

Nationwide NYSE Arca Tech 100 Index Fund

Q3 2022
AS OF 09/30/22

Objective: Seeks to track the total return of the NYSE Arca Tech 100 Index before deducting for Fund expenses

Class A: NWJCX
Class C: NWJDX
Inst Svc: NWJFX

Asset class: Sector Equity
Morningstar category: Technology

Broad diversification

Invests broadly in U.S. multi-industry technology, including health care, and exposure to companies that produce or deploy innovative technologies

Price-weighted methodology

Believes stock price rather than market cap determines the weight of stocks in the index, reducing concentration of top holdings within the portfolio

Exclusivity

Represents the only fund based on the NYSE Arca Tech 100 Index, a widely recognized benchmark for the U.S. technology sector for more than 30 years

Fund performance is based on total return whereas benchmark performance is price return. Performance returns assume the reinvestment of all distributions. Returns for periods less than one year are not annualized. Total returns reflect a contractual expense limitation for direct annual Fund expenses for all classes for certain periods since inception, without which returns would have been lower. Pre-inception historical performance for newer share classes is based on the corresponding share class performance of a Fund's predecessor fund with its existing fee structure, which began on 06/10/1996.

Share class	Expense ratios		Inception date
	Gross (%)	Net (%)	
Class A	0.63	0.63	09/16/2013
Class C	1.35	1.35	09/16/2013
Institutional Service Class	0.41	0.41	09/16/2013

The expense ratios are as shown in the most recent prospectus. Please see the Fund's prospectus for more details.

DEFINITIONS: **Average annual total returns** are the annual compounded returns that would have produced the cumulative total return if fund performance had been constant during the given period. **P/E ratio** is the price of a stock divided by trailing 12-month earnings per share. **Sharpe ratio** measures excess return per unit of risk (standard deviation). A higher Sharpe ratio suggests better risk-adjusted performance. **Standard deviation** measures performance fluctuation, may not be indicative of future risk and is not a predictor of returns. **Alpha** represents the excess returns of a fund relative to its benchmark. A positive alpha is the added value an active manager has contributed over the benchmark returns. **Beta** measures volatility in relation to the fund's benchmark. A beta of less than 1.0 indicates lower volatility, while a beta of more than 1.0 indicates higher volatility relative to the benchmark. **R-Squared** measures the percentage of a fund's movements that can be explained by movements in a benchmark. **Turnover** measures how frequently investments are bought and sold within a fund during a 12 month period. The portfolio turnover rate is as of the fund's fiscal year end and is usually expressed as a percentage of the total value of a fund.

Call 800-848-0920 to request a summary prospectus and/or a prospectus, or download prospectuses at nationwide.com/mutual-funds-prospectuses.jsp. These prospectuses outline investment objectives, risks, fees, charges and expenses, and other information that you should read and consider carefully before investing.

KEY RISKS: The Fund seeks to match the performance of an index. Correlation between Fund performance and index performance may be affected by Fund expenses, index composition changes, and the timing of Fund share purchases and redemptions. The Fund is subject to the risks of investing in equity securities (including small companies). Smaller companies are usually less stable in price and less liquid than larger, more established companies. Smaller companies are more vulnerable than larger companies to adverse business and economic developments and may have more limited resources. Therefore, they generally involve greater risk. The Fund may invest in more-aggressive investments such as derivatives (many of which create investment leverage and are highly volatile) and exchange-traded funds (ETFs) (shareholders will bear additional costs). Please refer to the most recent prospectus for more detailed information.
