

## Daily FTSE China Bull & Bear 3X Shares

### Overview

The [Direxion Daily FTSE China Bull and Bear 3X Shares](#) seek daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the FTSE China 50 Index. **There is no guarantee the funds will meet their stated investment objectives.**

These leveraged ETFs seeks a return that is 300% or -300% of the return of their benchmark index **for a single day. The funds should not be expected to provide three times or negative three times the return of the benchmark's cumulative return for periods greater than a day.**

### Target Index

The FTSE China 50 Index (TXIN0UNU) consists of the 50 largest and most liquid public Chinese companies currently trading on the Hong Kong Stock Exchange as determined by FTSE/Russell. Constituents in the Index are weighted based on total market value, so that companies with larger total market values will generally have a greater weight in the Index. Index constituents are screened for liquidity and weightings and are capped to limit the concentration of any one stock in the Index. **One cannot directly invest in an index.**

*Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.*

An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at [direxion.com](http://direxion.com).**

**Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.**

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

**Direxion Shares Risks** – An investment in each Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with the Funds' concentrating their investments in a particular industry, sector, or geographic region which can result in increased volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. Risks of each Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Other Investment Companies (including ETFs) Risk, and risks specific to Chinese securities, including Chinese Government Risk, Chinese Markets Risk, Chinese Currency Risk, and Hong Kong Securities Risk.

The Chinese economy is generally considered an emerging market and can be significantly affected by economic and political conditions and policy in China and surrounding Asian countries. Securities from issuers in emerging markets face the potential for greater market volatility, lower trading volume, higher levels of inflation, political and economic instability, greater risk of market shutdown and more government limitations on foreign investments than typically found in more developed markets. Additional risks include, for the Direxion Daily FTSE China Bull 3X Shares, Daily Index Correlation Risk and for the Direxion Daily FTSE China Bear 3X Shares, Daily Inverse Index Correlation Risk, and risks related to Shorting and Cash Transactions. Please see the summary and full prospectuses for a more complete description of these and other risks of each Fund.
