Supplement dated April 30, 2021 to the Prospectus dated November 1, 2020 ("Prospectus"), as supplemented

Effective April 30, 2021, the following changes have been incorporated into the Prospectus for each Fund.

1. Under the section titled "Choosing a Share Class" the first two paragraphs under the subsection "Sales Charge Reductions and Waivers for Class A Shares" has been deleted and replaced with the following:

There are a number of ways you can reduce your sales charges, which we describe below. In order to obtain a Class A sales charge reduction or waiver, you must provide your financial intermediary or the Fund's transfer agent, at the time of purchase, with current information regarding shares of any Victory Funds held in other accounts. This information must include account statements or other records (including written representations from the intermediary holding the shares) that indicate that a sales charge was paid for shares of the Victory Funds held in: any accounts (e.g., retirement accounts) established (i) with the Victory Funds and your investment professional; (ii) with other financial intermediaries; and (iii) in the name of immediate family household members (spouse or domestic partner and children under 21).

The availability of a sales charge reduction or waiver discussed below will depend upon whether you purchase your shares directly from the Fund or through a financial intermediary. If you are eligible for a sales charge reduction because you own shares of other Victory Funds, you must notify the Fund or your financial intermediary at the time of purchase of any relationship or other facts qualifying you for sales charge reductions or waivers. Some intermediaries impose different policies for sales charge waivers and reductions. These variations are described in **Appendix A**—**Variations in Sales Charge Reductions and Waivers Available Through Certain Intermediaries**. Except as described with respect to the intermediaries specified in Appendix A, all Class A shares are subject to the terms stated below. In order to obtain waivers and discounts that are not available through your intermediary, you must purchase Fund shares directly from the Fund or through another intermediary.

- 2. The sub bullets *Letter of Intent*, *Right of Accumulation*, and *Combination Privilege* under the subsection "Sales Charge Reductions and Waivers for Class A Shares" have been deleted and replaced with the following:
 - ♦ Letter of Intent If you anticipate purchasing \$50,000 or more of Class A shares of the Fund, including any purchase of other Victory Funds of any share class (except money market funds and assets held in group retirement plans), within a 13-month period, you may qualify for a sales charge breakpoint as though the total quantity were invested in one lump sum. In order to qualify for the reduced sales charge, you must submit a non-binding Letter of Intent (the "Letter") within 90 days of the start of the purchases. Each investment you make after signing the Letter will be entitled to the sales charge applicable to the total investment indicated in the Letter. You must start with a minimum initial investment of at least 5.00% of the total amount you intend to purchase. A portion of the shares purchased under the Letter will be held in

escrow until the total investment has been completed. In the event you do not complete your commitment set forth in the Letter in the time period specified, sufficient escrowed shares will be redeemed to pay any applicable front-end sales charges;

- ❖ Right of Accumulation You may add the value of any other Victory Funds of any share class that you already own (except money market funds and any assets held in group retirement plans), to the amount of your next Class A investment to determine if your additional investment will qualify for a sales charge breakpoint. The value of the other Victory Funds of any share class you already own (except money market funds and any assets held in group retirement plants) will be calculated by using the greater of the current value or the original investment amount. You may be eligible for reduced sales charges on future purchases of Class A shares of the Fund after you have reached a new breakpoint. To determine your reduced sales charge, you can add the value of your Victory Funds of any share class (except money market funds and any assets held in group retirement plans) (or those held by your spouse (including domestic partner) and your children under age 21), determined at the previous day's NAV, to the amount of your new purchase, valued at the current offering price. To ensure that the reduced price will be received pursuant to the Fund's Right of Accumulation, you or your investment professional must inform the Fund's transfer agent that the Right applies each time shares are purchased and provide the transfer agent with sufficient information to permit confirmation of qualification;
- ♦ Combination Privilege You may combine the value in accounts of multiple Victory Funds of any share class (except money market funds and any assets held in group retirement plans) and in accounts of household members of your immediate family (spouse or domestic partner and children under 21) to achieve a reduced sales charge on your added investment;
- 3. Effective on or after May 1, 2021, the following replaces the Edward D. Jones section under Appendix A in its entirety.

Edward D. Jones & Co., L.P. ("Edward Jones")

Policies Regarding Transactions Through Edward Jones

The following information has been provided by Edward Jones:

The following information supersedes prior information with respect to transactions and positions held in fund shares through an Edward Jones system. Clients of Edward Jones (also referred to as "shareholders") purchasing fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from discounts and waivers described elsewhere in the mutual fund prospectus or statement of additional information ("SAI") or through another broker-dealer. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of the Victory Funds, or other facts qualifying the purchaser for discounts or waivers. Edward Jones can ask for documentation of such circumstance. Shareholders should contact Edward Jones if they have questions regarding their eligibility for these discounts and waivers.

Breakpoints

Breakpoint pricing, otherwise known as volume pricing, at dollar thresholds as described in the prospectus.

Rights of Accumulation ("ROA")

The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except certain money market funds and any assets held in group retirement plans) of the mutual fund family held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations ("pricing groups"). If grouping assets as a shareholder, this includes all share classes held on the Edward Jones platform and/or held on

- another platform. The inclusion of eligible fund family assets in the ROA calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Money market funds are included only if such shares were sold with a sales charge at the time of purchase or acquired in exchange for shares purchased with a sales charge.
- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.
- ROA is determined by calculating the higher of cost minus redemptions or market value (current shares x NAV).

Letter of Intent ("LOI")

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible fund family assets in the LOI calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not adjusted under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.
- If the employer maintaining a SEP IRA plan and/or SIMPLE IRA plan has elected to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping, LOIs will also be at the plan-level and may only be established by the employer.

Sales Charge Waivers – Sales Charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and their family members who are in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing and remains in good standing pursuant to Edward Jones' policies and procedures.
- Shares purchased in an Edward Jones fee-based program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
- Shares purchased from the proceeds of redeemed shares of the same fund family so long as the following conditions are met: 1) the proceeds are from the sale of shares within 60 days of the purchase, and 2) the sale and purchase are made in the same share class and the same account or the purchase is made in an individual retirement account with proceeds from liquidations in a non-retirement account.
- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.
- Exchanges from Class C shares to Class A shares of the same fund, generally, in the 84th month following the anniversary of the purchase date or earlier at the discretion of Edward Jones.

Contingent Deferred Sales Charge ("CDSC") Waivers

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder is responsible to pay the CDSC except in the following conditions:

- Death or disability of the shareholder.
- Systematic withdrawals with up to 10% per year of the account value.
- Return of excess contributions from an Individual Retirement Account ("IRA").

- Shares sold as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares sold to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones.
- Shares exchanged in an Edward Jones fee-based program.
- Shares acquired through NAV reinstatement.
- Shares redeemed at the discretion of Edward Jones for Minimum Balances, as described below.

Other Important Information Regarding Transactions Through Edward Jones

Minimum Purchase Amounts

Initial purchase minimum: \$250

Subsequent purchase minimum: none

Minimum Balances

- Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:
- A fee-based account held on an Edward Jones platform
- A 529 account held on an Edward Jones platform
- An account with an active systematic investment plan or LOI

Exchanging Share Classes

• At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder's holdings in a fund to Class A shares of the same fund.

Beginning January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Victory Funds' shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Victory Funds or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on www.VictoryFunds.com, and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change, and you need not take any action.

You may elect to receive shareholder reports and other communications from the Victory Funds or your financial intermediary electronically sooner than January 1, 2021 by notifying your financial intermediary directly or, if you are a direct investor, by calling 800-235-8396 or by sending an e-mail request to TA.Processing@FISGlobal.com.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your reports. If you invest directly with the Victory Funds, you can call 800-235-8396 or send an e-mail request to TA.Processing@FISGlobal.com. Your election to receive reports in paper will apply to all Victory Funds you hold directly or through your financial intermediary.

As with all mutual funds, the Securities and Exchange Commission has not approved or disapproved these securities or determined whether this Prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

Investment Objective

The Victory Integrity Discovery Fund (the "Fund") seeks to provide capital appreciation.

Fund Fees and Expenses

The following table describes the fees and expenses that you may pay, directly or indirectly, to invest in the Fund. The annual fund operating expenses for the Fund are based on expenses incurred during the Fund's most recently completed fiscal year.

Shareholder Fees (paid directly from your investment)	
	Member Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (load) (as a percentage of the lower of purchase or sale price)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.00%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses	3.13%
Total Annual Fund Operating Expenses	4.13%
Fee Waiver/Expense Reimbursement	(2.63)%

Victory Capital Management Inc., the Fund's investment adviser, ("Adviser") has contractually agreed to waive its management fee and/or reimburse expenses so that the total annual operating expenses (excluding certain items such as interest, taxes and brokerage commissions) do not exceed 1.50% of the Fund's Member Class shares through at least October 31, 2021. The Adviser is permitted to recoup advisory fees waived and expenses reimbursed for up to three years after the fiscal year in which the waiver or reimbursement took place, subject to the lesser of any operating expense limits in effect at the time of: (a) the original waiver or expense reimbursement; or (b) the recoupment, after giving effect to the recoupment amount. This agreement may only be terminated by the Fund's Board of Trustees.

Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement¹

Example:

The following example is designed to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods shown and then sell or continue to hold all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The amounts shown reflect any fee waiver/expense reimbursement in place through its expiration date. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Member Class	\$153	\$1,022	\$1,908	\$4,192

Portfolio Turnover:

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover will generally indicate higher transaction costs, resulting in higher taxes when Fund shares are held in a taxable account. These costs, which are not

reflected in annual Fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal period, the Fund's portfolio turnover rate was 40% of the average value of its portfolio.

Principal Investment Strategy

Victory Capital Management Inc. ("Adviser") pursues the Fund's investment objective by investing, under normal circumstances, at least 80% of the Fund's assets in equity securities of micro-capitalization companies. Micro-capitalization companies are those companies with market capitalizations at the time of purchase lower than the largest company in the bottom 75% (based on index weightings) of the Russell 2000[®] Index, which as of September 30, 2020 included companies with market capitalizations below \$3.3 billion. The size of companies in the index changes with market conditions and the composition of the index.

The Fund focuses on undiscovered, micro-capitalization companies in its attempt to provide investors with potentially higher returns than a fund that invests primarily in larger, more established companies. Since micro-capitalization companies are generally not as well known to investors and have less of an investor following than larger companies, the Adviser believes these inefficiencies in the marketplace may provide higher returns.

Although the Fund will be invested primarily in domestic securities, up to 25% of the Fund's assets may be invested in foreign securities, including depositary receipts such as American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs).

From time to time, due to changes in sector weights of the benchmark index, the Fund's investments can be more focused in companies in one or more economic sectors, such as the financials sector.

Principal Risks

The Fund's investments are subject to the following principal risks:

Equity Risk — The value of the equity securities in which the Fund invests may decline in response to developments affecting individual companies and/or general economic conditions in the United States or abroad. A company's earnings or dividends may not increase as expected (or may decline) because of poor management, competitive pressures, reliance on particular suppliers or geographical regions, labor problems or shortages, corporate restructurings, fraudulent disclosures, man-made or natural disasters, military confrontations or wars, terrorism, public health crises, or other events, conditions and factors. Price changes may be temporary or last for extended periods.

