DWS Health and Wellness Fund

Q4 | 12.31.22

Share Class: A I SUHAX C I SUHCX S I SCHLX INST I SUHIX

Objective

The fund seeks long-term growth of capital.

Strategy

Portfolio management considers wellness-related companies to include companies in the health care industry and other companies that provide products or services that promote or aid in achieving a healthy lifestyle (for example, healthy food and nutrition companies and gym operators). The strategy seeks to invest in companies that are able to translate innovation into above-average sustainable growth relative to peers. The strategy balances investments in emerging mid and small-cap growth companies with stable, established large-cap companies. The strategy is diversified across health care sub-sectors to manage risk.

Expense ratio (as of latest prospectus)

Class	Net	Gross	Contractual Waiver
A	1.32%	1.32%	09/30/2023
С	2.07%	2.10%	09/30/2023
S	1.04%	1.04%	_
INST	1.05%	1.05%	

Without a waiver, returns would have been lower and any rankings/ratings might have been less favorable.

Performance is historical and does not guarantee future results. Investment returns and principal fluctuate so your shares may be worth more or less when redeemed. Current performance may differ from the data shown. Please visit www.dws.com for the fund's most recent month-end performance. Performance includes reinvestment of all distributions. Index returns assume reinvestment of all distributions and do not reflect fees or expenses. It is not possible to invest directly in an index. Not all share classes are available to all investors. A minimum investment of \$1 million is required to open an account for Institutional shares.

*This fund's performance prior to inception reflects that of Class S shares. Returns prior to inception reflect the original share class performance, adjusted for higher operating expenses and/or the maximum sales charge.

Sector allocation (12/31/22)

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the fund and its investments.

Fund risk: Stocks may decline in value. Any fund that concentrates in a particular segment of the market will generally be more volatile than a fund that invests more broadly. The fund may lend securities to approved institutions. Please read the prospectus for details.

Consider the investment objective, risks, charges and expenses carefully before investing. For a summary prospectus, or prospectus that contains this and other information, download one from www.dws.com or talk to your financial representative. Read the prospectus carefully before investing.

The brand DWS represents DWS Group GmbH & Co. KGaA and any of its subsidiaries such as DWS Distributors, Inc., which offers investment products, or DWS Investment Management Americas, Inc. and RREEF America L.L.C., which offer advisory services.

Investment products: No bank guarantee \perp Not FDIC insured \perp May lose value

¹ S&P 500 Index tracks the performance of 500 leading U.S. stocks and is widely considered representative of the U.S. equity market.

² The MSCI World Health Care Index measures the performance of the global health care sector and is designed to capture the large and mid cap segments across 23 Developed Markets (DM) countries. All securities in the index are classified in the Health Care as per the Global Industry Classification Standard (GICS®).

³ Standard deviation is a three-year statistical measure of the volatility of a fund's returns. Generally, the greater the standard deviation, the greater the fund's volatility. Turnover rate is the rate of trading activity in a fund's portfolio of investments, equal to the lesser of purchases or sales, for a year, divided by average total assets for that year. §Source: Morningstar, Inc. as of 11/30/2022.
