

Fund Objective

The Shelton International Select Equity Fund seeks to achieve long-term capital appreciation.

Strategic Overview

The fund seeks to achieve long-term capital appreciation by investing in a concentrated portfolio of 30-50 stocks using a proprietary process that focuses on identifying companies that generate superior and consistent internal returns on capital in order to create shareholder value. The fund invests primarily in mid-to-large cap foreign equity securities.

Performance of a \$10,000 Investment - Institutional Shares¹

A hypothetical initial investment of \$10,000 on 7/18/2016, the inception date of SISEX, net of fees and including reinvested dividends, would have grown to \$13,705 as of 6/30/2020. The information above shows the performance of Institutional shares only.

Region Allocations^{3^}

Europe	47.59%
Asia/Pacific Ex Japan	24.04%
Japan	14.37%
North America	9.52%
United Kingdom	4.48%

Average Annual Total Returns

	2Q	YTD	1YR	3YR	Inception*
SISEX	17.55%	-5.03%	0.07%	5.43%	8.30%
SISLX	17.43%	-5.24%	-0.26%	5.14%	8.02%

All performance figures reflect an expense reimbursement. Without the expense reimbursement, the performance figures would be lower. Performance figures represent past performance and are not a guarantee of future results. The investment return and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost; current performance may be lower or higher than the performance data quoted. For more current month-end Fund performance information, please call our office at (800) 955-9988. *Performance inception date: 07/18/16

DEFINITIONS AND IMPORTANT INFORMATION

Beta: Beta measures the fund's sensitivity to market movements as defined by its benchmark; beta greater than 1 is more volatile than the market, while beta less than 1 is less volatile than the market.

R-squared: R-squared represents the percentage of the fund's movements that can be explained by movements in its benchmark.

Information ratio: Information Ratio is a ratio of the fund's returns above those of its benchmark compared to the volatility of those returns.

Sharpe Ratio: Average return earned in excess of the risk-free rate per unit of volatility or total risk.

Standard deviation: Standard Deviation measures the volatility of the Fund's returns; higher deviation represents higher volatility.

The Morningstar Rating™ for funds, or “star rating”, is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product’s monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Shelton International Select Equity Fund was rated against the following numbers of Foreign Large Blend category funds over the following time periods: 5 stars for the 3-year period out of 648 funds ending 6/30/20.