Stock Market Risk — Overall stock market risks may affect the value of the Fund. Domestic and international factors such as political events, war, trade disputes, interest rate levels and other fiscal and monetary policy changes, pandemics and other public health crises and related geopolitical events, as well as environmental disasters such as earthquakes, fires and floods, may add to instability in world economies and markets generally. The impact of these and other factors may be short-term or may last for extended periods.

Micro-Capitalization Stock Risk – Micro-capitalization companies tend to be less seasoned and may lose market share or profits to a greater extent than larger, more established companies. Since micro-capitalization company stocks typically have narrower markets and are traded in lower volumes than larger company stocks, they may be more difficult to purchase and sell. Micro-capitalization companies may have limited markets, product lines, or financial resources and lack management experience and may experience higher failure rates than larger companies.

Foreign Securities Risk — Foreign securities (including depositary receipts) are subject to political, regulatory, and economic risks not present in domestic investments. Foreign securities could be affected by factors not present in the U.S., including expropriation, confiscation of property, and difficulties in enforcing contracts. Compared to U.S. companies, there generally is less publicly

available information about foreign companies and there may be less governmental regulation and supervision of foreign companies. Foreign securities generally experience more volatility than their domestic counterparts. In addition, to the extent investments are made in a limited number of countries, events in those countries will have a more significant impact on the Fund. Fluctuations in the exchange rates between the U.S. dollar and foreign currencies, currency exchange control regulations, and restrictions or prohibitions on the repatriation of foreign currencies may negatively affect an investment.

Sector Risk — To the extent the Fund focuses in one or more sectors, such as the financials sector, market or economic factors impacting those sectors could have a significant effect on the value of the Fund's investments and could make the Fund's performance more volatile.

Financials Sector Risk — The Fund's investments in companies within the financials sector means that market or economic factors impacting that sector could have a significant effect on the value of the Fund's investments and could make the Fund's performance more volatile. Financial companies, such as retail and commercial banks, insurance companies and financial services companies, are especially subject to the adverse effects of economic recession, currency exchange rates, extensive government regulation, decreases in the availability of capital, volatile interest rates, portfolio concentrations in geographic markets, industries or products (such as commercial and residential real estate loans) and competition from new entrants in their fields of business.

Investment Style Risk — Different types of investment styles, for example growth or value, tend to perform differently and shift into and out of favor with investors depending on changes in market and economic sentiment and conditions. As a result, the Fund's performance may at times be worse than the performance of other mutual funds that invest more broadly or that have different investment styles.

Liquidity Risk — Lack of a ready market or restrictions on resale may limit the ability of the Fund to dispose of certain holdings quickly or at prices that represent true market value in the judgment of the Adviser. In addition, the Fund, by itself or together with other accounts managed by the Adviser, may hold a position in a security that is large relative to the typical trading volume for that security, which can make it difficult for the Fund to dispose of the position at an advantageous time or price. Illiquid securities and relatively less liquid securities may also be difficult to value. Liquidity risk may also refer to the risk that the Fund may not be able to pay redemption proceeds within the allowable time period because of unusual market conditions, unusually high volume of redemptions, or other reasons. To meet redemption requests or to raise cash to pursue other investment opportunities, the Fund may be forced to sell securities at an unfavorable time and/or under unfavorable conditions, which may adversely affect the Fund.

Management Risk — The portfolio managers may not execute the Fund's principal investment strategy effectively.

You may lose money by investing in the Fund. There is no guarantee that the Fund will achieve its objective. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency.

By itself, the Fund does not constitute a complete investment plan and should be considered a long-term investment for investors who can afford to weather changes in the value of their investment.

Investment Performance

The bar chart and table that follow are intended to help you understand some of the risks of investing in the Fund. The information presented is for that of the Fund's Class Y shares (which are not offered by this prospectus). The bar chart shows you how the Fund's calendar year performance has varied over the past 10 years (or the life of the Fund if shorter). The table compares the average annual total returns of the Fund's Class Y shares over the same period to a broad measure of market performance. We assume reinvestment of dividends and distributions.

While no information is shown for the Member Class shares (because they were not offered for sale as of June 30, 2020), annual returns for Member Class shares would have been substantially similar to those shown here. Member Class shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that Class Y shares have lower expenses and, as a result, annual returns would be higher.

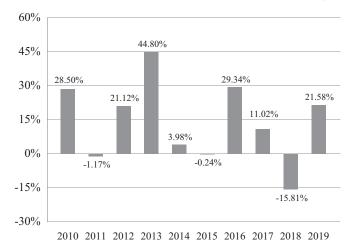

Calendar Year Returns for Class Y Shares

During the periods shown in the chart:

Russell Microcap® Value Index

reflects no deduction for fees, expenses or taxes.

(The annual return in the bar chart is for the Fund's Class Y shares. Due to differing charges and expenses, the performance of classes not shown in the bar chart will differ.)

The year-to-date return of the Fund's Class Y shares as of September 30, 2020, was -28.63%.

Highest Quarter	20.75%		ecember :	31, 2011
Lowest Quarter	-22.09%	S	September	30, 2011
Average Annual Total Returns (For the Periods Ended December 31, 2019)		1 Year	5 Years	10 Years
CLASS Y Before Taxes		21.58%	7.95%	13.00%
CLASS Y After Taxes on Distributions		20.96%	6.03%	11.19%
CLASS Y After Taxes on Distributions and Sale of Fund Shares		13.21%	5.93%	10.54%
Index				

Returns

22.43%

Quarter ended

6.57%

11.26%

After-tax returns use the historical highest individual federal marginal income tax rates and do not reflect the effect of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown. After-tax returns shown are not relevant if you own your Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for only one share class. The after-tax returns for other classes will vary.

Management of the Fund

Investment Adviser

The Adviser serves as the Fund's investment adviser. The portfolio managers primarily responsible for day-to-day management of the Fund are members of the Adviser's Integrity Asset Management ("Integrity") investment franchise.

Portfolio Managers

	Title	Tenure with the Fund
Daniel J. DeMonica, CFA	Senior Portfolio Manager	Since 2011
Mirsat Nikovic	Portfolio Manager	Since 2011
Sean A. Burke	Portfolio Manager	Since 2015
Michael P. Wayton	Portfolio Manager	Since November 2018

Purchase and Sale of Fund Shares

Investment Minimums	Member Class
Minimum Initial Investment	\$3,000
Minimum Subsequent Investments	\$ 50

You may redeem your shares on any day the Fund is open for business. Redemption requests may be made by telephone (with prior appropriate approval) or by mail.

When you buy and redeem shares, the Fund will price your transaction at the next-determined net asset value ("NAV") after the Fund receives your request in good order, which means that your request contains all the required documentation, and that all documents contain required signatures or signature guarantees from a financial institution.

Tax Information

The Fund's distributions are taxable whether you receive them in cash, additional shares of the Fund or you reinvest them in shares of another Victory Fund, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Taxes may be imposed on withdrawals from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the financial intermediary and its financial advisor to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary's website for more information.

Investment Objective

The Victory Integrity Mid-Cap Value Fund (the "Fund") seeks to provide capital appreciation.

Fund Fees and Expenses

The following table describes the fees and expenses that you may pay, directly or indirectly, to invest in the Fund. The annual fund operating expenses for the Fund are based on expenses incurred during the Fund's most recently completed fiscal year.

Shareholder Fees (paid directly from your investment)	
	Member Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (load) (as a percentage of the lower of purchase or sale price)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.75%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses	3.12%
Total Annual Fund Operating Expenses	3.87%
Fee Waiver/Expense Reimbursement	(3.02)%

Victory Capital Management Inc., the Fund's investment adviser, ("Adviser") has contractually agreed to waive its management fee and/or reimburse expenses so that the total annual operating expenses (excluding certain items such as interest, taxes and brokerage commissions) do not exceed 0.85% of the Fund's Member Class shares through at least October 31, 2021. The Adviser is permitted to recoup advisory fees waived and expenses reimbursed for up to three years after the fiscal year in which the waiver or reimbursement took place, subject to the lesser of any operating expense limits in effect at the time of: (a) the original waiver or expense reimbursement; or (b) the recoupment, after giving effect to the recoupment amount. This agreement may only be terminated by the Fund's Board of Trustees.

Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement¹

Example:

The following example is designed to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods shown and then sell or continue to hold all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The amounts shown reflect any fee waiver/expense reimbursement in place through its expiration date. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Member Class	\$87	\$909	\$1,753	\$3,946

Portfolio Turnover:

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover will generally indicate higher transaction costs, resulting in higher taxes when Fund shares are held in a taxable account. These costs, which are not

reflected in annual Fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal period, the Fund's portfolio turnover rate was 82% of the average value of its portfolio.

Principal Investment Strategy

Victory Capital Management Inc. ("Adviser") pursues the Fund's investment objective by investing, under normal circumstances, at least 80% of the Fund's assets in equity securities of mid-capitalization companies.

Mid-capitalization companies are those companies with market capitalizations at the time of purchase within the range of companies included in the Russell Midcap® Index (\$1.5 billion to \$48.0 billion as of September 30, 2020). The size of companies in the index changes with market conditions and the composition of the index. The Fund may invest up to 25% of its assets in foreign securities, including depositary receipts such as American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs).

From time to time, the Fund may focus its investments in companies in one or more economic sectors, including the financials sector.

Principal Risks

The Fund's investments are subject to the following principal risks:

Equity Risk — The value of the equity securities in which the Fund invests may decline in response to developments affecting individual companies and/or general economic conditions in the United States or abroad. A company's earnings or dividends may not increase as expected (or may decline) because of poor management, competitive pressures, reliance on particular suppliers or geographical regions, labor problems or shortages, corporate restructurings, fraudulent disclosures, man-made or natural disasters, military confrontations or wars, terrorism, public health crises, or other events, conditions and factors. Price changes may be temporary or last for extended periods.

Stock Market Risk — Overall stock market risks may affect the value of the Fund. Domestic and international factors such as political events, war, trade disputes, interest rate levels and other fiscal and monetary policy changes, pandemics and other public health crises and related geopolitical events, as well as environmental disasters such as earthquakes, fires and floods, may add to instability in world economies and markets generally. The impact of these and other factors may be short-term or may last for extended periods.

Mid-Capitalization Stock Risk — Mid-sized companies may be subject to a number of risks not associated with larger, more established companies, potentially making their stock prices more volatile and increasing the risk of loss.

Foreign Securities Risk — Foreign securities (including depositary receipts) are subject to political, regulatory, and economic risks not present in domestic investments. Foreign securities could be affected by factors not present in the U.S., including expropriation, confiscation of property, and difficulties in enforcing contracts. Compared to U.S. companies, there generally is less publicly available information about foreign companies and there may be less governmental regulation and supervision of foreign companies. Foreign securities generally experience more volatility than their domestic counterparts. In addition, to the extent investments are made in a limited number of countries, events in those countries will have a more significant impact on the Fund. Fluctuations in the exchange rates between the U.S. dollar and foreign currencies, currency exchange control regulations, and restrictions or prohibitions on the repatriation of foreign currencies may negatively affect an investment.

Sector Risk — To the extent the Fund focuses in one or more sectors, such as the financials sector, market or economic factors impacting those sectors could have a significant effect on the value of the Fund's investments and could make the Fund's performance more volatile.

