Global Infrastructure Fund (continued)

Target allocation of fund assets

The percentages below represent the target allocation of the Fund's assets to each money manager's strategy and Russell Investment Management, LLC (RIM) strategy. This does not include liquidity reserves managed directly by Russell Investments, which may constitute 5% or more of Fund assets at any given time.

	Role	Target allocation	Year assigned
Cohen & Steers Capital Management, Inc.**‡	Global Market-Oriented	15.0%	2010
First Sentier Investors (Australia) IM Ltd.‡	Global Market-Oriented	38.0%	2019
Nuveen Asset Management, LLC‡	Global Market-Oriented	37.0%	2010
Russell Investment Management, LLC (RIM)*	Positioning Strategies and Cash Reserves	10.0%	2015

Money Managers listed are current as of June 30, 2022. Subject to the Fund's Board approval, Russell Investment Management, LLC has the right to engage or terminate a money manager at any time and without a shareholder vote, based on an exemptive order from the Securities and Exchange Commission. Investments in the Funds are not deposits with or other liabilities of any of the money managers and are subject to investment risk, including loss of income and principal invested and possible delays in payment or redemption proceeds. The money managers do not guarantee the performance of any Fund or any particular rate of return.

While the investment styles employed by the money managers are intended to be complementary, they may not in fact be complementary. A multi-manager approach could result in more exposure to certain types of securities and higher portfolio turnover.

Investments in infrastructure-related companies have greater exposure to the potential adverse economic, regulatory, political and other changes affecting such entities. Investment in infrastructure-related companies are subject to various risks including governmental regulations, high interest costs associated with capital construction programs, costs associated with compliance and changes in environmental regulation, economic slowdown and surplus capacity, competition from other providers of services and other factors. Investment in non-U.S. and emerging market securities is subject to the risk of currency fluctuations and to economic and political risks associated with such foreign countries.

† The Net Annual Operating Expense Ratio may be less than the Total Operating Expense Ratio and represents the actual expenses expected to be borne by shareholders after application of: (a) a contractual transfer agency fee or advisory fee waiver through February 28, 2023; (b) a contractual cap and reimbursement on expenses through February 28, 2023; These contractual agreements may not be terminated during the relevant periods except at the Board of Trustee's discretion. Details of these agreements are in the current prospectus. Absent these reductions, the fund's return would have been lower.

** Cohen & Steers Capital Management, Inc. refers to Cohen & Steers Capital Management, Inc., Cohen & Steers UK Limited, and Cohen & Steers Asia Limited.

*RIM manages Fund assets not allocated to money manager strategies and utilizes quantitative and/or rules-based processes and qualitative analysis to assess Fund characteristics and invest in securities and instruments which provide the desired exposures. This includes the Fund's positioning strategy, which is used to seek excess return and manage portfolio risks by targeting specific exposures, and the active tax management strategy that is implemented across the entire fund. These strategies are used in conjunction with allocations to third-party managers to fully reflect Russell Investments' strategic and dynamic views with integrated liquidity and risk management.

‡This money manager is a non-discretionary manager. Russell Investment Management, LLC (RIM) manages this portion of the fund's assets based upon a model portfolio provided by the money manager.

The Fund offers other classes of shares with higher fees and expenses. These other classes may charge up to a 0.75% distribution fee and a 0.25% shareholder servicing fee which will result in a higher expense ratio and lower performance than that shown above. For a full description of other available classes, please see the prospectus.

Diversification and strategic asset allocation do not assure profit or protect against loss in declining markets.

Mutual Fund investing involves risk, principal loss is possible.
