

PACE Global Real Estate Securities Investments

September 30, 2022

A high-conviction real estate fund seeking to deliver total return through bottom-up stock selection.

Fundamental, value-based approach.

The Fund seeks to achieve total return by investing in real estate investment trusts ("REITs") and other related securities by focusing on fundamental, bottom-up stock selection taking into account stock price and asset values.

Broad opportunity set.

The Fund seeks opportunities to invest in securities of issuers located in a number of countries throughout the world. In most instances, it will have exposure to real estate securities in the United States and in at least three other countries.

Focus on best ideas.

The top 10 holdings will typically represent 40% to 60% of the total portfolio, focusing portfolio assets on the highest conviction ideas.

Performance vs. key indices¹

	Average annual total return as of September 30, 2022 (%)						Since inception
	3Q22	YTD	1 yr.	3 yrs.	5 yrs.	10 yrs.	
PACE Global Real Estate Securities Class P	-12.89	-32.57	-24.36	-6.84	-1.66	2.76	0.09

Performance quoted is past performance and no guarantee of future results. Results assume the reinvestment of all dividends and capital gains. Due to market volatility, current returns may be significantly higher or lower than those shown. See www.ubs.com/us-mutualfundperformance for current month-end performance. Investment return and principal value will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. You can lose money investing in the Fund. Class P share performance does not reflect the deduction of any program fees. If it had, performance would be lower.

For more information:

Contact your financial advisor or UBS Asset Management at 888-793 8637 for a current prospectus. Consider carefully the Fund's investment objectives, risks, charges, expenses and other matters of interest set forth in the prospectus. The prospectus contains this and other information about the Fund. Please read it carefully and consider them before investing. It is important you have all the information you need to make a sound investment decision. An investment in a fund is only one component of a balanced investment plan.

Special considerations:

Investors in the Fund should be able to withstand short-term fluctuations in the equity markets in return for potentially higher returns over the long term. The value of the Fund changes every day and may be affected by changes in interest rates, general market conditions, and other political, social and economic developments, as well as specific matters relating to the companies in whose securities the Fund invests. The value of the Fund's investments in foreign securities may fall due to adverse political, social and economic developments abroad, and due to decreases in foreign currency values relative to the US dollar. These risks are greater for investments in emerging market issuers than for issuers in more developed countries. Shares of Funds are not deposits or obligations of any bank or government agency and are not guaranteed by the FDIC or any other agency. Additional risks and considerations are noted in the Fund's prospectus.

Risk information:

- **Real estate industry risk:** An investment in the fund is subject to certain risks associated with the direct ownership of real estate and with the real estate industry in general, including possible declines in the value of real estate; risks related to general and local economic conditions; possible lack of availability of mortgage financing; variations in rental income, neighborhood values or the appeal of property to tenants; interest rates; overbuilding; extended vacancies of properties; increases in competition, property taxes and operating expenses; and changes in zoning laws. The values of securities of companies in the real estate industry, which is sensitive to economic downturns, may go through cycles of relative underperformance and outperformance in comparison to equity securities markets in general.
- **Real estate investment trust risk:** The performance of equity and mortgage REITs depends on how well each REIT manages its properties. Equity REITs, which invest directly in real estate properties and property developers, may be affected by any changes in the value of the underlying property owned by the trusts. Mortgage REITs, which specialize in lending money to developers of properties, may be affected by the quality of any credit extended.

¹ As of September 30, 2022. Except where noted, comparative fund performance does not account for the deduction of sales charges and would be different if sales charges were included. Returns would be lower if certain expense waivers had not been in effect. Class A shares are subject to a maximum 5.50% front-end sales charge. They are subject to an ongoing 12b-1 service fee of 0.25%. Purchases of \$1 million or more are not subject to a front-end sales charge; however, there is a 1.00% contingent deferred sales charge if redeemed within one year of the purchase date. Other share classes are offered and their returns will vary depending on expenses and sales charges. Life returns for an index are as of the nearest month-end of the inception date of the Fund. The FTSE EPRA/NAREIT Developed Index is designed to represent general trends in eligible real estate equities worldwide. Index performance does not reflect deduction of fees and expenses.

² Expense ratios are as of the Fund's most recent prospectus dated November 26, 2021. The Fund and UBS Asset Management have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS Asset Management is contractually obligated to: 1) waive its management fees through November 30, 2022 to the extent necessary to offset the cost savings to UBS AM for allocating a portion of the Fund's assets to other unaffiliated pooled investment vehicles and index futures; and (2) waive a portion of its management fees and/or reimburse expenses through November 30, 2021 so that the Fund's ordinary total operating expenses (excluding dividend expense, borrowing costs and interest expense relating to short sales, and expenses attributable to investment in other investment companies, interest, taxes, brokerage commissions and extraordinary expenses) would not exceed 1.45% for Class A and 1.20% for Class P. For more information, please refer to the Fund's prospectus.

³ Sharpe ratio measures a fund's return per unit of risk.

⁴ Standard deviation is a measure of the range of a portfolio's performance—that is, the degree to which it rises above and falls below its average return.

⁵ UBS Asset Management's Multi-Manager Solutions (MMS) team consists of 10 dedicated investment professionals with over 130 years of cumulative experience and an average of 14 years of industry experience.

⁶ Represents the target allocation for the investment manager as of September 30, 2022. Investment managers and their allocations are subject to change.

⁷ The Fund's portfolio is actively managed, and its composition will differ over time. Holdings and Country Breakdown are subject to change and as of September 30, 2022. Percentage totals may not equal 100% due to rounding.
