A MESSAGE FROM THE PRESIDENT

Dear Shareholders:

Thank you for investing in Hartford Mutual Funds. The following is the Funds' Annual Report covering the period from November 1, 2020 through October 31, 2021.

Market Review

During the 12 months ended October 31, 2021, U.S. stocks, as measured by the S&P 500 Index,¹ gained 42.9%, a number that reflects one of the most remarkable market rebounds in recent memory, particularly when measured against the March 2020 sell-off at the start of the coronavirus (COVID-19) pandemic.

That said, the market's extraordinary performance occurred against a backdrop of uncertain and sometimes contradictory economic signals: inflation fears; global supply-chain bottlenecks; tightened labor markets; political gridlock; a stubbornly persistent pandemic and a U.S. Federal Reserve (Fed) methodically signaling its intention to cut back on the monetary stimulus that helped fuel the recovery.

A year ago, markets had already bounced back from their March 2020 lows, yet the economy still faced considerable turbulence from a fiercely divisive U.S. presidential election and a resurgence of COVID-19 infections. Once the election was settled in November 2020, the emergence of safe and effective vaccines provided a significant lift to equity markets, as did a major \$900 billion economic relief package passed by the U.S. Congress in late December 2020.

In March 2021, the U.S. Congress fast-tracked approval of the Biden administration's \$1.9 trillion economic stimulus package. In August 2021, a \$1.2 trillion proposal for an infrastructure spending package received U.S. Senate approval. However, by the period's end, the outcome for the administration's \$1.75 trillion "Build Back Better" proposal, focused on social-safety-net improvements and climate-change mitigation, remained uncertain.

Inflation headlines dominated the spring and summer of 2021. In July 2021, the Fed's preferred measure of inflation had risen to levels not seen since 1991.² The supply-chain disruptions spawned in part by the economic recovery helped drive up prices for gasoline, used cars, airfare tickets, durable goods, and a host of other items toward the end of the period. The Fed's previous assurances that inflation would be mostly transitory were being sorely tested.

Throughout the period, the Fed continued to maintain its ongoing policy of near-zero interest rates in support of the recovery. However, in September 2021, Fed Chairman Jerome Powell rattled markets when he announced preparations for having the Fed gradually cut back the \$120 billion in bonds it had been purchasing each month since the start of the pandemic. By period's end, markets had recovered.

As of the end of the period, the economic recovery appears durable. Yet, inflation remains a wildcard and market volatility may persist. Nowadays, it's more important than ever to maintain a strong relationship with your financial professional.

Thank you again for investing in Hartford Mutual Funds. For the most up-to-date information on our funds, please take advantage of all the resources available at hartfordfunds.com.

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE AND DOES NOT GUARANTEE FUTURE RESULTS. The investment return and principal value of the investment will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. The chart and table do not reflect the deductions of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end, please visit our website hartfordfunds.com.

Total returns presented above were calculated using the applicable class' net asset value available to shareholders for sale or redemption of Fund shares on 10/31/2021, which may exclude investment transactions as of this date. All share class returns assume the reinvestment of all distributions at net asset value and the deduction of all fund expenses. The total returns presented in the Financial Highlights section of the report are calculated in the same manner, but also take into account certain

adjustments that are necessary under generally accepted accounting principles. As a result, the total returns in the Financial Highlights section may differ from the total returns presented above.

Class R6 shares commenced operations on 11/07/2014. Performance prior to that date is that of the Fund's Class Y shares. Class F shares commenced operations on 02/28/2017. Performance prior to that date is that of the Fund's Class I shares.

To the extent a share class has adopted the prior performance of another share class that had different operating expenses, such performance has not been adjusted to reflect the different operating expenses. If the performance were adjusted, it may have been higher or lower.

You cannot invest directly in an index.

See "Benchmark Glossary" for benchmark descriptions.

Performance information may reflect expense waivers/reimbursements without which performance would have been lower.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford Capital Appreciation Fund returned 33.83%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmarks, the Russell 3000 Index, which returned 43.90% for the same period, and the S&P 500 Index, which returned 42.91% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 41.19% average return of the Lipper Multi-Cap Core Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. Towards the end of 2020, a sharp escalation in COVID-19 infections across the country and renewed restrictions to curb the spread of the virus were overshadowed by highly encouraging vaccine developments, despite the significant logistical challenges and uncertain timeline for distributing and administering vaccines on a broad scale. In December 2020, the government unveiled a long-awaited fifth stimulus package, worth approximately \$900 billion.

Joe Biden was elected president in November 2020 after a closely contested election, removing a key element of uncertainty for the market. In the first quarter of 2021, U.S. equities rallied, bolstered by an accelerating vaccine rollout, substantial fiscal and monetary policy support, and upbeat forecasts for economic growth and earnings. Expectations for a strong rebound in the U.S. economy sparked inflationary fears, contributing to a pro-cyclical rotation. The Democrats secured slim majorities in both houses of Congress after winning control of the Senate, bolstering President Biden's prospects of advancing his legislative agenda. In the second quarter of 2021, U.S. equities rallied for the fifth consecutive quarter amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply during the quarter, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. In the third quarter of 2021, U.S. equities rose against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September, triggering a powerful rotation into value equities. In the final month of

the period, U.S. equities registered their largest monthly gain of the year, as inflation anxiety was outweighed by improving coronavirus pandemic conditions, higher-than-expected corporate earnings, strong U.S. equity inflows, and improved prospects for additional fiscal stimulus. Markets were bolstered by a rapid decline in the number of U.S. COVID-19 cases, which fell nearly 60% from their latest peak in September 2021.

Returns varied by market cap during the period, as mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively, both outperformed large-cap equities, as measured by the S&P 500 Index.

All eleven sectors in the Russell 3000 Index posted positive returns during the period. Strong performers included the Energy (+116.4%), Financials (+71.0%), and Real Estate (+47.6%) sectors. The Utilities (+12.0%), Consumer Staples (+19.6%), and Health Care (+31.6%) sectors posted the smallest gains for the period.

During the period, the Fund underperformed the Russell 3000 Index, primarily due to weak stock selection within the Consumer Discretionary, Information Technology, and Healthcare sectors. Conversely, stronger selection within the Energy, Consumer Staples, and Financials sectors contributed positively to relative returns during the period. Sector allocation, a result of bottom-up stock selection, detracted during the period primarily due to the Fund's underweight exposure to the Energy sector and overweight exposure to the Consumer Staples sector. An underweight to the Utilities sector relative to the Russell 3000 Index contributed positively to performance.

Our decision to not own Tesla (Consumer Discretionary) within the Fund and the Fund's underweight exposures, relative to the Russell 3000 Index, to Microsoft (Information Technology) and NVIDIA (Information Technology) were the top relative detractors from Fund performance during the period. Tesla, a constituent of the Russell 3000 Index, engages in the design, development, manufacture, and sale of fully electric vehicles, energy generation and storage systems. Shares of Tesla rose after the company reported third-quarter earnings that beat consensus estimates after Hertz announced it would be adding 100,000 Tesla vehicles to its rental-car fleet. The Fund did not hold the stock as of the end of the period. Microsoft develops and supports software, services, devices, and solutions. Shares of Microsoft rose after the company delivered strong first quarter fiscal year 2022 results with balanced performance across the product set and good margin expansion in all three reporting segments. We maintained the Fund's underweight exposure to the

The Hartford Capital Appreciation Fund

Fund Overview – (continued)
October 31, 2021 (Unaudited)

stock as of the end of the period. NVIDIA is a leading producer of graphics processing units (GPUs). Shares of NVIDIA rose after Facebook (now named Meta) announced a significant increase in its capital spending plans for 2022. The majority of these investments will be aimed at developing the company's data center network and technology infrastructure, which is expected to benefit NVIDIA. We eliminated the Fund's position earlier in the period on share-price strength.

ChemoCentryx (Health Care), Splunk (Information Technology), and Alibaba (Consumer Discretionary) were among the largest detractors from Fund performance on an absolute basis over the period.

Top contributors to the Fund's performance relative to the Russell 3000 Index included the Fund's out-of-benchmark exposure to Diamondback Energy (Energy), an overweight exposure to American Express (Financials), as well as an underweight exposure to Amazon (Consumer Discretionary). Diamondback Energy is an oil and gas exploration and production company. Shares rose over the period alongside surging global oil prices. The company also reported earnings for the first quarter that surprised to the upside, with investors focusing on strong free cash flow generation. The Fund maintained an overweight in the stock as of the end of the period. American Express is a credit card payments company. Shares rose during the period after the company announced better-than-expected first quarter earnings. Results were helped by a \$1.1 billion release of reserves that were previously set aside to cover soured loans during the pandemic. Management also raised its outlook for fiscal year 2021. We trimmed the Fund's position on share-price strength during the period. Amazon is a technology company with a focus on e-commerce and cloud computing. Shares of Amazon rose during the period but lagged the Russell 3000 Index. The company's share price lost ground later in the period when management stated that sales growth was expected to slow over the next several quarters, as consumers continue to venture outside of their homes and away from their pandemic-induced online shopping habits. We increased the Fund's underweight to Amazon during the period.

Alphabet (Communication Services), American Express (Financials), and TJX Companies (Consumer Discretionary) were among the largest contributors to the Fund's performance on an absolute basis over the period.

Our investment process includes the use of factor-based strategies, which involve targeting certain company characteristics, or factors, that we believe impact returns across asset classes. Factor impact overall on the Fund was negative during the period. The Fund's slight underweight exposure to higher-beta equities and overweight exposure to mid-cap equities detracted from performance, while the Fund's slight underweight exposure to higher-volatility equities and slight overweight exposure to higher liquidity names contributed positively to performance.

During the period, the Fund, at times, used equity index futures to equitize cash or to seek to efficiently manage risks. During the period, the use of equity index futures contributed positively to relative performance.

What is the outlook as of the end of the period?

While company earnings have been improving relative to 2020 as of the end of the period, risks continue to evolve. This includes the potential economic ramifications following the spread of the COVID-19 Delta variant and the reemergence of pandemic-related restrictions in some regions, potential broad market disruption from political gridlock surrounding publicly listed equities in China and the government debt ceiling in the U.S., and the potential impact to company fundamentals as central banks begin to roll back stimulus programs. Against this backdrop, we expect continued volatility as investors balance long-term opportunities and nearer-term risks. As ever, we remain vigilant in managing risks in the Fund and seek to deliver performance that is driven by security selection.

Looking across markets, we are mindful of the ever-evolving risks of different equity factors and seek to create a fund that includes differentiated investment styles and philosophies. We maintain exposure to cyclical areas of the market through our allocations to mean-reversion (e.g. value and contrarian) underlying portfolio managers. These underlying portfolio managers look to invest in undervalued companies and use their security selection expertise to seek to identify companies with solid fundamentals and to avoid businesses that they believe are unlikely to mean-revert in the future. We look to our trend-following (e.g. growth and momentum) underlying portfolio managers to seek to provide capital appreciation by seeking attractive companies with favorable growth prospects. As with value equities, we look for the underlying portfolio managers' fundamental security selection processes to help differentiate companies with better long-term growth fundamentals versus those that are more speculative and driven by investor exuberance. We seek to balance these exposures with risk-aversion (e.g. quality and low volatility) allocations, which seek to provide a more defensive weight to the Fund by investing in companies with more stable businesses in our view. These characteristics are expected to add beneficial exposure to the Fund in the event of an unexpected shock to the economy or markets in our view. As of the end of the period, we also note that these equities continued to trade at attractive valuations relative to history in our view. To that end, we expect the market backdrop to benefit fundamental portfolio managers looking to differentiate between companies that can succeed in the current climate from those that cannot.

At the end of the period, the Fund's largest overweights were to the Industrials and Consumer Staples sectors, while the Fund's largest underweights were to the Information Technology and Utilities sectors, relative to the Russell 3000 Index.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. The Fund's strategy for allocating assets among portfolio management teams may not work as intended. • Mid-cap securities can have greater risks and volatility than large-cap securities. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks are generally greater, and include additional risks, for investments in emerging markets. • To the

The Hartford Capital Appreciation Fund

Fund Overview – (continued) *October 31, 2021 (Unaudited)*

extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse development occur.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of the Hartford Core Equity Fund returned 37.85%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmark, the S&P 500 Index, which returned 42.91% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also underperformed the 41.18% average return of the Lipper Large-Cap Core Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. Towards the end of 2020, a sharp escalation in COVID-19 infections across the country and renewed restrictions to curb the spread of the virus were overshadowed by highly encouraging vaccine developments, despite the significant logistical challenges and uncertain timeline for distributing and administering vaccines on a broad scale. In December 2020, the government unveiled a long-awaited fifth stimulus package, worth approximately \$900 billion.

Joe Biden was elected president in November 2020 after a closely contested election, removing a key element of uncertainty for the market. In the first quarter of 2021, U.S. equities rallied, bolstered by an accelerating vaccine rollout, substantial fiscal and monetary policy support, and upbeat forecasts for economic growth and earnings. Expectations for a strong rebound in the U.S. economy sparked inflationary fears, contributing to a pro-cyclical rotation. The Democrats secured slim majorities in both houses of Congress after winning control of the Senate, bolstering President Biden's prospects of advancing his legislative agenda. In the second quarter of 2021, U.S. equities rallied for the fifth consecutive quarter amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply during the quarter, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. In the third quarter of 2021, U.S. equities rose against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September, triggering a powerful rotation into value equities. In the final month of the period, U.S. equities registered their largest monthly gain of the year, as inflation anxiety was outweighed by improving coronavirus pandemic conditions, higher-than-expected corporate earnings, strong

Hartford Core Equity Fund

Fund Overview – (continued)
October 31, 2021 (Unaudited)

U.S. equity inflows, and improved prospects for additional fiscal stimulus. Markets were bolstered by a rapid decline in the number of U.S. COVID-19 cases, which fell nearly 60% from their latest peak in September 2021.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, underperformed small-cap and mid-cap equities, as measured by the Russell 2000 Index and S&P MidCap 400 Index, respectively.

All eleven sectors in the S&P 500 Index rose during the period, with the Energy (+111%) and Financials (+72%) sectors performing best. Conversely, the Utilities (+11%) and Consumer Staples (+19%) sectors were the worst performers during the period.

Overall, the Fund's underperformance relative to the S&P 500 Index during the period was driven by weak security selection, primarily within the Information Technology, Consumer Discretionary, and Consumer Staples sectors. This was partially offset by stronger stock selection within the Financials, Communication Services, and Energy sectors, which contributed positively to performance over the same period. Sector allocation, a result of the bottom-up stock selection process, also detracted from relative performance, primarily driven by the Fund's underweight to the Energy sector and overweight allocation to the Consumer Staples sector. This was partially offset by the Fund's underweight positions in the Consumer Discretionary and Utilities sectors, which contributed positively to performance over the period.

The top contributors to relative performance over the period were overweight positions in EOG Resources (Energy), Morgan Stanley (Financials) and Bank of America (Financials). Shares of oil and gas exploration and production company EOG Resources surged over the period after reporting both fourth quarter 2020 and calendar year 2020 earnings that beat consensus expectations. An unusually tight supply-demand balance in European gas heading into the winter added further price pressure to a market already at record highs while increased demand for crude oil continued to push prices higher, lifting share prices during the period. The Fund remained overweight in the stock at the end of period. Shares of Morgan Stanley rose over the period as well. This was driven by strong earnings throughout the period, where the company beat consensus earnings expectations each quarter. The Fund remained overweight in the stock at the end of period. Shares of Bank of America rose over the period. The company reported strong earnings during the same period, beating estimates, as the bank regained losses seen from the early onset of the pandemic. The Fund remained overweight the stock at the end of period. Top absolute contributors to Fund performance over the period included Alphabet (Communication Services) and Microsoft (Information Technology).

The top detractors from the Fund's relative performance over the period included overweight positions in FedEx (Industrials) and American Electric Power (Utilities), as well as not owning NVIDIA (Information Technology). Shares of FedEx fell over the period after the company announced weak fiscal first quarter 2022 earnings, missing expectations in September 2021. High wage inflation and substantial inefficiencies from COVID-19 disruptions in the same quarter resulted in an estimated \$450 million negative impact to operating results. The company also had mixed earnings in varying

quarters earlier in 2021. As of the end of the period, the Fund was overweight the stock, which performed poorly during the period. Shares of American Electric Power, a company that specializes in the provision of electricity, also fell during the period due to concerns stemming from President Biden's continued remarks regarding the switch to clean energy. While the company has high exposures to coal currently, we believe the company is aligned with the energy transition since renewables are expected to be their dominant power source by 2030. As of the end of the period, the Fund was overweight the stock. Shares of NVIDIA, a leading producer of graphics processing units (GPUs), rose during the period. For the same period, Facebook (now renamed Meta) announced a significant increase in its capital spending plans for 2022. The majority of these investments will be aimed at developing the company's data center network and technology infrastructure, which is expected to benefit NVIDIA. Not owning the stock during the period was a detractor from the Fund's relative performance due to the stock's strong performance. The Fund's absolute detractors for the period included American Electric Power (Utilities) and FedEx (Industrials).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we believe several issues are emerging that will have near- and intermediate-term impacts. Infrastructure spending remains a key area of discussion and, while the negotiations around the large democratic bill and the Senate approved bipartisan bill remain stalled, our expectation remains that Congress will approve both bills with a total size of around \$2.5 trillion. We also expect the U.S. debt ceiling will be extended. We believe this may provide some cushion for growth into 2022 with the caveat that a higher corporate tax rate may be included in the bills. Depending on the revenue required to offset the spending, we believe it could pose a challenge to future earnings growth.

In our opinion, the bigger question concerns expectations around inflation with companies struggling to offset higher input costs with higher pricing of their own goods and services, leading to margin compression. We believe that labor force participation rates may continue to increase as stimulus effects wane, and some supply chain disruptions may ease with the increased availability of vaccines globally, limiting the risk of runaway inflation. Still, we believe some of these higher costs are likely here to stay, and many companies have announced further price increases to offset cost pressures. Hence, we do expect some of the inflation to be sustained into the next year.

Lastly, we believe there are some lurking risks that are difficult to handicap, such as the deteriorating financial condition of Chinese real estate developers such as Evergrande and the high gas prices translating to increased power costs in Europe. Increased geopolitical tension is bringing increased attention to strategic industries such as semiconductors, electric vehicles, and robotics. We believe these industries are likely to see increased investment in local economies as each country tries to reduce reliance on imports. Given these factors, we believe it will be important to keep an eye on the U.S. Federal Reserve and other global central banks, as the manner in which the

Hartford Core Equity Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

abundant liquidity is withdrawn from global economies will likely impact exchange rates and interest rates around the world and, in turn, affect prices of risk assets.

At the end of the period, the Fund's largest overweights relative to the S&P 500 Index were to the Communication Services and Industrials sectors, while the Fund's largest underweights were to the Information Technology and Energy sectors.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies.

Composition by Sector⁽¹⁾

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford Dividend and Growth Fund returned 46.01%, before sales charges, for the twelve-month period ended October 31, 2021, outperforming the Fund's primary benchmark, the S&P 500 Index, which returned 42.91% for the same period, and also outperforming the Fund's secondary benchmark, the Russell 1000 Value Index, which returned 43.76% for the same period. For the same period, the Class A shares of the Fund, before sales charges, outperformed the 39.88% average return of the Lipper Equity Income Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. Towards the end of 2020, a sharp escalation in COVID-19 infections across the country and renewed restrictions to curb the spread of the virus were overshadowed by highly encouraging vaccine developments, despite the significant logistical challenges and uncertain timeline for distributing and administering vaccines on a broad scale. In December 2020, the government unveiled a long-awaited fifth stimulus package, worth approximately \$900 billion.

Joe Biden was elected president in November 2020 after a closely contested election, removing a key element of uncertainty for the market. In the first quarter of 2021, U.S. equities rallied, bolstered by an accelerating vaccine rollout, substantial fiscal and monetary policy support, and upbeat forecasts for economic growth and earnings. Expectations for a strong rebound in the U.S. economy sparked inflationary fears, contributing to a pro-cyclical rotation. The Democrats secured slim majorities in both houses of Congress after winning control of the Senate, bolstering President Biden's prospects of advancing his legislative agenda. In the second quarter of 2021, U.S. equities rallied for the fifth consecutive quarter amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply during the quarter, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. In the third quarter of 2021, U.S. equities rose against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September, triggering a powerful rotation into value equities. In the final month of the period, U.S. equities registered their largest monthly gain of the year, as inflation anxiety was outweighed by improving coronavirus pandemic conditions, higher-than-expected corporate earnings, strong U.S. equity inflows, and improved prospects for additional fiscal stimulus. Markets were bolstered by a rapid decline in the number of U.S. COVID-19 cases, which fell nearly 60% from their latest peak in September 2021.

The Hartford Dividend and Growth Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

Returns varied by market cap during the period, as mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively, both outperformed large-cap equities, as measured by the S&P 500 Index.

All eleven sectors in the S&P 500 Index rose during the period, with the Energy (+111%), Financials (+72%), and Information Technology (+47%) sectors performing the best. The Utilities (+11%), Consumer Staples (+19%), and Healthcare (+34%) sectors were the worst performers during the period.

Security selection was the main driver of the Fund's returns relative outperformance versus the S&P 500 Index over the period. Stock selection was strongest within the Financials, Industrials, and Healthcare sectors. This was partially offset by weaker selection within the Materials and Communication Services sectors, which detracted from relative performance over the same period. Sector allocation, a result of the bottom-up stock selection process, also contributed positively to the Fund's performance relative to the S&P 500 Index over the period. An overweight to the Financials and Energy sectors added the most to returns relative to the S&P 500 Index during the period. This was partially offset by an underweight allocation to the Information Technology sector over the same period.

The Fund's top positive contributors to performance relative to the S&P 500 Index during the period were not owning Amazon.com (Consumer Discretionary) and overweight positions in Bank of America (Financials) and ConocoPhillips (Energy). Not holding S&P 500 Index constituent Amazon.com was a top relative positive contributor to performance during the period as shares of the company rose yet underperformed the S&P 500 Index. The Fund did not hold a position in the company during the period as it did not align with our philosophy and process. Shares of Bank of America rose during the period as banking equities benefited from the vaccine-led rally and subsequent rotation towards value sectors. The U.S. Federal Reserve's (Fed's) decision in September 2021 to roll back its bond-buying program but leave short-term interest rates unchanged, sent share prices higher at the end of the period. We trimmed the Fund's position on share-price strength during the period, but as of the end of the period, we continued to hold the stock. Shares of oil and gas conglomerate ConocoPhillips rose strongly over the period on news that the company had purchased the entirety of Royal Dutch Shell's Permian Basin assets. The all-cash purchase has made ConocoPhillips one of the largest producers in the world's top shale basin. The company continued to execute on acquisition opportunities after buying Concho Resources earlier in 2021. Rising global crude oil prices also buoyed share prices during the period. As of the end of the period, we continued to hold the stock.

