GOTHAM FUNDS

Important Information

The performance data quoted in this report represents past performance and does not guarantee future results. The investment return and principal value of an investment in a Gotham Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher. Performance data current to the most recent month-end may be obtained by calling (877) 974-6852.

Each Gotham Fund covered by this report (each a "Fund") compares its performance to an unmanaged index. An index does not reflect operational and transactional costs which apply to a mutual fund. It is not possible to invest directly in an index.

Mutual fund investing involves risks, including possible loss of principal. Each Fund except Gotham Large Value Fund will short securities. Short sales theoretically involve unlimited loss potential since the market price of securities sold short may continuously increase. Each Fund except Gotham Large Value Fund will also use leverage to make additional investments which could result in greater losses than if the Fund were not leveraged. Gotham Absolute Return Fund, Gotham Enhanced Return Fund, Gotham Neutral Fund and Gotham Defensive Long 500 Fund utilize one or more swap agreements in their investment programs. The use of derivatives such as swaps exposes a Fund to additional risks including increased volatility, lack of liquidity and possible losses greater than a Fund's initial investments. Gotham Total Return Fund will primarily engage in short sales, leverage and swaps through its investments in underlying funds. Certain Funds may invest in securities of large-, mid- and small-cap companies. The securities issued by small-cap and mid-cap companies tend to be more volatile and less liquid than those of large-cap issuers. A Fund may have a high turnover of its portfolio securities. High turnover rates generally result in higher brokerage costs to a Fund. There can be no guarantee that a Fund will achieve its objectives.

A prospective investor should consider the investment objectives, risks, charges and expenses of a Fund carefully before investing. The prospectus and summary prospectus contains this and other information about the Funds, and should be read carefully before investing. A copy of the prospectus or summary prospectus is available at www.GothamFunds.com or by calling (877) 974-6852.

Dear Shareholder,

Much of 2020 has been dictated by the COVID-19 pandemic, pushing the global economy and markets into uncharted territory. The disruption caused due to the pandemic and resulting lockdown has affected corporate cash flows in a way that is unprecedented. As companies release third quarter earnings over the coming weeks, we continue to examine in more detail how the pandemic has affected corporate cash flows. The results are messy and require extensive analysis. This is precisely the type of work our research team has focused on for over fifteen years. We believe that a strong ability to adjust as-reported financials to better reflect the true economics of a business should be especially beneficial during these unprecedented times. From a business standpoint, Gotham continues to operate effectively and without material impediment in the current remote environment.

As most of you are aware, Gotham manages value-oriented mutual funds with varying market cap universes and gross and net exposures. The funds share the same investment philosophy, process and research. Gotham offers actively managed strategies (long/short and long-only) as well as strategies that combine an index component and an actively managed long/short overlay. Gotham's all-cap funds select long and short stock portfolios from a diverse capitalization universe of U.S. stocks. Our large-cap funds select stocks primarily from the S&P 500.

Our investment process begins with a research effort that seeks to value all of the companies in a fund's respective investment universe. Our philosophy is simple. Although stock prices react to emotion over the short term, over the long term the market is very good at finding the fair value of stocks. Therefore, we believe that if we are good at valuing businesses (a share of stock represents a percentage ownership stake in a business), the market will agree with us...eventually. This is crucial. No investment strategy, regardless of how good or logical, works all the time.

The important thing for us is to stick to our strategy even if it is not working over shorter time periods. We have over 60 years of combined investment experience valuing and investing in publicly traded businesses. We know how to value businesses by using various measures of absolute and relative value. So, that's how we invest. We buy companies that are at the biggest discount to our assessment of value and sell short (where applicable) those companies that are most expensive relative to our assessment of value. We do not plan to change this strategy or adopt other methodologies when short-term stock prices do not reflect the values that we see.

Together with our investment team (led by Director of Research, Adam Barth), we follow a systematic process of researching and valuing companies, investing in our long and short portfolios and adjusting positions daily to take advantage of changing stock prices and fundamental information. The funds are highly diversified and invest in hundreds of positions. Our positions are not equally weighted. The funds generally invest in the cheapest companies and short (where applicable) the most expensive based on our assessment of value and subject to our risk constraints. We manage our risks by, among other things, requiring substantial portfolio diversification, setting maximum limits for sector concentration and by maintaining overall gross and net exposures within carefully defined ranges.

Market Observations and Performance Commentary

The market volatility during much of 2020 was fueled by massive uncertainty surrounding the economy reopening following the pandemic induced lockdowns, vaccine news as well as US elections in November. After the initial shock in late February to March when markets plunged 25-30%, the subsequent rebound rally left market cap-weighted indexes expensive relative to our 30-year research history. As of September 30, 2020, the Russell 1000 was outperforming the Russell 1000 equal-weight benchmark by over 1000bps YTD. This has been a consistent headwind for actively managed strategies. We believe it has also created a more attractive opportunity set based on relative valuations going forward, as it presents stock pickers with a relatively attractive universe to choose from over the next several years relative to market-cap weighted indexes.

Annual Investment Adviser's Report (Continued) September 30, 2020 (Unaudited)

In September 2020, the S&P 500 was trading at 26x Gotham's proprietary cash flow metric. This number is significantly skewed by the effect the COVID-19 pandemic has had on earnings for the second and third quarters. At the start of the year, the S&P 500 was in the 12th percentile towards expensive over the past 30 years based on 2019 corporate cash flows. This historically corresponded to 2-year cumulative forward returns of 6%-8%. With the index up 13% YTD1, we would expect 2-year cumulative forward returns for the S&P 500 to be 1%-3% if 2019 corporate cash flows are a good gauge for normalized earnings.

It is important to note that the above numbers are not adjusted for interest rates. If rates this low were to persist over a long time period, it would be reasonable to expect higher equity returns than our historical analysis suggests. At the same time, it is difficult to adjust these metrics which have been partially affected by the global pandemic. While some companies with the largest market capitalizations have benefited in a positive way, there are many companies within the index that have been negatively impacted.

In addition, the continued disparity between growth and value widened in 2020, as pandemic led tech heavy businesses dominated the market rally. Growth benchmarks are outperforming their value counterparts by significant margins over the trailing one-year, three-year and five-year periods, surpassing levels last seen during the 2nd quarter of 2000, the peak of the internet bubble.

We conducted a study to quantify the expensiveness of this period relative to history, particularly the internet bubble. Based on our research, only 1999 ranks worse than the first six months of 2020 for the returns of cheap stocks minus expensive, which was followed by 3 of the best years for cheap relative to expensive companies based on our assessment of value. We don't know when the current value/growth divergence will revert, but the historical precedent is for it to be abrupt and significant when it happens.

