expects that the liquidation and redemption of Class A shares will result in capital gain or loss to the taxable shareholders in the same manner as a voluntary redemption. Taxable shareholders should consult their tax advisers regarding the tax treatment of the liquidation and redemption, as well as any voluntary redemption or exchange prior to the liquidation date. There were no other items requiring adjustment of the financial statements or additional disclosure.

- (a) Credit support indicates investments that benefit from credit enhancement or liquidity support provided by a third party bank, institution, or government agency.
- (b) Security or portion of underlying security related to Inverse Floaters entered into by the fund. See notes for additional information.
- (c) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$54,490 or 8.33% of net assets.
- (e) Non-income producing security
- (f) Security purchased on a when-issued basis.
- (g) Floating rate securities. The interest rate(s) shown reflect the rates in effect at October 31, 2020.

Other Assets and Liabilities - (0.51)%		(48,485)
TOTAL NET ASSETS - 100.00%		\$ 9,561,998

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$19,139 or 0.20% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) The value of these investments was determined using significant unobservable inputs.
- (f) Restricted Security. Please see Restricted Securities sub-schedule for additional information.
- (g) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$19,166 or 0.20% of net assets.
- (h) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$730,474 or 7.64% of net assets.
- (i) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (j) Security or a portion of the security was on loan at the end of the period.
- (k) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (l) Security purchased on a when-issued basis.
- (m) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.

Total Investments	<u>\$</u>	<u>743,997</u>
Other Assets and Liabilities - (12.44)%		(82,290)
TOTAL NET ASSETS - 100.00%	<u>\$</u>	<u>661,707</u>

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$2,072 or 0.31% of net assets.
- (c) *Affiliated Security.* Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see *Affiliated Securities* sub-schedule for transactional information.
- (d) *Non-income producing security*
- (e) The value of these investments was determined using significant unobservable inputs.
- (f) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$509 or 0.08% of net assets.

- (g) *Perpetual security.* Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (h) Security purchased on a when-issued basis.
- (i) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$101,055 or 15.27% of net assets.
- (j) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (k) Security is a contingent convertible security, ("CoCo"). CoCo's are hybrid debt securities that may convert to equity or have their principal written down upon occurrence of certain "triggers". See notes for additional information. At the end of the period, the value of these securities totaled \$5,281 or 0.80% of net assets.
- (l) Security or a portion of the security was on loan at the end of the period.
- (m) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (n) Security is an Interest Only Strip.
- (o) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
- (p) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (q) This Senior Floating Rate Note will settle after October 31, 2020, at which time the interest rate will be determined.
- (r) Security was purchased in a "to-be-announced" ("TBA") transaction. See notes for additional information.
- (s) Security or a portion of the security was pledged to cover margin requirements for futures contracts. At the end of the period, the value of these securities totaled \$577 or 0.09% of net assets.
- (t) Rate shown is the discount rate of the original purchase.

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$9,274 or 0.08% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$95,944 or 0.86% of net assets.
- (f) Security or a portion of the security was on loan at the end of the period.

(a) *Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.*

(b) *Non-income producing security*

(c) *Current yield shown is as of period end.*

(d) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$34,979 or 15.21% of net assets.*

(e) *Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.*

JPMorgan Chase	Turkey Government International Bond, 11.88%, 01/15/2030	5.56%	(1.00)%	Quarterly		12/20/2025	\$ 8,100\$	1,613\$	(19)\$	1,594\$	—
Total							\$ 8,100\$	1,613\$	(19)\$	1,594\$	—

Amounts in thousands.

(a) Implied credit spreads, represented in absolute terms, used in determining the market value of credit default swap agreements on corporate issues or sovereign issues as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

Other Assets and Liabilities - 0.91%		44,586
TOTAL NET ASSETS - 100.00%		\$ 4,894,682

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$25,752 or 0.53% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$1,719,014 or 35.12% of net assets.
- (f) The value of these investments was determined using significant unobservable inputs.
- (g) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$178,713 or 3.65% of net assets.
- (h) Security or a portion of the security was on loan at the end of the period.
- (i) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (j) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (k) Security is a contingent convertible security, ("CoCo"). CoCo's are hybrid debt securities that may convert to equity or have their principal written down upon occurrence of certain "triggers". See notes for additional information. At the end of the period, the value of these securities totaled \$130,723 or 2.67% of net assets.
- (l) Security purchased on a when-issued basis.
- (m) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (n) Security is an Interest Only Strip.
- (o) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
- (p) Restricted Security. Please see Restricted Securities sub-schedule for additional information.
- (q) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (r) This Senior Floating Rate Note will settle after October 31, 2020, at which time the interest rate will be determined.

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$2 or 0.00% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security or a portion of the security was on loan at the end of the period.
- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$28,778 or 1.05% of net assets.

TOTAL U.S. GOVERNMENT & GOVERNMENT AGENCY OBLIGATIONS		\$ 1,208,634
Total Investments		\$ 1,771,450
Other Assets and Liabilities - (14.91)%		(229,871)
TOTAL NET ASSETS - 100.00%		<u>\$ 1,541,579</u>

- (a) *Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.*
- (b) *Non-income producing security*
- (c) *Current yield shown is as of period end.*
- (d) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$60,573 or 3.93% of net assets.*
- (e) *Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.*
- (f) *Security is an Interest Only Strip.*
- (g) *Security was purchased in a "to-be-announced" ("TBA") transaction. See notes for additional information.*

TOTAL SENIOR FLOATING RATE INTERESTS	\$	343,665
Total Investments	\$	3,040,376
Other Assets and Liabilities - (0.50)%		(15,200)
TOTAL NET ASSETS - 100.00%	\$	3,025,176

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$19,871 or 0.66% of net assets.
- (c) *Affiliated Security.* Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see *Affiliated Securities* sub-schedule for transactional information.
- (d) Non-income producing security
- (e) The value of these investments was determined using significant unobservable inputs.
- (f) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$24,611 or 0.81% of net assets.
- (g) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$1,724,232 or 57.00% of net assets.
- (h) Security or a portion of the security was on loan at the end of the period.
- (i) *Restricted Security.* Please see *Restricted Securities* sub-schedule for additional information.
- (j) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (k) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
- (l) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (m) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (n) Security purchased on a when-issued basis.
- (o) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (p) This Senior Floating Rate Note will settle after October 31, 2020, at which time the interest rate will be determined.

Exchange Cleared Credit Default Swaps

Sell Protection									
Reference Entity	Implied Credit Spread as of October 31, 2020 (a)	(Pay)/Receive Fixed Rate	Payment Frequency	Maturity Date	Notional Amount (b)	Upfront Payments/ (Receipts)	Unrealized Appreciation/ (Depreciation)	Fair Value (c)	
CDX.NA.HY.35	N/A	5.00%	Quarterly	12/20/2025	\$ 32,000	\$ 1,573	\$(474)	\$ 1,099	
Total						\$ 1,573	\$(474)	\$ 1,099	

Amounts in thousands.

