

Eaton Vance Focused Global Opportunities Fund

A high-conviction approach to global investing.

The Fund

Offering a more concentrated approach to global investing, the Fund seeks to achieve long-term capital appreciation by investing in a portfolio of approximately 25-40 stocks that management believes are high in quality or improving in quality.

The Approach

The Fund's core investment approach utilizes a bottom-up process to identify stocks through fundamental research. The Fund invests in companies that management believes have strong business franchises, but whose value is not fully reflected in its share price. Desired characteristics include a high return on invested capital, shareholder-friendly management and/or sustainable competitive advantages.

The Features

Investors have access to a Fund that emphasizes management's highest-confidence global ideas. A conviction-weighted portfolio amplifies the impact (positive or negative) of stock selection decisions on performance, yet provides managers the flexibility to maintain issuer, industry and geographic diversification. Additionally, the Fund's focus on valuation and quality companies may help dampen volatility in down markets.

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month-end, please refer to eatonvance.com. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. The minimum investment is \$1,000,000 for I Shares. Minimums may be waived in certain situations. Please see the prospectus for additional information.

RISK CONSIDERATIONS The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Investments in foreign instruments or currencies can involve greater risk and volatility than U.S. investments because of adverse market, economic, political, regulatory, geopolitical, currency exchange rates or other conditions. In emerging countries, these risks may be more significant. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry including REITs. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.