The Fund's top detractors from performance relative to the S&P 500 Index during the period included Verizon (Communication Services) and not owning Tesla (Consumer Discretionary) and NVIDIA (Information Technology). Shares of Verizon fell during the period. After releasing fourth-quarter 2020 results, investors were disappointed by weak subscriber growth that fell short of analyst estimates, sending share prices lower. As of the end of the period, we continued to hold Verizon in the Fund. Not owning Tesla also detracted from relative performance during the period. Shares of Tesla were

added to the S&P 500 Index in late 2020, which along with positive sentiment around electric vehicles led to a soaring share price. Since then, shares have reached all-time highs after the company reported third quarter 2021 earnings with increased revenue growth led by a 73% increase in vehicle deliveries. The Fund does not hold a position in the company as of the end of the period, as it does not align with our philosophy and process. Not owning NVIDIA also detracted from relative performance during the period. The company consecutively announced better-than expected results and continued to show strong growth across categories, particularly within gaming and datacenter categories over the period. In addition to strong growth in hardware, the company's software offerings also grew in importance during the same period, with management introducing the company's artificial intelligence (AI) as a service and its Omniverse platform as a foundation for the future metaverse. The Fund did not hold a position in the company during the period as it does not align with our philosophy and process.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

Despite high stock price correlations within industries, as of the end of the period we believe there is meaningful dissent in the market regarding the economic outlook and the path of the economic recovery from here. Our view is that inflation is likely to endure going forward due to the significant supply constraints (e.g., commodities, labor, etc.). We believe that persistent inflation, which we have not seen for years, will put downward pressure on margins and likely lead to higher interest rates. Given this outlook, we believe a market regime shift is likely and we are seeking to identify consistent compounders (high-quality businesses with strong recurring revenues) with strong competitive advantages and the ability to pass price inflation through to customers. We are also evaluating which end markets we believe are poised to benefit from continued supply tightness - such as metals and mining, for example.

We remain focused on seeking to limit downside risk in the Fund, so we are seeking to avoid companies that we would expect to struggle in an inflationary environment with rising interest rates. Such companies include those that we believe to have rich valuations amid increasing discount rates and companies with margins that we believe are vulnerable to inflation due to an inability to pass on price increases to their customers. We remain focused on seeking to identify quality companies with a positive risk/reward skew and a narrow range of outcomes.

At the end of the period, the Fund had its largest overweights in the Financials and Healthcare sectors, and the largest underweights in the Information Technology and Consumer Discretionary sectors, relative to the S&P 500 Index.

We continue to apply our valuation discipline within the Fund to seek to maintain a Fund of resilient businesses that in our opinion are reasonably valued and have favorable industry and competitive dynamics.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • Integration of environmental, social, and/or governance (ESG) factors into the investment process may not work as intended.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford Equity Income Fund returned 39.45%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmark, the Russell 1000 Value Index, which returned 43.76% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also underperformed the 39.88% average return of the Lipper Equity Income Funds peer group, a group of funds with investment strategies similar to that of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. In the first half of 2021, U.S. equities gained amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. The U.S. Federal Reserve (Fed) maintained its view that elevated price pressures may prove transitory, but the Fed rattled markets by considerably raising its inflation forecast for 2021 and signaling the potential for two interest-rate increases in 2023. This shift in expectations toward tighter monetary policy triggered a rotation from value and cyclically sensitive equities to growth equities. U.S. equities continued to climb in the third quarter of 2021 against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services, while risk sentiment was pressured by anxiety about rising inflation, imminent monetary tightening by the Fed, moderating economic growth, and uncertainty about fiscal stimulus and the federal debt ceiling. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September 2021, triggering a powerful rotation into value equities. COVID-19 cases fell sharply in September, although the proliferation of the Delta variant in July and August 2021 weighed on consumer confidence and

dampened momentum from businesses reopening. The Fed trimmed its 2021 gross domestic product (GDP) growth forecast to 5.9%, from 7%, and delivered a clearer signal that it would begin to taper asset purchases later this year if economic conditions remain stable.

During the period, all of the eleven sectors within the Russell 1000 Value Index posted positive absolute returns, with the Energy (+113%), Financials (+74%), and Real Estate (+53%) sectors performing the best. Conversely, the Utilities (+11%), Consumer Staples (+18%), and Communication Services (+26%) sectors lagged over the period.

The Fund's underperformance relative to the Russell 1000 Value Index during the period was driven by sector allocation, a result of our bottom-up stock selection process, due primarily to overweight allocations to the Consumer Staples and Healthcare sectors (which are two sectors that are more defensively oriented and therefore did not benefit as materially from the re-opening economy), as well as an underweight allocation to the Energy sector (which experienced broad-based strength given the sharp rise in oil prices during the period). This was partially offset by underweight allocations to the Communication Services and Information Technology sectors. Security selection also detracted from relative results during the period. Selection within the Real Estate, Communication Services, and Energy sectors detracted the most from performance but was partially offset by positive selection within the Information Technology, Healthcare, and Industrials sectors.

Top detractors from relative results included Lockheed Martin (Industrials), Progressive (Financials), and not holding Exxon Mobil (Energy). Shares of Lockheed Martin, a United States (U.S.) based aerospace and defense company, declined after third-quarter 2021 sales missed estimates and management released 2022 guidance that was below expectations due to the withdrawal of the U.S. military presence in Afghanistan, re-basing of F-35 related revenue, and accelerated payments to suppliers to ensure supply-chain health.

The Hartford Equity Income Fund

Fund Overview – (continued) October 31, 2021 (Unaudited)

Shares of insurance provider Progressive were pressured as catastrophe losses from Hurricane Ida eroded already lackluster underwriting results and growth slowed in the third quarter of 2021.

Top contributors to relative returns included an out-of-benchmark position in Blackstone (Financials), Morgan Stanley (Financials), and Bank of America (Financials). Shares of alternative investments manager Blackstone advanced over the period, driven by higher fee-related earnings and performance net revenues. Net accrued carried interest grew significantly over the prior year on the back of strong investment performance. Morgan Stanley, a diversified financial services company, reported third quarter earnings ahead of consensus estimates, benefiting from strong core performance as well as contributions from subsidiaries, E*TRADE and Eaton Vance. Finally, financial services provider Bank of America reported third-quarter 2021 results that beat consensus estimates on strong fees and rising net interest income.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, as the market's concern shifts among inflation, stagnating growth, supply chain disruptions, the Delta variant of the coronavirus, and labor market tightness—to name several—we have continued to focus on high-quality businesses with strong balance sheets and sustainable dividends. While these issues are topical and worth monitoring, they have not been the driver of our decision-making. We stress-test the Fund's portfolio across a number of scenarios and feel comfortable with the Fund's balanced posturing relative to the Russell 1000 Value Index.

At the end of the period, the Consumer Staples, Healthcare, and Industrials sectors represented the Fund's largest overweights relative to the Russell 1000 Value Index, while the Communication Services, Real Estate, and Financials sectors were the Fund's largest underweights.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur.

Composition by Sector⁽¹⁾ as of 10/31/2021

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford Growth Opportunities Fund returned 30.45%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's primary benchmark, the Russell 3000 Growth Index, which returned 42.81% for the same period, and underperforming the Fund's secondary benchmark, the Russell 1000 Growth Index, which returned 43.21% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also underperformed the 39.88% average return of the Lipper Multi-Cap Growth Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. In the first half of 2021, U.S. equities gained amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. The U.S. Federal Reserve (Fed) maintained its view that elevated price pressures may prove transitory, but the Fed rattled markets by considerably raising its inflation forecast for 2021 and signaling the potential for two interest-rate increases in 2023. This shift in expectations toward tighter monetary policy triggered a rotation from value and cyclically sensitive equities to growth equities. U.S. equities continued to climb in the third quarter of 2021 against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services, while risk sentiment was pressured by anxiety about rising inflation, imminent monetary tightening by the Fed, moderating economic growth, and uncertainty about fiscal stimulus and the federal debt ceiling. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September 2021, triggering a powerful rotation into value equities. COVID-19 cases fell sharply in September, although the proliferation of the Delta variant in July and August 2021 weighed on consumer confidence and dampened momentum from businesses reopening. The Fed trimmed its 2021 gross domestic product (GDP) growth forecast to 5.9%, from 7%, and delivered a clearer signal that it would begin to taper asset purchases later this year if economic conditions remain stable.

All eleven sectors in the Russell 3000 Growth Index rose during the period, with the Energy (+105%), Financials (+52%), and Information Technology (+49%) sectors performing the best. Conversely, the Consumer Staples (+20%) and Materials (+23%) sectors lagged on a relative basis during the period.

Security selection detracted from Fund's performance relative to the Russell 3000 Growth Index during the period, with weak selection in the Information Technology, Healthcare and Consumer Discretionary sectors, which was partially offset by strong selection within the Consumer Staples and Financials sectors. Sector allocation, a result of our bottom-up stock selection process, also detracted from relative performance during the period, due to an underweight to the Information Technology sector and an overweight to the Consumer Discretionary sector. This was partially offset by the positive impact of an overweight to the Communication Services sector and an underweight to the Consumer Staples sector, both of which contributed positively.

Top contributors to relative performance during the period included Coupang (Consumer Discretionary), Dexcom (Healthcare), and Apple (Information Technology). Coupang, a Korean e-commerce company, was a top relative contributor. The Fund had held Coupang as a private company, and shares rose ahead of the company's initial public offering (IPO) in March 2021. The pandemic had been a major boost to the Korean e-commerce company's rise as the population was forced to stay at home and order from online platforms. We eliminated the Fund's position during the period. Shares of Dexcom, a glucose monitoring device company, rose during the period. The company has seen strong earnings for the last two quarters of the period, beating expectations. Management, in response to these strong results, raised fiscal-year guidance for revenue two quarters in a row. Shares of Apple, a technology company, rose over the period as the company experienced a massive benefit from the work-from-home environment with companies and individuals upgrading their technology. We eliminated the Fund's position during the period. Alphabet (Communication Services) and Apple (Information Technology) were among the top absolute contributors to the Fund's performance during the period.

Top relative detractors from performance during the period included Tesla (Consumer Discretionary), Microsoft (Information Technology), and Splunk (Information Technology). The Fund's lack of exposure to Tesla detracted from relative performance. We did not invest in the company because we did not have a differentiated view on the stock.

The Hartford Growth Opportunities Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

Shares of Tesla were added to the S&P 500 Index in late 2020 along with positive sentiment around electric vehicles leading to soaring share prices. Shares reached all-time highs after the company reported third-quarter 2021 earnings with topline growth led by a 73% increase in vehicle deliveries. The Fund's lack of exposure to Microsoft also detracted from relative performance during the period. Shares of Microsoft rose over the period on continued strong earnings reports and strengthened core offerings. The company also announced plans to increase its commercial pricing for Microsoft 365 Business Basic from \$5 to \$6 and the premium package from \$20 to \$22, which investors expect to lead to a rise in revenue. Shares of Splunk fell sharply in the beginning of the period after the company released weak third-quarter 2020 results. Splunk experienced a sharp drop in its license revenue, which resulted in revenue dropping 11% year over year and a loss in adjusted profit per share of \$1.26, falling far behind expectations of \$0.09. Splunk (Information Technology) and Mastercard (Information Technology) were among the top absolute detractors from the Fund's performance during the period.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we believe that a lot of uncertainty remains in the market due to the evolving coronavirus pandemic, the implications of Fed tapering, and concerns about a global growth slowdown stemming from Chinese real estate company Evergrande and its financial difficulties. The Fund's investment team is leveraging Wellington Management's industry experts and macro analysts to provide additional insight into the path forward. Data suggests consumers have a greater willingness to revert to old habits and activities versus adapting to a "new normal" than may have been previously expected. However, it has not yet been determined what consumption will look like in 2022; on one hand, wage increases benefit consumers, but at the same time, many subsidies are expiring. Because of this lack of clarity, we are positioning the Fund as of the end of the period in equities that we believe have strong idiosyncratic growth drivers.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Mid-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. • The Fund may have high portfolio turnover, which could increase its transaction costs and an investor's tax liability.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford Healthcare Fund returned 22.83%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmarks, the S&P Composite 1500 Health Care Index, which returned 33.53% for the same period, and the S&P 500 Index, which returned 42.91% for the same period. For the same period, the Class A shares of the Fund, before sales charges, also underperformed the 22.98% average return of the Lipper Global Health and Biotechnology peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

Healthcare equities (+33.8%) underperformed both the broader United States (U.S.) equity market (+42.9%) and the global equity market (+37.9%) during the period, as measured by the S&P 500 Healthcare Index, S&P 500 Index, and MSCI ACWI Index, respectively.

Within the S&P Composite 1500 Health Care Index, all five sub-sectors posted positive absolute returns during the period. Healthcare services (+47.2%), medical technology (+34.8%), small-cap biopharma (+27.9%), large-cap biopharma (+27.4%), and mid-cap biopharma (+2.9%) rose during the period.

Security selection was the primary detractor from the Fund's performance relative to the S&P Composite 1500 Health Care Index during the period. Sector allocation also detracted from relative returns. Security selection was weakest in the medical technology and small-cap biopharma sub-sectors, while the mid-cap biopharma sub-sector was the strongest performer during the period. Within

sector allocation, which is a by-product of our bottom-up stock selection process, an overweight allocation to mid-cap biopharma detracted most from relative performance during the period.

Thermo Fisher Scientific (medical technology), Arena Pharmaceutical (mid-cap biopharma), and Madrigal Pharmaceuticals (small-cap biopharma) were the top detractors from performance relative to the S&P Composite 1500 Health Care Index over the period. Shares of Thermo Fisher Scientific rallied, and the Fund's underweight position negatively affected relative performance. In February 2021, the company reported strong earnings, but expected fading COVID-19 testing volumes in the second quarter, which raised concerns around earnings growth potential. In April 2021, it was announced that Thermo Fisher intended to acquire contract research organization, PPD. After digesting the news of the acquisition, we grew concerned that such a large deal created additional integration risk, and in light of longer-term stock gains, decided it was most appropriate to trim back the Fund's position. Since we pared back the position, the stock has rallied, and the Fund's underweight position negatively affected relative performance. We eliminated the Fund's position later in the period. Madrigal Pharmaceuticals was impacted in May and June 2021 after companies pursuing Nonalcoholic Steatohepatitis (NASH) treatments came under pressure after NGM Biopharmaceuticals announced the failure of a phase 2/3 study of its NASH treatment. During the period, the company continued to make clinical progress on a drug intended to treat NASH, a disease that causes liver inflammation due to the buildup of fat, and fibrosis, a lung disease that produces scarring, which can lead to shortness of breath and fatigue. Quidel, Arena Pharmaceutical, and Gracell Biotech were the top absolute detractors from the Fund's performance.

The Hartford Healthcare Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

Amgen (large-cap biopharma), Johnson & Johnson (large-cap biopharma), and Eli Lilly (large-cap biopharma) contributed positively to results relative to the S&P Composite 1500 Health Care Index over the period. Not owning Amgen, a constituent of the S&P Composite 1500 Health Care Index, also contributed positively to relative performance, as shares traded lower despite the company reporting better-than-expected second-quarter 2021 revenue due to pricing pressure broadly among the company's commercial products. The Fund's lack of exposure to Johnson & Johnson (J&J), a constituent of the S&P Composite 1500 Health Care Index, was a positive contributor to relative performance during the period, as shares of J&J underperformed the S&P Composite 1500 Health Care Index during the period. Regulators called for a pause in distribution of the company's COVID-19 vaccine after cases of people developing a rare blood clotting disorder were investigated. Distribution of the vaccine resumed with additional warnings, but no restrictions. Shares of Eli Lilly were driven by positive clinical developments, including solid phase 3 study results for the company's injectable Type 2 diabetes drug, characterized by impressive weight loss and an acceptable tolerability profile. The company also announced during the period news of promising results from a phase 2 study of donanemab, an investigational antibody therapy for the treatment of Alzheimer's disease. During the period, the company later received the U.S. Food and Drug Administration's (FDA's) Breakthrough Drug Therapy designation for donanemab, an investigational antibody therapy for the treatment of Alzheimer's disease, which will potentially provide an accelerated pathway for filing later this year and a few years earlier than expected. Top absolute contributors to the Fund's performance during the period included UnitedHealth Group, Eli Lilly, and Pfizer.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we expect the human and economic impact of COVID-19 to remain challenging, but we are optimistic as the rollout of effective vaccines is underway. As of September 30, 2021, roughly 55.9% of the U.S. population had been fully vaccinated against COVID-19, while vaccination progress in many other countries in the world has been slower due to lack of vaccine availability. Vaccines targeting the viral spike protein are expected to offer protection against the novel variants of the coronavirus, although the level of protection may vary depending on the variant. Questions remain around the exact role boosters will play in the fight against COVID-19, but we do anticipate the approval of a third coronavirus vaccine shot for a broad swath of the patient population.

We are also encouraged by the report of an efficacious oral antiviral drug, which may reduce the risk of hospitalization and death by half in patients with mild to moderate cases of COVID-19. The successful development of oral antiviral agents may serve as an important tool in reducing the societal burden of disease; these options may be especially useful in emerging markets where access to vaccines and antibody therapeutics may be limited.

Beyond vaccine development, the COVID-19 crisis highlighted the need for testing infrastructure in developed and emerging markets, which we believe may continue to drive demand within the diagnostics industry. While COVID-19 testing rates may moderate as vaccination rates rise, we believe we are likely to see healthcare providers and patients become more vigilant around respiratory testing for several years. Within procedure-oriented sub-sectors, outbreaks of the coronavirus Delta variant were causing some disruption to the pace of economic recovery as of the end of the period, but we have observed that medical device trends and hospital utilization are improving overall with stronger hospital safety processes in place.

In selecting equities for the Fund, we favor companies that develop innovative products designed to address important unmet medical needs. Over the long term, we believe that innovation, an aging population, and the globalization of demand for cutting-edge Western-style medicines are likely to continue to drive growth of the Healthcare sector.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Risks of focusing investments on the healthcare related sector include regulatory and legal developments, patent considerations, intense competitive pressures, rapid technological changes, potential product obsolescence, and liquidity risk. • Small- and mid-cap securities can have greater risks and volatility than large-cap securities. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks may be greater, and include additional risks, for investments in emerging markets.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford MidCap Fund returned 35.51%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmark, the S&P MidCap 400 Index, which returned 48.90% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 37.98% average return of the Morningstar Mid-Cap Growth Funds peer group, a group of funds with investment strategies similar to that of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. In the first half of 2021, U.S. equities gained amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher.

The U.S. Federal Reserve (Fed) maintained its view that elevated price pressures may prove transitory, but the Fed rattled markets by considerably raising its inflation forecast for 2021 and signaling the potential for two interest-rate increases in 2023. This shift in expectations toward tighter monetary policy triggered a rotation from value and cyclically sensitive equities to growth equities. U.S. equities

continued to climb in the third quarter of 2021 against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services, while risk sentiment was pressured by anxiety about rising inflation, imminent monetary tightening by the Fed, moderating economic growth, and uncertainty about fiscal stimulus and the federal debt ceiling. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September 2021, triggering a powerful rotation into value equities. COVID-19 cases fell sharply in September, although the proliferation of the Delta variant in July and August 2021 weighed on consumer confidence and dampened momentum from businesses reopening. The Fed trimmed its 2021 gross domestic product (GDP) growth forecast from 7% to 5.9% and delivered a clearer signal that it would begin to taper asset purchases later this year if economic conditions remain stable.

Returns varied by market cap during the period, as mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively, both outperformed large-cap equities, as measured by the S&P 500 Index. Within the S&P MidCap 400 Index, all eleven sectors posted positive returns during the period. The Energy (+125%), Financials (+61%), and Consumer Discretionary (+57%) sectors performed the best, while the Consumer Staples (+18%), Utilities (+21%) and Healthcare (+29%) sectors lagged.

The Fund underperformed the S&P MidCap 400 Index during the period primarily because of negative security selection. Selection effects were particularly weak within the Healthcare, Information

The Hartford MidCap Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

Technology, and Industrials sectors. This was partially offset by strong selection in the Consumer Discretionary, Materials, and Utilities sectors, which contributed positively to relative performance during the period. Sector allocation, a result of our bottom-up stock selection process, also detracted from the Fund's performance relative to the S&P MidCap 400 Index during the period. This was primarily due to an overweight allocation to the Healthcare sector and an underweight to the Energy sector. This was partially offset by underweights to the Consumer Staples and Utilities sectors, which contributed positively to performance.

Top contributors to relative performance during the period included Teradata (Information Technology), Coherent (Information Technology), and Etsy (Consumer Discretionary). Shares of Teradata, a database and analytics software company, rose over the period. The company reported strong earnings during the period, including beating revenue expectations during the second quarter of 2021. The company expects total annual recurring revenue for fiscal-year 2021 to grow at a mid-to-high-single-digit percentage year-over-year. Shares of Coherent advanced during the period after receiving multiple acquisition offers. The laser equipment maker accepted a bid from II-VI (also held in the Fund) during the period, which will exchange each Coherent share for \$220 in cash and 0.91 shares of II-VI. We eliminated the Fund's position in Coherent during the period. Etsy's share price rose over the period as the handmade crafts e-commerce platform's sharp spike in customer acquisitions has increased brand awareness and opportunities for customer retention. The company made two notable acquisitions during the period: fashion resale marketplace, Depop, and handmade goods marketplace, Elo7.

Top relative detractors from the Fund's relative performance included ChemoCentryx (Healthcare), Sage Therapeutics (Healthcare), and PTC Therapeutics (Healthcare). Shares of ChemoCentryx fell significantly during the period after a U.S. Food and Drug Administration (FDA) advisory panel was split on recommending approval of its vasculitis drug, Avacopan. We eliminated the Fund's position during the period. Shares of Sage Therapeutics, a biopharmaceutical company, fell during the period as the efficacy of a major pipeline drug was lower than expected during the third quarter of 2021; however, we continue to believe that the drug will play a role in the treatment of depression moving forward and is attractive versus currently available treatments. PTC Therapeutics shares fell during the period. During the first quarter of 2021, Roche and Partner Ionis Pharmaceuticals (Healthcare) announced the discontinuation of their Phase 3 study of tominersen for Huntington's Disease (HD). This news created concern for feasibility of PTC's trial of PTC518, an oral pill for the treatment of HD. PTC518 will likely now need to meet a higher bar of HTT gene mutation knockdown to demonstrate clinical efficacy.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we believe the outlook for mid-cap equities remains positive, with signs of continued strength in consumer spending. We believe that high savings accumulated during

the economic shutdown are likely to be deployed into services with pent-up demand. However, our optimistic outlook is tempered by signs of persistent inflation and supply chain disruption. Additionally, valuations in certain areas of the market, based on our investment framework, continue to look expensive, particularly the software-as-a-service and medical technology industries.