(a) Implied credit spreads, represented in absolute terms, used in determining the market value of credit default swap agreements on corporate issues or sovereign issues as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

(b) The maximum potential payment amount that the seller of credit protection could be required to make if a credit event occurs as defined under the terms of that particular swap agreement is \$32,000.

(c) The market price and resulting market value for credit default swap agreements on an issuer serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit default swap as of the period end. Increasing market values, in absolute terms, when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

Total Investments		\$ 3,021,148
Other Assets and Liabilities - (1.27)%		(38,056)
TOTAL NET ASSETS - 100.00%		\$ 2,983,092

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$7,600 or 0.25% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) The value of these investments was determined using significant unobservable inputs.
- (f) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$21,407 or 0.72% of net assets.
- (g) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$1,687,253 or 56.56% of net assets.
- (h) Security or a portion of the security was on loan at the end of the period.
- (i) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (j) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (k) Security is a contingent convertible security, ("CoCo"). CoCo's are hybrid debt securities that may convert to equity or have their principal written down upon occurrence of certain "triggers". See notes for additional information. At the end of the period, the value of these securities totaled \$17,215 or 0.58% of net assets.
- (l) Security purchased on a when-issued basis.
- (m) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (n) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
- (o) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (p) This Senior Floating Rate Note will settle after October 31, 2020, at which time the interest rate will be determined.

- (a) *Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.*
- (b) *Non-income producing security*
- (c) *Current yield shown is as of period end.*
- (d) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$6,514 or 2.51% of net assets.*
- (e) *Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$31 or 0.01% of net assets.*

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$1,406 or 0.01% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security or a portion of the security was on loan at the end of the period.
- (f) Restricted Security. Please see Restricted Securities sub-schedule for additional information.
- (g) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$90,885 or 0.81% of net assets.
- (h) The value of these investments was determined using significant unobservable inputs.

- (a) Current yield shown is as of period end.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$573,213 or 71.86% of net assets.
- (c) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (d) Credit support indicates investments that benefit from credit enhancement or liquidity support provided by a third party bank, institution, or government agency.
- (e) Security issued by foreign bank and denominated in USD.

Schedule of Investments
Short-Term Income Fund
October 31, 2020

U.S. GOVERNMENT & GOVERNMENT AGENCY OBLIGATIONS (continued)	Principal Amount (000's)	Value (000's)
U.S. Treasury Bill (continued)		
0.16%, 12/03/2020 ⁽ⁱ⁾	\$ 74,000	\$ 73,995
		\$ 709,085
TOTAL U.S. GOVERNMENT & GOVERNMENT AGENCY OBLIGATIONS		\$ 768,782
Total Investments		\$ 5,931,868
Other Assets and Liabilities - (0.25)%		(14,734)
TOTAL NET ASSETS - 100.00%		\$ 5,917,134

- (a) Current yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$402 or 0.01% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$1,707,970 or 28.86% of net assets.
- (f) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (g) Security or a portion of the security was on loan at the end of the period.
- (h) Security purchased on a when-issued basis.

- (i) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$29,249 or 0.49% of net assets.
- (j) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (k) Security is an Interest Only Strip.
- (l) Rate shown is the discount rate of the original purchase.

TOTAL NET ASSETS - 100.00%		\$ 807,322

- (f) The value of these investments was determined using significant unobservable inputs.
- (g) Fair value of these investments is determined in good faith by the Manager under procedures established and periodically reviewed by the Board of Directors. Certain inputs used in the valuation may be unobservable; however, each security is evaluated individually for purposes of ASC 820 which results in not all securities being identified as Level 3 of the fair value hierarchy. At the end of the period, the fair value of these securities totaled \$5 or 0.00% of net assets.
- (h) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$119 or 0.01% of net assets.

Portfolio Summary (unaudited)

Sector	Percent
Financial	29.28%
Industrial	18.46%
Consumer, Cyclical	15.79%
Consumer, Non-cyclical	12.05%

TOTAL NET ASSETS	100.00%

- (a) Security or a portion of the security was on loan at the end of the period.
- (b) Current yield shown is as of period end.
- (c) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$7,010 or 0.87% of net assets.
- (d) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940) or an affiliate as defined by the Investment Company Act of 1940 (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (e) Non-income producing security

- (a) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$44,676 or 6.95% of net assets.
- (b) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (c) Security or portion of underlying security related to Inverse Floaters entered into by the fund. See notes for additional information.
- (d) Credit support indicates investments that benefit from credit enhancement or liquidity support provided by a third party bank, institution, or government agency.
- (e) Non-income producing security
- (f) Security purchased on a when-issued basis.
- (g) Floating rate securities. The interest rate(s) shown reflect the rates in effect at October 31, 2020.

(a) Calculated based on average shares outstanding during the period.

(b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

(c) Excludes interest expense and fees paid through inverse floater agreements. See "Operating Policies" in notes to financial statements.

(d) Effective December 30, 2019, Income Fund changed its name to Core Fixed Income Fund.

(e) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

(f) Reflects Manager's contractual expense limit.

5.62 (d)	9,220	2.80 (c)	(0.51)	120.3

(a) Calculated based on average shares outstanding during the period.

(b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

(c) Reflects Manager's contractual expense limit.

(d) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

(e) During the year ended October 31, 2020, the fund experienced a significant one time gain of approximately \$0.11/share as a result of a settlement in a litigation proceeding. If such gain had not been recognized, the total return amounts expressed herein would have been lower.

(f) Includes 0.01% of expenses associated with the reclaim of foreign taxes paid. The expense is not subject to the Manager's contractual expense limit.

To the Shareholders of Class A and C shares of California Municipal Fund, Core Fixed Income Fund (formerly Income Fund), Core Plus Bond Fund, Diversified International Fund, Equity Income Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, Global Real Estate Securities Fund, Government & High Quality Bond Fund, High Income Fund, High Yield Fund, Inflation Protection Fund, International Emerging Markets Fund, International Fund I, LargeCap Growth Fund I, LargeCap S&P 500 Index Fund, MidCap Fund, MidCap Value Fund I, Money Market Fund, Principal Capital Appreciation Fund, Real Estate Securities Fund, Short-Term Income Fund, SmallCap Fund, SmallCap Value Fund II, and Tax-Exempt Bond Fund and the Board of Directors of Principal Funds, Inc.

