Growth of a \$10,000 Investment¹

A hypothetical \$10,000 investment in the fund's Class A shares on 8/10/92 would have been worth \$119,231 on 3/31/22.

This does not reflect the 5.75% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.