In terms of performance, broadly speaking our short book has been challenged in this market environment resulting in negative long/short spreads. Though many of these shorts are growing quickly, they are very richly priced. Some are currently unprofitable, and others sell at 50 or 100 times corporate free cash flows. On the long side, though we cannot predict short-term market moves and the overall market remains expensive, we believe that there is an opportunity to exceed the positive returns we expect for large cap indexes. Given valuation levels and the disparity between stock returns and fundamentals, we are very optimistic about the opportunity set for our long/short spreads over the coming period.

We remain confident that the best way to construct portfolios in any period, and perhaps even more so during expensive markets, is to own stakes in quality businesses generating strong cash flows. The long portfolios in our strategies trade at significantly better valuations than the index. The short portfolios in these strategies are generally cash flow negative, with higher levels of leverage and weaker business fundamentals. Our risk management has helped to improve our long/short spreads in a period that has been exceptionally challenged for active management and value-oriented strategies in particular.

Although we can't predict when this environment will end and the current value/growth cycle will turn, as we stated above, the historical precedent is that the transition is often abrupt and significant. Despite the added uncertainty surrounding the pandemic, we have consistently communicated to our partners that strong normalized cash flows, good franchises, and growth prospects are the key drivers to valuation over the long-term. It is also a process that should prove resilient in turbulent periods. Markets and businesses have generally recovered in reasonably short order after the initial shock from one-time events, including the outbreak of World War 2, the Cuban Missile Crisis, and the financial crisis of 2008. We believe the current headwinds will eventually subside and favoring cash flow generating companies with good returns on capital and strong balance sheets (and shorting the opposite) should provide a particularly attractive opportunity for outperformance.

Fund Expense Disclosure September 30, 2020 (Unaudited)

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including redemption fees; and (2) ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from April 1, 2020, and held for the entire period through September 30, 2020.

Actual Expenses

The first line for each Fund in the accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line for each Fund in the accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not your Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees. Therefore, the second line of the accompanying table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

GOTHAM ABSOLUTE RETURN FUND

Portfolio of Investments (Continued) September 30, 2020

Over-the-counter total return swaps outstanding as of September 30, 2020

The Fund maintains a portfolio of long and short positions and receives/pays a rebate based upon the Fed Funds 1-Day Rate less a specified spread as negotiated by the parties. The notional gain or loss, dividends payable and rebates are payable the earlier of maturity of the swaps or upon termination. The portfolio matures on July 23, 2025, however underlying individual contracts are entered into and closed (terminated) on a daily basis. The cash amounts payable/receivable due to individual contracts being closed are settled, on a net basis, once a week. The value of total return swaps represents (34.8)% of net assets as of September 30, 2020.

The following table represents the individual long and short positions and related values of total return swaps as of September 30, 2020:

GOTHAM ENHANCED RETURN FUND

Portfolio of Investments (Continued) September 30, 2020

Over-the-counter total return swaps outstanding as of September 30, 2020

The Fund maintains a portfolio of long and short positions and receives/pays a rebate based upon the Fed Funds 1-Day Rate less a specified spread as negotiated by the parties. The notional gain or loss, dividends payable and rebates are payable the earlier of maturity of the swaps or upon termination. The portfolio matures on August 27, 2024, however underlying individual contracts are entered into and closed (terminated) on a daily basis. The cash amounts payable/receivable due to individual contracts being closed are settled, on a net basis, once a week. The value of total return swaps represents 4.3% of net assets as of September 30, 2020.

The following table represents the individual long and short positions and related values of total return swaps as of September 30, 2020:

GOTHAM NEUTRAL FUND

Portfolio of Investments (Continued) September 30, 2020

Over-the-counter total return swaps outstanding as of September 30, 2020

The Fund maintains a portfolio of long and short positions and receives/pays a rebate based upon the Fed Funds 1-Day Rate less a specified spread as negotiated by the parties. The notional gain or loss, dividends payable and rebates are payable the earlier of maturity of the swaps or upon termination. The portfolio matures on August 31, 2022, however underlying individual contracts are entered into and closed (terminated) on a daily basis. The cash amounts payable/receivable due to individual contracts being closed are settled, on a net basis, once a week. The value of total return swaps represents (69.5)% of net assets as of September 30, 2020.

The following table represents the individual long and help short positions and related values of total return swaps as of September 30, 2020:

GOTHAM DEFENSIVE LONG 500 FUND

Portfolio of Investments (Continued) September 30, 2020

Over-the-counter total return swaps outstanding as of September 30, 2020

The Fund maintains a portfolio of long and short positions and receives/pays a rebate based upon the Fed Funds 1-Day Rate less a specified spread as negotiated by the parties. The notional gain or loss, dividends payable and rebates are payable the earlier of maturity of the swaps or upon termination. The portfolio matures on August 29, 2024, however underlying individual contracts are entered into and closed (terminated) on a daily basis. The cash amounts payable/receivable due to individual contracts being closed are settled, on a net basis, once a week. The value of total return swaps represents 4.3% of net assets as of September 30, 2020.

The following table represents the individual long and short positions and related values of total return swaps as of September 30, 2020:

Notes to Financial Statements September 30, 2020

1. Organization and Significant Accounting Policies

The Gotham Absolute Return Fund, the Gotham Enhanced Return Fund, the Gotham Neutral Fund, the Gotham Large Value Fund, the Gotham Defensive Long 500 Fund and the Gotham Total Return Fund (each a "Fund" and together, the "Funds") are each a diversified, open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Funds are each a separate series of FundVantage Trust (the "Trust") which was organized as a Delaware statutory trust on August 28, 2006. The Trust is a "series trust" authorized to issue an unlimited number of separate series or classes of shares of beneficial interest. Each series is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one series is not deemed to be a shareholder of any other series. Each of the Funds, except for the Gotham Total Return Fund, offers one class of shares, Institutional Class. The Gotham Total Return Fund offers two classes of shares, Institutional Class and Investor Class. The Funds' commencement of operations are as follows:

Gotham Absolute Return Fund ("Absolute Return")
Gotham Enhanced Return Fund ("Enhanced Return")
Gotham Neutral Fund ("Neutral")
Gotham Large Value Fund ("Large Value")
Gotham Defensive Long 500 Fund ("Defensive Long 500")
Gotham Total Return Fund ("Total Return")
(operates as a "Fund of Funds")

August 31, 2012 May 31, 2013 August 30, 2013 December 31, 2015 September 30, 2016

March 31, 2015

All the Funds except for Large Value and Total Return seek to achieve their investment objectives by primarily investing in long and short positions of U.S. equity securities. Equity securities include common and preferred stocks. Large Value seeks to achieve its investment objective by primarily investing in long positions of U.S. large capitalization equity securities with market capitalization similar to companies in the S&P 500® Index or Russell 1000® Index, but may invest in other large capitalization companies. Total Return seeks to achieve its investment objective by primarily investing in the other funds advised by Gotham

The Funds are investment companies and follow accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification Topic 946.

