

## Leveraged & Inverse ETFs

### Daily Financial Bull and Bear 3X Shares

#### Overview

The [Direxion Daily Financial Bull and Bear 3X Shares](#) seek daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the Russell 1000® Financial Services Index. **There is no guarantee the funds will meet their stated investment objective.**

These leveraged ETFs seek a return that are 300% or -300% of the return of their benchmark index **for a single day. The funds should not be expected to provide three times or negative three times the return of the benchmark's cumulative return for periods greater than a day.**

#### Target Index

The Russell 1000® Financial Services Index (RGUSFLA) is a subset of the Russell 1000® Index that measures the performance of the securities classified in the financial services sector of the large-capitalization U.S. equity market. **One cannot directly invest in an index.**

*Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.*

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.