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of California Municipal Fund, Core Fixed Income Fund (formerly Income Fund), Core Plus Bond Fund, Diversified International Fund, Equity Income Fund, Finisterre Unconstrained Emerging Markets Bond Fund, Global Diversified Income Fund, Global Real Estate Securities Fund, Government & High Quality Bond Fund, High Income Fund, High Yield Fund, Inflation Protection Fund, International Emerging Markets Fund, International Fund I, LargeCap Growth Fund I, LargeCap S&P 500 Index Fund, MidCap Fund, MidCap Value Fund I, Money Market Fund, Principal Capital Appreciation Fund, Real Estate Securities Fund, Short-Term Income Fund, SmallCap Fund, SmallCap Value Fund II, and Tax-Exempt Bond Fund (collectively referred to as the “Funds”), (25 of the portfolios constituting Principal Funds, Inc. (the “Fund”)), including the schedules of investments, as of October 31, 2020, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (25 of the portfolios constituting the Fund) at October 31, 2020, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual portfolio constituting the Fund	Statement of operations	Statements of changes in net assets	Financial highlights
California Municipal Fund Core Fixed Income Fund (formerly Income Fund) Core Plus Bond Fund Diversified International Fund Equity Income Fund Global Diversified Income Fund Global Real Estate Securities Fund Government & High Quality Bond Fund High Income Fund High Yield Fund Inflation Protection Fund International Emerging Markets Fund International Fund I LargeCap Growth Fund I LargeCap S&P 500 Index Fund MidCap Fund Money Market Fund Principal Capital Appreciation Fund Real Estate Securities Fund Short-Term Income Fund SmallCap Fund SmallCap Value Fund II Tax-Exempt Bond Fund	For the year ended October 31, 2020	For each of the two years in the period ended October 31, 2020	For each of the five years in the period ended October 31, 2020
Finisterre Unconstrained Emerging Markets Bond Fund	For the year ended October 31, 2020	For each of the two years in the period ended October 31, 2020	For each of the four years in the period ended October 31, 2020 and the period from July 11, 2016, date operations commenced, through October 31, 2016
MidCap Value Fund I	For the year ended October 31, 2020	For each of the two years in the period ended October 31, 2020	For year ended October 31, 2020 and the period from April 2, 2019, date share class operations commenced, through October 31, 2019

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on each of the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2020, by correspondence with the custodian, agent banks, brokers and transfer agent or by other appropriate auditing procedures where replies from agent banks or brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more Principal investment companies since 1969.

Minneapolis, Minnesota

SHAREHOLDER EXPENSE EXAMPLE
PRINCIPAL FUNDS, INC.
October 31, 2020 (unaudited)

As a shareholder of Principal Funds, Inc., you incur two types of costs: (1) transaction costs, including sales charges on purchase payments and contingent deferred sales charges; and (2) ongoing costs, including management fees; distribution fees; and other fund expenses. In addition to the expenses the Funds bear directly, each of the Funds may indirectly bear its pro rata share of the expenses incurred by the investment companies in which the fund invests. This Example is intended to help you understand your ongoing costs (in dollars) of investing in Principal Funds, Inc. and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (May 1, 2020 to October 31, 2020), unless otherwise noted.

Actual Expenses

The first section of the table below provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period. An annual fee may apply to IRA accounts and 403(b) accounts within Class A and Class C shares. These fees are not included in the table below. If they were, the estimate of expenses you paid during the period would be higher, and your ending account value lower, by this amount.

Hypothetical Example for Comparison Purposes

The second section of the table below provides information about hypothetical account values and hypothetical expenses based on each fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in Principal Funds, Inc. and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges on purchase payments, contingent deferred sales charges, redemption fees or exchange fees. Therefore, the second section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Notification of Source of Distributions

Pursuant to Rule 19a-1 of the Investment Company Act of 1940

As noted in the table provided below, certain of the Principal Funds made distributions for the months of June 2020, July 2020, August 2020, September 2020, October 2020 and November 2020 for which a portion is estimated to be in excess of the fund's current and accumulated net income. As of these month ends, the estimated sources of these distributions were as follows:

June 2020			
Fund	Net Income	Realized Gain	Capital Sources
California Municipal Fund	86.33%	0.00%	13.67%
Core Fixed Income Fund	0.00	94.83	5.17

High Yield Fund	5.58	0.00	94.42

The ultimate composition of these distributions may vary from the estimates provided above due to a variety of factors including future income and expenses, and realized gains and losses from the purchase and sale of securities.

Please note that this information is being provided to satisfy certain notice requirements under the Investment Company Act of 1940. Tax reporting information for shareholders of the funds will not be available until the end of the funds' fiscal year.

As a result, shareholders should not use the information provided in this notice for tax reporting purposes.

Notices are posted monthly on our website at principalfunds.com/sources-of-distribution. You may also request a copy of such notices, free of charge, by telephoning 800-222-5852.

*This material is not authorized for distribution unless preceded or accompanied by a current prospectus that includes more information regarding the risk factors, expenses, policies, and objectives of the investment. Contact your financial professional or call **800-222-5852** to obtain another copy of the prospectus. Read the prospectus carefully before investing.*

A mutual fund's share price and investment return will vary with market conditions, and the principal value of an investment when you sell your shares may be more or less than the original cost.

Principal Funds are distributed by Principal Funds Distributor, Inc.

FUND DIRECTORS AND OFFICERS

Under Maryland law, a Board of Directors oversees the Fund. The Directors have financial or other relevant experience and meet several times during the year to review contracts, Fund activities and the quality of services provided to the Fund. Each director also has the same position with Principal Variable Contracts Funds, Inc., Principal Exchange-Traded Funds, and Principal Diversified Select Real Asset Fund which are also sponsored by Principal Life Insurance Company. Each director generally holds office for an indefinite term until the director reaches age 72 (unless such mandatory retirement age is waived by the Board). Directors considered to be “interested persons” as defined in the Investment Company Act of 1940, as shown below are considered to be interested because of an affiliation with the Manager and Principal Life Insurance Company.

The following directors are considered not to be “interested persons” as defined in the 1940 Act

Name, Position Held with the Fund, Year of Birth	Principal Occupation(s) During past 5 years	Number of Portfolios in Fund Complex Overseen by Director	Other Directorships Held by Director During Past 5 Years
Elizabeth Ballantine Director since 2004 Member, Nominating and Governance Committee 1948	Principal, EBA Associates	126	Durango Herald, Inc.; McClatchy Newspapers, Inc.
Leroy T. Barnes, Jr. Director since 2012 Member, Audit Committee Member, Nominating and Governance Committee 1951	Retired.	126	McClatchy Newspapers, Inc.; Frontier Communications, Inc.; formerly, Herbalife Ltd.
Craig Damos Lead Independent Director since 2020 Director since 2008 Member, Nominating and Governance Committee Member, Executive Committee 1954	President, C.P. Damos Consulting LLC	126	None
Fritz S. Hirsch Director since 2005 Member, Operations Committee Member, 15(c) Committee 1951	Formerly, CEO, MAM USA	126	MAM USA
Victor Hymes Director since 2020 Member, Audit Committee 1957	Founder and Managing Member of Legato Capital Management, LLC	126	Brookings Institution; Earthjustice; Natural Resources Defense Council; Montgomery Street Income Securities Inc.
John D. Kenney Director since 2020 Member, Operations Committee Member, 15(c) Committee 1965	Formerly, Legg Mason Global Asset Management	126	Formerly: Legg Mason Investment Management Affiliates: Brandywine Global; Clarion Partners; ClearBridge Investments; Entrust Global; Legg Mason Poland; Martin Currie Investment Management; Permal Group (merged into Entrust); QS Investors; RARE Infrastructure; Royce and Associates; and Western Asset Management
Karen (“Karrie”) McMillan Director since 2014 Member, Operations Committee 1961	Managing Director, Patomak Global Partners, LLC	126	None
Padelford L. Lattimer Director since 2020 Member, Operations Committee Member, 15(c) Committee 1961	TBA Management Consulting LLC	126	None