As of the end of the period, we favored electrical equipment businesses that trade at attractive valuations, cyclical healthcare businesses that stand to bounce back as their markets begin to normalize, real estate businesses primed to take advantage of changing demographics, and solar businesses poised to benefit from the ongoing energy transition.

At the end of the period, the Fund's largest overweights relative to the S&P MidCap 400 Index were to the Information Technology and Healthcare sector, with the largest underweights to the Real Estate, Materials, and Consumer Discretionary sectors.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Mid-cap securities can have greater risks and volatility than large-cap securities. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • Integration of environmental, social, and/or governance (ESG) factors into the investment process may not work as intended.

Senior Managing Director and Equity Portfolio Manager

Wellington Management Company LLP

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford MidCap Value Fund returned 48.99%, before sales charges, for the twelve-month period ended October 31, 2021, outperforming the Fund's benchmark, the Russell Midcap Value Index, which returned 48.60% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 54.28% average return of the Lipper MidCap Value Fund peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ended October 31, 2021. Towards the end of 2020, a sharp escalation in COVID-19 infections across the country and renewed restrictions to curb the spread of the virus were overshadowed by highly encouraging vaccine developments, despite the significant logistical challenges and uncertain timeline for distributing and administering vaccines on a broad scale. In December 2020, the government unveiled a long-awaited fifth stimulus package, worth approximately \$900 billion.

Joe Biden was elected president after a closely contested election, removing a key element of uncertainty for the market. In the first quarter of 2021, U.S. equities rallied, bolstered by an accelerating vaccine rollout, substantial fiscal and monetary policy support, and upbeat forecasts for economic growth and earnings. Expectations for a strong rebound in the U.S. economy sparked inflationary fears, contributing to a pro-cyclical rotation. The Democrats secured slim majorities in both houses of Congress after winning control of the Senate, bolstering President Biden's prospects of advancing his legislative agenda. In the second quarter of 2021, U.S. equities rallied for the fifth consecutive quarter amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply during the quarter, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. In the third quarter of 2021, U.S. equities rose against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September, triggering a powerful rotation into value equities. In the final month of the period, U.S. equities registered their largest monthly gain of the year, as inflation anxiety was outweighed by improving coronavirus pandemic conditions, higher-than-expected corporate earnings, strong U.S.

equity inflows, and improved prospects for additional fiscal stimulus. Markets were bolstered by a rapid decline in the number of U.S. COVID-19 cases, which fell nearly 60% from their latest peak in September 2021.

Returns varied by market cap during the period, as mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Index, respectively, both outperformed large-cap equities, as measured by the S&P 500 Index. Returns within the mid-cap space varied by style, as the Russell Midcap Value Index outperformed the Russell Midcap Growth Index.

All eleven sectors in the Russell Midcap Value Index gained during the period, with the Energy (+128%), Financials (+73%), and Real Estate (+58%) sectors performing the best, while the Utilities (+10%), Consumer Staples (+20%), and Healthcare (+30%) sectors lagged during the period.

The Fund's outperformance versus the Russell Midcap Value Index over the twelve-month period was driven primarily by sector allocation, a result of the bottom-up stock selection process. Specifically, relative positioning in the Utilities and Communication Services sectors (both underweights), and an overweight allocation to the Financials sector drove positive relative results. By contrast, an underweight allocation to the Energy sector and an overweight allocation to the Healthcare sector weighed on relative performance. Security selection also added to the Fund's relative performance during the period. Strong selection within the Industrials, Energy, and Consumer Staples sectors contributed positively to relative performance, but this was partially offset by weaker selection in the Financials, Materials, and Real Estate sectors.

Top contributors to the Fund's relative performance relative to the Russell Midcap Value Index over the period included overweights to Diamondback Energy (Energy), Western Alliance Bancorp (Financials), and Clean Harbors (Industrials). Shares of energy exploration and production company Diamondback Energy rose over the period, in line with surging global oil prices. The company also reported earnings for the first quarter of 2021 that surprised to the upside, with investors focusing on strong free cash flow generation and the sale of non-core Williston Basin and Permian Basin acreages. Shares of Western Alliance (Financial Services) rose after the company consecutively reported strong earnings. Loans and deposits have shown robust growth and net interest income beat consensus expectations on the back of improving credit trends. Additionally, the accretive acquisition of AmeriHome was well-received by the market. Shares of the environmental and industrial services provider Clean

The Hartford MidCap Value Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

Harbors rose during the period after the company reported better-than-expected earnings as the benefits from a diverse customer base and improving operating efficiency.

Top detractors from the Fund's relative performance during the period included overweight positions in Lumentum (Information Technology), Americold Realty Trust, (Real Estate), and Encompass Health (Healthcare). Shares of Lumentum declined after the maker of optical networking gear reported fiscal third-quarter profits that matched expectations but reported revenue that missed consensus expectations. Continued delays in 5G fronthaul deployments in China negatively impacted quarterly performance. Lumentum also posted fourth-quarter adjusted earnings and revenue outlook both below consensus. Americold Realty, a leader in cold storage warehouses, fell during the period after the real estate investment trust (REIT) cut its full year 2021 adjusted funds from operations guidance, citing market conditions primarily driven by unprecedented labor disruptions. Labor issues involved limiting food production, reducing its occupancy, and driving inflation in Americold's cost structure. Shares of Encompass Health detracted from relative performance during the period. The company reported lower-than-estimated third-quarter 2021 earnings driven by softer results in the home health and hospice segment, as the impact of COVID-19 weighed on both volumes and labor costs. The company also trimmed its guidance, citing the near-term challenges in home health and hospice.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we continue to seek opportunities that offer a compelling combination of valuation, quality, and capital return. This remains our guiding focus when selecting securities for the Fund.

At the end of the period, the Fund's largest overweights relative to the Russell Midcap Value Index were to the Industrials, Financials, and Healthcare sectors, with the largest underweights in the Communication Services, Materials, and Utilities sectors.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Mid-cap securities can have greater risks and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of the Hartford Quality Value Fund returned 44.08%, before sales charges, for the twelve-month period ended October 31, 2021, outperforming the Fund's benchmark, the Russell 1000 Value Index, which returned 43.76% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 44.31% average return of the Lipper Large Cap Value Fund peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. Towards the end of 2020, a sharp escalation in COVID-19 infections across the country and renewed restrictions to curb the spread of the virus were overshadowed by highly encouraging vaccine developments, despite the significant logistical challenges and uncertain timeline for distributing and administering vaccines on a broad scale. In December 2020, the government unveiled a long-awaited fifth stimulus package, worth approximately \$900 billion.

Joe Biden was elected president in November 2020 after a closely contested election, removing a key element of uncertainty from the market. In the first quarter of 2021, U.S. equities rallied, bolstered by an accelerating vaccine rollout, substantial fiscal and monetary policy

accommodations, and upbeat forecasts for economic growth and earnings. Expectations for a strong rebound in the U.S. economy sparked inflationary fears, contributing to a pro-cyclical rotation. The Democrats secured slim majorities in both houses of Congress at the end of 2020 after winning control of the Senate, bolstering President Biden's prospects of advancing his legislative agenda. In the second quarter of 2021, U.S. equities rallied higher for the fifth consecutive quarter amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply during the second quarter of 2021, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. In the third quarter of 2021, U.S. equities rose against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September 2021, triggering a powerful rotation into value equities. In the final month of the period, U.S. equities registered their largest monthly gain of 2021, as inflation anxiety was outweighed by improving coronavirus pandemic conditions, higher-than-expected corporate earnings, strong U.S. equity inflows, and improved prospects for additional fiscal stimulus. Markets were bolstered by a rapid decline in the number of U.S. coronavirus cases, which fell nearly 60% from their latest peak in September 2021.

Hartford Quality Value Fund

Fund Overview – (continued) **October 31, 2021 (Unaudited)**

During the period, all eleven sectors within the Russell 1000 Value Index posted positive absolute returns, with the Energy (+113%), Financials (+74%), and Real Estate (+53%) sectors performing the best. Conversely, the Utilities (+11%), Consumer Staples (+18%), and Communication Services (+26%) sectors lagged over the period.

Security selection and sector allocation both contributed positively to the Fund's performance relative to the Russell 1000 Value Index over the period. Strong stock selection within the Financials, Industrials, and Consumer Discretionary sectors were the top positive contributors to relative performance during the period. This was partially offset by weaker security selection within the Communication Services, Materials, and Utilities sectors, which detracted from relative performance over the same period. Sector allocation, a result of our bottom-up stock selection process, also contributed positively to relative performance during the period, due to an underweight allocation to the Communication Services sector and overweight allocations to the Financials and Energy sectors.

Top contributors to performance relative to the Russell 1000 Value Index over the period were Bank of America (Financials), EOG Resources (Energy), and PNC Financial Services (Financials). Shares of Bank of America rose during the period as banking equities benefited from the vaccine led rally and subsequent rotation towards value sectors. The U.S. Federal Reserve's (Fed's) decision in September 2021 to roll back its bond-buying program but leave short-term interest rates unchanged sent share prices higher at the end of the period. We trimmed the Fund's position during the period on recent strength, but as of the end of the period, we continued to hold the stock. Shares of oil and gas exploration and production company, EOG Resources, rose over the period after reporting both fourth quarter and calendar year 2020 earnings that beat consensus expectations. The company highlighted that increasing prices for natural gas and crude oil during the fourth quarter of 2020 contributed positively to higher quarter-over-quarter earnings. As of the end of the period, we continued to hold the stock. Shares of PNC Financial Services rose during the period. The third quarter of 2021 was the first full quarter that the company benefited from the BBVA USA acquisition, which was completed on June 1, 2021. We trimmed the Fund's position on share-price strength during the period but maintained a position in the stock as of the end of the period.

The largest detractors from the Fund's performance relative to the Russell 1000 Value Index over the period were Verizon (Communication Services), FMC (Materials), and Lockheed Martin (Industrials). Shares of Verizon fell during the period. After releasing fourth-quarter 2020 results, investors were disappointed by weak subscriber growth that fell short of analyst estimates, sending share prices lower. As of the end of the period, we continued to hold Verizon in the Fund. Shares of FMC, a chemical manufacturing company, fell during the period. Despite reporting strong second-quarter 2021 results, FMC lowered its fiscal year 2021 earnings guidance. This was attributable to higher raw materials, packaging and logistics costs. Recent pullbacks in the share price gave us an opportunity to add to the Fund's position in FMC during the period at an attractive valuation in our view. As of the end of the period, we continued to hold FMC in the Fund. Shares of Lockheed Martin underperformed during the period as well. In August 2021, the company reported lackluster

second-quarter 2021 earnings and revised full-year 2021 earnings downward. We added to the Fund's position in Lockheed as we viewed the shares to be undervalued toward the end of the period.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

Despite high stock price correlations within industries as of the end of the period, we believe there is meaningful dissent in the market regarding the economic outlook and the path of the economic recovery from here. Our view is that inflation is likely to endure going forward due to the significant supply constraints (e.g., commodities, labor, etc.). We believe that persistent inflation, which we have not seen for years, will put downward pressure on margins and likely lead to higher interest rates. Given this outlook, we believe a market regime shift is likely and we are seeking to identify consistent compounders (high-quality businesses with strong recurring revenues) with strong competitive advantages and the ability to pass price inflation through to customers. We are also evaluating which end markets we believe are poised to benefit from continued supply tightness, such as metals and mining, for example.

We remain focused on mitigating downside risk in the Fund, so we are seeking to avoid companies that we would expect to struggle in an inflationary environment with rising interest rates. Such companies include those that we believe have rich valuations amid increasing discount rates and companies with margins that we believe are vulnerable to inflation due to an inability to pass on price increases to their customers. We remain focused on seeking to identify quality companies with a positive risk/reward skew and a narrow range of outcomes.

At the end of the period, the Fund's largest overweights were to the Financials and Consumer Discretionary sectors, while the Fund's largest underweight was to the Communication Services sector, relative to the Russell 1000 Value Index.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • Integration of environmental, social, and/or governance (ESG) factors into the investment process may not work as intended.

How did the Fund perform during the period?

The Class A shares of The Hartford Small Cap Growth Fund returned 35.76%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmark, the Russell 2000 Growth Index, which returned 38.45% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 45.31% average return of the Lipper Small-Cap Growth Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. Towards the end of 2020, a sharp escalation in COVID-19 infections across the country and renewed restrictions to curb the spread of the virus were overshadowed by highly encouraging vaccine developments, despite the significant logistical challenges and uncertain timeline for distributing and administering vaccines on a broad scale. In December 2020, the government unveiled a long-awaited fifth stimulus package, worth approximately \$900 billion.

Joe Biden was elected president in November 2020 after a closely contested election, removing a key element of uncertainty for the market. In the first quarter of 2021, U.S. equities rallied, bolstered by an accelerating vaccine rollout, substantial fiscal and monetary policy accommodations, and upbeat forecasts for economic growth and earnings. Expectations for a strong rebound in the U.S. economy sparked inflationary fears, contributing to a pro-cyclical rotation. The second quarter of 2021 saw U.S. equities rally for the fifth consecutive quarter amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply during the quarter, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. In the third quarter of 2021, U.S. equities rose against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September, triggering a powerful rotation into value equities. In the final month of the period, U.S. equities registered their largest monthly gain of the year, as inflation anxiety was outweighed by improving coronavirus pandemic conditions, higher-than-expected corporate earnings, strong U.S. equity inflows, and improved

The Hartford Small Cap Growth Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

prospects for additional fiscal stimulus. Markets were bolstered by a rapid decline in the number of U.S. COVID-19 cases, which fell nearly 60% from their latest peak in September 2021.

Returns varied by market cap during the period, as large-cap equities, as measured by the S&P 500 Index, underperformed small- and mid-cap equities, as measured by the Russell 2000 Index and S&P MidCap 400 Index, respectively.

All eleven sectors in the Russell 2000 Growth Index had positive returns during the period. The Energy (+183%), Industrials (+61%), and Information Technology (+55%) sectors increased the most during the period, while the Healthcare (+15%), Communication Services (+32%), and Consumer Staples (+32%) sectors lagged the broader index during the period.

Security selection was the primary driver of the Fund's underperformance relative to the Russell 2000 Growth Index during the period. Weak selection within the Healthcare, Communication Services, and Industrials sectors detracted from relative performance. This was partially offset by stronger selection in the Financials, Information Technology, and Consumer Staples sectors, which contributed positively to relative performance. Sector allocation, a result of the bottom-up stock selection process, contributed positively to relative performance, primarily driven by the Fund's underweight allocations to the Healthcare and Utilities sectors. An underweight allocation to the Energy sector and an overweight to the Financials sector detracted from performance during the period.

The top contributors to relative performance during the period were overweight positions in Perficient (Information Technology), Sprout Social (Information Technology), and Triumph Bancorp (Financials). Shares of Perficient, a digital consultancy firm, rose during the period after posting strong results throughout. Notably, second-quarter fiscal year 2021 (FY21) earnings grew quarter-over-quarter 26% to \$184.1 million, beating consensus estimates, with earnings per share (EPS) of \$0.84 also coming in higher than estimates. The Fund maintained an overweight position in the stock at the end of period. Shares of Sprout Social, an industry-leading provider of cloud-based social media management software, rose during the period. Notably first-quarter fiscal year 2021 results in May beat market consensus expectations with total revenue up 34% compared to the same period in 2020. The Fund remained overweight the stock at the end of period. Shares of Triumph Bancorp rose during the period as the company reported strong earnings throughout the period. Notably the company's subsidiary, TriumphPay, announced it entered a definitive agreement in April to acquire HubTran, a cloud-based provider of automation software for the transportation industry's back-office. The Fund maintained an overweight position in the stock at the end of the period. Top absolute contributors for the period included Perficient (Information Technology), Omnicell (Healthcare), and Sprout Social (Information Technology).

The top detractors from relative performance during the period included underweight positions in Plug Power (Industrials) and Intellia Therapeutic (Healthcare), and an overweight position in Hydrofarm Holdings (Industrials). Shares of Plug Power, an alternative energy technology provider, rose during the period. The company announced they will be expanding their hydrogen and fuel cell solutions for

Walmart's eCommerce applications in December 2020. The organization also entered a strategic partnership in January with SK Group to accelerate hydrogen as an alternative energy source in Asian Markets. Not owning the stock during the period was a detractor from the Fund's relative performance due to the stock's strong returns. An underweight to Intellia Therapeutics detracted from the Fund's relative performance as shares soared higher after reporting strong earnings throughout the period. The company along with Regeneron Pharmaceuticals reported positive results from its first clinical trial using a new, Nobel Prize-winning Crispr technology to treat Transthyretin Amyloidosis at the end of June 2021. The study of six patients showed significant reductions in levels of a harmful liver protein associated with the genetic disease. During the period, we initiated a position in the company for the Fund. Shares of Hydrofarm Holdings, a manufacturer and distributor of agriculture equipment and supplies, fell during the period. Earnings guidance was updated in February 2021 and was seen as mixed by market participants. The organization's management also sold off a large portion of shares in September 2021. During the period, we initiated a position in the company on behalf of the Fund. Top absolute detractors from Fund performance for the period included Hydrofarm Holdings (Industrials), LHC Group (Healthcare), and II-VI (Information Technology).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we believe several issues are emerging that will have near- and intermediate-term impacts. Infrastructure spending remains a key area of discussion and, while the negotiations around the large democratic bill and the Senate approved bipartisan bill remain stalled, our expectation remains that Congress will approve both bills with a total size of around \$2.5 trillion. We also expect the U.S. debt ceiling will be extended. We believe this may provide some cushion for growth into 2022 with the caveat that a higher corporate tax rate may be included in the bills. Depending on the revenue required to offset the spending, we believe it could pose a challenge to future earnings growth.

In our opinion, the bigger question concerns expectations around inflation with companies struggling to offset higher input costs with higher pricing of their own goods and services, leading to margin compression. We believe that labor force participation rates may continue to increase as stimulus effects wane, and some supply chain disruptions may ease with the increased availability of vaccines globally, limiting the risk of runaway inflation. Still, we believe some of these higher costs are likely here to stay, and many companies have announced further price increases to offset cost pressures. Hence, we do expect some of the inflation to be sustained into the next year.

Lastly, we believe there are some lurking risks that are difficult to handicap, such as the deteriorating financial condition of Chinese real estate developers such as Evergrande and the high gas prices translating to increased power costs in Europe. Increased geopolitical tension is bringing increased attention to strategic industries such as semiconductors, electric vehicles, and robotics. We believe these industries are likely to see increased investment in local economies as

The Hartford Small Cap Growth Fund

Fund Overview – (continued)

October 31, 2021 (Unaudited)

each country tries to reduce reliance on imports. Given these factors, we believe it will be important to keep an eye on the U.S. Federal Reserve and other global central banks, as the manner in which the abundant liquidity is withdrawn from global economies will likely impact exchange rates and interest rates around the world and, in turn, affect prices of risk assets.

At the end of the period, the Fund's largest overweights were to the Industrials, Real Estate and Consumer Staples sectors, while the Fund's largest underweights were to the Healthcare, Energy, and Materials sectors, relative to the Russell 2000 Growth Index.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks, including liquidity risk, and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur.

Manager Discussion

How did the Fund perform during the period?

The Class A shares of the Hartford Small Cap Value Fund returned 62.61%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmark, the Russell 2000 Value Index, which returned 64.30% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 66.45% average return of the Lipper Small-Cap Value Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. In the first half of 2021, U.S. equities gained amid a backdrop of improving coronavirus vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher. The U.S. Federal Reserve (Fed) maintained its view that elevated price pressures should prove transitory, but the Fed rattled markets by considerably raising its inflation forecast for 2021 and signaling the potential for two interest-rate increases in 2023. This shift in expectations triggered a rotation from value and cyclically sensitive stocks to growth stocks.

U.S. equities continued to climb in the third quarter of 2021 against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services, while risk sentiment was pressured by anxiety about rising inflation, imminent monetary tightening, moderating economic growth, and uncertainty about fiscal stimulus and the federal debt ceiling. Growth stocks

outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September 2021, triggering a powerful rotation into value stocks. COVID-19 cases fell sharply in September 2021, although the proliferation of the COVID-19 Delta variant in July and August 2021 weighed on consumer confidence and dampened reopening momentum. The Fed trimmed its 2021 gross domestic product (GDP) growth forecast from 7% to 5.9% and delivered a clearer signal that it expects to begin reducing asset purchases later this year should current economic conditions persist.

During the period, returns varied by market cap, as large-cap equities, as measured by the S&P 500 Index, underperformed mid- and small-cap equities, as measured by the S&P MidCap 400 Index and Russell 2000 Value Index, respectively.

All of the eleven sectors in the Russell 2000 Value Index rose during the period, with the Energy (+180%), Communication Services (+111%), and Consumer Discretionary (+78%) sectors performing best. Conversely, the Utilities (+20%), Healthcare (+38%), and Consumer Staples (+43%) sectors lagged over the period.

Sector allocation, a result of our bottom-up stock selection process, drove the Fund's underperformance relative to the Russell 2000 Value Index during the period. Most notably, the underweight to the Energy sector (given our focus on quality in addition to valuation and capital return) presented a large challenge as a result of the extreme positive performance in that market segment. To a much lesser extent, the Fund's overweight positioning in the Consumer Staples sector also detracted from relative performance. This was partially offset by underweights to the Utilities and Healthcare sectors and an overweight to the Information Technology sector. Strong security selection within the Consumer Discretionary, Financials, and Information Technology

Hartford Small Cap Value Fund

Fund Overview – (continued) October 31, 2021 (Unaudited)

sectors contributed positively to relative results during the period, while weaker selection within the Materials, Consumer Staples, and Industrials sectors partially offset these results.

The largest contributors to relative performance over the period were The Children's Place (Consumer Discretionary), Movado (Consumer Discretionary), and Michaels (Consumer Discretionary). Shares of The Children's Place, a children's apparel retailer, benefited at the end of 2020 from increasing digital sales penetration and fleet optimization. Earnings for the second quarter of 2021 came in ahead of consensus estimates, driven by significant margin expansion and continued e-commerce strength. American watchmaker Movado reported revenue upside due to e-commerce acceleration as sales and gross margins increased significantly compared to the prior year period, due to Movado.com, U.S. wholesale, and Movado Company Stores. At the beginning of this year, specialty arts and crafts retailer Michaels entered into a merger agreement with Apollo Global Management. Under the terms of the agreement, Apollo would acquire all outstanding shares of Michaels in a tender offer of \$22.00 per share, a 47% premium to the current share price.

The largest detractors from relative performance during the period were out-of-benchmark positions in Lancashire (Financials) and Energizer (Consumer Staples), as well as not holding GameStop (Consumer Discretionary), a constituent of the Russell 2000 Value Index during part of the period. Insurance provider Lancashire faced challenges at the end of the period due to higher natural catastrophe losses from Hurricane Ida and floods in Northwestern Europe, as well as large losses driven by unrest in South Africa. Energizer, a battery manufacturer, faced inflationary challenges such as increased costs for transportation, commodities, and labor, along with higher tariffs associated with sourced products.

