

Calvert US Large-Cap Growth Responsible Index Fund

Fund Overview

The Fund seeks to track the performance of the Calvert US Large-Cap Growth Responsible Index, which is composed of common stocks of large growth companies selected from the 1,000 largest publicly-traded U.S. companies based on market capitalization and growth style factors. It offers broad exposure to companies that meet The Calvert Principles for Responsible Investment (Calvert Principles).

Research Process

Calvert Research and Management conducts deep, proprietary research across approximately 200 peer groups using over 200 key performance indicators (KPIs) to measure material environmental, social, and governance (ESG) factors. The Calvert US Large-Cap Growth Responsible Index has approximately 550 holdings that are reconstituted annually and are rebalanced quarterly.

Calvert Leadership

Calvert Research and Management is a recognized leader in Responsible Investing, offering investment strategies that seek superior long-term performance and positive global impact. The Calvert Principles provide a framework for considering ESG factors and guide Calvert's active engagement efforts with company management.

Performance

% Average annual returns (as of 12/31/2021)

	Q4	YTD	1Yr	3Yr	5Yr	Life of fund

*Impact comparison	Fund holdings	Russell 1000® Growth Index holdings
Fossil fuel reserves ownership: percent of companies	0.00	0.00
Carbon emissions, metric tons	9.90	7.35
Toxic emissions, metric tons	299,025	483,094
Tobacco exposure: percent of companies	0.00	0.20

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month end, please refer to eatonvance.com. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. Performance prior to December 31, 2016 reflects the performance of the Fund's former adviser, Calvert Investment Management, Inc. The minimum investment is \$5,000 for A Shares and \$100,000 for I Shares. Minimums may be waived in certain situations. Please see the prospectus for additional information.

About Calvert

Calvert Research and Management (Calvert) is a global leader in responsible investing. Calvert sponsors one of the largest and most diversified families of responsibly invested mutual funds, encompassing active and passively managed equity, income, alternative and multi-asset strategies. With roots in responsible investing back to 1982, the firm seeks to generate favorable investment returns for clients by allocating capital consistent with environmental, social and governance best practices and through structured engagement with portfolio companies. Headquartered in Washington, D.C., Calvert manages assets on behalf of funds, individual and institutional separate account clients, and their advisers. For more information, visit calvert.com.

About Risk: The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The Fund's performance may not match or correlate to that of its Index, either on a daily or aggregate basis due to factors such as Fund expenses, imperfect correlation, rounding of share prices, changes to the composition of the Index, regulatory policies, high portfolio turnover and the use of leverage (if any). The Fund expects to hold the common stock of each company in the index it is designed to track, regardless of market conditions or individual investment performance, which could cause the Fund to underperform funds that employ an active strategy. The value of equity securities is sensitive to stock market volatility. Investing primarily in growth stocks of large-cap companies may cause the Fund to underperform the overall stock market during periods in which such stocks are out of favor. Investing primarily in responsible investments carries the risk that, under certain market conditions, the Fund may underperform funds that do not utilize a responsible investment strategy. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.

¹Russell 1000[®] Growth Index is an unmanaged index of U.S. large-cap growth stocks. Calvert US Large-Cap Growth Responsible Index is a portfolio of large capitalization U.S. stocks with growth characteristics that meet Calvert's criteria for index inclusion based on Calvert Principles for Responsible Investment. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index. Historical performance of the index illustrates market trends and does not represent the past or future performance of the fund. ²Percent of total net assets. Top 10 Holdings excludes cash and equivalents. Percentages may not total 100% due to rounding. ³Excluded companies are (i) the three largest companies based on market capitalization in the Russell 1000[®] Growth Index that are not included in the Calvert and not in the same sector and (ii) two other companies with the highest RepRisk scores from the Russell 1000[®] Growth Index. RepRisk provides a proprietary, systematic framework to identify and assess corporate ESG risk that includes a score that ranks company controversies (most controversial to least controversial). ⁴Source: Calvert Research and Management, ISS (Institutional Shareholder Services). ⁵Source: Calvert Research and Management, MSCI as of 12/31/2021. For full engagement and impact methodology and disclosure please visit calvert.com/methodology. ⁶Source: Fund prospectus. Net Expense Ratio reflects a contractual expense reimbursement that continues through 1/31/22. Without the reimbursement, if applicable, performance would have been lower. ⁷The 3-year historical earnings per share (EPS) growth rate for a stock measures how the stock's EPS has grown over the last three years. Return on Assets over the Trailing Twelve Months is the percentage a company earns on its assets in a given year.

Calvert funds are available at NAV for RIAs and Wrap Programs. Not all share classes are available to all investors. See a fund's prospectus for details.

For more information on any Calvert fund, please contact your financial advisor or visit calvert.com for a free summary prospectus and/or prospectus. An investor should consider the investment objectives, risks, charges, and expenses of an investment carefully before investing. The summary prospectus and prospectus contain this and other information. Read them carefully before you invest or send money.