Name, Position Held with the Fund, Year of Birth	Principal Occupation(s) During past 5 years	Number of Portfolios in Fund Complex Overseen by Director	Other Directorships Held by Director During Past 5 Years
Elizabeth A. Nickels Director since 2015 Member, Audit Committee Member, Nominating and Governance Committee 1962	Retired.	126	SpartanNash; formerly: Charlotte Russe; Follet Corporation; PetSmart; Spectrum Health Systems
Mary M. (“Meg”) VanDeWeghe Director since 2018 Member, Audit Committee Member, 15(c) Committee 1959	CEO and President, Forte Consulting, Inc.	126	Helmerich & Payne; Formerly: B/E Aerospace; Brown Advisory; Denbury Resources Inc.; Nalco (and its successor Ecolab); and WP Carey

The following directors are considered to be “interested persons” as defined in the 1940 Act, because of an affiliation with the Manager and Principal Life.

Name, Position Held with the Fund, Year of Birth	Principal Occupation(s) During past 5 years	Number of Portfolios in Fund Complex Overseen by Director	Other Directorships Held by Director During Past 5 Years
Timothy M. Dunbar Chair and Director since 2019 Member, Executive Committee 1957	Director, PGI since 2018 President, Principal Global Asset Management (“PGAM”), PGI, Principal Life Insurance Company (“PLIC”), and Principal Financial Services, Inc. (“PFSI”) (2018-2021) Executive Vice President, RobustWealth, Inc. since 2018 Executive Vice President/Chief Investment Officer, PLIC and PFSI (2014-2018)	126	None

The 15(c) Committee’s primary purpose is to assist the Board in performing the annual review of the Fund’s advisory and sub-advisory agreements pursuant to Section 15(c) of the 1940 Act. The Committee responsibilities include requesting and reviewing materials.

The Audit Committee’s primary purpose is to assist the Board in fulfilling certain of its responsibilities. The Audit Committee serves as an independent and objective party to monitor the Fund Complex’s accounting policies, financial reporting and internal control system, as well as the work of the independent registered public accountants. The Audit Committee assists Board oversight of 1) the integrity of the Fund Complex’s financial statements; 2) the Fund Complex’s compliance with certain legal and regulatory requirements; 3) the independent registered public accountants’ qualifications and independence; and 4) the performance of the Fund Complex’s independent registered public accountants. The Audit Committee also provides an open avenue of communication among the independent registered public accountants, the Manager’s internal auditors, Fund Complex management, and the Board.

The Executive Committee’s primary purpose is to exercise certain powers of the Board when the Board is not in session. When the Board is not in session, the Committee may exercise all powers of the Board in the management of the business of the Fund Complex except the power to 1) authorize dividends or distributions on stock; 2) issue stock, except as permitted by law; 3) recommend to the stockholders any action which requires stockholder approval; 4) amend the bylaws; or 5) approve any merger or share exchange which does not require stockholder approval.

The Nominating and Governance Committee’s primary purpose is to oversee the structure and efficiency of the Board and the committees established by the Board. The Committee responsibilities include evaluating Board membership and functions, committee membership and functions, insurance coverage, and legal matters. The nominating functions of the Committee include selecting and nominating all candidates who are not “interested persons” of the Fund Complex for election to the Board. Generally, the Committee requests director nominee suggestions from the committee members and management. In addition, the Committee will consider Director candidates recommended by shareholders of the Fund Complex. Recommendations should be submitted in writing to Principal Funds, Inc. at 711 High Street, Des Moines, IA 50392. When evaluating a person as a potential nominee to serve as an Independent Director, the Committee will generally consider, among other factors: age; education; relevant business experience; geographical factors; whether the person is “independent” and

otherwise qualified under applicable laws and regulations to serve as a director; and whether the person is willing to serve, and willing and able to commit the time necessary for attendance at meetings and the performance of the duties of an independent director. The Committee also meets personally with the nominees and conducts a reference check. The final decision is based on a combination of factors, including the strengths and the experience an individual may bring to the Board. The Committee believes the Board generally benefits from diversity of background, experience and views among its members, and considers these factors in evaluating the composition of the Board. The Board does not use regularly the services of any professional search firms to identify or evaluate or assist in identifying or evaluating potential candidates or nominees.

The Operations Committee's primary purpose is to oversee the provision of administrative and distribution services to the Funds Complex, communications with the Fund Complex's shareholders, and review and oversight of the Fund Complex's operations.

Additional information about the Fund is available in the Prospectus dated March 1, 2020 and as supplemented, and the Statement of Additional Information dated March 1, 2020 and as supplemented. These documents may be obtained free of charge by writing Principal Funds, Inc., P.O. Box 8024, Boston, MA 02266-8024 or telephoning 1-800-222-5852. The prospectus may be viewed at www.PrincipalFunds.com/prospectuses.

PROXY VOTING POLICIES

A description of the policies and procedures the Fund uses to determine how to vote proxies relating to portfolio securities and the results of the proxy votes for the most recent twelve months ended June 30 may be obtained free of charge by telephoning 1-800-222-5852, or on the SEC website at www.sec.gov.

SCHEDULES OF INVESTMENTS

The Fund files complete schedules of investments with the Securities and Exchange Commission for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Fund's Form N-PORT reports are available on the Commission's website at www.sec.gov.

Money Market Fund files a complete schedule of investments with the Securities and Exchange Commission monthly on Form N-MFP. Form N-MFP is available on the Commission's website at www.sec.gov. In addition, the monthly portfolio holdings are available for Money Market Fund at www.PrincipalFunds.com.

BOARD CONSIDERATION OF INVESTMENT ADVISORY CONTRACTS

During the period covered by this report, the Board of Directors of Principal Funds, Inc. (“PFI”) approved: (1) an Amended Management Agreement with Principal Global Investors, LLC (the “Manager” or “PGI”) with respect to the SmallCap Value Fund II; (2) an amended sub-advisory agreement between Los Angeles Capital Management and Equity Research, Inc. and the Manager with respect to SmallCap Value II and Midcap Value Fund I; (3) an amended sub-advisory agreement between Vaughan Nelson Investment Management, LP and the Manager with respect to SmallCap Value Fund II; (4) an amended sub-advisory agreement between BlackRock Financial Management, Inc. and the Manager with respect to the Inflation Protection Fund; (5) an amended sub-advisory agreement between the Manager and Causeway Capital Management LLC and the Manager with respect to the Overseas Fund; (6) an amended sub-advisory agreement between MetLife Investment Management, LLC and the Manager with respect to the Global Diversified Income Fund; (7) an amended sub-advisory agreement between T. Rowe Price Associates, Inc. and the Manager with respect to the LargeCap Growth Fund I; (8) an amended sub-advisory agreement between Westwood Management Corporation with respect to the LargeCap Value Fund III; and (9) the annual review and renewal of the Management Agreement and various sub-advisory agreements for all Funds.