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

As of the end of the period, we continue to believe that science will allow us to continue to transition from pandemic to endemic; specifically, we expect that COVID-19 cases will become less significant as increasing numbers of people are vaccinated. We remain of the view that economic growth and inflation will be persistently higher during this market cycle than it was in the prior decade. We see fiscal and monetary policies that are structurally more pro-growth at a time of low unemployment, low inventories, and overly flush deposit bases at banks. While we continue to expect some of the inflation to be transitory, we also expect inflation to be longer lasting in labor and finished goods prices, which has historically been a favorable backdrop for the higher quality businesses we seek to invest in as we believe they can leverage inflation and their pricing power to accelerate earnings growth.

At the end of the period, the Fund was most overweight to the Financials, Information Technology, and Industrials sectors, and most underweight to the Real Estate, Healthcare, and Energy sectors relative to the Russell 2000 Value Index.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks, including liquidity risk, and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments.

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE AND DOES NOT GUARANTEE FUTURE RESULTS. The investment return and principal value of the investment will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. The chart and table do not reflect the deductions of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end, please visit our website hartfordfunds.com.

Total returns presented above were calculated using the applicable class' net asset value available to shareholders for sale or redemption of Fund shares on 10/31/2021, which may exclude investment transactions as of this date. All share class returns assume the reinvestment of all distributions at net asset value and the deduction of all fund expenses. The total returns presented in the Financial Highlights section of the report are calculated in the same manner, but also take into account certain

adjustments that are necessary under generally accepted accounting principles. As a result, the total returns in the Financial Highlights section may differ from the total returns presented above.

Class R6 shares commenced operations on 11/07/2014. Performance prior to that date is that of the Fund's Class Y shares. Class F shares commenced operations on 02/28/2017. Performance prior to that date is that of the Fund's Class I shares.

To the extent a share class has adopted the prior performance of another share class that had different operating expenses, such performance has not been adjusted to reflect the different operating expenses. If the performance were adjusted, it may have been higher or lower.

You cannot invest directly in an index.

See "Benchmark Glossary" for benchmark descriptions.

Performance information may reflect expense waivers/reimbursements without which performance would have been lower.

Operating Expenses*

Manager Discussion

How did the Fund perform during the period?

The Class A shares of The Hartford Small Company Fund returned 30.50%, before sales charges, for the twelve-month period ended October 31, 2021, underperforming the Fund's benchmark, the Russell 2000 Growth Index, which returned 38.45% for the same period. For the same period, the Class A shares of the Fund, before sales charges, underperformed the 45.31% average return of the Lipper Small-Cap Growth Funds peer group, a group of funds with investment strategies similar to those of the Fund.

Why did the Fund perform this way?

United States (U.S.) equities, as measured by the S&P 500 Index, posted positive results over the trailing twelve-month period ending October 31, 2021. Small-cap growth equities outperformed the broader market during this period. In the first half of 2021, U.S. equities gained amid a backdrop of improving vaccination rates, accelerating economic growth, and a broader reopening of the economy. Inflation rose sharply, as robust demand for goods and services, along with significant global supply-chain disruptions, drove consumer and producer prices sharply higher.

The U.S. Federal Reserve (Fed) maintained its view that elevated price pressures may prove transitory, but the Fed rattled markets by considerably raising its inflation forecast for 2021 and signaling the potential for two interest-rate increases in 2023. This shift in expectations toward tighter monetary policy triggered a rotation from value and cyclically sensitive equities to growth equities. U.S. equities continued to climb in the third quarter of 2021 against a backdrop of accommodative monetary policy, robust corporate earnings, and strong demand for goods and services, while risk sentiment was pressured by anxiety about rising inflation, imminent monetary tightening by the Fed, moderating economic growth, and uncertainty about fiscal stimulus and the federal debt ceiling. Growth equities outperformed their value counterparts for the quarter; however, surging U.S. Treasury yields sparked a sharp sell-off in shares of large technology companies at the end of September 2021, triggering a powerful rotation into value equities. COVID-19 cases fell sharply in September, although the proliferation of the Delta variant in July and August 2021 weighed on consumer confidence and dampened

momentum from businesses reopening. The Fed trimmed its 2021 gross domestic product (GDP) growth forecast to 5.9%, from 7%, and delivered a clearer signal that it would begin to taper asset purchases later this year if economic conditions remain stable.

Returns varied by market cap during the period. Small-cap equities, as measured by the Russell 2000 Index, outperformed large-cap equities, as measured by the Russell 1000 Index, and mid-cap equities, as measured by the Russell Midcap Index. Narrowing the focus to small caps, value led growth by over +2500 basis points (bps) over the trailing year, as measured by the Russell 2000 Value and Growth Indices, as cyclicals benefited from excitement around the reopening of the economy. To provide some context, the magnitude of value's outperformance versus growth over the past year is something that has not been seen since the technology, media and telecommunications (TMT) bubble burst in the early 2000s.

All eleven sectors in the Russell 2000 Growth Index had positive returns during the period. The Energy (+183%), Industrials (+61%), and Information Technology (+55%) sectors increased the most, while the Healthcare (+15%), Communication Services (+32%), and Consumer Staples (+32%) sectors lagged the broader index.

During the period, security selection was the primary driver of the Fund's underperformance relative to the Russell 2000 Growth Index. Selection in the Healthcare, Industrials, and Consumer Discretionary sectors detracted from relative performance, partially offset by stronger selection in the Information Technology and Financials sectors. Sector allocation, a result of our bottom-up stock selection process, contributed positively to relative performance, primarily driven by the Fund's overweight allocation to the Information Technology and Consumer Discretionary sectors.

The top detractors from relative performance during the period included Ollie's Bargain Outlet (Consumer Discretionary), Chegg (Consumer Discretionary), and Multiplan (Healthcare). Shares of Ollie's Bargain Outlet fell during the period as investors reacted negatively to the discount retailer's second-quarter earnings report. Results were weak against last year's record results, when the company benefited from the initial retail backdrop stemming from the coronavirus pandemic by keeping its stores open. Additionally, Ollie's

The Hartford Small Company Fund

Fund Overview – (continued) October 31, 2021 (Unaudited)

cut its margin forecast for the full year, citing significantly higher supply chain costs in the second half. Shares of Chegg, an online education platform, lagged the Russell 2000 Growth Index over the period. In some ways, the market has viewed the stock as a beneficiary of the conditions surrounding the coronavirus pandemic, which allowed it to increase subscriptions and combat password sharing more effectively in a remote learning environment. The concern was that a return to a more normal education setting could mark a slowing of growth. We sold the Fund's position at the end of the period on concerns around slowing subscriber additions. Shares of Multiplan, a digital cost management solutions provider to the healthcare industry, traded down after a key client was rumored to have plans to leave the provider. Top absolute detractors from the Fund's performance for the period included The RealReal (Consumer Discretionary) and Bandwidth (Communication Services).

By contrast, some of the top contributors to relative performance included Perficient (Information Technology), Western Alliance Bancorp (Financials), and Skillz (Communication Services). The share price of Perficient, a digital consultancy firm, rose during the period after posting strong second-quarter fiscal year 2021 results and raising its outlook. The company won larger contracts with existing clients, reinforcing its ability to maintain competitive advantages and its "land and expand" model. We trimmed the Fund's position to manage exposure but remained overweight at the end of the period. Shares of Western Alliance Bancorp, a bank holding company serving clients in Nevada, Arizona, and California, rose after management reported strong results over the period. Both loan and deposits showed robust growth and net interest income beat consensus expectations on the back of improving credit trends. Western Alliance's acquisition of AmeriHome was viewed as accretive to projected 2022 earnings including cross-selling opportunities in the consumer direct channel. Finally, the share price of Skillz, a mobile game platform, rose following its trading debut in December 2020. The Fund exited the position in February after market exuberance caused valuations to become stretched. Top absolute contributors to the Fund's performance for the period included Perficient (Information Technology) and Western Alliance Bancorp (Financials).

Derivatives were not used in a significant manner in the Fund during the period and did not have a material impact on performance during the period.

What is the outlook as of the end of the period?

Toward the end of the period, we began trimming or eliminating equities in the Fund that performed strongly and, in many cases, benefitted from the re-opening of the economy. This corresponds to the Fund's reduced exposure in the Consumer Discretionary and Industrials sectors, using these segments as a source of funds to add to the Fund's exposure within select areas of the Information Technology (payments, software, etc.) and Healthcare sectors where we are finding better opportunities in our up/down valuation framework in our view.

As of the end of the period, we believe the Fund maintained a good degree of balance with a nice mix of strong, secular growers as well as some cyclically oriented exposures more tied to a continued economic recovery. We avoid leaning too heavily on any one scenario, instead letting our upside/downside valuation framework to seek to guide us to the best opportunities at a given point in time.

At the end of the period, the Fund's largest overweights were to the Information Technology, Consumer Discretionary, and Communication Services sectors, while the Fund's largest underweights were to the Consumer Staples, Healthcare, and Materials sectors, relative to the Russell 2000 Growth Index.

Important Risks

Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks, including liquidity risk, and volatility than large-cap securities. • Different investment styles may go in and out favor, which may cause the Fund to underperform the broader stock market. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • The Fund may have high portfolio turnover, which could increase its transaction costs and an investor's tax liability.

Composition by Sector⁽¹⁾ as of 10/31/2021

Sector	Percentage of Net Assets
Equity Securities	
Communication Services	4.1%
Consumer Discretionary	16.3

⁽¹⁾ A sector may be comprised of several industries. For Fund compliance purposes, the Fund may not use the same classification system. These sector classifications are used for financial reporting purposes.

Hartford Domestic Equity Funds

Benchmark Glossary (Unaudited)

Russell 1000 Growth Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 1000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 1000 Index is designed to measure the performance of the 1,000 largest companies in the Russell 3000 Index based on their market capitalization and current index membership.

Russell 1000 Value Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 1000 Index companies with lower price-to-book ratios and lower forecasted growth values. The Russell 1000 Index is designed to measure the performance of the 1,000 largest companies in the Russell 3000 Index based on their market capitalization and current index membership.

Russell 2000 Growth Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 2000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 2000 Index is an index comprised of 2,000 of the smallest U.S.-domiciled company common stocks based on a combination of their market capitalization and current index membership.

Russell 2000 Value Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 2000 Index companies with lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Index is an index comprised of 2,000 of the smallest U.S.-domiciled company common stocks based on a combination of their market capitalization and current index membership.

Russell 3000 Growth Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of those Russell 3000 Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell 3000 Index is designed to measure the performance of the 3,000 largest U.S. companies based on total market capitalization.

Russell 3000 Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of the 3,000 largest U.S. companies based on total market capitalization.

Russell Midcap Value Index (reflects no deduction for fees, expenses or taxes) is designed to measure the performance of the mid-cap value segment of the U.S. equity universe. It includes those Russell Midcap Index companies with lower price-to-book ratios and lower forecasted growth values.

S&P 500 Index (reflects no deduction for fees, expenses or taxes) is a float-adjusted market capitalization-weighted price index composed of 500 widely held common stocks.

S&P Composite 1500 Health Care Index (reflects no deduction for fees, expenses or taxes) is a float-adjusted market capitalization-weighted index comprised of those companies included in the S&P Composite 1500 that are classified as members of the Global Industry Classification Standard (GICS®) health care sector.

S&P MidCap 400 Index (reflects no deduction for fees, expenses or taxes) is a float-adjusted market capitalization-weighted index designed to measure the performance of the mid-cap segment of the market. The index is composed of 400 constituent companies.

Hartford Domestic Equity Funds

Expense Examples (Unaudited)

Your Fund's Expenses

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, if any, and contingent deferred sales charges (CDSC), if any, and (2) ongoing costs, including investment management fees, distribution and/or service (12b-1) fees, if any, and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period of May 1, 2021 through October 31, 2021. To the extent a Fund was subject to acquired fund fees and expenses during the period, acquired fund fees and expenses are not included in the annualized expense ratios below.

Actual Expenses

The first set of columns of the table below provides information about actual account values and actual expenses. You may use this information, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the line under the heading entitled "Expenses Paid During The Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second set of columns of the table below provides information about hypothetical account values and hypothetical expenses based on a Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in a Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads and CDSC). Therefore, the second set of columns of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would be higher. Expenses for a class of a Fund are equal to the class' annualized expense ratio multiplied by average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

⁽¹⁾ For the year ended October 31, 2021, investments valued at \$24,616,180 were transferred out of Level 3 due to the initiation of a vendor providing prices that are based on market activity which has been determined to be significant observable input. There were no transfers into Level 3.

⁽²⁾ Derivative instruments (excluding purchased and written options, if applicable) are valued at the unrealized appreciation/(depreciation) on the investments.

Level 3 investments at the beginning and/or end of the period in relation to net assets were not significant and accordingly, a reconciliation of Level 3 assets for the year ended October 31, 2021 is not presented.

The accompanying notes are an integral part of these financial statements.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

* Non-income producing.

(1) Represents entire or partial securities on loan. See Note 8 in the accompanying Notes to Financial Statements for securities lending information.

(2) These securities are valued in good faith at fair value as determined under policies and procedures established by and under the supervision of the Board of Directors. At October 31, 2021, the aggregate fair value of these securities are \$43,368,969, which represented 0.5% of total net assets. This amount excludes securities that are principally traded in certain foreign markets and whose prices are adjusted pursuant to a third party pricing service methodology approved by the Board of Directors.

(3) As of October 31, 2021, investment is restricted from trading. The value of such restricted securities amounted to \$5,258,686 or 0.1% of net assets.

Period Acquired	Security Name	Shares/Par Value	Total Cost	Market Value
08/2014	Honest Co., Inc.	575,034	\$ 7,360,452	\$ 5,258,686

(4) Investment in securities not registered under the Securities Act of 1933 (excluding securities acquired pursuant to Rule 144A and Regulation S). At the end of the period, the value of such restricted securities amounted to \$38,110,283 or 0.5% of net assets.

Period Acquired	Security Name	Shares/Par Value	Total Cost	Market Value
05/2014	Essence Group Holdings Corp. Series 3 Convertible Preferred	5,668,755	\$ 8,964,002	\$ 12,641,324
07/2014	Lookout, Inc. Series F Convertible Preferred	743,470	8,492,732	6,773,012

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

* Non-income producing.

(1) Represents entire or partial securities on loan. See Note 8 in the accompanying Notes to Financial Statements for securities lending information.

(2) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may be sold in transactions that are exempt from registration (typically only to qualified institutional buyers) or in a public offering registered under the Securities Act of 1933. At October 31, 2021, the aggregate value of these securities was \$34,692,925, representing 2.0% of net assets.

(3) Current yield as of period end.

Note: Percentage of investments as shown is the ratio of the total market value to total net assets.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board of Directors in order to reflect an adjustment for factors occurring after the close of certain foreign markets but before the close of the New York Stock Exchange.

The Fund may refer to any one or more of the industry classifications used by one or more widely recognized market indices, ratings group and/or as defined by Fund management. Industry classifications may not be identical across all security types.

Equity industry classifications used in this report are the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

For Fund compliance purposes, the Fund may not use the same classification system. These classifications are used for financial reporting purposes.

See "Glossary" for abbreviation descriptions.

* Non-income producing.

⁽¹⁾ Represents entire or partial securities on loan. See Note 8 in the accompanying Notes to Financial Statements for securities lending information.

⁽²⁾ Affiliated company – The Fund owns greater than 5% of the outstanding voting securities of this issuer.

⁽³⁾ These securities are valued in good faith at fair value as determined under policies and procedures established by and under the supervision of the Board of Directors. At October 31, 2021, the aggregate fair value of these securities are \$2,341,147, which represented 0.2% of total net assets. This amount excludes securities that are principally traded in certain foreign markets and whose prices are adjusted pursuant to a third party pricing service methodology approved by the Board of Directors.

The accompanying notes are an integral part of these financial statements.

The Hartford Small Company Fund

Schedule of Investments – (continued) October 31, 2021

(4) Investment in securities not registered under the Securities Act of 1933 (excluding securities acquired pursuant to Rule 144A and Regulation S). At the end of the period, the value of such restricted securities amounted to \$1,423,135 or 0.1% of net assets.

Period Acquired	Security Name	Shares/ Par Value	Total Cost	Market Value
08/2011	Allstar Co.	3,136,600	\$ —	\$ —
11/2013	Tory Burch LLC	26,907	2,108,912	1,423,135
			<u>\$ 2,108,912</u>	<u>\$ 1,423,135</u>

(5) Investment valued using significant unobservable inputs.

(6) As of October 31, 2021, investment is restricted from trading. The value of such restricted securities amounted to \$918,012 or 0.1% of net assets.

Period Acquired	Security Name	Shares/ Par Value	Total Cost	Market Value
08/2014	Honest Co., Inc.	100,384	\$ 2,172,859	\$ 918,012

(7) Current yield as of period end.

† See Significant Accounting Policies of accompanying Notes to Financial Statements regarding valuation of investments.

(1) For the year ended October 31, 2021, investments valued at \$2,634,744 were transferred into Level 3 due to the unavailability of active market pricing, and investments valued at \$1,956,547 were transferred out of Level 3 due to the availability of significant observable inputs.

Level 3 investments at the beginning and/or end of the period in relation to net assets were not significant and accordingly, a reconciliation of Level 3 assets for the year ended October 31, 2021 is not presented.

The accompanying notes are an integral part of these financial statements.

FINANCIAL HIGHLIGHTS FOOTNOTES

- ⁽¹⁾ Information presented relates to a share outstanding throughout the indicated period. Net investment income (loss) per share amounts are calculated based on average shares outstanding unless otherwise noted.
- ⁽²⁾ Assumes initial investment at net asset value at the beginning of each period, reinvestment of all distributions, the complete redemption of the investment at net asset value at the end of each period and no sales charge. Total return would be reduced if sales charges were taken into account.
- ⁽³⁾ Adjustments include waivers and reimbursements, if applicable. Ratios do not include fees paid indirectly (see Expenses in the accompanying Notes to Financial Statements).
- ⁽⁴⁾ Includes interest expense representing less than 0.005%.
- ⁽⁵⁾ Commenced operations on February 28, 2017.
- ⁽⁶⁾ Not annualized.
- ⁽⁷⁾ Annualized.
- ⁽⁸⁾ Amount is less than \$0.01 per share.
- ⁽⁹⁾ Amount is less than 0.01%.
- ⁽¹⁰⁾ Commenced operations on February 28, 2019.
- ⁽¹¹⁾ Commenced operations on February 28, 2018.
- ⁽¹²⁾ Per share amount was not in accord with the net realized and unrealized gain (loss) for the period because of the timing of transactions in shares of the Fund and the amount and timing of per-share net realized and unrealized gain (loss) on such shares.

The accompanying notes are an integral part of these financial statements.

Hartford Domestic Equity Funds

Notes to Financial Statements

October 31, 2021

1. Organization:

The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. (each, a "Company" and collectively, the "Companies") are each an open-end registered management investment company comprised of thirty-six and thirteen series, respectively, as of October 31, 2021. Financial statements for the series of each Company listed below (each, a "Fund" and collectively, the "Funds") are included in this report.

The Hartford Mutual Funds, Inc.:

The Hartford Capital Appreciation Fund (the "Capital Appreciation Fund")
Hartford Core Equity Fund (the "Core Equity Fund")
The Hartford Dividend and Growth Fund (the "Dividend and Growth Fund")
The Hartford Equity Income Fund (the "Equity Income Fund")
The Hartford Healthcare Fund (the "Healthcare Fund")
The Hartford MidCap Fund (the "MidCap Fund")
The Hartford MidCap Value Fund (the "MidCap Value Fund")
Hartford Small Cap Value Fund (the "Small Cap Value Fund")
The Hartford Small Company Fund (the "Small Company Fund")

The Hartford Mutual Funds II, Inc.:

The Hartford Growth Opportunities Fund (the "Growth Opportunities Fund")
Hartford Quality Value Fund (the "Quality Value Fund")
The Hartford Small Cap Growth Fund (the "Small Cap Growth Fund")

The assets of each Fund are separate, and a shareholder's interest is limited to the Fund in which shares are held. Each Company is organized under the laws of the State of Maryland and is registered with the Securities and Exchange Commission (the "SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). Each Fund is a diversified open-end management investment company. Each Fund applies specialized accounting and reporting standards under Accounting Standards Codification Topic 946, "Financial Services – Investment Companies".

Each Fund has registered for sale Class A, Class C, Class I, Class R3, Class R4, Class R5, Class Y and Class F shares. Core Equity Fund has registered for sale Class T shares. As of October 31, 2021, Class T shares have not commenced operations. Each Fund, except the MidCap Value Fund, has registered for sale Class R6 shares. Class A shares of each Fund are sold with a front-end sales charge of up to 5.50%. Class T shares have a front-end sales charge of up to 2.50%. Class C shares of each Fund are sold with a contingent deferred sales charge of up to 1.00% on shares redeemed within twelve months of purchase. Effective April 1, 2021, Class C shares automatically convert to Class A shares of the same Fund after eight years provided that the Fund or the financial intermediary has records verifying that the Class C shares have been held for at least eight years. Classes I, R3, R4, R5, R6, Y and F shares do not have a sales charge.

2. Significant Accounting Policies:

The following is a summary of significant accounting policies of each Fund used in the preparation of its financial statements, which are in accordance with United States Generally Accepted Accounting Principles ("U.S. GAAP"). The preparation of financial statements in accordance with U.S. GAAP may require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

- a) *Determination of Net Asset Value* – The net asset value ("NAV") of each class of each Fund's shares is determined as of the close of regular trading on the New York Stock Exchange (the "Exchange") (normally 4:00 p.m. Eastern Time) (the "NYSE Close") on each day that the Exchange is open ("Valuation Date"). If the Exchange is closed due to weather or other extraordinary circumstances on a day it would typically be open for business, each Fund may treat such day as a typical business day and accept purchase and redemption orders and calculate each Fund's NAV in accordance with applicable law. The NAV of each class of each Fund's shares is determined by dividing the value of the Fund's net assets attributable to the class of shares by the number of shares outstanding for that class. Information that becomes known to the Funds after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the NAV determined earlier that day.
- b) *Investment Valuation and Fair Value Measurements* – For purposes of calculating the NAV of each class of each Fund, portfolio securities and other assets held in the Fund's portfolio for which market prices are readily available are valued at market value. Market value is generally determined on the basis of official close price or last reported trade price. If no trades were reported, market value is based on prices obtained from a quotation reporting system, established market makers (including evaluated prices), or independent pricing services. Pricing vendors may use matrix pricing or valuation models that utilize certain inputs and assumptions to derive values, including transaction

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

data, credit quality information, general market conditions, news, and other factors and assumptions.