Financials Sector Risk — The Fund's investments in companies within the financials sector means that market or economic factors impacting that sector could have a significant effect on the value of the Fund's investments and could make the Fund's performance more volatile. Financial companies, such as retail and commercial banks, insurance companies and financial services companies, are especially subject to the adverse effects of economic recession, currency exchange rates, extensive government regulation, decreases in the availability of capital, volatile interest rates, portfolio concentrations in geographic markets, industries or products (such as commercial and residential real estate loans) and competition from new entrants in their fields of business.

Investment Style Risk — Different types of investment styles, for example growth or value, tend to perform differently and shift into and out of favor with investors depending on changes in market and economic sentiment and conditions. As a result, the Fund's performance may at times be worse than the performance of other mutual funds that invest more broadly or that have different investment styles.

Liquidity Risk — Lack of a ready market or restrictions on resale may limit the ability of the Fund to dispose of certain holdings quickly or at prices that represent true market value in the judgment of the Adviser. In addition, the Fund, by itself or together with other accounts managed by the Adviser, may hold a position in a security that is large relative to the typical trading volume for that security, which can make it difficult for the Fund to dispose of the position at an advantageous time or price. Illiquid securities and relatively less liquid securities may also be difficult to value. Liquidity risk may also refer to the risk that the Fund may not be able to pay redemption proceeds within the allowable time period because of unusual market conditions, unusually high volume of redemptions, or other reasons. To meet redemption requests or to raise cash to pursue other investment opportunities, the Fund may be forced to sell securities at an unfavorable time and/or under unfavorable conditions, which may adversely affect the Fund.

Management Risk — The portfolio managers may not execute the Fund's principal investment strategy effectively.

You may lose money by investing in the Fund. There is no guarantee that the Fund will achieve its objective. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency.

By itself, the Fund does not constitute a complete investment plan and should be considered a long-term investment for investors who can afford to weather changes in the value of their investment.

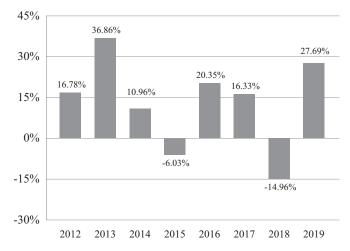

Investment Performance

The bar chart and table that follow are intended to help you understand some of the risks of investing in the Fund. The information presented is for that of the Fund's Class Y shares (which are not offered by this prospectus). The bar chart shows you how the Fund's calendar year performance has varied over the past 10 years (or the life of the Fund if shorter). The table compares the average annual total returns of the Fund's Class Y shares over the same period to a broad measure of market performance. We assume reinvestment of dividends and distributions.

While no information is shown for the Member Class shares (because they were not offered for sale as of June 30, 2020), annual returns for Member Class shares would have been substantially similar to those shown here. Member Class shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that Class Y shares have lower expenses and, as a result, annual returns would be higher.

Calendar Year Returns for Class Y Shares

(The annual return in the bar chart is for the Fund's Class Y shares. Due to differing charges and expenses, the performance of classes not shown in the bar chart will differ.)

The year-to-date return of the Fund's Class Y shares as of September 30, 2020, was -15.10%.

During the periods shown in the chart:	Returns	Quarter ended
Highest Quarter	16.79%	December 31, 2011
Lowest Quarter	-17.64%	December 31, 2018

Average Annual Total Returns (For the Periods Ended December 31, 2019)	1 Year	5 Years	Life of Fund ¹
CLASS Y Before Taxes	27.69%	7.40%	10.55%
CLASS Y After Taxes on Distributions	27.47%	6.62%	9.92%
CLASS Y After Taxes on Distributions and Sale of Fund Shares	16.56%	5.66%	8.50%
Index			
Russell Midcap® Value Index reflects no deduction for fees, expenses or taxes.	27.06%	7.62%	10.82%

¹ Inception date of Class Y shares is July 5, 2011

After-tax returns use the historical highest individual federal marginal income tax rates and do not reflect the effect of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown. After-tax returns shown are not relevant if you own your Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for only one share class. The after-tax returns for other classes will vary.

Management of the Fund

Investment Adviser

The Adviser serves as the Fund's investment adviser. The portfolio managers primarily responsible for day-to-day management of the Fund are members of the Adviser's Integrity Asset Management ("Integrity") investment franchise.

Portfolio Managers

	Title	Tenure with the Fund
Daniel G. Bandi, CFA	Chief Investment Officer	Since inception
Daniel J. DeMonica, CFA	Senior Portfolio Manager	Since inception
Adam I. Friedman	Senior Portfolio Manager	Since inception
Joe A. Gilbert, CFA	Portfolio Manager	Since inception
J. Bryan Tinsley, CFA	Portfolio Manager	Since inception
Michael P. Wayton	Portfolio Manager	Since November 2018

Purchase and Sale of Fund Shares

Investment Minimums	Member Class
Minimum Initial Investment	\$3,000
Minimum Subsequent Investments	\$ 50

You may redeem your shares on any day the Fund is open for business. Redemption requests may be made by telephone (with prior appropriate approval) or by mail.

When you buy and redeem shares, the Fund will price your transaction at the next-determined net asset value ("NAV") after the Fund receives your request in good order, which means that your request contains all the required documentation, and that all documents contain required signatures or signature guarantees from a financial institution.

Tax Information

The Fund's distributions are taxable whether you receive them in cash, additional shares of the Fund or you reinvest them in shares of another Victory Fund, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Taxes may be imposed on withdrawals from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the financial intermediary and its financial advisor to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary's website for more information.

Investment Objective

The Victory Integrity Small/Mid-Cap Value Fund (the "Fund") seeks to provide capital appreciation.

Fund Fees and Expenses

The following table describes the fees and expenses that you may pay, directly or indirectly, to invest in the Fund. The annual fund operating expenses for the Fund are based on expenses incurred during the Fund's most recently completed fiscal year.

Shareholder Fees (paid directly from your investment)	
	Member Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (load) (as a percentage of the lower of purchase or sale price)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.80%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses	3.13%
Total Annual Fund Operating Expenses	3.93%
Fee Waiver/Expense Reimbursement	(2.98)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement ¹	0.95%

Victory Capital Management Inc., the Fund's investment adviser, ("Adviser") has contractually agreed to waive its management fee and/or reimburse expenses so that the total annual operating expenses (excluding certain items such as interest, taxes and brokerage commissions) do not exceed 0.95% of the Fund's Member Class shares through at least October 31, 2021. The Adviser is permitted to recoup advisory fees waived and expenses reimbursed for up to three years after the fiscal year in which the waiver or reimbursement took place, subject to the lesser of any operating expense limits in effect at the time of: (a) the original waiver or expense reimbursement; or (b) the recoupment, after giving effect to the recoupment amount. This agreement may only be terminated by the Fund's Board of Trustees.

Example:

The following example is designed to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods shown and then sell or continue to hold all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The amounts shown reflect any fee waiver/expense reimbursement in place through its expiration date. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Member Class	\$97	\$931	\$1,785	\$4,001

Portfolio Turnover:

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover will generally indicate higher transaction costs, resulting in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal period, the Fund's portfolio turnover rate was 72% of the average value of its portfolio.

Principal Investment Strategy

Victory Capital Management Inc. ("Adviser") pursues the Fund's investment objective by investing, under normal circumstances, at least 80% of the Fund's assets in equity securities of small- to mid-capitalization companies. Small- to mid-capitalization companies are those companies with market capitalizations at the time of purchase within the range of companies included in the Russell 2500® Index (\$48.0 million to \$14.2 billion as of September 30, 2020). The size of companies in the index changes with market conditions and the composition of the index.

The Fund may invest up to 25% of its assets in foreign securities, including depositary receipts such as American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs).

From time to time, the Fund may focus its investments in companies in one or more economic sectors, including the financials sector.

Principal Risks

The Fund's investments are subject to the following principal risks:

Equity Risk — The value of the equity securities in which the Fund invests may decline in response to developments affecting individual companies and/or general economic conditions in the United States or abroad. A company's earnings or dividends may not increase as expected (or may decline) because of poor management, competitive pressures, reliance on particular suppliers or geographical regions, labor problems or shortages, corporate restructurings, fraudulent disclosures, man-made or natural disasters, military confrontations or wars, terrorism, public health crises, or other events, conditions and factors. Price changes may be temporary or last for extended periods.

Stock Market Risk — Overall stock market risks may affect the value of the Fund. Domestic and international factors such as political events, war, trade disputes, interest rate levels and other fiscal and monetary policy changes, pandemics and other public health crises and related geopolitical events, as well as environmental disasters such as earthquakes, fires and floods, may add to instability in world economies and markets generally. The impact of these and other factors may be short-term or may last for extended periods.

Smaller Capitalization Stock Risk — Small capitalization companies are subject to a number of risks not associated with larger, more established companies, potentially making their stock prices more volatile and increasing the risk of loss. Smaller companies may have limited markets, product lines, or financial resources and lack management experience and may experience higher failure rates than larger companies.

Foreign Securities Risk — Foreign securities (including depositary receipts) are subject to political, regulatory, and economic risks not present in domestic investments. Foreign securities could be affected by factors not present in the U.S., including expropriation, confiscation of property, and difficulties in enforcing contracts. Compared to U.S. companies, there generally is less publicly available information about foreign companies and there may be less governmental regulation and supervision of foreign companies. Foreign securities generally experience more volatility than their domestic counterparts. In addition, to the extent investments are made in a limited number of countries, events in those countries will have a more significant impact on the Fund. Fluctuations in

the exchange rates between the U.S. dollar and foreign currencies, currency exchange control regulations, and restrictions or prohibitions on the repatriation of foreign currencies may negatively affect an investment.

Sector Risk — To the extent the Fund focuses in one or more sectors, such as the financials sector, market or economic factors impacting those sectors could have a significant effect on the value of the Fund's investments and could make the Fund's performance more volatile.

Financials Sector Risk — The Fund's investments in companies within the financials sector means that market or economic factors impacting that sector could have a significant effect on the value of the Fund's investments and could make the Fund's performance more volatile. Financial companies, such as retail and commercial banks, insurance companies and financial services companies, are especially subject to the adverse effects of economic recession, currency exchange rates, extensive government regulation, decreases in the availability of capital, volatile interest rates, portfolio concentrations in geographic markets, industries or products (such as commercial and residential real estate loans) and competition from new entrants in their fields of business.

Investment Style Risk — Different types of investment styles, for example growth or value, tend to perform differently and shift into and out of favor with investors depending on changes in market and economic sentiment and conditions. As a result, the Fund's performance may at times be worse than the performance of other mutual funds that invest more broadly or that have different investment styles.

Liquidity Risk — Lack of a ready market or restrictions on resale may limit the ability of the Fund to dispose of certain holdings quickly or at prices that represent true market value in the judgment of the Adviser. In addition, the Fund, by itself or together with other accounts managed by the Adviser, may hold a position in a security that is large relative to the typical trading volume for that security, which can make it difficult for the Fund to dispose of the position at an advantageous time or price. Illiquid securities and relatively less liquid securities may also be difficult to value. Liquidity risk may also refer to the risk that the Fund may not be able to pay redemption proceeds within the allowable time period because of unusual market conditions, unusually high volume of redemptions, or other reasons. To meet redemption requests or to raise cash to pursue other investment opportunities, the Fund may be forced to sell securities at an unfavorable time and/or under unfavorable conditions, which may adversely affect the Fund.

