PGIM JENNISON SMALL COMPANY FUND

A: PGOAX C: PSCCX Z: PSCZX R6: PJSQX R4: PSCJX R2: PSCHX

STYLE

Small Blend

Seeks long-term capital growth by investing in stocks of smaller companies that may be underpriced by the market and have above average growth prospects. This Fund may be right for those with a portfolio heavy in large cap stocks and would like to add diversification through broad exposure to the small-and-mid-cap market.

Past performance does not guarantee future results. Graph and CYP do not include the effects of sales charges and reflect reinvestment of all distributions. If sales charges were included, returns would have been lower. Holdings/allocation may vary. Largest holdings excludes cash, cash equivalents, money market funds and enhanced cash strategies. Totals may not sum due to rounding. This is not a recommendation to buy or sell any security listed.

Companies classified by Jennison Associates LLC are not sponsored by the S&P/MSCI GICS classification system). All other data from PGIM, Inc. (PGIM). **Total return** describes the return to the investor after net operating expenses but before any sales charges are imposed. **SEC standardized return** describes the return to the investor after net operating expenses and maximum sales charges are imposed. All returns assume share price changes as well as the compounding effect of reinvested dividends and capital gains. Returns may reflect fee waivers and/or expense reimbursements. Without such, returns would be lower. All returns 1-year or less are cumulative. Class R2 shares and Class R4 shares are only offered for sale to group retirement plans available through a retirement recordkeeper or third party administrator. Class R6 and Z shares may be available to group retirement plans and institutional investors through certain retirement, mutual fund wrap and asset allocation programs. They may also be available to institutional investors. Class Z shares may be available through fee- or commission-based retail brokerage programs of certain financial intermediaries. Class A, C, and Z shares are generally closed to new retirement plans. Please see the prospectus for additional information about fees, expenses, and investor eligibility. All data is unaudited and subject to change.

Enhanced cash strategies are variations on traditional money market vehicles. They are designed to provide liquidity and principal preservation, but with more of an emphasis on seeking returns that are superior to those of traditional money market offerings. **Average weighted market cap** is the average market capitalization of stocks in a fund, each weighted by its proportion of assets. **Beta** measures a fund's sensitivity to changes in the overall market relative to its benchmark. The **P/E Ratio** (Source: Morningstar, Inc.) relates the price of a stock to the per-share earnings of the company. P/E is calculated using a harmonic weighted average, which excludes outliers that can easily skew results. **Standard deviation** depicts how widely returns vary around its average and is used to understand the range of returns most likely for a given fund. A higher standard deviation generally implies greater volatility. **Turnover Ratio** is the rate of trading in a portfolio, higher values imply more frequent trading. Due to data availability, statistics may not be as of the current reporting period.
