Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of each Fund's shareholder reports like this one will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on the Funds' website ([hartfordfunds.com](http://hartfordfunds.com)). You will be notified by mail each time a report is posted and provided with a website link to access the report. You may at any time elect to receive paper copies of all shareholder reports free of charge by contacting your financial intermediary or, if you invest directly with a Fund, by calling 1-888-843-7824. Your election to receive reports in paper will apply to all Hartford Funds held in your account if you invest through your financial intermediary or directly with a Fund.

If you previously elected to receive shareholder reports and other communications electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications electronically anytime by contacting your financial intermediary.

## A MESSAGE FROM THE PRESIDENT

### Dear Shareholders:

Thank you for investing in Hartford Mutual Funds. The following is the Funds' Annual Report covering the period from November 1, 2019 through October 31, 2020.

### Market Review

During the 12 months ended October 31, 2020, U.S. stocks, as measured by the S&P 500 Index,<sup>1</sup> gained 9.71% – an impressive number, to be sure, but one that doesn't begin to capture the drama of a pandemic-driven roller-coaster ride that has plunged the world into economic depths not seen since the Great Recession.

The period began with record-low unemployment, positive stock performances, and an optimistic global growth outlook. In late 2019, for example, months of trade tensions between the U.S. and China appeared to be eased by an initial agreement on tariff and trade reforms. The so-called "Phase One" deal, coupled with progress on resolving issues surrounding the U.K.'s withdrawal from the EU and a new United States-Mexico-Canada Agreement signed in January, 2020, brought calm to markets and seemed to set the stage for a strong 2020.

Instead, the novel coronavirus (COVID-19) pandemic erupted in late January and helped trigger a global recession. As world leaders grappled with the "new normal" of social distancing measures, business closures, and other mitigation efforts, many investors headed for the exits in March, 2020, bringing the longest bull market in U.S. economic history to an abrupt end. By mid-April, the U.S. unemployment rate had surged to 14.7%.

Late April 2020 brought a surprising recovery in U.S. markets, largely in response to an unprecedented economic rescue effort from central banks, including the U.S. Federal Reserve (Fed), which reduced interest rates to near zero and pledged trillions in U.S. securities purchases.

On the fiscal side, the U.S. government unveiled a series of aggressive policy initiatives, including passage of the \$2 trillion CARES Act in late March, 2020. The combined fiscal and monetary support provided a lifeline to many businesses large and small, helping to reduce the nation's unemployment rate in September, 2020, to 7.9% – still alarmingly high compared with the record-low 3.5% in February.

By the period's end, the U.S. had reached another grim milestone of more than 230,000 coronavirus deaths. As fall cases surged, a new round of lockdowns and restrictions on economic activity, particularly in Europe, were widely adopted; however, Congress deadlocked over providing further economic stimulus. A late-period market selloff triggered by worsening virus numbers reminded investors of the potential for further economic uncertainty ahead. In addition, a contentious U.S. presidential campaign divided the nation.

As we continue to endure spikes in COVID-19 cases while awaiting the regulatory approvals and distribution of a safe and effective vaccine, uncertainty remains. In these unprecedented times, it's more important than ever to maintain a strong relationship with your financial professional.

Thank you again for investing in Hartford Mutual Funds. For the most up-to-date information on our funds, please take advantage of all the resources available at [hartfordfunds.com](https://hartfordfunds.com).

**PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE AND DOES NOT GUARANTEE FUTURE RESULTS.** The investment return and principal value of the investment will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. The chart and table do not reflect the deductions of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end, please visit our website [hartfordfunds.com](http://hartfordfunds.com).

Total returns presented above were calculated using the Fund's net asset value available to shareholders for sale or redemption of Fund shares on 10/31/2020, which may exclude investment transactions as of this date. All share class returns assume the reinvestment of all distributions at net asset value and the deduction of all fund expenses.

Class R6 shares commenced operations on 11/07/2014. Performance prior to that date is that of the Fund's Class Y shares. Class F shares commenced operations on 02/28/2017. Performance prior to that date is that of the Fund's Class I shares.

To the extent a share class has adopted the prior performance of another share class that had different operating expenses, such performance has not been adjusted to reflect the different operating expenses. If the performance were adjusted, it may have been higher or lower.

You cannot invest directly in an index.

See "Benchmark Glossary" for benchmark descriptions.

Performance information may reflect historical or current expense waivers/reimbursements without which performance would have been lower. For information on current expense waivers/reimbursements, please see the prospectus.

Operating Expenses*	Gross	Net
Class A	1.08%	1.08%
Class C	1.84%	1.84%
Class I	0.80%	0.80%
Class R3	1.43%	1.43%

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford Capital Appreciation Fund returned 8.62%, before sales charges, for the twelve-month period ended October 31, 2020, underperforming the Fund's benchmarks, the Russell 3000 Index, which returned 10.15% for the same period, and the S&P 500 Index, which returned 9.71% for the same period. For the same period, the Class A shares of the Fund, before sales charges, outperformed the 5.35% average return of the Lipper Multi-Cap Core Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply after achieving record highs in February 2020, as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many parts of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, outperformed both mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively.

Six of the eleven sectors in the Russell 3000 Index posted positive returns during the period. Strong performers included the Information Technology (+34.8%), Consumer Discretionary (+30.8%), and Communication Services (+16.2%) sectors. The Energy (-46.1%), Real Estate (-15.8%), and Financials (-15.2%) sectors fell the most during the period.

During the period, the Fund underperformed the Russell 3000 Index primarily due to weak stock selection within the Consumer Discretionary, Consumer Staples, and Financials sectors. Conversely, stronger selection within the Communication Services, Healthcare, and Information Technology sectors contributed positively to relative returns during the period. Sector allocation, a result of bottom-up stock selection, was positive during the period primarily due to the Fund's underweight exposure to the Energy and Financials sectors in addition to an overweight to the Consumer Discretionary sector. An underweight to the Information Technology sector, as well as an overweight to the Industrials sector, relative to the Russell 3000 Index, detracted from performance.

Underweight exposures relative to the Russell 3000 Index to Apple (Information Technology), Microsoft (Information Technology), and Tesla (Consumer Discretionary) were the top detractors from Fund performance during the period. Apple designs, manufactures, and sells personal computers, tablets, wearables, and a variety of related services. Shares of Apple moved higher during the period. The company also announced that it would be participating in a 4-for-1 stock split during the period. As of the end of the period, we continued to hold the stock within the Fund but remained underweight relative to the Russell 3000 Index. Microsoft engages in the development and support of software, services, devices, and solutions. The company emerged from the coronavirus pandemic as a strong performer with stay-at-home and remote-work related businesses (Teams, Gaming, virtual desktop) gaining traction and performing well. The company's stock continued to move higher during the period before giving back some gains after it was announced that the company's bid for video-sharing site TikTok was not accepted. As of the end of the period, we remained underweight the stock within the Fund relative to the Russell 3000 Index. Tesla engages in the design, development, manufacture, and sale of fully electric vehicles, energy generation and storage systems. Shares of the company moved higher during the period as the company reported its fourth consecutive quarter of profitability, which many viewed as the last hurdle towards Tesla's inclusion into the S&P 500 Index given its market cap. The stock did not make it into the S&P 500 Index, and shares dipped on the news. Towards the end of the period, the company held its Battery Day where it provided guidance in line with expectations, highlighted by expectations for a drop in battery costs, as well as plans for a \$25,000 car within the next three years. We initiated a small position in the stock during the period, which we subsequently sold later in the period as we sought to capitalize on strength while pursuing other opportunities that we believe provide better risk and return profiles.

Aramark (Consumer Discretionary), Expedia (Consumer Discretionary), and Diamondback Energy (Energy) were among the largest detractors from performance on an absolute basis over the period.

# The Hartford Capital Appreciation Fund

**Fund Overview – (continued)**  
**October 31, 2020 (Unaudited)**

Top contributors to performance relative to the Russell 3000 Index included not holding benchmark constituent ExxonMobil (Energy) as well as the Fund's positions in DraftKings (Consumer Discretionary) and Peloton Interactive (Consumer Discretionary). ExxonMobil engages in the exploration, development, and distribution of oil, gas, and petroleum products. Energy-related companies were adversely affected by failed negotiations between Saudi Arabia and Russia regarding production cuts amid a strong decrease in demand as coronavirus-related shelter-in-place orders limited travel globally. The Energy sector broadly was the worst-performing sector within the Russell 3000 Index during the period. Not owning the stock contributed positively to relative performance and as of the end of the period, we continued to not hold it. DraftKings is a digital sports entertainment and gaming company. The company took an unconventional route to the public markets by combining with a special purpose acquisition company (SPAC), typically referred to as a blank-check company, thus enabling the company to trade publicly without going through the initial public offering (IPO) process in April. Following its listing, the stock price has risen as sports betting revenue continued to rise following the resumption of live games across major sports leagues. Shares of the company gave up some gains late in the period after the company announced a secondary offering of shares. As of the end of the period, we continued to hold shares of DraftKings within the Fund. Peloton Interactive is an at-home fitness platform for live and on-demand indoor cycling. The company reported strong quarterly results at the beginning of 2020 with subscribers and revenues reported above expectations, but earnings guidance was revised slightly lower. As the coronavirus pandemic forced lockdown measures that included gyms and fitness studios, the company saw a large uptick in demand for its at-home offerings with subscriber growth and member engagement both trending upward. This led to consecutive quarters of outperformance relative to analyst expectations, driving the stock price higher during the period. As of the end of the period, the Fund remained overweight in the stock.

Amazon.com (Consumer Discretionary), Apple (Information Technology), and NVIDIA (Information Technology) contributed positively to performance on an absolute basis over the period.

The Fund's investment process includes the use of factor-based strategies, which involve targeting certain company characteristics, or factors, that we believe impact returns across asset classes. Factor impact on the Fund was positive. The Fund's slight underweight exposure to dividend paying equities and overweight exposure to names with higher liquidity contributed positively to performance, while the Fund's slight underweight exposure to high momentum equities detracted from performance.

During the period, the Fund, at times, used equity index futures to equitize cash or efficiently manage risks. During the period, the use of equity index futures contributed slightly to performance.

## **What is the outlook as of the end of the period?**

Macroeconomic uncertainty remains at the forefront as U.S. equity markets continue their rebound amid optimism from accommodative policy and strong earnings from index leaders, while a second wave of coronavirus infections unfolds in some states. Persistent market uncertainties – such as the outcome of the U.S. presidential election and the unknown efficacy and timeline for a coronavirus vaccine – cause us to believe that the range of potential economic outcomes is wide and

that current investor exuberance may not be long-lasting. Against this backdrop, we remain vigilant in balancing factor exposures in the Fund to seek to reduce the impact of factor volatility and help ensure that security selection drives results.

Looking across the factor landscape, we continue to monitor the risks facing equity factors amid ongoing market volatility. In 2020, trend-following factors (e.g., growth and momentum) have extended their outperformance over most other areas of the market. However, we believe valuations are stretched, and the primary risk we are monitoring is a momentum reversal, which we believe would be damaging to equities that are levered to the ongoing market rebound. For example, we have seen the outperformance of megacap technology companies dominate markets. While this streak seems set to continue, a momentum reversal could be a technical risk for these names, while any shift in the regulatory landscape could present a more fundamental risk. As of the end of the period, we maintained the Fund's exposure to companies characterized by mean-reversion factors (e.g., value and contrarian), as we expect them to provide capital appreciation during economic recovery and in the event of a cyclical rally. That said, we are monitoring the risks these factors are exposed to, in particular the risk of insolvency in the event of a drawn-out economic slowdown. In our view, stocks that screen well for risk-aversion factors (e.g., low volatility and quality) tend to have protective characteristics such as stable profit margins and sustainable cash flows. Therefore, we see these exposures as a potential source of safety in the event of a traditional move to assets perceived to be less risky, but we are aware that they may lag the market during a strong rally. Finally, we believe that the market has not fully priced in the heightened risk that some companies become insolvent due to a prolonged economic slowdown while other companies that are able to pivot and adapt are likely to come out on top. We expect this to lead to a dispersion in equity results.

At the end of the period, the Fund's largest overweights were to the Consumer Discretionary and Consumer Staples sectors, while the Fund's largest underweights were to the Information Technology and Communication Services sectors, relative to the Russell 3000 Index.

## **Important Risks**

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. The Fund's strategy for allocating assets among portfolio management teams may not work as intended. • Mid-cap securities can have greater risks and volatility than large-cap securities. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments. These risks are generally greater for investments in emerging markets. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of the Hartford Core Equity Fund returned 10.58%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmark, the S&P 500 Index, which returned 9.71% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also outperformed the 8.39% average return of the Lipper Large-Cap Core Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply after achieving record highs in February 2020, as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, outperformed small-cap and mid-cap equities, as measured by the Russell 2000 Index and S&P MidCap 400 Index, respectively.

Seven out of eleven sectors in the S&P 500 Index rose during the period, with the Information Technology (+34%) and Consumer Discretionary

(+25%) sectors performing the best. The Energy (-46%) and Financials (-15%) sectors were the worst performers during the period.

Overall, the Fund's outperformance versus the S&P 500 Index during the period was driven by strong security selection, primarily within the Consumer Staples, Healthcare, and Industrials sectors. This was partially offset by weaker stock selection within the Information Technology, Consumer Discretionary, and Financials sectors, which detracted from performance. Sector allocation, a result of the bottom-up stock selection process, also contributed positively to relative performance, primarily driven by the Fund's underweight to the Energy sector and overweight allocation to the Healthcare sector. This was partially offset by the Fund's underweight to Information Technology, which detracted from performance.

The top contributors to relative performance over the period were not owning benchmark constituents ExxonMobil (Energy) and Wells Fargo (Financials), as well as an overweight position in FedEx (Industrials). Shares of ExxonMobil fell over the period following weak results and low oil prices as a result of the coronavirus. Exxon missed second-quarter 2020 earnings expectations after reporting a loss north of \$1 billion, revenue of \$32.6 billion that was \$6 billion less than consensus, and a 10% quarter-over-quarter cut in production as the coronavirus pandemic pressured demand for the company's products. Not owning the stock was a contributor to relative performance over the period due to its poor performance. Shares of Wells Fargo declined over the period after reporting consecutive disappointing quarterly results. In July 2020, the company announced it set aside a record \$9.5 billion for credit losses. Executives warned they would earmark more for soured loans as the coronavirus pandemic continued to rage throughout the U.S. and weigh on companies and workers. Falling yields have also negatively affected the bank. Not owning the stock was also a contributor to relative performance over the period due to poor performance. Shares of delivery services company, FedEx, rose over the period after the company announced two consecutive fiscal quarters of strong earnings as online shopping soared among customers avoiding stores. The company also announced that shipping rates would increase for FedEx Express, FedEx Ground, and FedEx Freight in January 2021. During the period, we initiated a position in the company for the Fund. Top absolute contributors included Apple (Information Technology) and Amazon.com (Consumer Discretionary).

The top detractors from the Fund's relative performance over the period included not owning benchmark constituent, Nvidia (Information

# Hartford Core Equity Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

Technology), an overweight position in Boston Properties (Real Estate), and an underweight position in Apple (Information Technology). U.S. chip maker Nvidia reported consecutive better-than-expected quarterly fiscal earnings. Overall revenue rose 50% on an annualized basis in the second quarter of 2020. Nvidia also announced its plan to purchase Arm from Softbank for \$40 billion. Not owning the stock during the period was a detractor from the Fund's performance due to the stock's strong performance. Shares of Apple rose during the period after it reported consecutive strong quarterly results. Demand across all the company's products has exceeded expectations during the period. The company benefited from a strong launch of the iPhone SE and economic stimulus measures. Apple executed a 4-for-1 stock split at the end of August. As of the end of the period, the Fund remains underweight given Apple's size in the benchmark. Shares of Boston Properties declined over the period. Due to the stay-at-home policies during the period, physical occupancy within the company's properties has been low. The Fund's absolute detractors for the period included Boston Properties (Real Estate) and Raytheon (Industrials).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

In the next few months, we will know a lot more about whether we will have a vaccine and treatment options to reduce the hospitalization and mortality rate for COVID-19. While we can see additional flare-ups, our base case assumption is that we can return to a new normal towards the end of 2021.

Outside of the U.S., there are still parts of the world where the incidence of cases has not stabilized, and in some areas, it does appear that the peak for the pandemic may still be many weeks or even months away. Unfortunately, a lot of uncertainty remains. We are spending more time understanding the possible permanent or semi-permanent changes to behavior, both from a consumer and corporate perspective, and what that might mean for some of the Fund's holdings. However, it seems too early to come to firm conclusions.

We continue to stay focused on the long term as eventually we will put this health crisis behind us. While we did make some changes within the Fund, we continue to be incremental and mindful of the impact of volatility.

At the end of the period, the Fund's largest overweight sectors relative to the S&P 500 Index were to the Consumer Staples and Industrials sectors, while the Fund's largest underweights were to the Consumer Discretionary and Energy sectors, relative to the S&P 500 Index.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies.

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford Dividend and Growth Fund returned -2.20%, before sales charges, for the twelve-month period ended October 31, 2020, underperforming one of the Fund's benchmarks, the S&P 500 Index, which returned 9.71% for the same period, and outperforming the Fund's other benchmark, the Russell 1000 Value Index, which returned -7.57% for the same period. For the same period, the Class A shares of the Fund, before sales charges, outperformed the -5.44% average return of the Lipper Equity Income Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply after achieving record highs in February 2020, as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap during the period, as large-cap equities, measured by the S&P 500 Index, outperformed mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively.

Seven out of eleven sectors in the S&P 500 Index rose during the period, with the Information Technology (+34%), Consumer Discretionary (+25%), and Communication Services (+16%) sectors performing the best. The Energy (-46%), Financials (-15%), and Real Estate (-10%) sectors were the worst performers during the period.

Security selection detracted from the Fund's returns relative to the S&P 500 Index over the period. Stock selection effects were weakest within the Information Technology, Consumer Discretionary, and Communication Services sectors. This was partially offset by stronger selection within the Energy sector, which contributed positively to performance relative to the S&P 500 Index. Sector allocation, a result of the bottom-up stock selection process, detracted from the Fund's performance relative to the S&P 500 Index over the period. An overweight to the Energy and Financials sectors, as well as an underweight to the Information Technology sector, detracted the most from returns relative to the S&P 500 Index.

The Fund's top detractors from the Fund's performance relative to the S&P 500 Index as well as absolute performance included not owning Amazon (Consumer Discretionary), an underweight to Apple (Information Technology), and an overweight to Bank of America (Financials). Not holding S&P 500 Index constituent Amazon (Consumer Discretionary), was a top relative detractor from performance during the period as shares of the company rose during the period. An underweight to Apple (Information Technology) was the other significant relative detractor from performance during the period as shares of Apple rose during the period. During the period, we maintained the Fund's underweight in the company. Shares of Bank of America fell as coronavirus worries sent Treasury yields lower. Thirty-year U.S. Treasury notes fell to record low yields, and 10-year U.S. Treasury notes fell to levels not seen since 2016, narrowing the spread on the bank's longer-term assets funded with shorter-term liabilities.

The Fund's top contributors to performance relative to the S&P 500 Index during the period were ExxonMobil (Energy) and Eli Lilly (Healthcare), both of which were eliminated during the period, and not owning Wells Fargo (Financials). ExxonMobil (Energy) was a top contributor to relative performance during the period, as we exited the position prior to the energy market collapse in March 2020. Eli Lilly (Healthcare) was the other top contributor to relative performance over the period. Shares of Eli Lilly rose after the company reported strong results and news that it was entering into an agreement to develop an experimental therapy to combat coronavirus. We reduced the Fund's position on the stock's strong performance late spring and eliminated the position in early June. We benefited from not owning the shares in the Fund later in the period as the company has lagged the strong market rally. Shares of Wells Fargo fell over the period after the chief financial officer predicted higher loan-loss provisions in addition to a sharp drop in interest income for the year.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

# The Hartford Dividend and Growth Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

### What is the outlook as of the end of the period?

Although the market continued to climb higher in the third quarter of 2020, we are wrestling with many unknowns in the short term. While large amounts of liquidity have been pumped into the market to try and safeguard consumer spending, we are still facing high rates of unemployment and each day are reminded of the increasing number of coronavirus cases. During these turbulent times, we believe it is best to try to avoid balance sheet risk while seeking to identify mispriced opportunities that can potentially create enormous value on the other side of the pandemic.

