

BNY Mellon Mid Cap Multi-Strategy Fund

FACT SHEET
June 30, 2021

Class M **MPMCX** Investor Shares **MIMSX**

Goal/Approach

The fund seeks capital appreciation. The fund's investment strategy provides exposure to various mid cap equity portfolio managers, investment strategies and styles. The fund's investment adviser has allocated the fund's assets among multiple investment strategies employed by the fund's investment adviser and unaffiliated sub-investment advisers known as Boston Partners Global Investors Inc. (Boston Partners), a wholly-owned subsidiary of Robeco US Holding, Inc., and Henderson Geneva Capital Management LLC (Geneva). To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of mid cap companies.

DUE TO RECENT MARKET VOLATILITY, CURRENT PERFORMANCE MAY BE DIFFERENT THAN THE FIGURES SHOWN. Investors should note that the fund's short-term performance is highly unusual, in part to unusually favorable market conditions, and is unlikely to be repeated or consistently achieved in the future.

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate, and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. Performance for periods of less than 1 year is not annualized. Not all classes of shares may be available to all investors or through all broker-dealer platforms.

¹Before the fund commenced operations on 10/2/00 (fund inception date), substantially all of the assets of a predecessor common trust fund (CTF) that, in all material respects, had the same investment objective, policies, guidelines and restrictions as the fund were transferred to the fund. The performance figures presented represent the performance of the predecessor CTF from its inception date (1/1/85) through 10/1/00, adjusted to reflect the fund's fees and expenses, by subtracting from the actual performance of the CTF the expenses of the fund's class M shares (net of any fee waivers and expense reimbursements), and the performance of the fund's Class M shares thereafter. The predecessor CTF was not registered under the Investment Company Act of 1940 and therefore was not subject to certain investment restrictions that might have adversely affected performance. ²Portfolio composition is as of 6/30/2021 and is subject to change at any time. ³Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. ⁴Represents the CTF Inception ⁵Source: FactSet. Risks: **Equities** are subject to market, market sector, market liquidity, issuer, and investment style risks, among other factors, to varying degrees. Investing in **foreign denominated and/or domiciled securities** involves special risks, including changes in currency exchange rates, political, economic, and social instability, limited company information, differing auditing and legal standards, and less market liquidity. These risks generally are greater with emerging market countries. **Small and midsized company stocks** tend to be more volatile and less liquid than larger company stocks as these companies are less established and have more volatile earnings histories. *Recent market risks include pandemic risks related to COVID-19. The effects of COVID-19 have contributed to increased volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically than others. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.*
