Daily Small Cap Bull and Bear 3X Shares

Overview

The Direxion Daily Small Cap Bull and Bear 3X Shares seek the daily investment results, before fees and expenses, of 300%, or 300% of the inverse (or opposite), of the performance of the Russell 2000® Index. **There is no guarantee the funds will meet their stated investment objectives.**

These leveraged ETFs seek a return that is 300% or -300% of the return of their benchmark index **for a single day. The funds should not be expected to provide three times or negative three times the return of the benchmark's cumulative return for periods greater than a day.**

Target Index

The Russell 2000® Index (RU20INTR) measures the performance of approximately 2,000 small-capitalization companies in the Russell 3000® Index, based on a combination of their market capitalization. **One cannot directly invest in an index.**

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.

*The Net Expense Ratio includes management fees, other operating expenses and Acquired Fund Fees and Expenses. If Acquired Fund Fees and Expenses were excluded, the Net Expense Ratio would be .91% for TNA and .94% for TZA. The Fund's adviser, Rafferty Asset Management, LLC ("Rafferty") has entered into an Operating Expense Limitation Agreement with the Fund. Under the Operating Expense Limitation Agreement, Rafferty has contractually agreed to waive all or a portion of its management fee and/or reimburse the Fund for Other Expenses through September 1, 2023, to the extent that the Fund's Total Annual Fund Operating Expenses exceed .95% of the Fund's average daily net assets (excluding, as applicable, among other expenses, taxes, swap financing and related costs, acquired fund fees and expenses, dividends or interest on short positions, other interest expenses, brokerage commissions and extraordinary expenses). If these expenses were included, the expense ratio would be higher.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the funds' website at direxion.com.

Short-term performance, in particular, is not a good indication of a fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Shares Risks – An investment in each Fund involves risk, including the possible loss of principal. Each Fund is non-diversified and includes risks associated with the Funds' concentrating their investments in a particular industry, sector, or geographic region which can result in increased volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. Risks of each Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Other Investment Companies (including ETFs) Risk, and risks specific to investment in micro-cap, small- and/or mid-capitalization securities. Investing in micro-capitalization companies are significantly more volatile as they face greater risk of business failure than companies considered small and/or mid-capitalization companies. Investing in small and/or mid-capitalization securities involves greater risks and the possibility of greater price volatility than investing in larger, more-established companies. Additional risks include, for the Direxion Daily Small Cap Bull 3X Shares, Daily Index Correlation Risk, and for the Direxion Daily Small Cap Bear 3X Shares, Daily Inverse Index Correlation Risk, and risks related to Shorting and Cash Transactions. Please see the summary and full prospectuses for a more complete description of these and other risks of each Fund.
