

Calvert Emerging Markets Equity Fund¹

Fund Overview

The Fund normally invests at least 80% of its assets in equity securities of companies located in emerging market countries, seeking those whose products/services or industrial/business practices contribute towards addressing sustainability challenges in their local and/or international markets.

Research Process

The Fund's portfolio managers look for quality companies with promising business models and build a high conviction portfolio which has historically held between 35-55 stocks. The managers are stock pickers, not sector allocators, who emphasize long-term potential and quality companies (strong balance sheets, profitability, good cash flow) trading at attractive valuations. They seek to take advantage of market inefficiencies and emphasize countries supportive of economic/corporate growth.

Calvert Leadership

Calvert Research and Management is a recognized leader in Responsible Investing, offering investment strategies that seek superior long-term performance and positive global impact. The Calvert Emerging Markets Equity Fund is subadvised by Federated Hermes who seeks to deliver superior, sustainable, risk-adjusted returns - responsibly.

RISK CONSIDERATIONS: The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Investments in foreign instruments or currencies can involve greater risk and volatility than U.S. investments because of adverse market, economic, political, regulatory, geopolitical, currency exchange rates or other conditions. In emerging countries, these risks may be more significant. Investing primarily in responsible investments carries the risk that, under certain market conditions, the Fund may underperform funds that do not utilize a responsible investment strategy. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.

Portfolio characteristics exclude 1 security in Calvert's High Impact Investments program, which represented 0.177% of the portfolio as of 06/30/2022. High Social Impact Investments are investments that, in the Adviser's opinion, offer the opportunity for significant sustainability and social impact. These investments are generally illiquid and involve high risks. See the Fund's prospectus for details and calvert.com for a complete list of Fund holdings.

Calvert funds are available at NAV for RIAs and Wrap Programs. Not all share classes are available to all investors. See a fund's prospectus for details.