Portfolio Valuation — Each Fund's net asset value ("NAV") is calculated once daily at the close of regular trading hours on the New York Stock Exchange ("NYSE") (typically 4:00 p.m. Eastern time) on each business day the NYSE is open. Each Fund's equity securities, including exchange-traded funds, listed on any national or foreign exchange market system will be valued at the last sale price. Equity securities traded in the over-the-counter market are valued at their closing sale or official closing price. If there were no transactions on that day, securities traded principally on an exchange will be valued at the mean of the last bid and ask prices prior to the market close. Prices for equity securities normally are supplied by an independent pricing service approved by the Board of Trustees (the "Board"). Any assets held by a Fund that are denominated in foreign currencies are valued daily in U.S. dollars at the foreign currency exchange rates that are prevailing at the time that a Fund determines the daily NAV per share. Foreign securities may trade on weekends or other days when a Fund does not calculate NAV. As a result, the market value of these investments may change on days when you cannot buy or sell shares of a Fund. Certain Funds invest in securities of other investment companies, which are valued at their respective NAVs as determined by those investment companies each business day. Over the Counter ("OTC") investments (including swap agreements) are generally valued by approved pricing services that use evaluated prices from various observable market factors. Securities that do not have a readily available current market value are valued in good faith under the direction of the Board. The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available and has delegated to Gotham Asset Management, LLC ("Gotham" or "the Adviser") the responsibility for applying the valuation methods. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security, asset or liability will be determined in good faith by the Adviser. The Trust has established a Valuation Committee which performs certain functions including the oversight of the Adviser's fair valuation determinations.

Fair Value Measurements — The inputs and valuation techniques used to measure fair value of a Fund's investments are summarized into three levels as described in the hierarchy below:

• Level 1 — quoted prices in active markets for identical securities;

166

GOTHAM FUNDS

Notes to Financial Statements (Continued) September 30, 2020

- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

All financial instruments listed in the Portfolio of Investments are considered Level 1, measured at fair value on a recurring basis based on quoted prices for identical assets in active markets, except for the following: a corporate debt security with an end of period value of \$785 and \$715 held by Absolute Return and Neutral, respectively; and total return swaps with an end of period unrealized appreciation of \$4,927,599, \$46,431,845, \$1,770,576 and \$9,306,523 held by Absolute Return, Enhanced Return, Neutral and Defensive Long 500, respectively. These securities are considered Level 2 as of and for the year ended September 30, 2020.

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Level 1 and Level 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of a Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Funds may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles ("U.S. GAAP") require the Funds to present a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. A reconciliation of Level 3 investments is presented only when the Funds had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for all transfers in and out of Level 3 are disclosed when the Funds had an amount of transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

For the year ended September 30, 2020, there were no transfers in or out of Level 3 for the Funds.

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates and those differences could be material.

Cash — Cash comprises U.S. Dollar and foreign currency deposits held at a custodian bank(s) which may exceed insured limits. The Funds are subject to risk to the extent that the institutions may be unable to fulfill their obligations.

Due to/from Brokers — Due to/from brokers represents cash balances on deposit with, or cash balances owed to, the Funds' prime brokers and counterparties. The Funds are subject to credit risk should the prime brokers and counterparties be unable to meet their obligations to the Funds.

Investment Transactions, Investment Income and Expenses — Investment transactions are recorded on trade date for financial statement preparation purposes. Realized gains and losses on investments sold are recorded on the identified cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Distribution (12b-1) fees and shareholder services fees relating to a specific class are charged directly to that class. The Fund records as dividend income the amount characterized as ordinary income and records as realized gain the amount characterized by a REIT as long-term capital gain in the Statement of Operations. The amount characterized as return of capital is a reduction to the cost of investments in the Statement of Assets and

GOTHAM FUNDS

Notes to Financial Statements (Continued) September 30, 2020

Liabilities if the security is still held; otherwise it is recorded as an adjustment to realized gain/(loss) from investment transactions in the statement of Operations. These characterizations are reflected in the accompanying financial statements. General expenses of the Trust are generally allocated to each Fund under methodologies approved by the Board of Trustees. Expenses directly attributable to a particular Fund in the Trust are charged directly to that Fund.

Dividends and Distributions to Shareholders — Dividends from net investment income and distributions from net realized capital gains, if any, are declared, recorded on ex-date and paid at least annually to shareholders. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP. These differences include the treatment of non-taxable dividends, losses deferred due to wash sales and excise tax regulations. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications within the components of net assets.

U.S. Tax Status — No provision is made for U.S. income taxes as it is each Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Code, as amended, and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

Other — In the normal course of business, the Funds may enter into contracts that provide general indemnifications. A Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and, therefore, cannot be estimated; however, based on experience, the risk of material loss for such claims is considered remote.

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to its long-term implications. The COVID-19 pandemic could adversely affect the value and liquidity of the Funds' investments, impair the Funds' ability to satisfy redemption requests, and negatively impact the Funds' performance. In addition, the outbreak of COVID-19, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Funds by its service providers. Fund management is continuing to monitor this development and evaluate its impact on the Funds.

Short Sales — All Funds except for Large Value may sell securities short. Total Return indirectly invests in short sales through its underlying securities. A short sale involves the sale by a Fund of a security that it does not own with the anticipation of purchasing the same security at a later date at a lower price. If the price of the security has increased during this time, then the Fund will incur a loss equal to the increase in price from the time that the short sale was entered into plus any premiums and interest paid to the third party. Therefore, short sales involve the risk that losses may be exaggerated, potentially losing more money than the actual cost of the investment. Also, there is the risk that the third party to the short sale may fail to honor its contract terms, causing a loss to the Fund. There can be no assurance that a Fund will be able to close out a short position at any particular time or at an acceptable price. Although a Fund's gain is limited to the amount at which it sold a security short, its potential loss is unlimited. The Funds will comply with guidelines established by the Securities and Exchange Commission and other applicable regulatory bodies with respect to coverage of short sales. Effective July 24, 2020 and September 3, 2020, Absolute Return and Neutral, respectively, discontinued investing in short securities directly and may obtain short and long exposure through the use of swap agreements.

As of September 30, 2020, there are no securities sold short, securities pledged as collateral and deposits with brokers for securities sold short.

