

Calvert Small-Cap Fund

Fund Overview

The Fund normally invests at least 80% of its assets in U.S. small-cap stocks (Russell 2000® Index) using a strategy focused primarily on fundamental research, including the consideration of responsible investing criteria. Broad issuer and industry diversification are also emphasized.

Research Process

The process combines a disciplined analysis of environmental, social, and governance (ESG) factors with deep fundamental research to identify companies that, in our opinion, are high in quality or improving in quality. Such companies typically exhibit high or improving returns on capital, strong free-cash-flow generation, and positive or inflecting earnings. The portfolio managers also employ a disciplined valuation framework in pursuit of attractive risk adjusted returns.

Calvert Leadership

Calvert Research and Management is a recognized leader in Responsible Investing, offering investment strategies that seek superior long-term performance and positive global impact. The Calvert Principles for Responsible Investment (Calvert Principles) provide a framework for the evaluation of ESG factors and guide our active engagement efforts with company managements.

Impact*

The following compares the impact of the holdings in this Calvert fund to the Russell 2000® Index across these important ESG factors:

Fossil fuel reserves⁴		Fund holdings had 100% lower fossil fuel reserves than the Russell 2000® Index
Carbon emissions⁴		Fund holdings had 72% lower carbon emissions than the Russell 2000® Index
Toxic emissions⁴		Fund holdings had 99% lower toxic emissions than the Russell 2000® Index
Tobacco exposure⁴		Fund holdings had 100% lower tobacco exposure than the Russell 2000® Index

*Impact comparison	Fund holdings	Russell 2000® Index holdings
Fossil fuel reserves ownership: percent of companies	0.00	3.55
Carbon emissions, metric tons	28.16	100.23
Toxic emissions, metric tons	4,841	682,396
Tobacco exposure: percent of companies	0.00	0.16

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than quoted. For the Fund's performance as of the most recent month end, please refer to eatonvance.com. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) with all distributions reinvested. Returns for other classes of shares offered by the Fund are different. Performance less than or equal to one year is cumulative. Performance prior to December 31, 2016 reflects the performance of the Fund's former adviser, Calvert Investment Management, Inc. The minimum investment is \$1,000 for A Shares and \$1,000,000 for I Shares. Minimums may be waived in certain situations. Please see the prospectus for additional information.

About Calvert

Calvert Research and Management (Calvert) is a global leader in responsible investing. Calvert sponsors one of the largest and most diversified families of responsibly invested mutual funds, encompassing active and passively managed equity, income, alternative and multi-asset strategies. With roots in responsible investing back to 1982, the firm seeks to generate favorable investment returns for clients by allocating capital consistent with environmental, social and governance best practices and through structured engagement with portfolio companies. Headquartered in Washington, D.C., Calvert manages assets on behalf of funds, individual and institutional separate account clients, and their advisors. For more information, visit calvert.com.

Portfolio characteristics excludes 1 security in Calvert's High Impact Investments program, which represented 0.001% of the portfolio as of 06/30/2022. High Social Impact Investments are investments that, in the Adviser's opinion, offer the opportunity for significant sustainability and social impact. These investments are generally illiquid and involve high risks. See the Fund's prospectus for details and calvert.com for a complete list of Fund holdings.

[†]Class I Ratings: 3-year: 5 stars; 5-year: 5 stars; 10-year: 5 stars. The total number of funds in the Small Blend category for the 3-, 5- and 10-year periods are 600, 541, and 358 respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds and exchange-traded funds) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Star ratings do not reflect the effect of any applicable sales load. ©2022 Morningstar. All Rights Reserved. RISK CONSIDERATIONS

The value of investments held by the Fund may increase or decrease in response to economic, and financial events (whether real, expected or perceived) in the U.S. and global markets. The value of equity securities is sensitive to stock market volatility. Smaller companies are generally subject to greater price fluctuations, limited liquidity, higher transaction costs and higher investment risk than larger, more established companies. Investing primarily in responsible investments carries the risk that, under certain market conditions, the Fund may underperform funds that do not utilize a responsible investment strategy. The Fund is exposed to liquidity risk when trading volume, lack of a market maker or trading partner, large position size, market conditions, or legal restrictions impair its ability to sell particular investments or to sell them at advantageous market prices. The impact of the coronavirus on global markets could last for an extended period and could adversely affect the Fund's performance. No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.

This material is a general communication, which is not impartial and all information provided has been prepared solely for informational and educational purposes and does not constitute an offer or a recommendation to buy or sell any particular security or to adopt any specific investment strategy. The information herein has not been based on a consideration of any individual investor circumstances and is not investment advice, nor should it be construed in any way as tax, accounting, legal or regulatory advice. To that end, investors should seek independent legal and financial advice, including advice as to tax consequences, before making any investment decision.

Please consider the investment objectives, risks, charges and expenses of the funds carefully before investing. The prospectuses contain this and other information about the funds.
