

Morgan Stanley Europe Opportunity Fund

Investment Objective: Seeks to maximize the capital appreciation of its investments.

Investment Approach: The fund seeks to maximize capital appreciation by investing primarily in high quality established and emerging companies located in Europe that the investment team believes are undervalued at the time of purchase. To achieve its objective, the investment team typically favors companies it believes have sustainable competitive advantages that can be monetized through growth. The investment process integrates analysis of sustainability with respect to disruptive change, financial strength, environmental and social externalities and governance (also referred to as ESG).

Class I Shares (% net of fees) vs. Index

Performance of 10,000 USD Invested Since Inception (Cash Value (\$))

Investment Team

	JOINED FIRM	INDUSTRY EXPERIENCE
Kristian Heugh	2001	22 Years
Anil Agarwal	2001	22 Years

Team members may be subject to change at any time without notice. Effective December 29, 2022, Anil Agarwal serves as a co-portfolio manager of the Fund. Kristian Heugh will continue as the lead portfolio manager.

Investment Performance (% net of fees) in USD

	Cumulative (%)			Annualized (% p.a.)			
	4Q22	YTD	1 YR	3 YR	5 YR	10 YR	INCEPTION ¹
Class I Shares	16.58	-44.49	-44.49	0.00	2.06	3.79	4.48
MSCI Europe Index	19.35	-15.06	-15.06	1.35	1.87	4.58	4.76

Calendar Year Returns (%)

	2022	2021	2020	2019	2018	2017	2016
Class I Shares	-44.49	15.79	55.56	27.31	-13.01	23.11	-2.63
MSCI Europe Index	-15.06	16.30	5.38	23.77	-14.86	25.51	-0.40

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit morganstanley.com/im or call 1-800-548-7786. Investment returns and principal value will fluctuate and fund shares, when redeemed, may be worth more or less than their original cost.

Performance and fund information is as of December 31, 2022, unless otherwise noted. Returns are net of fees and assume the reinvestment of all dividends and income. Returns for less than one year are cumulative (not annualized). Performance of other share classes will vary.

Growth of Investment illustration is based on an initial investment of \$10,000 made since fund inception, assumes reinvestment of dividends and capital gains and application of fees, but does not include sales charges. Performance would have been lower if sales charges had been included. Results are hypothetical.

Please keep in mind that high double-digit returns are highly unusual and cannot be sustained. Investors should also be aware that these returns were primarily achieved during favorable market conditions.

Expense Ratios

	SYMBOL	CUSIP	GROSS (%)	NET (%)
Class A	EUGAX	616939104	1.42	1.38
Class C	MSEEX	616939708	2.19	2.15
Class I	EUGDX	616939401	1.16	1.05

Where the net expense ratio is lower than the gross expense ratio, certain fees have been waived and/or expenses reimbursed. These waivers and/or reimbursements will continue for at least one year from the date of the applicable fund's current prospectus (unless otherwise noted in the applicable prospectus) or until such time as the fund's Board of Directors acts to discontinue all or a portion of such waivers and/or reimbursements. Absent such waivers and/or reimbursements, returns would have been lower. Expenses are based on the fund's current prospectus. The minimum initial investment is \$1,000,000 for Class I shares.

Effective April 2020 the Morgan Stanley European Equity Fund Inc. was renamed to Morgan Stanley Europe Opportunity Fund, Inc., the portfolio management team was changed, and the investment approach was revised. Prior to this date, the investment approach was "Seeks capital appreciation by investing in European companies that the investment team believes possess a prominent and sustainable position in their field, potentially enabling superior profitability and investment returns. The investment team combines quantitative filters with rigorous qualitative analysis to create a concentrated, high conviction portfolio."

Please refer to the fund's Supplement to Prospectus for further information on the changes.

GLOBAL OPPORTUNITY TEAM

Best European Region Fund 2021-2022

Class I Shares. Based on risk adjusted performance among 17 funds (3yr and 5 yr) in 2022 and among 17 funds (3yr) in 2021. Calculation periods are through the end of November of the respective evaluation year.

Past performance is no guarantee of future results. For more information see disclosures on page 2.

This material is a general communication, which is not impartial and all information provided has been prepared solely for informational and educational purposes and does not constitute an offer or a recommendation to buy or sell any particular security or to adopt any specific investment strategy. The information herein has not been based on a consideration of any individual investor circumstances and is not investment advice, nor should it be construed in any way as tax, accounting, legal or regulatory advice. To that end, investors should seek independent legal and financial advice, including advice as to tax consequences, before making any investment decision.

Past performance is not indicative of future results. Subject to change daily. Fund information is provided for informational purposes only and should not be deemed as a recommendation to buy or sell any security or securities in the sectors and countries that may be presented.

Index data displayed under characteristics and allocations are calculated using MSIM and/or other third-party methodologies and may differ from data published by the vendor.