In the face of great uncertainty, we remain focused on seeking to invest in companies at reasonable valuations, with attractive long-term free cash flow generation, solid balance sheets, and resilient fundamentals.

At the end of the period, the Fund had its largest overweights in the Financials and Healthcare sectors, and the largest underweights in the Information Technology and Consumer Discretionary sectors, relative to the S&P 500 Index.

We continue to apply our valuation discipline within the Fund to seek to maintain a portfolio of resilient businesses that are reasonably valued and have favorable industry and competitive dynamics.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments.

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford Equity Income Fund returned -4.68%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmark, the Russell 1000 Value Index, which returned -7.57% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also outperformed the -5.44% average return of the Lipper Equity Income Funds peer group, a group of funds with investment strategies similar to that of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

During the period, four out of eleven sectors within the Russell 1000 Value Index posted positive absolute returns, with the Healthcare (+11%), Materials (+9%), and Consumer Staples (+4%) sectors performing the best. Conversely, the Energy (-46%), Real Estate (-22%), and Financials (-18%) sectors lagged over the period.

The Fund's outperformance relative to the Russell 1000 Value Index was driven by security selection, primarily within the Financials, Real Estate,

and Industrials sectors. This more than offset less favorable selection within the Healthcare, Utilities, and Consumer Staples sectors. Sector allocation, a result of our bottom-up stock selection process, also contributed positively to relative performance due to the Fund's overweight to the Healthcare sector and underweights to the Real Estate and Financials sectors. This was partially offset by the Fund's underweight position in the Materials sector.

Top contributors to relative returns included not owning benchmark constituent Wells Fargo (Financials) as well as the Fund's positions in UnitedHealth Group (Healthcare) and Deere (Industrials). Shares of Wells Fargo dropped after the company reported a loss in the second quarter of 2020 driven by large loan loss provisions which more than doubled first-quarter 2020 levels. After falling in the first quarter of 2020 amid the broader market selloff, shares of UnitedHealth Group rebounded on strong second-quarter earnings, with earnings per share (EPS) up 100% year-over-year, beating the consensus expectations by a significant amount. Performance was driven by lower utilization and a significant decline in the medical loss ratio. Shares of Deere rose over the period after the company announced strong third-quarter 2020 results, which exceeded expectations. The agricultural machinery giant increased its sales outlook for the year as demand remained resilient despite the uncertainty related to coronavirus. The company also announced the completion of the acquisition of Unimil, a leading Brazilian company in the aftermarket service parts business.

Top detractors from relative results included Suncor Energy (Energy) and Phillips 66 (Energy), along with not owning benchmark constituent Danaher (Healthcare). Suncor Energy is a Canadian company primarily focused on developing petroleum resource basins. The company's stock price slid as the company cut its dividend and lowered guidance for full-year production as a result of mandatory curtailments. At the start of September 2020, Suncor lowered guidance again after a fire broke out at their Fort McMurray facility, resulting in the acceleration of proposed maintenance. Shares of Phillips 66 traded lower as earnings fell in the second quarter of 2020, primarily due to a decline in results in the refining segment as margins and volume shrank. The stock continued to trend downward through the rest of the period. Shares of Danaher, a provider of medical equipment, climbed early in 2020 on the announcement of a deal to acquire General Electric's biopharma unit, putting Danaher at the forefront of biotech equipment makers. Strong earnings and the announced split-off of dental business Envista further benefited the stock.

# The Hartford Equity Income Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

It is our belief that high-quality businesses with sustainable dividend policies are in an advantageous position to strengthen as they emerge from a downturn – taking market share, or, in some cases, making opportunistic acquisitions at attractive valuations. This is embodied in a quote we often reference: “The strong get stronger in crisis situations.”

To this end, amid the heightened market volatility, we have been exercising patience and, where possible, seeking to swap into higher quality companies at similar valuations. While we believe that the near-term threat of dividend cuts and suspensions has abated relative to earlier in the year, we remain vigilant, seeking to avoid potential dividend cutters and the companies that would be most directly impacted in a prolonged shutdown. In some instances, we have closely monitored the possibility of companies suspending a dividend temporarily as a measure to improve solvency. While this seems prudent in many cases, we prefer to avoid this contingency where possible, and favor companies with strong balance sheets that we believe can endure through the cycle.

At the end of the period, the Healthcare, Consumer Staples, and Industrials sectors represented the Fund's largest overweights relative to the Russell 1000 Value Index, while the Communication Services, Consumer Discretionary, and Materials sectors were the Fund's largest underweights.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

**PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE AND DOES NOT GUARANTEE FUTURE RESULTS.** The investment return and principal value of the investment will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. The chart and table do not reflect the deductions of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end, please visit our website [hartfordfunds.com](http://hartfordfunds.com).

Total returns presented above were calculated using the Fund's net asset value available to shareholders for sale or redemption of Fund shares on 10/31/2020, which may exclude investment transactions as of this date. All share class returns assume the reinvestment of all distributions at net asset value and the deduction of all fund expenses.

Class R6 shares commenced operations on 11/07/2014. Performance prior to that date is that of the Fund's Class Y shares. Class F shares commenced operations on 02/28/2017. Performance prior to that date is that of the Fund's Class I shares.

To the extent a share class has adopted the prior performance of another share class that had different operating expenses, such performance has not been adjusted to reflect the different operating expenses. If the performance were adjusted, it may have been higher or lower.

You cannot invest directly in an index.

See "Benchmark Glossary" for benchmark descriptions.

Performance information may reflect historical or current expense waivers/reimbursements without which performance would have been lower. For information on current expense waivers/reimbursements, please see the prospectus.

Operating Expenses*	Gross	Net

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford Growth Opportunities Fund returned 47.77%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmarks, the Russell 3000 Growth Index, which returned 28.20% for the same period and the Russell 1000 Growth Index, which returned 29.22% for the same period. For the same period, the Class A shares of the Fund, before sales charges, outperformed the 27.08% average return of the Lipper Multi-Cap Growth Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Mid-cap growth equities outperformed the broader market during this period. In the first quarter of 2020, U.S. equities fell sharply as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. Many states adopted extraordinary measures to fight the contagion, while companies shuttered stores and production, withdrew earnings guidance, and drew down credit lines at a record pace as borrowing costs soared. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of fiscal and monetary stimulus implemented by Congress and the U.S. Federal Reserve (Fed) in response to the pandemic drove the market's rebound in the second quarter of 2020. Momentum carried into the third quarter of 2020, bolstered by substantial monetary support from the Fed, a broadening U.S. economic recovery and promising trials for coronavirus vaccines. However, the path to sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections around the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Eight out of eleven sectors in the Russell 3000 Growth Index rose during the period, with the Consumer Discretionary (+43%), Information Technology (+42%), and Communication Services (+32%) sectors performing the best. Conversely, the Energy (-32%) and Utilities (-10%) sectors lagged on a relative basis during the period.

Security selection contributed positively to the Fund's performance relative to the Russell 3000 Growth Index during the period, with strong selection in the Information Technology, Healthcare and Industrials sectors, which was partially offset by weaker selection within the Financials and Consumer Discretionary sectors. Sector allocation, a

result of our bottom-up stock selection process, also contributed positively to performance relative to the Russell 3000 Growth Index during the period, due to an overweight to the Consumer Discretionary sector and lack of exposure to the Real Estate sector. This was partially offset by the negative impact of an underweight to the Information Technology sector, which detracted from performance.

Top contributors to performance relative to the Russell 3000 Growth Index during the period included Peloton (Consumer Discretionary), Square (Information Technology), and Advanced Micro Devices (Information Technology). Shares of Peloton, an exercise equipment and media company, rose over the period as the company has continued to see strong earnings reports throughout the coronavirus pandemic. Gym closures and continued fears of coronavirus have led to increased confidence in the theme of people being more open to working out at home as consumers look for alternatives to gyms. We increased the Fund's position during the period. Shares of Square, a mobile payments provider, rose during the period. The company has seen strong earnings through the coronavirus pandemic. Its peer-to-peer Cash App helped drive Square's performance, benefiting from its users depositing government stimulus checks. Unemployment checks and tax refunds have provided an additional boost for the app as well. Shares of Advanced Micro Devices, a semiconductor company, rose over the period after the Trump administration announced a phase one trade deal with China, removing a big obstacle for the company. The company also cited better-than-expected personal computer (PC) sales in the second half of the year, along with continued data-center growth and an increase in gaming console sales. The company has further benefited from Intel's delay of its 7nm processors. Amazon (Consumer Discretionary) and Apple (information technology) were among the top absolute contributors during the period.

Top relative detractors from performance relative to the Russell 3000 Growth Index during the period included Pinterest (Communication Services), Microsoft (Information Technology), and Galapagos (Healthcare). Pinterest saw strong user growth in late 2019; however, the majority of new users came from international countries where users generate less revenue than those in the U.S. We eliminated the position within the Fund during the period. The Fund's lack of exposure to Microsoft detracted from performance. Shares of Microsoft rose over the period on continued strong earnings reports and strengthened core offerings, such as the Azure cloud-computing business and Teams collaboration software which benefited from the work-from-home orders. Shares of Galapagos declined after the U.S. Food and Drug Administration (FDA) issued a complete response letter for filgotinib, a treatment for moderate to severe rheumatoid arthritis being developed in partnership with Gilead Sciences. A complete response letter is issued when the FDA has completed its review of a drug and has decided that it

# The Hartford Growth Opportunities Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

will not approve it for marketing in its current form. American Express (Financials) and Marriott Vacations (Consumer Discretionary) were among the top absolute detractors during the period.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

Following a nearly 30% rebound in the Russell 3000 Growth Index in the second quarter of 2020 driven by cyclical sectors, U.S. equities continued on a positive trajectory in the third quarter of 2020. Investors largely remained risk tolerant despite coronavirus continuing to affect large portions of the U.S., slowing the economic recovery and perpetuating market uncertainty. Cyclical sectors such as Consumer Discretionary and Information Technology led in the third quarter of 2020.

In terms of positioning, we continue to strive for more balance in the Fund by investing in different types of “growth” companies – an effort that we began in the second quarter of 2020 as we trimmed the Fund’s positions in companies that have performed well during the coronavirus pandemic and subsequent lockdown restrictions, and deployed some of that capital into more cyclical growth names. Given the uncertainty of the current environment, we believe a barbell approach between cyclical growth versus emerging and compounding growth names may help us control risk in a down market if we see another severe wave of the virus that will slow the recovery, which may also allow us to participate on the upside if the market continues to anticipate a full reopening. Part of our barbell strategy is to find some companies who have been hurt by the pandemic that we believe should emerge stronger coming out of this crisis, such as off-price retailers. Among those companies that have performed well during the pandemic, we see them falling into two camps: those growth equities which can build on their accelerated growth going forward, and those which will likely revert to the mean. Importantly, we are evaluating how possible permanent or semi-permanent changes in consumer behavior will impact companies. The paradigm shifts going on now, whether sustainable or not, are extraordinary and non-linear, in our view, and we believe we need to be more flexible than ever before when analyzing this new world.

At the end of the period, the Fund’s largest overweights relative to the Russell 3000 Growth Index were the Consumer Discretionary and Healthcare sectors. The Fund had the largest underweights to the Information Technology and Communication Services sectors.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Mid-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • The Fund’s focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments.

### Composition by Sector<sup>(1)</sup>

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford Healthcare Fund returned 22.17%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmarks, the S&P Composite 1500 Health Care Index, which returned 10.83% for the same period, and the S&P 500 Index, which returned 9.71% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also outperformed the 21.51% average return of the Lipper Global Health and Biotechnology peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

Healthcare equities (+10.1%) outperformed both the broader United States (U.S.) equity market (+9.7%) and the global equity market (+5.4%) during the period, as measured by the S&P 500 Healthcare Index, S&P 500 Index, and MSCI ACWI Index, respectively.

Within the S&P Composite 1500 Health Care Index, four of the five sub-sectors posted positive absolute returns during the period. Mid-cap biopharma (+24.3%), medical technology (+17.6%), healthcare services (+12.0%) and large-cap biopharma (+4.0%) rose during the period. Small-cap biopharma (-17.1%) posted a negative absolute return during the period.

Security selection was the primary contributor to the Fund's performance relative to the S&P Composite 1500 Health Care Index during the period, while sector allocation detracted from relative returns. Security selection was strongest in small-cap and mid-cap biopharma sub-sectors during the period. Within sector allocation, which is a byproduct of our bottom-up stock selection process, an overweight allocation to small-cap biopharma detracted most from relative performance during the period.

Forty Seven (small-cap biopharma), Momenta Pharmaceuticals (mid-cap biopharma), and MyoKardia (mid-cap biopharma) contributed positively to results relative to the S&P Composite 1500 Health Care Index over the period due to positive acquisition announcements. In March, Forty

Seven, a U.S.-based development-stage targeted oncology company, announced an agreement in which Gilead Sciences would acquire Forty Seven for \$4.9 billion, a 60% premium to the stock's closing price as of the end of February 2020. Shares of Momenta Pharmaceuticals, a U.S.-based biopharmaceutical company focused on developing drugs and biosimilars for cancer and autoimmune diseases, rose sharply in August 2020 after the company announced it had been acquired by Johnson & Johnson for approximately \$6.5 billion in cash, which is approximately a 70% premium over the stock's prior closing price. Shares of MyoKardia, a U.S.-based precision cardiovascular medicine company, soared in October 2020 on the announcement that Bristol Myers Squibb will acquire the pharmaceutical firm for \$13.1 billion. We eliminated the above positions within the Fund during the period to take profits. Top absolute contributors to performance included Forty Seven, Thermo Fisher Scientific, and Momenta Pharmaceuticals.

Tricida (small-cap biopharma), Boston Scientific (medical technology), and Portola Pharmaceuticals (small-cap biopharma) were the top detractors from performance relative to the S&P Composite 1500 Health Care Index over the period. Shares of Tricida, a clinical-stage biopharma company that is focused on treatment of metabolic acidosis, declined during the period. Notable declines occurred most recently after the U.S. Food and Drug Administration (FDA) issued a Complete Response Letter (CRL) to the company regarding its new drug application for veverimer, a treatment for metabolic acidosis in patients with chronic kidney disease. Boston Scientific, a U.S.-based medical device company, was one of the first large healthcare companies to forecast a negative sales impact to Chinese operations from coronavirus. While coronavirus spread throughout Europe and the U.S., shares slid further as investors anticipated additional business disruption. Portola Pharmaceuticals is a U.S.-based biopharmaceutical company focused on the treatment of blood-related disorders and cancers. The stock was down after the company reported disappointing results for the fourth quarter of 2019 involving a recently launched drug, Andexxa, the only FDA and European Medicines Agency approved reversal agent for serious bleeds associated with the use of novel oral anti-coagulants. The company later announced an agreement to be acquired by Alexion for

# The Hartford Healthcare Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

\$18 per share in an all cash transaction, which closed during the third quarter of 2020. As a result, we sold the stock to redeploy capital into opportunities with greater upside potential in our view. Boston Scientific, Tricida, and Portola Pharmaceuticals were also the top absolute detractors from performance.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

We expect the human and economic impact of coronavirus to remain challenging, but remain optimistic there will be a number of therapies to treat symptomatic patients and to offer prophylaxis against the virus, perhaps for certain high-risk parts of the population, as early as year end. We are encouraged by the initial clinical data for the Regeneron antibody cocktail, which reduced the viral load and shortened the time to symptomatic relief in the outpatient setting. As for vaccines, we are cautiously optimistic that one or more will be proven effective at reducing infection rates and will be approved, as well as deployed starting in late 2020 and into 2021.

The biopharmaceutical industry has come together to respond to this pandemic by spending research and development (R&D) dollars to develop treatments and vaccines for coronavirus, while seeking minimal profits. We expect the financial benefit of successful treatments to be modest and short-term for the companies developing them, yet we anticipate the goodwill will create a halo effect for the industry. The pandemic has resulted in budgetary shortfalls for governments and health systems around the world, and we expect the industry will be asked to contribute to these budget gaps. We are not expecting major shifts in how healthcare is delivered or reimbursed as a result of the pandemic but will be watching closely for unanticipated consequences in the future.

In selecting stocks for the Fund, we favor companies that develop innovative products designed to address important unmet medical needs. Over the long term, we believe the benefits of innovation, an aging population, and the globalization of demand for cutting-edge Western-style medicines are likely to continue to drive growth of the sector.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Risks of focusing investments on the healthcare related sector include regulatory and legal developments, patent considerations, intense competitive pressures, rapid technological changes, potential product obsolescence, and liquidity risk. • Small- and mid-cap securities can have greater risks and volatility than large-cap securities. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments. These risks may be greater for investments in emerging markets.

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford MidCap Fund returned 6.48%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmark, the S&P MidCap 400 Index, which returned -1.15% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 23.61% average return of the Lipper MidCap Growth Funds peer group, a group of funds with investment strategies similar to that of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Mid-cap growth equities outperformed the broader market during this period. In the first quarter of 2020, U.S. equities ended sharply lower as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. Many states adopted extraordinary measures to fight the contagion, while companies shuttered stores and production, withdrew earnings guidance, and drew down credit lines at a record pace as borrowing costs soared. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest ever decline into a bear market. The unprecedented scale of fiscal and monetary stimulus implemented by Congress and the U.S. Federal Reserve (Fed) in response to the pandemic drove the market's rebound in the second quarter of 2020. Momentum carried into the third quarter of 2020 bolstered by substantial monetary support from the Fed, a broadening U.S. economic recovery and promising trials for coronavirus vaccines. However, the path to sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections around the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, outperformed small- and mid-cap equities, as measured by the Russell 2000 Index and S&P MidCap 400 Index, respectively.

Within the S&P MidCap 400 Index, five of the eleven sectors posted positive returns during the period. The Healthcare (+26%), Consumer Staples (+14%), and Information Technology (+13%) sectors performed the best, while the Energy (-45%), Real Estate (-28%) and Utilities (-22%) sectors lagged.

The Fund outperformed the S&P MidCap 400 Index during the period primarily because of positive sector allocation, a result of our bottom up

stock selection process. This was primarily due to an overweight allocation to the Healthcare sector and an underweight to the Real Estate sector. This was partially offset by an overweight to the Communication Services sector and an underweight to the Consumer Discretionary sector, which detracted from performance. Security selection also contributed positively to the Fund's outperformance relative to the S&P MidCap 400 Index during the period. Selection effects were particularly strong within the Industrials, Real Estate, and Consumer Discretionary sectors. This was partially offset by weak selection in the Healthcare, Information Technology, and Consumer Staples sectors, which detracted from performance during the period.

Top contributors to relative performance during the period included Wayfair (Consumer Discretionary), Redfin (Real Estate), and Etsy (Consumer Discretionary). Shares of Wayfair rose over the period. The company has reported strong demand across the home and goods categories as stay-at-home mandates have led to an increase in online shopping. We eliminated the Fund's position during the period. Shares of Redfin, a real estate brokerage, rose over the period as the company has seen increased homebuying demand throughout the coronavirus pandemic as people pursue the suburbs and more affordable cities with the increase in remote work. Shares of Etsy rose over the period after the company positioned the platform as a leading supplier of homemade cloth masks. The handmade crafts e-commerce platform's sharp spike in customer acquisitions has increased brand awareness and opportunities for customer retention during the coronavirus pandemic.

Top relative detractors from the Fund's relative performance included WEX (Information Technology), Reata Pharmaceutical (Healthcare), and Teradata (Information Technology). Shares of WEX, a provider of fuel payment processing for fleet vehicles, fell during the period as coronavirus-related lockdowns drove declines in fuel transactions, payment processing, as well as travel and corporate solutions purchases. The company did not provide fiscal 2020 guidance due to uncertainties caused by the ongoing pandemic. Shares of Reata Pharmaceutical declined over the period after the company announced that its filing of a U.S. marketing application for omaveloxolone, a treatment for Friedreich's ataxia, would be delayed indefinitely if the U.S. Food and Drug Administration requires a second pivotal study. Shares of Teradata, a database and analytics-related software provider, fell during the period after the company cut its full-year adjusted earnings outlook in late 2019. Furthermore, the company's chief executive officer and chief revenue officer both left the company during the period.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

# The Hartford MidCap Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

### What is the outlook as of the end of the period?

The high-growth and large-cap leadership that has dominated the market showed signs of weakness towards the end of the period. We continue to seek to build a diversified portfolio of blue-chip, market-leading mid-cap companies.