In accordance with the terms of its prime brokerage agreements, the Funds may receive rebate income or be charged fees on securities sold short. Such income or fee is calculated on a daily basis based upon the market value of securities sold short and a variable rate that is dependent upon the availability of such security. These amounts are included in dividends and fees on securities sold short on the Statement of Operations. In those instances where rebate income is in excess of dividends on securities sold short and finance charges, the net amount is shown in the Investment Income section on the Statement of Operations. On the ex-dividend date, dividends on short sales are recorded as an expense to the Fund. The following Funds had net charges as shown in the table below for the year ended September 30, 2020:

Swap Agreements — A swap agreement is a bilateral financial instrument that involves the exchange of cash flows between two parties on specified dates (settlement dates), where the cash flows are based on valuation changes to market referenced securities. The nominal amount on which the cash flows are calculated is called the notional amount.

Swap agreements may increase or decrease the overall volatility of the investments of a Fund and its share price. The performance of swap agreements will be affected by a change in the market value of the referenced underlying securities that determine the amounts of payments due to and from a Fund. If a swap agreement calls for payments by a Fund, the Fund must be prepared to make such payments when due. In addition, if the counterparty's creditworthiness declined, the value of a swap agreement would be likely to decline, potentially resulting in losses.

Generally, swap agreements have a fixed maturity date that will be agreed upon by the parties. The agreement can be terminated before the maturity date, in whole or part, under certain circumstances, such as default by one of the parties or insolvency, among others, and can be transferred by a party only with the prior written consent of the other party. A Fund may be able to eliminate its exposure under a swap agreement either by assignment or by other disposition, or by entering into an offsetting swap agreement with the same party or a similarly creditworthy party. If the counterparty is unable to meet its obligations under the contract, declares bankruptcy, defaults or becomes insolvent, a Fund may not be able to recover the money it expected to receive under the swap agreement. A Fund will not enter into any swap agreement unless the Adviser believes that the counterparty to the transaction is creditworthy.

A swap agreement can be a form of leverage, which can magnify a Fund's gains or losses. In order to reduce the risk associated with leveraging, a Fund may cover its current obligations under swap agreements according to guidelines established by the SEC. If a Fund enters into a swap agreement on a net basis, it will segregate assets with a daily value at least equal to the excess, if any, of a Fund's accrued obligations under the swap agreement over the accrued amount a Fund is entitled to receive under the agreement. If a Fund enters into a swap agreement on other than a net basis, it will segregate assets with a value equal to the full amount of a Fund's accrued obligations under the swap agreement.

Total Return Swaps: Total return swaps are contracts in which both parties agree to make payments of the total return from a reference instrument during a specified period. The total return includes appreciation or depreciation on the underlying asset, plus any interest or dividend accruals or payments. The unrealized appreciation or depreciation also includes interest charges and credits ("financing fees") related to the notional values of the long and short positions and cash balances within the swap. These interest charges and credits are based on a specified benchmark rate, such as the U.S. effective federal funds rate ("EFFR"). Payments under the swap are based upon an agreed upon principal amount but, since the principal amount is not exchanged, it represents neither an asset nor a liability to either counterparty, and is referred to as notional. Total return swaps are marked to market daily using different sources, including quotations from counterparties, pricing services, brokers or market makers. The unrealized appreciation or depreciation related to the change in the valuation of the notional amount of the swap is combined with the amount due to or from the Fund at termination or settlement. The primary risks associated with total return swaps are credit risks (if the counterparty fails to meet its obligations) and market risk (if there is no liquid market for the swap or unfavorable changes occur to the underlying reference instrument). As of and for the year ended September 30, 2020, only Absolute Return, Enhanced Return, Neutral and Defensive Long 500 held total return swaps.

For the period ended September 30, 2020, the average volume of the total return swaps for each Fund were as follows:

Counterparty Risk — During the year ended September 30, 2020, Absolute Return, Enhanced Return, Neutral and Defensive Long 500 were subject to counterparty risk. Certain of the derivatives entered into by the Funds may not be traded on an exchange but instead will be privately negotiated in the over-the-counter market. This means that these instruments are traded between counterparties based on contractual relationships. Relying on a counterparty exposes the Funds to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Funds to suffer a loss. If a counterparty defaults on its payment obligations to the Funds, this default will cause the value of an investment in the Funds to decrease. In addition, to the extent the Funds deal with a limited number of counterparties, it will be more susceptible to the credit risks associated with those counterparties. The Funds are neither restricted from dealing with any particular counterparty nor from concentrating any or all of its transactions with one counterparty. The ability of the Funds to transact business with any one or number of counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Funds.

The Funds are subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurance that an issuer will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Funds will not sustain a loss on a transaction as a result.

Liquidity Risk — During the year ended September 30, 2020, Absolute Return, Enhanced Return, Neutral and Defensive Long 500 were subject to liquidity risk. The Funds may be subject to liquidity risk primarily due to investments in derivatives. The Funds may invest up to 15% of its net assets in illiquid securities or instruments. Certain derivatives, such as swaps, forward contracts and options may not be readily marketable and, therefore, may be deemed to be illiquid. An asset is not readily marketable if it cannot be sold within seven business days in the ordinary course of business for approximately the amount at which it is valued. Investments in illiquid assets involve the risk that the Funds may be unable to sell the asset or sell it at a reasonable price. In addition, the Funds may be required to liquidate positions or close out derivatives on unfavorable terms at a time contrary to the interests of the Funds in order to raise cash to pay redemptions.

An investment in derivatives is also subject to the risk that the Funds may not be able to terminate the derivatives effective on whatever date it chooses, or that the settlement of any early termination may depend on subsequent market movements. As a result, the Funds may be exposed to the risk of additional losses due to such delays.

Master Netting Agreement — During the year ended September 30, 2020, Absolute Return, Enhanced Return, Neutral and Defensive Long 500 were subject to a Master Netting agreement. In order to define their contractual rights and to secure rights that will help mitigate their counterparty risk, the Funds have entered into an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement"). An ISDA Master Agreement is a bilateral agreement between the Funds and the counterparty that governs certain OTC derivatives and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, the Funds may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and/or receivables with collateral held and/or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default including the bankruptcy or insolvency of the counterparty. Bankruptcy or insolvency laws of a particular jurisdiction may restrict or prohibit the right of offset in bankruptcy, insolvency or other events. In addition, certain ISDA Master Agreements allow counterparties to terminate derivative contracts prior to maturity in the event the Funds' net assets decline by a stated percentage or the Funds fail to meet the terms of its ISDA Master Agreements. The result would cause the Funds to accelerate payment of any net liability owed to the counterparty.

LIBOR Phase-out Risk — The United Kingdom's Financial Conduct Authority, which regulates London Interbank Overnight Rates ("LIBOR"), has announced plans to phase out the use of LIBOR by the end of 2021. There remains uncertainty regarding the

GOTHAM FUNDS

Notes to Financial Statements (Continued) September 30, 2020

future use of LIBOR and the nature of any replacement rate. The transition process away from LIBOR may involve, among other things, increased volatility or illiquidity in markets for instruments that currently rely on LIBOR. The transition process may also result in a reduction in the value of certain instruments held by the Funds or reduce the effectiveness of related Fund transactions such as hedges. Volatility, the potential reduction in value, and/or the hedge effectiveness of financial instruments may be heightened for financial instruments that do not include fallback provisions that address the cessation of LIBOR. Any potential effects of the transition away from LIBOR on any of the Funds or on financial instruments in which the Funds invest, as well as other unforeseen effects, could result in losses to the Funds.

