

Calvert Mid-Cap Fund

Fund Overview

The Fund invests primarily in U.S. mid-cap stocks, specifically focusing on quality businesses based on both financial analysis and responsible investing criteria. The Fund’s investment approach seeks to emphasize high conviction investment ideas across equity market sectors and styles.

Research Process

The process combines a disciplined analysis of environmental, social, and governance (ESG) factors with deep fundamental research to identify companies that possess an attractive combination of quality, growth and valuation characteristics. The investment team adheres to strict portfolio construction parameters in an attempt to minimize unintended risks, as well as to ensure that security selection is the primary driver of excess returns.

Calvert Leadership

Calvert Research and Management is a recognized leader in Responsible Investing, offering investment strategies that seek superior long-term performance and positive social impact. The Calvert Principles for Responsible Investment (Calvert Principles) provide a framework for the evaluation of ESG factors and guide our active engagement efforts with company managements.

*Impact comparison	Fund holdings	Russell Mid-cap® Index holdings
Fossil fuel reserves ownership: percent of companies	0.00	2.68
Carbon emissions, metric tons	37.54	109.80
Toxic emissions, metric tons	61,663.00	6,983,429.31

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund’s current performance may be lower or higher than quoted. For the Fund’s performance as of the most recent month end, please refer to eatonvance.com. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. Performance prior to December 31, 2016 reflects the performance of the Fund’s former adviser, Calvert Investment Management, Inc. The minimum investment is \$1,000 for A Shares and \$250,000 for I Shares. Minimums may be waived in certain situations. Please see the prospectus for additional information.

About Calvert

Calvert Research and Management (Calvert) is a global leader in responsible investing. Calvert sponsors one of the largest and most diversified families of responsibly invested mutual funds, encompassing active and passively managed equity, income, alternative and multi-asset strategies. With roots in responsible investing back to 1982, the firm seeks to generate favorable investment returns for clients by allocating capital consistent with environmental, social and governance best practices and through structured engagement with portfolio companies. Headquartered in Washington, D.C., Calvert manages assets on behalf of funds, individual and institutional separate account clients, and their advisors. For more information, visit calvert.com.

About Risk: The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Smaller companies are generally subject to greater price fluctuations, limited liquidity, higher transaction costs and higher investment risk than larger, more established companies. Investing primarily in responsible investments carries the risk that, under certain market conditions, the Fund may underperform funds that do not utilize a responsible investment strategy. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.

Portfolio characteristics exclude 1 security in Calvert's Special Equities program, which represent 0.115% of the portfolio and 2 securities in Calvert's High Impact Investments program, which represented 0.211% of the portfolio, both as of 09/30/2021. The Special Equities program enables the Fund to promote approaches to responsible investment goals through privately placed investments. High Social Impact Investments are investments that, in the Adviser's opinion, offer the opportunity for significant sustainability and social impact. These investments are generally illiquid and involve high risks. See the Fund's prospectus for details and calvert.com for a complete list of Fund holdings.

¹Russell Midcap[®] Index is an unmanaged index of U.S. mid-cap stocks. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index. Historical performance of the index illustrates market trends and does not represent the past or future performance of the fund. ²Percent of total net assets. Top 10 Holdings excludes cash and equivalents. Portfolio profile subject to change due to active management. Percentages may not total 100% due to rounding. ³Source: Calvert Research and Management, ISS (Institutional Shareholder Services). ⁴Source: Calvert Research and Management, MSCI as of 09/30/2021. For full engagement and impact methodology and disclosure please visit calvert.com/methodology. ⁵Source: Fund prospectus. Net expense ratio reflects a contractual expense reimbursement that continues through 01/31/2022. Without the reimbursement, if applicable, performance would have been lower. ⁶The 3-year historical earnings per share (EPS) growth rate for a stock measures how the stock's EPS has grown over the last three years. Return on Assets over the Trailing Twelve Months is the percentage a company earns on its assets in a given year.

Calvert funds are available at NAV for RIAs and Wrap Programs. Not all share classes are available to all investors. See a fund's prospectus for details.

For more information on any Calvert fund, please contact your financial advisor or visit calvert.com for a free summary prospectus and/or prospectus. An investor should consider the investment objectives, risks, charges, and expenses of an investment carefully before investing. The summary prospectus and prospectus contain this and other information. Read them carefully before you invest or send money.
