GABELLI GROWTH FUND*

A Large-Cap Growth Fund Seeking Favorable, Yet Undervalued, Prospects for Earnings Growth and Price Appreciation

PORTFOLIO MANAGEMENT

Howard F. Ward, CFA Chief Investment Officer

- B.A. Northwestern University
- Manager since 1995

Christopher D. Ward, CFA Associate Portfolio Manager

- B.A. Boston College
- Manager since 2018

INVESTMENT THEMES

- Digital Transformation of the Enterprise
 Public Cloud, SaaS, Modern Data
 Architectures, Security, Automation
- Digital Media
 Digital Advertising, Streaming
 Entertainment, Content, Infrastructure
- Digital Consumer
 E-Commerce, Electronic Payments, Digital Banking, Gaming
- Medical Technology
 Life Sciences, Next-Gen Sequencing, Robotics

STRATEGY OVERVIEW

- The Gabelli Growth Fund is a diversified Fund whose investment objective is to seek capital appreciation.
- The Portfolio Manager looks for companies poised for durable market share gains in secular growth industries and whose prospective earnings power appears undervalued.
- The Fund invests primarily in a broad range of readily marketable equity securities, primarily common stock.

PORTFOLIO HIGHLIGHTS

Total Net Assets	\$1.1 billion	Share Class	Symbol
NAV (Class AAA)	\$94.93	Class AAA	GABGX
Turnover (yr. ending 12/31/20)	65%	Class A	GGCAX
Inception Date	4/10/87	Class C	GGCCX
Minimum initial investment is \$1,000.		Class I	GGCIX

PERFORMANCE STATISTICS (October 2018 - September 2021)

The top ten holdings and sectors listed are not necessarily representative of the entire portfolio and are subject to change. The most recent semiannual report, which contains a more extensive list of holdings, is available from your financial adviser or by contacting the distributor, G. distributors, LLC.

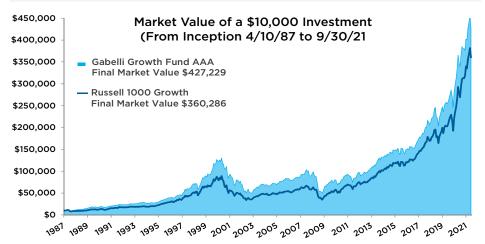

*Effective December 20, 2019, the GAMCO Growth Fund changed its name to "The Gabelli Growth Fund." The Fund's share price will fluctuate with changes in the market value of the Fund's portfolio securities. Stocks are subject to market, economic and business risks that cause their prices to fluctuate. When you sell Fund shares, they may be worth less than what you paid for them. Consequently, you can lose money by investing in the Fund.

Standard deviation is a statistical measure of the volatility of a fund's returns. Beta measures a fund's risk relative to its benchmark which, by definition, has a beta of 1.00. If a fund's beta is less than 1.00, the fund is considered less risky than the market. Alpha is a measure of a fund's actual returns and expected performance, given its level of risk (as measured by beta). Upside/downside capture ratio show you whether a given fund has outperformed, gained more or less than, a broad market benchmark during periods of market strength and weakness, and if so, by how much. R-squared is a statistic that indicates how much of a fund's fluctuations were attributable to movements of the fund's benchmark index.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing. The prospectus, which contains more complete information about these and other matters, should be read carefully before investing. To obtain a prospectus, please call 800-GABELLI or visit www.gabelli.com.

Russell

MARKET VALUE OF A \$10,000 INVESTMENT (CLASS AAA)

The chart above reflects an investment of \$10,000 from April 10, 1987 to September 30, 2021 and assumes that all dividends and capital gains were reinvested. The chart does not reflect the impact of any taxes. Based on The Gabelli Growth Fund's prospectus dated April 30, 2021, the Fund's expense ratio was 1.37%.

AVERAGE ANNUAL RETURNS AS OF 9/30/21

Returns represent past performance and do not guarantee future results. Due to market volatility, current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. To obtain the most recent month end performance information and a prospectus, please call 800-GABELLI or visit www.gabelli.com.

The inception date of the Fund was April 10, 1987. The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares and Class C Shares on December 31, 2003 and Class I Shares on January 11, 2008. The actual performance for Class A and Class C Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Performance for periods less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 5.75% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge for shares redeemed up to and including the last day of the twelfth month after purchase. The Fund imposes a 2% redemption fee on shares sold or exchanged in seven days or less after the date of purchase. The S&P 500 Index & the Russell 1000 are unmanaged indicators of stock market performance, their returns do not reflect any fees, expenses, or sales charges, and they are not available for direct deposit. The Russell 1000 Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values. Investing in foreign securities involves risks not ordinarily associated with investments in domestic issues including currency fluctuations, economic and political risks. Not FDIC Insured. Not Bank Guaranteed. May Lose Value.

The Gabelli Mutual Funds are distributed by G.Distributors, LLC., a registered broker-dealer and member of FINRA.