Collateral Requirements — During the year ended September 30, 2020, Absolute Return, Enhanced Return, Neutral and Defensive Long 500 were subject to collateral requirements. For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark-to-market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Funds and the counterparty. Cash collateral that has been pledged to cover obligations of the Funds and cash collateral received from the counterparty, if any, is reported separately on the Statement of Assets and Liabilities as cash pledged as collateral and cash received as collateral, respectively. Non-cash collateral pledged by the Funds, if any, is noted in the Schedule of Investments. Generally, the amount of collateral due from or to a counterparty is subject to a certain minimum transfer amount threshold before a transfer is required, which is determined at the close of business of the Funds. Any additional required collateral is delivered to/pledged by the Funds on the next business day. Typically, the counterparty is not permitted to sell, re-pledge or use cash and non-cash collateral it receives. The Funds generally agree not to use non-cash collateral that they receive but may, absent default or certain other circumstances defined in the underlying ISDA Master Agreement, be permitted to use cash collateral received. In such cases, interest may be paid pursuant to the collateral arrangement with the counterparty. To the extent amounts due to the Funds from their counterparty and stands ready to perform under the terms of its agreement with such counterparty, they bear the risk of loss from a counterparty in the amount of the value of the collateral in the event the counterparty fails to return such collateral. Based on the terms of agreements, collateral may not be required for all derivative contracts. For financial reporting purposes, the Funds do not offset deriv

2. Transactions with Related Parties and Other Service Providers

Gotham Asset Management, LLC ("Gotham" or the "Adviser") serves as investment adviser to the Funds pursuant to an investment advisory agreement with the Trust (the "Advisory Agreement"). For its services as the investment adviser, each Fund pays the Adviser a fee, which is computed and accrued daily and paid monthly, at an annual rate based on average daily net assets of each Fund as shown in the table below:

^{**} Net amount represents the net receivable from the counterparty in the event of a default.

(1) Prior to July 20, 2020, the investment advisory fee was 2.00%.

The Adviser contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of each Fund to the extent necessary to ensure that the Fund's total operating expenses (exclusive of taxes, "Acquired Fund Fees and Expenses," dividend and interest expense on securities sold short, interest, extraordinary items, and brokerage commissions) and for Total Return, exclusive of management fees, if any, do not exceed the percentages set forth in the table below (on an annual basis) of each Fund's average daily net assets (the "Expense Limitation"). The Expense Limitation will remain in place until the termination date set forth below, unless the Board approves its earlier termination. The table below reflects the Expense Limitation amounts, as a percentage of average daily net assets, in effect during the year ended September 30, 2020.

For all Funds, except for Absolute Return, Enhanced Return, Neutral and Defensive Long 500, the Adviser is entitled to recover, subject to approval by the Board, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless a Fund's expenses are below the Expense Limitation amount. As of September 30, 2020, the amounts of potential reimbursement from the Funds to the Adviser are as follows:

⁽²⁾ For Total Return (the "Fund"), Gotham is not entitled to receive an investment advisory fee on assets invested in mutual funds advised by Gotham (each an "underlying fund" and collectively, the "underlying funds"), but is entitled to receive an investment advisory fee of 1.00% of the Fund's average net assets invested in investments other than an underlying fund. Gotham does not receive an investment advisory fee from the Fund on assets invested in an underlying fund, but does receive an investment advisory fee from each underlying fund as investment adviser to such funds. The Fund does not currently expect to invest in assets other than underlying funds; however, to the extent it does, the Fund will pay an investment advisory fee on such assets.

⁽²⁾ Per the Expense Limitation agreement for the Fund, the expenses subject to the expense limitation are also exclusive of management fees, if any.

5. Securities Lending

All Funds, except for Large Value, may lend securities to financial institutions, such as broker-dealers, and are required to be secured continuously by collateral in cash, cash equivalents, letter of credit or U.S. Government securities maintained on a current basis at an amount at least equal to the market value of the securities loaned. Cash collateral received, pursuant to investment guidelines established by the Funds and approved by the Board, is invested in short-term investments and/or securities consistent with the Fund's investment objective. Securities purchased with cash collateral are included in market value of securities designated as collateral for securities on loan on the Statements of Assets and Liabilities. All such investments are made at the risk of the Funds and, as such, the Funds are liable for investment losses. The Funds pay a fee on the cash collateral received by the Funds at a rate equal to the Federal Funds (Open) rate plus 40 basis points with respect to the cash collateral received on those securities on loan that have a rebate that equals or exceeds the greater of either the Federal Funds (Open) rate minus 10 basis points or zero. These fees are included in the fees on cash collateral on the Statements of Operations. Such loans would involve risks of delay in receiving additional collateral in the event the value of the collateral decreased below the value of the securities loaned or of delay in recovering the securities loaned or even loss of rights in the collateral should the borrower of the securities fail financially. However, loans will be made only to borrowers deemed by the Adviser to be of good standing and only when, in the Adviser's judgment, the income to be earned from the loans justifies the attendant risks. Any loans of a Fund's securities will be fully collateralized and marked to market daily. When the collateral falls below specified amounts, the lending agent will use its best effort to obtain additional collateral on the next business day to meet required amounts under the security lending agreement. Securities on loan are not used as collateral for swaps or as collateral for short securities, if any. During the year ended September 30, 2020, the Funds listed below each had securities lending programs. The income generated from the programs during the year ended September 30, 2020 with respect to such loans was as follows:

| | Market Value | | Market Value | Income Received |
|--------------------|---------------|-----------------|--------------|-----------------|
| | of Securities | Cash Collateral | of Non-cash | from Securities |
| | Loaned | Received | Collateral | Lending |
| Defensive Long 500 | \$1,397,470 | <u> </u> | \$1,432,261 | \$1,339 |

Securities lending transactions are entered into by the Funds under a Master Securities Lending Agreement ("MSLA") which permits the Funds, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset amounts payable by the Funds to the same counterparty against amounts to be received from that counterparty and create one single net payment due to or from the Funds. The following table is a summary of each of the Fund's open securities lending transactions which are subject to a MSLA as of September 30, 2020:

| | | | | unt Not Offset in the Assets and Liabilities | | |
|----------------|---------------------|--|---|---|------------------------------------|----------|

^{*} Amount disclosed is limited to the amount of assets presented in each Statement of Assets and Liabilities. Actual collateral received may be more than the amount shown.

