

Eaton Vance Tax-Managed Growth Fund 1.2

A diversified, primarily blue chip, core equity fund managed with a keen eye toward after-tax returns.

The Fund

Tax-Managed Growth Fund 1.2 or its predecessors have been pursuing long-term, after-tax returns since 1966. Fund managers believe the principles of tax-efficient investing are principles of sound investing. The cornerstones of the Fund's approach are fundamental research, risk awareness and tax sensitivity.

The Fund has not paid a capital gain since its inception.¹

Tax-managed equity investing can help cushion the effect of future increases in income tax and capital gains rates.

I Shares	EITGX	277911459

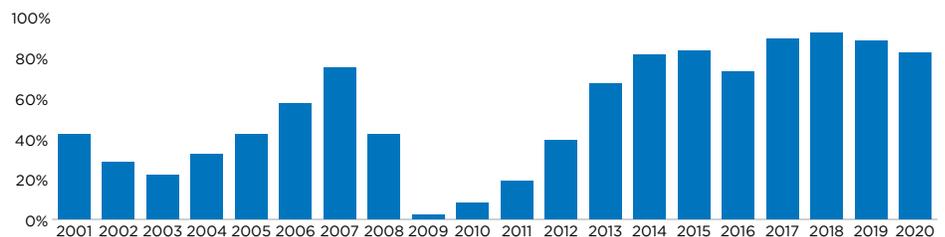

The Approach

Fund managers emphasize stocks of growth companies considered to be high in quality and attractive in their long-term prospects. The Fund invests in some of the best-known names in corporate America, while allocating assets across a broad array of industries. Tax-management strategies are employed to help minimize certain distributions.

The Features

Eaton Vance has over 45 years of experience managing equity funds for after-tax returns. Managers evaluate buy and sell decisions in the context of balancing investment and tax considerations. And while past performance is no guarantee of future results, Tax-Managed Growth Fund 1.2 has never distributed a capital gain.

Percentage of Funds in Lipper Category That Have Made a Capital Gains Distribution

% Average Annual Returns (as of 06/30/2021)

	Q2	YTD	1 Year	3 Years	5 Years	10 Years

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month-end, please refer to eatonvance.com. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. After-tax returns are calculated using certain assumptions, including using the highest individual federal income tax rates in effect at the time of the distributions and do not reflect the impact of state/local taxes. Actual after-tax returns depend on a shareholder's tax situation and the actual characterization of distributions and may differ from those shown. After-tax returns are not relevant to shareholders who hold shares in tax-deferred accounts or shares held by nontaxable entities. Return After Taxes on Distributions may be the same as Return Before Taxes for the same period because no taxable distributions were made during that period. Return After Taxes on Distributions and Sale of Fund Shares may be greater than or equal to Return After Taxes on Distributions for the same period because of losses realized on the sale of Fund shares. Before-tax and after-tax returns for other classes of shares offered by the Fund are different.

About Risk: The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Investments in foreign instruments or currencies can involve greater risk and volatility than U.S. investments because of adverse market, economic, political, regulatory, geopolitical, currency exchange rates or other conditions. Market conditions may limit the ability to generate tax losses or to generate dividend income taxed at favorable tax rates. The Fund's ability to utilize various tax-managed techniques may be curtailed or eliminated by tax legislation regulation or interpretation. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.

⁴Percent of total net assets. Top 10 Holdings excludes cash and equivalents. Portfolio profile subject to change due to active management. Percentages may not total 100% due to rounding. Fund invests in an affiliated investment company (Portfolio) with the same objective(s) and policies as the Fund. References to investments are to the Portfolio's holdings.

Before investing, investors should consider carefully the investment objectives, risks, charges and expenses of a mutual fund. This and other important information is contained in the prospectus and summary prospectus, which can be obtained from a financial advisor. Prospective investors should read the prospectus carefully before investing.