Given the performance dispersion across sectors in 2020, we anticipate continuing to explore opportunities in areas of the market that have largely underperformed, such as banks, as well as utilities and real estate companies. We also view the space of home health companies as attractive given the challenges nursing facilities face during the coronavirus crisis and a likely trend towards home health services. Moving forward, we continue to examine what the world may look like during a post-coronavirus economic recovery and the trends that may result.

At the end of the period, the Fund's largest overweights were in the Information Technology and Healthcare sectors. The Fund had the largest underweights to the Consumer Discretionary, Real Estate and Financials sectors.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Mid-cap securities can have greater risks and volatility than large-cap securities. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

## Portfolio Manager

**Gregory J. Garabedian**

Senior Managing Director and Equity Research Analyst  
Wellington Management Company LLP

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford MidCap Value Fund returned -12.86%, before sales charges, for the twelve-month period ended October 31, 2020, underperforming the Fund's benchmark, the Russell Midcap Value Index, which returned -6.94% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also underperformed the -2.51% average return of the Lipper MidCap Core Fund peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap, as large-cap equities, as measured by the S&P 500 Index, outperformed mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively. Returns within the mid-cap space varied by style, as the Russell Midcap Growth Index outperformed the Russell Midcap Value Index.

Six of the eleven sectors in the Russell Midcap Value Index gained during the period, with the Healthcare (+19%), Materials (+15%), and Information Technology (+7%) sectors performing the best, while the Energy (-45%), Real Estate (-26%), and Financials (-15%) sectors lagged during the period.

The Fund's underperformance versus the Russell Midcap Value Index over the twelve-month period was driven primarily by security selection. Security selection within the Energy, Materials, and Industrials sectors was a top detractor from performance, but was partially offset by

favorable selection in the Real Estate, Healthcare, and Financials sectors. Sector allocation, a result of the bottom-up stock selection process, added to relative performance during the period, in part due to overweights to the Healthcare and Information Technology sectors. Underweights to the Consumer Staples and Utilities sectors weighed on performance during the period.

Top detractors from the Fund's performance relative to the Russell Midcap Value Index during the period included Diamondback Energy (Energy), Delek, (Energy), and Noble Energy (Energy). Shares of these oil and gas producing companies came under pressure during the past year due to a decrease in crude oil and natural gas prices amid decreasing demand stemming from the coronavirus pandemic. Top absolute detractors from Fund performance were Boston Properties (Real Estate), Diamondback Energy (Energy), and STORE Capital (Real Estate).

Top contributors to the Fund's relative performance over the period included overweights to Molina Healthcare (Healthcare), Lumentum (Information Technology), and Fortune Brands (Industrials). Shares of Molina Healthcare rose during the period after reporting solid earnings as the Medicaid and Medicare business segments continued to show strong growth. Healthcare equities also rose as investors increasingly viewed a strict "Medicare-for-All" healthcare policy as less likely going forward. Shares of Lumentum rose during the period after the company reported consecutive quarterly earnings that topped estimates. Shares of Fortune Brands rose over the period after the company reported second quarter 2020 earnings that exceeded expectations. These results were led by increased home improvement demand. Top absolute contributors to the Fund's performance were Molina Healthcare (Healthcare), Hologic (Healthcare), and Lumentum (Information Technology).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

While we expect continued volatility in the near term, we continue to focus on seeking to find companies that are undervalued in the marketplace by evaluating three primary criteria: an issuer's earnings power, growth potential and price-to-earnings ratio.

At the end of the period, the Fund's largest overweights relative to the Russell Midcap Value Index were to the Financials, Healthcare and Information Technology sectors. The Fund's largest underweights were in the Energy, Communication Services, and Utilities sectors.

## Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Mid-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of the Hartford Quality Value Fund returned -7.34%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmark, the Russell 1000 Value Index, which returned -7.57% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the -6.15% average return of the Lipper Large Cap Value Fund peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply after achieving record highs in February, as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

During the period, four out of eleven sectors within the Russell 1000 Value Index posted positive absolute returns, with the Healthcare (+11%), Materials (+9%), and Consumer Staples (+4%) sectors performing the best. Conversely, the Energy (-46%), Real Estate (-22%), and Financials (-18%) sectors lagged over the period.

Security selection and sector allocation both contributed positively to the Fund's performance relative to the Russell 1000 Value Index over the period. Strong stock selection within the Information Technology, Real Estate, and Consumer Discretionary sectors were the top contributors to relative performance. This was partially offset by weaker security

selection within the Healthcare, Financials, and Utilities sectors, which detracted from performance. Sector allocation, a result of our bottom-up stock selection process, also contributed positively to relative performance during the period, due to an overweight to the Information Technology sector and underweight positions in the Consumer Staples and Consumer Discretionary sectors. This was partially offset by an overweight to the Energy sector and an underweight to the Materials sector, which detracted from performance.

Top contributors to relative performance over the period were Lowe's Companies (Consumer Discretionary), not holding Wells Fargo (Financials), and Qualcomm (Information Technology). The share price of Lowe's rose over the period, following upbeat earnings results. The company reported a 20% increase in same-store sales in April 2020 and has seen the trend continue, supported by its online business. Shares of Wells Fargo fell over the period after the Chief Financial Officer (CFO) predicted higher loan-loss provisions in addition to a sharp drop in interest income for the year. Qualcomm's stock price rose after the company reported strong quarterly results driven by improving sales forecasts as well as a recently announced licensing deal with Huawei Technologies. During the period, we trimmed the Fund's position slightly on valuation.

The largest detractors from the Fund's performance relative to the Russell 1000 Value Index over the period were Citigroup (Financials), not holding Danaher (Healthcare), and Total (Energy). Shares of Citigroup fell after the CFO warned revenue could drop as the bank set aside more in reserves to cover potential losses caused by the coronavirus pandemic. Danaher's stock price rose over the period after its Cepheid unit received Emergency Use Authorization from the Food and Drug Administration (FDA) for its coronavirus test. Shares of Total also fell over the period as the pandemic has drastically reduced demand for crude oil. As of the end of the period, the Fund maintained a position in the company.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

Although the market continued its climb in the third quarter of 2020, we are wrestling with many unknowns in the short term. While enormous amounts of liquidity have been pumped into the market to try and safeguard consumer spending, we are still facing high rates of unemployment and each day are reminded of the increasing number of coronavirus cases. As temperatures dip, there is concern that an even higher resurgence of the virus may emerge. Our framework during these turbulent times is to try to avoid balance sheet risk while seeking to

# Hartford Quality Value Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

identify mispriced opportunities that can potentially create enormous value on the other side of the pandemic.

We continue to seek to invest in companies that have reasonable valuations with attractive long-term free cash flow generation, solid balance sheets, and resilient fundamentals.

At the end of the period, the Fund's largest overweights were to the Information Technology and Financials sectors, while the Fund's largest underweights were to the Communication Services sector, relative to the Russell 1000 Value Index.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of The Hartford Small Cap Growth Fund returned 14.06%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmark, the Russell 2000 Growth Index, which returned 13.37% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 17.69% average return of the Lipper Small-Cap Growth Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply after achieving record highs in February 2020, as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, outperformed small-cap and mid-cap equities, as measured by the Russell 2000 Index and S&P MidCap 400 Index, respectively.

Six out of eleven sectors in the Russell 2000 Growth Index had positive returns during the period. The Healthcare (+38%), Information

Technology (+12%), and Consumer Discretionary (+12%) sectors increased the most, while the Energy (-52%), Real Estate (-12%), and Utilities (-10%) sectors lagged the broader index.

Security selection was the primary driver of the Fund's outperformance relative to the Russell 2000 Growth Index during the period. Strong selection within the Information Technology, Consumer Staples, and Communication Services sectors contributed positively to relative performance. This was partially offset by weaker selection in the Industrials, Financials, and Real Estate sectors, which detracted from performance. Sector allocation, a result of the bottom-up stock selection process, also contributed positively to relative performance, primarily driven by the Fund's underweight allocation to the Utilities sector and an overweight in the Industrials sector. An overweight allocation to the Consumer Discretionary sector detracted from performance during the period.

The top contributors to relative performance during the period were overweight positions in Five9 (Information Technology), MyoKardia (Healthcare), and Smith & Wesson (Consumer Discretionary). Shares of Five9, a provider of cloud-based software for contact centers, ended the period higher after reporting consecutive earnings results that beat the previous year's corresponding quarterly results. As of the end of the period, the Fund continued to own this security. Shares of MyoKardia rose over the period. The stock soared in October 2020 on the announcement that Bristol Myers Squibb will acquire the pharmaceutical firm for \$13.1 billion. Shares of Smith & Wesson increased significantly over the period after surpassing earnings expectations for the past two quarters. Nationwide coronavirus lockdowns, paired with the environments of civil unrest, have led to an increase in the demand for guns as a form of personal protection. Top absolute contributors for the period included Five9 (Information Technology), MyoKardia (Healthcare), and Teladoc Health (Healthcare).

The top detractors from relative performance included not holding Quidel (Healthcare), and overweight positions in Steve Madden (Consumer Discretionary), and Caleres (Consumer Discretionary). Shares of Quidel rose during the period after the company received emergency use authorization from the U.S. Food and Drug Administration (FDA) for the company's rapid-result coronavirus test amid a push to ramp up detection of the deadly virus. The company's Sofia 2 test can provide results in 15 minutes. Not owning the stock, which is a constituent of the Russell 2000 Growth Index, was a detractor from the Fund's relative performance over the period due to the stock's strong performance.

# The Hartford Small Cap Growth Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

Shares of Steve Madden, a women's fashion footwear company, fell during the period. During the period, we exited this holding in the Fund after coronavirus negatively impacted non-essential retailers. Caleres, an American footwear company, was a top detractor from relative performance during the period. Shares of Caleres fell as the company reported an earnings miss and lower year-over-year sales for the fourth quarter of 2019. Further, the dramatic slowdown in retail demand throughout the U.S. in response to coronavirus has also weighed on the stock price. During the period, we eliminated this position within the Fund on the same basis as Steve Madden. Top absolute detractors for the period included Steve Madden (Consumer Discretionary), Caleres (Consumer Discretionary), and MGIC Investment (Financials).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

In the next few months, we believe we will know a lot more about whether we will have a vaccine and treatment options to reduce the hospitalization and mortality rate for coronavirus. While we can see additional flare-ups, our base case assumption is that we can return to a new normal towards the end of 2021.

Beyond the U.S. border, there are still parts of the world where the incidence of cases has not stabilized, and in some areas, it does appear that the peak may still be many weeks or even months away. So, unfortunately, a lot of uncertainty remains. We are spending more time understanding the possible permanent or semi-permanent changes to behavior, both from a consumer and corporate perspective, and what that might mean for some of the Fund's holdings. However, it seems too early to come to conclusions.

We continue to stay focused on the long term as we will eventually put this health crisis behind us. While we did make some changes to the holdings within the Fund, we continue to be incremental and mindful of the impact of volatility.

At the end of the period, the Fund's largest overweights were to the Financials, Information Technology and Consumer Discretionary sectors, while the Fund's largest underweights were to the Utilities, Healthcare, and Real Estate sectors, relative to the Russell 2000 Growth Index.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

### Composition by Sector<sup>(1)</sup>

as of 10/31/2020

## Portfolio Manager

**Sean M. Kammann**

Managing Director, Equity Portfolio Manager  
Wellington Management Company LLP

## Manager Discussion

### How did the Fund perform during the period?

The Class A shares of the Hartford Small Cap Value Fund returned -14.57%, before sales charges, for the twelve-month period ended October 31, 2020, underperforming the Fund's benchmark, the Russell 2000 Value Index, which returned -13.92% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the -12.85% average return of the Lipper Small-Cap Value Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2020. Waning recession fears, improved trade sentiment, and accommodative U.S. Federal Reserve (Fed) policy benefited U.S. markets toward the end of 2019. In the first quarter of 2020, U.S. equities fell sharply as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. The U.S. had approximately 188,000 confirmed cases of the coronavirus at the end of March 2020, surpassing all other countries. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest-ever decline into a bear market. The unprecedented scale of the fiscal and monetary stimulus implemented by Congress and the Fed in response to the pandemic was the most influential driver of the market's rebound in the second quarter of 2020. Momentum continued into the third quarter of 2020 with substantial monetary support from the Fed, a broadening U.S. economic recovery, better-than-expected corporate earnings, and promising trials for coronavirus vaccines. However, the path to a sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections in many areas of the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap, as large-cap equities, as measured by the S&P 500 Index, outperformed mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Value Index, respectively.

Four of the eleven sectors in the Russell 2000 Value Index rose during the period, with the Healthcare (+20%), Consumer Staples (+19%), and Consumer Discretionary (+7%) sectors performing best. Conversely, the Energy (-51%), Communication Services (-33%), and Real Estate (-30%) sectors lagged over the period.

Security selection detracted from the Fund's performance relative to the Russell 2000 Value Index during the period due to weak stock selection in the Industrials, Consumer Discretionary, and Information Technology sectors, which was partially offset by strong stock selection in the Financials, Communication Services, and Utilities sectors. Sector allocation, a result of our bottom-up stock selection process, benefited

relative performance. The Fund's lack of exposure to the Energy sector and an overweight to the Consumer Discretionary sector contributed positively, while the Fund's underweight to the Healthcare and Materials sectors partially offset these results.

The largest contributors to relative performance over the period were Medifast (Consumer Staples), Sturm Ruger & Co (Consumer Discretionary), and Avid Technology (Information Technology). Shares of Medifast, an American nutrition and weight loss company, rose over the period on strong new client acquisition and coach additions in the second quarter of 2020, which led to an 18% growth rate in revenue year-over-year, coming in significantly higher than consensus estimates. American firearm manufacturing company Sturm Ruger & Co. benefited from rising sales at the beginning of the year, driven by consumer demand, new products, and reduced promotional activity. Outperformance continued in the most recent quarter, with firearm sales climbing 178% year-over-year. Avid Technology is a technology and media company that develops a variety of software and systems. Shares climbed higher on 68% year-over-year growth in subscription revenue for the second quarter of 2020. While product sales and professional services were negatively impacted by the pandemic, high-margin subscriptions have continued to see growth. The company continued to perform well through the end of the period, maintaining momentum in subscription growth.

The largest detractors from relative performance during the period were Great Western (Financials), Knoll (Industrials), and Deluxe (Industrials). Shares of Great Western, a bank holding company based in South Dakota, fell during the period as the company faced challenges from elevated credit costs and outsized provisions in response to a significantly weaker economic outlook resulting from coronavirus. Knoll designs and manufactures branded office furniture products and textiles. The company's net sales declined more than 25% in the second quarter of 2020 following steep declines in incoming orders during April and May. The third quarter of 2020 saw revenues decline, and gross margin shrink despite multiple rounds of layoffs conducted to reduce costs. After withdrawing guidance in March 2020 given uncertainties around coronavirus, shares of Deluxe, a company offering check printing and related business services, fell considerably. First-quarter profitability was pressured by deteriorating sales and asset impairment charges as the U.S. moved into a lockdown.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

As we begin to think longer-term about the implications of the enormous federal budget deficits built during this crisis, we observe that the most consistent way countries have dealt with this throughout history is through higher inflation. We do not expect this to occur imminently, but it seems probable over the medium term. We believe that inflationary

# Hartford Small Cap Value Fund

## *Fund Overview – (continued)* *October 31, 2020 (Unaudited)*

periods tend to be a favorable backdrop for valuation focused investing. We continue to focus our efforts on seeking to find the most attractive long-term excess return opportunities, while seeking to balance this against the associated risks.

At the end of the period, the Fund was most overweight to the Information Technology, Financials, and Consumer Staples sectors, and most underweight to the Real Estate, Energy, and Utilities sectors relative to the Russell 2000 Value Index.

### **Important Risks**

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments.

### **Composition by Sector<sup>(1)</sup>**

### How did the Fund perform during the period?

The Class A shares of The Hartford Small Company Fund returned 33.28%, before sales charges, for the twelve-month period ended October 31, 2020, outperforming the Fund's benchmark, the Russell 2000 Growth Index, which returned 13.37% for the same period. For the same period, the Class A shares of the Fund, before sales charges, outperformed the 17.69% average return of the Lipper Small-Cap Growth Funds peer group, a group of funds with investment strategies similar to those of the Fund.

### Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, rose 9.4% over the trailing twelve-month period ending October 31, 2020. Small-, mid- and large-cap growth equities outperformed the broader market during this period. The first quarter of 2020 ended sharply lower as the coronavirus spread rapidly throughout the country, causing unprecedented market disruptions and financial damage, and heightening fears of a severe economic downturn. Many states adopted extraordinary measures to fight the contagion, while companies shuttered stores and production, withdrew earnings guidance, and drew down credit lines at a record pace as borrowing costs soared. Volatility surged to extreme levels, and the S&P 500 Index suffered its fastest ever decline into a bear market. The unprecedented scale of fiscal and monetary stimulus implemented by Congress and the U.S. Federal Reserve (Fed) in response to the pandemic drove the market's rebound in the second quarter of 2020. Momentum carried into the third quarter of 2020 bolstered by substantial monetary support from the Fed, a broadening U.S. economic recovery and promising trials for coronavirus vaccines. However, the path to sustainable economic recovery was clouded by concerns about a resurgence in coronavirus infections around the country, an undetermined timeline for vaccines, high unemployment, elevated debt burdens, and uncertainty about additional fiscal stimulus.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, outperformed mid-cap and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively. Growth significantly outperformed value in all market cap ranges during the period.

Six out of eleven sectors in the Russell 2000 Growth Index had positive returns during the period. The Healthcare (+38%), Information

Technology (+12%), and Consumer Discretionary (+12%) sectors increased the most, while the Energy (-52%), Real Estate (-12%), and Utilities (-10%) sectors lagged the broader index.

During the period, security selection was the primary driver of the Fund's outperformance relative to the Russell 2000 Growth Index. Strong selection in the Healthcare, Information Technology, and Industrials sectors contributed positively to relative performance, slightly offset by weak selection in the Materials and Financials sectors. Sector allocation, a result of our bottom-up stock selection process, also contributed positively to relative performance, primarily driven by the Fund's underweight allocation to the Industrials sector.

The top contributors to relative performance during the period were Livongo Health (Healthcare), Chegg (Consumer Discretionary), and Boston Beer Co. (Consumer Discretionary). Shares of Livongo Health, a virtual healthcare provider, rose after the company announced second quarter 2020 revenue that was above expectations. Livongo also announced a merger agreement with Teledoc Health which is anticipated to position the firm as one of the leaders in comprehensive virtual care during a time of unprecedented demand and is anticipated to further expand access to underserved populations. Shares of Chegg rose over the period after reporting first-quarter earnings that surpassed expectations. The online textbook rental and learning services company saw subscriptions increase by 35% from last year as institutions moved to online learning in response to coronavirus. Shares of Boston Beer Co., a beverage company with key brands Samuel Adams and Twisted Tea, rose after the company reported strong results driven by the company's Truly seltzer brand despite increasing competition in the spiked seltzer market. Top absolute contributors for the period included Livongo Health (Healthcare) and Chegg (Consumer Discretionary).