If market prices are not readily available or are deemed unreliable, a Fund will use the fair value of the security or other instrument as determined in good faith under policies and procedures established by and under the supervision of the Board of Directors of the respective Company (the "Board of Directors") ("Valuation Procedures"). Market prices are considered not readily available where there is an absence of current or reliable market-based data (e.g., trade information or broker quotes), including where events occur after the close of the relevant market, but prior to the NYSE Close, that materially affect the values of a Fund's portfolio holdings or assets. In addition, market prices are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities or other instruments trade do not open for trading for the entire day and no other market prices are available. Fair value pricing is subjective in nature and the use of fair value pricing by a Fund may cause the NAV of its shares to differ significantly from the NAV that would have been calculated using market prices at the close of the exchange on which a portfolio holding is primarily traded. There can be no assurance that a Fund could obtain the fair value assigned to an investment if the Fund were to sell the investment at approximately the time at which the Fund determines its NAV.

Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service in order to reflect an adjustment for the factors occurring after the close of certain foreign markets but before the NYSE Close. Securities and other instruments that are primarily traded on foreign markets may trade on days that are not business days of the Funds. The value of the foreign securities or other instruments in which a Fund invests may change on days when a shareholder will not be able to purchase, redeem or exchange shares of the Fund.

Fixed income investments (other than short-term obligations) and non-exchange traded derivatives held by a Fund are normally valued at prices supplied by independent pricing services in accordance with the Valuation Procedures. Short-term investments maturing in 60 days or less are generally valued at amortized cost which approximates fair value.

Exchange-traded derivatives, such as options, futures and options on futures, are valued at the last sale price determined by the exchange where such instruments principally trade as of the close of such exchange ("Exchange Close"). If a last sale price is not available, the value will be the mean of the most recently quoted bid and ask prices as of the Exchange Close. If a mean of the bid and ask prices cannot be calculated for the day, the value will be the most recently quoted bid price as of the Exchange Close. Over-the-counter derivatives are normally valued based on prices supplied by independent pricing services in accordance with the Valuation Procedures.

Investments valued in currencies other than U.S. dollars are converted to U.S. dollars using the prevailing spot currency exchange rates obtained from independent pricing services for calculation of the NAV. As a result, the NAV of a Fund's shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities or other instruments traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Exchange is closed and the market value may change on days when an investor is not able to purchase, redeem or exchange shares of a Fund.

Foreign currency contracts represent agreements to exchange currencies on specific future dates at predetermined rates. Foreign currency contracts are valued using foreign currency exchange rates and forward rates as provided by an independent pricing service on the Valuation Date.

Investments in investment companies that are not listed or traded on an exchange ("Non-Traded Funds"), if any, are valued at the respective NAV of each Non-Traded Fund on the Valuation Date. Shares of investment companies listed and traded on an exchange are valued in the same manner as any exchange-listed equity security. Such Non-Traded Funds and listed investment companies may use fair value pricing as disclosed in their prospectuses.

Financial instruments for which prices are not available from an independent pricing service may be valued using market quotations obtained from one or more dealers that make markets in the respective financial instrument in accordance with the Valuation Procedures.

U.S. GAAP defines fair value as the price that a Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants. The U.S. GAAP fair value measurement standards require disclosure of a fair value hierarchy for each major category of assets and liabilities. Various inputs are used in determining the fair value of each Fund's investments. These inputs are summarized into three broad hierarchy levels. This hierarchy is based on whether the valuation inputs are observable or unobservable. These levels are:

- Level 1 – Quoted prices in active markets for identical investments. Level 1 may include exchange traded instruments, such as domestic equities, some foreign equities, options, futures, mutual funds, exchange traded funds, rights and warrants.
- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar investments; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. Level 2 may include debt investments that are traded less frequently than exchange traded instruments and which are valued using independent pricing services; foreign equities, which are principally traded on certain foreign markets and are adjusted daily pursuant to a fair value pricing service in order

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

to reflect an adjustment for the factors occurring after the close of certain foreign markets but before the NYSE Close; senior floating rate interests, which are valued using an aggregate of dealer bids; short-term investments, which are valued at amortized cost; and swaps, which are valued based upon the terms of each swap contract.

- Level 3 – Significant unobservable inputs that are supported by limited or no market activity. Level 3 may include financial instruments whose values are determined using indicative market quotes or require significant management judgment or estimation. These unobservable valuation inputs may include estimates for current yields, maturity/duration, prepayment speed, and indicative market quotes for comparable investments along with other assumptions relating to credit quality, collateral value, complexity of the investment structure, general market conditions and liquidity. This category may include investments where trading has been halted or there are certain restrictions on trading. While these investments are priced using unobservable inputs, the valuation of these investments reflects the best available data and management believes the prices are a reasonable representation of exit price.

The Board of Directors has delegated the day-to-day responsibility for implementing the Valuation Procedures to the Valuation Committee. The Valuation Committee will consider all relevant factors in determining an investment's fair value, and may seek the advice of such Fund's sub-adviser(s), as applicable, knowledgeable brokers, and legal counsel in making such determination. The Valuation Committee reports to the Audit Committee of the Board of Directors.

Valuation levels are not necessarily indicative of the risk associated with investing in such investments. Individual investments within any of the above mentioned asset classes may be assigned a different hierarchical level than those presented above, as individual circumstances dictate.

For additional information, refer to the Fair Value Summary and the Level 3 roll-forward reconciliation, if applicable, which follows each Fund's Schedule of Investments.

- c) *Investment Transactions and Investment Income* – Investment transactions are recorded as of the trade date (the date the order to buy or sell is executed) for financial reporting purposes. Investments purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date. Realized gains and losses are determined on the basis of identified cost.

Dividend income from domestic securities is accrued on the ex-dividend date. In general, dividend income from foreign securities is recorded on the ex-date; however, dividend notifications in certain foreign jurisdictions may not be available in a timely manner and as a result, a Fund will record the dividend as soon as the relevant details (i.e., rate per share, payment date, shareholders of record, etc.) are publicly available. Interest income, including amortization of premium, accretion of discounts and additional principal received in-kind in lieu of cash, is accrued on a daily basis.

Please refer to Note 8 for Securities Lending information.

- d) *Taxes* – A Fund may be subject to taxes imposed on realized gains on securities of certain foreign countries in which such Fund invests. A Fund may also be subject to taxes withheld on foreign dividends and interest from securities in which a Fund invests. The amount of any foreign taxes withheld and foreign tax expense is included on the accompanying Statements of Operations as a reduction to net investment income or net realized or unrealized gain (loss) on investments in these securities, if applicable.
- e) *Foreign Currency Transactions* – Assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars at the exchange rates in effect on the Valuation Date. Purchases and sales of investments, income and expenses are translated into U.S. dollars at the exchange rates on the dates of such transactions.

A Fund does not isolate that portion of portfolio investment valuation resulting from fluctuations in the foreign currency exchange rates from the fluctuations arising from changes in the market prices of investments held. Exchange rate fluctuations are included with the net realized and unrealized gain or loss on investments in the accompanying financial statements.

Net realized foreign exchange gains or losses arise from sales of foreign currencies and the difference between asset and liability amounts initially stated in foreign currencies and the U.S. dollar value of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of other assets and liabilities at the end of the reporting period, resulting from changes in the exchange rates.

- f) *Joint Trading Account* – A Fund may invest cash balances into a joint trading account that may be invested in one or more repurchase agreements.
- g) *Fund Share Valuation and Dividend Distributions to Shareholders* – Orders for each class of each Fund's shares are executed in accordance with the investment instructions of the shareholders. The NAV of each class of each Fund's shares is determined as of the close of business on each business day of the Exchange (see Note 2(a)). The NAV is determined separately for each class of shares of a Fund by dividing the Fund's net assets attributable to that class by the number of shares of the class outstanding. Each class of shares offered by a Fund

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

has equal rights as to assets and voting privileges (except that shareholders of a class have exclusive voting rights regarding any matter relating solely to that class of shares). Income and non-class specific expenses are allocated daily to each class on the basis of the relative net assets of the class of the Fund. Realized and unrealized gains and losses are allocated daily based on the relative net assets of each class of shares of each Fund.

Orders for the purchase of a Fund's shares received prior to the close of the Exchange on any day the Exchange is open for business are priced at the NAV determined as of the close of the Exchange. Orders received after the close of the Exchange, or on a day on which the Exchange and/or the Funds are not open for business, are priced at the next determined NAV.

Dividends are declared pursuant to a policy adopted by the respective Company's Board of Directors. Dividends and/or distributions to shareholders are recorded on ex-date. The policy of each Fund, except Dividend and Growth Fund and Equity Income Fund, is to pay dividends from net investment income and realized gains, if any, at least once a year. The policy of Dividend and Growth Fund and Equity Income Fund is to pay dividends from net investment income, if any, quarterly and realized gains, if any, at least once a year.

Income dividends and capital gains distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP with respect to character and timing (see Federal Income Taxes: Distributions and Components of Distributable Earnings and Reclassification of Capital Accounts notes).

3. Securities and Other Investments:

- a) *Restricted Securities* – Each Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if applicable, is included at the end of each Fund's Schedule of Investments.
- b) *Repurchase Agreements* – A repurchase agreement is an agreement between two parties whereby one party sells the other a security at a specified price with a commitment to repurchase the security later at an agreed-upon price, date and interest payment. Each Fund is permitted to enter into fully collateralized repurchase agreements. Each Company's Board of Directors has delegated to the sub-adviser(s), as applicable, the responsibility of evaluating the creditworthiness of the banks and securities dealers with which the Funds will engage in repurchase agreements. The sub-adviser(s) will monitor such transactions to ensure that the value of underlying collateral will be at least equal to the total amount of the repurchase obligation as required by the valuation provision of the repurchase agreement, including the accrued interest. Repurchase agreements carry the risk that the market value of the securities declines below the repurchase price. A Fund could also lose money if it is unable to recover the securities and the value of any collateral held or assets segregated by the Fund to cover the transaction is less than the value of the securities. In the event the borrower commences bankruptcy proceedings, a court may characterize the transaction as a loan. If a Fund has not perfected a security interest in the underlying collateral, the Fund may be required to return the underlying collateral to the borrower's estate and be treated as an unsecured creditor. As an unsecured creditor, the Fund could lose some or all of the principal and interest involved in the transaction. See each Fund's Schedule of Investments, if applicable, for repurchase agreements as of October 31, 2021.
- c) *Special Purpose Acquisition Companies* – A Fund may invest in special purpose acquisition companies ("SPACs") or similar special purpose entities. SPACs are collective investment structures that pool funds in order to seek potential acquisition opportunities. SPACs and similar entities may be blank check companies with no operating history or ongoing business other than to seek a potential acquisition. Because SPACs and similar entities have no operating history or ongoing business other than seeking acquisitions, the value of their securities is particularly dependent on the ability of the entity's management to identify and complete a profitable acquisition. Some SPACs may pursue acquisitions only within certain industries or regions, which may increase the volatility of their securities' prices. In addition, these securities, which are typically traded in the OTC market, may be considered illiquid and/or be subject to restrictions on resale. A Fund may enter into a contingent commitment with a SPAC to purchase shares of private investments in public equity investments ("PIPE") if and when the SPAC completes its merger or acquisition; however if the commitment expires, then no shares are purchased. Purchased PIPE shares will be restricted from trading until the registration statement for the shares is declared effective. Upon registration, the shares can be freely sold; however, in certain circumstances, the issuer may have the right to temporarily suspend trading of the shares in the first year after the merger.

4. Financial Derivative Instruments:

The following disclosures contain information on how and why a Fund may use derivative instruments, the credit-risk-related contingent features in certain derivative instruments, and how derivative instruments affect a Fund's financial position and results of operations. The location and fair value amounts of these instruments on the Statements of Assets and Liabilities and the realized gains and losses and changes in unrealized gains and losses on the Statements of Operations, each categorized by type of derivative contract, are included in the following Additional

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

Derivative Instrument Information footnote. The derivative instruments outstanding as of period-end are disclosed in the notes to the Schedules of Investments, if applicable. The amounts of realized gains and losses and changes in unrealized gains and losses on derivative instruments during the period are disclosed in the Statements of Operations.

- a) **Futures Contracts** – A Fund may enter into futures contracts. A futures contract is an agreement between two parties to buy or sell an asset at a set price on a future date. A Fund may use futures contracts to manage risk or obtain exposure to the investment markets, commodities, or movements in interest rates and currency values. The primary risks associated with the use of futures contracts are the imperfect correlation between the change in market value of the investments held by a Fund and the prices of futures contracts and the possibility of an illiquid market. Upon entering into a futures contract, a Fund is required to deposit with a futures commission merchant (“FCM”) an amount of cash or U.S. Government or Agency Obligations in accordance with the initial margin requirements of the broker or exchange. Futures contracts are marked to market daily and an appropriate amount equal to the change in value (“variation margin”) is paid or received by a Fund. Gains or losses are recognized but not considered realized until the contracts expire or are closed. Futures contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed on the Statements of Assets and Liabilities.

During the year ended October 31, 2021, each of Capital Appreciation Fund and Core Equity Fund had used futures contracts.

- b) **Additional Derivative Instrument Information:**

Capital Appreciation Fund

The Effect of Derivative Instruments on the Statement of Assets and Liabilities as of October 31, 2021:

	Risk Exposure Category					Total
	Interest Rate Contracts	Foreign Currency Contracts	Credit Contracts	Equity Contracts	Commodity Contracts	
Assets:						
Unrealized appreciation on futures contracts ⁽¹⁾	\$ —	\$ —	\$ —	\$ 6,601,053	\$ —	\$ 6,601,053
Total	\$ —	\$ —	\$ —	\$ 6,601,053	\$ —	\$ 6,601,053

⁽¹⁾ Amount represents the cumulative appreciation and depreciation on futures contracts as disclosed within the Schedule of Investments under the open “Futures Contracts” section. Only current day’s variation margin, if any, is reported within the Statement of Assets and Liabilities.

The Effect of Derivative Instruments on the Statement of Operations for the year ended October 31, 2021:

	Risk Exposure Category					Total
	Interest Rate Contracts	Foreign Currency Contracts	Credit Contracts	Equity Contracts	Commodity Contracts	
Realized Gain (Loss) on Derivatives Recognized as a Result of Operations:						
Net realized gain (loss) on futures contracts	\$ —	\$ —	\$ —	\$ 31,660,302	\$ —	\$ 31,660,302
Total	\$ —	\$ —	\$ —	\$ 31,660,302	\$ —	\$ 31,660,302
Net Change in Unrealized Appreciation (Depreciation) on Derivatives Recognized as a Result of Operations:						
Net change in unrealized appreciation (depreciation) of futures contracts	\$ —	\$ —	\$ —	\$ 8,707,449	\$ —	\$ 8,707,449
Total	\$ —	\$ —	\$ —	\$ 8,707,449	\$ —	\$ 8,707,449

For the year ended October 31, 2021, the average monthly amount or number per contract outstanding for each derivative type was as follows:

Derivative Description	Average Notional Par, Contracts or Face Amount
Futures Contracts Number of Long Contracts	471

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued)
October 31, 2021

Core Equity Fund

The Effect of Derivative Instruments on the Statement of Operations for the year ended October 31, 2021:

	Risk Exposure Category					Total
	Interest Rate Contracts	Foreign Currency Contracts	Credit Contracts	Equity Contracts	Commodity Contracts	
Realized Gain (Loss) on Derivatives Recognized as a Result of Operations:						
Net realized gain (loss) on futures contracts	\$ —	\$ —	\$ —	\$ 31,391,264	\$ —	\$ 31,391,264
Total	\$ —	\$ —	\$ —	\$ 31,391,264	\$ —	\$ 31,391,264
Net Change in Unrealized Appreciation (Depreciation) on Derivatives Recognized as a Result of Operations:						
Net change in unrealized appreciation (depreciation) of futures contracts	\$ —	\$ —	\$ —	\$ 2,034,977	\$ —	\$ 2,034,977
Total	\$ —	\$ —	\$ —	\$ 2,034,977	\$ —	\$ 2,034,977

For the year ended October 31, 2021, the average monthly amount or number per contract outstanding for each derivative type was as follows:

Derivative Description	Average Notional Par, Contracts or Face Amount
Futures Contracts Number of Long Contracts	321

- c) **Balance Sheet Offsetting Information** – Set forth below are tables which disclose both gross information and net information about instruments and transactions eligible for offset in the financial statements, and instruments and transactions that are subject to a master netting arrangement, as well as amounts related to margin, reflected as financial collateral (including cash collateral), held at clearing brokers, counterparties and a Fund's custodian. The master netting arrangements allow the clearing brokers to net any collateral held in or on behalf of a Fund, or liabilities or payment obligations of the clearing brokers to a Fund, against any liabilities or payment obligations of a Fund to the clearing brokers. A Fund is required to deposit financial collateral (including cash collateral) at the Fund's custodian on behalf of clearing brokers and counterparties to continually meet the original and maintenance requirements established by the clearing brokers and counterparties. Such requirements are specific to the respective clearing broker or counterparty. Certain master netting arrangements may not be enforceable in a bankruptcy.

The following tables present a Fund's derivative assets and liabilities, presented on a gross basis as no amounts are netted within the Statements of Assets and Liabilities, by counterparty net of amounts available for offset under a master netting agreement or similar agreement ("MNA") and net of the related collateral received/pledged by a Fund as of October 31, 2021:

Capital Appreciation Fund

Derivative Financial Instruments:

	Assets	Liabilities
Futures contracts	\$ 6,601,053	\$ —
Total gross amount of derivative assets and liabilities in the Statement of Assets and Liabilities	6,601,053	—
Derivatives not subject to a MNA	(6,601,053)	—
Total gross amount of assets and liabilities subject to MNA or similar agreements	\$ —	\$ —

5. Principal Risks:

A Fund's investments expose it to various types of risks associated with financial instruments and the markets. A Fund may be exposed to the risks described below. Each Fund's prospectus provides details of its principal risks.

The market values of equity securities, such as common stocks and preferred stocks, or equity related derivative investments, such as futures and options, may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of equity securities may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities and equity related investments generally have greater market price volatility than fixed income securities. The extent of each Fund's exposure to market risk is the market value of the investments held as shown in the Fund's Schedule of Investments.

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

A widespread health crisis, such as a global pandemic, could cause substantial market volatility, exchange trading suspensions or restrictions and closures of securities exchanges and businesses, impact the ability to complete redemptions, and adversely impact Fund performance. The current ongoing outbreak of COVID-19, a respiratory disease caused by a novel coronavirus, has negatively affected the worldwide economy, created supply chain disruptions and labor shortages, and impacted the financial health of individual companies and the market in significant and unforeseen ways. The future impact of the ongoing COVID-19 pandemic remains unclear. The effects to public health, business and market conditions resulting from COVID-19 pandemic may have a significant negative impact on the performance of a Fund's investments, including exacerbating other pre-existing political, social and economic risks.

Investing in the securities of non-U.S. issuers, whether directly or indirectly, involves certain considerations and risks not typically associated with securities of U.S. issuers. Such risks include, but are not limited to: generally less liquid and less efficient securities markets; generally greater price volatility; exchange rate fluctuations; imposition of restrictions on the expatriation of funds or other protectionist measures; less publicly available information about issuers; the imposition of withholding or other taxes; higher transaction and custody costs; settlement delays and risk of loss attendant in settlement procedures; difficulties in enforcing contractual obligations; less regulation of securities markets; different accounting, disclosure and reporting requirements; more substantial governmental involvement in the economy; higher inflation rates; and greater social, economic and political uncertainties. Non-U.S. issuers may also be affected by political, social, economic or diplomatic developments in a foreign country or region or the U.S. (including the imposition of sanctions, tariffs, or other governmental restrictions). These risks are heightened for investments in issuers from countries with less developed markets.

Securities lending involves the risk that a Fund may lose money because the borrower of the loaned securities fails to return the securities in a timely manner or at all. A Fund could also lose money in the event of a decline in the value of the collateral provided for the loaned securities or a decline in the value of any investments made with cash collateral. These events could also trigger adverse tax consequences for a Fund that lends its holdings.

6. Federal Income Taxes:

- a) Each Fund intends to continue to qualify as a Regulated Investment Company ("RIC") under Subchapter M of the Internal Revenue Code ("IRC") by distributing substantially all of its taxable net investment income and net realized capital gains to its shareholders each year. Each Fund has distributed substantially all of its income and capital gains in prior years, if applicable, and intends to distribute substantially all of its income and capital gains during the calendar year ending December 31, 2021. Accordingly, no provision for federal income or excise taxes has been made in the accompanying financial statements. Distributions from short-term capital gains are treated as ordinary income distributions for federal income tax purposes.
- b) *Net Investment Income (Loss), Net Realized Gains (Losses) and Distributions* – Net investment income (loss) and net realized gains (losses) may differ for financial statement and tax purposes primarily because of losses deferred due to wash sale adjustments, foreign currency gains and losses, adjustments related to Passive Foreign Investment Companies ("PFICs"), Real Estate Investment Trusts ("REITs"), RICs, certain derivatives and partnerships. The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the year that the income or realized gains (losses) were recorded by each Fund.
- c) *Distributions and Components of Distributable Earnings* – The tax character of distributions paid by each Fund for the years ended October 31, 2021 and October 31, 2020 are as follows:

Fund	For the Year Ended October 31, 2021		For the Year Ended October 31, 2020	
	Ordinary Income	Long-Term Capital Gains ⁽¹⁾	Ordinary Income	Long-Term Capital Gains ⁽¹⁾
Capital Appreciation Fund	\$ 29,401,051	\$ 326,546,682	\$ 36,050,954	\$ 304,034,945
Core Equity Fund	70,885,946	—	60,527,093	97,987,927
Dividend and Growth Fund	154,554,069	214,857,817	150,668,454	260,565,466
Equity Income Fund	75,881,176	42,135,878	71,168,447	255,909,247
Growth Opportunities Fund	361,398,386	579,604,617	—	301,835,007
Healthcare Fund	27,136,342	157,201,491	6,049,810	77,681,567
MidCap Fund	—	1,544,551,438	—	703,065,084
MidCap Value Fund	3,497,022	—	5,747,295	16,708,824
Quality Value Fund	4,003,206	—	4,852,723	5,832,576
Small Cap Growth Fund	14,305,053	46,613,265	—	15,398,605
Small Cap Value Fund	1,100,001	—	1,006,381	6,012,453
Small Company Fund	37,854,022	38,852,079	—	36,747,668

⁽¹⁾ The Funds designate these distributions as long-term capital gains dividends pursuant to IRC Sec 852(b)(3)(c)

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

As of October 31, 2021, the components of total accumulated earnings (deficit) for each Fund on a tax basis are as follows:

Fund	Undistributed Ordinary Income	Undistributed Long-Term Capital Gains	Unrealized Appreciation (Depreciation) on Investments	Total Accumulated Earnings (Deficit)
Capital Appreciation Fund	\$ 275,556,677	\$ 808,192,672	\$ 1,915,262,527	\$ 2,999,011,876

MidCap Value Fund	21,874,389	40,778,782	201,073,559	263,726,730
Quality Value Fund	3,297,860	11,016,024	60,551,207	74,865,091
Small Cap Growth Fund	—	150,799,913	278,504,074	429,303,987
Small Cap Value Fund	6,278,175	5,362,817	23,810,038	35,451,030
Small Company Fund	50,478,329	153,794,458	174,201,138	378,473,925

- d) *Reclassification of Capital Accounts* – The Funds may record reclassifications in their capital accounts. These reclassifications have no impact on the total net assets of the Funds. The reclassifications are a result of permanent differences between U.S. GAAP and tax accounting for such items as earnings and profits distributed to shareholders on the redemption of shares, and adjustments to prior year accumulated balances. Adjustments are made to reflect the impact these items have on current and future earnings distributions to shareholders. Therefore, the source of the Funds' distributions may be shown in the accompanying Statements of Changes in Net Assets as from distributable earnings or from capital depending on the type of book and tax differences that exist. For the year ended October 31, 2021, the Funds recorded reclassifications to increase (decrease) the accounts listed below:

Fund	Paid-in-Capital	Distributable Earnings (Loss)
Capital Appreciation Fund	\$ 36,737,981	\$ (36,737,981)
Equity Income Fund	26,760,727	(26,760,727)
Growth Opportunities Fund	105,922,139	(105,922,139)
Healthcare Fund	9,171,665	(9,171,665)
MidCap Fund	202,946,801	(202,946,801)
Small Cap Growth Fund	17,201,525	(17,201,525)
Small Company Fund	6,096,797	(6,096,797)

- e) *Capital Loss Carryforward* – Under the Regulated Investment Company Modernization Act of 2010, funds are permitted to carry forward capital losses for an unlimited period.