Amended Management Agreement for SmallCap Value Fund II and Amended Sub-Advisory Agreements for SmallCap Value Fund II, MidCap Value Fund I, Inflation Protection Fund, Overseas Fund, Global Diversified Income Fund, LargeCap Growth Fund I and LargeCap Value Fund III

On June 9, 2020, the Board met and considered:

For SmallCap Value Fund II (“SmallCap Value II” or a “Fund”) the approval of an amended management agreement (the “Management Agreement”) between PFI, for the Fund, and the Manager in connection with a proposal to amend the management fee schedule to reduce the effective management fee rate payable at all asset levels;

For each of SmallCap Value II and MidCap Value Fund I (each a “Fund”) the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and Los Angeles Capital Management and Equity Research, Inc. (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule to reduce the effective sub-advisory fee rate payable at all asset levels;

For Small Cap Value II the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and Vaughan Nelson Investment Management, LP (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule to reduce the effective sub-advisory fee rate payable at all asset levels;

For Inflation Protection Fund (a “Fund”) the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and BlackRock Financial Management, Inc. (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule to reduce the effective sub-advisory fee rate payable at certain asset levels;

For Overseas Fund (a “Fund”) the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and Causeway Capital Management LLC (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule in a manner that would reduce the effective sub-advisory fee rate payable at current asset levels but increase the effective sub-advisory fee rate payable at certain greater asset levels;

For Global Diversified Income Fund (a “Fund”) the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and MetLife Investment Management, LLC (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule to reduce the effective sub-advisory fee rate payable at all asset levels;

For LargeCap Growth Fund I (a “Fund”) the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and T. Rowe Price Associates, Inc. (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule to reduce the effective sub-advisory fee rate payable at certain asset levels; and

For LargeCap Value Fund III (a “Fund”) the approval of an amended sub-advisory agreement (a “Sub-Advisory Agreement”) between the Manager and Westwood Management Corporation (a “Sub-Advisor”) in connection with a proposal to change the methodology for calculating the sub-advisory fee and to amend the sub-advisory fee schedule to reduce the effective sub-advisory fee rate payable at all asset levels.

With respect to the Management Agreement for SmallCap Value II, the Board considered the Manager's representation that the amendment to the Management Agreement would not reduce the quality or quantity of the services the Manager provides to the Fund and that the Manager's obligations under the Management Agreement would remain the same in all material respects. The Board also considered that the Manager was not proposing any material changes to the terms of the Management Agreement for SmallCap Value II other than to the management fee schedule.

With respect to the Sub-Advisory Agreements, the Board noted that because the sub-advisory fees were paid by the Manager, the amendments to the Sub-Advisory Agreements would not change the management fee rates paid by the Funds. The Board considered the Manager's representation that the amendments to the Sub-Advisory Agreements would not reduce the quality or quantity of the services each Sub-Advisor provides to the applicable Fund(s) and that each Sub-Advisor's obligations under the applicable Sub-Advisory Agreement would remain the same in all material respects. The Board also considered that the Manager was not proposing any material changes to the terms of any Sub-Advisory Agreement other than to the methodology for calculating the sub-advisory fee and the sub-advisory fee schedule.

The Board considered that they had last approved the Management Agreement for SmallCap Value II and each Sub-Advisory Agreement for each applicable Fund during the annual contract renewal process that concluded at the Board of Directors' September 2019 meeting. They noted that during the annual contract renewal process, they had considered the nature, quality and extent of the services provided by the Manager under the Management Agreement and by each Sub-Advisor under the applicable Sub-Advisory Agreement and had concluded, based upon the information provided, that the terms of the Management Agreement and each Sub-Advisory Agreement were reasonable and that approval of the Management Agreement and each Sub-Advisory Agreement was in the best interests of the applicable Fund.

Overall Conclusions

Based upon all of the information considered, the Board concluded that it was in the best interests of each Fund to approve the amended Management Agreement and Sub-Advisory Agreements.

Annual Review and Renewal of Management Agreement and Sub-Advisory Agreements

At its September 15, 2020 meeting, the Board performed its annual review and renewal process relating to the Management Agreement and the Sub-Advisory Agreements for all Funds.

Section 15(c) of the Investment Company Act of 1940 (the "1940 Act") requires the Board, including a majority of the Directors who have no direct or indirect interest in the investment advisory agreements and who are not "interested persons" of PFI, as defined in the 1940 Act (the "Board"), annually to review and to consider the continuation of: (1) the Management Agreement between Principal Global Investors, LLC (the "Manager") and PFI, on behalf of each of the sixty-three (63) series of PFI (each series is referred to as a "Fund") (2) the Sub-Advisory Agreements between the Manager and each of AllianceBernstein L.P.; Barrow Hanley Mewhinney & Strauss, LLC; BlackRock Financial Management, Inc.; BlackRock International Limited; Brown Advisory, LLC; Causeway Capital Management LLC; Columbus Circle Investors; DDJ Capital Management, LLC; Eagle Asset Management, Inc.; Emerald Advisers, LLC; Finisterre Capital LLP; Hotchkis and Wiley Capital Management, LLC; Los Angeles Capital Management and Equity Research, Inc.; Mellon Investments Corporation; MetLife Investment Management, LLC; Origin Asset Management LLP; Post Advisory Group, LLC; Principal Real Estate Investors, LLC; Robert W. Baird & Co. Incorporated; Spectrum Asset Management, Inc.; T. Rowe Price Associates, Inc.; Vaughan Nelson Investment Management, LP; Victory Capital Management Inc.; W. H. Reaves & Co., Inc.; and Westwood Management Corp.; (collectively, the "Sub-Advisors"). The Management Agreement and the Sub-Advisory Agreements are collectively referred to as the "Advisory Agreements."

The Board considered the factors and reached the conclusions described below relating to the continuation of the Advisory Agreements. In evaluating the Advisory Agreements, the Board reviewed a broad range of information requested for this purpose, including, among other information, information regarding performance, advisory fees, total expenses, profitability from the Advisory Agreements to the Manager and information about economies of scale. The Board reviewed the materials provided and concluded that it was provided all information reasonably necessary to evaluate the Advisory Agreements.

Management Agreement

The Board considered, among other factors, that the Manager, that the Manager and its affiliates have demonstrated a long-term commitment to support the Funds, including undertakings to cap Fund expenses and/or waive management fees for certain Funds. The Board concluded that a relationship with a capable and conscientious investment adviser is in the best interests of each Fund. In addition, the Board considered various factors, including the following factors for each of the Funds.

Nature, Quality and Extent of Services

The Board considered the nature, quality and extent of the services provided under the Management Agreement, including accounting and administrative services, as applicable. The Board considered the experience and skills of senior management leading Fund operations, the experience and skills of the personnel performing the functions under the Management Agreement and the resources made available to such personnel, the ability of the Manager to attract and retain high-quality personnel and the organizational depth and stability of the Manager. The Board concluded that appropriate resources were provided under the Management Agreement.

