QUARTERLY UPDATE  
JUNE 30, 2021

## INVESTMENT OBJECTIVE AND STRATEGY

The Fund seeks long-term capital appreciation by investing primarily in equity securities of U.S. small- and medium-capitalization (“SMID”) companies.

The Fund seeks to achieve long-term capital appreciation while minimizing volatility and risk. To accomplish this goal, the Fund invests in companies that Clarkston Capital, the Adviser to the Fund, believes to be high quality and believes to be undervalued relative to their long-term free cash flows. Clarkston Capital refers to this investment philosophy as Quality Value.

Clarkston Capital defines high-quality companies as those that meet certain financial, business and management criteria, which may vary over time. These criteria include favorable profitability metrics, sustainable competitive advantages and capable management teams.

The Fund is “non-diversified,” which means that it may invest a significant portion of its assets in a relatively small number of issuers. From time to time, the Fund may focus its investments in companies in one or more economic sectors. Economic sectors include multiple different industries. The Fund will not invest 25% or more of its assets in any one industry.