The top detractors from relative performance during the period included Curtiss-Wright (Industrials), Ingevity (Materials), and not holding benchmark constituent Quidel (Healthcare). Shares of Curtiss-Wright, an engineered components manufacturer servicing aerospace, defense, power generation and general industrial end markets, fell during the period as coronavirus created uncertainty for future economic growth. Shares declined on commercial aerospace and defense budget concerns. Shares of Quidel rose during the period on the heels of the U.S. Food and Drug Administration (FDA) Emergency Use Authorization for the company's rapid-result coronavirus test amid a push to ramp up detection of the virus. The company's Sofia 2 test can provide results in 15 minutes. Shares of Ingevity, a specialty chemicals manufacturer, traded down after

# The Hartford Small Company Fund

## Fund Overview – (continued) October 31, 2020 (Unaudited)

management cited coronavirus-related challenges in their automobile and oil and gas end-markets. Top absolute detractors for the period included NexPoint Residential (Real Estate), Performance Foods Group (Consumer Staples), and Marriott Vacations (Consumer Discretionary).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

### What is the outlook as of the end of the period?

Overall, we continue to have significant uncertainty around the timing of the economic recovery, full deployment of an effective vaccine for coronavirus and policy changes that may occur as a result of the U.S. election. We remain consistent in adhering to our disciplined portfolio construction process that we believe allows us to assess risk, weight individual positions accordingly, and in the process build a portfolio that focuses largely on stock selection in seeking to generate outperformance relative to the Russell 2000 Growth Index.

In recent months, we have been trimming or eliminating stocks in the Fund that performed strongly. We have been investing in companies that we believe may perform well in a recovering economy as well as investing in companies that we believe may perform well in a more challenged macro environment.

At the end of the period, the Fund's largest overweights were to the Consumer Discretionary, Industrials, and Information Technology sectors, while the Fund's largest underweights were to the Healthcare, Consumer Staples, and Real Estate sectors, relative to the Russell 2000 Growth Index.

### Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

### Composition by Sector<sup>(1)</sup>

as of 10/31/2020

Sector	Percentage of Net Assets
<b>Equity Securities</b>	
Communication Services	2.1%
Consumer Discretionary	18.6
Consumer Staples	0.9
Financials	9.0
Health Care	26.1
Industrials	16.6
Information Technology	21.9
Materials	0.8

## Benchmark Glossary (Unaudited)

---

**Russell 1000 Growth Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 1000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 1000 Index is designed to measure the performance of the 1,000 largest companies in the Russell 3000 Index based on their market capitalization and current index membership.

**Russell 1000 Value Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 1000 Index companies with lower price-to-book ratios and lower forecasted growth values. The Russell 1000 Index is designed to measure the performance of the 1,000 largest companies in the Russell 3000 Index based on their market capitalization and current index membership.

**Russell 2000 Growth Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 2000 Index growth companies with higher price-to-book ratios and higher forecasted growth values. The Russell 2000 Index is an index comprised of 2,000 of the smallest U.S.-domiciled company common stocks based on a combination of their market capitalization and current index membership.

**Russell 2000 Value Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 2000 Index companies with lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Index is an index comprised of 2,000 of the smallest U.S.-domiciled company common stocks based on a combination of their market capitalization and current index membership.

**Russell 3000 Growth Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 3000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 3000 Index is designed to measure the performance of the 3,000 largest U.S. companies based on total market capitalization.

**Russell 3000 Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of the 3,000 largest U.S. companies based on total market capitalization.

**Russell Midcap Value Index** (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of the mid-cap value segment of the U.S. equity universe. It includes those Russell Midcap Index companies with lower price-to-book ratios and lower forecasted growth values.

**S&P 500 Index** (reflects no deduction for fees, expenses or taxes) is a float-adjusted market capitalization-weighted price index composed of 500 widely held common stocks.

**S&P Composite 1500 Health Care Index** (reflects no deduction for fees, expenses or taxes) is a float-adjusted market capitalization-weighted index comprised of those companies included in the S&P Composite 1500 that are classified as members of the Global Industry Classification Standard (GICS®) health care sector.

**S&P MidCap 400 Index** (reflects no deduction for fees, expenses or taxes) is a float-adjusted market capitalization-weighted index designed to measure the performance of the mid-cap segment of the market. The index is composed of 400 constituent companies.

# Hartford Domestic Equity Funds

## Expense Examples (Unaudited)

### Your Fund's Expenses

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, if any, and contingent deferred sales charges (CDSC), if any, and (2) ongoing costs, including investment management fees, distribution and/or service (12b-1) fees, if any, and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period of May 1, 2020 through October 31, 2020. To the extent a Fund was subject to acquired fund fees and expenses during the period, acquired fund fees and expenses are not included in the annualized expense ratios below.

### Actual Expenses

The first set of columns of the table below provides information about actual account values and actual expenses. You may use this information, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the line under the heading entitled "Expenses Paid During The Period" to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The second set of columns of the table below provides information about hypothetical account values and hypothetical expenses based on a Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in a Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (front-end sales loads and CDSC). Therefore, the second set of columns of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would be higher. Expenses for a class of a Fund are equal to the class' annualized expense ratio multiplied by average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

	Actual Return			Hypothetical (5% return before expenses)

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

The Fund may refer to any one or more of the industry classifications used by one or more widely recognized market indices, ratings group and/or as defined by Fund management. Industry classifications may not be identical across all security types.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

\* Non-income producing.

(1) Investment valued using significant unobservable inputs.

(2) These securities are valued in good faith at fair value as determined under policies and procedures established by and under the supervision of the Board of Directors. At October 31, 2020, the aggregate fair value of these securities was \$70,811,389, which represented 1.1% of total net assets. This amount excludes securities that are principally traded in certain foreign markets and whose prices are adjusted pursuant to a third party pricing service methodology approved by the Board of Directors.

(3) Investment in securities not registered under the Securities Act of 1933 (excluding securities acquired pursuant to Rule 144A and Regulation S). At the end of the period, the value of such restricted securities amounted to \$70,811,389 or 1.1% of net assets.

## Schedule of Investments – (continued)

October 31, 2020

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

† See Significant Accounting Policies of accompanying Notes to Financial Statements regarding valuation of investments.

## Fair Value Summary

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

\* Non-income producing.

(1) Represents entire or partial securities on loan. See Note 8 in the accompanying Notes to Financial Statements for securities lending information.

(2) Investment valued using significant unobservable inputs.

(3) These securities are valued in good faith at fair value as determined under policies and procedures established by and under the supervision of the Board of Directors. At October 31, 2020, the aggregate fair value of these securities was \$97,089,654, which represented 1.5% of total net assets. This amount excludes securities that are principally traded in certain foreign markets and whose prices are adjusted pursuant to a third party pricing service methodology approved by the Board of Directors.

(4) Investment in securities not registered under the Securities Act of 1933 (excluding securities acquired pursuant to Rule 144A and Regulation S). At the end of the period, the value of such restricted securities amounted to \$97,089,654 or 1.5% of net assets.

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

\* Non-income producing.

(1) Represents entire or partial securities on loan. See Note 8 in the accompanying Notes to Financial Statements for securities lending information.

(2) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may be sold in transactions that are exempt from registration (typically only to qualified institutional buyers) or in a public offering registered under the Securities Act of 1933. At October 31, 2020, the aggregate value of these securities was \$25,067,754, representing 1.7% of net assets.

(3) Current yield as of period end.

† See Significant Accounting Policies of accompanying Notes to Financial Statements regarding valuation of investments.

## Fair Value Summary

# Hartford Quality Value Fund

## Schedule of Investments – (continued)

October 31, 2020

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

\* Non-income producing.

(1) This security is valued in good faith at fair value as determined under policies and procedures established by and under the supervision of the Board of Directors. At

October 31, 2020, the aggregate fair value of this security was \$480,312, which represented 0.3% of total net assets. This amount excludes securities that are principally traded in certain foreign markets and those prices are adjusted pursuant to a third party pricing service methodology approved by the Board of Directors.

(2) Investment in securities not registered under the Securities Act of 1933 (excluding securities acquired pursuant to Rule 144A and Regulation S). At the end of the period, the value of such restricted securities amounted to \$480,312 or 0.3% of net assets.

Period Acquired	Security Name	Shares/ Par Value	Total Cost	Market Value
08/2011	Allstar Co.	571,800	\$ 248,744	\$ 480,312

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

The Fund may refer to any one or more of the industry classifications used by one or more widely recognized market indices, ratings group and/or as defined by Fund management. Industry classifications may not be identical across all security types.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

\* Non-income producing.

<sup>(1)</sup> Represents entire or partial securities on loan. See Note 8 in the accompanying Notes to Financial Statements for securities lending information.

<sup>(2)</sup> Investment valued using significant unobservable inputs.

<sup>(3)</sup> These securities are valued in good faith at fair value as determined under policies and procedures established by and under the supervision of the Board of Directors. At October 31, 2020, the aggregate fair value of these securities was \$5,767,272, which represented 0.8% of total net assets. This amount excludes securities that are principally traded in certain foreign markets and whose prices are adjusted pursuant to a third party pricing service methodology approved by the Board of Directors.

<sup>(4)</sup> Investment in securities not registered under the Securities Act of 1933 (excluding securities acquired pursuant to Rule 144A and Regulation S). At the end of the period, the value of such restricted securities amounted to \$5,767,272 or 0.8% of net assets.

Period Acquired	Security Name	Shares/ Par Value	Total Cost	Market Value
08/2011	Allstar Co.	3,136,600	\$1,364,479	\$2,634,744
08/2015	Honest Co., Inc.			
	Series D Convertible Preferred	47,489	2,172,859	1,956,547
11/2013	Tory Burch LLC	26,907	2,108,912	1,110,201
04/2017	Veracode, Inc.	98,033	—	65,780
			<u>\$5,646,250</u>	<u>\$5,767,272</u>

<sup>(5)</sup> Share amount represents shares of the issuer previously held that resulted in receipt of the escrow.

<sup>(6)</sup> Current yield as of period end.

<sup>(7)</sup> Affiliated company – The Fund owns greater than 5% of the outstanding voting securities of this issuer.

† See Significant Accounting Policies of accompanying Notes to Financial Statements regarding valuation of investments.

<sup>(1)</sup> Information presented relates to a share outstanding throughout the indicated period. Net investment income (loss) per share amounts are calculated based on average shares outstanding unless otherwise noted.

The accompanying notes are an integral part of these financial statements.

# Hartford Domestic Equity Funds

## Financial Highlights – (continued)

- (2) Assumes initial investment at net asset value at the beginning of each period, reinvestment of all distributions, the complete redemption of the investment at net asset value at the end of each period and no sales charge. Total return would be reduced if sales charges were taken into account.
- (3) Adjustments include waivers and reimbursements, if applicable. Ratios do not include fees paid indirectly (see Expenses in the accompanying Notes to Financial Statements).
- (4) Includes interest expense representing less than 0.005%.
- (5) Commenced operations on February 28, 2017.
- (6) Not annualized.
- (7) Annualized.
- (8) Excluding the expenses not subject to cap, the ratios would have been 1.09%, 1.98%, 1.81%, 0.79%, 1.40%, 1.10%, 0.80%, 0.70% and 0.70% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5, Class R6 and Class Y, respectively.
- (9) Excluding the expenses not subject to cap, the ratios would have been 0.79%, 1.54%, 1.54%, 0.54%, 1.09%, 0.79%, 0.49%, 0.42% and 0.42% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5, Class R6 and Class Y, respectively.
- (10) Excluding the expenses not subject to cap, the ratios would have been 1.02%, 1.95%, 1.76%, 0.82%, 1.35%, 1.05%, 0.75%, 0.65% and 0.65% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5, Class R6 and Class Y, respectively.
- (11) Excluding the expenses not subject to cap, the ratios would have been 1.12%, 2.04%, 1.87%, 0.91%, 1.45%, 1.15%, 0.85%, 0.75% and 0.76% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5, Class R6 and Class Y, respectively.
- (12) Amount is less than \$0.01 per share.
- (13) Commenced operations on February 28, 2019.
- (14) Excluding the expenses not subject to cap, the ratios would have been 1.28%, 2.10%, 2.00%, 1.04%, 1.54%, 1.23%, 0.93% and 0.83% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5 and Class Y, respectively.
- (15) Commenced operations on February 28, 2018.
- (16) Per share amount was not in accord with the net realized and unrealized gain (loss) for the period because of the timing of transactions in shares of the Fund and the amount and timing of per-share net realized and unrealized gain (loss) on such shares.
- (17) Excluding the expenses not subject to cap, the ratios would have been 1.23%, 2.09%, 1.95%, 0.90%, 1.52%, 1.20%, 0.90% and 0.79% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5 and Class Y, respectively.
- (18) Excluding the expenses not subject to cap, the ratios would have been 1.30%, 2.05%, 2.05%, 0.99%, 1.50%, 1.20%, 0.90% and 0.85% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5 and Class Y, respectively.
- (19) Excluding the expenses not subject to cap, the ratios would have been 1.40%, 2.15%, 2.11%, 1.15%, 1.55%, 1.25%, 0.95%, 0.88% and 0.88% for Class A, Class B, Class C, Class I, Class R3, Class R4, Class R5, Class R6 and Class Y, respectively.
- (20) Amount is less than 0.01%.

## Notes to Financial Statements

October 31, 2020

### 1. Organization:

The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. (each, a “Company” and collectively, the “Companies”) are each an open-end registered management investment company comprised of thirty-six and fourteen series, respectively, as of October 31, 2020. Financial statements for the series of each Company listed below (each, a “Fund” and collectively, the “Funds”) are included in this report.

The Hartford Mutual Funds, Inc.:

The Hartford Capital Appreciation Fund (the “Capital Appreciation Fund”)  
Hartford Core Equity Fund (the “Core Equity Fund”)  
The Hartford Dividend and Growth Fund (the “Dividend and Growth Fund”)  
The Hartford Equity Income Fund (the “Equity Income Fund”)  
The Hartford Healthcare Fund (the “Healthcare Fund”)  
The Hartford MidCap Fund (the “MidCap Fund”)  
The Hartford MidCap Value Fund (the “MidCap Value Fund”)  
Hartford Small Cap Value Fund (the “Small Cap Value Fund”)  
The Hartford Small Company Fund (the “Small Company Fund”)

The Hartford Mutual Funds II, Inc.:

The Hartford Growth Opportunities Fund (the “Growth Opportunities Fund”)  
Hartford Quality Value Fund (the “Quality Value Fund”)  
The Hartford Small Cap Growth Fund (the “Small Cap Growth Fund”)

The assets of each Fund are separate, and a shareholder’s interest is limited to the Fund in which shares are held. Each Company is organized under the laws of the State of Maryland and is registered with the Securities and Exchange Commission (the “SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). Each Fund is a diversified open-end management investment company. Each Fund applies specialized accounting and reporting standards under Accounting Standards Codification Topic 946, “Financial Services – Investment Companies”.

Each Fund has registered for sale Class A, Class C, Class I, Class R3, Class R4, Class R5, Class Y and Class F shares. Core Equity Fund has registered for sale Class T shares. As of October 31, 2020, Class T shares have not commenced operations. Each Fund, except the MidCap Value Fund, has registered for sale Class R6 shares. Class A shares are sold with a front-end sales charge of up to 5.50%. Class T shares have a front-end sales charge of up to 2.50%. Class C shares are sold with a contingent deferred sales charge of up to 1.00% on shares redeemed within twelve months of purchase. Effective October 1, 2018, Class C shares automatically convert to Class A shares of the same Fund after ten years provided that the Fund or the financial intermediary has records verifying that the Class C shares have been held for at least ten years. Classes I, R3, R4, R5, R6, Y and F shares do not have a sales charge.

### 2. Significant Accounting Policies:

The following is a summary of significant accounting policies of each Fund used in the preparation of its financial statements, which are in accordance with United States Generally Accepted Accounting Principles (“U.S. GAAP”). The preparation of financial statements in accordance with U.S. GAAP may require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

- a) *Determination of Net Asset Value* – The net asset value (“NAV”) of each class of each Fund’s shares is determined as of the close of regular trading on the New York Stock Exchange (the “Exchange”) (normally 4:00 p.m. Eastern Time) (the “NYSE Close”) on each day that the Exchange is open (“Valuation Date”). If the Exchange is closed due to weather or other extraordinary circumstances on a day it would typically be open for business, each Fund may treat such day as a typical business day and accept purchase and redemption orders and calculate each Fund’s NAV in accordance with applicable law. The NAV for each class of shares of each Fund is determined by dividing the value of the Fund’s net assets attributable to a class of shares by the number of shares outstanding. Information that becomes known to the Funds after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the NAV determined earlier that day.
- b) *Investment Valuation and Fair Value Measurements* – For purposes of calculating the NAV of each class of each Fund, portfolio securities and other assets held in the Fund’s portfolio for which market prices are readily available are valued at market value. Market value is generally determined on the basis of official close price or last reported trade price. If no trades were reported, market value is based on prices obtained from a quotation reporting system, established market makers (including evaluated prices), or independent pricing services. Pricing vendors may use matrix pricing or valuation models that utilize certain inputs and assumptions to derive values, including transaction data, credit quality information, general market conditions, news, and other factors and assumptions.

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

If market prices are not readily available or are deemed unreliable, a Fund will use the fair value of the security or other instrument as determined in good faith under policies and procedures established by and under the supervision of the Board of Directors of the respective Company (the "Board of Directors") ("Valuation Procedures"). Market prices are considered not readily available where there is an absence of current or reliable market-based data (e.g., trade information or broker quotes), including where events occur after the close of the relevant market, but prior to the NYSE Close, that materially affect the values of a Fund's portfolio holdings or assets. In addition, market prices are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities or other instruments trade do not open for trading for the entire day and no other market prices are available. Fair value pricing is subjective in nature and the use of fair value pricing by a Fund may cause the NAV of its shares to differ significantly from the NAV that would have been calculated using market prices at the close of the exchange on which a portfolio holding is primarily traded. There can be no assurance that a Fund could obtain the fair value assigned to an investment if the Fund were to sell the investment at approximately the time at which the Fund determines its NAV.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service in order to reflect an adjustment for the factors occurring after the close of certain foreign markets but before the NYSE Close. Securities and other instruments that are primarily traded on foreign markets may trade on days that are not business days of the Funds. The value of the foreign securities or other instruments in which a Fund invests may change on days when a shareholder will not be able to purchase, redeem or exchange of the Fund.

Fixed income investments (other than short-term obligations) held by a Fund are normally valued at prices supplied by independent pricing services in accordance with the Valuation Procedures. Short-term investments maturing in 60 days or less are generally valued at amortized cost.

Exchange-traded derivatives, such as options, futures and options on futures, are valued at the last sale price determined by the exchange where such instruments principally trade as of the close of such exchange ("Exchange Close"). If a last sale price is not available, the value will be the mean of the most recently quoted bid and ask prices as of the Exchange Close. If a mean of the bid and ask prices cannot be calculated for the day, the value will be the most recently quoted bid price as of the Exchange Close. Over-the-counter derivatives are normally valued based on prices supplied by independent pricing services in accordance with the Valuation Procedures.

Investments valued in currencies other than U.S. dollars are converted to U.S. dollars using the prevailing spot currency exchange rates obtained from independent pricing services for calculation of the NAV. As a result, the NAV of a Fund's shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities or other instruments traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Exchange is closed and the market value may change on days when an investor is not able to purchase, redeem or exchange shares of a Fund.

Foreign currency contracts represent agreements to exchange currencies on specific future dates at predetermined rates. Foreign currency contracts are valued using foreign currency exchange rates and forward rates as provided by an independent pricing service on the Valuation Date.

Investments in open-end mutual funds, if any, are valued at the respective NAV of each open-end mutual fund on the Valuation Date. Shares of investment companies listed and traded on an exchange are valued in the same manner as any exchange-listed equity security. Such open-end mutual funds and listed investment companies may use fair value pricing as disclosed in their prospectuses.

Financial instruments for which prices are not available from an independent pricing service may be valued using market quotations obtained from one or more dealers that make markets in the respective financial instrument in accordance with the Valuation Procedures.

U.S. GAAP defines fair value as the price that a Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants. The U.S. GAAP fair value measurement standards require disclosure of a fair value hierarchy for each major category of assets and liabilities. Various inputs are used in determining the fair value of each Fund's investments. These inputs are summarized into three broad hierarchy levels. This hierarchy is based on whether the valuation inputs are observable or unobservable. These levels are:

- Level 1 – Quoted prices in active markets for identical investments. Level 1 may include exchange traded instruments, such as domestic equities, some foreign equities, options, futures, mutual funds, exchange traded funds, rights and warrants.
- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar investments; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. Level 2 may include debt investments that are traded less frequently than exchange traded instruments and which are valued using independent pricing services; foreign equities, which are principally traded on certain foreign markets and are adjusted daily pursuant to a fair value pricing service in order to reflect an adjustment for the factors occurring after the close of certain foreign markets but before the NYSE Close; senior floating rate interests, which are valued using an aggregate of dealer bids; short-term investments, which are valued at amortized cost; and swaps, which are valued based upon the terms of each swap contract.

