Growth of a \$10,000 Investment¹
A hypothetical \$10,000 investment in the fund's Class A shares on 11/4/97 would have been worth \$56,656 on 9/30/21.

This does not reflect the 5.75% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.

DUE TO RECENT MARKET VOLATILITY, CURRENT PERFORMANCE MAY BE DIFFERENT THAN THE FIGURES SHOWN.

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate, and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. Performance for periods less than 1 year is not annualized. Go to im.bnymellon.com for the fund's most recent month-end returns. The net expense ratio reflects a contractual expense reduction agreement, without which, the returns would have been lower. The agreement may not be amended without the approval of the fund's shareholders. Total Expense Ratios: Class A 1.21%, Class C 1.96%, Class I 0.96%. Net Expense Ratios: Class A 1.20%, Class C 1.95%, Class I 0.95%. Not all classes of shares may be available to all investors or through all broker-dealer platforms.

¹Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. ²Portfolio composition is as of 9/30/2021 and is subject to change at any time. ³Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. ⁴Source: FactSet. BNY Mellon Tax Managed Growth Fund

Class A **DTMGX** Class C **DPTAX** Class I **DPTRX**

Goal/Approach

The fund seeks long-term capital appreciation consistent with minimizing realized capital gains. To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in common stocks and employs a tax-managed strategy. The fund focuses on "blue-chip" companies with market capitalizations exceeding \$5 billion at the time of purchase, including multinational companies.

The fund employs a "buy-and-hold" investment strategy, which generally has resulted in an annual portfolio turnover of below 15%.

Portfolio Management

BNY Mellon Investment Adviser, Inc., the fund's investment adviser, has engaged Faye Sarofim & Co. ("Sarofim & Co."), to serve as the fund's sub-investment adviser. Sarofim & Co., subject to BNY Mellon Investment Adviser, Inc.'s supervision and approval, provides investment advisory assistance, research and the day-to-day management of the fund's investments. The fund is managed by a team of portfolio managers employed by Sarofim & Co., consisting of Faye Sarofim, Alan R. Christensen, CFA, Catherine Crain, Gentry Lee, Christopher Sarofim and Charles Sheedy. The team is supported by Sarofim & Co.'s Investment Committee, all the members of which are senior investment professionals at Sarofim & Co. Mr. Faye Sarofim, Co-Chief Investment Officer and Chairman of the Board, founded Sarofim & Co. in 1958 and has been a portfolio manager of the fund since 1990.

¹Source: Morningstar. The Morningstar Rating™ for funds, or "star rating," is calculated for managed products with at least a 3-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance (not including the effects of sales charges, loads and redemption fees if applicable), placing more emphasis on downward variations and rewarding consistent performance. Managed products, including open-end mutual funds, closed-end funds and exchange-traded funds, are considered a single population for comparative purposes. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar Rating metrics. ©2021 Morningstar, Inc. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. **Past performance is no guarantee of future results.** The fund represents a single portfolio with multiple share classes that have different expense structures. Other share classes may have achieved different results. Ratings do not reduce investment risk and are subject to change.

²Portfolio composition is as of 9/30/2021 and is subject to change at any time. ³After-tax returns are calculated using the highest historical individual federal marginal income tax rates, and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown here and are not relevant to investors who hold their fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts. ⁴Pre-liquidation, after-tax returns assume an investor held shares throughout the measurement period and reflect the effect of taxable distributions (assuming reinvestment in the fund) by a fund to its shareholders. ⁵Post-liquidation, after-tax returns assume an investor sold shares at the end of the measurement period and, therefore, reflect the effect of both taxable distributions and any taxable gain or loss realized by the shareholder upon sale of fund shares.

Risks: Equities are subject to market, market sector, market liquidity, issuer, and investment style risks, among other factors, to varying degrees. Investing in **foreign denominated and/or domiciled securities** involves special risks, including changes in currency exchange rates, political, economic, and social instability, limited company information, differing auditing and legal standards, and less market liquidity. These risks generally are greater with emerging market countries. *Recent market risks include pandemic risks related to COVID-19. The effects of COVID-19 have contributed to increased volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically than others. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.*