Management Risk — The portfolio managers may not execute the Fund's principal investment strategy effectively.

You may lose money by investing in the Fund. There is no guarantee that the Fund will achieve its objective. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency.

By itself, the Fund does not constitute a complete investment plan and should be considered a long-term investment for investors who can afford to weather changes in the value of their investment.

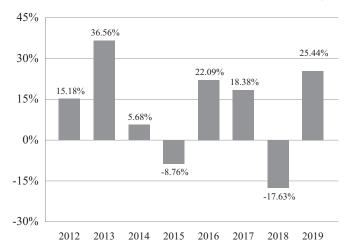

Investment Performance

The bar chart and table that follow are intended to help you understand some of the risks of investing in the Fund. The information presented is for that of the Fund's Class Y shares (which are not offered by this prospectus). The bar chart shows you how the Fund's calendar year performance has varied over the past 10 years (or the life of the Fund if shorter). The table compares the average annual total returns of the Fund's Class Y shares over the same period to a broad measure of market performance. We assume reinvestment of dividends and distributions.

While no information is shown for the Member Class shares (because they were not offered for sale as of June 30, 2020), annual returns for Member Class shares would have been substantially similar to those shown here. Member Class shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that Class Y shares have lower expenses and, as a result, annual returns would be higher.

Calendar Year Returns for Class Y Shares

(The annual return in the bar chart is for the Fund's Class Y shares. Due to differing charges and expenses, the performance of classes not shown in the bar chart will differ.)

The year-to-date return of the Fund's Class Y shares as of September 30, 2020, was -20.97%.

During the periods shown in the chart:	Returns	Quarter ended
Highest Quarter	18.31%	December 31, 2011

Purchase and Sale of Fund Shares

Investment Minimums	Member Class
Minimum Initial Investment	\$3,000
Minimum Subsequent Investments	\$ 50

You may redeem your shares on any day the Fund is open for business. Redemption requests may be made by telephone (with prior appropriate approval) or by mail.

When you buy and redeem shares, the Fund will price your transaction at the next-determined net asset value ("NAV") after the Fund receives your request in good order, which means that your request contains all the required documentation, and that all documents contain required signatures or signature guarantees from a financial institution.

Tax Information

The Fund's distributions are taxable whether you receive them in cash, additional shares of the Fund or you reinvest them in shares of another Victory Fund, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Taxes may be imposed on withdrawals from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the financial intermediary and its financial advisor to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary's website for more information.

Additional Fund Information

Victory Capital Management Inc., which we refer to as the "Adviser" throughout the Prospectus, manages each Fund.

The Victory Integrity Discovery Fund, Victory Integrity Mid-Cap Value Fund and Victory Integrity Small/Mid-Cap Value Fund (the "Funds") are each managed by the Adviser, who also manages other funds, each having distinct investment management objectives, strategies, risks, and policies. Together, these funds are referred to in this Prospectus as the "Victory Funds" or, more simply, the "Funds."

The following section describes additional information about the principal investment strategy the Funds will use under normal market conditions to pursue their investment objectives, as well as any secondary strategies the Funds may use, and the related risks. This Prospectus does not attempt to describe all of the various investment techniques and types of investments that the Adviser may use in managing the Funds. The SAI includes more information about the Funds, their investments, and the related risks. Under adverse, unstable or abnormal market conditions, a Fund may be unable to pursue or achieve its investment objective and, for temporary purposes, may invest some or all of its assets in a variety of instruments or assets, including high-quality fixed-income securities, cash and cash equivalents. For cash management purposes, each Fund may hold all or a portion of its assets in cash, short-term money market instruments or shares of other investment companies. These positions may reduce the benefit from any upswing in the market, cause a Fund to fail to meet its investment objective and increase a Fund's expenses.

The Adviser's Investment Process

When selecting securities for a Fund, the Adviser seeks out companies that appear to be undervalued according to certain financial measurements of their intrinsic net worth or business prospects. The Adviser employs a value-oriented approach that focuses on securities that offer value with improving investor sentiment. The Adviser finds these value-oriented investments by, among other things: (1) rigorously analyzing the company's financial characteristics and assessing the quality of the company's management; (2) considering comparative price-to-book, price-to-sales and price-to-cash flow ratios; and (3) analyzing cash flows to identify stocks with the most attractive potential returns.

The Adviser regularly reviews each Fund's investments and will sell securities when the Adviser believes the securities are no longer attractive because (1) a deterioration in rank of the security in accordance with the Adviser's process, (2) of price appreciation, (3) of a change in the fundamental outlook of the company or (4) other investments available are considered to be more attractive.

Each Fund's investment objective and policy to invest at least 80% of its assets in the type of securities suggested by the Fund's name is non-fundamental and may be changed by the Board of Trustees upon at least 60 days' written notice to shareholders. For purposes of a Fund's 80% investment policy, "assets" means the Fund's net assets plus the amount of any borrowings for investment purposes, but exclusive of any collateral held from securities lending.

If you would like to receive additional copies of any materials, please call the Victory Funds at 800-235-8396 or please visit VictoryFunds.com.

Investments

The following describes the types of securities each Fund may purchase under normal market conditions to achieve its principal investment strategy. The Funds will not necessarily buy all of the securities listed below.

U.S. Equity Securities

Can include common stock, preferred stock, and securities that are convertible or exchangeable into common stock of U.S. corporations.

Foreign Securities

Can include common stock and convertible preferred stock of non-U.S. corporations. Also may include American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs), which are receipts issued by a bank or trust company and evidence ownership of underlying securities issued by foreign corporations, and exchange-traded funds ("ETFs") that invest in foreign corporations.

The Adviser may use other types of investment strategies in pursuing each Fund's overall investment objective. The following describes the types of securities that the Adviser may purchase or investment techniques the Adviser may employ that are not considered to be a part of the Funds' principal investment strategies. Additional securities and techniques are described in the Funds' SAI.

Derivatives

From time to time, the Fund may enter into futures contracts and write covered call options. Derivative instruments are financial contracts whose value is based on an underlying security or asset, a currency exchange rate, an interest rate or a market index. Many types of instruments representing a wide range of potential risks and rewards are derivatives, including futures contracts, options on futures contracts, options, and forward currency exchange contracts. The Fund may, but is not required to, use derivatives for hedging (attempting to reduce risk by offsetting one investment position with another), for cash management (attempting to remain fully invested while maintaining liquidity) or to gain exposure to an investment in a manner other than investing in the asset directly. Hedging may relate to a specific investment, a group of investments, or a Fund's portfolio as a whole. The Fund will not use derivatives for speculative purposes.

Initial Public Offerings (IPOs)

The Funds may at times have the opportunity to invest in securities offered in initial public offerings ("IPOs"). If a Fund's portfolio manager believes that a particular IPO is very likely to increase in value immediately after the initial offering, it is possible (although it will not necessarily be the case) that the Fund will invest in the IPO, even if the security is one in which the Fund might not typically otherwise invest. It is possible, however, that a Fund will lose money on a investment in an IPO, even in such a case.

Investment Companies

The Fund may invest in securities of other investment companies, including ETFs, if those companies invest in securities consistent with the Fund's investment objective and policies. ETFs are investment companies the shares of which are bought and sold on a securities exchange.

Securities Lending

To enhance the return on its portfolio, a Fund may lend portfolio securities to brokers, dealers and financial institutions to realize additional income under guidelines adopted by the Board of Trustees. Each loan will be secured continuously by collateral in the form of cash or securities issued by the U.S. government or its agencies or instrumentalities.

The following provides additional information about the Funds' principal risks and supplements those risks discussed in each Fund's Fund Summary section of this Prospectus.

	Integrity Discovery	Integrity Mid-Cap Value	Integrity Small/Mid-Cap Value
Equity Securities Risk	X	Х	X
Financials Sector Risk	X	Χ	X
Foreign Securities Risk	X	X	X
Investment Style Risk	X	Х	X
Liquidity Risk	X	Х	X
Management Risk	X	Х	X
Sector Focus Risk	Х	Х	X
Smaller-Company Stock Risk	Х	Х	X
Stock Market Risk	Х	Х	X

Equity Securities Risk — The market prices of equity securities, which may include common stocks and other stock-related securities such as preferred stocks, convertible securities and rights and warrants, may fluctuate, sometimes rapidly or unpredictably. A Fund may continue to accept new subscriptions and to make additional investments in equity securities even under general market conditions that a Fund's investment team views as unfavorable for equity securities. The value of a security may decline for reasons that directly relate to the issuer, such as management performance, financial leverage, and reduced demand for the issuer's goods or services or due to general market conditions, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. Unlike debt securities, which have preference to a company's assets in case of liquidation, common stock, are entitled to the residual value after the company meets its other obligations. Unlike common stock, preferred stock generally pays a fixed dividend from a company's earnings and may have a preference over common stock on the distribution of a company's assets in the event of bankruptcy or liquidation. Preferred stockholders' liquidation rights are subordinate to the company's debt holders and creditors. If interest rates rise, the fixed dividend on preferred stocks may be less attractive and the price of preferred stocks may decline. Convertible securities generally offer lower interest or dividend yields than non-convertible securities of similar quality. Convertible securities may gain or lose value due to changes in the issuer's operating results, financial condition, credit rating and changes in interest rates and other general economic, industry and market conditions. Rights and warrants can provide a greater potential for profit or loss than an equivalent investment in the underlying security. Prices of warrants and rights do not necessarily move in tandem with the prices of the underlying securities and therefore are highly volatile and speculative investments.

Financials Sector Risk — A Fund's investments in companies within the financials sector means that market or economic factors impacting that sector could have a significant effect on the value of a Fund's investments and could make a Fund's performance more volatile. Financial services companies are subject to extensive governmental regulation, which may limit both the amounts and types of loans and other financial commitments they can make, the interest rates and fees they can charge, the scope of their activities, the prices they can charge and the amount of capital they must maintain. Profitability is largely dependent on the availability and cost of capital funds and can fluctuate significantly when interest rates change or due to increased competition. In addition, deterioration of the credit markets generally may cause an adverse impact in a broad range of markets, including U.S. and international credit and interbank money markets generally, thereby affecting a wide range of financial institutions and markets. Credit losses resulting from financial difficulties of borrowers and financial losses associated with investment activities can negatively impact the sector. Insurance companies may be subject to severe price competition. Adverse economic, business or political developments could adversely affect financial institutions engaged in mortgage finance or other lending or investing activities directly or indirectly connected to the value of real estate.