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

- Level 3 – Significant unobservable inputs that are supported by limited or no market activity. Level 3 may include financial instruments whose values are determined using indicative market quotes or require significant management judgment or estimation. These unobservable valuation inputs may include estimates for current yields, maturity/duration, prepayment speed, and indicative market quotes for comparable investments along with other assumptions relating to credit quality, collateral value, complexity of the investment structure, general market conditions and liquidity. This category may include investments where trading has been halted or there are certain restrictions on trading. While these investments are priced using unobservable inputs, the valuation of these investments reflects the best available data and management believes the prices are a reasonable representation of exit price.

The Board of Directors has delegated the day-to-day responsibility for implementing the Valuation Procedures to the Valuation Committee. The Valuation Committee will consider all relevant factors in determining an investment's fair value, and may seek the advice of such Fund's sub-adviser(s), as applicable, knowledgeable brokers, and legal counsel in making such determination. The Valuation Committee reports to the Audit Committee of the Board of Directors.

Valuation levels are not necessarily indicative of the risk associated with investing in such investments. Individual investments within any of the above mentioned asset classes may be assigned a different hierarchical level than those presented above, as individual circumstances dictate.

For additional information, refer to the Fair Valuation Summary and the Level 3 roll-forward reconciliation, if applicable, which follows each Fund's Schedule of Investments.

- c) *Investment Transactions and Investment Income* – Investment transactions are recorded as of the trade date (the date the order to buy or sell is executed) for financial reporting purposes. Investments purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date. Realized gains and losses are determined on the basis of identified cost.

Dividend income from domestic securities is accrued on the ex-dividend date. In general, dividend income from foreign securities is recorded on the ex-date; however, dividend notifications in certain foreign jurisdictions may not be available in a timely manner and as a result, a Fund will record the dividend as soon as the relevant details (i.e., rate per share, payment date, shareholders of record, etc.) are publicly available.

Interest income, including amortization of premium, accretion of discounts and additional principal received in-kind in lieu of cash, is accrued on a daily basis.

Please refer to Note 8 for Securities Lending information.

- d) *Taxes* – A Fund may be subject to taxes imposed on realized gains on securities of certain foreign countries in which such Fund invests. A Fund may also be subject to taxes withheld on foreign dividends from securities in which the Fund invests. The amount of any foreign taxes withheld and foreign tax expense is included on the accompanying Statements of Operations as a reduction to net investment income or net realized or unrealized gain on investments in these securities, if applicable.
- e) *Foreign Currency Transactions* – Assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars at the exchange rates in effect on the Valuation Date. Purchases and sales of investments, income and expenses are translated into U.S. dollars at the exchange rates on the dates of such transactions.

A Fund does not isolate that portion of portfolio investment valuation resulting from fluctuations in the foreign currency exchange rates from the fluctuations arising from changes in the market prices of investments held. Exchange rate fluctuations are included with the net realized and unrealized gain or loss on investments in the accompanying financial statements.

Net realized foreign exchange gains or losses arise from sales of foreign currencies and the difference between asset and liability amounts initially stated in foreign currencies and the U.S. dollar value of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of other assets and liabilities at the end of the reporting period, resulting from changes in the exchange rates.

- f) *Joint Trading Account* – A Fund may invest cash balances into a joint trading account that may be invested in one or more repurchase agreements.
- g) *Fund Share Valuation and Dividend Distributions to Shareholders* – Orders for each class of each Fund's shares are executed in accordance with the investment instructions of the shareholders. The NAV of each class of each Fund's shares is determined as of the close of business on each business day of the Exchange (see Note 2(a)). The NAV is determined separately for each class of shares of a Fund by dividing the Fund's net assets attributable to that class by the number of shares of the class outstanding. Each class of shares offered by a Fund has equal rights as to assets and voting privileges (except that shareholders of a class have exclusive voting rights regarding any matter relating solely to that class of shares). Income and non-class specific expenses are allocated daily to each class on the basis of the relative net assets of the class of the Fund. Realized and unrealized gains and losses are allocated daily based on the relative net assets of each class of shares of each Fund.

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

Orders for the purchase of a Fund's shares received prior to the close of the Exchange on any day the Exchange is open for business are priced at the NAV determined as of the close of the Exchange. Orders received after the close of the Exchange, or on a day on which the Exchange and/or the Funds are not open for business, are priced at the next determined NAV.

Dividends are declared pursuant to a policy adopted by the respective Company's Board of Directors. Dividends and/or distributions to shareholders are recorded on ex-date. The policy of each Fund, except Dividend and Growth Fund and Equity Income Fund, is to pay dividends from net investment income and realized gains, if any, at least once a year. The policy of Dividend and Growth Fund and Equity Income Fund is to pay dividends from net investment income, if any, quarterly and realized gains, if any, at least once a year.

Income dividends and capital gains distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP with respect to character and timing (see Federal Income Taxes: Distributions and Components of Distributable Earnings and Reclassification of Capital Accounts notes).

### 3. Securities and Other Investments:

- a) *Restricted Securities* – Each Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if applicable, is included at the end of each Fund's Schedule of Investments.
- b) *Repurchase Agreements* – A repurchase agreement is an agreement between two parties whereby one party sells the other a security at a specified price with a commitment to repurchase the security later at an agreed-upon price, date and interest payment. Each Fund is permitted to enter into fully collateralized repurchase agreements. Each Company's Board of Directors has delegated to the sub-adviser the responsibility of evaluating the creditworthiness of the banks and securities dealers with which the Funds will engage in repurchase agreements. The sub-adviser will monitor such transactions to ensure that the value of underlying collateral will be at least equal to the total amount of the repurchase obligation as required by the valuation provision of the repurchase agreement, including the accrued interest. Repurchase agreements carry the risk that the market value of the securities declines below the repurchase price. A Fund could also lose money if it is unable to recover the securities and the value of any collateral held or assets segregated by the Fund to cover the transaction is less than the value of the securities. In the event the borrower commences bankruptcy proceedings, a court may characterize the transaction as a loan. If a Fund has not perfected a security interest in the underlying collateral, the Fund may be required to return the underlying collateral to the borrower's estate and be treated as an unsecured creditor. As an unsecured creditor, the Fund could lose some or all of the principal and interest involved in the transaction. See each Fund's Schedule of Investments, if applicable, for repurchase agreements as of October 31, 2020.

### 4. Financial Derivative Instruments:

The following disclosures contain information on how and why a Fund may use derivative instruments, the credit-risk-related contingent features in certain derivative instruments, and how derivative instruments affect a Fund's financial position and results of operations. The location and fair value amounts of these instruments on the Statements of Assets and Liabilities and the realized gains and losses and changes in unrealized gains and losses on the Statements of Operations, each categorized by type of derivative contract, are included in the following Additional Derivative Instrument Information footnote. The derivative instruments outstanding as of period-end are disclosed in the notes to the Schedules of Investments, if applicable. The amounts of realized gains and losses and changes in unrealized gains and losses on derivative instruments during the period are disclosed in the Statements of Operations.

- a) *Futures Contracts* – A Fund may enter into futures contracts. A futures contract is an agreement between two parties to buy or sell an asset at a set price on a future date. A Fund may use futures contracts to manage risk or obtain exposure to the investment markets, commodities, or movements in interest rates and currency values. The primary risks associated with the use of futures contracts are the imperfect correlation between the change in market value of the investments held by a Fund and the prices of futures contracts and the possibility of an illiquid market. Upon entering into a futures contract, a Fund is required to deposit with a futures commission merchant ("FCM") an amount of cash or U.S. Government or Agency Obligations in accordance with the initial margin requirements of the broker or exchange. Futures contracts are marked to market daily and an appropriate amount equal to the change in value ("variation margin") is paid or received by a Fund. Gains or losses are recognized but not considered realized until the contracts expire or are closed. Futures contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed on the Statements of Assets and Liabilities.

During the year ended October 31, 2020, each of Capital Appreciation Fund and Core Equity Fund had used futures contracts.

Derivative Description	Average Notional Par, Contracts or Face Amount
Futures Contracts Long at Number of Contracts	508

- c) **Balance Sheet Offsetting Information** – Set forth below are tables which disclose both gross information and net information about instruments and transactions eligible for offset in the financial statements, and instruments and transactions that are subject to a master netting arrangement, as well as amounts related to margin, reflected as financial collateral (including cash collateral), held at clearing brokers, counterparties and a Fund's custodian. The master netting arrangements allow the clearing brokers to net any collateral held in or on behalf of a Fund, or liabilities or payment obligations of the clearing brokers to a Fund, against any liabilities or payment obligations of a Fund to the clearing brokers. A Fund is required to deposit financial collateral (including cash collateral) at the Fund's custodian on behalf of clearing brokers and counterparties to continually meet the original and maintenance requirements established by the clearing brokers and counterparties. Such requirements are specific to the respective clearing broker or counterparty. Certain master netting arrangements may not be enforceable in a bankruptcy.

The following tables present a Fund's derivative assets and liabilities, presented on a gross basis as no amounts are netted within the Statements of Assets and Liabilities, by counterparty net of amounts available for offset under a master netting agreement or similar agreement ("MNA") and net of the related collateral received/pledged by a Fund as of October 31, 2020:

Derivatives not subject to a MNA	—	2,106,396
Total gross amount of assets and liabilities subject to MNA or similar agreements	\$ —	\$ —

## Core Equity Fund

### Derivative Financial Instruments:

	Assets	Liabilities
Futures contracts	\$ —	\$ (2,034,977)
Total gross amount of derivative assets and liabilities in the Statement of Assets and Liabilities	—	(2,034,977)
Derivatives not subject to a MNA	—	2,034,977
Total gross amount of assets and liabilities subject to MNA or similar agreements	\$ —	\$ —

## 5. Principal Risks:

A Fund's investments expose it to various types of risks associated with financial instruments and the markets. A Fund may be exposed to the risks described below. Each Fund's prospectus provides details of its principal risks.

The market values of equity securities, such as common stocks and preferred stocks, or equity related derivative investments, such as futures and options, may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of equity securities may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities and equity related investments generally have greater market price volatility than fixed income securities. The extent of each Fund's exposure to market risk is the market value of the investments held as shown in the Fund's Schedule of Investments.

A widespread health crisis, such as a global pandemic, could cause substantial market volatility, exchange trading suspensions or restrictions and closures of securities exchanges and businesses, impact the ability to complete redemptions, and adversely impact Fund performance. The current ongoing outbreak of COVID-19, a respiratory disease caused by a novel coronavirus, has negatively affected the worldwide economy, the financial health of individual companies and the market in significant and unforeseen ways. The future impact of the ongoing COVID-19 pandemic remains unclear. The effects to public health, business and market conditions resulting from COVID-19 pandemic may have a significant negative impact on the performance of a Fund's investments, including exacerbating other pre-existing political, social and economic risks.

Investing in the securities of non-U.S. issuers, whether directly or indirectly, involves certain considerations and risks not typically associated with securities of U.S. issuers. Such risks include, but are not limited to: generally less liquid and less efficient securities markets; generally greater price volatility; exchange rate fluctuations; imposition of restrictions on the expatriation of funds or other protectionist measures; less publicly available information about issuers; the imposition of withholding or other taxes; higher transaction and custody costs; settlement delays and risk of loss attendant in settlement procedures; difficulties in enforcing contractual obligations; less regulation of securities markets; different accounting, disclosure and reporting requirements; more substantial governmental involvement in the economy; higher inflation rates; and greater social, economic and political uncertainties. Non-U.S. issuers may also be affected by political, social, economic or diplomatic developments in a foreign country or region or the U.S. (including the imposition of sanctions, tariffs, or other governmental restrictions). These risks are heightened for investments in issuers from countries with less developed markets.

Securities lending involves the risk that a Fund may lose money because the borrower of the loaned securities fails to return the securities in a timely manner or at all. A Fund could also lose money in the event of a decline in the value of the collateral provided for the loaned securities or a decline in the value of any investments made with cash collateral. These events could also trigger adverse tax consequences for a Fund that lends its holdings.

### 6. Federal Income Taxes:

- Each Fund intends to continue to qualify as a Regulated Investment Company ("RIC") under Subchapter M of the Internal Revenue Code ("IRC") by distributing substantially all of its taxable net investment income and net realized capital gains to its shareholders each year. Each Fund has distributed substantially all of its income and capital gains in prior years, if applicable, and intends to distribute substantially all of its income and capital gains during the calendar year ending December 31, 2020. Accordingly, no provision for federal income or excise taxes has been made in the accompanying financial statements. Distributions from short-term capital gains are treated as ordinary income distributions for federal income tax purposes.
- Net Investment Income (Loss), Net Realized Gains (Losses) and Distributions* – Net investment income (loss) and net realized gains (losses) may differ for financial statement and tax purposes primarily because of losses deferred due to wash sale adjustments, foreign currency gains and losses, adjustments related to Passive Foreign Investment Companies ("PFICs"), Real Estate Investment Trusts ("REITs"), RICs, certain derivatives and partnerships. The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the year that the income or realized gains (losses) were recorded by each Fund.
- Distributions and Components of Distributable Earnings* – The tax character of distributions paid by each Fund for the years ended October 31, 2020 and October 31, 2019 are as follows:

Fund	For the Year Ended October 31, 2020		For the Year Ended October 31, 2019	
	Ordinary Income	Long-Term Capital Gains <sup>(1)</sup>	Ordinary Income	Long-Term Capital Gains <sup>(1)</sup>
Capital Appreciation Fund	\$ 36,050,954	\$ 304,034,945	\$ 448,614,710	\$ 622,931,313
Core Equity Fund	60,527,093	97,987,927	45,617,203	127,778,830
Dividend and Growth Fund	150,668,454	260,565,466	146,320,234	752,059,161
Equity Income Fund	71,168,447	255,909,247	86,893,501	297,035,762
Growth Opportunities Fund	—	301,835,007	345,928,919	723,799,792
Healthcare Fund	6,049,810	77,681,567	—	102,046,786
MidCap Fund	—	703,065,084	94,767,016	1,219,235,756
MidCap Value Fund	5,747,295	16,708,824	7,032,454	64,802,404
Quality Value Fund	4,852,723	5,832,576	9,562,429	8,736,476
Small Cap Growth Fund	—	15,398,605	57,817,003	163,570,299
Small Cap Value Fund	1,006,381	6,012,453	3,160,308	22,181,051
Small Company Fund	—	36,747,668	10,391,373	79,093,272

<sup>(1)</sup> The Funds designate these distributions as long-term capital gains pursuant to IRC Sec 852(b)(3)(c).

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

As of October 31, 2020, the components of total accumulated earnings (deficit) for each Fund on a tax basis are as follows:

Fund	Undistributed Ordinary Income	Undistributed Long-Term Capital Gain	Accumulated Capital and Other Losses	Other Temporary Differences	Unrealized Appreciation (Depreciation) on Investments	Total Accumulated Earnings (Deficit)
Capital Appreciation Fund	\$ 24,070,701	\$ 326,546,603	\$ —	\$ 9,602,392	\$ 939,928,136	\$ 1,300,147,832
Core Equity Fund	56,999,980	—	(47,413,004)	—	1,938,558,157	1,948,145,133

- d) *Reclassification of Capital Accounts* – The Funds may record reclassifications in their capital accounts. These reclassifications have no impact on the total net assets of the Funds. The reclassifications are a result of permanent differences between U.S. GAAP and tax accounting for such items as non-deductible expenses from partnership investments, earnings and profits distributed to shareholders on the redemption of shares, and adjustments to prior year accumulated balances. Adjustments are made to reflect the impact these items have on current and future distributions to shareholders. Therefore, the source of the Funds' distributions may be shown in the accompanying Statements of Changes in Net Assets as from distributable earnings or from capital depending on the type of book and tax differences that exist. For the year ended October 31, 2020, the Funds recorded reclassifications to increase (decrease) the accounts listed below:

Fund	Paid-in-Capital	Distributable Earnings (Loss)
Capital Appreciation Fund	\$ 9,532,180	\$ (9,532,180)
Growth Opportunities Fund	86,614,310	(86,614,310)
Healthcare Fund	12,205,933	(12,205,933)
MidCap Fund	237,049,819	(237,049,819)
Small Cap Growth Fund	14,155,033	(14,155,033)
Small Company Fund	454,449	(454,449)

- e) *Tax Basis of Investments* – The aggregate cost of investments for federal income tax purposes at October 31, 2020 is different from book purposes primarily due to wash sale loss deferrals, passive foreign investment company (PFIC) mark-to-market adjustments, partnership adjustments and non-taxable distributions from underlying investments. The net unrealized appreciation/(depreciation) on investments for tax purposes, which consists of gross unrealized appreciation and depreciation, was also different from book purposes primarily due to wash sale loss deferrals and mark-to-market adjustments on forwards, futures, PFICs, partnership adjustments and non-taxable distributions from underlying investments. Both the cost and unrealized appreciation and depreciation for federal income tax purposes are disclosed below:

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
Capital Appreciation Fund	\$ 5,403,671,679	\$ 1,168,573,541	\$ (228,576,468)	\$ 939,997,073
Core Equity Fund	6,548,350,994	2,125,464,384	(186,906,227)	1,938,558,157
Dividend and Growth Fund	6,985,688,383	2,453,606,892	(357,762,265)	2,095,844,627
Equity Income Fund	3,056,150,394	741,922,132	(139,585,240)	602,336,892
Growth Opportunities Fund	4,782,400,793	1,720,826,561	(145,435,341)	1,575,391,220
Healthcare Fund	1,207,711,422	384,163,147	(104,074,285)	280,088,862
MidCap Fund	11,371,491,876	2,576,986,139	(882,482,011)	1,694,504,128
MidCap Value Fund	591,079,202	50,669,382	(44,532,620)	6,136,762
Quality Value Fund	165,162,821	21,767,401	(17,594,872)	4,172,529
Small Cap Growth Fund	639,736,873	210,827,432	(41,820,078)	169,007,354
Small Cap Value Fund	88,173,994	8,093,917	(14,947,885)	(6,853,968)

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

- f) *Capital Loss Carryforward* – Under the Regulated Investment Company Modernization Act of 2010, funds are permitted to carry forward capital losses for an unlimited period. At October 31, 2020 (tax year end), each Fund's capital loss carryforwards for U.S. federal income tax purposes were as follows:

<u>Fund</u>	<u>Short-Term Capital Loss Carryforward with No Expiration</u>	<u>Long-Term Capital Loss Carryforward with No Expiration</u>
Core Equity Fund	\$47,413,004	\$ —
MidCap Value Fund	17,728,662	15,069,753
Quality Value Fund	2,509,529	—
Small Cap Value Fund	1,618,830	3,882,399

The Capital Appreciation Fund, Dividend and Growth Fund, Equity Income Fund, Growth Opportunities Fund, Healthcare Fund, MidCap Fund, Small Cap Growth Fund and Small Company Fund had no capital loss carryforwards for U.S. federal tax purposes as of October 31, 2020.

- g) *Accounting for Uncertainty in Income Taxes* – Pursuant to provisions set forth by U.S. GAAP, Hartford Funds Management Company, LLC ("HFMC") reviews each Fund's tax positions for all open tax years. As of October 31, 2020, HFMC had reviewed the open tax years and concluded that there was no reason to record a liability for net unrecognized tax obligations relating to uncertain income tax positions. Each Fund files U.S. tax returns. Although the statute of limitations for examining a Fund's U.S. tax returns remains open for 3 years, no examination is currently in progress. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense on the Statements of Operations. During the year ended October 31, 2020, the Funds did not incur any interest or penalties. HFMC is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax obligations will significantly change in the next twelve months.

