GABELLI FOCUSED GROWTH & INCOME FUND

Quarter End – September 30, 2021

PORTFOLIO UPDATE

The Fund's largest position on January 1 was MGM Growth Properties (MGP – 8.4% of AUM), a REIT that was spun off from MGM Resorts. We began buying shares of MGP a year ago given its' world class assets, strong balance sheet, long-term contracts, and opportunities for accretive M&A. Shares are currently trading about 40% higher than our average cost of \$22, but still about 20% below our estimate of the firm's value. In addition to significant capital appreciation, MGP pays tax-advantaged dividends of \$1.95 annually, representing a 6.2% current return. We think the dividend should grow over time along with rent escalators.

NextEra Energy Partners (NEP – 6.7% of AUM) is a pure-play clean energy growth vehicle with a terrific portfolio of wind and solar assets. Supported by the strong balance sheet of its majority shareholder, NextEra Energy (NYSE: NEE), we believe NEP will continue to benefit from renewable project development, particularly given anticipated regulatory incentives. Shares are currently trading about 32% higher than our average cost, but still 30% below our estimate of Private Market Value. In addition to significant capital appreciation, NEP will likely have the ability to increase its annual distribution from the current level of \$2.38 per share (~3.7% return).

Returns represent past performance and do not guarantee future results. Due to market volatility, current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. *The inception date of the Fund was December 31, 2002. The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares and Class C Shares on December 31, 2003 and Class I Shares on January 11, 2008. The actual performance for Class A and Class C Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Performance for periods less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 5.75% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge for shares redeemed up to and including the last day of the twelfth month after purchase. The Adviser reimbursed certain expenses to limit the expense ratio during the period from inception. Had such limitation not been in place, returns would have been lower. The fund imposes a 2% redemption fee on shares sold or exchanged in seven days or less after the date of purchase. The S&P MidCap 400 Index and the Lipper Equity Income Fund Average Index are unmanaged indicators of stock market performance, their returns do not reflect any fees, expenses, or sales charges, and are not available for direct deposit.

The Fund is classified as a "non-diversified" mutual fund, which means that a greater proportion of its assets may be invested in the securities of a single issuer than a "diversified" mutual fund. As a non-diversified mutual fund, more of the Fund's assets may be focused in the common stocks of a small number of issuers, which may make the value of the Fund's shares more sensitive to changes in the market value of a single issuer or industry than shares of a diversified mutual fund. Not FDIC Insured. Not Bank Guaranteed. May Lose Value.

The Gabelli Mutual Funds are distributed by G.Distributors, LLC., a registered broker-dealer and member of FINRA.
