

Global Leaders Fund

Investor: **BIALX** Institutional: **BAFLX**

Third Quarter 2021

GLOBAL EQUITY

WHY INVEST IN BROWN ADVISORY GLOBAL LEADERS?

We focus on companies that are global leaders that we believe can deliver attractive growth.

We define Global Leaders as companies that have competitive advantages with strong management teams, pricing power, above-industry margins and high return on invested capital (ROIC) that is underpinned by long-term, structural growth. High relative ROIC is particularly helpful when analyzing global equities because those companies tend to see profitability persist.

We believe that the best way to generate attractive risk-adjusted returns over time is through a concentrated, low-turnover portfolio.

We scour the global equity universe to identify the most attractive Global Leaders based on bottom-up, fundamental research. By limiting the portfolio to 40 stocks, we can be selective about valuations and choose the most compelling investment opportunities.

Fund Managers Mick Dillon, Bertie Thomson and the Brown Advisory equity research team have the expertise to successfully manage a global equity portfolio.

Together they have years of experience managing concentrated global portfolios. Like the rest of the Brown Advisory investment team, they believe that long-term investing and concentrating portfolios on our best investment ideas is in the best interest of our shareholders.

Fund Managers: Mick Dillon, CFA & Bertie Thomson, CFA

Wtd. Avg. Market Capitalization ¹ (\$B)	455.8	347.3
Wtd. Median Market Capitalization ¹ (\$B)	131.7	81.7
Earnings Growth Rate, (3-5 Yr. estimate ² (%))	21.0	16.7
Sales Growth Rate, (3-Yr. Hist. average ³ (%))	7.7	9.6
Return on Invested Capital ⁴ (%)	22.3	8.7
Price-to-Earnings Ratio ⁵ (P/E, FY1)	27.7	16.1

Source: Fund net assets provided by U.S. Bank and are as of the last day of the quarter and include all share classes. Characteristics exclude cash and equivalents and are derived from FactSet and are applicable to investor share class only. Performance figures and charts include the reinvestment of dividend and capital gain distributions. Returns would have been lower during the specified periods if the payment of certain fees by the Fund had not been waived or expenses reimbursed. **Earnings growth 3-5 year estimate is not a measure of the Fund's future performance.**

Morningstar Rankings represent a fund's total-return percentile rank relative to all funds that have the same Morningstar Category. The highest percentile rank is 1 and the lowest is 100. It is based on Morningstar total return, which includes both income and capital gains or losses and is not adjusted for sales charges or redemption fees. Past performance does not guarantee future results.

Before investing you should carefully consider the Fund's investment objectives, risks, charges, and expenses. This and other information is in the summary or statutory prospectus, a copy of which may be obtained by calling 1-800-540-6807 or visiting the Fund's website, www.brownadvisoryfunds.com. Please read the prospectus carefully before you invest.

Securities of medium-sized companies may be more volatile and more difficult to liquidate during market down turns than securities of larger companies. Investments in foreign securities and ADRs entail certain risks not associated with investments in domestic securities, such as volatility of currency exchange rates, and in some cases, political and economic instability and relatively illiquid markets. These risks are greater in emerging markets. In addition, the fund is susceptible to risks from investments in ETFs, REITs, derivatives, private placements and its investments in other investment companies. Diversification does not assure a profit or protect against a loss in a declining market.

The **FTSE All-World Index** is a market-capitalisation weighted index representing the performance of the large and mid cap stocks from the FTSE Global Equity Index Series and covers 90-95% of the investable market capitalisation. The index covers Developed and Emerging markets and is suitable as the basis for investment products, such as funds, derivatives and exchange-traded funds. FTSE® is a trade mark of LSEG and is used by FTSE under licence.

The Morningstar category represents a universe of open-end U.S. funds with similar objectives.

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating™ for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating™ metrics.

MARKET CAPITALIZATION (AS OF 09/30/2021)

	BIALX	INDEX
Greater than \$100B	56.6	46.3
\$50B - \$100B	20.4	16.2
\$10B - \$50B	20.7	29.8
Less than \$10B	2.3	7.7

BROWN ADVISORY: AN INDEPENDENT INVESTMENT FIRM

that offers a wide range of solutions to institutions, corporations, nonprofits, families and individuals. Our mission is to make a material and positive difference in the lives of our clients. We are committed to delivering a combination of first-class performance, customized strategic advice and the highest level of personalized service.

- Independent since 1998
- Founded in 1993
- 100% of colleagues collectively own approximately 70% of the firm

The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods." Morningstar Rankings represent a fund's total-return percentile rank relative to all funds that have the same Morningstar Category. The highest percentile rank is 1 and the lowest is 100. It is based on Morningstar total return, which includes both income and capital gains or losses and is not adjusted for sales charges or redemption fees. **Past performance is no guarantee of future results.** Brown Advisory Global Leaders Fund was rated against the following numbers of U.S. domiciled World Stock funds over the following time periods: 298 funds in the last three years and 254 in the last five years for the period ending 09/30/2021. With respect to these World Stock funds, Brown Advisory Global Leaders Fund received a Morningstar Rating of 3 stars and 3 stars for the three- and five- year periods respectively.

Terms and Definitions

The net expense ratio represents the percentage paid by investors.

1. **Market Capitalization** is the value of the fund as determined by the market price of its issued and outstanding stock. The **Weighted Average Market Capitalization** of a portfolio equals the average of each holding's market cap, weighted by its relative position size in the portfolio (in such a weighting scheme, larger positions have a greater influence on the calculation). The **Weighted Median Market Capitalization** is the median market capitalization of a fund's equity portfolio gives you a measure of the size of the companies in which an equity fund invests. It is the trimmed mean of the market capitalizations of the stocks in the fund's portfolio.
2. **Earnings growth rate** is based on consensus estimates derived from FactSet as of the current quarter-end for the next 3-5 year trailing period, and is not a measure of the Fund's future performance.
3. **Sales growth rate** is based on FactSet reported company revenue for the past three years at the end of the current quarter, provided as a historical average.
4. **Return on Invested Capital (ROIC)** is based on FactSet using the company's last reported ROIC from the most recent quarter, or if not available the most recent quarter available. The metric is used to assess a company's efficiency at allocating capital under its control of profitable investments. It is a ratio of a company's net income less dividends divided by total capital.
5. **Price-Earnings Ratio (P/E Ratio)** is the ratio of the share of a company's stock compared to its per-share earnings.
