The performance presented represents past performance and is not a guarantee of future results. Investment return and principal value will vary so that, when redeemed, an investor's shares may be worth more or less than their original cost. For the Fund's most recent month end performance, visit www.davisetfs.com or call 800-279-0279. Current performance may be lower or higher than the performance quoted. NAV prices are used to calculate market price performance prior to the date when the Fund was first publicly traded. Market performance is determined using the closing price at 4:00 pm Eastern time, when the NAV is typically calculated. Market performance does not represent the returns you would receive if you traded shares at other times. The total annual operating expense ratio as of the most recent prospectus was 0.61%. The total annual operating expense ratio may vary in future years. Returns of less than one year are not annualized.

* The Adviser has contractually agreed to waive fees and/or reimburse the Fund's expenses to the extent necessary to cap total annual fund operating expenses at 0.65% until March 1, 2023. After that date, there is no assurance that the Adviser will continue to cap expenses. The expense cap cannot be terminated prior to that date, without the consent of the Board of Trustees.

¹ As of December 31, 2021.

² Davis Advisors, Davis family and Foundation, our employees, and Fund Trustees have more than \$2 billion invested in similarly managed accounts and strategies as of December 31, 2021.

This report is authorized for use by existing shareholders. A current Davis Select U.S. Equity ETF prospectus must accompany or precede this material if it is distributed to prospective shareholders. You should carefully consider the Fund's investment objective, risks, fees, and expenses before investing. Read the prospectus carefully before you invest or send money.

Shares of DUSA are bought and sold at market price (not NAV) and are not individually redeemed from the ETF. There can be no guarantee that an active trading market for ETF shares will develop or be maintained, or that their listing will continue or remain unchanged. Buying or selling ETF shares on an exchange may require the payment of brokerage commissions and frequent trading may incur brokerage costs that detract significantly from investment returns.

Market Price returns are generally calculated using closing price and account for distributions from the Fund. Market price performance does not represent the returns you would receive if you traded shares at other times. Total Return represents changes to the NAV and accounts for distributions from the Fund.

As investors buy and sell ETF shares through a brokerage account or an investment adviser like ordinary stocks, brokerage commissions and/or transactions costs or service fees may apply. Please consult your broker or financial adviser for their fee schedule.

Forward Price/Earnings (Forward P/E) Ratio is a measure of the price-to-earnings ratio using the current market price and forecasted earnings for the calculation. Active Share is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index. EPS (Earnings Per Share) is the portion of a company's profit allocated to each outstanding share of common stock. Earnings per share serves as an indicator of a company's profitability.

We gather our index data from a combination of reputable sources, including, but not limited to, Lipper and index websites.

The S&P 500® Index is an unmanaged index of 500 selected common stocks, most of which are listed on the New York Stock Exchange. The Index is adjusted for dividends, weighted towards stocks with large market capitalizations and represents approximately two-thirds of the total market value of all domestic common stocks. Investments cannot be made directly in an index.

After 4/30/22, this material must be accompanied by a supplement containing performance data for the most recent quarter end.

Shares of the Davis Fundamental ETF Trust are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve investment risks, including possible loss of the principal amount invested.
