

SMALL/MID CAP CORE

Invests in small and mid cap stocks that are well-diversified across economic sectors and meet Trillium's sustainability criteria.

Investment Process

Fundamental equity analysts, who divide coverage by sector, are responsible for providing in-depth analysis of companies and generating new buy ideas consistent with the strategy's high quality approach, including a rigorous integrated review of financial and ESG factors. The Investment Management Committee, comprised of portfolio managers and analysts, meets periodically to review and approve recommendations to the buy-list recommended by the analysts. A strategy team, headed by the lead Portfolio Manager, rebalances the portfolio on at least a quarterly basis to identify the best subset of names from the buy-list at that particular point of time. The team leverages an optimization process that helps monitor and control portfolio characteristic exposures while overweighting companies based on a proprietary alpha score that includes an analyst rating. In this sense, the strategy is fundamentally driven, but quantitatively assisted.

Performance Disclosures

Trillium Asset Management, LLC (Trillium) claims compliance with the Global Investment Performance Standards (GIPS®). Trillium is an investment advisor registered with the Securities and Exchange Commission under the Investment Advisors act of 1940. For the purposes of establishing and maintaining compliance with the GIPS standards, the firm has elected to define itself exclusive of wrap fee assets under management historically until 10/1/2013. Effective 10/1/2013 the firm has redefined itself to include wrap-fee assets under management. Previously, the firm included only institutional and high net worth accounts. The firm was redefined to include the wrap-fee business to reflect all business lines managed by the organization. The Small/Mid Cap Core Composite was created on August 28th 2011 and has an inception date of January 1, 2007. The U.S. Dollar is the currency used to express valuations and performance. Trillium Small/Mid Cap Core seeks to provide competitive long-term returns by investing in small and medium capitalization companies. Performance is presented for all periods net of trading costs and both net and gross of management fees, includes the reinvestment of all income, and is vested and calculated on a trade date basis. Individual performance will vary from that of the composite. Lists, descriptions, and GIPS compliant presentations are available upon request for all Trillium performance composites. The S&P Indices are widely recognized, unmanaged indices of common stock. It is not possible to invest directly in an index. The S&P 1000 combines the S&P MidCap 400 and the S&P SmallCap 600, to form a benchmark for the small-mid cap universe of the U.S. equity market. The Russell 2500 Index measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2500 is a subset of the Russell 3000® Index. It includes approximately 2500 of the smallest securities based on a combination of their market cap and current index membership. It is not possible to invest directly in an index. Past performance is no guarantee of future results. Every investment carries the potential for both profit and loss. Investments in smaller companies generally carry greater risk than is customarily associated with larger companies for various reasons, such as narrower markets, limited financial resources and less liquid stock.