## 7. Expenses:

- a) *Investment Management Agreement* – HFMC serves as each Fund's investment manager. Each Company, on behalf of its respective Funds, has entered into an Investment Management Agreement with HFMC. HFMC is an indirect subsidiary of The Hartford Financial Services Group, Inc. ("The Hartford"). HFMC has overall investment supervisory responsibility for each Fund. In addition, HFMC provides administrative personnel, services, equipment, facilities and office space for proper operation of each Fund. HFMC has contracted with Wellington Management Company LLP ("Wellington Management") under a sub-advisory agreement and Wellington Management performs the daily investment of the assets of each Fund in accordance with the Fund's investment objective and policies. HFMC pays a sub-advisory fee to Wellington Management out of its management fee.

The schedule below reflects the rates of compensation paid to HFMC for investment management services rendered as of October 31, 2020; the rates are accrued daily and paid monthly based on each Fund's average daily net assets, at the following annual rates:

<u>Fund</u>	<u>Management Fee Rates</u>
Capital Appreciation Fund	0.8000% on first \$500 million and; 0.7000% on next \$500 million and; 0.6500% on next \$4 billion and; 0.6475% on next \$5 billion and; 0.6450% over \$10 billion
Core Equity Fund	0.4500% on first \$500 million and; 0.3500% on next \$500 million and; 0.3300% on next \$1.5 billion and; 0.3250% on next \$2.5 billion and; 0.3225% over \$5 billion
Dividend and Growth Fund	0.7500% on first \$500 million and; 0.6500% on next \$500 million and; 0.6000% on next \$1.5 billion and; 0.5950% on next \$2.5 billion and; 0.5900% on next \$5 billion and; 0.5850% over \$10 billion
Equity Income Fund	0.7500% on first \$250 million and; 0.7000% on next \$250 million and; 0.6500% on next \$500 million and; 0.6000% on next \$1.5 billion and; 0.5900% on next \$2.5 billion and; 0.5875% over \$5 billion
Growth Opportunities Fund	0.8000% on first \$250 million and; 0.7000% on next \$4.75 billion and; 0.6975% on next \$5 billion and; 0.6950% over \$10 billion

0.6200% over \$10 billion

- b) *Accounting Services Agreement* – HFMC provides the Funds with accounting services pursuant to a fund accounting agreement by and between each Company, on behalf of its respective Funds, and HFMC. HFMC has delegated certain accounting and administrative service functions to State Street Bank and Trust Company ("State Street"). In consideration of services rendered and expenses assumed pursuant to the fund accounting agreement, each Fund pays HFMC a fee. Effective January 1, 2020, the fund accounting agreement with respect to each Fund was modified to reflect a new fee structure. Under this revised fee structure, HFMC is entitled to receive the following fee with respect to each Fund: the sub-accounting fee payable by HFMC to State Street plus the amount of expenses that HFMC allocates for providing the fund accounting services.

From November 1, 2019 through December 31, 2019, the accounting services fees for each Fund were accrued daily and paid monthly at the rates below:

Capital Appreciation Fund, Growth Opportunities Fund and Small Company Fund	
Average Daily Net Assets	Annual Fees
first \$3.5 billion and;	0.022%
next \$3.5 billion and	0.018%
Amount over \$7 billion	0.015%

first \$3.5 billion and;	0.018%
next \$3.5 billion and	0.014%
Amount over \$7 billion	0.010%

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

- c) *Operating Expenses* – Allocable expenses incurred by each Company are allocated to each series within such Company, and allocated to classes within each such series, in proportion to the average daily net assets of such series and classes, except where allocation of certain expenses is more fairly made directly to a Fund or to specific classes within a Fund. As of October 31, 2020, HFMC contractually agreed to limit the total annual fund operating expenses (exclusive of taxes, interest expenses, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses), through February 28, 2021 (unless the applicable Board of Directors approves its earlier termination) as follows for each of the following Funds:

Fund	Expense Limit as a Percentage of Average Daily Net Assets								
	Class A	Class C	Class I	Class R3	Class R4	Class R5	Class R6	Class Y	Class F
Quality Value Fund	0.96%	1.71%	0.66%	1.18%	0.88%	0.63%	0.46%	0.57%	0.46%
Small Cap Value Fund	1.30%	2.05%	1.00%	1.50%	1.20%	0.90%	0.80%	0.85%	0.80%
Small Company Fund	1.40%	2.15%	1.15%	1.55%	1.25%	0.95%	0.90%	0.95%	0.90%

- d) *Fees Paid Indirectly* – Certain Funds have entered into agreements with State Street Global Markets, LLC and Russell Implementation Services, Inc. to partially recapture non-discounted trade commissions. Such rebates are used to pay a portion of a Fund's expenses. For the year ended October 31, 2020, these amounts, if any, are included in the Statements of Operations.

The ratio of expenses to average net assets in the accompanying financial highlights excludes the reduction in expenses related to fees paid indirectly. The annualized expense ratio after waivers reflecting the reduction for fees paid indirectly for the period is as follows:

Fund	Class A	Class C	Class I	Class R3	Class R4	Class R5	Class R6	Class Y	Class F
Capital Appreciation Fund	1.07%	1.85%	0.79%	1.42%	1.10%	0.81%	0.70%	0.75%	0.70%
Core Equity Fund	0.72%	1.47%	0.46%	1.07%	0.73%	0.47%	0.38%	0.45%	0.37%
Dividend and Growth Fund	1.00%	1.78%	0.73%	1.35%	1.05%	0.74%	0.65%	0.68%	0.64%
Equity Income Fund	1.00%	1.76%	0.74%	1.36%	1.05%	0.77%	0.66%	0.71%	0.66%
Growth Opportunities Fund	1.09%	1.85%	0.83%	1.43%	1.13%	0.84%	0.74%	0.78%	0.74%
Healthcare Fund	1.27%	2.04%	0.99%	1.61%	1.30%	1.01%	0.90%	0.95%	0.90%
MidCap Fund	1.11%	1.87%	0.86%	1.46%	1.14%	0.84%	0.75%	0.78%	0.75%
MidCap Value Fund	1.25%	2.03%	0.91%	1.53%	1.23%	0.91%	N/A	0.87%	0.81%
Quality Value Fund	0.91%	1.71%	0.56%	1.16%	0.87%	0.57%	0.46%	0.57%	0.46%
Small Cap Growth Fund	1.25%	1.90%	0.85%	1.49%	1.19%	0.89%	0.78%	0.81%	0.77%
Small Cap Value Fund	1.29%	2.04%	0.92%	1.42%	1.20%	0.90%	0.80%	0.85%	0.80%
Small Company Fund	1.31%	2.14%	1.00%	1.55%	1.25%	0.95%	0.90%	0.95%	0.89%

- e) *Sales Charges and Distribution and Service Plan for Class A, T, C, R3 and R4 Shares* – Hartford Funds Distributors, LLC (“HFD”), an indirect subsidiary of The Hartford, is the principal underwriter and distributor of each Fund. For the year ended October 31, 2020, HFD received front-end sales charges and contingent deferred sales charges for each Fund as follows:

Fund	Front-end Sales Charges	Contingent Deferred Sales Charges
Capital Appreciation Fund	\$ 1,729,715	\$ 27,965
Core Equity Fund	3,212,696	116,581
Dividend and Growth Fund	2,917,342	33,887
Equity Income Fund	1,207,281	18,968
Growth Opportunities Fund	2,468,903	26,140
Healthcare Fund	689,627	4,898
MidCap Fund	2,625,224	53,614
MidCap Value Fund	418,533	3,872
Quality Value Fund	79,640	1,649
Small Cap Growth Fund	44,357	1
Small Cap Value Fund	31,353	2,138
Small Company Fund	443,000	2,436

The Board of Directors of each Company has approved the adoption of a separate distribution plan (each a “Plan”) pursuant to Rule 12b-1 under the 1940 Act for each of Class A, T, C, R3 and R4 shares. Under a Plan, Class A, Class T, Class C, Class R3 and Class R4 shares of a Fund, as applicable, bear distribution and/or service fees paid to HFD, some or all of which may be paid to select broker-dealers. Pursuant to the Class A Plan, a Fund may pay HFD a fee of up to 0.25% of the average daily net assets attributable to Class A shares for distribution financing activities and shareholder account servicing activities. The entire amount of the fee may be used for shareholder servicing expenses and/or distribution expenses. Pursuant to the Class T Plan, a Fund may pay HFD a fee of up to 0.25% of the average daily net assets attributable to Class T shares for distribution financing activities and shareholder account servicing activities. The entire amount of the fee may be used for shareholder servicing expenses and/or distribution expenses. As of October 31, 2020, Class T shares have not commenced operations. Pursuant to the Class C Plan, a Fund may pay HFD a fee of up to 1.00% of the average daily net assets attributable to Class C shares for distribution financing activities, and up to 0.25% may be used for shareholder account servicing activities. The Class C Plan also provides that HFD will receive all contingent deferred sales charges attributable to Class C shares. Pursuant to the Class R3 Plan, a Fund may pay HFD a fee of up to 0.50% of the average daily net assets attributable to Class R3 shares for distribution financing activities,

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

and up to 0.25% may be used for shareholder account servicing activities. Pursuant to the Class R4 Plan, a Fund may pay HFD a fee of up to 0.25% of the average daily net assets attributable to Class R4 shares for distribution financing activities. The entire amount of the fee may be used for shareholder account servicing activities. Each Fund's 12b-1 fees are accrued daily and paid monthly or at such other intervals as the respective Company's Board of Directors may determine. Any 12b-1 fees attributable to assets held in an account held directly with the Funds' transfer agent for which there is not a third-party listed as the broker-dealer of record (or HFD does not otherwise have a payment obligation) are generally reimbursed to the applicable Fund. Such amounts are reflected as "Distribution fee reimbursements" on the Statements of Operations.

- f) *Other Related Party Transactions* – Certain officers of each Company are directors and/or officers of HFMC and/or The Hartford or its subsidiaries. For the year ended October 31, 2020, a portion of each Company's Chief Compliance Officer's ("CCO") compensation was paid by all of the investment companies in the Hartford fund complex. The portion allocated to each Fund, as represented in other expenses on the Statements of Operations, is outlined in the table below.

<u>Fund</u>	<u>CCO Compensation Paid by Fund</u>
Capital Appreciation Fund	\$ 14,700
Core Equity Fund	17,080
Dividend and Growth Fund	20,537
Equity Income Fund	8,655
Growth Opportunities Fund	12,251
Healthcare Fund	3,260
MidCap Fund	31,299
MidCap Value Fund	1,448
Quality Value Fund	411
Small Cap Growth Fund	2,131
Small Cap Value Fund	184
Small Company Fund	1,481

Hartford Administrative Services Company ("HASCO"), an indirect subsidiary of The Hartford, provides transfer agent services to each Fund. Each Fund pays HASCO a transfer agency fee payable monthly based on the lesser of (i) the costs of providing or overseeing transfer agency services provided to each share class of such Fund plus a target profit margin or (ii) a Specified Amount (as defined in the table below). Such fee is intended to compensate HASCO for: (i) fees payable by HASCO to DST Asset Manager Solutions, Inc. ("DST") (and any other designated sub-agent) according to the agreed-upon fee schedule under the sub-transfer agency agreement between HASCO and DST (or between HASCO and any other designated sub-agent, as applicable); (ii) sub-transfer agency fees payable by HASCO to financial intermediaries, according to the agreed-upon terms between HASCO and the financial intermediaries, provided that such payments are within certain limits approved by the applicable Company's Board of Directors; (iii) certain expenses that HASCO's parent company, Hartford Funds Management Group, Inc., allocates to HASCO that relate to HASCO's transfer agency services provided to the Fund; and (iv) a target profit margin.

<u>Share Class</u>	<u>Specified Amount (as a percentage average daily net assets)</u>
Class A	0.25%
Class C	0.25%
Class I	0.20%
Class Y	0.11%
Class R3	0.22%
Class R4	0.17%
Class R5	0.12%
Class R6	0.004%
Class F	0.004%

Effective February 28, 2020, HASCO has contractually agreed to waive and/or reimburse a portion of the transfer agency fees for the share classes of the Funds listed below to the extent necessary to limit the transfer agency fees as follows through February 28, 2021, unless the applicable Board of Directors approve its earlier termination:

<u>Fund</u>	<u>Class I</u>	<u>Class Y</u>
Capital Appreciation Fund	N/A	0.06%
Core Equity Fund	N/A	0.08%
Dividend and Growth Fund	N/A	0.04%
Equity Income Fund	N/A	0.06%
Growth Opportunities Fund	N/A	0.04%
Healthcare Fund	N/A	0.05%
MidCap Fund	0.12%	0.04%
MidCap Value Fund	N/A	0.07%
Small Cap Growth Fund	N/A	0.04%

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

From November 1, 2019 through February 27, 2020, HASCO contractually agreed to waive and/or reimburse a portion of the transfer agency fees for the share classes of the Funds listed below to the extent necessary to limit the transfer agency fees as follows:

Fund	Class I	Class Y
Capital Appreciation Fund	N/A	0.04%
Core Equity Fund	N/A	0.06%
Dividend and Growth Fund	N/A	0.05%
Equity Income Fund	N/A	0.05%
Growth Opportunities Fund	N/A	0.05%
Healthcare Fund	N/A	0.06%
MidCap Fund	0.12%	0.04%
MidCap Value Fund	N/A	0.05%
Small Cap Growth Fund	N/A	0.04%

Pursuant to a sub-transfer agency agreement between HASCO and DST, HASCO has delegated certain transfer agent, dividend disbursing agent and shareholder servicing agent functions to DST. Each Fund does not pay any fee directly to DST; rather, HASCO makes all such payments to DST. The accrued amount shown in the Statements of Operations reflects the amounts charged by HASCO. These fees are accrued daily and paid monthly.

For the year ended October 31, 2020, the effective rate of compensation paid to HASCO for transfer agency services as a percentage of each Class' average daily net assets is as follows:

Fund	Class A	Class C	Class I	Class R3	Class R4	Class R5	Class R6	Class Y	Class F
Capital Appreciation Fund	0.12%	0.15%	0.09%	0.22%	0.15%	0.11%	0.00%*	0.05%	0.00%*
Core Equity Fund	0.10%	0.09%	0.09%	0.20%	0.16%	0.10%	0.00%*	0.08%	0.00%*
Dividend and Growth Fund	0.11%	0.14%	0.09%	0.21%	0.16%	0.10%	0.00%*	0.04%	0.00%*
Equity Income Fund	0.10%	0.10%	0.09%	0.20%	0.15%	0.11%	0.00%*	0.06%	0.00%*

## 8. Securities Lending:

Each Company has entered into a securities lending agency agreement ("lending agreement") with Citibank, N.A. ("Citibank"). A Fund may lend portfolio securities to certain borrowers in U.S. and non-U.S. markets in an amount not to exceed one-third (33 1/3%) of the value of its total assets. If a Fund security is on loan, under the lending agreement, the borrower is required to deposit cash or liquid securities as collateral at least equal to 100% of the market value of the loaned securities; and cash collateral is invested for the benefit of the Fund by the Fund's lending agent pursuant to collateral investment guidelines. The collateral is marked to market daily, in an amount at least equal to the current market value of the securities loaned.

A Fund is subject to certain risks while its securities are on loan, including the following: (i) the risk that the borrower defaults on the loan and the collateral is inadequate to cover the Fund's loss; (ii) the risk that the earnings on the collateral invested are not sufficient to pay fees incurred in connection with the loan; (iii) the Fund could lose money in the event of a decline in the value of the collateral provided for loaned securities or a decline in the value of any investments made with cash collateral; (iv) the risk that the borrower may use the loaned securities to cover a short sale, which may in turn place downward pressure on the market prices of the loaned securities; (v) the risk that return of loaned securities could be delayed and interfere with portfolio management decisions; and (vi) the risk that any efforts to restrict or recall the securities for purposes of voting may not be effective. These events could also trigger adverse tax consequences for the Fund.

The Funds retain loan fees and the interest on cash collateral investments but are required to pay the borrower a rebate for the use of cash collateral. In cases where the lent security is of high value to borrowers, there may be a negative rebate (i.e., a net payment from the borrower to the Funds). Upon termination of a loan, the Funds are required to return to the borrower an amount equal to the cash collateral, plus any rebate owed to the borrowers.

The net income earned on the securities lending (after payment of rebates and Citibank's fee) is included on the Statements of Operations as Investment Income from securities lending. The Funds also receive payments from the borrower during the period of the loan, equivalent to dividends and interest earned on the securities loaned, which are recorded as Investment Income from dividends or interest, respectively, on the Statements of Operations.

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

The following table presents the market value of the Funds' securities on loan, net of amounts available for offset under the master netting arrangements and any related collateral received by the Funds as of October 31, 2020.

Fund	Investment Securities on Loan, at market value, Presented on the Statements of Assets and Liabilities <sup>(1)</sup>	Collateral Posted by Borrower <sup>(2)</sup>	Net Amount <sup>(3)</sup>
Capital Appreciation Fund	\$ 12,892,695	\$ (12,892,695)	\$ —
Core Equity Fund	—	—	—
Dividend and Growth Fund	—	—	—
Equity Income Fund	—	—	—
Growth Opportunities Fund	36,965,203	(36,965,203)	—
Healthcare Fund	13,609,564	(13,609,564)	—
MidCap Fund	109,657,728	(109,657,728)	—
MidCap Value Fund	—	—	—
Quality Value Fund	—	—	—
Small Cap Growth Fund	10,469,863	(10,469,863)	—
Small Cap Value Fund	1,790,215	(1,790,215)	—
Small Company Fund	22,999,926	(22,999,926)	—

<sup>(1)</sup> It is each Fund's policy to obtain additional collateral from, or return excess collateral to, the borrower by the end of the next business day following the valuation date of the securities loaned. Therefore, the value of the collateral held may be temporarily less than that required under the lending contract.

<sup>(2)</sup> Collateral received in excess of the market value of securities on loan is not presented in this table.

<sup>(3)</sup> Net amount represents the net amount receivable due from the counterparty in the event of default.

The total cash and non-cash collateral received by each Fund in connection with securities lending transactions is presented below:

Fund	Cash Collateral	Non-Cash Collateral
Capital Appreciation Fund	\$ 14,005,385	\$ —
Core Equity Fund	—	—
Dividend and Growth Fund	—	—
Equity Income Fund	—	—
Growth Opportunities Fund	28,236,824	13,183,144
Healthcare Fund	14,201,882	—

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

As of October 31, 2020, affiliated funds of funds and certain 529 plans for which HFMC serves as the program manager (the “529 plans”) in the aggregate owned a portion of the Funds identified below. Therefore, these Funds may experience relatively large purchases or redemptions of their shares from these affiliated funds of funds and the 529 plans. Affiliated funds of funds and the 529 plans owned shares in the Funds listed below as follows:

Funds	Percentage of Fund*
Capital Appreciation Fund	8%
Core Equity Fund	4%
Dividend and Growth Fund	9%
Equity Income Fund	7%
Growth Opportunities Fund	2%
MidCap Fund	1%
MidCap Value Fund	2%
Small Cap Growth Fund	5%
Small Cap Value Fund	45%
Small Company Fund	8%

\* As of October 31, 2020, affiliated funds of funds and the 529 plans invest in Class F shares.

### 11. Affiliated Security Transactions:

If a Fund owns 5% or more of the outstanding voting securities, either directly or indirectly, of a particular issuer, the 1940 Act deems such an issuer to be an “affiliate” of the Fund. As of and during the year ended October 31, 2020, the MidCap Fund and Small Company Fund owned 5% or more of the outstanding voting securities of the issuers identified in the tables below.

A summary of affiliate transactions for the MidCap Fund and Small Company Fund for the year ended October 31, 2020 is as follows:

Affiliated Investments	Beginning Value as of November 1, 2019	Purchases at Cost	Proceeds from Sales	Net Realized Gain/ (Loss) on Sales	Change in Unrealized Appreciation/ (Depreciation)	Ending Value as of October 31, 2020	Shares as of October 31, 2020	Dividend Income
<b>MidCap Fund</b>

## 14. Line of Credit:

Each Fund participates in a committed line of credit pursuant to a credit agreement dated March 5, 2020. Each Fund may borrow under the line of credit for temporary or emergency purposes. The Funds (together with certain other Hartford Funds) may borrow up to \$350 million in the aggregate, subject to asset coverage and other limitations specified in the credit agreement. The interest rate on borrowings varies depending on the nature of the loan. The facility also charges a commitment fee, which is allocated ratably by assets based on a Fund's actual net assets if the Fund has total assets of less than or equal to \$1.05 billion and for all other participating funds, based on the notional asset level of \$1.05 billion. During and as of the year ended October 31, 2020, none of the Funds had borrowings under this facility.