DEFINITIONS: **5 year free cash flow growth** is the compound annual growth rate of Free Cash Flow over a 5-year period. **5 year sales growth** is the compound annual growth rate of Sales over the last 5 years. **Active share** is the fraction of the portfolio or fund that is invested differently than its benchmark as of the last day of the reporting period. **Alpha (Jensen's)** is a risk-adjusted performance measure that represents the average return on a portfolio or investment above or below that predicted by the capital asset pricing model (CAPM) given the portfolio's or investment's beta and the average market return. Prior to 6/30/2018 Alpha was calculated as the excess return of the fund versus benchmark. **Beta** is a measure of the relative volatility of a security or portfolio to the market's upward or downward movements. **Excess return** or value added (positive or negative) is the portfolio's return relative to the return of the benchmark. **Information ratio** is the portfolio's alpha or excess return per unit of risk, as measured by tracking error, versus the portfolio's benchmark. **Net cash to equity** is the ratio of a company's cash on hand against the total net worth of the company. **R squared** measures how well an investment's returns correlate to an index. An R squared of 1.00 means the portfolio performance is 100% correlated to the index's, whereas a low r-squared means that the portfolio performance is less correlated to the index's. **Return on assets (ROA)** is a measure of a company's profitability, equal to a fiscal year's earnings divided by its total assets, expressed as a percentage. **Return on invested capital (ROIC)** represents the performance ratio measuring a company's percentage return on its invested capital. Income statement items as of latest reported fiscal period, and Balance Sheet items from one period earlier. **Sharpe ratio** is a risk-adjusted measure calculated as the ratio of excess return to standard deviation. **Standard deviation** measures how widely individual performance returns, within a performance series, are dispersed from the average or mean value. **Tracking error** is the amount by which the performance of the portfolio differs from that of the benchmark. **Upside/downside market capture** measures annualized performance in up/down markets relative to the market benchmark. **Weighted average market capitalization** is an average of the market capitalization of stocks held by a portfolio or comprising an index, adjusted by each stock's corresponding weight in the portfolio or index.

INDEX INFORMATION: ⁽¹⁾ The **MSCI Europe Index** is a free float-adjusted market capitalization index that is designed to measure developed market equity performance in Europe. The term "free float" represents the portion of shares outstanding that are deemed to be available for purchase in the public equity markets by investors. The performance of the Index is listed in U.S. dollars and assumes reinvestment of net dividends.

The index is unmanaged and does not include any expenses, fees or sales charges. It is not possible to invest directly in an index. Any index referred to herein is the intellectual property (including registered trademarks) of the applicable licensor.

RISK CONSIDERATIONS: There is no assurance that a mutual fund will achieve its investment objective. Funds are subject to market risk, which is the possibility that the market values of securities owned by the fund will decline and that the value of fund shares may therefore be less than what you paid for them. Market values can change daily due to economic and other events (e.g. natural disasters, health crises, terrorism, conflicts and social unrest) that affect markets, countries, companies or governments. It is difficult to predict the timing, duration, and potential adverse effects (e.g. portfolio liquidity) of events. Accordingly,

you can lose money investing in this fund. Please be aware that this fund may be subject to certain additional risks. In general, **equities securities** values also fluctuate in response to activities specific to a company. Investments in **foreign markets** entail special risks such as currency, political, economic, market and liquidity risks. The risks of investing in **emerging market countries** are greater than the risks generally associated with investments in foreign developed countries. **European investments risk.** Adverse political, social or economic developments in Europe, or in a particular European country, could cause a substantial decline in the value of the Portfolio. In addition, because investments are concentrated in Europe, performance may be more volatile than a more geographically diversified set of investments. If one or more countries leave the European Union ("EU") or the EU dissolves, the world's securities markets likely will be significantly disrupted. The financial instability of some countries in the EU together with the risk of such instability impacting other more stable countries may increase the economic risk of investing in companies in Europe. **Focused investing** To the extent that the Fund invests in a limited number of issuers, the Fund will be more susceptible to negative events affecting those issuers and a decline in the value of a particular instrument may cause the Fund's overall value to decline to a greater degree than if the Fund were invested more widely. **Derivative instruments** may disproportionately increase losses and have a significant impact on performance. They also may be subject to counterparty, liquidity, valuation, correlation and market risks. There is no assurance strategies that incorporate **ESG factors** will result in more favorable investment performance. **Privately placed and restricted securities** may be subject to resale restrictions as well as a lack of publicly available information, which will increase their illiquidity and could adversely affect the ability to value and sell them (**liquidity risk**).

Lipper Fund Awards. Source: **Lipper Inc.** The Refinitiv Lipper Fund Awards, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers. The Refinitiv Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is a risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification wins the Refinitiv Lipper Fund Award.