Foreign Securities Risk

- Foreign Investments Risk Foreign investments involve certain special risks. For example, compared to U.S. companies, there generally is less publicly available information about foreign companies and there may be less governmental regulation and supervision of foreign stock exchanges, brokers, and listed companies. Foreign issuers may not be subject to the uniform accounting, auditing, and financial reporting standards and practices prevalent in the U.S. Foreign securities markets may be subject to more or less governmental supervision than their U.S. counterparts. Certain of these risks may also apply to some extent to U.S. investments that are denominated in foreign currencies and to investments in U.S. companies that have significant foreign operations.
- Political Risk Foreign securities markets may be more volatile than their counterparts in the U.S. Investments in foreign countries could be affected by factors not present in the U.S., including expropriation, confiscation of property, and difficulties in enforcing contracts. Foreign settlement procedures may also involve additional risks, and foreign issuers can be impacted by changes to trade policies and trade disputes. These factors can make foreign investments more volatile than U.S. investments.
- Liquidity Risk Securities that trade less frequently or with lower trade volume can be more difficult or more costly to buy or sell than more liquid or active investments. Liquidity risk is a factor of the trading volume of a particular investment, as well as the size and liquidity of the entire local market. On the whole, foreign exchanges are smaller and less liquid than U.S. exchanges. See also Liquidity Risk.
- Currency Risk Fluctuations in the exchange rates between the U.S. dollar and foreign currencies may negatively affect an investment. Adverse changes in exchange rates, currency exchange control regulations, and restrictions or prohibitions on the repatriation of foreign currencies may erode or reverse any gains produced by investments denominated in foreign currencies and may widen any losses.
- Legal Risk Legal remedies for investors in foreign countries may be more limited than the legal remedies available in the U.S.

Investment Style Risk — Different types of investment styles, for example growth or value, tend to perform differently and shift into and out of favor with investors depending on changes in market and economic sentiment and conditions. As a result, a Fund's performance may at times be worse than the performance of other mutual funds that invest more broadly or that have different investment styles.

Liquidity Risk — Liquidity risk exists when particular investments cannot be disposed of quickly in the normal course of business. The ability of the Fund to dispose of such securities or other instruments at advantageous prices may be greatly limited, and the Fund may have to continue to hold such securities or instruments during periods when the Adviser would otherwise have sold them (in order, for example, to meet redemption requests or to take advantage of other investment opportunities). Market values for illiquid securities may not be readily available, and there can be no assurance that any fair value assigned to an illiquid security at any time will accurately reflect the price the Fund might receive upon the sale of that security. Adverse market or economic conditions independent of any specific adverse changes in the conditions of a particular issuer, including rising interest rates, may adversely affect the liquidity of the Fund's investments and the Fund may be forced to sell large amounts of securities more quickly than it normally would in the ordinary course of business. In such cases the sale proceeds received by a Fund may be substantially less than if the Fund had been able to sell the securities in more orderly transactions, and the sale price may be substantially lower than the price previously used by the Fund to value the securities for purposes of determining the Fund's net asset value. Some securities held by a Fund may be restricted as to resale, and there is often no ready market for such securities. In addition, a Fund, by itself or together with other accounts managed by

Risk Factors

the Adviser, may hold a position in a security that is large relative to the typical trading volume for that security, which can make it difficult for the Fund to dispose of the position at an advantageous time or price.

Management Risk — The investment process used by the investment team may produce incorrect judgments about the value of a particular asset or the team may implement its investment strategy in a way that may not produce the desired results.

Sector Focus Risk — To the extent the Fund focuses in one or more sectors, market or economic factors impacting those sectors could have a significant effect on the value of the Fund's investments. Additionally, the Fund's performance may be more volatile when the Fund's investments are focused in a particular sector. Since benchmark sector weights influence the Fund's sector exposure, the Fund may tend to be more heavily weighted in companies in the financials sector. The values of companies in the financials sector are particularly vulnerable to economic downturns and changes in government regulation and interest rates.

Smaller-Company Stock Risk — Small- or mid-sized companies often have more limited managerial and financial resources than larger, more established companies and, therefore, may be more susceptible to market downturns or changing economic conditions. In addition, such companies may have been recently organized and have little or no track record of success. Also, the Adviser may not have had an opportunity to evaluate such newer companies' performance in adverse or fluctuating market conditions. The securities of smaller-sized companies may trade less frequently and in smaller volume than more widely held securities. Prices of small- or mid-sized companies tend to be more volatile than those of larger companies and small- or mid-sized issuers may be subject to greater degrees of changes in their earnings and prospects. Since smaller company stocks typically have narrower markets and are traded in lower volumes than larger company stocks, they may be often more difficult to purchase and sell.

Stock Market Risk — Stock market risk refers to the fact that stock (equity securities) prices typically fluctuate more than the values of other types of securities, typically in response to changes in the particular company's financial condition and factors affecting the market in general. Over time, the stock market tends to move in cycles, with periods when stock prices rise, and periods when stock prices decline. A slower-growth or recessionary economic environment could have an adverse effect on stock prices. Consequently, a broad-based market drop may also cause a stock's price to fall. Portfolio securities may also decline in value due to factors affecting securities markets generally, such as real or perceived adverse economic, political or regulatory conditions, inflation, changes in interest or currency rates or adverse investor sentiment, or due to factors affecting particular industries represented in the securities markets, such as competitive conditions. Changes in the financial condition of a single issuer can impact a market as a whole, and adverse market conditions may be prolonged and may not have the same impact on all types of securities. In addition, the markets may not favor a particular kind of security, including equity securities. Values of securities may fall due to factors affecting a particular issuer, industry or the securities market as a whole.

Market turmoil may be reflected in perceptions of economic uncertainty, price volatility in the equity and debt markets, and fluctuating trading liquidity. In response, governments may adopt a variety of fiscal and monetary policy changes, including but not limited to, direct capital infusions into companies, new monetary programs, and lower interest rates. These policies may not be successful and any unexpected or quick reversal of these policies could increase volatility in the equity and debt markets. Market conditions and economic risks could have a significant effect on domestic and international economies and could add significantly to the risks of increased volatility and decreased liquidity for a Fund's portfolio.

■ Geopolitical/Natural Disaster Risk — Global economies and financial markets are increasingly interconnected, which increases the possibilities that conditions in one country or region might

adversely affect issuers in another country or region. Geopolitical and other risks, including war, terrorism, trade disputes, political or economic dysfunction within some nations, public health crises and related geopolitical events, as well as environmental disasters such as earthquakes, fires and floods, may add to instability in world economies and markets generally. Changes in trade policies and international trade agreements could affect the economies of many countries in unpredictable ways. Epidemics and/or pandemics, such as the coronavirus (or COVID-19), may result in, among other things, closing borders, disruptions to healthcare service preparation and delivery, quarantines, cancellations, disruptions to supply chains and consumer activity, as well as general concern and uncertainty. The impact may be short-term or may last for extended periods.

■ Information Technology and Operational Risk — Markets and market participants are increasingly reliant upon both publicly available and proprietary information data systems. Data imprecision, software or other technology malfunctions, programming inaccuracies, unauthorized use or access, and similar circumstances may impair the performance of these systems and may have an adverse impact upon a single issuer, a group of issuers, or the market at large. The information technology and other operational systems upon which a Fund's service providers rely may be subject to cyber attack or other technological disruptions, and could otherwise disrupt the ability of these service providers to perform essential tasks for a Fund. In certain cases, an exchange or market may close or issue trading halts on either specific securities or even the entire market, which may result in a Fund being, among other things, unable to buy or sell certain securities or financial instruments or accurately price its investments.

The Adviser may use several types of investment strategies in pursuing each Fund's overall investment objective. The following risks are those that the Adviser does not consider to be principal risks of the Funds. Additional risks are included in the Funds' SAI.

Derivatives Risk — Derivatives, such as forward currency contracts, futures contracts and options on futures contracts, are subject to the risk that small price movements can result in substantial gains or losses. Derivatives also entail exposure to counterparty risk, the risk of mispricing or improper valuation and the risk that changes in value of the derivative may not correlate perfectly with the relevant securities, assets or indices. The Fund "covers" its exposure to certain derivative contracts by segregating or designating liquid assets on its records sufficient to satisfy current payment obligations, which may expose the Fund to the market through both the underlying assets subject to the contract and the assets used as cover. The use of derivatives may cause the Fund to incur losses greater than those that would have occurred had derivatives not been used.

IPO Risk — Investments in IPOs may result in increased transaction costs and expenses and the realization of short-term capital gains and distributions. In addition, in the period immediately following an IPO, investments may be subject to more extreme price volatility than that of other equity investments. A Fund may lose all or part of its investment if the companies making their IPOs fail and their product lines fail to achieve an adequate level of market recognition or acceptance. IPOs may not be available to a Fund at all times, and a Fund may not always invest in IPOs offered to it. Investments in IPOs may have a substantial beneficial effect on a Fund's investment performance. A Fund's investment return earned during a period of substantial investment in IPOs may not be sustained during other periods when the Fund makes more limited, or no, investments in IPOs.

Investment Company Risk — The Fund's ability to achieve its investment objective may be directly related to the ability of other investment companies (including ETFs) held by the Fund to meet their investment objectives. In addition, shareholders of the Fund will indirectly bear the fees and expenses of the underlying investment companies. Lack of liquidity in an ETF could result in an ETF being more volatile than the underlying portfolio of securities.

Risk Factors

Securities Lending Risk — The risk in lending portfolio securities, as with other extensions of credit, consists of the possibility of loss to a Fund due to (1) the inability of the borrower to return the securities, (2) a delay in receiving additional collateral to adequately cover any fluctuations in the value of securities on loan, (3) a delay in recovery of the securities, or (4) the loss of rights in the collateral should the borrower fail financially. These events could trigger adverse tax consequences for a Fund. In addition, a Fund is responsible for any loss that might result from its investment of the borrower's collateral. In determining whether to lend securities, the Adviser or a Fund's securities lending agent will consider relevant facts and circumstances, including the creditworthiness of the borrower.

An investment in the Fund is not a complete investment program.

Organization and Management of the Funds

The Funds' Board of Trustees has the overall responsibility for overseeing the management of each Fund

The Investment Adviser

The Adviser serves as the investment adviser to each of the Victory Funds pursuant to an investment management agreement. The Adviser oversees the operations of the Funds according to investment policies and procedures adopted by the Board of Trustees. The Adviser is a New York corporation that is registered as an investment adviser with the Securities and Exchange Commission ("SEC"). As of September 30, 2020, the Adviser managed and advised assets totaling in excess of \$132.6 billion for individual and institutional clients. The Adviser's principal address is 15935 La Cantera Parkway, San Antonio, TX 78256.

The Adviser is a diversified global asset manager comprised of multiple investment teams, referred to as investment franchises, each of which utilizes an independent approach to investing. Integrity Asset Management ("Integrity") is the investment franchise responsible for the management of the Funds.

Advisory fees to be paid annually, before waivers, will be equal to the following:

Fund	Advisory Fee
Victory Integrity Discovery Fund	1.00%
Victory Integrity Mid-Cap Value Fund	0.75%
Victory Integrity Small/Mid-Cap Value Fund	0.80%

See "Fund Fees and Expenses" for information about any contractual agreement agreed to by the Adviser to waive fees and/or reimburse expenses with respect to a Fund. From time to time, the Adviser also may voluntarily waive fees and/or reimburse expenses in amounts exceeding those required to be waived or reimbursed under any contractual agreement that may be in place with respect to a Fund.

A discussion of the Board's most recent considerations in approving the Advisory Agreement is included in each Fund's semi-annual report for the period ended December 31.

Portfolio Management

Daniel G. Bandi is the Chief Investment Officer of Integrity and has been with the Adviser since 2014 when the Adviser acquired Integrity Asset Management, LLC. From 2003-2014, Mr. Bandi was the Chief Investment Officer and a Principal of Integrity Asset Management, LLC. He has been a member of the portfolio management teams of the Victory Integrity Mid-Cap Value Fund and Victory Integrity Small/Mid-Cap Value Fund since their inceptions. Mr. Bandi is a CFA charterholder.