6. Federal Tax Information

The Funds have followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Funds to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Funds had determined that there was no

effect on the financial statements from following this authoritative guidance. In the normal course of business, the Funds are subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

Distributions are determined in accordance with federal income tax regulations, which may differ in amount or character from net investment income and realized gains for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements. To the extent these differences are permanent, such amounts are reclassified within the components of net assets based on the tax treatment; temporary differences do not require reclassifications. Net assets were not affected by these adjustments. The following permanent differences as of September 30, 2020, were primarily attributed to capitalized dividends on short sales, net operating loss write-off, redesignation of dividends paid, equalization utilized and foreign currency reclassifications were reclassified among the following accounts:

| | increase/(Decrease) | |
|-----------------|---------------------|--------------------|
| | Total | Increase/(Decease) |

Ordinary

I ong-Term

Distributions from net investment income and short-term capital gains are treated as ordinary income for federal income tax purposes.

As of September 30, 2020, the components of distributable earnings on a tax basis were as follows:

| | Capital Loss Carryforward | Undistributed Ordinary Income | Undistributed Long-Term Gain | Unrealized Appreciation/ (Depreciation) | Qualified Late-Year Losses | Other Temporary Differences |
|--------------------|------------------------------|-------------------------------------|------------------------------------|---|----------------------------------|-----------------------------------|
| Absolute Return | \$(60,941,538) | \$ — | \$— | \$55,732,434 | \$(47,123,741) | \$— |

| Defensive Long 500 | (18,916,490) | 427,111 | _ | 13,674,434 | | _ |
| Total Return | (1,969,312) | _ | _ | 2,235,059 | (1,573) | _ |

The differences between the book and tax basis components of distributable earnings relate primarily to the timing and recognition of income and gains for federal income tax purposes. The other temporary differences as of September 30, 2020, were primarily

GOTHAM FUNDS

attributed to wash sales on unsettled short sales, deferral of loss on unsettled trades, realized gain/loss on unsettled swaps, straddle losses outstanding, wash sales, amortization of organizational costs, qualified late year losses deferred, capital loss carryforwards not yet utilized and deferred interest expense. Foreign currency and short-term capital gains are reported as ordinary income for federal income tax purposes.

As of September 30, 2020, the federal tax cost, aggregate gross unrealized appreciation and depreciation of securities held by the Funds were as follows:

| | | | | Net Unrealized |
|--------------------|---------------|---------------|----------------|----------------|
| | Federal | Unrealized | Unrealized | Appreciation/ |
| | Tax Cost | Appreciation | (Depreciation) | (Depreciation) |
| Absolute Return | \$429,404,373 | \$117,560,129 | \$(61,827,695) | \$55,732,434 |

| Total Return | 26,274,997 | 3,080,547 | (845,488) | 2,235,059 |

Pursuant to federal income tax rules applicable to regulated investment companies, the Funds may elect to treat certain capital losses between November 1 and September 30 and late year ordinary losses ((i) ordinary losses between January 1 and September 30 or (ii) specified ordinary losses between November 1 and September 30) as occurring on the first day of the following tax year. For the year ended September 30, 2020, any amount of losses elected within the tax return will not be recognized for federal income tax purposes until October 1, 2020. For the year ended September 30, 2020, the Funds deferred to October 1, 2020 the following losses:

| | Late-Year Ordinary | Short-Term Capital | Long-Term Capital |
|-----------------|--------------------|--------------------|-------------------|
| | Losses Deferral | Loss Deferral | Loss Deferral |
| Absolute Return | \$1,735,629 | \$95,429,591 | \$(50,041,479) |

| Large Value | _ | 4,754,359 | (2,600,357) |
| Total Return | 1.573 | _ | <u> </u> |

Accumulated capital losses represent net capital loss carryforwards as of September 30, 2019 that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. The Funds are permitted to carry forward capital losses for an unlimited period. Capital losses that are ocarried forward will retain their character as either short-term or long-term capital losses. As of September 30, 2020, the following Funds had long-term and short-term capital loss carryforwards in the following amounts:

| | Carryforwards |
|--------------------|---------------|
| Absolute Return | \$60,941,538 |
| Enhanced Return | 12,671,992 |
| Neutral | 64,998,761 |
| Defensive Long 500 | 18,916,490 |
| Total Return | 1,969,312 |

For the year ended September 30, 2020, the Funds did not utilized capital losses.

7. Subsequent Events

Management has evaluated the impact of all subsequent events on the Funds through the date the financial statements were available to be issued, and has determined that there are no material subsequent events requiring recognition or disclosure in the financial statements.

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Gotham Absolute Return Fund, Gotham Enhanced Return Fund, Gotham Neutral Fund, Gotham Large Value Fund, Gotham Defensive Long 500 Fund and Gotham Total Return Fund (six of the funds constituting FundVantage Trust, referred to hereafter collectively as the "Funds") as of September 30, 2020, the related statements of operations for the year ended September 30, 2020, the statements of changes in net assets for each of the two years in the period ended September 30, 2020, and for Gotham Absolute Return Fund and Gotham Neutral Fund, the statements of cash flows for the year ended September 30, 2020, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of September 30, 2020, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended September 30, 2020, for Gotham Absolute Return Fund and Gotham Neutral Fund, the results of each of their cash flows for the year then ended and each of the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of September 30, 2020 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

| Total Return | 309,540 | 1,783,702 |

0-4:----

Where appropriate, all designations are based on financial information available as of the date of this annual report and, accordingly, are subject to change. For each item, it is the intention of each Fund to designate the maximum amount permitted under the Internal Revenue Code of 1986, as amended, and the regulations thereunder.

Under the Jobs and Growth Tax Relief Reconciliation Act of 2003, the following percentages of ordinary dividends paid during the fiscal year ended September 30, 2020 were designated as "qualified dividend income", as defined in the Act, and are subject to reduced tax rates:

| Large Value | 100.00% |
|--------------------|---------|
| Defensive Long 500 | 100.00% |
| Total Return | 99.33% |

The percentage of total ordinary income dividends paid qualifying for the corporate dividends received deduction for each Fund is as follows:

| Large Value | 0.25% |
|--------------------|-------|
| Defensive Long 500 | 0.54% |
| Total Return | 1.07% |

The percentage of ordinary income distributions designated as qualified short-term gains pursuant to the American Job Creation Act of 2004 is as follows:

Total Return 100.00%

Because the Funds' fiscal year is not the calendar year, another notification will be sent with respect to calendar year 2020. The second notification, which will reflect the amount, if any, to be used by calendar year taxpayers on their U.S. federal income tax returns will be made in conjunction with Form 1099-DIV and will be mailed in January 2021.

