Net Expense Ratio	0.35%

*Van Eck Associates Corporation (the "Adviser") will pay all expenses of the Fund, except for the fee payment under the investment management agreement, acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses. Notwithstanding the foregoing, the Adviser has agreed to pay the offering costs until at least September 1, 2023.

Fund Description

The VanEck Short High Yield Muni ETF (SHYD®) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of ICE 1-12 Year Broad High Yield Crossover Municipal Index (MIHX), which is intended to track the overall performance of the U.S. dollar denominated high yield short-term tax-exempt bond market.

**Index data prior to March 1, 2022 reflects that of the Bloomberg Municipal High Yield Short Duration Index (BMHYTR). From March 1, 2022 to November 30, 2022 the index data reflects that of the ICE 1-12 Year High Yield Crossover Municipal Bond Transition Index (MXIT). From December 1, 2022 forward, the index data reflects that of the Fund's underlying index, the ICE 1-12 Year Broad High Yield Crossover Municipal Index (MIHX). Index history which includes periods prior to December 1, 2022 links the performance of BMHYTR, MXIT, and MIHX and is not intended for third party use.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Please call 800.826.2333 or visit vaneck.com for performance current to the most recent month ended.

The "Net Asset Value" (NAV) of a Fund is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Investors should not expect to buy or sell shares at NAV.

Fundamentals*

Modified Duration (yrs)	4.65
Years to Maturity	8.02

*These figures represent weighted averages. Duration to Worst measures the duration of a bond computed using the bond's nearest call date or maturity, whichever comes first. This measure ignores future cash flow fluctuations due to embedded optionality. Years to Maturity is the period of time for which a financial instrument remains outstanding.

Prior to September 1, 2020, the fund was known as the VanEck Short High-Yield Municipal Index ETF.

Index returns are not Fund returns and do not reflect any management fees or brokerage expenses. Certain indices may take into account withholding taxes. Investors can not invest directly in the Index. Index returns assume that dividends have been reinvested.

†Credit quality ratings are measured on a scale that ranges from AAA (highest) to D (lowest), and are based on credit ratings from S&P and Moody's. If more than one rating is available for an underlying security, the lower of the two ratings is used. If a bond issued by a national government, national government agency or supranational issuer is not rated, the issuer's credit rating will be used. If two issuer ratings are available, the lower of the two is used. If only one rating is available in all scenarios, we will use the rating provided. If no rating is available, the security will be not rated. Not rated securities do not necessarily indicate lower credit quality. Below investment-grade is represented by a rating of BB and below. Ratings and portfolio credit quality may change over time.

An investment in the Fund may be subject to risks which include, among others, risks related to municipal securities, credit, interest rate, high yield securities, industrial development bond, special tax bond, Illinois, New York, call risk, private activity bonds, market, operational, sampling, index tracking, tax, authorized participant concentration risk, no guarantee of active trading market, trading issues, passive management, fund shares trading, premium/discount and liquidity of fund shares, and concentration risks, all of which may adversely affect the Fund. High-yield municipal bonds are subject to greater risk of loss of income and principal than higher-rated securities, and are likely to be more sensitive to adverse economic changes or individual municipal developments than those of higher-rated securities. Municipal bonds may be less liquid than taxable bonds. A portion of the dividends you receive may be subject to the federal alternative minimum tax (AMT). There is no guarantee that the Fund's income will be exempt from federal, state or local income taxes, and changes in those tax rates or in alternative minimum tax rates or in the tax treatment of municipal bonds may make them less attractive as investments and cause them to lose value. Capital gains, if any, are subject to capital gains tax. The Fund's assets may be concentrated in a particular sector and may be subject to more risk than investments in a diverse group of sectors.

Investing involves substantial risk and high volatility, including possible loss of principal. Bonds and bond funds will decrease in value as interest rates rise. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contain this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.