Sean Burke is a Portfolio Manager of Integrity and has been with the Adviser since 2014. Prior to that, Mr. Burke was an Equity Analyst with Integrity Asset Management, LLC from 2011-2014 and held other positions with Integrity from 2006-2011. He has been a member of the portfolio management team of the **Victory Integrity Discovery Fund** since 2015.

Daniel J. DeMonica is a Senior Portfolio Manager of Integrity and has been with the Adviser since 2014. From 2003-2014, Mr. DeMonica was a Senior Portfolio Manager and a Principal of Integrity Asset Management LLC. He has been a Co-Lead Portfolio Manager of the Victory Integrity Discovery Fund since 2011 and a member of the portfolio management teams of the Victory Integrity Mid-Cap Value Fund and Victory Integrity Small/ Mid-Cap Value Fund since their inception. Mr. DeMonica is a CFA charterholder.

Organization and Management of the Funds

Adam I. Friedman is a Senior Portfolio Manager of Integrity and has been with the Adviser since 2014. From 2003-2014, Mr. Friedman was a Senior Portfolio Manager and a Principal of Integrity Asset Management, LLC. He has been a member of the portfolio management teams of the Victory Integrity Mid-Cap Value Fund and Victory Integrity Small/ Mid-Cap Value Fund since their inceptions.

Joe A. Gilbert is a Portfolio Manager of Integrity and has been with the Adviser since 2014. From 2003-2014, Mr. Gilbert was a Portfolio Manager of Integrity Asset Management, LLC. He has been a member of the portfolio management teams of the Victory Integrity Mid-Cap Value Fund and Victory Integrity Small/Mid-Cap Value Fund since their inceptions. Mr. Gilbert is a CFA charterholder.

Mirsat Nikovic is a Portfolio Manager of Integrity and has been with the Adviser since 2014. From 2007-2014, Mr. Nikovic was a Portfolio Manager of Integrity Asset Management, LLC. He has been a Co-Lead Portfolio Manager of the **Victory Integrity Discovery Fund** since 2013.

J. Bryan Tinsley is a Portfolio Manager of Integrity and has been with the Adviser since 2014. From 2003-2014, Mr. Tinsley was a Portfolio Manager of Integrity Asset Management, LLC. He has been a member of the portfolio management teams of the Victory Integrity Mid-Cap Value Fund and Victory Integrity Small/Mid-Cap Value Fund since their inceptions. Mr. Tinsley is a CFA charterholder.

Michael P. Wayton is a Portfolio Manager of Integrity and has been with the Adviser since 2014. From 2013-2014, Mr. Wayton was a Portfolio Manager of Integrity Asset Management, LLC. He has been a member of the portfolio management teams of the Victory Integrity Discovery Fund, Victory Integrity Mid-Cap Value Fund, and Victory Integrity Small/ Mid-Cap Value Fund since November 2018.

The Funds' SAI provides additional information about the portfolio managers' method of compensation, other accounts they manage and any ownership interests they may have in the Funds.

Investing with the Victory Funds

All you need to do to get started is to fill out an application.

If you are looking for a convenient way to open an account or to add money to an existing account, we can help. The sections that follow will serve as a guide to your investments with the Victory Funds. Member Class shares are available for purchase only by eligible shareholders. The following sections describe how to open an account, how to access information about your account, and how to buy, exchange, and sell shares of a Victory Fund.

Only Member Class shares are offered in this Prospectus. There are other share classes offered in different Prospectuses. Available classes may include Class A, Class C, Class I, Class R, Class R6 or Class Y shares. However, not all Victory Funds offer each class of shares. The classes of shares that are offered by the Fund are those listed on the cover page designated with a ticker symbol.

We want to make it simple for you to do business with us. If you have questions about any of this information, please call your Investment Professional or one of our customer service representatives at 800-235-8396. They will be happy to assist you.

An Investment Professional is an investment consultant, salesperson, financial planner, investment adviser, or trust officer who provides you with investment information. Your Investment Professional also can help you decide which share class is best for you. Investment Professionals and other intermediaries may charge fees for their services.

Share Price

The daily NAV is useful to you as a shareholder because the NAV, multiplied by the number of Fund shares you own, gives you the value of your investment.

Each Victory Fund calculates its share price, called its net asset value ("NAV"), each business day as of the close of regular trading on the New York Stock Exchange, Inc. ("NYSE"), which is normally 4:00 p.m. Eastern Time. In the event of an emergency or other disruption in trading on the NYSE, a Fund's share price will be determined based upon the close of the NYSE. You may buy, exchange, and sell your shares on any business day at a price that is based on the NAV that is next calculated after you place your order. A business day is a day on which the NYSE is open.

To the extent a Fund's investments include securities that are primarily traded in foreign markets, the value of those securities may change on days when shareholders are unable to purchase and redeem a Fund's shares, such as on weekends or other days when the Fund does not price its shares.

Each Fund prices its investments based on market value when market quotations are readily available. When these quotations are not readily available, a Fund will price its investments at fair value according to procedures approved by the Board of Trustees. A Fund will fair value a security when:

- Trading in the security has been halted;
- The market quotation for the security is clearly erroneous due to a clerical error;
- The security's liquidity decreases such that, in the Adviser's opinion, the market quotation has become stale; or
- An event occurs after the close of the trading market (but before the Fund's NAV is calculated) that, in the Adviser's opinion, materially affects the value of the security.

The use of fair value pricing may minimize arbitrage opportunities that attempt to exploit the differences between a security's market quotation and its fair value. The use of fair value pricing may not, however, always reflect a security's actual market value in light of subsequent relevant information, and the security's opening price on the next trading day may be different from the fair value price assigned to the security.

Each Victory Fund calculates the NAV of each share class by adding up the total value of the investments and other assets of that class, subtracting its liabilities, and then dividing that figure by the number of outstanding shares of the class.

You may be able to find a Fund's NAV each day in The Wall Street Journal and other newspapers. Newspapers do not normally publish fund information until a fund reaches a specific number of shareholders or level of assets. You may also find a Fund's NAV by calling 800-235-8396 or by visiting the Funds' website at VictoryFunds.com.

Investing in Member Class Shares

This Prospectus offers Member Class shares of the Fund. The Fund offers other classes of shares in a separate prospectus.

When you purchase shares of the Fund, you must choose a share class. Each share class represents an interest in the same portfolio of securities, but the classes differ in the sales charges, if any, and expenses that apply to your investment, allowing you and your Investment Professional to choose the class that best suits your investment needs. Not all Victory Funds offer all classes of shares, and some classes of shares are available for purchase only by eligible shareholders. The Victory Funds may offer additional classes of shares in the future.

The Fund reserves the right to change the eligibility criteria for purchasing a particular share class. The Fund may also waive any applicable eligibility criteria or investment minimums at its discretion.

The Fund or any share class may be closed at any time for failure to achieve an economical level of assets or for other reasons.

MEMBER CLASS SHARES

- No front-end sales charge or contingent deferred sales charge (CDSC). All your money goes to work for you right away.
- Member Class shares are only available to certain investors.
- Member Class shares do not pay any ongoing distribution and/or service (12b-1) fees.

Eligibility Requirements to Purchase Member Class Shares

Member Class shares may only be purchased by USAA members or individuals investing directly with Victory or a Victory sponsored product or by agreement.

Eligibility of Individuals Associated with the Victory Funds and Fund Service Providers

Current and retired Victory Fund trustees and the officers, directors, trustees, employees, and family members of employees of the Adviser or Affiliated Providers are eligible to purchase the lowest expense share class offered by the Fund. In the case of Class A shares, such purchases are not subject to a front-end sales charge. "Affiliated Providers" are affiliates of the Adviser and organizations that provide services to the Trust.

Information About Fees

Member Class shares are primarily intended for purchase directly from the Victory Funds. In the event you purchase the Fund or hold your shares through an Investment Professional, a broker dealer, or other financial intermediary, the Fund may pay for sub-transfer agent, recordkeeping and/or similar administrative services. In addition, the Adviser (and its affiliates) may make substantial payments out of its own resources, including the profits from the advisory fees the Adviser receives from the Funds, to affiliated and unaffiliated dealers or other Investment Professionals and service providers for distribution, administrative and/or shareholder servicing activities. The Adviser also may reimburse the Distributor (or the Distributor's affiliates) for making these payments. Some of these distribution-related payments may be made to dealers or other Investment Professionals for marketing, promotional or related expenses; these payments are often referred to as "revenue sharing."

In some circumstances, these types of payments may create an incentive for a dealer or Investment Professional or its representatives to recommend or offer shares of the Victory Funds to its customers. You should ask your dealer or Investment Professional for more details about any such payments it receives.

Opening an Account

If you would like to open an account, you will first need to complete an Account Application.

You can obtain an Account Application by calling Victory Funds Customer Service at 800-235-8396. You can also download an Account Application by visiting the Victory Funds' website, Victory Funds.com, and clicking on the Victory Funds Account Application link. Send the completed Account Application, along with a check made payable to the Victory Funds, at the following address:

Victory Funds

P.O. Box 182903 Columbus, OH 43218-2903

You can also obtain an Account Application by contacting your Investment Professional. When you invest through an Investment Professional, the procedures for buying, selling, and exchanging shares and the account features and policies may differ. In addition to any limitations described in this Prospectus, an Investment Professional or other intermediary may also place other limits on your ability to use the services of a Fund. Sometimes an Investment Professional will charge you for its services. This fee will be in addition to, and unrelated to, the fees and expenses charged by the Funds.

Mutual funds must obtain and verify information that identifies investors opening new accounts. If the Funds are unable to collect the required information, you may not be able to open your account. Additional details about the Funds' Customer Identification Program are available in the section "Important Fund Policies."

If you participate in a retirement plan that offers one of the Victory Funds as an option, please consult your employer for information on how to purchase shares of the Victory Funds through the plan, including any restrictions or limitations that may apply.

Paying for Your Initial Purchase

If you wish to make an investment directly into the Victory Funds, make your check payable to the "Victory Funds." All checks must be drawn on U.S. banks. If your check is returned as uncollectible for any reason, you will be charged for any resulting fees and/or losses. The Fund does not accept cash, money orders, traveler's checks, credit card convenience checks, or third party checks. Additionally, bank starter checks are not accepted for the shareholder's initial investment into the Funds. All payments must be denominated in U.S. dollars.

Minimum Investments

If you would like to buy Member Class shares, you must first be an Eligible Investor, as discussed in the section *Choosing a Share Class — Eligibility Requirements to Purchase*. There is a \$3,000 minimum investment amount required for Member Class shares beyond those set forth in the *Eligibility Requirements to Purchase*.

If your account falls below the minimum investment amount, we may ask you to reestablish the minimum investment. If you do not do so within 60 days, we may close your account and send you the value of your account.

The minimum investment required to open an account may be waived or lowered for employees and immediate family members of the employees, of the Adviser, the Administrator, and their affiliates. In addition, the minimum investment required may be waived when a Fund is purchased through an Advisory Program within qualified retirement plans or in other similar circumstances. Although the Funds may sometimes waive the minimum investment, when they do so, they always reserve the right to reject initial investments under the minimum at their discretion.