# Hartford Domestic Equity Funds

## Notes to Financial Statements – (continued)

October 31, 2020

### 15. Indemnifications:

Under each Company's organizational documents, the Company shall indemnify its officers and directors to the full extent required or permitted under Maryland General Corporation Law and federal securities laws. In addition, each Company, on behalf of its respective Funds, may enter into contracts that contain a variety of indemnifications. Each Company's maximum exposure under these arrangements is unknown. However, as of the date of these financial statements, each Company has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

### 16. Recent Accounting Pronouncement:

In August 2018, the FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). The update introduces new fair value disclosure requirements, eliminates some prior fair value disclosure requirements, and modifies certain existing fair value disclosure requirements.

ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 and for interim periods within those fiscal years. Management has adopted this guidance and it did not have a material impact on the Funds' financial statements.

### 17. Change in Independent Registered Public Accounting Firm:

On November 6, 2019, the Companies, on behalf of their respective Funds, dismissed Ernst & Young LLP ("EY") as the Funds' independent registered public accounting firm effective upon the issuance of EY's report on the Funds' financial statements as of and for the fiscal year ended October 31, 2019. EY's report on the Funds' financial statements for the fiscal years October 31, 2018 and October 31, 2019 contained no adverse opinion or disclaimer of opinion nor was EY's report qualified or modified as to uncertainty, audit scope or accounting principles. During the Funds' fiscal periods ended on October 31, 2018 and October 31, 2019 and through December 30, 2019 (the "Covered Period"), (i) there were no disagreements with EY on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of EY, would have caused it to make reference to the subject matter of the disagreements in connection with its reports on the Funds' financial statements for the Covered Period, and (ii) there were no "reportable events" of the kind described in Item 304(a)(1)(v) of Regulation S-K under the Securities Exchange Act of 1934, as amended.

On November 6, 2019, the Audit Committee of each Company's Board of Directors participated in and approved the decision to engage PricewaterhouseCoopers LLP ("PwC") as the independent registered public accounting firm for the Funds for the fiscal year ended October 31, 2020. The selection of PwC does not reflect any disagreements with or dissatisfaction by each Company or the Board of Directors with the performance of the Funds' prior independent registered public accounting firm, EY. During the Covered Period, neither the Funds, nor anyone on their behalf, consulted with PwC on items which: (i) concerned the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Funds' financial statements; or (ii) concerned the subject of a disagreement (as defined in paragraph (a)(1)(iv) of Item 304 of Regulation S-K) or reportable events (as described in paragraph (a)(1)(v) of Item 304 of Regulation S-K).

### 18. Subsequent Events:

In connection with the preparation of the financial statements of the Funds as of and for the year ended October 31, 2020, events and transactions subsequent to October 31, 2020, through the date the financial statements were issued have been evaluated by the Funds' management for possible adjustment and/or disclosure.

# Report of Independent Registered Public Accounting Firm

*To the Board of Directors of*

*The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. and Shareholders of The Hartford Capital Appreciation Fund, Hartford Core Equity Fund, The Hartford Dividend and Growth Fund, The Hartford Equity Income Fund, The Hartford Growth Opportunities Fund, The Hartford Healthcare Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund, Hartford Quality Value Fund, The Hartford Small Cap Growth Fund, Hartford Small Cap Value Fund and The Hartford Small Company Fund*

## Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of The Hartford Capital Appreciation Fund, Hartford Core Equity Fund, The Hartford Dividend and Growth Fund, The Hartford Equity Income Fund, The Hartford Healthcare Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund, Hartford Small Cap Value Fund and The Hartford Small Company Fund (nine of the funds constituting The Hartford Mutual Funds, Inc.) and The Hartford Growth Opportunities Fund, Hartford Quality Value Fund and The Hartford Small Cap Growth Fund (three of the funds constituting The Hartford Mutual Funds II, Inc.) (hereafter collectively referred to as the "Funds") as of October 31, 2020, the related statements of operations for the year ended October 31, 2020, the statements of changes in net assets for the year ended October 31, 2020, including the related notes, and the financial highlights for the year ended October 31, 2020 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2020, the results of each of their operations, the changes in each of their net assets, and each of the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The financial statements of the Funds as of and for the year ended October 31, 2019 and the financial highlights for each of the periods ended on or prior to October 31, 2019 (not presented herein, other than the statements of changes in net assets and financial highlights) were audited by other auditors whose report dated December 30, 2019 expressed an unqualified opinion on those financial statements and financial highlights.

## Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2020 by correspondence with the custodian, transfer agents and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

/s/ PricewaterhouseCoopers LLP  
Philadelphia, Pennsylvania  
December 29, 2020

We have served as the auditor of one or more Hartford Funds investment companies since 2020.

# Hartford Domestic Equity Funds

## *Operation of the Liquidity Risk Management Program (Unaudited)*

This section describes the operation and effectiveness of the Liquidity Risk Management Program ("LRM Program") established in accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended (the "Liquidity Rule"). The LRM Program seeks to assess and manage each Fund's liquidity risk. The Liquidity Rule generally defines liquidity risk as the risk that a Fund could not meet its obligation to redeem shares without significant dilution of the non-redeeming investors' interests in the Fund. The Boards of Directors ("Board") of The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. has appointed Hartford Funds Management Company, LLC ("HFMC") to serve as the administrator of the LRM Program with respect to each of the Funds, subject to the oversight of the Board. In order to efficiently and effectively administer the LRM Program, HFMC established a Liquidity Risk Oversight Committee.

The LRM Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the assessment and periodic review (no less frequently than annually) of certain factors that influence each Fund's liquidity risk; (2) the classification and periodic review (no less frequently than monthly) of each Fund's investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of "illiquid investments" (as defined under the Liquidity Rule); (4) the determination of a minimum percentage of each Fund's assets that generally will be invested in highly liquid investments ("HLIM"); (5) the periodic review (no less frequently than annually) of the HLIM and the adoption and implementation of policies and procedures for responding to a shortfall of a Fund's highly liquid investments below its HLIM; and (6) periodic reporting to the Board.

At a meeting of the Board held May 5-6, 2020, HFMC provided an annual written report to the Board covering the period from the inception date of the current LRM Program through April 30, 2020. The annual report addressed important aspects of the LRM Program, including, but not limited to:

- the operation of the LRM Program (and related policies and procedures utilized in connection with management of the Funds' liquidity risk);
- an assessment of the adequacy and effectiveness of the LRM Program's (and related policies and procedures') implementation;
- the operation, and assessment of the adequacy and effectiveness, of each Fund's HLIM;
- whether the third-party liquidity vendor's ("LRM Program Vendor") processes for determining preliminary liquidity classifications, including the particular methodologies or factors used and metrics analyzed by the LRM Program Vendor, are sufficient under the Liquidity Rule and appropriate in light of each Fund's specific circumstances; and
- any material changes to the LRM Program.

In addition, HFMC provides a quarterly report on the LRM Program at each quarterly meeting of the Board's Compliance and Risk Oversight Committee. The quarterly report included information regarding the Funds' liquidity as measured by established parameters, a summary of developments within the capital markets that may impact liquidity, and other factors that may impact liquidity. Among other things, HFMC reports any changes to a Fund's HLIM.

Since the inception of the LRM Program, HFMC has not increased nor reduced the HLIM for any Fund.

Based on its review and assessment, HFMC has concluded that the LRM Program is operating effectively to assess and manage the liquidity risk of each Fund and that the LRM Program has been and continues to be adequately and effectively implemented with respect to each Fund. Because liquidity in the capital markets in which the Funds invest is beyond the control of the Funds, there can be no assurance that the LRM Program will ensure liquidity under all circumstances and does not protect against the risk of loss.

# Hartford Domestic Equity Funds

## Directors and Officers of each Company (Unaudited)

Each of The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. (each, a "Company") is governed by a Board of Directors (the "Directors"). The following tables present certain information regarding the Directors and officers of each Company as of October 31, 2020. For more information regarding the Directors and officers, please refer to the Statement of Additional Information, which is available, without charge, upon request by calling 1-888-843-7824.

- \* Following their election by shareholders, the following persons become Directors effective November 2, 2020:
- Derrick D. Cephas* – Until his retirement in October 2020, Mr. Cephas was a Partner of Weil, Gotshal & Manges LLP, an international law firm headquartered in New York, where he served as the Head of the Financial Institutions Practice (April 2011 to October 2020). Mr. Cephas serves as a Director of Signature Bank, a New York-based commercial bank, and is a member of the Credit Committee, Examining Committee and Risk Committee (March 2016 to present).
- Andrew A. Johnson* – Mr. Johnson currently serves as a Diversity and Inclusion Advisor at Neuberger Berman, a private, global investment management firm. Prior to his current role, Mr. Johnson served as Chief Investment Officer and Head of Global Investment Grade Fixed Income at Neuberger Berman (January 2009 to December 2018).
- Paul L. Rosenberg* – Mr. Rosenberg is a Partner of The Bridgespan Group, a global nonprofit consulting firm that is a social impact advisor to nonprofits, non-governmental organizations, philanthropists and institutional investors (October 2007 to present).
- (1) The address for each officer and Director is c/o Hartford Funds 690 Lee Road, Wayne, Pennsylvania 19087.
- (2) Each Director holds an indefinite term until his or her retirement, resignation, removal, or death. Directors generally must retire no later than December 31 of the year in which the Director turns 75 years of age. Each Fund officer generally serves until his or her resignation, removal, or death.
- (3) The portfolios of the “Fund Complex” are operational series of The Hartford Mutual Funds, Inc., The Hartford Mutual Funds II, Inc., Hartford Series Fund, Inc., Hartford HLS Series Fund II, Inc., Lattice Strategies Trust, Hartford Funds Exchange-Traded Trust, and Hartford Schroders Opportunistic Income Fund.
- (4) Effective December 31, 2020, Mr. Hill will retire from the Board of Directors.
- (5) For The Hartford Mutual Funds, Inc.
- (6) For The Hartford Mutual Funds II, Inc.
- (7) “Interested person,” as defined in the 1940 Act, of each Company because of the person’s affiliation with, or equity ownership of, HFMC, HFD or affiliated companies.

### **HOW TO OBTAIN A COPY OF EACH FUND'S PROXY VOTING POLICIES AND VOTING RECORDS (UNAUDITED)**

A description of the policies and procedures that each Fund uses to determine how to vote proxies relating to portfolio securities and information about how each Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 are available (1) without charge, upon request, by calling 888-843-7824 and (2) on the SEC's website at <http://www.sec.gov>.

### **QUARTERLY PORTFOLIO HOLDINGS INFORMATION (UNAUDITED)**

Each Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Each Fund's Form N-PORT reports are available (1) without charge, upon request, by calling 888-843-7824, (2) on the Funds' website, [hartfordfunds.com](http://hartfordfunds.com), and (3) on the SEC's website at <http://www.sec.gov>.

**The Hartford Small Cap Growth Fund**  
**Hartford Small Cap Value Fund**  
**The Hartford Small Company Fund**

(each, a “Fund” and collectively, the “Funds”)

Section 15(c) of the Investment Company Act of 1940, as amended (the “1940 Act”), requires that each mutual fund’s board of directors, including a majority of those directors who are not “interested persons” of the mutual fund, as defined in the 1940 Act (the “Independent Directors”), annually review and consider the continuation of the mutual fund’s investment advisory and sub-advisory agreements. At their meeting held on August 4-5, 2020, the Boards of Directors (collectively, the “Board”) of The Hartford Mutual Funds, Inc. (“HMF”) and The Hartford Mutual Funds II, Inc. (“HMF II”), including each of the Independent Directors, unanimously voted to approve (i) the continuation of an investment management agreement by and between Hartford Funds Management Company, LLC (“HFMC”) and each of HMF, on behalf of each of The Hartford Capital Appreciation Fund, Hartford Core Equity Fund, The Hartford Dividend and Growth Fund, The Hartford Equity Income Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund and Hartford Small Cap Value Fund, and HMF II, on behalf of each of The Hartford Growth Opportunities Fund, Hartford Quality Value Fund and The Hartford Small Cap Growth Fund (the “Management Agreement”); (ii) the continuation of a separate investment management agreement by and between HFMC and HMF, on behalf of each of The Hartford Healthcare Fund and The Hartford Small Company Fund (the “2013 Investment Management Agreement” and together with the Management Agreement, the “Management Agreements”); and (iii) the continuation of investment sub-advisory agreements (each, a “Sub-Advisory Agreement” and collectively with the Management Agreements, the “Agreements”) between HFMC and each Fund’s sub-adviser, Wellington Management Company LLP (the “Sub-adviser,” and together with HFMC, the “Advisers”) with respect to each Fund.

In the months preceding the August 4-5, 2020 meeting, the Board requested and reviewed written responses from the Advisers to questions posed to the Advisers on behalf of the Independent Directors and supporting materials relating to those questions and responses. In addition, the Board considered such additional information as it deemed reasonably necessary to evaluate the Agreements, as applicable, with respect to each Fund, which included information furnished to the Board and its committees at their meetings throughout the year and in between regularly scheduled meetings on particular matters as the need arose, as well as information specifically prepared in connection with the approval of the continuation of the Agreements that was presented at the Board’s meetings held on June 16-17, 2020 and August 4-5, 2020. Information provided to the Board and its committees at their meetings throughout the year included, among other things, reports on Fund performance, legal, compliance and risk management matters, sales and marketing activity, shareholder services, and the other services provided to each Fund by the Advisers and their affiliates. The members of the Board also considered the materials and presentations by Fund officers and representatives of HFMC received at the Board’s meetings on June 16-17, 2020 and August 4-5, 2020 concerning the Agreements and at the special meeting of the Board’s Investment Committee on May 12, 2020 concerning Fund performance and other investment-related matters.

The Independent Directors, advised by independent legal counsel throughout the evaluation process, engaged service providers to assist them with evaluating the Agreements with respect to each Fund, as applicable. Broadridge Financial Solutions, Inc. (“Broadridge”), an independent provider of investment company data, was retained to provide the Board with reports on how each Fund’s contractual management fees, actual management fees, overall expense ratios and investment performance compared to those of comparable mutual funds with similar investment objectives. The Independent Directors also engaged an independent financial services consultant (the “Consultant”) to assist them in evaluating each Fund’s contractual management fees, actual management fees, overall expense ratios and investment performance. In addition, the Consultant reviewed the profitability methodologies utilized by HFMC in connection with the continuation of the Management Agreements.

In determining whether to approve the continuation of the Agreements for a Fund, the members of the Board reviewed and evaluated information and factors they believed to be relevant and appropriate through the exercise of their reasonable business judgment. While individual members of the Board may have weighed certain factors differently, the Board’s determination to approve the continuation of the Agreements was based on a comprehensive consideration of all information provided to the Board throughout the year and specifically with respect to the continuation of the Agreements. The Board was also furnished with an analysis of its fiduciary obligations in connection with its evaluation of the Agreements. Throughout the evaluation process, the Board was assisted by counsel for the Funds. The Independent Directors were also separately assisted by independent legal counsel throughout the evaluation process. In connection with their deliberations, the Independent Directors met separately with independent

## Hartford Domestic Equity Funds

### *Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)*

legal counsel and the Consultant on June 12, 2020 and in executive session on several occasions to consider their responsibilities under relevant laws and regulations and to discuss the materials presented and other matters deemed relevant to their consideration of the approval of the continuation of the Agreements. As a result of the discussions that occurred during the June 12, 2020 and June 16-17, 2020 meetings, the Independent Directors presented HFMC with requests for additional information on certain topics. HFMC responded to these requests with written additional information in advance of the August 4-5, 2020 meeting. A more detailed summary of the important, but not necessarily all, factors the Board considered with respect to its approval of the continuation of the Agreements is provided below.

#### *Nature, Extent and Quality of Services Provided by the Advisers*

The Board requested and considered information concerning the nature, extent and quality of the services provided to each Fund by the Advisers. The Board considered, among other things, the terms of the Agreements and the range of services provided by the Advisers. The Board considered the Advisers' professional personnel who provide services to the Funds, including each Adviser's ability and experience in attracting and retaining qualified personnel to service the Funds. The Board considered each Adviser's reputation and overall financial strength, as well as each Adviser's willingness to consider and implement organizational and operational changes designed to enhance services to the funds managed by HFMC and its affiliates (the "Hartford funds"). In addition, the Board considered the quality of each Adviser's communications with the Board and responsiveness to Board inquiries and requests made from time to time with respect to the Funds and other Hartford funds. In this regard, the Board took into account the Advisers' communications with the Board in light of the market volatility amidst the coronavirus ("COVID-19") pandemic.

The Board also requested and evaluated information concerning each Adviser's regulatory and compliance environment. In this regard, the Board requested and reviewed information about each Adviser's compliance policies and procedures, compliance history, and a report from the Funds' Chief Compliance Officer about each Adviser's compliance with applicable laws and regulations, including responses to regulatory developments and any compliance or other issues raised by regulators. The Board also noted the Advisers' support of the Funds' compliance control structure, as applicable, and, in particular, the resources devoted by the Advisers in support of the Funds' obligations pursuant to Rule 38a-1 under the 1940 Act and the Funds' liquidity risk management program, as well as the efforts of the Advisers to combat cybersecurity risks. The Board also considered HFMC's investments in business continuity planning designed to benefit the Funds, and the implementation of HFMC's business continuity plans due to the COVID-19 pandemic. The Board also noted HFMC's commitment to maintaining high quality systems and expending substantial resources to prepare for and respond to ongoing changes to the market, regulatory and control environments in which the Funds and their service providers operate, including changes associated with the COVID-19 pandemic.

With respect to HFMC, the Board noted that, under the Management Agreements, HFMC is responsible for the management of the Funds, including oversight of fund operations and service providers, and the provision of administrative and investment advisory services in connection with selecting, monitoring and supervising the Sub-adviser. In this regard, the Board evaluated information about the nature and extent of responsibilities retained and risks assumed by HFMC that were not delegated to or assumed by the Sub-adviser. The Board considered HFMC's ongoing monitoring of people, process and performance, including its quarterly reviews of each of the Hartford funds, semi-annual meetings with the leaders of each Fund's portfolio management team, and oversight of the Hartford funds' portfolio managers. The Board noted that HFMC has demonstrated a record of initiating changes to the portfolio management and/or investment strategies of the Hartford funds when warranted. The Board considered HFMC's periodic due diligence reviews of the Sub-adviser and ongoing oversight of the Sub-adviser's investment approach and results, process for monitoring best execution of portfolio trades and other trading operations by the Sub-adviser, and approach to risk management with respect to the Funds and the service providers to the Funds. The Board considered HFMC's oversight of the Funds' securities lending program and noted the income earned by the Funds that participate in such program. The Board also considered HFMC's day-to-day oversight of each Fund's compliance with its investment objective and policies as well as with applicable laws and regulations, noting that regulatory and other developments had over time led to an increase in the scope of HFMC's oversight in this regard. Moreover, the Board considered HFMC's oversight of potential conflicts of interest between the Funds' investments and those of other funds or accounts managed by the Funds' portfolio management personnel.

In addition, the Board considered HFMC's ongoing commitment to review and rationalize the Hartford funds product line-up. The Board also considered the expenses that HFMC had incurred, as well as the risks HFMC had assumed, in connection with the launch of new funds and changes to existing Hartford funds in recent years. The Board considered that HFMC is responsible for providing the Funds' officers.

With respect to the Sub-adviser, which provides certain day-to-day portfolio management services for the Funds, subject to oversight by HFMC, the Board considered, among other things, the Sub-adviser's investment personnel, investment philosophy and process, investment research capabilities and resources, performance record, trade execution capabilities and experience. The Board considered the experience of each Fund's portfolio manager(s), the number of accounts managed by the portfolio manager(s), and the Sub-adviser's method for compensating the portfolio manager(s). The Board also considered the Sub-adviser's succession planning practices to ensure continuity of portfolio management services provided to the Funds.

