

# Atlanta Capital Select Equity Fund

A quality discipline applied in a high-conviction, flexible portfolio.

## The Fund

A fundamental approach that invests primarily in midcap to large-cap companies, the Fund seeks companies that are in strong financial condition and that management believes are attractively valued relative to earnings and cash flow per share.

## The Approach

Fund seeks to invest in quality companies with a demonstrated history of sustainable earnings growth, strong cash flow and high returns on capital determined by fundamental analysis of a company's financial trends, products and services, and other factors.

## The Features

A high-conviction portfolio that seeks long-term capital growth utilizing fundamental security selection and a flexible portfolio construction process. Management seeks attractively valued, quality companies, because it believes these companies may provide greater downside protection in declining markets.

Relative to the benchmark, the Fund has had lower volatility, positive alpha and lower downside capture.<sup>1</sup>

**Past performance is no guarantee of future results.** Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month-end, please refer to [eatonvance.com](http://eatonvance.com). Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. The minimum investment is \$1,000 for A Shares and \$250,000 for I Shares. Minimums may be waived in certain situations. Please see the prospectus for additional information.

Effective April 29, 2022, the minimum initial investment of Class I shares is increased from \$250,000 to \$1,000,000. The minimum initial investment may be waived in certain situations. Please see the Fund's prospectus for additional information.

<sup>1</sup>Source: Zephyr. Standard deviation measures the historic volatility of a fund. Alpha measures risk-adjusted performance, showing excess return delivered at the same risk level as the benchmark. Downside market capture measures the percentage of the benchmark's returns that was captured by the manager, in periods defined by negative returns for the benchmark. Risk statistics are calculated using quarterly returns. <sup>2</sup>Source: Fund prospectus. <sup>3</sup>Russell 1000<sup>®</sup> Index is an unmanaged index of 1,000 U.S. large-cap stocks. **About Risk:** The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Smaller companies are generally subject to greater price fluctuations, limited liquidity, higher transaction costs and higher investment risk than larger, more established companies. A nondiversified fund may be subject to greater risk by investing in a smaller number of investments than a diversified fund. Investments in foreign instruments or currencies can involve greater risk and volatility than U.S. investments because of adverse market, economic, political, regulatory, geopolitical, currency exchange rates or other conditions. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.
