Class W	IWEDX	92913K736	06/01/2009

Summary	
Total Net Assets (\$ millions)	\$770.1
Number of Holdings	63
Distribution Frequency	Quarterly
Morningstar Category	Large Value

¹ Out of 1192 peers.

Fund Highlights

Focus on Excess Capital Yield

Focus on the source of capital return (excess capital), rather than return itself (i.e. dividends)

Dynamic Valuation Discipline

Utilize dynamic valuation measures analyzed relative to peer group and normalized to account for stock's historical value and volatility

Alpha Not Dominated by One Factor Regime or Macro Driver

Minimize unwanted factor exposure and focus on stock selection to help deliver alpha above style beta

Investment Objective

The Fund seeks long-term growth of capital and current income.

An investor should consider the investment objectives, risks, charges and expenses of the Fund(s) carefully before investing. For a free copy of the Fund's prospectus, or summary prospectus, which contains this and other information, visit us at www.voyainvestments.com or call (800) 992-0180. Please read the prospectus carefully before investing.

² The Adviser has contractually agreed to limit expenses of the Fund. This expense limitation agreement excludes interest, taxes, investment-related costs, leverage expenses, and extraordinary expenses and may be subject to possible recoupment. Please see the Fund's prospectus for more information. The expense limits will continue through at least 2022-10-01. Expenses are being waived to the contractual cap.

³ Includes maximum 5.75% sales charge.

⁴ Class R6 Inception 05/31/2013. Historical performance shown for Class R6 shares reflects the historical performance of Class A shares for those periods prior to the inception date of Class R6 (represented by italicized text). Historical performance of Class R6 shares likely would have been different based on difference in share class expense ratios.

⁵ Russell 1000 Value Index

⁶ Returns-Based Characteristics are shown for Class I shares only based on 10-yr returns. For definitions, see Glossary of Terms.

Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of the period and a sale at net asset value at the end of the period; and assumes reinvestment of dividends, capital gain distribution and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Net asset value equals total Fund assets net of Fund expenses such as operating costs and management fees. Total investment return at net asset value is not annualized for periods less than one year. Performance does not account for taxes. Returns for other share classes vary due to different charges and expenses.

Disclosures

⁵ The **Russell 1000 Value Index** is an unmanaged index that measures the performance of those Russell 1000 companies with lower price-to-book ratios and lower forecasted growth values. The Index does not reflect fees, brokerage commissions, taxes or other expenses of investing. **Investors cannot directly invest in an index.**

Due to rounding, numbers presented may not add up to 100% and percentages may not precisely reflect the absolute figures.

The strategy discussed may be available to you as part of your employer sponsored retirement plan. There may be additional plan level fees resulting in personal performance that varies from stated performance. Please call your benefits office for more information.

Investment Risks: All investing involves risks of fluctuating prices and the uncertainties of rates of return and yield inherent in investing. An investment in securities of **Larger Companies** carries with it the risk that the company (and its earnings) may grow more slowly than the economy as a whole or not at all. **Value Investing** Securities that appear to be undervalued may never appreciate to the extent expected and are generally more sensitive to changing economic conditions, **Foreign Investing** does pose special risks including currency fluctuation,

economic and political risks not found in investments that are solely domestic. The risks of Emerging Markets securities may be intensified. Because the Fund may invest in **Other Investment Companies**, you may pay a proportionate share of the expenses of that other investment company, in addition to the expenses of the Fund. Other risks of the Fund include but are not limited to: **Company, Convertible Securities; Dividend Risks; Interest Rate, Investment Model, Market Trends; Inability to Sell Securities; Real Estate Companies and Real Estate Investment Trusts ("REITs") and Securities Lending Risks. Investors should consult the Fund's Prospectus and Statement of Additional Information for a more detailed discussion of the Fund's risks.**

The strategy employs a quantitative model to execute the strategy. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect performance. Furthermore, there can be no assurance that the quantitative models used in managing the strategy will perform as anticipated or enable the strategy to achieve its objective.

Glossary of Terms: **Alpha** measures the difference between a fund's actual return and its level of risk as measured by beta. **Beta** measures

the Fund's volatility relative to the overall market. **EPS Growth (3-5 Year Estimate)** is the portion of a company's profit allocated to each outstanding share of common stock. **Information Ratio** measures the returns above the returns of a benchmark to the volatility of those returns. **Price to Book (trailing 12 months)** calculates the ratio of a stock's price to its book value. **Price to Cash Flow** is the ratio of a stock's price to its cash flow per share. **Price to Earnings (next 12 months)** calculates the price of a stock divided by its earnings per share. **R-Squared** is the way in which a percentage of a portfolio's total returns represents the portfolio's beta measure. **ROA** is an indicator of how profitable a company is relative to its total assets. **Sharpe Ratio** is a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. **Standard Deviation** is a measure of the degree to which an individual probability value varies from the distribution mean. **Tracking Error** measures the difference between the return fluctuations of a portfolio and the benchmark. **Weighted Average Market Capitalization** is the value of a corporation as determined by the market price of its issued and outstanding common stock.

51-75	Third Quartile
76-100	Bottom Quartile

Fi360 Fiduciary Score[®]

The Fi360 Fiduciary Score[®] is a peer percentile ranking of an investment against a set of quantitative due diligence criteria indicative of prudent fiduciary management. Each investment is evaluated against nine individual factors and thresholds, with points allotted if it fails a particular criterion. Investments with 0 points are automatically given an Fi360 Fiduciary Score[®] of 0. Every other investment is given a Score of 1-100 representing their percentile ranking. The lower the Score, the better. The Fi360 Fiduciary Score[®] should not be used as the sole source of information in an investment decision. Visit Fi360.com/Fi360-Fiduciary-Score for the complete methodology document.