Foreign shareholders will generally be subject to U.S. withholding tax on the amount of their ordinary income dividends. They will generally not be entitled to a foreign tax credit or deduction for the withholding taxes paid by a Fund, if any.

In general, dividends received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income for U.S. federal income tax purposes. However, some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual information reporting.

Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in a Fund.

The Trust's portfolio holdings on Form N-PORT are available on the SEC's website at http://www.sec.gov.

Board Consideration of Investment Advisory Agreement

At a videoconference meeting held on June 22-23, 2020 (the "Meeting"), the Board of Trustees (the "Board" or the "Trustees") of FundVantage Trust (the "Trust"), including a majority of the Trustees who are not "interested persons" within the meaning of Section 2(a)(19) of the Investment Company Act of 1940, as amended (the "1940 Act") (the "Independent Trustees"), unanimously approved the continuation of the Investment Advisory Agreement between Gotham Asset Management, LLC ("Gotham" or the "Adviser") and the Trust (the "Gotham Agreement") on behalf of the Gotham Absolute Return Fund, Gotham Enhanced Return Fund, Gotham Neutral Fund, Gotham Large Value Fund, Gotham Defensive Long 500 Fund and Gotham Total Return Fund (together, the "Gotham Funds"). At the Meeting, the Board considered the continuation of the Gotham Agreement with respect to the Gotham Funds for an additional one year period.

In determining whether to continue the Gotham Agreement for an additional one-year period, the Trustees, including the Independent Trustees, considered information provided by Gotham in response to a request for information in accordance with Section 15(c) of the 1940 Act (the "Gotham 15(c)Response") regarding (i) the services performed for the Gotham Funds, (ii) the size and qualifications of Gotham's portfolio management staff, (iii) any potential or actual material conflicts of interest which may arise in connection with a portfolio manager's management of the Gotham Funds, (iv) investment performance, (v) the financial condition of Gotham, (vi) brokerage selection procedures (including soft dollar arrangements, if any), (vii) the procedures for allocating investment opportunities between the Gotham Funds and other clients, (viii) results of any regulatory examination, including any recommendations or deficiencies noted, (ix) any litigation, investigation or administrative proceeding which may have a material impact on Gotham's ability to service the Gotham Funds, and (x) compliance with the Gotham Funds' investment objectives, policies and practices (including codes of ethics and proxy voting policies), federal securities laws and other regulatory requirements. In addition to the Gotham 15(c) Response, the Trustees received reports at Board meetings throughout the year covering matters such as the relative performance of the Gotham Funds, compliance with the Funds' respective investment objectives, policies, strategies and limitations, compliance of portfolio management personnel with the applicable code of ethics, and adherence to pricing procedures as established by the Board (each, as applicable).

The Board noted that representatives of Gotham joined the Meeting by videoconference and discussed Gotham's history, performance, investment strategy, and compliance program. Representatives of Gotham responded to questions from the Board. In addition to the Gotham 15(c) Response, the Trustees also considered other factors they believed to be relevant to considering the continuation of the Gotham Agreement, including the matters discussed below. In their deliberations, the Trustees did not identify any particular information that was controlling, and different Trustees may have attributed different weights to the various factors. After deliberating, the Trustees determined that the overall arrangement between the Gotham Funds and Gotham, as provided by the terms of the Gotham Agreement, including the advisory fees under the Gotham Agreement, are fair and reasonable in light of the services provided, expenses incurred and such other matters as the Trustees considered relevant.

The Trustees considered the services provided by Gotham to the Gotham Funds. The Trustees considered Gotham's personnel and the depth of Gotham's personnel who provide investment management services to the Gotham Funds and the depth of their experience. Based on the Gotham 15(c) Response, the Trustees concluded that (i) the nature, extent and quality of the services provided by Gotham are appropriate and consistent with the terms of the Gotham Agreement, (ii) that the quality of those services has been, and continues to be, consistent with industry norms, (iii) the Gotham Funds are likely to benefit from the continued provision of those

GOTHAM FUNDS

services, (iv) Gotham has sufficient personnel, with the appropriate skills and experience, to serve the Gotham Funds effectively and has demonstrated its continuing ability to attract and retain qualified personnel, and (v) the satisfactory nature, extent, and quality of services currently provided to the Gotham Funds is likely to continue under the Gotham Agreement.

The Board discussed Gotham's business continuity plan, and its ability to continue to manage the Gotham Funds effectively in light of the recent volatility in financial markets as a result of the COVID-19 virus outbreak.

The Trustees considered the investment performance for the Gotham Funds and Gotham. The Trustees reviewed historical performance charts which showed the performance of the Gotham Funds as compared to their respective benchmark indices and Lipper categories for the since inception, year-to-date, one year, two year, three year, five year and ten year periods ended March 31, 2020 as applicable. The Trustees considered the short term and long term performance of the Gotham Funds, as applicable. The Trustees noted that they considered performance reports provided at Board meetings throughout the year.

Gotham Absolute Return Fund. The Trustees noted that the Gotham Absolute Return Fund underperformed the HFRX Equity Hedge Index for the year-to-date and one year periods ended March 31, 2020 and outperformed the HFRX Equity Hedge Index for the two year, three year, five year and since inception periods ended March 31, 2020. The Trustees further noted that the Gotham Absolute Return Fund outperformed the Lipper Absolute Return Funds Index for the since inception period ended March 31, 2020 and underperformed the Lipper Absolute Return Funds Index for the year-to-date, one year, two year, three year and five year periods ended March 31, 2020.

Gotham Enhanced Return Fund. The Trustees noted that the Gotham Enhanced Return Fund outperformed the Lipper Alternative Long/Short Equity Funds Index for the five year and since inception periods ended March 31, 2020 and underperformed the Lipper Alternative Long/Short Equity Funds Index year-to-date, one year, two year and three year periods ended March 31, 2020. The Trustees further noted that the Gotham Enhanced Return Fund underperformed the S&P 500 Total Return Index for the year-to-date, one year, two year, three year, five year and since inception periods ended March 31, 2020.

Gotham Large Value Fund. The Trustees noted that the Gotham Large Value Fund underperformed the Lipper Multi-Cap Core Funds Index and S&P 500 Total Return Index for the year-to-date, one year, two year, three year and since inception periods ended March 31, 2020.

Gotham Neutral Fund. The Trustees noted that the Gotham Neutral Fund underperformed the ICE BofAML US 3-Month Treasury Bill Index and Lipper Alternative Equity Market Neutral Funds Index for the year to date, one year, two year, three year, five year and since inception periods ended March 31, 2020.

