<sup>1</sup>Reflects expenses for the Fund's fiscal year end and is subject to change. Fund expenses may fluctuate with market volatility. A substantial reduction in Fund assets (since its most recently completed fiscal year), whether caused by market conditions or significant redemptions or both, will likely cause total operating expenses (as a percentage of Fund assets) to become higher than those shown.

<sup>2</sup>Reflects the average net expenses of Class A shares of all funds within the Lipper Equity Income Funds Category based on Lipper data available.

**A Note about Risk:** The value of investments in equity securities will fluctuate in response to general economic conditions and to changes in the prospects of particular companies, including market, liquidity, currency, and political risks. Larger companies may be unable to respond quickly to certain market developments and may have slower rates of growth as compared to smaller successful companies. A company's dividend payments may vary over time, and there is no guarantee that a company will pay a dividend at all. These factors can adversely affect Fund performance. Investments in value companies can continue to be undervalued for long periods of time and be more volatile than the stock market in general.

The Fund's portfolio is actively managed and is subject to change.

"Barron's Best Fund Families of 2020," February 19, 2021. Barron's rankings are based on asset weighted returns in funds in five categories: U.S. equity, world equity (including international and global portfolios), mixed asset (which invest in stocks, bonds and other securities), taxable bond, and tax-exempt (each a "Barron's ranking category"). Rankings also take into account an individual fund's performance within its Lipper peer universe. Lipper calculated each fund's net total return for the year ended December 31, 2020, minus the effects of 12b-1 fees and sales charges. Each fund in the survey was given a percentile ranking with 100 the highest and 1 the lowest in its category. That ranking measured how a fund compared with its peer "universe," as tracked by Lipper, not just the funds in the survey. Individual fund scores were then multiplied by the 2020 weighting of their Barron's ranking category as determined by the entire Lipper universe of funds. Those fund scores were then totaled, creating an overall score and ranking for each fund family in the survey in each Barron's ranking category. The process is repeated for the five- and ten-year rankings as well. Barron's Fund Family Rankings are awarded annually.
