## Annual total returns<sup>2</sup> (%) as of 12/31

Performance data quoted represents past performance and is no guarantee of future results. Returns are based on total return, which assumes reinvestment of dividends and distributions. Investment returns and principal value will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted. To obtain performance information current to the most recent month end, please visit [www.schwabassetmanagement.com](http://www.schwabassetmanagement.com).

Index performance returns do not reflect any management fees, transaction costs or expenses, which would lower performance. They assume dividends and distributions were reinvested. Indices are unmanaged and cannot be invested in directly.

<sup>1</sup> As stated in the prospectus, the investment adviser and its affiliates have agreed to limit the total annual operating expenses (excluding interest, taxes and certain non-routine expenses) of the fund to 0.50% for so long as the investment adviser serves as the adviser to the fund. This agreement may only be amended or terminated with the approval of the fund's Board of Trustees. The agreement to limit the fund's total annual operating expenses is limited to the fund's direct operating expenses and, therefore, does not apply to Acquired Fund Fees and Expenses (AFFE), which are indirect expenses incurred by the fund through its investments in the underlying funds. This figure may differ from that presented in the Fund's shareholder report.

<sup>2</sup> Fund expenses may have been partially absorbed by Charles Schwab Investment Management, Inc. (CSIM). Without these reductions, the fund's returns would have been lower.
