

American Beacon

International Equity Fund

Portfolio Information as of December 31, 2022

American Beacon®
FUNDS

INVESTMENT OBJECTIVE

A multi-manager Fund seeking long-term capital appreciation primarily through investments in equity securities of issuers based outside the U.S.

TEAM OF MANAGERS

The Fund is sub-advised by three complementary asset managers:

Causeway: Focuses on how cash can be passed along to shareholders through dividends or share buybacks.

Lazard: High-quality manager that typically owns better-known, larger-cap stocks.

American Century: Invests with an absolute value, private-equity mindset, applying a margin of safety to mitigate downside risks.

VALUE-DRIVEN APPROACH

The Fund looks for undervalued securities in developed countries. Using bottom-up, fundamental analysis, the sub-advisors select securities that are attractively valued with improving growth prospects.

- They look for companies with below-average price-to-earnings ratios and below-average price-to-book-value ratios.
- They also seek companies with above-average dividend yields and above-average return on equity or earnings growth potential.

GROWTH OF \$10,000 (December 31, 2012 – December 31, 2022)

This chart is for illustrative purposes only. Please note that the minimum contribution for the R5 Class is \$250,000.

Investing in **foreign securities** may involve heightened risk due to currency fluctuations and economic and political risks. Investing in **value stocks** may limit downside risk over time; however, the Fund may produce more modest gains than riskier stock funds as a trade-off for this potentially lower risk. The use of **futures contracts** for cash management may subject the Fund to losing more money than invested. The Fund participates in a **securities lending** program. Please see the prospectus for a complete discussion of the Fund's risks. There can be no assurances that the investment objectives of this Fund will be met.

Important Information: All investing involves risk, including possible loss of principal. Indexes are unmanaged and one cannot invest directly in an index. Please note that the recent performance of the securities market has helped produce short-term returns that are not typical and may not continue in the future.

A portion of fees charged to the R5 Class was waived from 2013 through 2015. Performance prior to waiving fees was lower than actual returns shown for 2013 through 2015. Specific information about any Fund may be found at americanbeaconfunds.com or in the prospectus.

The Lipper International Funds Index tracks the results of the 30 largest mutual funds in the Lipper International Funds category. Lipper is an independent mutual fund research and ranking service. The MSCI® EAFE Index is a market capitalization weighted index of international stock performance composed of equities from developed markets excluding the U.S. and Canada. The MSCI® EAFE Value Index is an unmanaged index of those stocks in the MSCI® EAFE Index with lower price-to-book ratios and lower forecasted growth values. The MSCI information contained herein: (1) is provided "as is," (2) is proprietary to MSCI and/or its content providers, (3) may not be used to create any financial instruments or products or any indexes and (4) may not be copied or distributed without MSCI's express written consent. MSCI disclaims all warranties with respect to the information. Neither MSCI nor its content providers are responsible for any damages or losses arising from any use of this information.

The Growth of \$10,000 graph shows a fund's performance based on how \$10,000 invested in the fund would have grown over time with dividends reinvested.

The P/E Ratio of a stock is calculated by dividing the current price by forecasted 12-month earnings per share. The P/B Ratio of a stock is calculated by dividing the current price by book value per share. R-squared (R²) is the percentage of the Fund's three-year return that is explained by movements in its benchmark index. Alpha is a measure of the Fund's expected performance versus the benchmark, adjusted for relative risk. Beta is a measure of the Fund's volatility versus the benchmark. Sharpe Ratio is a measure of the Fund's return per unit of total risk. Standard Deviation is a measure of the historical volatility of the Fund's returns. Return on Equity (ROE) is net income divided by net worth.

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within the scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of performance figures associated with its three-, five- and 10-year (if applicable) Morningstar Rating metrics. In the U.S.-domiciled Foreign Large Value category, the American Beacon International Equity Fund (R5 Class) was rated 3 stars out of 321 funds overall. The fund was rated 2 stars out of 321 funds; 2 stars out of 298 funds and 3 stars out of 177 funds for the three-, five- and 10-year periods, respectively. Past performance is no guarantee of future results.