The Board also considered that for certain Funds, during the periods reviewed, the Manager had delegated day-to-day portfolio management responsibility to the Sub-Advisors. The Board noted that the Manager's process for the selection of sub-advisors emphasizes the selection of Principal-affiliated sub-advisors that are determined to be qualified under the Manager's due diligence process, but that the Manager will select an unaffiliated sub-advisor to manage all or a portion of a Fund's investment portfolio when deemed necessary or appropriate based upon a consideration of the Fund's investment mandate and available expertise and resources within the Principal organization. With respect to Funds with unaffiliated sub-advisors, the Board considered the due diligence process developed by the Manager for purposes of selecting a qualified unaffiliated sub-advisor for a Fund. The Board considered the Manager's due diligence process for monitoring and replacing Sub-Advisors and for monitoring the investment performance of the Manager. The Board also considered the compliance program established by the Manager for the Funds, the quality of that program and the Funds' compliance history. The Board noted that they had previously reviewed information regarding the cost and quality of Fund portfolio transactions, including best execution and soft dollar reports and information regarding the research payment accounts for applicable Funds, and included this information in their consideration of the renewal of the Advisory Agreements. Based upon all relevant factors, the Board concluded that the nature, quality and extent of the services provided by the Manager to the Funds under the Management Agreement were satisfactory.

Investment Performance

The Board reviewed each Fund's investment performance over longer-term periods, reviewing both the investment return during the three-year period ended March 31, 2020 and the blended investment return (50%/50%) of the three- and five-year periods ended March 31, 2020, and compared those returns to various agreed-upon performance measures, including, for all Funds other than the PFI Government Money Market Fund, the PFI Money Market Fund and DSRA, peer-group data based upon a broad-based, industry category determined using Morningstar Direct data ("Performance Universe"). For the PFI Government Money Market Fund and the PFI Money Market Fund, comparative performance information was based upon data provided by EPFR (formerly I Money Net).

For Funds or Subadvisors that did not have a five-year performance history, the Board reviewed performance for a three-year period ended March 31, 2020, if available. For Funds or Subadvisors that did not have a three-year performance history, the Board reviewed performance for a one-year period ended March 31, 2020, if available. The Board also compared each Fund's investment performance over the one-, three- and five-year periods ended March 31, 2020, as available, to one or more relevant benchmark indices. The Board noted that certain Funds had commenced operations recently and, accordingly, no or limited performance information was considered. The Board also considered whether investment results were consistent with a Fund's investment objective(s) and policies. For most Funds, the Board concluded that the Fund's investment returns met acceptable levels of investment performance. There were certain Funds, and certain Subadvisors for multi-manager Funds, that had not attained during the relevant period(s) a level of investment performance considered satisfactory by the Board. For such Funds, the Board also considered other factors, such as the longer-term performance of each such Fund or Subadvisor, remedial efforts being undertaken to improve performance and/or the Manager's explanation for the performance of such Fund or Subadvisor. The Board considered the Manager's due diligence process for evaluating the performance of all Funds and all Subadvisors, for which they receive regular reporting, and concluded that the Manager has in place an effective due diligence process to monitor investment performance, to encourage remedial action and to make changes in the Subadvisors at the appropriate time, if necessary.

Investment Management Fees

The Board considered each Fund's management fee rate. For each Fund, the Board received certain information from Broadridge. The Board received information comparing each Fund's (1) effective contractual management fee rate at current asset levels and at theoretical asset levels, (2) effective net management fee rate (after any fee waivers) at average fiscal-year asset levels, (3) actual non-management expense rate at average fiscal-year asset levels, and (4) total net expense ratio (including, as applicable, acquired fund fees and expenses and after any expense caps or fee waivers) at average fiscal-year asset levels for Institutional Class shares for each Fund, except for the money Market Fund as described below, to investment advisory fee rates, non-management expense rates and expense ratios of funds in a peer group selected by Broadridge ("Expense Group"), and, if available, a broad-based, industry category defined by Broadridge ("Expense Universe").

For the Money Market Fund, which does not have Institutional Class shares, comparative fee and expense information was provided based upon Class A shares. For other Funds for which Class A shares represented more than 10% of the Fund's total assets, comparative fee and expense information was supplementally provided based upon Class A shares.

In evaluating the effective management fee rates, the Board considered a variety of factors, including the effective fee rates, breakpoints, comparisons to fee rates of peer group funds and other funds and non fund accounts managed by the Manager, sub-advisory fee rates paid, services provided, investment performance, total net expense ratios, profitability, the existence and sharing of economies of scale, fall-out benefits and expense caps and fee waivers. The Board considered the impact of changes in sub-advisory fee rates put into effect since September 2019. The Board considered that certain Funds with similar investment strategies and policies have different management fee schedules and noted the reasons cited by the Manager for the differing fee rates. For most Funds, effective net management fee rates were within the third quartile or better when compared to their Expense Group. For some Funds, although effective net management fee rates were higher than the third quartile, total net expense ratios were within the third quartile or better.

With respect to the Principal LifeTime Hybrid Funds, the Board noted that the Funds do not pay Fund-level management fees and reviewed the actual non-management expenses of the Funds. The Board reviewed the total net expense ratios of the Funds, including acquired fund

fees and expenses, and noted that the total net expense ratios, including acquired fund fees and expenses, for the Principal LifeTime Hybrid 2045 Fund, the Principal LifeTime Hybrid 2050 Fund, the Principal LifeTime Hybrid 2055 Fund, the Principal LifeTime Hybrid 2060 Fund and the Principal LifeTime Hybrid 2065 Fund were in the fourth quartile. In concluding that the Management Agreement for each of these Funds should be renewed, the Board considered all relevant factors, including the Funds' actual non-management expenses, which the Board concluded were reasonable, and the fees and expenses of the underlying Funds in which the PFI Principal LifeTime Hybrid Funds invest, which the Board considered individually and concluded were reasonable. The Board considered the Manager's statement that the fee and expense comparisons for the Principal LifeTime Hybrid Funds included information for certain peer funds' Class R-6 shares, which have expense structures different from that of the Funds' Institutional Class shares, making for a suboptimal comparison. The Board also considered the Funds' performance, noting the Principal LifeTime Hybrid 2045 Fund's performance in the second quartile of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (42nd and 35th percentiles, respectively); the Principal LifeTime Hybrid 2050 Fund's performance in the second quartile of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (43rd and 37th percentiles, respectively); the Principal LifeTime Hybrid 2055 Fund's performance in the third and second quartiles, respectively, of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (52nd and 44th percentiles, respectively); the Principal LifeTime Hybrid 2060 Fund's performance in the third quartile of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (62nd and 60th percentiles, respectively); and the Principal LifeTime Hybrid 2065 Fund's lack of a three-year performance history and the Fund's performance in the second quartile of its Performance Universe for the one-year period ended March 31, 2020 (39th percentile).

