The performance shown above represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. You may obtain performance information current to the most recent month-end by visiting [www.abfunds.com](http://www.abfunds.com). The investment return and principal value of an investment in the Portfolio will fluctuate, so that your shares, when redeemed, may be worth more or less than their original cost. Advisor Class shares have no front-end or contingent deferred sales charges, however when purchased through a financial advisor additional fees may apply. Returns for other share classes will vary due to different charges and expenses. Performance assumes reinvestment of distributions and does not account for taxes. If applicable, high double-digit returns are highly unusual and cannot be sustained; such returns are primarily achieved during favorable market conditions.

<sup>†</sup> The Fund's Advisor Class share inception date is 10/1/96 and is the date used to calculate since inception annualized performance.

<sup>^</sup> Reflects the positive impact of proceeds related to class action settlements that were originated from individual fund holdings. Reflects a 0.18% and 0.12% increase in NAV on June 8, 2016 and November 2, 2017 as a result of the Fund recording a receivable on its books and records in connection with the distributions by the Alliance Fair Fund and Bank of America Fair Fund, respectively.

<sup>‡</sup> If applicable, this reflects the Adviser's contractual waiver of a portion of its advisory fee and/or reimbursement of a portion of the Fund's operating expenses. This waiver extends through February 28, 2022, and may be extended by the Adviser for additional one-year terms. Absent reimbursements or waivers, performance would have been lower.

**Past performance does not guarantee future results.** Morningstar ratings are specific metrics of performance and do not represent absolute performance of any fund. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. The Fund was rated 3, 4 and 4 stars against 1141, 1012 and 740 funds in the category for the three-, five- and ten- year periods, respectively. The Fund's other share classes may have different performance characteristics.

Russell 1000 Value Index represents the performance of large-cap value companies within the US. Investors cannot invest directly in indices or averages, and their performance does not reflect fees and expenses or represent the performance of any AB fund.

**A WORD ABOUT RISK**

**Market Risk:** The market values of the portfolio's holdings rise and fall from day to day, so investments may lose value. **Foreign (Non-US) Risk:** Non-US securities may be more volatile because of political, regulatory, market and economic uncertainties associated with such securities. Fluctuations in currency exchange rates may negatively affect the value of the investment or reduce returns. These risks are magnified in emerging or developing markets. **Sector/Industry Risk:** Investing a substantial amount of assets in fewer economic sectors may be more volatile than more diversified strategies. Economic or market conditions affecting a particular sector could have a major impact on the portfolio's value.

**Investors should consider the investment objectives, risks, charges and expenses of the Fund/Portfolio carefully before investing.