The Board considered the benefits to shareholders of being part of the family of Hartford funds, including, with respect to certain share classes, the right to exchange investments between the same class of shares without a sales charge, the ability to reinvest Fund dividends into other Hartford funds (excluding the Hartford funds that are exchange-traded funds or an interval fund), and the ability to combine holdings in a Fund with holdings in other Hartford funds (excluding the Hartford funds that are exchange-traded funds or an interval fund) and 529 plans for which HFMC serves as the program manager to obtain a reduced sales charge. The Board considered HFMC's efforts to provide investors in the Hartford funds with a broad range of

# Hartford Domestic Equity Funds

## *Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)*

investment styles and asset classes and the assumption of entrepreneurial and other risks by HFMC in sponsoring and providing ongoing services to new funds to expand these opportunities for shareholders. In addition, the Board observed that in the marketplace there are a range of investment options available to each Fund's shareholders and such shareholders, having had the opportunity to consider other investment options, have chosen to invest in the Fund.

Based on these considerations, the Board concluded that it was satisfied with the nature, extent and quality of the services provided to each Fund by HFMC and the Sub-adviser.

### *Performance of each Fund and the Advisers*

The Board considered the investment performance of each Fund. In this regard, the Board reviewed the performance of each Fund over different time periods presented in the materials and evaluated HFMC's analysis of the Fund's performance for these time periods. The Board considered information and materials provided to the Board by the Advisers concerning Fund performance, as well as information from Broadridge comparing the investment performance of each Fund to an appropriate universe of peer funds. The Board noted that while it found the comparative data provided by Broadridge generally useful in evaluating a Hartford fund's investment performance, the Board recognized the limitations of such data, including, in particular, that notable differences may exist between a Hartford fund and its peers. For details regarding each Fund's performance, see the Fund-by-Fund synopsis below.

The Board considered the detailed investment analytics reports provided by HFMC's Investment Advisory Group throughout the year, including in connection with the approval of the continuation of the Agreements. These reports included, among other things, information on each Fund's gross returns and net returns, the Fund's investment performance compared to one or more appropriate benchmarks and relevant groups or categories of peer funds, various statistics concerning the Fund's portfolio, a narrative summary of various factors affecting Fund performance, and commentary on the effect of current and recent market conditions. The Board also noted that, for The Hartford Capital Appreciation Fund, the Fund uses a multiple sleeve structure whereby each sleeve uses a different investment style and considered the performance attributions of the underlying managers. The Board considered the Advisers' work with the Investment Committee, which assists the Board in evaluating the performance of each Fund at periodic meetings throughout the year and specifically with respect to the approval of the continuation of the Agreements. The Board considered that the Investment Committee, in its evaluation of investment performance at meetings throughout the year, focused particular attention on information indicating less favorable performance of certain Hartford funds for specific time periods and discussed with the Advisers the reasons for such performance. The Board also considered the analysis provided by the Consultant relating to each Fund's performance track record.

In light of all the considerations noted above, the Board concluded that it had continued confidence in HFMC's and the Sub-adviser's overall capabilities to manage the Funds.

### *Costs of the Services and Profitability of the Advisers*

The Board reviewed information regarding HFMC's cost to provide investment management and related services to each Fund and HFMC's profitability, both overall and for each Fund, on a pre-tax basis without regard to distribution expenses. The Board also requested and reviewed information about the profitability to HFMC and its affiliates from all services provided to each Fund and all aspects of their relationship with the Fund, including information regarding profitability trends over time and information provided by Broadridge analyzing the profitability of managers to other fund complexes. The Board also requested and received information relating to the operations and profitability of the Sub-adviser. The Board considered representations from HFMC and the Sub-adviser that the Sub-adviser's fees were negotiated at arm's length on a Fund-by-Fund basis and that the sub-advisory fees are paid by HFMC and not the Funds. Accordingly, the Board concluded that the profitability of the Sub-adviser is a less relevant factor with respect to the Board's consideration of the Sub-Advisory Agreements.

The Board considered the Consultant's review of the methodologies and estimates used by HFMC in calculating profitability in connection with the continuation of the Management Agreements, including a description of the methodology used to allocate certain expenses. The Board noted that the Consultant, at the Independent Directors' request, performed a full review of HFMC's process for calculating and reporting Fund profitability consistent with similar periodic reviews previously performed by the Consultant. The Board noted the Consultant's view that such process is reasonable, sound and consistent with common industry practice.

Based on these considerations, the Board concluded that the profits realized by the Advisers and their affiliates from their relationships with each Fund were not excessive.

### *Comparison of Fees and Services Provided by the Advisers*

The Board considered the comparative information that had been provided at meetings on June 16-17, 2020 and August 4-5, 2020 with respect to the services rendered to and the management fees to be paid by each Fund to HFMC and the total expense ratios of the Fund. The Board also considered comparative information with respect to the sub-advisory fees to be paid by HFMC to the Sub-adviser with respect to each Fund. In this regard, the Board requested and reviewed information from HFMC and the Sub-adviser relating to the management and sub-advisory fees, including the sub-advisory fee schedule for each Fund and the amount of the management fee retained by HFMC, and total operating expenses for each Fund. The Board also reviewed information from Broadridge comparing each Fund's contractual management fees, actual management fees and total expense

# Hartford Domestic Equity Funds

## *Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)*

ratios relative to an appropriate group of funds selected by Broadridge. The Board considered such information from Broadridge in consultation with the Consultant. For details regarding each Fund's expenses, see the Fund-by-Fund synopsis below.

The Board considered the methodology used by Broadridge to select the funds included in the expense groups. While the Board recognized that comparisons between a Fund and its peer funds may be imprecise given, among other differences, the different service levels and characteristics of mutual funds and the different business models and cost structures of the Advisers, the comparative information provided by Broadridge assisted the Board in evaluating the reasonableness of each Fund's fees and total operating expenses. In addition, the Board considered the analysis and views of the Consultant relating to each Fund's fees and total operating expenses.

The Board also considered that HFMC provides nondiscretionary investment advisory services to a model portfolio that pursues an investment objective and an investment strategy similar to those of the Hartford Core Equity Fund. The Board also received information regarding fees charged by the Sub-adviser to any other clients with investment strategies similar to those of the Funds, including institutional separate account clients and registered fund clients for which the Sub-adviser serves as either primary investment adviser or sub-adviser. The Board considered the explanations provided by the Sub-adviser about any differences between the Sub-adviser's services to the Funds and the services the Sub-adviser provides to other types of clients. In this regard, the Board reviewed information about the generally broader scope of services and compliance, reporting and other legal burdens and risks of managing registered funds compared with those associated with managing assets of non-registered fund clients such as institutional separate accounts.

Based on these considerations, the Board concluded that each Fund's fees and total operating expenses, in conjunction with the information about quality of services, profitability, economies of scale, and other matters considered, were reasonable in light of the services provided.

### *Economies of Scale*

The Board considered information regarding the extent to which economies of scale may be realized as a Fund grows and whether fee levels reflect these economies of scale for the benefit of shareholders of the Fund. The Board reviewed the breakpoints in the management fee schedule for each Fund, if any, which reduce fee rates as the Fund's assets grow over time. The Board recognized that a Fund with assets beyond the highest breakpoint level will continue to benefit from economies of scale because additional assets are charged the lowest breakpoint fee resulting in lower overall effective management fee rates. The Board also recognized that a fee schedule that reaches a breakpoint at a lower asset level provides shareholders with the benefit of anticipated or potential economies of scale. The Board considered that expense limitations and fee waivers that reduce a Fund's expenses at all asset levels can have the same effect as breakpoints in sharing economies of scale with shareholders and provide protection from an increase in expenses if the Fund's assets decline. In addition, the Board considered that initially setting competitive fee rates, pricing a Fund to scale at inception and making additional investments intended to enhance services available to shareholders are other means of sharing anticipated or potential economies of scale with shareholders. The Board also considered that HFMC has been active in managing expenses, which has resulted in benefits being realized by shareholders. The Board also noted that, for each of the Hartford Quality Value Fund and the Hartford Small Cap Value Fund, the Fund's current low asset levels have kept the Fund from fully realizing the benefits of anticipated or potential economies of scale.

The Board reviewed and evaluated materials from Broadridge and the Consultant showing how management fee schedules of peer funds reflect economies of scale for the benefit of shareholders as a peer fund's assets hypothetically increase over time. Based on information provided by HFMC, Broadridge, and the Consultant, the Board recognized that there is no uniform methodology for establishing breakpoints or uniform pattern in asset levels that trigger breakpoints or the amounts of breakpoints triggered.

After considering all of the information available to it, the Board concluded that it was satisfied with the extent to which economies of scale would be shared for the benefit of each Fund's shareholders based on currently available information and the effective management fees and total expense ratios for the Fund at its current and reasonably anticipated asset levels. The Board noted, however, that it would continue to monitor any future growth in each Fund's assets and the appropriateness of additional management fee breakpoints or other methods to share benefits from economies of scale as part of its future review of the Agreements.

### *Other Benefits*

The Board considered other benefits to the Advisers and their affiliates from their relationships with the Funds.

The Board noted that HFMC receives fees for fund accounting and related services from the Funds, and the Board considered information on the profitability to HFMC from providing such services to the Funds. The Board also considered that each Fund pays a transfer agency fee to Hartford Administrative Services Company ("HASCO"), an affiliate of HFMC, equal to the lesser of: (i) the actual costs incurred by HASCO in connection with the provisions of transfer agency services, including payments made to sub-transfer agents, plus a reasonable target profit margin; or (ii) a specified amount as set forth in the Transfer Agency and Service Agreement by and between HMF and HMF II, on behalf of their respective Funds, and HASCO. The Board reviewed information about the profitability to HASCO of the Funds' transfer agency function. The Board considered information provided by HFMC indicating that the transfer agency fees charged by HASCO to the Funds were fair and reasonable based on publicly available information. The Board also noted that HFMC and HASCO had delegated certain fund accounting services and transfer agency services, respectively, to external service providers.

# Hartford Domestic Equity Funds

## *Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)*

The Board also considered that Hartford Funds Distributors, LLC ("HFD"), an affiliate of HFMC, serves as principal underwriter of the Funds. The Board noted that, as principal underwriter, HFD receives distribution and service fees from the Funds and receives all or a portion of the sales charges on sales or redemptions of certain classes of shares.

The Board considered the benefits, if any, to the Sub-adviser from any use of a Fund's brokerage commissions to obtain soft dollar research.

### *Fund-by-Fund Factors*

For purposes of the Fund-by-Fund discussion below, Fund performance is referred to as "in line with" a Fund's benchmark where it was 0.5% above or below the benchmark return, and each Fund's performance relative to its primary benchmark reflects the net performance of the Fund's Class I shares as of March 31, 2020.

#### The Hartford Capital Appreciation Fund

- The Board noted that the Fund's performance was in the 3rd quintile of its performance universe for the 1- and 5-year periods and the 2nd quintile for the 3-year period. The Board also noted that the Fund's performance was below its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 4th quintile of its expense group, while its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.06% through February 28, 2021.

#### Hartford Core Equity Fund

The Board also noted that the Fund's performance was below its benchmark for the 1-, 3-, and 5-year periods. The Board noted recent changes to the Fund's portfolio management team.
- The Board noted that the Fund's contractual management fee, actual management fee, and total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile of its expense group. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.04% through February 28, 2021.

#### The Hartford Equity Income Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1-, 3-, and 5-year periods. The Board also noted that the Fund's performance was above its benchmark for the 1-, 3-, and 5-year periods. The Board noted recent changes to the Fund's portfolio management team.
- The Board noted that the Fund's contractual management fee, actual management fee, and total expenses (less 12b-1 and shareholder service fees) were in the third quintile of its expense group. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.06% through February 28, 2021.

#### The Hartford Growth Opportunities Fund

- The Board noted that the Fund's performance was in the 4th quintile of its performance universe for the 1-year period and the 2nd quintile for the 3- and 5-year periods. The Board also noted that the Fund's performance was below its benchmark for the 1- and 5-year periods and in line with its benchmark for the 3-year period. The Board noted recent changes to the Fund's portfolio management team.
- The Board noted that the Fund's contractual management fee, actual management fee, and total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile of its expense group. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.04% through February 28, 2021.

#### The Hartford Healthcare Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1-year period, the 3rd quintile for the 3-year period, and the 1st quintile for the 5-year period. The Board also noted that the Fund's performance was above its benchmark for the 1-year period and below its benchmark for the 3- and 5-year periods.

# Hartford Domestic Equity Funds

## *Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)*

- The Board noted that the Fund's contractual management fee was in the 4th quintile of its expense group, while its actual management fee was in the 5th quintile and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.05% through February 28, 2021.

### The Hartford MidCap Fund

- The Board noted that the Fund's performance was in the 5th quintile of its performance universe for the 1- and 3-year periods and the 4th quintile for the 5-year period. The Board also noted that the Fund's performance was above its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 3rd quintile of its expense group, while its actual management fee and total expenses (less 12b-1 and shareholder service fees) were in the 2nd quintile. The Board noted that Class I and Y shares of the Fund have contractual transfer agency expense caps of 0.12% and 0.04%, respectively, through February 28, 2021.

### The Hartford MidCap Value Fund

- The Board noted that the Fund's performance was in the 1st quintile of its performance universe for the 1-year period, the 2nd quintile for the 3-year period, and the 3rd quintile for the 5-year period. The Board also noted that the Fund's performance was above its benchmark for the 1- and 3-year periods and below its benchmark for the 5-year period.
- The Board noted that the Fund's contractual management fee was in the 2nd quintile of its expense group, while its actual management fee and total expenses (less 12b-1 and shareholder service fees) were in the 4th quintile. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.07% through February 28, 2021.

### Hartford Quality Value Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1-year period and the 3rd quintile for the 3- and 5-year periods. The Board also noted that the Fund's performance was above its benchmark for the 1- and 3-year periods and in line with its benchmark for the 5-year period. The Board noted recent changes to the Fund's portfolio management team.
- The Board noted that the Fund's contractual management fee, actual management fee, and total expenses (less 12b-1 and shareholder service fees) were in the 1st quintile of its expense group. The Board noted that Class A shares of the Fund have a contractual expense cap of 0.96% through February 28, 2021, which resulted in HFMC reimbursing the Fund for certain expenses.

### The Hartford Small Cap Growth Fund

- The Board noted that the Fund's performance was in the 4th quintile of its performance universe for the 1- and 3-year periods and the 5th quintile for the 5-year period. The Board also noted that the Fund's performance was above its benchmark for the 1-year period and in line with its benchmark for the 3- and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 1st quintile of its expense group, while its actual management fee was in the 2nd quintile and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.04% through February 28, 2021.

### Hartford Small Cap Value Fund

- The Board noted that the Fund's performance was in the 3rd quintile of its performance universe for the 1-year period, the 2nd quintile for the 3-year period, and the 4th quintile for the 5-year period. The Board also noted that the Fund's performance was below its benchmark for the 1- and 5-year periods and in line with its benchmark for the 3-year period.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 2nd quintile, while its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class A shares of the Fund have a contractual expense cap of 1.30% through February 28, 2021, which resulted in HFMC reimbursing the Fund for certain expenses.

### The Hartford Small Company Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1- and 3-year periods and the 4th quintile for the 5-year period. The Board also noted that the Fund's performance was above its benchmark for the 1- and 3-year periods and in line with its benchmark for the 5-year period. The Board noted recent changes to the Fund's portfolio management team.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 3rd quintile of its expense group, while its total expenses (less 12b-1 and shareholder service fees) were in the 4th quintile. The Board noted that Class A shares of the Fund have a contractual expense cap of 1.40% through February 28, 2021, and that HFMC had reimbursed the Fund for certain expenses.

## Hartford Domestic Equity Funds

### *Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)*

Based upon its review of these various factors, among others, the Board concluded that it is in the best interests of each Fund and its shareholders for the Board to approve the continuation of the Agreements for an additional year. In reaching this decision, the Board did not assign relative weights to the factors discussed above or deem any one or group of them to be controlling in and of themselves.

## CUSTOMER PRIVACY NOTICE

**The Hartford Financial Services Group, Inc. and Affiliates\***  
(herein called "we, our, and us")

*This Privacy Policy applies to our United States Operations*

We value your trust. We are committed to the responsible:

- a) management;
- b) use; and
- c) protection;

of **Personal Information**.

This notice describes how we collect, disclose, and protect **Personal Information**.

We collect **Personal Information** to:

- a) service your **Transactions** with us; and
- b) support our business functions.

We may obtain **Personal Information** from:

- a) **You**;
- b) your **Transactions** with us; and
- c) third parties such as a consumer-reporting agency.

Based on the type of product or service **You** apply for or get from us, **Personal Information** such as:

- a) your name;
- b) your address;
- c) your income;
- d) your payment; or
- e) your credit history;

may be gathered from sources such as applications, **Transactions**, and consumer reports.

To serve **You** and service our business, we may share certain **Personal Information**. We will share **Personal Information**, only as allowed by law, with affiliates such as:

- a) our insurance companies;
- b) our employee agents;
- c) our brokerage firms; and
- d) our administrators.

As allowed by law, we may share **Personal Financial Information** with our affiliates to:

- a) market our products; or
- b) market our services;

to **You** without providing **You** with an option to prevent these disclosures.

We may also share **Personal Information**, only as allowed by law, with unaffiliated third parties including:

- a) independent agents;
- b) brokerage firms;
- c) insurance companies;
- d) administrators; and
- e) service providers;

who help us serve **You** and service our business.

When allowed by law, we may share certain **Personal Financial Information** with other unaffiliated third parties who assist us by performing services or functions such as:

- a) taking surveys;
- b) marketing our products or services; or
- c) offering financial products or services under a joint agreement between us and one or more financial institutions.

We, and third parties we partner with, may track some of the pages **You** visit through the use of:

- a) cookies;
- b) pixel tagging; or
- c) other technologies;

and currently do not process or comply with any web browser's "do not track" signal or other similar mechanism that indicates a request to disable online tracking of individual users who visit our websites or use our services.

For more information, our Online Privacy Policy, which governs information we collect on our website and our affiliate websites, is available at <https://www.thehartford.com/online-privacy-policy>.

We will not sell or share your **Personal Financial Information** with anyone for purposes unrelated to our business functions without offering **You** the opportunity to:

- a) "opt-out;" or
- b) "opt-in;"

as required by law.

We only disclose **Personal Health Information** with:

- a) your authorization; or
- b) as otherwise allowed or required by law.

Our employees have access to **Personal Information** in the course of doing their jobs, such as:

- a) underwriting policies;
- b) paying claims;
- c) developing new products; or
- d) advising customers of our products and services.

We use manual and electronic security procedures to maintain:

- a) the confidentiality; and
- b) the integrity of;

**Personal Information** that we have. We use these procedures to guard against unauthorized access.

Some techniques we use to protect **Personal Information** include:

- a) secured files;
- b) user authentication;
- c) encryption;
- d) firewall technology; and
- e) the use of detection software.

We are responsible for and must:

- a) identify information to be protected;
- b) provide an adequate level of protection for that data; and
- c) grant access to protected data only to those people who must use it in the performance of their job-related duties.

Employees who violate our privacy policies and procedures may be subject to discipline, which may include termination of their employment with us.

We will continue to follow our Privacy Policy regarding **Personal Information** even when a business relationship no longer exists between us.

As used in this Privacy Notice:

**Application** means your request for our product or service.

**Personal Financial Information** means financial information such as:

- a) credit history;
- b) income;
- c) financial benefits; or
- d) policy or claim information.

**Personal Financial Information** may include Social Security Numbers, Driver's license numbers, or other government-issued identification numbers, or credit, debit card, or bank account numbers.

**Personal Health Information** means health information such as:

- a) your medical records; or
- b) information about your illness, disability or injury.

**Personal Information** means information that identifies **You** personally and is not otherwise available to the public. It includes:

- a) **Personal Financial Information**; and
- b) **Personal Health Information**.

**Transaction** means your business dealings with us, such as:

- a) your **Application**;
- b) your request for us to pay a claim; and
- c) your request for us to take an action on your account.

**You** means an individual who has given us **Personal Information** in conjunction with:

- a) asking about;
  - b) applying for; or
  - c) obtaining;
- a financial product or service from us if the product or service is used mainly for personal, family, or household purposes.