With respect to the Principal LifeTime Funds, the Board noted that the Funds do not pay Fund-level management fees and reviewed the actual non-management expenses of the Funds. The Board reviewed the total net expense ratios of the Funds, including acquired fund fees and expenses, and noted that the total net expense ratios, including acquired fund fees and expenses, for the Principal LifeTime 2010 Fund, the Principal LifeTime 2015 Fund, the Principal LifeTime 2060 Fund and the Principal LifeTime 2065 Fund were in the fourth quartile. In concluding that the Management Agreement for each of these Funds should be renewed, the Board considered all relevant factors, including the Funds' actual non-management expenses, which the Board concluded were reasonable, and the fees and expenses of the underlying Funds in which the Principal LifeTime Funds invest, which the Board considered individually and concluded were reasonable. The Board also considered the Funds' performance, noting the Principal LifeTime 2010 Fund's performance in the second and third quartiles, respectively, of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (46th and 52nd percentiles, respectively); the Principal LifeTime 2015 Fund's performance in the second quartile of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (38th and 42nd percentiles, respectively); the Principal LifeTime 2060 Fund's performance in the second and third quartiles, respectively, of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (39th and 56th percentiles, respectively); and the Principal LifeTime 2065 Fund's lack of a three-year performance history and the Fund's performance in the third quartile of its Performance Universe for the one-year period ended March 31, 2020 (65th percentile).

With respect to the Funds that use the "Core Satellite" structure, the Board also considered that the Manager contractually agreed to continue to waive a portion of its management fee. The Board considered the services provided by the Manager in managing the "Core" sleeve as a part of the overall services covered by the net management fee received by the Manager.

With regard to the Core Fixed Income Fund, the Board noted that the effective net management fee rate and the total net expense ratio on the basis of Institutional Class shares were higher than third quartile (83rd and 99th percentiles, respectively) in the Expense Group. The Board accepted management's proposal to amend the management fee schedule for the Fund to reduce the effective management fee rate payable at all asset levels and considered the pro forma effect of the fee reduction on the rankings of the Fund's net management fee rate and total net expense ratio on the basis of Institutional Class shares in the Expense Group, noting that the Fund's net management fee rate would move into the 82nd percentile and the Fund's total net expense ratio would move into the 55th percentile. Considering all relevant factors, including the Fund's performance in the third and second quartiles, respectively, of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (61st and 47th percentiles, respectively), the Board concluded that the Management Agreement, as amended, should be renewed.

With regard to the SAM Flexible Income Fund, the Board noted that that the contractual management fee rate, the effective net management fee rate and the total net expense ratio on the basis of Institutional Class shares were higher than third quartile (99th, 99th and 80th percentiles, respectively) in the Expense Group. Considering all relevant factors, including the Fund's performance in the second and first quartiles, respectively, of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (28th and 24th percentiles, respectively) and the more favorable rankings of the Fund's contractual management fee rate, effective net management fee rate and total net expenses ratio on the basis of Class A shares (83rd, 86th and 57th percentiles, respectively) in the Expense Group, the Board concluded that the Management Agreement should be renewed.

With regard to the SAM Strategic Growth Fund, the Board noted that the contractual management fee rate, the effective net management fee rate and the total net expense ratio on the basis of Institutional Class shares were higher than third quartile (99th, 99th and 83rd percentiles, respectively) in the Expense Group. Considering all relevant factors, including the Fund's performance in the first and second quartiles, respectively, of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (24th and 29th

percentiles, respectively) and the more favorable rankings of the Fund's contractual management fee rate, effective net management fee rate and total net expenses ratio on the basis of Class A shares (83rd, 86th and 71st percentiles, respectively) in the Expense Group, the Board concluded that the Management Agreement should be renewed.

With regard to the Real Estate Securities Fund, the Board noted that the contractual management fee rate, the effective net management fee rate and the total net expense ratio on the basis of Institutional Class shares were higher than third quartile (each was at the 88th percentile) in the Expense Group. The Board accepted management's proposal to amend the Management Agreement for the Fund to add a new breakpoint to the management fee schedule. Considering all relevant factors, including the Fund's performance in the first quartile of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2020 (11th and 12th percentiles, respectively), the Board concluded that the Management Agreement, as amended, should be renewed.

The Board also considered the expense caps and fee waivers that would be in place with respect to certain Funds and share classes. The list of agreed upon expense caps and fee waivers is the result of the Manager's proposals to extend the expense caps and fee waivers for certain Funds and share classes and to terminate the expense caps and fee waivers for other Funds and share classes that are projected to operate below current applicable expense caps. In addition, the Board accepted management's proposals to remove the expense cap on Institutional Class shares of the Principal Capital Appreciation Fund, even though these proposals would have the effect of increasing expenses for certain share classes. In accepting these proposals, the Board noted the pro forma effect of the proposals on the rankings of the Funds' net management fee rates and total net expense ratios on the basis of Institutional Class shares in the Funds' respective Expense Groups, noting that the Funds' net management fee rates and total net expense ratios would remain in the first quartile (17th and 8th percentiles for the Principal Capital Appreciation Fund). The list of agreed upon expense caps and fee waivers also reflects new or revised expense caps for Class A shares of the Core Plus Bond Fund and Institutional Class shares of the SmallCap S&P 600 Index Fund to be effective from January 1, 2021 through February 28, 2022.

With regard to the LargeCap Growth Fund I and the MidCap Fund, the Board accepted management's proposal to amend the Management Agreement for the Fund to add a new breakpoint to the management fee schedule and considered this new breakpoint in concluding that the Management Agreement, as amended, should be renewed.

With regard to the Short Term Income Fund and Government & High Quality Bond Fund, the Board accepted management's proposal to amend the Management Agreement for the Fund to reduce the effective management fee rate payable at all asset levels and considered this fee reduction in concluding that the Management Agreement, as amended, should be renewed.

With regard to each of the High Income Fund, the Global Diversified Income Fund, and the Finisterre Unconstrained Emerging Markets Bond Fund, each of which is permitted to invest in unaffiliated exchange-traded funds in excess of the limits set forth in Section 12(d) (1) of the Investment Company Act of 1940, as amended, in accordance with exemptive orders issued to such exchange-traded funds and procedures previously adopted by the Board, the Board considered information provided by the Manager relating to the non-duplicative nature of the Fund's management fees and found that the management fees charged by the Manager under the Management Agreement for the Fund are for services provided in addition to, and are not duplicative of, services provided under the investment advisory contract(s) of the exchange-traded funds in which the Fund may invest.

Profitability

The Board reviewed detailed information regarding revenues the Manager received under the Management Agreement and the estimated direct and indirect costs incurred in providing to each Fund the services described in the Management Agreement for the year ended December 31, 2019. The Board also considered the returns on revenue generated in connection with the payment of sub-advisory fees to affiliated Sub-Advisors (Columbus Circle Investors, Finisterre Capital LLP, Origin Asset Management LLP, Post Advisory Group, LLC, Principal Real Estate Investors LLC and Spectrum Asset Management, Inc.) and the aggregated return on revenue to the Manager and its affiliates for the year ended December 31, 2019. The Board concluded that, for each Fund, the profitability to the Manager of the Management Agreement was reasonable.