The Capital Appreciation Fund, Core Equity Fund, Dividend and Growth Fund, Equity Income Fund, Growth Opportunities Fund, Healthcare Fund, MidCap Fund, MidCap Value Fund, Quality Value Fund, Small Cap Growth Fund, Small Cap Value Fund and Small Company Fund had no capital loss carryforwards for U.S. federal tax purposes as of October 31, 2021.

During the year ended October 31, 2021, Core Equity Fund utilized \$46,847,127, MidCap Value Fund utilized \$32,679,852, Quality Value Fund utilized \$2,486,494, and Small Cap Value Fund utilized \$5,504,390 of prior year capital loss carryforwards.

- f) *Tax Basis of Investments* – The aggregate cost of investments for federal income tax purposes at October 31, 2021 is different from book purposes primarily due to wash sale loss deferrals, passive foreign investment company (PFIC) mark-to-market adjustments, partnership adjustments and non-taxable distributions from underlying investments. The net unrealized appreciation/(depreciation) on investments for tax purposes, which consists of gross unrealized appreciation and depreciation, was also different from book purposes primarily due to wash sale loss deferrals and mark-to-market adjustments on futures, PFICs, partnership adjustments and non-taxable distributions from

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

underlying investments. Both the cost and unrealized appreciation and depreciation for federal income tax purposes are disclosed below:

<u>Fund</u>	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized (Depreciation)</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
Capital Appreciation Fund	\$ 5,872,665,229	\$ 2,009,304,658	\$ (93,968,052)	\$ 1,915,336,606
Core Equity Fund	7,719,983,877	4,924,670,451	(22,701,947)	4,901,968,504
Dividend and Growth Fund	8,978,176,586	5,650,613,698	(61,037,424)	5,589,576,274
Equity Income Fund	3,317,882,290	1,622,736,076	(29,255,501)	1,593,480,575
Growth Opportunities Fund	6,218,207,281	2,015,361,057	(166,279,070)	1,849,081,987
Healthcare Fund	1,298,957,148	491,284,508	(54,256,116)	437,028,392
MidCap Fund	9,774,275,285	4,825,023,634	(403,025,289)	4,421,998,345
MidCap Value Fund	676,485,567	211,895,733	(10,822,174)	201,073,559
Quality Value Fund	171,434,329	61,682,308	(1,131,101)	60,551,207
Small Cap Growth Fund	611,625,591	322,908,546	(44,404,472)	278,504,074
Small Cap Value Fund	152,169,513	27,886,880	(4,076,842)	23,810,038
Small Company Fund	839,093,690	220,057,227	(45,856,089)	174,201,138

- g) *Accounting for Uncertainty in Income Taxes* – Pursuant to provisions set forth by U.S. GAAP, Hartford Funds Management Company, LLC ("HFMC") reviews each Fund's tax positions for all open tax years. As of October 31, 2021, HFMC had reviewed the open tax years and concluded that there was no reason to record a liability for net unrecognized tax obligations relating to uncertain income tax positions. Each Fund files U.S. tax returns. Although the statute of limitations for examining a Fund's U.S. tax returns remains open for 3 years, no examination is currently in progress. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense on the Statements of Operations. During the year ended October 31, 2021, the Funds did not incur any interest or penalties. HFMC is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax obligations will significantly change in the next twelve months.

7. Expenses:

- a) *Investment Management Agreement* – HFMC serves as each Fund's investment manager. Each Company, on behalf of its respective Funds, has entered into an Investment Management Agreement with HFMC. HFMC is an indirect subsidiary of The Hartford Financial Services Group, Inc. ("The Hartford"). HFMC has overall investment supervisory responsibility for each Fund. In addition, HFMC provides administrative personnel, services, equipment, facilities and office space for proper operation of each Fund. HFMC has contracted with Wellington Management Company LLP ("Wellington Management") under a sub-advisory agreement and Wellington Management performs the daily investment of the assets of each Fund in accordance with the Fund's investment objective and policies. Each Fund pays a fee to HFMC. HFMC pays a sub-advisory fee to Wellington Management out of its management fee.

The schedule below reflects the rates of compensation paid to HFMC for investment management services rendered as of October 31, 2021; the rates are accrued daily and paid monthly based on each Fund's average daily net assets, at the following annual rates:

<u>Fund</u>	<u>Management Fee Rates</u>
Capital Appreciation Fund	0.8000% on first \$500 million and; 0.7000% on next \$500 million and; 0.6500% on next \$4 billion and; 0.6475% on next \$5 billion and; 0.6450% over \$10 billion
Core Equity Fund	0.4500% on first \$500 million and; 0.3500% on next \$500 million and; 0.3300% on next \$1.5 billion and; 0.3250% on next \$2.5 billion and; 0.3225% over \$5 billion
Dividend and Growth Fund	0.7500% on first \$500 million and; 0.6500% on next \$500 million and; 0.6000% on next \$1.5 billion and; 0.5950% on next \$2.5 billion and; 0.5900% on next \$5 billion and; 0.5850% over \$10 billion

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

Fund	Management Fee Rates
Equity Income Fund	0.7500% on first \$250 million and; 0.7000% on next \$250 million and; 0.6500% on next \$500 million and; 0.6000% on next \$1.5 billion and; 0.5900% on next \$2.5 billion and; 0.5875% over \$5 billion
Growth Opportunities Fund	0.8000% on first \$250 million and; 0.7000% on next \$4.75 billion and; 0.6975% on next \$5 billion and; 0.6950% over \$10 billion
Healthcare Fund	0.9000% on first \$500 million and; 0.8500% on next \$500 million and; 0.8000% on next \$4 billion and; 0.7975% on next \$5 billion and; 0.7950% over \$10 billion
MidCap Fund	0.8500% on first \$500 million and; 0.7500% on next \$500 million and; 0.7000% on next \$4 billion and; 0.6975% on next \$5 billion and; 0.6950% over \$10 billion
MidCap Value Fund	0.7500% on first \$500 million and; 0.6500% on next \$500 million and; 0.6000% on next \$1.5 billion and; 0.5950% on next \$2.5 billion and; 0.5900% on next \$5 billion and; 0.5850% over \$10 billion
Quality Value Fund	0.4500% on first \$500 million and; 0.3500% on next \$500 million and; 0.3300% on next \$4 billion and; 0.3250% on next \$5 billion and; 0.3225% over \$10 billion
Small Cap Growth Fund	0.9000% on first \$100 million and; 0.8000% on next \$150 million and; 0.7000% on next \$250 million and; 0.6500% on next \$4.5 billion and; 0.6300% on next \$5 billion and; 0.6200% over \$10 billion
Small Cap Value Fund	0.7000% on first \$500 million and; 0.6500% on next \$500 million and; 0.6000% on next \$2 billion and; 0.5900% on next \$2 billion and; 0.5800% on next \$5 billion and; 0.5700% over \$10 billion
Small Company Fund	0.8500% on first \$250 million and; 0.8000% on next \$250 million and; 0.7500% on next \$500 million and; 0.7000% on next \$500 million and; 0.6500% on next \$3.5 billion and; 0.6300% on next \$5 billion and; 0.6200% over \$10 billion

- b) *Accounting Services Agreement* – HFMC provides the Funds with accounting services pursuant to a fund accounting agreement by and between each Company, on behalf of its respective Funds, and HFMC. HFMC has delegated certain accounting and administrative service functions to State Street Bank and Trust Company (“State Street”). In consideration of services rendered and expenses assumed pursuant to the fund accounting agreement, each Fund pays HFMC a fee. Effective May 1, 2021, the fund accounting fee schedule as set forth in the fund accounting agreement by and between each Company, on behalf of its respective Funds, and HFMC, was revised. Effective May 1, 2021, the fund accounting fee for each Fund is equal to the greater of: (A) the sum of (i) the sub-accounting fee payable by HFMC with respect to the Fund; (ii) the fee payable for tax preparation services for the Fund; and (iii) the amount of expenses that HFMC allocates for providing the fund accounting services to the Fund; plus a target profit margin; or (B) \$40,000 per year; provided, however, that to the extent the annual amount of the fund accounting fee exceeds 0.02% of the Fund’s average net assets (calculated during its current fiscal year), HFMC shall waive such portion of the fund accounting fee. For the period November 1, 2020 through April 30, 2021, HFMC received the

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

following fee with respect to each Fund: any sub-accounting fee payable by HFMC plus the amount of expenses that HFMC allocates for providing the fund accounting services.

- c) *Operating Expenses* – Allocable expenses incurred by each Company are allocated to each series within such Company, and allocated to classes within each such series, in proportion to the average daily net assets of such series and classes, except where allocation of certain expenses is more fairly made directly to a Fund or to specific classes within a Fund. As of October 31, 2021, HFMC contractually agreed to limit the total annual fund operating expenses (exclusive of taxes, interest expenses, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses), through February 28, 2022 (unless the applicable Board of Directors approves its earlier termination) as follows for each of the following Funds:

	Expense Limit as a Percentage of Average Daily Net Assets								
Fund	Class A	Class C	Class I	Class R3	Class R4	Class R5	Class R6	Class Y	Class F
Quality Value Fund	0.96%	1.71%	0.66%	1.18%	0.88%	0.63%	0.46%	0.57%	0.46%
Small Cap Value Fund	1.30%	2.05%	1.00%	1.50%	1.20%	0.90%	0.80%	0.85%	0.80%

From November 1, 2020 through February 28, 2021, HFMC contractually limited the total operating expenses (exclusive of taxes, interest expenses, brokerage commissions, acquired fund fees and expenses and extraordinary expenses), as follows for the Small Company Fund:

		Expense Limit as a Percentage of Average Daily Net Assets								
Fund		Class A	Class C	Class I	Class R3	Class R4	Class R5	Class R6	Class Y	Class F
Small Company Fund		1.40%	2.15%	1.15%	1.55%	1.25%	0.95%	0.90%	0.95%	0.90%

- d) *Fees Paid Indirectly* – Certain Funds have entered into agreements with State Street Global Markets, LLC and Russell Implementation Services, Inc. to partially recapture non-discounted trade commissions. Such rebates are used to pay a portion of a Fund's expenses. For the year ended October 31, 2021, these amounts, if any, are included in the Statements of Operations.

The ratio of expenses to average net assets in the accompanying financial highlights excludes the reduction in expenses related to fees paid indirectly. The annualized expense ratio after waivers reflecting the reduction for fees paid indirectly for the period is as follows:

Fund	Class A	Class C	Class I	Class R3	Class R4	Class R5	Class R6	Class Y	Class F
Capital Appreciation Fund	1.04%	1.83%	0.77%	1.41%	1.10%	0.80%	0.69%	0.78%	0.69%
Core Equity Fund	0.70%	1.45%	0.45%	1.06%	0.72%	0.46%	0.36%	0.44%	0.36%
Dividend and Growth Fund	0.97%	1.75%	0.71%	1.35%	1.03%	0.73%	0.63%	0.67%	0.63%
Equity Income Fund	0.98%	1.75%	0.74%	1.35%	1.05%	0.75%	0.65%	0.73%	0.65%
Growth Opportunities Fund	1.06%	1.83%	0.82%	1.44%	1.14%	0.84%	0.73%	0.83%	0.73%
Healthcare Fund	1.24%	2.01%	0.98%	1.59%	1.29%	1.00%	0.89%	0.98%	0.89%
MidCap Fund	1.08%	1.84%	0.85%	1.45%	1.13%	0.83%	0.74%	0.77%	0.73%
MidCap Value Fund	1.18%	1.95%	0.85%	1.49%	1.19%	0.89%	N/A	0.88%	0.77%
Quality Value Fund	0.94%	1.71%	0.63%	1.17%	0.88%	0.62%	0.46%	0.57%	0.46%
Small Cap Growth Fund	1.18%	1.89%	0.83%	1.47%	1.17%	0.86%	0.76%	0.81%	0.76%
Small Cap Value Fund	1.28%	2.04%	0.96%	1.39%	1.20%	0.90%	0.80%	0.85%	0.80%
Small Company Fund	1.22%	2.05%	0.95%	1.57%	1.26%	0.96%	0.85%	0.90%	0.85%

- e) *Sales Charges and Distribution and Service Plan for Class A, T, C, R3 and R4 Shares* – Hartford Funds Distributors, LLC (“HFD”), an indirect subsidiary of The Hartford, is the principal underwriter and distributor of each Fund. For the year ended October 31, 2021, HFD received front-end sales charges and contingent deferred sales charges for each Fund as follows:

Fund	Front-End Sales Charges	Contingent Deferred Sales Charges
Capital Appreciation Fund	\$ 1,636,733	\$ 12,072
Core Equity Fund	2,921,456	43,366
Dividend and Growth Fund	3,383,956	24,796
Equity Income Fund	1,125,483	10,310
Growth Opportunities Fund	3,114,928	25,783
Healthcare Fund	1,005,689	6,572
MidCap Fund	2,254,813	19,506
MidCap Value Fund	469,398	428
Quality Value Fund	97,745	65
Small Cap Growth Fund	100,663	499
Small Cap Value Fund	106,907	860
Small Company Fund	612,308	2,894

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

The Board of Directors of each Company has approved the adoption of a separate distribution plan (each a “Plan”) pursuant to Rule 12b-1 under the 1940 Act for each of Class A, T, C, R3 and R4 shares. Under a Plan, Class A, Class T, Class C, Class R3 and Class R4 shares of a Fund, as applicable, bear distribution and/or service fees paid to HFD, some or all of which may be paid to select broker-dealers. Pursuant to the Class A Plan, a Fund may pay HFD a fee of up to 0.25% of the average daily net assets attributable to Class A shares for distribution financing activities and shareholder account servicing activities. The entire amount of the fee may be used for shareholder servicing expenses and/or distribution expenses. Pursuant to the Class T Plan, a Fund may pay HFD a fee of up to 0.25% of the average daily net assets attributable to Class T shares for distribution financing activities and shareholder account servicing activities. The entire amount of the fee may be used for shareholder servicing expenses and/or distribution expenses. As of October 31, 2021, Class T shares have not commenced operations. Pursuant to the Class C Plan, a Fund may pay HFD a fee of up to 1.00% of the average daily net assets attributable to Class C shares for distribution financing activities, and up to 0.25% may be used for shareholder account servicing activities. The Class C Plan also provides that HFD will receive all contingent deferred sales charges attributable to Class C shares. Pursuant to the Class R3 Plan, a Fund may pay HFD a fee of up to 0.50% of the average daily net assets attributable to Class R3 shares for distribution financing activities, and up to 0.25% may be used for shareholder account servicing activities. Pursuant to the Class R4 Plan, a Fund may pay HFD a fee of up to 0.25% of the average daily net assets attributable to Class R4 shares for distribution financing activities. The entire amount of the fee may be used for shareholder account servicing activities. Each Fund’s 12b-1 fees are accrued daily and paid monthly or at such other intervals as the respective Company’s Board of Directors may determine. Any 12b-1 fees attributable to assets held in an account held directly with the Funds’ transfer agent for which there is not a third-party listed as the broker-dealer of record (or HFD does not otherwise have a payment obligation) are generally reimbursed to the applicable share class of the applicable Fund. Such amounts are reflected as “Distribution fee reimbursements” on the Statements of Operations.

- f) *Other Related Party Transactions* – Certain officers of each Company are directors and/or officers of HFMC and/or The Hartford or its subsidiaries. For the year ended October 31, 2021, a portion of each Company’s Chief Compliance Officer’s (“CCO”) compensation was paid by all of the investment companies in the Hartford fund complex. The portion allocated to each Fund, as represented in other expenses on the Statements of Operations, is outlined in the table below.

Fund	CCO Compensation Paid by Fund
Capital Appreciation Fund	\$ 13,090
Core Equity Fund	20,209
Dividend and Growth Fund	22,565
Equity Income Fund	8,109
Growth Opportunities Fund	13,439
Healthcare Fund	2,937
MidCap Fund	24,786
MidCap Value Fund	1,433
Quality Value Fund	380
Small Cap Growth Fund	1,545
Small Cap Value Fund	280
Small Company Fund	1,652

Hartford Administrative Services Company (“HASCO”), an indirect subsidiary of The Hartford, provides transfer agent services to each Fund. Each Fund pays HASCO a transfer agency fee payable monthly based on the lesser of (i) the costs of providing or overseeing transfer agency services provided to each share class of such Fund plus a target profit margin or (ii) a Specified Amount (as defined in the table below). Such fee is intended to compensate HASCO for: (i) fees payable by HASCO to DST Asset Manager Solutions, Inc. (“DST”) (and any other designated sub-agent) according to the agreed-upon fee schedule under the sub-transfer agency agreement between HASCO and DST (or between HASCO and any other designated sub-agent, as applicable); (ii) sub-transfer agency fees payable by HASCO to financial intermediaries, according to the agreed-upon terms between HASCO and the financial intermediaries, provided that such payments are

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

within certain limits approved by the applicable Company's Board of Directors; (iii) certain expenses that HASCO's parent company, Hartford Funds Management Group, Inc., allocates to HASCO that relate to HASCO's transfer agency services provided to the Fund; and (iv) a target profit margin.

<u>Share Class</u>	<u>Specified Amount (as a percentage average daily net assets)</u>
Class A	0.25%
Class C	0.25%
Class I	0.20%
Class R3	0.22%
Class R4	0.17%
Class R5	0.12%
Class R6	0.004%
Class Y	0.11%
Class F	0.004%

Effective March 1, 2021, HASCO has contractually agreed to waive its transfer agency fee and/or reimburse transfer agency-related expenses to the extent necessary to limit the transfer agency fee for the share classes of the Funds listed below through February 28, 2022, unless the Board of Directors approves its earlier termination.

<u>Fund</u>	<u>Class I</u>	<u>Class Y</u>
Core Equity Fund	N/A	0.08%
Dividend and Growth Fund	N/A	0.04%
MidCap Fund	0.12%	0.04%
Small Cap Growth Fund	N/A	0.06%

From November 1, 2020 through February 28, 2021, HASCO contractually agreed to waive and/or reimburse a portion of the transfer agency fees for the share classes of the Funds listed below to the extent necessary to limit the transfer agency fees as follows:

<u>Fund</u>	<u>Class I</u>	<u>Class Y</u>
Capital Appreciation Fund	N/A	0.06%
Core Equity Fund	N/A	0.08%
Dividend and Growth Fund	N/A	0.04%
Equity Income Fund	N/A	0.06%
Growth Opportunities Fund	N/A	0.04%
Healthcare Fund	N/A	0.05%
MidCap Fund	0.12%	0.04%
MidCap Value Fund	N/A	0.07%
Small Cap Growth Fund	N/A	0.04%

Pursuant to a sub-transfer agency agreement between HASCO and DST, HASCO has delegated certain transfer agent, dividend disbursing agent and shareholder servicing agent functions to DST. Each Fund does not pay any fee directly to DST; rather, HASCO makes all such payments to DST. The accrued amount shown in the Statements of Operations reflects the amounts charged by HASCO. These fees are accrued daily and paid monthly.

For the year ended October 31, 2021, the effective rate of compensation paid to HASCO for transfer agency services as a percentage of each Class' average daily net assets is as follows:

<u>Fund</u>	<u>Class A</u>	<u>Class C</u>	<u>Class I</u>	<u>Class R3</u>	<u>Class R4</u>	<u>Class R5</u>	<u>Class R6</u>	<u>Class Y</u>	<u>Class F</u>

Notes to Financial Statements – (continued)
October 31, 2021

8. Securities Lending:

Each Company has entered into a securities lending agency agreement (“lending agreement”) with Citibank, N.A. (“Citibank”). A Fund may lend portfolio securities to certain borrowers in U.S. and non-U.S. markets in an amount not to exceed one-third (33 1/3%) of the value of its total assets. A Fund may lend portfolio securities, provided that the borrower provides collateral that is maintained in an amount at least equal to the current market value of the securities loaned. Cash collateral is invested for the benefit of a Fund by the Fund's lending agent pursuant to collateral investment guidelines. The collateral is marked to market daily, in an amount at least equal to the current market value of the securities loaned.

A Fund is subject to certain risks while its securities are on loan, including the following: (i) the risk that the borrower defaults on the loan and the collateral is inadequate to cover the Fund's loss; (ii) the risk that the earnings on the collateral invested are not sufficient to pay fees incurred in connection with the loan; (iii) the Fund could lose money in the event of a decline in the value of the collateral provided for loaned securities or a decline in the value of any investments made with cash collateral; (iv) the risk that the borrower may use the loaned securities to cover a short sale, which may in turn place downward pressure on the market prices of the loaned securities; (v) the risk that return of loaned securities could be delayed and interfere with portfolio management decisions; and (vi) the risk that any efforts to restrict or recall the securities for purposes of voting may not be effective. These events could also trigger adverse tax consequences for the Fund.

A Fund retains loan fees and the interest on cash collateral investments but is required to pay the borrower a rebate for the use of cash collateral. In cases where the lent security is of high value to borrowers, there may be a negative rebate (i.e., a net payment from the borrower to the applicable Fund). Upon termination of a loan, a Fund is required to return to the borrower an amount equal to the cash collateral, plus any rebate owed to the borrowers.