How to Buy Shares

There is no minimum investment required to open an account or for additional investments in Victory Simple IRAs.

A Fund reserves the right to change the criteria for eligible investors and the investment minimums.

Purchasing Additional Shares

Once you have an existing account, you can make additional investments at any time in any amount (subject to any minimums) in the following ways:

■ By Mail

To ensure that your additional investment is properly credited to your account, use the Investment Stub attached to your confirmation statement and send it with your check to the address indicated.

■ By Telephone

If you have an existing account that has been set up to receive electronic transfers, you can buy additional shares by calling Victory Funds Customer Service at 800-235-8396 between 8:00 a.m. and 6:00 p.m. (Eastern Time), Monday through Friday.

■ By Exchange

You may purchase shares of a Fund using the proceeds from the simultaneous redemption of shares of another Victory Fund if it is eligible for an exchange with your Fund. You may initiate an exchange online (if you are a registered user of VictoryFunds.com), by telephone, or by mail. See the section "Exchanging Shares."

■ Via the Internet

If you are a registered user, you may request a purchase of shares through our website at VictoryFunds.com. Your account must be set up for Automated Clearing House ("ACH") payment in order to execute online purchases.

■ By ACH

Your account must be set up for ACH payment in order to execute purchases online or by telephone. It takes about 15 days to set up an ACH account and only domestic member banks may be used. After your account is set up, your purchase amount can be transferred by ACH. Currently, the Funds do not charge a fee for ACH transfers but they reserve the right to charge for this service in the future. Your originating bank may charge a fee for ACH transfers.

■ By Wire

You may buy Fund shares by bank wire transfer of same day funds. Please call Victory Funds Customer Service at 800-235-8396 between 8:00 a.m. and 6:00 p.m. (Eastern Time), Monday through Friday for wiring instructions. Any commercial bank can transfer same-day funds by wire.

Although the transfer agent does not currently charge you for receiving same-day funds, it reserves the right to charge for this service in the future. Your bank may charge you for wiring same-day funds. You cannot buy shares for tax-qualified retirement plans by wire transfer.

Other Purchase Rules You Should Know

The Funds reserve the right to refuse a purchase order for any reason, including if they believe that doing so would be in the best interest of a Fund or its shareholders. The Funds also reserve the right, without notice, to increase or decrease the minimum amount required to open, convert shares to, or maintain a Fund account, or to add to an existing Fund account.

Keep these addresses handy for purchases, exchanges, or redemptions.

How to Buy Shares

BY REGULAR U.S. MAIL	Victory Funds P.O. Box 182903 Columbus, OH 43218-2903
BY OVERNIGHT MAIL	Use the following address ONLY for overnight packages: Victory Funds c/o FIS TA Operations 4249 Easton Way, Suite 400 Columbus, OH 43219 PHONE: 800-235-8396
BY WIRE	Call 800-235-8396 BEFORE wiring money to notify the Fund that you intend to purchase shares by wire and to verify wire instructions.
BY TELEPHONE	800-235-8396
ON THE INTERNET	www.VictoryFunds.com

Statements and Reports

You will receive a periodic statement reflecting any transactions that affect the balance or registration of Fund shares in your account. You will receive a confirmation after any purchase, exchange, or redemption. If your account has been set up by an Investment Professional, Fund activity will be detailed in that account's statements. Share certificates are not issued. Twice a year, you will receive a financial report of the Fund. By February 15th of each year, you will be mailed an IRS form reporting distributions for the previous year, which also will be filed with the IRS.

Retirement Plans

You can use the Funds as part of your retirement portfolio. Your Investment Professional can set up your new account under one of several tax-deferred retirement plans. Please contact your Investment Professional or the Fund for details regarding an IRA or other retirement plan that works best for your financial situation.

How to Exchange Shares

There may be limits on the ability to exchange between certain Victory Funds. You can obtain a list of Victory Funds available for exchange by calling 800-235-8396 or by visiting VictoryFunds.com

The shares of any class of a Fund may be exchanged for the shares of any other class offered by the Fund or shares of another Victory Fund or USAA Mutual Fund, either through your Investment Professional or directly through the Fund, subject to the conditions described below:

- Exchanges are subject to any CDSC, minimum investment limitation or eligibility requirements described in the applicable Prospectus and SAI. You may be required to provide sufficient information to establish eligibility to exchange into a new share class.
- To exchange between Victory Funds or USAA Mutual Funds, the other Victory Fund or USAA Mutual Fund you wish to exchange into must be eligible for exchange with your Fund.
- Shares of the Victory Fund or USAA Mutual Fund selected for exchange must be available for sale in your state of residence.

If you have questions about these, or any of the Funds' other exchange policies, please consult Victory Customer Service or your Investment Professional before requesting an exchange.

Before exchanging, you should read the Prospectus of the Fund you wish to exchange into, which may be subject to different risks, fees and expenses.

Processing Your Voluntary Exchange/Conversion

If your exchange or conversion request is received and accepted by the Funds, an Investment Professional or other intermediary by the close of trading as described in the section entitled, "Share Price," then your request will be processed the same day. If received after the close of trading, your request will be processed on the next business day. Please contact your financial intermediary regarding the tax consequences of any exchange or conversion.

Exchanges will occur at the respective NAVs of the Funds' share classes next calculated after receipt and acceptance of your exchange request in good order, plus any applicable sales charge described in the Prospectus. Share class conversions will be based on the respective NAV of each class as of the trade date of the conversion. Consequently, you may receive fewer shares or more shares than originally owned, depending on that day's NAVs.

Requesting an Exchange

You can exchange shares of the Funds by telephone, by mail or via the Internet. You cannot exchange into an account with a different registration or tax identification number.

■ By Telephone

Unless you indicate otherwise on the account application, Victory Customer Service will be authorized to accept exchange instructions received by telephone.

■ By Mail

Send a letter of instruction signed by all registered owners or their legal representatives to the Victory Funds.

■ Via the Internet

You may also exchange shares via the Internet at VictoryFunds.com if you are a registered user.

Other Exchange Rules You Should Know

The Funds may refuse any exchange purchase request if the Adviser determines that the request is associated with a market timing strategy. The Funds may terminate or modify the exchange privilege at any time on 60 days' notice to shareholders.

How to Exchange Shares

An exchange of Fund shares for shares of another Victory Fund constitutes a sale for tax purposes and the shareholder may realize a capital gain or loss unless the exchange is made within an IRA or other tax-deferred account.

For information on how to exchange shares of a Fund that were purchased through your employer's retirement plan, including any restrictions and charges that the plan may impose, please consult your employer.

There are a number of convenient ways to sell your shares. You can use the same mailing addresses listed for purchases.

If your redemption request is received in good order by the close of trading on the NYSE, your redemption will be processed the same day. Your redemption will not be processed until the next business day if it is received after the close of trading on the NYSE. You cannot redeem your shares at www.VictoryFunds.com.

BY TELEPHONE

The easiest way to redeem shares is by calling 800-235-8396. When you fill out your original application, be sure to check the box marked "Telephone Authorization." Then when you are ready to sell, call and tell us which one of the following options you would like to use:

- Mail a check to the address of record;
- Wire funds to a previously designated domestic financial institution;
- Mail a check to a previously designated alternate address; or
- Electronically transfer your redemption via ACH to a previously designated domestic financial institution.

The transfer agent records all telephone calls for your protection and takes measures to verify the identity of the caller. If the transfer agent properly acts on telephone instructions and follows reasonable procedures to ensure against unauthorized transactions, none of the Trust, its servicing agents, the Adviser, or the transfer agent will be responsible for any losses. If the transfer agent does not follow these procedures, it may be liable to you for losses resulting from unauthorized instructions.

If there is an unusual amount of market activity and you cannot reach the transfer agent or your Investment Professional by telephone, consider placing your order by mail.

BY MAIL

Use the regular U.S. mail or overnight mail address to redeem shares. Send us a letter of instruction indicating your Fund account number, amount of redemption, and where to send the proceeds. A Medallion signature guarantee is required for the following redemption requests:

- Your account registration has changed within the last 15 business days;
- The check is not being mailed to the address on your account;
- The check is not being made payable to the owner of the account;
- The redemption proceeds are being transferred to another Victory Fund account with a different registration; or
- The check or wire is being sent to a different bank account than was previously designated.

You can get a Medallion signature guarantee from a financial institution — such as a commercial bank, broker dealer, credit union, clearing agency, or savings bank — that is a member of a Medallion signature guarantee program.

BY WIRE

If you want to receive your proceeds by wire, you must establish a Fund account that will accommodate wire transactions. If you call before the close of trading on the NYSE, your funds will be wired on the next business day.

BY ACH

Normally, your redemption will be processed on the same day, but will be processed on the next day if received after the close of trading on the NYSE. It will be transferred by ACH as long as the transfer is to a domestic bank.

Systematic Withdrawal Plan

If you own shares in a single investment account (accounts in different Victory Funds offering Member Class shares cannot be aggregated for this purpose), you may request that enough shares to produce a fixed amount of money be liquidated from the account monthly, quarterly, or annually. The amount of each withdrawal must be at least \$50. Using the electronic funds transfer service, you may choose to have withdrawals electronically deposited at your bank or other financial institution. You also may elect to have such withdrawals invested in another Victory Fund offering Member Class shares. You should be aware that each withdrawal may be a taxable transaction. Also, each withdrawal reduces your account balance, and eventually your account balance may be depleted. However, you cannot automatically close your account using the Systematic Withdrawal Plan. If your balance falls below the initial purchase minimum, we may ask you to bring the account back to the minimum balance. If you decide not to increase your account to the minimum balance, your account may be closed and the proceeds mailed to you.

Additional Information About Redemptions

- Redemption proceeds from the sale of Fund shares purchased by a check or through ACH will be held until the purchase check or ACH has cleared, which will take up to 10 business days.
- We typically expect to send the proceeds from your share redemption within one business day after we execute your order, but we may take up to seven business days to send redemption proceeds, regardless of payment type. When you sell shares through your financial intermediary, you can ask the intermediary to tell you when you can expect to receive the proceeds of your redemption.
- A Fund may suspend your right to redeem your shares in the following circumstances:
 - During non-routine closings of the NYSE;
 - When the SEC determines either that trading on the NYSE is restricted or that an emergency prevents the sale or valuation of the Fund's securities; or
 - When the SEC orders a suspension to protect the Fund's shareholders.
- A Fund typically uses cash and cash equivalents held in its portfolio or sells portfolio assets to meet redemption requests. In unusual circumstances or under stressed market conditions, the Fund may use other methods to raise cash to meet redemption requests. For example, the Fund may draw funds from a line of credit or borrow available cash held by other Victory Funds under an "interfund lending program" in reliance on an exemptive order from the SEC.
- A Fund will pay redemptions by any one shareholder during any 90-day period in cash up to the lesser of \$250,000 or 1.00% of the Fund's net assets. The Funds reserve the right to pay the remaining portion "in kind," that is, in portfolio securities rather than cash. Securities received pursuant to an in-kind redemption are subject to market risk until sold and may be subject to brokerage and other fees.
- If you choose to have your redemption proceeds mailed to you and either the U.S. Postal Service is unable to deliver the redemption check to you or the check remains outstanding for more than six months, the Funds reserve the right to reinvest the check in shares of the Fund at its then current NAV until you give the Fund different instructions. No interest will accrue on amounts represented by uncashed redemption checks.