Economies of Scale

The Board considered whether there are economies of scale with respect to the management of each Fund and whether the Funds benefit from any such economies of scale. The Board considered the Manager's biennial breakpoint study that was received by the Board in March 2020 and the Manager's representation that Funds are initially priced as though the Fund had reached scale, reflecting a sharing of economies of scale. The Board then reviewed the levels at which breakpoints occur, the incremental declines in management fee rates at each breakpoint and the amount of fee reductions that had been provided to shareholders as a result of these breakpoints. The Board considered cost saving passed along to the Funds as a result of certain expense caps and fee waivers. The Board considered whether the effective management fee rate for each Fund under the Management Agreement is reasonable in relation to the asset size of such Fund. The Board also noted management's explanation of efficiencies in the Manager's cost structure. The Board concluded that the fee schedule for each Fund, taking into account the proposed amendments described above, reflects an appropriate level of sharing of any economies of scale.

The Board noted that the Principal LifeTime Funds and the Principal LifeTime Hybrid Funds do not directly pay management fees, although shareholders bear a portion of the cost of the management fees at the underlying fund level as reflected in the acquired fund fees and expenses.

The Board also noted that the management fee schedules for the Government Money Market Fund, International Equity Index Fund, LargeCap S&P 500 Index Fund, MidCap S&P 400 Index Fund, and SmallCap S&P 600 Index Fund do not include breakpoints, but each such Fund has a relatively low management fee rate (25 basis points or less) on all Fund assets. Considering all relevant factors, including the level of the fee, the Board determined that no breakpoints were necessary at this time.

Other Benefits to Manager

The Board also considered the character and amount of other incidental benefits received by the Manager and its affiliates from their relationships with the Funds. The Board noted that the Manager uses Fund commissions to buy Section 28(e) eligible products and services. The Board concluded that the incidental benefits received by the Manager and its affiliates were appropriate.

Sub-Advisory Agreements

Nature, Quality and Extent of Services

The Board considered the nature, quality and extent of the services provided under each Sub-Advisory Agreement. The Board considered the reputation, qualifications and background of the Sub-Advisor, the investment approach of the Sub-Advisor, the experience and skills of investment personnel responsible for the day-to-day management of each Fund and the resources made available to such personnel. The Board also considered the Sub-Advisors' compliance with investment policies and general legal compliance. Based upon all relevant factors, the Board concluded that the nature, quality and extent of the services provided by the Sub-Advisors to the sub-advised Funds under the Sub-Advisory Agreements are satisfactory.

Investment Performance

As to each sub-advised Fund, the Manager had advised the Board that the investment services delivered by each Sub-Advisor to the Fund were reasonable. Based upon all relevant factors, the Board concluded that each Sub-Advisor is qualified and that either: (1) the investment performance of the Sub-Advisor met acceptable levels of investment performance; or (2) although the Fund experienced underperformance from the applicable Sub-Advisor, based upon that Fund's particular circumstances or in light of remedial efforts being taken to improve performance, as applicable, it was in the best interests of the Fund to continue to closely monitor performance and to renew the Sub-Advisory Agreement. In each case involving underperformance, the Board concluded that the Manager was providing effective monitoring.

Fees, Economies of Scale and Profitability

For each sub-advised Fund, the Board considered the sub-advisory fee rates, noting that the Manager compensates each Sub-Advisor from its own management fee, so that shareholders pay only the management fee. For each sub-advised Fund, the Board received certain information from Broadridge comparing each such Fund's sub-advisory fee rate at current asset levels and at theoretical asset levels to sub-advisory fee rates of sub-advised funds in the Expense Group and, if available, the Expense Universe.

The Board considered whether there are economies of scale with respect to the sub-advisory services provided to each sub-advised Fund and, if so, whether the sub-advisory fees reflect such economies of scale through breakpoints in fee schedules or whether the sub-advisory fee schedule is otherwise appropriate at current asset levels. In addition, in evaluating the sub-advisory fee rates and the factor of profitability, with respect to unaffiliated Sub-Advisors, the Board considered that the sub-advisory fee rate was negotiated at arm's length between the Manager and the Sub-Advisor. The Board considered the profitability of the affiliated Sub-Advisors in conjunction with their review of the profitability of the Manager.

Other Benefits to Sub-Advisors

The Board also considered the character and amount of other incidental benefits received by each Sub-Advisor when evaluating the sub-advisory fees. The Board considered as a part of this analysis each Sub-Advisor's brokerage practices, soft dollar practices and use of research payment accounts. The Board concluded that the incidental benefits received by each Sub-Advisor were appropriate.

Special Circumstances

For certain Funds, in reaching the conclusion that the Sub-Advisory Agreements should be renewed, the Board included within their considerations certain actions previously taken by the Board.

As part of its annual review of the Funds' Sub-Advisory Agreements, the Board concluded that the Sub-Advisory Agreement pursuant to which Barrow, Hanley, Mewhinney & Strauss, LLC ("Barrow Hanley") serves as a Sub-Advisor to the LargeCap Value Fund III and the Overseas Fund should be renewed. The Board noted that a change in control transaction with respect to Barrow Hanley was expected to become effective in the fourth quarter of 2020, and that this change in control would result in the "assignment" (as defined in the Investment Company Act of 1940, as amended) of the Sub-Advisory Agreement, causing the agreement's automatic termination. The Board considered the Manager's statements that there were no anticipated changes to the current portfolio management team, investment philosophy or process at the Sub-Advisor, that the change in ownership was not expected to impact the nature, quality or extent of the services that the Sub-Advisor provides to the Funds and that the Manager, after considering the assignment, continued to believe that the Sub-Advisor is an appropriate sub-advisor for the Funds. The Board also noted that the new Sub-Advisory Agreement for the Funds would be identical to the current Sub-Advisory Agreement in all material respects (including the sub-advisory fee schedules). Accordingly, the Board concluded that a new Sub-

Advisory Agreement with Barrow Hanley should be approved, to take effect upon the termination of the current Sub-Advisory Agreement upon the effectiveness of the change in control transaction.

Overall Conclusions

Based upon all of the information considered and the conclusions reached, the Board determined that the terms of each Advisory Agreement, including the fee rate payable thereunder, continue to be fair and reasonable and that the continuation of each Advisory Agreement, with the actions proposed by the Manager, is in the best interests of each Fund.

Special Meeting of Shareholders

Principal Funds, Inc.

Held October 30, 2020 (Related to Proposal adjourned at October 28, 2020 meeting)

1. Approval to change the Fund's sub-classification under the Investment Company Act of 1940 from 'diversified' to 'non-diversified' and a change to the related fundamental investment restriction.

	<u>For</u>	<u>Against</u>	<u>Abstain</u>