The net income earned on the securities lending (after payment of rebates and Citibank's fee) is included on the Statements of Operations as Investment Income from securities lending. A Fund also receives payments from the borrower during the period of the loan, equivalent to dividends and interest earned on the securities loaned, which are recorded as Investment Income from dividends or interest, respectively, on the Statements of Operations.

The following table presents for each Fund that lends its portfolio securities the market value of the securities on loan; the collateral posted by the borrower; and the net amount, if any, due from the borrower in the event of default as of October 31, 2021.

Fund	Investment Securities on Loan, at market value, Presented on the Statements of Assets and Liabilities	Collateral Posted by Borrower ⁽¹⁾	Net Amount ⁽²⁾
Capital Appreciation Fund	\$ 78,297,883	\$ (78,297,883)	\$ —
Core Equity Fund	—	—	—
Dividend and Growth Fund	—	—	—
Equity Income Fund	18,426,375	(18,426,375)	—
Growth Opportunities Fund	50,802,197	(50,802,197)	—
Healthcare Fund	12,432,635	(12,432,635) ⁽³⁾	—
MidCap Fund	285,537,889	(285,537,889)	—
MidCap Value Fund	—	—	—
Quality Value Fund	—	—	—
Small Cap Growth Fund	4,006,025	(4,006,025)	—
Small Cap Value Fund	—	—	—
Small Company Fund	26,917,675	(26,917,675)	—

⁽¹⁾ It is each Fund's policy to obtain additional collateral from, or return excess collateral to, the borrower by the end of the next business day following the valuation date of the securities loaned. Therefore, the value of the collateral held may be temporarily less than that required under the lending contract due to timing. Pursuant to the lending agreement, the borrower will provide collateral in an amount at least equal to the current market value of securities loaned. Collateral received in excess or in deficit of the market value is not presented in this table.

⁽²⁾ Net amount represents the net amount receivable due from the borrower in the event of default.

⁽³⁾ Includes non-cash collateral of \$2,493,877.

9. Secured Borrowings:

The following tables reflect a breakdown of transactions accounted for as secured borrowings, the gross obligation by the type of collateral pledged, and the remaining contractual maturity of those transactions as of October 31, 2021.

10. Affiliated Security Transactions:

If a Fund owns 5% or more of the outstanding voting securities, either directly or indirectly, of a particular issuer, the 1940 Act deems such an issuer to be an “affiliate” of the Fund. As of and during the year ended October 31, 2021, the MidCap Fund and Small Company Fund owned 5% or more of the outstanding voting securities of the issuers identified in the table below:

A summary of affiliated security transactions for the year ended October 31, 2021 follows:

Affiliated Investments	Beginning Value as of November 1, 2020	Purchases at Cost	Proceeds from Sales	Net Realized Gain/(Loss) on Sales	Return of Capital	Change in Unrealized Appreciation/(Depreciation)	Ending Value as of October 31, 2021	Shares as of October 31, 2021	Capital Gains Distribution

Small Cap Value Fund	—	—	—	—	—	0%*	—	—	—

* Percentage rounds to zero.

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued) October 31, 2021

As of October 31, 2021, affiliated funds of funds and the 529 plan for which HFMC serves as the program manager (the “529 plan”) in the aggregate owned a portion of the Funds identified below. Therefore, these Funds may experience relatively large purchases or redemptions of their shares as a result of purchase and sale activity from these affiliated funds of funds and the 529 plan. Affiliated funds of funds and the 529 plan owned shares in the Funds listed below as follows:

<u>Fund</u>	<u>Percentage of Fund[*]</u>
Capital Appreciation Fund	8%
Core Equity Fund	3%
Dividend and Growth Fund	6%
Equity Income Fund	6%
Growth Opportunities Fund	3%
MidCap Fund	1%
MidCap Value Fund	2%
Small Cap Growth Fund	4%
Small Cap Value Fund	34%
Small Company Fund	8%

* As of October 31, 2021, affiliated funds of funds and the 529 plan were invested in Class F shares.

12. Investment Transactions:

For the year ended October 31, 2021, the cost of purchases and proceeds from sales of investment securities (excluding short-term investments) were as follows:

<u>Fund</u>	<u>Cost of Purchases Excluding U.S. Government Obligations</u>	<u>Sales Proceeds Excluding U.S. Government Obligations</u>	<u>Total Cost of Purchases</u>	<u>Total Sales Proceeds</u>

14. Line of Credit:

Each Fund participates in a committed line of credit pursuant to a credit agreement dated March 4, 2021. Each Fund may borrow under the line of credit for temporary or emergency purposes. The Funds (together with certain other Hartford Funds) may borrow up to \$350 million in the aggregate, subject to asset coverage and other limitations specified in the credit agreement. The interest rate on borrowings varies depending on the nature of the loan. The facility also charges certain fees, such as an upfront fee and a commitment fee. From November 1, 2020 through March 4, 2021, the Funds (together with certain other Hartford Funds) had a similar agreement that enabled them to participate in a \$350 million committed line of credit. The fees incurred by the Funds in connection with the committed lines of credit during the period appear in the Statements of Operations under "Other expenses." During and as of the year ended October 31, 2021, none of the Funds had borrowings under this facility.

15. Indemnifications:

Under each Company's organizational documents, the Company shall indemnify its officers and directors to the full extent required or permitted under Maryland General Corporation Law and federal securities laws. In addition, each Company, on behalf of its respective Funds, may enter into contracts that contain a variety of indemnifications. Each Company's maximum exposure under these arrangements is unknown. However, as of the date of these financial statements, each Company has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

16. Change in Independent Registered Public Accounting Firm:

On November 6, 2019, the Companies, on behalf of their respective Funds, dismissed Ernst & Young LLP ("EY") as the Funds' independent registered public accounting firm effective upon the issuance of EY's report on the Funds' financial statements as of and for the fiscal year ended October 31, 2019. EY's report on the Funds' financial statements for the fiscal years October 31, 2018 and October 31, 2019 contained no adverse opinion or disclaimer of opinion nor was EY's report qualified or modified as to uncertainty, audit scope or accounting principles. During the Funds' fiscal periods ended on October 31, 2018 and October 31, 2019 and through December 30, 2019 (the "Covered Period"), (i) there were no disagreements with EY on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure,

Hartford Domestic Equity Funds

Notes to Financial Statements – (continued)
October 31, 2021

which disagreements, if not resolved to the satisfaction of EY, would have caused it to make reference to the subject matter of the disagreements in connection with its reports on the Funds' financial statements for the Covered Period, and (ii) there were no "reportable events" of the kind described in Item 304(a)(1)(v) of Regulation S-K under the Securities Exchange Act of 1934, as amended.

On November 6, 2019, the Audit Committee of each Company's Board of Directors participated in and approved the decision to engage PricewaterhouseCoopers LLP ("PwC") as the independent registered public accounting firm for the Funds for the fiscal year ended October 31, 2020. The selection of PwC does not reflect any disagreements with or dissatisfaction by each Company or the Board of Directors with the performance of the Funds' prior independent registered public accounting firm, EY. During the Covered Period, neither the Funds, nor anyone on their behalf, consulted with PwC on items which: (i) concerned the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Funds' financial statements; or (ii) concerned the subject of a disagreement (as defined in paragraph (a)(1)(iv) of Item 304 of Regulation S-K) or reportable events (as described in paragraph (a)(1)(v) of Item 304 of Regulation S-K).

17. Subsequent Events:

Management has evaluated all subsequent transactions and events through the date on which these financial statements were issued and has determined that no additional items require disclosure in these financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors of The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. and Shareholders of The Hartford Capital Appreciation Fund, Hartford Core Equity Fund, The Hartford Dividend and Growth Fund, The Hartford Equity Income Fund, The Hartford Growth Opportunities Fund, The Hartford Healthcare Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund, Hartford Quality Value Fund, The Hartford Small Cap Growth Fund, Hartford Small Cap Value Fund and The Hartford Small Company Fund

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of The Hartford Capital Appreciation Fund, Hartford Core Equity Fund, The Hartford Dividend and Growth Fund, The Hartford Equity Income Fund, The Hartford Healthcare Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund, Hartford Small Cap Value Fund and The Hartford Small Company Fund (nine of the funds constituting The Hartford Mutual Funds, Inc.) and The Hartford Growth Opportunities Fund, Hartford Quality Value Fund and The Hartford Small Cap Growth Fund (three of the funds constituting The Hartford Mutual Funds II, Inc.) (hereafter collectively referred to as the "Funds") as of October 31, 2021, the related statements of operations for the year ended October 31, 2021, the statements of changes in net assets for each of the two years in the period ended October 31, 2021, including the related notes, and the financial highlights for each of the two years in the period ended October 31, 2021 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2021, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended October 31, 2021 and each of the financial highlights for each of the two years in the period ended October 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

The financial statements of the Funds as of and for the year ended October 31, 2019 and the financial highlights for each of the periods ended on or prior to October 31, 2019 (not presented herein, other than the financial highlights) were audited by other auditors whose report dated December 30, 2019 expressed an unqualified opinion on those financial statements and financial highlights.

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2021 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

/s/ PricewaterhouseCoopers LLP
Philadelphia, Pennsylvania
December 28, 2021

We have served as the auditor of one or more investment companies in the Hartford Funds group of investment companies since 2020.

Hartford Domestic Equity Funds

Operation of the Liquidity Risk Management Program (Unaudited)

This section describes the operation and effectiveness of the Liquidity Risk Management Program ("LRM Program") established in accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended (the "Liquidity Rule"). The LRM Program seeks to assess and manage each Fund's liquidity risk. The Liquidity Rule generally defines liquidity risk as the risk that a Fund could not meet its obligation to redeem shares without significant dilution of the non-redeeming investors' interests in the Fund. The Boards of Directors ("Board") of The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. have appointed Hartford Funds Management Company, LLC ("HFMC") to serve as the administrator of the LRM Program with respect to each of the Funds, subject to the oversight of the Board. In order to efficiently and effectively administer the LRM Program, HFMC established a Liquidity Risk Oversight Committee.

The LRM Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the assessment and periodic review (no less frequently than annually) of certain factors that influence each Fund's liquidity risk; (2) the classification and periodic review (no less frequently than monthly) of each Fund's investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of "illiquid investments" (as defined under the Liquidity Rule); (4) the determination of a minimum percentage of each Fund's assets that generally will be invested in highly liquid investments ("HLIM"); (5) the periodic review (no less frequently than annually) of the HLIM and the adoption and implementation of policies and procedures for responding to a shortfall of a Fund's highly liquid investments below its HLIM; and (6) periodic reporting to the Board.

At a meeting of the Board held May 11-13, 2021, HFMC provided an annual written report to the Board covering the period from April 1, 2020 through March 31, 2021. The annual report addressed important aspects of the LRM Program, including, but not limited to:

- the operation of the LRM Program (and related policies and procedures utilized in connection with management of the Funds' liquidity risk);
- an assessment of the adequacy and effectiveness of the LRM Program's (and related policies and procedures') implementation;
- the operation, and assessment of the adequacy and effectiveness, of each Fund's HLIM;
- whether the third-party liquidity vendor's ("LRM Program Vendor") processes for determining preliminary liquidity classifications, including the particular methodologies or factors used and metrics analyzed by the LRM Program Vendor, are sufficient under the Liquidity Rule and appropriate in light of each Fund's specific circumstances; and
- any material changes to the LRM Program.

In addition, HFMC provides a quarterly report on the LRM Program at each quarterly meeting of the Board's Compliance and Risk Oversight Committee. The quarterly report included information regarding the Funds' liquidity as measured by established parameters, a summary of developments within the capital markets that may impact liquidity, and other factors that may impact liquidity. Among other things, HFMC reports any changes to a Fund's HLIM.

From April 1, 2020 through March 31, 2021, HFMC did not increase or reduce the HLIM for any Fund.

Based on its review and assessment, HFMC has concluded that the LRM Program is operating effectively to assess and manage the liquidity risk of each Fund and that the LRM Program has been and continues to be adequately and effectively implemented with respect to each Fund. Because liquidity in the capital markets in which the Funds invest is beyond the control of the Funds, there can be no assurance that the LRM Program will ensure liquidity under all circumstances and does not protect against the risk of loss.

Hartford Domestic Equity Funds

Directors and Officers of each Company (Unaudited)

Each of The Hartford Mutual Funds, Inc. and The Hartford Mutual Funds II, Inc. (each, a "Company") is governed by a Board of Directors (the "Directors"). The following tables present certain information regarding the Directors and officers of each Company as of October 31, 2021. For more information regarding the Directors and officers, please refer to the Statement of Additional Information, which is available, without charge, upon request by calling 1-888-843-7824.

ALICE A. PELLEGRINO (1960)	Vice President and Assistant Secretary	Since 2016	Ms. Pellegrino serves as Vice President of HFMG (since December 2013). Ms. Pellegrino also serves as Vice President and Assistant Secretary of Lattice (since June 2017). Ms. Pellegrino is a Senior Counsel and has served in various positions within The Hartford and its subsidiaries in connection with the operation of the Hartford funds. Ms. Pellegrino joined The Hartford in 2007.	N/A	N/A
THOMAS R. PHILLIPS (1960)	Vice President and Secretary	Since 2017	Mr. Phillips is Deputy General Counsel for HFMG and currently serves as a Senior Vice President (since June 2021) and Assistant Secretary (since June 2017) for HFMG. Mr. Phillips also serves as Vice President of HFMC (since June 2021). Prior to joining HFMG in 2017, Mr. Phillips was a Director and Chief Legal Officer of Saturna Capital Corporation from 2014–2016. Prior to that, Mr. Phillips was a Partner and Deputy General Counsel of Lord, Abbett & Co. LLC.	N/A	N/A

Hartford Domestic Equity Funds

Directors and Officers of each Company (Unaudited) – (continued)

- ⁽¹⁾ The address for each officer and Director is c/o Hartford Funds 690 Lee Road, Wayne, Pennsylvania 19087.
- ⁽²⁾ Term of Office: Each Director holds an indefinite term until his or her retirement, resignation, removal, or death. Directors generally must retire no later than December 31 of the year in which the Director turns 75 years of age. Each Fund officer generally serves until his or her resignation, removal, or death.
- ⁽³⁾ The portfolios of the "Fund Complex" are operational series of The Hartford Mutual Funds, Inc., The Hartford Mutual Funds II, Inc., Hartford Series Fund, Inc., Hartford HLS Series Fund II, Inc., Lattice Strategies Trust, and Hartford Funds Exchange-Traded Trust.
- ⁽⁴⁾ Effective as of December 31, 2021, Messrs. Birdsong and Senbet will retire as Directors.
- ⁽⁵⁾ Mr. Birdsong will retire effective December 31, 2021. Anticipating Mr. Birdsong's retirement, the Board has elected Christine R. Detrick to serve as Chair of the Board effective November 4, 2021. Accordingly, effective November 4, 2021, Mr. Birdsong will no longer serve as Chair of the Board. Effective November 5, 2021, Ms. Detrick also will serve as a Director of Capital One Financial Corporation.
- ⁽⁶⁾ "Interested person," as defined in the 1940 Act, of each Company because of the person's affiliation with, or equity ownership of, HFMC, HFD or affiliated companies.

HOW TO OBTAIN A COPY OF EACH FUND'S PROXY VOTING POLICIES AND VOTING RECORDS (UNAUDITED)

A description of the policies and procedures that each Fund uses to determine how to vote proxies relating to portfolio securities and information about how each Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 are available (1) without charge, upon request, by calling 888-843-7824 and (2) on the SEC's website at <http://www.sec.gov>.

QUARTERLY PORTFOLIO HOLDINGS INFORMATION (UNAUDITED)

Each Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Each Fund's portfolio holdings filed as an exhibit to Form N-PORT for the most recent first and third quarter of the Fund's fiscal year are available (1) without charge, upon request, by calling 888-843-7824, (2) on the Funds' website, hartfordfunds.com, and (3) on the SEC's website at <http://www.sec.gov>.

Hartford Small Cap Value Fund
The Hartford Small Company Fund

(each, a “Fund” and collectively, the “Funds”)

Section 15(c) of the Investment Company Act of 1940, as amended (the “1940 Act”), requires that each mutual fund’s board of directors, including a majority of those directors who are not “interested persons” of the mutual fund, as defined in the 1940 Act (the “Independent Directors”), annually review and consider the continuation of the mutual fund’s investment advisory and sub-advisory agreements. At their meeting held on August 3-4, 2021, the Boards of Directors (collectively, the “Board”) of The Hartford Mutual Funds, Inc. (“HMF”) and The Hartford Mutual Funds II, Inc. (“HMF II”), including each of the Independent Directors, unanimously voted to approve (i) the continuation of an investment management agreement by and between Hartford Funds Management Company, LLC (“HFMC”) and each of HMF, on behalf of each of The Hartford Capital Appreciation Fund, Hartford Core Equity Fund, The Hartford Dividend and Growth Fund, The Hartford Equity Income Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund and Hartford Small Cap Value Fund, and HMF II, on behalf of each of The Hartford Growth Opportunities Fund, Hartford Quality Value Fund and The Hartford Small Cap Growth Fund (the “Management Agreement”); (ii) the continuation of a separate investment management agreement by and between HFMC and HMF, on behalf of each of The Hartford Healthcare Fund and The Hartford Small Company Fund (the “2013 Investment Management Agreement” and together with the Management Agreement, the “Management Agreements”); and (iii) the continuation of investment sub-advisory agreements (each, a “Sub-Advisory Agreement” and together with the Management Agreements, the “Agreements”) between HFMC and each Fund’s sub-adviser, Wellington Management Company LLP (the “Sub-adviser,” and together with HFMC, the “Advisers”), with respect to each Fund.

In the months preceding the August 3-4, 2021 meeting, the Board requested and reviewed written responses from the Advisers to questions posed to the Advisers on behalf of the Independent Directors and supporting materials relating to those questions and responses. In addition, the Board considered such additional information as it deemed reasonably necessary to evaluate the Agreements, as applicable, with respect to each Fund, which included information furnished to the Board and its committees at their meetings throughout the year and in between regularly scheduled meetings on particular matters as the need arose, as well as information specifically prepared in connection with the approval of the continuation of the Agreements that was presented at the Board’s meetings held on June 15-16, 2021 and August 3-4, 2021. Information provided to the Board and its committees at their meetings throughout the year included, among other things, reports on Fund performance, legal, compliance and risk management matters, sales and marketing activity, shareholder services, and the other services provided to each Fund by the Advisers and their affiliates. The members of the Board also considered the materials and presentations by Fund officers and representatives of HFMC received at the Board’s meetings on June 15-16, 2021 and August 3-4, 2021 concerning the Agreements and at the special meeting of the Board’s Investment Committee on May 18, 2021 concerning Fund performance and other investment-related matters.

The Independent Directors, advised by independent legal counsel throughout the evaluation process, engaged service providers to assist them with evaluating the Agreements with respect to each Fund, as applicable. Broadridge Financial Solutions, Inc. (“Broadridge”), an independent provider of investment company data, was retained to provide the Board with reports on how each Fund’s contractual management fees, actual management fees, total expense ratios and investment performance compared to those of comparable mutual funds with similar investment objectives. The Independent Directors also engaged an independent financial services consultant (the “Consultant”) to assist them in evaluating each Fund’s contractual management fees, actual management fees, total expense ratios and investment performance. In addition, the Consultant reviewed the profitability methodologies utilized by HFMC in connection with the continuation of the Management Agreements.

In determining whether to approve the continuation of the Agreements for a Fund, the members of the Board reviewed and evaluated information and factors they believed to be relevant and appropriate through the exercise of their reasonable business judgment. While individual members of the Board may have weighed certain factors differently, the Board’s determination to approve the continuation of the Agreements was based on a

Hartford Domestic Equity Funds

Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)

comprehensive consideration of all information provided to the Board throughout the year and specifically with respect to the continuation of the Agreements. The Board was also furnished with an analysis of its fiduciary obligations in connection with its evaluation of the Agreements. Throughout the evaluation process, the Board was assisted by counsel for the Funds and the Independent Directors were also separately assisted by independent legal counsel. In connection with their deliberations, the Independent Directors met separately with independent legal counsel and the Consultant on June 11, 2021 and in executive session on several occasions to consider their responsibilities under relevant laws and regulations and to discuss the materials presented and other matters deemed relevant to their consideration of the approval of the continuation of the Agreements. As a result of the discussions that occurred during the June 11, 2021 and June 15-16, 2021 meetings, the Independent Directors presented HFMC with requests for additional information on certain topics. HFMC responded to these requests with additional information in connection with the August 3-4, 2021 meeting. A more detailed summary of the important, but not necessarily all, factors the Board considered with respect to its approval of the continuation of the Agreements is provided below.

Nature, Extent and Quality of Services Provided by the Advisers

The Board requested and considered information concerning the nature, extent and quality of the services provided to each Fund by the Advisers. The Board considered, among other things, the terms of the Agreements and the range of services provided by the Advisers. The Board considered the Advisers' professional personnel who provide services to the Funds, including each Adviser's ability and experience in attracting and retaining qualified personnel to service the Funds. The Board considered each Adviser's reputation and overall financial strength, as well as each Adviser's willingness to consider and implement organizational and operational changes designed to enhance services to the funds managed by HFMC and its affiliates (the "Hartford funds"). In addition, the Board considered the quality of each Adviser's communications with the Board and responsiveness to Board inquiries and requests made from time to time with respect to the Funds and other Hartford funds. In this regard, the Board took into account the Advisers' communications with the Board in light of the coronavirus ("COVID-19") pandemic.

The Board also requested and evaluated information concerning each Adviser's regulatory and compliance environment. In this regard, the Board requested and reviewed information about each Adviser's compliance policies and procedures and compliance history, and a report from the Funds' Chief Compliance Officer about each Adviser's compliance with applicable laws and regulations, including responses to regulatory developments and any compliance or other issues raised by regulators. The Board also noted the Advisers' support of the Funds' compliance control structure, as applicable, including the resources devoted by the Advisers in support of the Funds' obligations pursuant to Rule 38a-1 under the 1940 Act and the Funds' liquidity risk management program, as well as the efforts of the Advisers to combat cybersecurity risks. The Board also considered HFMC's investments in business continuity planning designed to benefit the Funds, and the implementation of HFMC's business continuity plans due to the COVID-19 pandemic. The Board also noted HFMC's commitment to maintaining high quality systems and expending substantial resources to prepare for and respond to ongoing changes to the market, regulatory and control environments in which the Funds and their service providers operate, including changes associated with the COVID-19 pandemic.