Gotham Defensive Long 500 Fund. The Trustees noted that the Gotham Defensive Long 500 Fund underperformed the S&P 500 Total Return Index for the year-to-date, one year, two year, three year and since inception periods ended March 31, 2020. The Trustees further noted that the Gotham Defensive Long 500 Fund outperformed the Lipper Alternative Long/Short Equity Funds Index for the three year and since inception periods ended March 31, 2020, underperformed the Lipper Alternative Long/Short Equity Funds Index for the year-to-date and one year periods ended March 31, 2020, and performed in line with the Lipper Alternative Long/Short Equity Funds Index for the two year period ended March 31, 2020.

Gotham Total Return Fund. The Trustees noted that the Gotham Total Return Fund Institutional Class shares outperformed the Lipper Alternative Long/Short Equity Funds Index for the three year, five year and since inception periods ended March 31, 2020 and underperformed the Lipper Alternative Long/Short Equity Funds Index for the year-to-date, one year and two year periods ended March 31, 2020. They further noted that the Gotham Total Return Fund Institutional Class shares outperformed the HFRX Equity Hedge Index for the two year, three year, five year and since inception periods ended March 31, 2020 and underperformed the HFRX Equity Hedge Index for the year-to-date and one year periods ended March 31, 2020.

The Trustees concluded that the performance of each of the Gotham Funds was within an acceptable range of performance relative to other mutual funds with similar investment objectives, strategies and policies based on the information provided at the Meeting.

GOTHAM FUNDS

Other Information (Continued) (Unaudited)

The Trustees noted that the representatives of Gotham had provided information regarding its advisory fees and an analysis of these fees in relation to the services provided to the Funds and any other ancillary benefit resulting from the Gotham's relationship with the Funds.

The Trustees also reviewed information regarding the fees Gotham charges to certain other clients and evaluated explanations provided by Gotham as to differences in fees charged to the Funds and other similarly managed accounts, where applicable. The Trustees also reviewed a peer comparison of advisory fees and total expenses for each Gotham Fund versus those funds in the Fund's applicable Lipper category (the "Peer Group"). The Trustees concluded that the advisory fees and services provided by Gotham are consistent with those of other advisers that manage mutual funds with investment objectives, strategies and policies similar to those of the Funds as measured by the information provided by Gotham.

The Board considered, among other data, the specific factors and related conclusions set forth below with respect to each Fund:

Gotham Absolute Return Fund. The contractual advisory fee and net total expense ratio for the Gotham Absolute Return Fund's Institutional Class shares were higher than the median contractual advisory fee and net total expense ratio for those funds in the Gotham Absolute Return Fund's Peer Group.

Gotham Enhanced Return Fund. The contractual advisory fee and net total expense ratio for the Gotham Enhanced Return Fund's Institutional Class shares were higher than the median contractual advisory fee and net total expense ratio for those funds in the Gotham Enhanced Return Fund's Peer Group with \$250 million or less in assets.

Gotham Large Value Fund. The contractual advisory fee and net total expense ratio for the Gotham Large Value Fund's Institutional Class shares were higher than and lower than, respectively, the median contractual advisory fee and net total expense ratio for those funds in the Gotham Large Value Fund's Peer Group with \$250 million or less in assets.

Gotham Neutral Fund. The contractual advisory fee and net total expense ratio for the Gotham Neutral Fund's Institutional Class shares were higher than the median contractual advisory fee and net total expense ratio for those funds in the Gotham Neutral Fund's Peer Group with \$250 million or less in assets.

Gotham Defensive Long 500 Fund. The contractual advisory fee and net total expense ratio for the Gotham Defensive Long 500 Fund's Institutional Class shares were higher than the median contractual advisory fee and net total expense ratio for those funds in the Gotham Defensive Long 500 Fund's Peer Group with \$250 million or less in assets.

Gotham Total Return Fund. The net advisory fee and net total expense ratio for the Gotham Total Return Fund's Institutional Class shares were lower than the median net advisory fee and net total expense ratio for those funds in the Gotham Total Return Fund's Peer Group with \$250 million or less in assets. The Trustees discussed that the Gotham Total Return Fund is a "fund of funds," and that there is no advisory fee in respect of assets invested in other funds advised by Gotham. The Trustees noted that the Gotham Total Return Fund does not collect an advisory fee because it invests only in other series of the Trust advised by Gotham.

The Trustees also discussed the limitations of the comparative expense information provided with respect to each Gotham Fund's Peer Group, given the potential varying nature, extent and quality of the services provided by the advisors of other portfolios included in each of the Peer Groups. Based upon their review, the Trustees concluded that the respective advisory fees for the Gotham Funds were reasonable in light of the high quality of services received by the Funds from Gotham.

The Trustees considered the costs of the services provided by Gotham, the compensation and benefits received by Gotham in providing services to the Gotham Funds, its profitability and certain additional information related to Gotham's financial condition. In addition, the Trustees considered any direct or indirect revenues received by affiliates of Gotham.

The Trustees considered the extent to which economies of scale may be realized relative to fee levels, and whether the advisory fee levels reflect these economies of scale for the benefit of shareholders. The Board noted Gotham's representation that none of the Funds have reached an asset size at which economies of scale would traditionally be considered to exist, and Gotham's belief that breakpoints are not appropriate at this time. The Board further considered Gotham's representation that the nature of various of the Funds' investment strategies were such that future capacity was constrained based on Gotham's ability to implement the strategy above certain asset levels, and as such the Funds' ability to achieve future economies of scale were limited relative to more traditional

asset classes. Based on the foregoing information, the Board concluded that economies of scale did not yet exist for the Funds and that therefore it was not yet necessary to consider whether the fee structure of the Funds provided an adequate mechanism for sharing the benefit of any such economies.

At the Meeting, after consideration of all the factors and taking into consideration the information presented, the Board, including the Independent Trustees, unanimously approved the continuation of the Gotham Agreement for an additional one-year period. In arriving at their decision, the Trustees did not identify any single matter as controlling, but made their determination in light of all the circumstances.

Fund Management (Unaudited)

FundVantage Trust (the "Trust") is governed by a Board of Trustees (the "Board" or the "Trustees"). The primary responsibility of the Trustees is to represent the interest of the Trust's shareholders and to provide oversight management of the Trust.

The following tables present certain information regarding the Board of Trustees and officers of the Trust. None of the Trustees are an "interested person" of the Trust, the Adviser, another investment adviser of a series of the Trust, or Foreside Funds Distributors LLC, the principal underwriter of the Trust ("Underwriter"), within the meaning of the 1940 Act and each Trustee is referred to as an "Independent Trustee" and is listed under such heading below. Employees of certain service providers to the Trust serve as officers of the Trust; such persons are not compensated by the Fund. The address of each Trustee and officer as it relates to the Trust's business is 301 Bellevue Parkway, 2nd Floor, Wilmington, DE 19809.

The Statement of Additional Information for the Funds contains additional information about the Trustees and is available, without charge, upon request, by calling (877) 974-6852.