Distributions and Taxes

Buying a dividend. You should check the Funds' distribution schedule before you invest. If you buy shares of a Fund shortly before it makes a distribution, some of your investment may come back to you as a taxable distribution.

As a shareholder, you are entitled to your share of net income and capital gains on a Fund's investments. Each Fund passes its earnings along to investors in the form of dividends. Dividends paid by a Fund represent the net income from dividends and interest earned on investments after expenses. Each Fund will distribute short-term gains, as necessary, and if the Fund makes a long-term capital gain distribution, it is normally paid once a year.

Ordinarily, each Fund declares and pays dividends annually. However, a Fund may not always pay a dividend or distribution for a given period. Each class of shares declares and pays dividends separately.

Distributions can be received in one of the following ways. Please check with your Investment Professional if you are unsure of which option is right for you.

Your choice of distribution should be set up on the original Account Application. If you would like to change the option you selected, please call 800-235-8396.

Reinvestment Option

You can have distributions automatically reinvested in additional shares of your Fund. If you do not indicate another choice on your Account Application, you will be assigned this option automatically.

Cash Option

If you elect to receive your distributions by check, and the distribution amount is \$25 or less, the amount will automatically be reinvested in the same Fund. Otherwise, a check will be mailed to you no later than seven days after the dividend payment date. If you choose to have your distribution proceeds mailed to you and either the U.S. Postal Service is unable to deliver the distribution check to you or the check remains outstanding for at least six months, the distribution option on your account will default to the reinvestment option as described above. Each Fund reserves the right to reinvest the check in shares of the Fund at its then current NAV until you give the Fund different instructions. No interest will accrue on amounts represented by uncashed distribution checks.

Income Earned Option

You can automatically reinvest your dividends in additional Fund shares and have your capital gains paid in cash, or reinvest capital gains and have your dividends paid in cash.

Directed Distributions Option

In most cases, you can automatically reinvest distributions in shares of another Victory Fund. If you reinvest your distributions in a different Victory Fund, you will pay a sales charge on the amount of reinvested distributions.

Directed Bank Account Option

In most cases, you can automatically transfer distributions to your bank checking or savings account. Under normal circumstances, the transfer agent will transfer your distributions within seven days of the dividend payment date. The bank account must have a registration identical to that of your Fund account.

Important Information About Taxes

The tax information in this Prospectus is provided as general information. You should consult your own tax adviser about the tax consequences of an investment in the Fund.

A Fund expects to pay no federal income tax on the earnings and capital gains it distributes to shareholders.

- Qualified dividend income received from a Fund by noncorporate shareholders will be taxed at long-term capital gain rates to the extent attributable to qualified dividend income received by a Fund, subject to certain holding period requirements. Nonqualified dividends, dividends received by corporate shareholders and dividends from the Fund's short-term capital gains are taxable as ordinary income. Dividends from the Fund's long-term capital gains are taxable as long-term capital gains.
- You will pay tax on dividends from a Fund whether you receive them in cash, additional shares of the Fund or you reinvest them in shares of another Victory Fund.
- Dividends from a Fund that are attributable to interest on certain U.S. government obligations, if any, may be exempt from certain state and local income taxes. The extent to which ordinary dividends are attributable to these U.S. government obligations will be provided on the tax statements you receive from a Fund.
- An exchange of a Fund's shares for shares of another Victory Fund will be treated as a sale. When you sell or exchange shares of a Fund, you generally will recognize any gain or loss.
- An exchange of one class of a Fund's shares for shares of another class of the same Fund generally constitutes a nontaxable exchange.
- Distributions from a Fund and gains from the disposition of your shares may also be subject to state and local income tax.
- An additional 3.8% Medicare tax will be imposed on certain net investment income (which includes dividends and gain recognized on a disposition of shares) of certain U.S. individuals, estates, and trusts.
- Certain dividends paid to you in January will be taxable as if they had been paid to you the previous December.
- Tax statements will be mailed from the Fund by mid-February showing the amounts and tax status of distributions made to you in the prior calendar year.
- Because your tax treatment depends on your purchase price and tax position, you should keep your regular account statements for use in determining your tax.
- A Fund is generally required by law to provide you and the Internal Revenue Service with certain cost basis information related to the sale or redemption of any of your shares in the Fund acquired on or after January 1, 2012 (including distributions that are reinvested in additional shares of the Fund).
- A Fund may be required to withhold tax from dividends and redemption proceeds if you fail to give your correct social security or taxpayer identification number, fail to make required certifications, or the Fund is notified by the Internal Revenue Service that backup withholding is required.
- If you are a nonresident alien individual, foreign trust or estate, foreign corporation or foreign partnership, a Fund's ordinary income dividends may be subject to a 30% U.S. withholding tax. See the section entitled "TAXES—Foreign Shareholders" in the SAI for details.
- Under the "Foreign Account Tax Compliance Act," unless certain foreign entities comply with certain IRS requirements that generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% U.S. withholding tax may

Distributions and Taxes

- apply to dividends paid by a Fund to such entities. See the section entitled "TAXES—Foreign Shareholders" in the SAI for details.
- You should review the more detailed discussion of federal income tax considerations in the SAI and consult your tax adviser regarding the federal, state, local, or foreign tax consequences resulting from your investment in the Fund.
- The Funds may provide estimated capital gain distribution information through the website at VictoryFunds.com.

Important Fund Policies

Customer Identification Program

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations.

As a result, the Victory Funds must obtain the following information for each person who opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing);
 and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. Federal law prohibits the Victory Funds and other financial institutions from opening a new account unless they receive the minimum identifying information listed above. After an account is opened, the Victory Funds may restrict your ability to purchase additional shares until your identity is verified. The Victory Funds may close your account or take other appropriate action if it is unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed.

Account Maintenance Information

For the following non-financial transactions, the Victory Funds require proof that your signature authorizing a transaction is authentic. This verification can be provided in all cases by either a Signature Validation Program (SVP) stamp or a Medallion signature guarantee (MSG). In some instances a Notary Public stamp is an acceptable alternative. As with the Medallion signature guarantee, a SVP stamp can also be obtained from a financial institution that is a member of the SVP program.

Market Timing

The Victory Funds discourage frequent purchases and redemptions of Fund shares (market timing). Market timing allows investors to take advantage of market inefficiencies, sometimes to the disadvantage of other shareholders. Market timing increases Fund expenses to all shareholders by

Important Fund Policies

increasing portfolio turnover. In addition, market timing could potentially dilute share value for all other shareholders by requiring the Fund to hold more cash than it normally would.

The Funds' Board of Trustees has adopted policies and procedures with respect to market timing. In order to prevent or minimize market timing, the Funds will:

- Employ "fair value" pricing, as described in this Prospectus under Share Price, to minimize the discrepancies between a security's market quotation and its perceived market value, which often gives rise to market timing activity; and
- Monitor for suspected market timing based on "short-term transaction" activity, that is, a purchase or redemption of a Fund and, as applicable, a subsequent redemption or purchase of the same Fund, or an exchange of all or part of that same Fund.

In monitoring for market timing activity, we consider, among other things, the frequency of your trades and whether you acquired your Fund shares directly through the transfer agent or whether you combined your trades with a group of shareholders in an omnibus account or otherwise placed your order through a securities dealer or other financial intermediary.

Frequent trading by a shareholder is generally a characteristic of market timing. Therefore, any account in which Fund shares are acquired directly through the transfer agent, or where the Fund can adequately identify the shareholder, with a history of three short-term transactions within 90 days or less is suspected of market timing and the shareholder's trading privileges (other than redemption of Fund shares) will be suspended.

We may make exceptions to the "short-term transaction" policy for certain types of transactions if, in the opinion of the Adviser, under the oversight of the Board, the transactions do not represent short-term or excessive trading or are not abusive or harmful to the Funds, such as, but not limited to, systematic transactions, required minimum retirement distributions, transactions initiated by the Funds or administrator and transactions by certain qualified funds-of-funds.

If you acquired shares through an omnibus account or otherwise placed your order through a securities dealer or other financial intermediary (such as investment advisers, broker-dealers, third-party administrators or insurance companies), and market timing is suspected, different purchase and exchange limitations may apply. We may rely upon a financial intermediary's policy to deter short-term or excessive trading (i) if we believe that the financial intermediary's policy is reasonably designed to detect and deter transactions that are not in the best interests of the Funds, or (ii) if we receive an undertaking from the financial intermediary to enforce short-term or excessive trading policies on behalf of the Funds that provide a substantially similar level of protection for the Funds against such transactions. If you hold your Fund shares through a financial intermediary, you are advised to consult the intermediary to determine what purchase and exchange limitations apply to your account.

We reserve the right to reject or cancel a purchase or exchange order for any reason without prior notice. We will deny your request to purchase or exchange your shares if we believe that the transaction is part of a market timing strategy.

The Funds' market timing policies and procedures may be modified or terminated at any time under the oversight of the Board.

Portfolio Holdings Disclosure

A description of each Fund's policies and procedures with respect to the disclosure of the Funds' portfolio securities is available in the Funds' SAI, which is available upon request and on the Funds' website at VictoryFunds.com.

Important Fund Policies

Performance

The Victory Funds may advertise the performance of a Fund by comparing it to other mutual funds with similar objectives and policies. Performance information also may appear in various publications. Any fees charged by Investment Professionals may not be reflected in these performance calculations.

Advertising information may include the average annual total return of the Funds calculated on a compounded basis for specified periods of time. Total return information will be calculated according to rules established by the SEC. Such information may include performance rankings and similar information from independent organizations and publications.

Shareholder Communications

In order to eliminate duplicate mailings to an address at which two or more shareholders with the same last name reside, the Victory Funds may send only one copy of any shareholder reports, proxy statements, prospectuses and their supplements, unless you have instructed us to the contrary. You may request that the Victory Funds send these documents to each shareholder individually by calling the Victory Funds at 800-235-8396, and they will be delivered promptly.

While this Prospectus and the SAI of the Trust describe pertinent information about the Trust and the Funds, neither this Prospectus nor the SAI represents a contract between the Trust or the Funds and any shareholder.

Financial Highlights

No financial information is available for the Member Class shares of the Fund since that class had not yet been offered as of the date of this Prospectus. The following financial highlights tables reflect historical information about shares of the Funds and are intended to help you understand each Fund's financial performance for the past five years, or, if shorter, the period of its operations. Certain information shows the results of an investment in one share of the Fund. To the extent a Fund invests in other funds, the Total Annual Operating Expenses included in a Fund's Fees and Expenses Table may not correlate to the ratio of expenses to average net assets in the financial highlights below. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in each Fund (assuming reinvestment of all dividends and distributions).

The information presented for the fiscal years ended on or after June 30, 2019 has been audited by Cohen & Company, Ltd., the Funds' independent registered public accounting firm, whose reports, along with the Funds' financial statements, are included in the Funds' annual report. The information for all periods prior to June 30, 2019 has been audited by a different independent registered public accounting firm. The Funds' annual and semi-annual reports are available by calling the Victory Funds at 800-235-8396 and at www.VictoryFunds.com.