With respect to HFMC, the Board noted that, under the Management Agreements, HFMC is responsible for the management of the Funds, including oversight of fund operations and service providers, and the provision of administrative and investment advisory services in connection with selecting, monitoring and supervising the Sub-adviser. In this regard, the Board evaluated information about the nature and extent of responsibilities retained and risks assumed by HFMC that were not delegated to or assumed by the Sub-adviser. The Board considered HFMC's ongoing monitoring of people, process and performance, including its quarterly reviews of each of the Hartford funds, semi-annual meetings with the leaders of each Fund's portfolio management team, and oversight of the Hartford funds' portfolio managers. The Board noted that HFMC has demonstrated a record of initiating changes to the portfolio management and/or investment strategies of the Hartford funds when warranted. The Board considered HFMC's periodic due diligence reviews of the Sub-adviser and ongoing oversight of the Sub-adviser's investment approach and results, process for monitoring best execution of portfolio trades and other trading operations by the Sub-adviser, and approach to risk management with respect to the Funds and the service providers to the Funds. The Board considered HFMC's oversight of the securities lending program for the Funds that engage in securities lending and noted the income earned by the Funds that participate in such program. The Board also considered HFMC's day-to-day oversight of each Fund's compliance with its investment objective and policies as well as with applicable laws and regulations, noting that regulatory and other developments had over time led to an increase in the scope of HFMC's oversight in this regard. Moreover, the Board considered HFMC's oversight of potential conflicts of interest between the Funds' investments and those of other funds or accounts managed by the Funds' portfolio management personnel.

In addition, the Board considered HFMC's ongoing commitment to review and rationalize the Hartford funds product line-up. The Board also considered the expenses that HFMC had incurred, as well as the risks HFMC had assumed, in connection with the launch of new funds and changes to existing Hartford funds in recent years. The Board considered that HFMC is responsible for providing the Funds' officers.

Hartford Domestic Equity Funds

Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)

With respect to the Sub-adviser, which provides certain day-to-day portfolio management services for the Funds, subject to oversight by HFMC, the Board considered, among other things, the Sub-adviser's investment personnel, investment philosophy and process, investment research capabilities and resources, performance record, trade execution capabilities and experience, including with respect to sustainable investing and environmental, social and/or governance (ESG) criteria. The Board considered the experience of each Fund's portfolio manager(s), the number of accounts managed by the portfolio manager(s), and the Sub-adviser's method for compensating the portfolio manager(s). The Board also considered the Sub-adviser's succession planning practices to ensure continuity of portfolio management services provided to the Funds.

The Board considered the benefits to shareholders of being part of the family of Hartford funds, including, with respect to certain share classes, the right to exchange investments between the same class of shares without a sales charge, the ability to reinvest Fund dividends into other Hartford funds (excluding the Hartford funds that are exchange-traded funds or an interval fund), and the ability to combine holdings in a Fund with holdings in other Hartford funds (excluding the Hartford funds that are exchange-traded funds or an interval fund) and 529 plans for which HFMC serves as the program manager to obtain a reduced sales charge. The Board considered HFMC's efforts to provide investors in the Hartford funds with a broad range of investment styles and asset classes and the assumption of entrepreneurial and other risks by HFMC in sponsoring and providing ongoing services to new funds to expand these opportunities for shareholders. In addition, the Board observed that in the marketplace there are a range of investment options available to each Fund's shareholders and such shareholders, having had the opportunity to consider other investment options, have chosen to invest in the Fund.

Based on these considerations, the Board concluded that it was satisfied with the nature, extent and quality of the services provided to each Fund by HFMC and the Sub-adviser.

Performance of each Fund and the Advisers

The Board considered the investment performance of each Fund. In this regard, the Board reviewed the performance of each Fund over different time periods presented in the materials and evaluated HFMC's analysis of the Fund's performance for these time periods. The Board considered information and materials provided to the Board by the Advisers concerning Fund performance, as well as information from Broadridge comparing the investment performance of each Fund to an appropriate universe of peer funds. The Board noted that while it found the comparative data provided by Broadridge generally useful in evaluating a Hartford fund's investment performance, the Board recognized the limitations of such data, including that notable differences may exist between a Hartford fund and its peers. For details regarding each Fund's performance, see the Fund-by-Fund synopsis below.

The Board considered the detailed investment analytics reports provided by HFMC's Investment Advisory Group throughout the year, including in connection with the approval of the continuation of the Agreements. These reports included, among other things, information on each Fund's gross returns and net returns, the Fund's investment performance compared to one or more appropriate benchmarks and relevant groups or categories of peer funds, various statistics concerning the Fund's portfolio, a narrative summary of various factors affecting Fund performance, and commentary on the effect of market conditions. The Board also noted that, for The Hartford Capital Appreciation Fund, the Fund utilizes a multiple sleeve structure whereby each sleeve uses a different investment style and considered the performance attributions of the underlying managers. The Board considered the Advisers' work with the Investment Committee, which assists the Board in evaluating the performance of each Fund at periodic meetings throughout the year and specifically with respect to the approval of the continuation of the Agreements. The Board considered that the Investment Committee, in its evaluation of investment performance at meetings throughout the year, focused particular attention on information indicating less favorable performance of certain Hartford funds for specific time periods and discussed with the Advisers the reasons for such performance as well as any specific actions that the Advisers had taken, or had agreed to take, to seek to enhance Fund investment performance and the results of those actions. The Board also considered the analysis provided by the Consultant relating to each Fund's performance track record.

Based on these considerations, the Board concluded that it had continued confidence in HFMC's and the Sub-adviser's overall capabilities to manage the Funds.

Costs of the Services and Profitability of the Advisers

The Board reviewed information regarding HFMC's cost to provide investment management and related services to each Fund and HFMC's profitability, both overall and for each Fund, on a pre-tax basis without regard to distribution expenses. The Board also requested and reviewed information about the profitability to HFMC and its affiliates from all services provided to each Fund and all aspects of their relationship with the Fund, including information regarding profitability trends over time and information provided by Broadridge analyzing the profitability of managers to other fund complexes. The Board also requested and received information relating to the operations and profitability of the Sub-adviser. The Board

Hartford Domestic Equity Funds

Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)

considered representations from HFMC and the Sub-adviser that the Sub-adviser's fees were negotiated at arm's length on a Fund-by-Fund basis and that the sub-advisory fees are paid by HFMC and not the Funds. Accordingly, the Board concluded that the profitability of the Sub-adviser is a less relevant factor with respect to the Board's consideration of the Sub-Advisory Agreements.

The Board considered the Consultant's review of the methodologies and estimates used by HFMC in calculating profitability in connection with the continuation of the Management Agreements, including a description of the methodology used to allocate certain expenses. The Board noted the Consultant's view that HFMC's process for calculating and reporting Fund profitability is reasonable and consistent with the process previously reviewed by the Consultant. The Board noted that the Consultant had previously performed a full review of this process and reported that such process is reasonable, sound and consistent with common industry practice.

Based on these considerations, the Board concluded that the profits realized by the Advisers and their affiliates from their relationships with each Fund were not excessive.

Comparison of Fees and Services Provided by the Advisers

The Board considered comparative information with respect to the services rendered to and the management fees to be paid by each Fund to HFMC and the total expense ratios of the Fund. The Board also considered comparative information with respect to the sub-advisory fees to be paid by HFMC to the Sub-adviser with respect to each Fund. In this regard, the Board requested and reviewed information from HFMC and the Sub-adviser relating to the management and sub-advisory fees, including the sub-advisory fee schedule for each Fund and the amount of the management fee retained by HFMC, and total operating expenses for each Fund. The Board also reviewed information from Broadridge comparing each Fund's contractual management fees, actual management fees and total expense ratios relative to an appropriate group of funds selected by Broadridge. The Board considered such information from Broadridge in consultation with the Consultant. For details regarding each Fund's expenses, see the Fund-by-Fund synopsis below.

The Board considered the methodology used by Broadridge to select the funds included in the expense groups. While the Board recognized that comparisons between a Fund and its peer funds may be imprecise given, among other differences, the different service levels and characteristics of mutual funds and the different business models and cost structures of the Advisers, the comparative information provided by Broadridge assisted the Board in evaluating the reasonableness of each Fund's fees and total operating expenses. In addition, the Board considered the analysis and views of the Consultant relating to each Fund's fees and total operating expenses and expense groups.

The Board also considered that HFMC provides nondiscretionary investment advisory services to model portfolios that pursue investment objectives and investment strategies similar to those of the Hartford Core Equity Fund and The Hartford Dividend and Growth Fund. The Board also received information regarding fees charged by the Sub-adviser to any other clients with investment strategies similar to those of the Funds, including institutional separate account clients and registered fund clients for which the Sub-adviser serves as either primary investment adviser or sub-adviser. The Board considered the explanations provided by the Sub-adviser about any differences between the Sub-adviser's services to the Funds and the services the Sub-adviser provides to other types of clients. In this regard, the Board reviewed information about the generally broader scope of services and compliance, reporting and other legal burdens and risks of managing registered funds compared with those associated with managing assets of non-registered fund clients such as institutional separate accounts.

Based on these considerations, the Board concluded that each Fund's fees and total operating expenses, in conjunction with the information about quality of services, profitability, economies of scale, and other matters considered, were reasonable in light of the services provided.

Economies of Scale

The Board considered information regarding economies of scale, including the extent to which economies of scale may be realized as a Fund grows and whether fee levels reflect these economies of scale for the benefit of shareholders of the Fund. The Board reviewed the breakpoints in the management fee schedule for each Fund, if any, which reduce fee rates as the Fund's assets grow over time. The Board recognized that a Fund with assets beyond the highest breakpoint level will continue to benefit from economies of scale because additional assets are charged the lowest breakpoint fee resulting in lower effective management fee rates. The Board also recognized that a fee schedule that reaches a breakpoint at a lower asset level provides shareholders with the benefit of anticipated or potential economies of scale. The Board considered that expense limitations and fee waivers that reduce a Fund's expenses at all asset levels can have the same effect as breakpoints in sharing economies of scale with shareholders and provide protection from an increase in expenses if the Fund's assets decline. In addition, the Board considered that initially setting competitive fee rates, pricing a Fund to scale at inception and making additional investments intended to enhance services available to shareholders are other

Hartford Domestic Equity Funds

Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)

means of sharing anticipated or potential economies of scale with shareholders. The Board also considered that HFMC has been active in managing expenses, which has resulted in benefits being realized by shareholders. The Board also noted that, for the Hartford Small Cap Value Fund, the Fund's current low asset levels have kept the Fund from fully realizing the benefits of anticipated or potential economies of scale.

The Board reviewed and evaluated materials from Broadridge and the Consultant showing how management fee schedules of peer funds reflect economies of scale for the benefit of shareholders as a peer fund's assets hypothetically increase over time. Based on information provided by HFMC, Broadridge, and the Consultant, the Board recognized that there is no uniform methodology for establishing breakpoints or uniform pattern in asset levels that trigger breakpoints or the amounts of breakpoints triggered.

After considering all of the information available to it, the Board concluded that it was satisfied with the extent to which economies of scale would be shared for the benefit of each Fund's shareholders based on currently available information and the effective management fees and total expense ratios for the Fund at its current and reasonably anticipated asset levels. The Board noted, however, that it would continue to monitor any future growth in each Fund's assets and the appropriateness of additional management fee breakpoints or other methods to share benefits from economies of scale as part of its future review of the Agreements.

Other Benefits

The Board considered other benefits to the Advisers and their affiliates from their relationships with the Funds.

The Board noted that HFMC receives fees for fund accounting and related services from the Funds, and the Board considered information on the profitability to HFMC from providing such services to the Funds. The Board also considered that each Fund pays a transfer agency fee to Hartford Administrative Services Company ("HASCO"), an affiliate of HFMC, equal to the lesser of: (i) the actual costs incurred by HASCO in connection with the provisions of transfer agency services, including payments made to sub-transfer agents, plus a reasonable target profit margin; or (ii) a specified amount as set forth in the Transfer Agency and Service Agreement by and between HMF and HMF II, on behalf of their respective Funds, and HASCO. The Board reviewed information about the profitability to HASCO of the Funds' transfer agency function. The Board considered information provided by HFMC indicating that the transfer agency fees charged by HASCO to the Funds were fair and reasonable based on available industry data about fees charged by transfer agents to other mutual funds. The Board also noted that HFMC and HASCO had delegated certain fund accounting services and transfer agency services, respectively, to external service providers.

The Board also considered that Hartford Funds Distributors, LLC ("HFD"), an affiliate of HFMC, serves as principal underwriter of the Funds. The Board noted that, as principal underwriter, HFD receives distribution and service fees from the Funds and receives all or a portion of the sales charges on sales or redemptions of certain classes of shares.

The Board considered the benefits, if any, to the Sub-adviser from any use of a Fund's brokerage commissions to obtain soft dollar research.

Fund-by-Fund Factors

For purposes of the Fund-by-Fund discussion below, Fund performance is referred to as "in line with" a Fund's benchmark where it was 0.5% above or below the benchmark return, and each Fund's performance relative to its primary benchmark reflects the net performance of the Fund's Class I shares as of March 31, 2021.

The Hartford Capital Appreciation Fund

- The Board noted that the Fund's performance was in the 3rd quintile of its performance universe for the 1-year period, and the 2nd quintile for the 3- and 5-year periods. The Board also noted that the Fund's performance was below its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 4th quintile and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile.

Hartford Core Equity Fund

- The Board noted that the Fund's performance was in the 4th quintile of its performance universe for the 1-year period, the 2nd quintile for the 3-year period, and the 3rd quintile for the 5-year period. The Board also noted that the Fund's performance was below its benchmark for the 1-year period and in line with its benchmark for the 3- and 5-year periods.

Hartford Domestic Equity Funds

Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)

- The Board noted that the Fund's contractual management fee, actual management fee, and total expenses (less 12b-1 and shareholder service fees) were in the 1st quintile of its expense group. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.08% through February 28, 2022, which resulted in HFMC reimbursing the Fund for certain expenses.

The Hartford Dividend and Growth Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1- and 3-year periods and the 1st quintile for the 5-year period. The Board also noted that the Fund's performance was below its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 4th quintile of its expense group, while its actual management fee and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.04% through February 28, 2022, which resulted in HFMC reimbursing the Fund for certain expenses.

The Hartford Equity Income Fund

- The Board noted that the Fund's performance was in the 4th quintile of its performance universe for the 1-year period and the 3rd quintile for the 3- and 5-year periods. The Board also noted that the Fund's performance was below its benchmark for the 1-year period and in line with its benchmark for the 3- and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 4th quintile of its expense group, while its actual management fee and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile.

The Hartford Growth Opportunities Fund

- The Board noted that the Fund's performance was in the 1st quintile of its performance universe for the 1-, 3-, and 5-year periods. The Board also noted that the Fund's performance was above its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 4th quintile of its expense group, while its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile.

The Hartford Healthcare Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1-, 3-, and 5-year periods. The Board also noted that the Fund's performance was above its benchmark for the 1-, 3-, and 5-year periods. The Board noted recent and upcoming changes to the Fund's portfolio management team.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 4th quintile of its expense group, while its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile.

The Hartford MidCap Fund

- The Board noted that the Fund's performance was in the 3rd quintile of its performance universe for the 1-year period, the 5th quintile for the 3-year period, and the 4th quintile for the 5-year period. The Board also noted that the Fund's performance was below its benchmark for the 1-year period and above its benchmark for the 3- and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 4th quintile of its expense group, while its actual management fee and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class I and Y shares of the Fund have contractual transfer agency expense caps of 0.12% and 0.04%, respectively, through February 28, 2022.

The Hartford MidCap Value Fund

- The Board noted that the Fund's performance was in the 5th quintile of its performance universe for the 1-year period and the 3rd quintile for the 3- and 5-year periods. The Board also noted that the Fund's performance was below its benchmark for the 1-, 3-, and 5-year periods.

Hartford Domestic Equity Funds

Approval of Investment Management and Investment Sub-Advisory Agreements (Unaudited) – (continued)

- The Board noted that the Fund's contractual management fee was in the 1st quintile of its expense group, while its actual management fee was in the 3rd quintile and its total expenses (less 12b-1 and shareholder service fees) were in the 5th quintile.

Hartford Quality Value Fund

- The Board noted that the Fund's performance was in the 4th quintile of its performance universe for the 1-year period and the 3rd quintile for the 3- and 5-year periods. The Board also noted that the Fund's performance was below its benchmark for the 1-year period and in line with its benchmark for the 3- and 5-year periods.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 1st quintile of its expense group, while its total expenses (less 12b-1 and shareholder service fees) were in the 2nd quintile. The Board noted that Class A shares of the Fund have a contractual expense cap of 0.96% through February 28, 2022, which resulted in HFMC reimbursing the Fund for certain expenses.

The Hartford Small Cap Growth Fund

- The Board noted that the Fund's performance was in the 4th quintile of its performance universe for the 1-, 3-, and 5-year periods. The Board also noted that the Fund's performance was below its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 2nd quintile of its expense group, while its actual management fee was in the 1st quintile of its expense group and its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class Y shares of the Fund have a contractual transfer agency expense cap of 0.06% through February 28, 2022, which resulted in HFMC reimbursing the Fund for certain expenses.

Hartford Small Cap Value Fund

- The Board noted that the Fund's performance was in the 2nd quintile of its performance universe for the 1-, 3-, and 5-year periods. The Board also noted that the Fund's performance was above its benchmark for the 1- and 3-year periods and below its benchmark for the 5-year period.
- The Board noted that the Fund's contractual management fee and actual management fee were in the 1st quintile of its expense group, while its total expenses (less 12b-1 and shareholder service fees) were in the 3rd quintile. The Board noted that Class A shares of the Fund have a contractual expense cap of 1.30% through February 28, 2022, which resulted in HFMC reimbursing the Fund for certain expenses.

The Hartford Small Company Fund

- The Board noted that the Fund's performance was in the 1st quintile of its performance universe for the 1- and 3-year periods and the 2nd quintile for the 5-year period. The Board also noted that the Fund's performance was above its benchmark for the 1-, 3-, and 5-year periods.
- The Board noted that the Fund's contractual management fee was in the 2nd quintile of its expense group, while its actual management fee was in the 3rd quintile and its total expenses (less 12b-1 and shareholder service fees) were in the 4th quintile.

* * * *

Based upon the review of the factors summarized above, among others, the Board concluded that it is in the best interests of each Fund and its shareholders for the Board to approve the continuation of the Agreements for an additional year. In reaching this decision, the Board did not assign relative weights to the factors discussed above or deem any one or group of them to be controlling in and of themselves.

THIS PRIVACY POLICY IS NOT PART OF THIS REPORT

CUSTOMER PRIVACY NOTICE

The Hartford Financial Services Group, Inc. and Affiliates*
(herein called "we, our, and us")

This Privacy Policy applies to our United States Operations

We value your trust. We are committed to the responsible:

- a) management;
 - b) use; and
 - c) protection;
- of **Personal Information**.

This notice describes how we collect, disclose, and protect **Personal Information**.

We collect **Personal Information** to:

- a) service your **Transactions** with us; and
- b) support our business functions.

We may obtain **Personal Information** from:

- a) **You**;
- b) your **Transactions** with us; and
- c) third parties such as a consumer-reporting agency.

Based on the type of product or service **You** apply for or get from us, **Personal Information** such as:

- a) your name;
- b) your address;
- c) your income;
- d) your payment; or
- e) your credit history;

may be gathered from sources such as applications, **Transactions**, and consumer reports.

To serve **You** and service our business, we may share certain **Personal Information**. We will share **Personal Information**, only as allowed by law, with affiliates such as:

- a) our insurance companies;
- b) our employee agents;
- c) our brokerage firms; and
- d) our administrators.

As allowed by law, we may share **Personal Financial Information** with our affiliates to:

- a) market our products; or
 - b) market our services;
- to **You** without providing **You** with an option to prevent these disclosures.

We may also share **Personal Information**, only as allowed by law, with unaffiliated third parties including:

- a) independent agents;
 - b) brokerage firms;
 - c) insurance companies;
 - d) administrators; and
 - e) service providers;
- who help us serve **You** and service our business.

When allowed by law, we may share certain **Personal Financial Information** with other unaffiliated third parties who assist us by performing services or functions such as:

- a) taking surveys;
- b) marketing our products or services; or
- c) offering financial products or services under a joint agreement between us and one or more financial institutions.

We, and third parties we partner with, may track some of the pages **You** visit through the use of:

- a) cookies;
- b) pixel tagging; or
- c) other technologies;

and currently do not process or comply with any web browser's "do not track" signal or other similar mechanism that indicates a request to disable online tracking of individual users who visit our websites or use our services.

For more information, our Online Privacy Policy, which governs information we collect on our website and our affiliate websites, is available at <https://www.thehartford.com/online-privacy-policy>.

We will not sell or share your **Personal Financial Information** with anyone for purposes unrelated to our business functions without offering **You** the opportunity to:

- a) "opt-out;" or
 - b) "opt-in;"
- as required by law.

We only disclose **Personal Health Information** with:

- a) your authorization; or
- b) as otherwise allowed or required by law.

Our employees have access to **Personal Information** in the course of doing their jobs, such as:

- a) underwriting policies;
- b) paying claims;
- c) developing new products; or
- d) advising customers of our products and services.

We use manual and electronic security procedures to maintain:

- a) the confidentiality; and
- b) the integrity of;

Personal Information that we have. We use these procedures to guard against unauthorized access.

Some techniques we use to protect **Personal Information** include:

- a) secured files;
- b) user authentication;
- c) encryption;
- d) firewall technology; and
- e) the use of detection software.

We are responsible for and must:

- a) identify information to be protected;
- b) provide an adequate level of protection for that data; and
- c) grant access to protected data only to those people who must use it in the performance of their job-related duties.

Employees who violate our privacy policies and procedures may be subject to discipline, which may include termination of their employment with us.

We will continue to follow our Privacy Policy regarding **Personal Information** even when a business relationship no longer exists between us.

As used in this Privacy Notice:

Application means your request for our product or service.

Personal Financial Information means financial information such as:

- a) credit history;
- b) income;
- c) financial benefits; or
- d) policy or claim information.

Personal Financial Information may include Social Security Numbers, Driver's license numbers, or other government-issued identification numbers, or credit, debit card, or bank account numbers.

Personal Health Information means health information such as:

- a) your medical records; or
- b) information about your illness, disability or injury.

Personal Information means information that identifies **You** personally and is not otherwise available to the public. It includes:

- a) **Personal Financial Information**; and
- b) **Personal Health Information**.

Transaction means your business dealings with us, such as:

- a) your **Application**;
- b) your request for us to pay a claim; and
- c) your request for us to take an action on your account.

You means an individual who has given us **Personal Information** in conjunction with:

- a) asking about;
 - b) applying for; or
 - c) obtaining;
- a financial product or service from us if the product or service is used mainly for personal, family, or household purposes.

If you have any questions or comments about this privacy notice, please feel free to contact us at The Hartford – Consumer Rights and Privacy Compliance Unit, One Hartford Plaza, Mail Drop: T 04.180, Hartford, CT 06155, or at ConsumerPrivacyInquiriesMailbox@thehartford.com.
