

13D Activist Fund

A Qualitatively Analyzed Portfolio of Activism

Fact Sheet

September 30, 2021

ABOUT THE FUND

- ◆ 13D provides a pure and diversified exposure to the strategy of Shareholder Activism in a more liquid and lower cost vehicle.
- ◆ 13D is an actively managed portfolio of ~ 30 stocks culled from approximately 2,500 live 13D filings that we believe represent the best activist catalysts in the market.
- ◆ Since 2006, the 13D staff has been analyzing every 13D filing and evaluating every activist investor to gain a unique understanding of activist catalysts and the chances of activist success.
- ◆ Shareholder Activism is designed to outperform market indices by generating idiosyncratic returns.

INVESTMENT STRATEGY

- ◆ Shareholder Activism produces understandable and repeatable returns by identifying undervalued companies and being the actual catalyst to close the valuation gap.
- ◆ This ranges from partnering with strong management teams to optimize shareholder value to changing corporate culture by replacing entrenched and conflicted management teams.
- ◆ ESG (Environmental, Social and Governance):
 - ◇ Extreme focus on “G” - roughly 75% of portfolio positions have a shareholder representative on the Board
 - ◇ Does not necessarily invest in the best “G” companies, but converts poor “G” companies to good “G” companies
 - ◇ Good “G” leads to good “E” and “S”

*The Fund's primary benchmark was changed to Russell 2500 from the S&P 500 as of 9/30/2019 because the Russell 2500, a broad market-cap weight index comprised of 2,500 stocks that cover small and mid cap market capitalizations, is more reflective of the Fund's portfolio holdings. Please refer to the Fund's Prospectus at www.13dactivistfund.com for historical performance figures against both indices.

**Fund Statistics are all calculated as of inception except for the market capitalizations, positions and strategy AUM which are as of the performance date.

*** Actual number of positions and portfolio turnover may vary due to 31 day tax loss sales. Portfolio turnover measures trading in dollars: cumulative buys or sells in dollars (whichever was lower), divided by average dollars in the portfolio for the fiscal year. Name turnover measures holding replacement: the lower number of stocks added or stocks liquidated during the fiscal year, divided by the average number of stocks held during the fiscal year. Beta is a measure of the volatility—or systematic risk—of a security or portfolio compared to the market as a whole.

**** Alpha refers to excess returns earned on an investment above the benchmark return.

Please remember that past performance may not be indicative and is no guarantee of future results. The fund performance data quoted here represents past performance. Current performance may be lower or higher than the performance data quoted above. Investment return and principal value will fluctuate, so that shares, when redeemed, may be worth more or less than their original cost. Fund performance, especially for very short periods of time, should not be the sole factor in making your investment decisions. There is no guarantee that any investment strategy will achieve its objectives, generate profits or avoid losses. Historical performance results for investment indices and/or categories have been provided for general comparison purposes only, and generally do not reflect the deduction of transaction and/or custodial charges, the deduction of an investment management fee, nor the impact of taxes, the incurrence of which would have the effect of decreasing historical performance results. It should not be assumed that your account holdings correspond directly to any comparative indices. Past performance may not be indicative of future results and does not reflect the impact of taxes on non-qualified accounts. The data is not guaranteed. You cannot invest directly in an index. The Lipper Mid-Cap Core Funds Peer Group have been presented as investment strategies with similar investment styles. Lipper rankings are based on total return of a fund's stated share class, are historical and do not represent future results.

IMPORTANT DISCLOSURES

Investment Objective is Capital Appreciation.

Portfolio holdings and allocations are subject to change and should not be considered investment advice. Each of these asset classes has its own set of investment characteristics and risks and investors should consider these risks carefully prior to making any investments. Investments in foreign securities could subject the Fund to greater risks including, currency fluctuation, economic conditions, and different governmental and accounting standards.

There is neither a front end load nor a deferred sales charge for the 13D Activist Fund I Class Shares. The A Class shares are subject to a maximum front end load of 5.75%. Shares held for less than 30 days of both classes are subject to a 2.00% redemption fee. The total operating expense ratio (including indirect expenses such as the costs of investing in underlying funds), as stated in the fee table in the Fund's prospectus, which can be obtained on the web at www.13DActivistFund.com or by calling 1-877-413-3228, is 1.51% for I Class, 1.76% for A Class and 2.51% for C Class. Mutual Fund investing involves risk including loss of principal. Overall stock market risks will affect the value of individual instruments in which the Fund invests. Factors such as economic growth, market conditions, interest rate levels, and political events affect the U.S. securities markets. When the value of the Fund's investments goes down, your investment in the Fund decreases in value and you could lose money. The Fund is a non-diversified investment company, which makes the value of the Fund's shares more susceptible to certain risks than shares of a diversified investment company. The Fund has a greater potential to realize losses upon the occurrence of adverse events affecting a particular issuer. The value of small or medium capitalization company stocks may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general. An investor should also consider the Fund's investment objective, charges, expenses, and risk carefully before investing. The adviser's consideration of ESG factors could cause it to perform differently compared to funds that do not have such a policy and may not produce the desired results.

The S&P 500 Index is an unmanaged composite of 500-large capitalization companies. This index is widely used by professional investors as a performance benchmark for large-cap stocks. You cannot invest directly into an index. The Russell 2500 Index is a broad index, featuring 2,500 stocks that cover the small- and mid-cap market capitalizations. The Russell 2500 is a market cap-weighted index that includes the smallest 2,500 companies covered in the Russell 3000 universe of United States-based listed equities. **Before investing, please read the Fund's prospectus and shareholder reports to learn about its investment strategy and potential risks. This and other information about the Fund is contained in the Fund's prospectus or summary prospectus, which can be obtained on the web at www.13DActivistFund.com or by calling 1-877-413-3228. Please read the prospectus carefully before investing. The 13D Activist Fund is distributed by Foreside Financial Services, LLC.**
